1. PURPOSE. This AFJQS identifies tasks and duty requirements for individuals performing duties within a Special Tactics Vehicle Management (STVM) function. This AFJQS will be available on the Air Force e-Publishing Site and eventually will be migrated into Air Force MyTraining. This must be used to develop the Master Training Plan (MTP) for STVM and any Individual Training Records (ITR). This AFJQS will remain in effect until superseded or rescinded.

2. TASK QUALIFICATION. Personnel will be qualified to the GO/NO GO standard for all tasks listed in this AFJQS. GO means the individual can perform/identify the task, without assistance, utilizing appropriate instructions, training references, or other procedural guidance. If the required training listed in Part II of this AFJQS is provided, a supervisor/trainer from the 2T3 functionality will complete the trainer's block to document training completion.

3. ADDITIONAL DUTY or TASK. If personnel are assigned an additional duty or task not listed in this AFJQS, the supervisor will develop an AF IMT 797, *Job Qualification Standard Continuation/ Command JQS.* The supervisor/trainer will then develop a plan for their trainees to receive training and become duty position qualified.

4. TRAINING DOCUMENTATION AND TRAINER/CERTIFIER IDENTIFICATION. Document training required by this AFJQS in accordance with DAFMAN 36-2689, *Training Program*. For civilian personnel, document training on Supervisor-Employee-Brief-971.

5. This AFJQS has been coordinated with all applicable CFMs. Overall POC for this AFJQS is HAF/A4LR, DSN 223-5021, AF.A4LR.Workflow@us.af.mil.
