1. PURPOSE. As directed by DAFI 31-103, *Law Enforcement Programs,* and Army Technique Publication 3-39.12, Law Enforcement Investigations, this AFJQS identifies the minimum training requirements to become a certified Military Criminal Investigator and be awarded Special Experience Identifier (SEI) 321. This AFJQS must be utilized by all investigators assigned to a Security Forces Squadron or Unit Type Code and shall serve as a roadmap to develop the Law Enforcement Master Training Plan (MTP) and Individual Training Plan (ITP). The process for obtaining the Security Forces Criminal Investigator SEI 321 will be completed after obtaining the certified Law Enforcement Officer SEI L3/3LE in accordance with DoDI 5525.15, *Law Enforcement (LE) Standards and Training in the DoD* and DoD Peace Officer Standards and Training (POST) Commission Guideline #1 and viewed as an advanced certified law enforcement skillset. This AFJQS applies to military and civilian Airmen and Guardians assigned to perform duties as Security Forces Criminal Investigators and Detectives and will remain in effect until superseded or rescinded.

2. TASK QUALIFICATION. Personnel will be certified to the GO/NO GO standard on this AFJQS. GO means the individual can perform the task without assistance utilizing appropriate instructions or other procedural guidance. Completion of training tasks listed in Part II of this AFJQS will be provided through a combination of on-the-job home station training, in-residence attendance at the Veterans Affairs Law Enforcement Training Center (VA LETC) Security Forces Criminal Investigator Course (Little Rock, AR), U. S. Army Military Police Investigator (MPI) Course, (Ft. Leonard Wood, MO), Federal Law Enforcement Training Center (FLETC) Basic Special Investigator Course (BSIC) (Glynco, GA), distance learning (DL), web-based courses, or course material accepted through the established waiver process. A task qualified supervisor/trainer/certifier from the respective functional area must document training and certification for a person to be considered trained and certified on a task.

3. TRAINING DOCUMENTATION AND TRAINER/CERTIFIER IDENTIFICATION. Document training required by this AFJQS in accordance with DAFI 36-2689, *Training Program* and any automated learning management system (LMS) procedural guides. Military and civilian personnel will both utilize the Air Force approved LMS unless it is unavailable. In those instances, military and civilian personnel will utilize a paper copy record of this AFJQS and retain it in their On-the-Job training record for military and in the Supervisor's Employee Brief for civilian personnel. Per DAFI 36-2689, critical tasks associated with this AFJQS are noted by an asterisk (*) in this AFJQS and require third party certification (meaning the trainer and certifier must be separate individuals). For third party tasks, if a member with the 321 SEI is not available, the NCOIC of Training, Operations Officer, or Superintendent may perform task certification based on the ability of the SEI 321 applicant's ability to demonstrate a "GO" on the task being performed. If a military or civilian trainee is assigned an additional duty or task not included in an individual's Career Field Education and Training Plan (CFETP) or this AFJQS, the supervisor will add the task(s) to the MTP and ITP.

4. ADDITIONAL DUTY or TASK. If an Investigator is assigned an additional duty or task not listed in this AFJQS, the supervisor will develop an AF Form 797, *Job Qualification Standard Continuation/Command JQS.* The supervisor, trainer, or Program Manager will then develop a plan for the member to receive training and certification to become duty position qualified.

5. AWARD OF SEI 321: In order to attain the 321 SEI, Airman, Guardians, and 0083 personnel who attended a FLETA accredited initial skills training venue prior to 1 May 2020 must have completed the online 40-hour DoD POST Refresher Course or a 400-hour DoD POST course and be signed off on LE AFJQS DODI 5525.15, Guideline 1 tasks prior being scheduled for attendance to and AF/A4SO approved investigator academy and awarded the SEI 321. Unit Training Managers shall present the members completed LE AFJQS to the AFIMSC MRT Cell prior to receiving a Training Line Number (TLN) for an AF/A4SO approved investigator academy quota. Those who attended a FLETA accredited initial skills training after 1 May 2020 are required to attend a 400-hour DoD POST accredited academy and shall present the members completed LE AFJQS to the AFIMSC MRT Cell prior to receiving a Training Line Number (TLN) for an AF/A4SO approved investigator academy quota and prior to being awarded the SEI 321. Air National Guard (ANG) members will submit LE AFJQS to NGB/A4SO prior to being the award the SEI and follow ANG formal school process to receive TLN.

NOTE: The SEI awarding criteria established within this AFJQS supersede requirements established in the 17 March 2023 3P0X1AB CFETP. This new SEI 321 award criteria becomes effective the date this AFJQS is published, and all personnel awarded the SEI 321 prior to this publication are authorized to retain SEI 321 IAW previous requirements.

6. RECERTIFYING. For tasks previously certified and required in the current duty position, supervisors/trainers/certifiers will employ the evaluate-train-evaluate process to recertify personnel on tasks. Recertification is not required unless there is a break in the AFJQS task for more than 366 consecutive calendar days. This does not negate the requirement for military and

civilian members to undergo annual or otherwise required duty position evaluations, ensuring members are proficient on AFJQS tasks.

7. This AFJQS has been coordinated with all applicable CFMs and MFMs. The POC for this AFJQS is AFSFC/S3T all.afsfc.sfxt@us.af.mil.
