The **IG Complaints Resolution Program** provides a means of redress or appeal where one might otherwise not exist. ***However***, though not required, you are encouraged to first take your complaint to your chain of command (Supervisor, First Sergeant, Commander), as this usually allows problems to be resolved more efficiently. ***Everyone*** *has the right to file an IG complaint w*ithout notifying or following the chain of command, without fear of reprisal as ***reprisal*** is unlawful; public law protects your right to bring issues to the IG.

***We are here for you*!**

Complainants' Rights

- The right to file an IG complaint at any level without going through their supervisory channels beforehand.
- The right to file a complaint with the IG without fear of reprisal.
- The right to submit a complaint on behalf of another individual.
- The right to submit complaints anonymously.
- The right to request whistleblower protection under authority of 10 USC 1034 if they believe they have been reprised against for making or preparing to make a protected communication.
