This instruction implements Air Force Policy Directive (AFPD) 91-2, *Safety Programs,* and references Department of Defense Instruction (DoDI) 6055.04, *DoD Motor Vehicle and Traffic Safety.* The Traffic Safety Program's goal is to prevent or reduce the frequency and severity of vehicular mishaps involving Department of the Air Force (DAF) personnel, equipment, and operations. This instruction applies to individuals at all levels who are uniformed members or civilian employees of the Regular Air Force, Air Force Reserve (AFR), ANG, and the United States Space Force (USSF), and those who are contractually obligated to comply with DAF publications. Additionally, it applies to all DAF installations, including DAF-controlled installations. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program,* and are disposed of in accordance with the Air Force Records Disposition Schedule,

which is located in the Air Force Records Information Management System. Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the DAF Form 847, *Recommendation for Change of Publication;* route DAF Form 847 from the field through the appropriate functional chain of command. The authorities to waive wing, unit, delta, or garrison-level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. See DAFMAN 90-161, *Publishing Processes and Procedures,* Table A10.1, for a description of the authorities associated with the Tier numbers and waiver approval authority. Submit requests for waivers through the chain of command to the appropriate Tier/Waiver approval authority. For non-tiered compliance item requests for waiver, submit requests to the requestor's commander. Submitting a waiver to the proper Tier/Waiver approval authority or publication OPR may be accomplished by sending an email of a completed DAF Form 679, *Department of the Air Force Publication Compliance Item Waiver Request/Approval,* or equivalent. This publication may be supplemented at any level, but all supplements must be routed to the OPR of this publication for coordination prior to certification and approval. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

(AFSOC) Department of the Air Force Instruction (DAFI) 91-207, *The Traffic Safety Program*, is supplemented as follows: This supplement establishes Air Force Special Operations Command (AFSOC) unique mishap investigation and reporting guidance. This supplement applies to all Regular Air Force, Air Force Reserve, and Air National Guard military and civilian personnel subject to AFSOC administrative control (ADCON). This publication does not apply to the United States Space Force. The authorities to waive wing/unit level requirements in this publication are identified with a tier ("T-0, T-1, T-2, T-3") number following the compliance statement. Submit requests for waivers through the chain of command to the appropriate tier waiver approval authority, or alternately, to the publication OPR for non-tiered compliance items. Refer recommended changes and questions about this publication to the publication OPR using the DAF Form 847, *Recommendation for Change of Product*; route DAF Forms 847 from the field through the appropriate functional's chain of command. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. This publication may not be supplemented or further implemented/extended.

SUMMARY OF CHANGES

This document is substantially revised and must be completely reviewed. This revision clarifies changes to the DoDI 6055.04, adherence to the Manual on Uniform Traffic Control Devices (MUTCD), new definitions of vehicle types and a new **Chapter 5,** *Tactical Vehicle Safety.* Additionally, it clarifies acronyms usage, ensures Tier/Waiver requirements meet established guidelines, and establishes the instruction as a DAF publication, thus, providing guidance for both the United States Air Force (USAF) and USSF.

(AFSOC) This document has been substantially changed and must be completely reviewed. It updates the guidance and policies of AFSOC/SE and aligns Air Force Special Operations Command requirements with DAFI 91-207, *The Traffic Safety Program*, United States Special

Operations Command Directive 385-1, *Joint Safety Program*, and USSOCOM Tactical Ground Mobility requirements. Additionally, guidance has been added to further define owning unit All-Terrain Vehicle/Light Tactical All-Terrain Vehicle training, documentation, and funding responsibilities.

Chapter 1—PROGRAM OVERVIEW **5**

1.1. General Information. 5

1.2. Official Support Agreements, Memorandums of Agreement/Understanding (MOA/MOU) and Status of Forces Agreements (SOFA). 5

1.3. Roles and Responsibilities. 5

Chapter 2—VEHICLE REQUIREMENTS **12**

2.1. Overview. 12

2.2. Government-Owned Vehicles. 12

2.3. Non-Government Vehicles. 13

Chapter 3—PROGRAM AND INDIVIDUAL REQUIREMENTS **15**

3.1. Overview. 15

3.2. Backing of Government-owned Motor Vehicles 15

3.3. Operator Distractions. 15

3.4. Duty-Related Operator Driving Time. 15

3.5. Operator and Passenger Protection. 16

3.6. Motorcycle and All-Terrain Vehicle (ATV) Safety. 16

3.7. Pedestrian, Bicycle and Personal Transportation Device (PTD) Safety. 17

Chapter 4—TRAFFIC SAFETY TRAINING **19**

4.1. Training Guidance. 19

4.2. Introductory Traffic Safety. 19

4.3. Local Conditions. 20

4.4. Motorcycle, UTV, and ATV Operator Training. 20

Attachment 5—TRAFFIC SAFETY PROGRAM OVERVIEW CHECKLIST 43

Chapter 1

PROGRAM OVERVIEW

1.1. General Information. This publication establishes responsibilities, guidance and requirements for the AF Traffic Safety Program. AF units at all levels must ensure compliance to reduce deaths, injuries and property damage caused by vehicular mishaps. **(T-0). Note:** This applies to foreign students who must complete applicable traffic safety courses. **(T-1).**

1.2. Official Support Agreements, Memorandums of Agreement/Understanding (MOA/MOU) and Status of Forces Agreements (SOFA).

1.2.1. Some requirements addressed in this instruction may be the responsibility of the host or supporting service, installation or wing through an official Support or Operating Agreement, MOU or MOA, and/or SOFA.

1.2.2. Commanders will support host installation traffic safety programs. **(T-0).** Commanders will also serve as the liaison with the DoD and sister services for traffic safety matters related to DoDI 6055.04. **(T-1).**

1.3. Roles and Responsibilities.

1.3.1. Air Force Chief of Safety (AF/SE) will:

1.3.1.1. Establish the requirements for the AF Traffic Safety Program.

1.3.1.2. Develop, maintain and oversee implementation of traffic safety training courses in support of this instruction.

1.3.1.3. Serve as the liaison with the DoD and sister services for traffic safety matters related to the DoDI 6055.04.

1.3.2. Major Command (MAJCOM), Field Operating Agency (FOA) and Direct Reporting Unit (DRU) commander(s) will:

1.3.2.1. Implement the requirements of the AF Traffic Safety Program.

1.3.2.2. Validate that Center, Wing and Installation Commanders provide required traffic safety training to personnel.

1.3.2.3. Provide support and oversight as needed to comply with this instruction.

1.3.2.4. Validate subordinate organizations are utilizing Air Force Safety Automated System (AFSAS) Training Module-Motorcycle Unit Safety Tracking Tool (MUSTT).

1.3.2.5. Refer all substitute traffic safety training course requests to HQ AFSEC/SEG for evaluation and approval.

1.3.3. Center, Wing and Installation Commanders will:

1.3.3.1. Establish and implement a local traffic safety program that supports the AF Traffic Safety Program IAW DoDI 6055.04. **(T-0)**.

1.3.3.1.1. Ensure child safety seats requirements follow DoDI 6055.04. **(T-0)**.

1.3.3.1.2. Tenant organization commanders will support the installation traffic safety program IAW **paragraph 1.2**. **(T-0).**

1.3.3.1.3. Monitor advances in personal transportation devices (PTDs) and, as necessary, develop policy and risk mitigations for their respective facilities and installations.

1.3.3.2. Provide support, facilities and funding to comply with this instruction. **(T-1).**

1.3.3.3. Establish a Traffic Safety Coordination Group to evaluate, study, propose and approve measures to mitigate traffic hazards and improve installation traffic safety. **(T-0).**

1.3.3.4. The installation commander, or an official designated by the installation commander, will chair the Traffic Safety Coordination Group. **(T-1).**

1.3.3.5. Use educational programs and media programs to ensure military and civilian personnel are aware of the requirements in this instruction. **(T-1).**

1.3.3.6. Promote and reinforce responsible driving behavior. **(T-1).** Consider means that target at-risk groups during high-risk periods such as major holidays and extended weekends.

1.3.3.7. Ensure approved motorcycle operator safety training is available for motorcycle operators who are properly licensed or hold a motorcycle learners permit IAW **paragraph 4.4**. **(T-0).**

1.3.3.7.1. **(Added-AFSOC)** Commanders will ensure all Air Force Special Operations Command military motorcycle riders (non-dirtbike) and DOD civilians who ride in performance of their duties attend and complete at least one Motorcycle Safety Foundation, State, or DOD Component approved rider education course at least every three years. **(T-2)**

1.3.3.7.2. **(Added-AFSOC)** Commanders will ensure wing agencies, Motorcycle Safety Representatives and military and DOD civilian operators adhere to the following requirements. **(T-2)**

1.3.3.7.2.1. **(Added-AFSOC)** Non-AFSOC motorcycle operators being assigned to an AFSOC unit while in PCS or PCA status will have 120 days from signing into their unit or expiration of their current USAF 5-year refresher training (whichever is shorter) to accomplish refresher training IAW AFSOC 3-year requirement. **(T-2)**

1.3.3.7.2.2. **(Added-AFSOC)** Riders are authorized to operate their motorcycles on/off base during this period while awaiting training. Only applies to riders who have met the USAF DAFI 91-207 fresher/sustainment training requirements and are in possession of a current motorcycle license.

1.3.3.7.2.3. **(Added-AFSOC)** Operators will be issued an AF Form 483 or equivalent (locally produced is acceptable) IAW wing policy; expiration date will reflect the shorter date from **paragraph 1.3.3.7.2.1**. **(T-2)**

1.3.3.8. Promote motorcycle safety and the formation of motorcycle mentoring program(s) fostering safety, education and esprit de corps. **(T-1).**

1.3.3.9. Emphasize pedestrian, bicycle and motor vehicle safety IAW DoDI 6055.04. **(T-0).**

1.3.3.10. Ensure a driver improvement and rehabilitation course as identified in **paragraph 4.6** is available. **(T-0).**

1.3.3.11. Promote individual risk management and other requirements of this instruction. **(T-1).**

1.3.3.12. Ensure the host safety office is provided time to brief new personnel on local conditions. **(T-1).**

1.3.4. Commanders below wing level will:

1.3.4.1. Consider intentional misconduct or willful negligence IAW AFI 36-2910, *Line of Duty (Misconduct) Determination,* for personnel who fail to properly use seat belts, wear protective equipment or operate a motor vehicle while intoxicated or distracted, in violation of requirements by the AF, local, state, federal or host-nation laws. **(T-1).**

1.3.4.2. Ensure actions are taken to intervene when unsafe behaviors are identified. **(T-1).** Direct problem drivers and at-risk personnel to attend driver improvement training. **(T-1).**

1.3.4.3. For units with motorcycle operators, appoint in writing a primary and alternate motorcycle safety representative to coordinate the motorcycle safety program and provide the host safety office a copy of the appointment letter. **(T-1).** Units may establish a common motorcycle safety representatives across multiple units. Motorcycle safety representatives should have experience as an on-road motorcycle operator.

1.3.4.4. Ensure procedures are established to have personnel in and out-process through motorcycle safety representative. **(T-1).**

1.3.4.4.1. **(Added-AFSOC)** Ensure all unit riders have an active AFSAS MUSTT account that reflects rider's current unit and training status. **(T-2)**

1.3.4.5. Ensure on-road motorcycle operators are provided unit's initial motorcycle safety briefing within 30 duty days of arrival at a new unit or when newly identified as an operator. **(T-1).** Air Force Reserve Command (AFRC) and ANG operators will complete this briefing within two unit training assemblies. **(T-2).**

1.3.4.6. Ensure on-road motorcycle operators attend an annual/pre-season briefing highlighting safety expectations, trends and any policy changes. **(T-1).**

1.3.4.6.1. Unit commanders are encouraged to speak at the annual/pre-season briefing.

1.3.4.6.2. It is acceptable to meet this requirement through an installation or group commander briefing.

1.3.4.6.3. For operators arriving after the annual/pre-season briefing has been conducted, the initial unit's briefing will meet this requirement. **(T-1).**

1.3.4.7. Fund required training for personnel operating government-owned vehicles in the performance of official duties. **(T-0).**

1.3.4.8. Consider appropriate administrative or disciplinary actions, to include restricting installation driving and riding privileges, for personnel who fail to comply with this instruction. **(T-1).**

1.3.4.9. Reinforce responsible driving behaviors and traffic safety prior to high-risk periods (e.g. holidays, extended weekends, seasonal conditions, etc.). **(T-2).** Available tools include Air Force Combined Mishap Reduction System surveys, Travel Risk Planning System (TRiPS), traffic safety briefings, etc.

1.3.4.10. Ensure development and implementation of vehicle-specific training for operators of government-owned motor vehicles IAW DoDI 6055.04, AFI 24-301, *Ground Transportation,* and AFMAN 24-306, *Operation of Air Force Government Motor Vehicles*.

1.3.4.11. **(Added-AFSOC)** Owning unit commanders will ensure appropriately documented vehicle maintenance programs are in place for all All-Terrain Vehicles, dirt bikes, side-by-sides, Jet Skis, and snow machines. **(T-2)** Required maintenance for these vehicles can be obtained either through locally contracted services or by obtaining maintenance certification of owning unit members. Funding for maintenance programs will be at owning unit's expense. **(T-2)**

1.3.4.12. **(Added-AFSOC)** Commanders will ensure all operators and passengers of government owned high-speed vehicles (capable of 35 MPH or greater) All-Terrain Vehicles, dirt bikes, side-by-sides, and snow machines wear a Department of Transportation (DOT) approved helmet, manufacture's recommended helmet, Army Combat Helmet (ACH) or other helmet that meets or exceeds ACH standards regardless of vehicle roll over protection systems (ROPS). **(T-2)**

1.3.4.13. **(Added-AFSOC)** Commanders of units owning, operating or participating in a commercial training course involving Jet Skis will ensure all operators and passengers wear a Coast Guard approved personal floatation device. **(T-2)**

1.3.5. Host, Center, Wing, Installation and Geographically Separated Unit Occupational Safety Managers will:

1.3.5.1. Establish and manage the local traffic and motorcycle safety program IAW this instruction. **(T-1).**

1.3.5.1.1. Ensure motorcycle safety representatives are trained within 30 working days of appointment on duties and responsibilities. **(T-1).** Motorcycle safety representative training materials and tutorial are available on AFSEC Occupational Safety SharePoint®.

1.3.5.1.2. AFR and ANG Primary and Alternates will complete motorcycle safety representative initial training within two unit training assemblies. **(T-1).**

1.3.5.2. Budget and manage funds for implementation of the traffic safety program. **(T-1).**

1.3.5.3. Develop and implement local programs which emphasize the use of occupant protective devices (e.g. safety belts, air bags, child safety seats, helmets, etc.). **(T-1).**

1.3.5.4. Ensure only qualified personnel perform instructor duties for the traffic safety courses required by this instruction. **(T-1).** Qualifications are based on the curriculum being taught including any required certifications.

1.3.5.5. Participate in state and local community level traffic safety coalitions where available (e.g., Safe Communities, Federal Safety Councils, etc.). **(T-1).**

1.3.5.6. Actively support and participate with the installation Traffic Safety Coordination Group. **(T-1).**

1.3.5.7. **(Added-AFSOC)** The host installation Occupational Safety office will be the focal point for personnel volunteering to serve as Motorcycle Safety Foundation Rider Coaches. **(T-3)**

1.3.5.8. **(Added-AFSOC)** Will validate unit mentorship programs used to fulfill motorcycle safety refresher/sustainment training meet or exceed requirements IAW **Attachment 4**. **(T-3)**.

1.3.5.9. **(Added-AFSOC)** All Air Force Special Operations Command Occupational Safety staffs will ensure documented vehicle maintenance programs for All-Terrain Vehicles, dirt bikes, side-by-sides, Jet Skis, and snow machines are inspected during programmed Annual Safety Inspections and Spot Inspections. **(T-2)**

1.3.6. Traffic Safety Coordination Group will:

1.3.6.1. Evaluate, study, propose and approve mitigation measures to traffic hazards and improve installation traffic safety. **(T-0).**

1.3.6.2. Identify locations experiencing high numbers or sharp increases in vehicle mishaps. **(T-0).**

1.3.6.3. Identify design and operational features associated with high vehicle mishap frequencies or severities IAW DoDI 6055.04. **(T-0).**

1.3.6.4. Membership will include installation safety, security forces, civil engineering and transportation functions. **(T-2).** Additional attendees may include: installation drug and alcohol program officials, local community authorities, installation legal office and other agencies as necessary.

1.3.6.5. Work with local authorities to assess and mitigate off-installation traffic hazards. **(T-1).**

1.3.7. Base Civil Engineer will:

1.3.7.1. Provide traffic safety support to the installation traffic safety program and Traffic Safety Coordination Group. **(T-1).**

1.3.7.2. Maintain installation roads IAW DoDI 6055.04. **(T-0).**

1.3.7.3. Participate in and apply the Surface Deployment and Distribution Command traffic engineering services program traffic safety measures and techniques IAW DoDI 6055.04. **(T-0).**

1.3.8. Installation Security Forces will:

1.3.8.1. Ensure impaired driving, seat belt, speed, personal protective equipment (PPE) and distracted driving enforcement actions are conducted in support of the installation's traffic safety program. **(T-1).**

1.3.8.2. Provide the installation Traffic Safety Coordination Group with law enforcement support to include a summary of traffic violation citations and recorded accidents for use at scheduled meetings. **(T-2).**

1.3.9. Motorcycle Safety Representatives will:

1.3.9.1. Be the focal point for information on motorcycle training, education, mentorship and AFSAS Training module-MUSTT. **(T-1).**

1.3.9.1. **(AFSOC)** Motorcycle Safety Representatives will: MSRs will ensure unit's motorcycle mentorship program is vetted by their occupational safety office to ensure it meets minimum requirements. **(T-3)** Mentorship programs must be validated to be IAW DAFI 91-207 training requirements prior to use. **(T-2)**

1.3.9.2. Assist commander in identifying mentors to manage the unit's mentorship program based on their riding experience, proficiency and demeanor in riding. **(T-1).**

1.3.9.3. Brief on-road motorcycle operators, within 30 duty-days of arrival or identification. Briefing topics will include items prescribed in Unit Motorcycle Safety Briefing Checklist, **Attachment 2. (T-1).** AFRC and ANG operators will complete initial motorcycle safety briefing within two unit training assemblies. **(T-2).**

1.3.9.4. Coordinate with the unit commander on the preseason/annual motorcycle safety briefing, see **Attachment 3. (T-1).**

1.3.9.5. Use the AFSAS Training module-MUSTT to track AF Military personnel on-road motorcycle operator's trainings, briefings and demographics. **(T-1).**

1.3.9.5.1. Civilian Employee motorcycle operators will not be tracked unless their position description requires the operation of a motorcycle. **(T-1).**

1.3.9.5.2. Review unit MUSTT accounts annually for current training and ridership. **(T-2).**

1.3.9.5.2. **(AFSOC)** AFSOC Unit Motorcycle Safety Representatives will review assigned rider Motorcycle Unit Safety Tracking Tool (MUSTT) accounts semi-annually. **(T-3)**

1.3.9.5.2.1. **(Added-AFSOC)** MSRs will update MUSTT accounts for riders failing to complete out-processing due to PCS, separation, or retirement if information is known; otherwise MSR will place the member's account into inactive status. **(T-3)**

1.3.9.6. Exceptions to AFSAS Training Module-MUSTT tracking are:

1.3.9.6.1. AF personnel assigned permanently to North Atlantic Treaty Organization (NATO), United States European Command (USEUCOM), United States Strategic Command (USSTRATCOM) or similar organizations.

1.3.9.6.2. Operators of motorcycles, mopeds or scooters having an engine displacement of 49 cubic centimeters or less, or electric motorcycles having a motor operating at 2250 watts or less.

1.3.9.6.3. Operators of three-wheeled motorcycles.

1.3.10. AF personnel will:

1.3.10.1. Operate a motor vehicle in a safe and prudent manner. **(T-3).**

1.3.10.2. Comply with all AF directives, orders, applicable state, local, host-nation traffic laws and PPE requirements while operating or riding in or on a motor vehicle. **(T-0).**

1.3.10.3. Attend and complete all required motor vehicle training. **(T-1).**

1.3.11. On-road AF motorcycle operators will:

1.3.11.1. Follow installation policies or procedures before attending any AF-sponsored motorcycle training. **(T-1).**

1.3.11.2. Coordinate through the unit motorcycle safety representative during in and out-processing or change of rider status. **(T-1).**

1.3.11.3. Create and maintain an accurate AFSAS Training Module-MUSTT account. **(T-1).**

1.3.11.4. Close their AFSAS Training Module-MUSTT account prior to separating or retiring. **(T-1).**

1.3.11.5. Attend all motorcycle safety training and briefings mandated by this instruction. **(T-1).**

1.3.11.6. Attend unit's initial motorcycle safety briefing within 30 duty days of arrival or identification as an on-road motorcycle operator. **(T-2).** AFR and ANG operator will complete unit's initial motorcycle safety briefing within two unit training assemblies. **(T-2).**

Chapter 2

VEHICLE REQUIREMENTS

2.1. Overview. The intent of this chapter is to assist commanders in developing local traffic safety program and to identify minimum standards for government and non-government motor vehicles and motorized transportation devices.

2.2. Government-Owned Vehicles.

2.2.1. Government Motor Vehicles (GMV).

2.2.1.1. Commercial GMVs for use in the United States and US territories and possessions shall meet all applicable requirements of Title 49, Code of Federal Regulation (CFR) Part 571, *Federal Motor Vehicle Safety Standards (FMVSS).* **(T-0).**

2.2.1.2. Commercial GMVs of foreign manufacture purchased, leased or rented for use outside the United States and US territories and possessions shall meet all applicable safety requirements of the country in which they are to be used IAW DoDI 6055.04. **(T-0).**

2.2.2. Government Vehicle Other (GVO).

2.2.2.1. The majority of GVOs are off-highway motorized vehicles such as specialty/special purpose, material handling, construction or tactical vehicles. Commanders will limit the use of GVOs to off-road areas and tactical operations as much as possible. **(T-0).**

2.2.2.1.1. **(Added-AFSOC)** Specialty vehicles are separated into three categories: Light, Medium and Heavy.

2.2.2.1.2. **(Added-AFSOC)** Light tactical all-terrain vehicles are a subset of the LTV category, includes MRZR, Polaris Ranger and other side-by-sides (SXV), SRTV/SXV, Snow Machines, Jet Skis, Four Wheel ATVs, and Dirt Bikes with a GVRW 5,500 pounds or less and a speed greater than 35 MPH. Occupants must wear personal protective equipment IAW DoDI 6055.04, *DoD Motor Vehicle and Traffic Safety,* and/or manufacturers guidance. **(T-2)**

2.2.2.1.3. **(Added-AFSOC)** Medium tactical vehicles include HMMWV, MTV and GMV 1.1. GVRW, Joint Light Tactical Vehicle (JLTV), between 5,501 and 23,000 pounds.

2.2.2.1.4. **(Added-AFSOC)** Heavy tactical vehicles include all MRAP variants and similar heavily armored transportation vehicles. Possess a GVRW of 23,001 pounds and greater.

2.2.2.2. The use of GVOs in traffic is considered incidental to their travel between off-road areas. Users will ensure their movement on and off AF installations complies with applicable traffic laws and codes. **(T-0).**

2.2.2.3. The installation commander may authorize the routine use of GVOs in traffic, industrial or pedestrian environments based on a risk assessment IAW AFI 90-802, *Risk Management*.

2.2.2.4. Owning organizations will ensure every GVO has a written plan of instruction, IAW AFI 24-301, AFMAN 24-306, and **paragraph 4.7,** to include identifying vehicle operational environment, usage requirements and manufacturer recommendations. **(T-1).**

2.2.3. Low Speed Vehicles (LSV).

2.2.3.1. The installation commander may authorize the use of LSVs in traffic, industrial or pedestrian environments based on a risk assessment IAW AFI 90-802.

2.2.3.2. LSVs will meet all Federal Motor Vehicle Safety Standards and be identified by the manufacturer as an LSV. **(T-0).**

2.2.3.3. Routine use of LSVs will be restricted to low-risk roadways of AF installations with speed limits not exceeding 35 miles per hour. **(T-1).**

2.2.4. Motor Vehicle Operations.

2.2.4.1. Owning organizations of government-owned motor vehicles will ensure operators meet the requirements of AFI 24-301 and AFMAN 24-306. **(T-1).**

2.2.4.2. Transportation of munitions or explosives must comply with AFMAN 91-201, *Explosives Safety Standards*. **(T-1).**

2.2.5. Motor Vehicle Safety Standards will meet all requirements of DoDI 6055.04, AFI 24-301 and AFI 24-302, *Vehicle Management.* **(T-0).**

2.2.5.1. Installations located in the US will adopt and enforce the state laws regarding standards for motor vehicles in traffic as described in Department of Defense Directive (DoDD) 5525.4, *Enforcement of State Traffic Laws on DoD Installations*. **(T-0).**

2.2.5.2. AF special purpose, tactical and combat vehicles will be purchased IAW DoDI 6055.04. **(T-0).**

2.2.5.2. **(AFSOC)** Prior to purchase and/or lease of any "Government Vehicle Other", purchasing unit will submit proposed purchase to their wing occupational safety staff to verify that the vehicle meets all applicable DoD, State and host nation safety requirements. **(T-2)**

2.2.5.3. Determination of vehicles at high risk of mishaps, mechanical failure or abuse will be identified by a commander's risk assessment IAW AFI 90-802. **(T-1).**

2.3. Non-Government Vehicles.

2.3.1. The use of seat belts, airbags, rollover protection systems and other safety features is necessary for the safety of operators, passengers, bystanders, and preservation of property. Users will maintain and use installed safety devices and features. **(T-0).**

2.3.2. Private Motor Vehicles (PMV) operated on AF installations shall meet all applicable safety requirements of the country in which they are to be used. **(T-0).**

2.3.3. Off-Highway Vehicles cross a broad spectrum of motorized vehicles including agricultural, recreational, personal conveyance devices, industrial, aviation support for commercial and non-commercial use. Users will ensure their movement on AF installations complies with applicable traffic laws and codes. **(T-0).**

2.3.3.1. The installation commander may authorize the routine use of Off-Highway Vehicles in traffic, industrial or pedestrian environments based on a risk assessment IAW AFI 90-802.

2.3.3.2. The manufacturer-recommended PPE will be the minimum PPE for Off-Highway Vehicles operated on an AF installation. **(T-1).**

Chapter 3

PROGRAM AND INDIVIDUAL REQUIREMENTS

3.1. Overview. The following paragraphs describe safety requirements applicable to vehicles and transportation devices operated on AF installations, property and persons covered under the scope of this instruction.

3.2. Backing of Government-owned Motor Vehicles .

3.2.1. Backing of government-owned motor vehicles and the usage of spotters will be IAW AFMAN 24-306. **(T-1).**

3.2.1.1. Government-owned motor vehicle operators will immediately stop if they lose visual contact with the spotter or notice the spotter is dangerously positioned between the vehicle and another object. **(T-1).** In such cases, vehicle operators will secure the vehicle, exit and make an on-the-spot correction before continuing operations. **(T-1).**

3.2.1.2. Spotter(s) will position themselves away from the vehicle's path of travel and maintain visual contact with the vehicle operator. **(T-1).**

3.2.2. Government-owned motor vehicles equipped with back-up warning alert systems will be maintained in an operational fashion as designed and not modified. **(T-0).**

3.3. Operator Distractions.

3.3.1. Operators of motor vehicles will comply with DoDI 6055.04 guidance regarding distractions while driving (e.g., using cellular phones, text messaging). **(T-0).**

3.3.2. A land mobile radio is primarily a listening device and is not restricted. Cellular phones and other devices, used only in push-to-talk (walkie-talkie, direct connection) mode are considered land mobile radios, if required, and issued for the performance of official duties.

3.3.3. Cellular Phone Free School Zone. All installations having school and child development centers will evaluate, in coordination with the Traffic Safety Coordination Group, the need to establish a cellular phone free (including hands-free devices) school zone IAW applicable federal, state, local and host-nation laws. **(T-2).**

3.4. Duty-Related Operator Driving Time.

3.4.1. Duty-Hour Limits. Unit commanders will establish and enforce duty-hour limits for operators of government-owned motor vehicles to reduce the potential for traffic mishaps caused by operator fatigue IAW DoDI 6055.04. **(T-0).**

3.4.2. Directed Travel. Follow the guidance for directed travel contained in DoDI 5154.31, Volume 5, *Per Diem Travel and Transportation Allowance Committee* (also known as the Joint Travel Regulation). **(T-0).**

3.4.3. Risk Management. To reduce the potential for traffic mishaps caused by operator fatigue commanders, supervisors and all personnel will apply risk management IAW AFI 90-802, *Risk Management.* **(T-0).** Commanders, supervisors and personnel are encouraged to use the Travel Risk Planning System (TRiPS) program to assist in travel risk management.

3.5. Operator and Passenger Protection.

3.5.1. All persons while operating or riding in or on a motor vehicle will use installed seat belts, child restraint system or booster seat as prescribed by the manufacturer. **(T-0).** Child restraint systems/seats should be placed in the back seat and center of vehicle when possible, IAW manufacturer instructions. Individuals shall not ride in seating positions where safety belts have not been installed, have been removed or have been rendered inoperative. **(T-0).**

3.5.1.1. This does not apply to vehicles not designed for seat belts such as buses, some off-road motor vehicles, combat/tactical vehicles not designed with belts or vehicles with a manufactured year of 1966 or earlier. Nothing in this publication will require seat belt installation into these vehicles unless mandated by applicable host-nation, state or territory laws. Occupants are required to wear seat belts if they have been installed in the vehicle.

3.5.1.2. When wearing a seat belt with mission-required equipment creates an unsafe condition, group or wing commanders may issue a temporary exemption based on a risk assessment IAW 90-802. This exception is not intended for day-to-day or routine operations and limited to on-installation tactical vehicles.

3.5.2. Vehicle occupants shall not ride in areas of a vehicle without fixed seats. **(T-0).**

3.5.2.1. To the extent possible, transport personnel in passenger-style vehicles.

3.5.2.2. Commanders may approve personnel to be transported in vehicles without fixed seats for duty operations only after completion of a risk assessment IAW AFI 90-802.

3.5.2.2.1. Transport is limited to military installations and for short distances only providing all installed seat belts are in use.

3.5.2.2.2. During transport each passenger will remain seated wholly within the body of the vehicle. **(T-0).** The vehicle cargo area will not have open sides and no person may rest against a gate that opens. **(T-1).**

3.5.3. The operator of any vehicle is responsible for informing all passengers of applicable seat belt, child safety seat and PPE requirements of this instruction. The senior ranking occupant is responsible to ensure enforcement of occupant restraints; all persons are to be properly secured prior to placing the vehicle in motion. If the senior ranking occupant cannot be determined, the driver shall be responsible for enforcement. **(T-0).**

3.5.4. Motor vehicle operators and passengers will follow manufacturer recommendations, DoDI 6055.04, installation, local, state or host nation requirements for PPE. **(T-0)**

3.6. Motorcycle and All-Terrain Vehicle (ATV) Safety. Operators and passengers of a motorcycle, ATV or three-wheeled vehicle will follow safety and PPE requirements IAW DoDI 6055.04. **(T-0).**

3.6.1. Passengers are not authorized on motorcycles, ATVs or three-wheeled vehicles unless they are specifically designed (as determined by the manufacturer) to carry a passenger. **(T-0).**

3.6.2. MAJCOM or installation-specific PPE requirements will not be used as criterion to deny access to any visiting person whose PPE meets the requirements of this section. **(T-2).**

3.7. Pedestrian, Bicycle and Personal Transportation Device (PTD) Safety. The installation commander will ensure compliance with installation pedestrian, PTD and bicycle safety in accordance with DoDI 6055.04. **(T-0)**

3.7.1. Individuals walking, jogging or running are encouraged to wear highly visible clothing and accessories. During nighttime hours and inclement weather clothing should contain retro-reflective properties.

3.7.2. All individuals exposed to traffic hazards as part of their assigned duties shall wear a highly visible outer garment during the day and outer garment containing retro-reflective material at night in accordance with Manual on Uniform Traffic Control Devices (MUTCD). **(T-0)** Refer to the *Manual on Uniform Traffic Control Devices for Streets and Highways,* Section 6D.03, *Worker Safety Considerations.*

3.7.2.1. This applies to traffic control, installation entry control points, road construction, maintenance or any other crew or individual required to work in a traffic environment while the roadway remains open to traffic.

3.7.2.2. This guidance applies to troop formations only to the degree determined necessary to maintain formation visibility to traffic. At a minimum road guards will wear a highly visible outer garment during the day and outer garment containing retroreflective material at night. **(T-1).**

3.7.2.3. This guidance does not apply during operations where personnel may be at greater risk from increased visibility based on a documented commander's risk assessment IAW AFI 90-802.

3.7.3. All persons who ride a bicycle, tricycle or other human powered vehicle, including motorized bicycles, on an AF installation roadway, to include flightlines will:

3.7.3.1. Wear highly visible outer garment containing retro-reflective material during hours of darkness or reduced visibility. **(T-2).** Riders should wear a highly visible outer garment during daylight hours.

3.7.3.2. Wear a properly fastened, approved (e.g., Consumer Product Safety Commission, American National Standards Institute, Snell Memorial Foundation or host nation equivalent) bicycle helmet. **(T-2).** MAJCOMs will be the approving official on what qualifies as host nation equivalent. **(T-2).**

3.7.3.3. Bicycles will be equipped with front-facing, pedal, side and a rear-facing reflectors consistent with Title 16, CFR Part 1512, *Requirements for Bicycles,* and/or local, state or host-nation requirements. **(T-0).**

3.7.3.4. Use marked bicycle lanes when they are available. **(T-2).**

3.7.4. Non-motorized transportation devices not meeting Department of Transportation motor vehicle standards are prohibited on installation roadways and will comply with all pedestrian-related traffic laws. **(T-0).**

3.7.4.1. An approved helmet is required to be worn on AF installations. **(T-2).**

3.7.4.2. Additional PPE requirements should follow Consumer Product Safety Commission and manufacturer's instructions, and be included in the installation traffic code.

3.7.5. Operators and passengers of PTDs operated on a DAF installation will follow safety and PPE requirements IAW DoDI 6055.04 and host nation safety standards. **(T-0)**

Chapter 4

TRAFFIC SAFETY TRAINING

4.1. Training Guidance.

4.1.1. AF military and civilian personnel, as applicable, will not be required to use leave for training mandated by this instruction. **(T-0).** The Government will pay for training mandated by this instruction. **(T-0).**

4.1.1.1. DoD military personnel from other services or agencies whom are assigned to or employed on an AF installation should receive the training under the same conditions.

4.1.1.2. Installations may pay for training through a reimbursement program.

4.1.1.2.1. Personnel may be required to pay for training and will be reimbursed based on installation procedures. **(T-0).**

4.1.1.2.2. On-road AF motorcycle operators must provide proof of successful completion of training and be registered in AFSAS Training Module-MUSTT. **(T-1).**

4.1.1.3. This instruction does not require the government to furnish training equipment such as motorcycles or ATVs, except when training is required for the operation of government vehicles.

4.1.1.4. Cost to attend training for privately-owned, leased or rented UTVs, ATVs and off-road motorcycles is the responsibility of the rider and is not reimbursable. **(T-1)**

4.1.1.5. DoD civilian personnel participating in voluntary training will obtain approval through their supervisor IAW civilian personnel policy. **(T-2).**

4.1.1.6. Other DoD civilian personnel, military retirees and military dependents may attend motorcycle operator training on a space-available basis at no additional cost to the Government.

4.1.2. Traffic safety courses required by this instruction shall not be modified, or an alternate course used without AFSEC/SEG approval. **(T-1).**

4.1.2.1. Requests to use substitute training courses in lieu of those outlined in this AFI must be staffed through applicable MAJCOM to AFSEC/SEG for evaluation and approval. **(T-1).**

4.1.2.2. Approved substitute courses and guidance are located on AFSEC Occupational Safety SharePoint®.

4.2. Introductory Traffic Safety. The course provides mandatory traffic safety training for military service members who are under the age of 26. The course curriculum shall be obtained from AFSEC/SEG. **(T-1).**

4.2.1. Each AETC training location may incorporate appropriate supplemental traffic safety training materials. The course will be a minimum of four hours in length and instructor led. **(T-0).**

4.2.2. This course is taught as part of the curriculum at Basic Military Training, Technical Training, Officer Training School and at the United States Air Force Academy, and does not have to be documented separately.

4.3. Local Conditions. IAW DoDI 6055.04, The safety office will provide local conditions information during the installation newcomers' orientation program, if an orientation program is available. **(T-0).** If no orientation program exists, safety offices will develop and disseminate relevant information to commanders. **(T-1).** Commanders may use methods such as e-mails, flyers and websites to supplement and disseminate the information, as needed.

4.3.1. The safety office will review the information annually. **(T-1).** Specific topics will be included to enhance awareness of traffic safety (including motorcycle safety), weather, recreation, and other frequent injury causing activities. **(T-1).**

4.3.2. Personnel in temporary duty (TDY) status for 30 calendar days or more will coordinate with the TDY location safety office to obtain local conditions information. **(T-2).** If there is no safety office at the TDY location, the TDY personnel will use other available sources for information. **(T-2).**

4.3.2.1. Information will be provided to personnel before or at the beginning of the TDY **(T-2).**

4.3.2.2. TDY units will maintain documentation of information provided and method(s) of dissemination for the duration of the TDY. **(T-2).**

4.4. Motorcycle, UTV, and ATV Operator Training.

4.4.1. Military personnel, who operate or intend to operate a motorcycle on a roadway, operators of government-owned motorcycles and AF civilian personnel whose position description requires operating a motorcycle, will comply with all motorcycle safety training requirements IAW DoDI 6055.04 and **Table 4.1**. **(T-0).**

4.4.1. **(AFSOC)** Military riders who are not in compliance with Annual/Pre-Season briefing and AFSOC training requirements are prohibited from operating a motorcycle on or off AFSOC installations. **(T-2)** See **paragraph 1.3.3.7.2.1** for the exemption to this policy.

4.4.1.1. Military members intending to operate motorcycles on a roadway must possess a valid motorcycle license, endorsement or learners permit. **(T-1).**

4.4.1.2. AF motorcycle safety training is not intended to meet state, territory, host-nation or applicable SOFA licensing requirements.

4.4.1.3. The operator must possess a valid motorcycle license, endorsement or learners permit to attend AF sponsored motorcycle training, to include travel to and from training location(s). **(T-1).**

4.4.1.4. Military personnel are not required to attend initial motorcycle training if the member has a state motorcycle license or endorsement, or has completed a Motorcycle Safety Foundation® or state approved training. Intermediate training date will begin when member is initially identified as a rider. **(T-2).**

4.4.1.5. Motorcycle operator will be enrolled in MUSTT prior to attending training. **(T-1).**

4.4.1.6. Host-nation equivalent courses are acceptable only if they meet or exceed training IAW this publication. MAJCOM/SE, in coordination with AFSEC/SEG, must approve host-nation equivalent courses, to include establishing documentation procedures. **(T-2).**

4.4.2. Commanders at locations where an approved Air Force motorcycle program is not feasible may implement MAJCOM-authorized procedures to ensure inbound personnel are directed to complete training prior to arrival. Personnel who purchase a motorcycle and require training at these locations, may attend training in conjunction with leave or official TDY at a location with an approved training program.

Table 4.1. Motorcycle Operator Training.

Level I	Level II	Refresher/Sustainment
Time Frame		
Provide initial training within 30 duty days of request. **(T-0)** Commanders should authorize operators who possess a valid motorcycle license, endorsement or learners permit to ride subject to any restrictions imposed by such license, endorsement, or permit.	Provide within 60 days of requests for training, but in no case more than 1 year after completing Level I training. **(T-0)**	Complete at least every 5 years. **(T-0)**
Training Curriculum		
Meet a Motorcycle Safety Foundation, State-approved, or DoD Component-approved motorcycle training basic rider's course for motorcycle operator's initial safety training if motorcycle training is not required by the State or host-nation for licensing or endorsement purposes. IAW **paragraph 4.4.1.6.**	Meet or exceed requirements for Level I training. **(T-0)**	Meet or exceed requirements for Level II training.
Options to Level I Training		
Accept the original or certified copy of a completion card or certificate from a Motorcycle Safety Foundation, State-approved, or DoD Component-approved motorcycle training course. State motorcycle license endorsements will also be accepted. **(T-0)**		

4.4.3. Operators of three wheeled motorcycles and motorcycles equipped with side cars do not require training. Operators of motorcycles with side cars are only exempt from the training requirements when the side car is attached.

4.4.4. Foreign-national employees working at overseas installations will comply with SOFA-defined training requirements to operate motorcycles, UTVs, ATVs, or specialty vehicles as part of their official duties. **(T-0)** Provide required training at no cost to the employee. **(T-0)**

4.4.5. Approved AF and/or DoD-Component Motorcycle Rider Education Training Courses are listed in **Table 4.1**.

4.4.5.1. Initial Training. Courses include the Motorcycle Safety Foundation's Rider Street Skills^{SM}, Basic RiderCourse^{SM} (BRC), state or host-nation motorcycle licensing program(s) and any DOD Component approved training course.

4.4.5.2. Sustainment training will include approved Intermediate and Refresher Training. **(T-1).**

4.4.5.2.1. Refresher/Sustainment training includes mentorship programs as outlined in **Attachment 4**.

4.4.5.2.1. **(AFSOC)** In accordance with COMAFSOC guidance, AFSOC units may utilize mentorship programs to fulfill motorcycle rider refresher/sustainment requirements IAW with DAFI 91-207.

4.4.5.2.1.1. **(Added-AFSOC)** AFSOC units are encouraged to incorporate an official mentorship ride whenever possible into the training syllabus. Units will complete a Risk Assessment using DD Form 2977, *Deliberate Risk Assessment Worksheet*, or equivalent; must include emergency requirements, route and weather. **(T-2)**

4.4.5.2.2. Submit request for DoD-Component-defined training approval through applicable MAJCOM and approved by AFSEC/SEG prior to use.

4.4.6. Off-Road Motorcycle, UTV, ATV and Specialty Vehicle Training.

4.4.6. **(AFSOC)** Off-Road Motorcycle, UTV, ATV and Specialty Vehicle Training. Includes side-by-sides (SXV), Jet Ski, snow machine, HMMWV, GMV 1.1, MTV, MRAP, and other high-performance vehicles capable of achieving speeds of 35 mph and greater.

4.4.6.1. Operators of privately-owned off-road vehicles and off-road vehicles controlled by DAF Services, will successfully complete appropriate off-road performance-based safety training for on-installation operation. **(T-0)** The DAF is not required to provide or pay for riders to attend, unless it is part of their assigned duties. Personnel who operate privately-owned UTVs, ATVs or off-road motorcycles off-installation are encouraged to complete appropriate off-road safety training.

4.4.6.2. Operators of government-owned off-road motorcycles shall successfully complete the Motorcycle Safety Foundation's® Dirt Bike School, Air Force Special Operations Command (AFSOC) Special Tactics Advanced Skills Training Course, or DoD Component Defined Training. **(T-0).**

4.4.6.3. Operators of government-owned UTVs, ATVs or specialty vehicles must complete an approved safety training course before operating the vehicle. Courses must be approved by the DoD or DoD Components and include all manufacturer's safety and operating requirements for the vehicle. Examples of courses are those offered by the Specialty Vehicle Institute of America and Recreational Off-Highway Vehicle

Association. Courses will be tailored to include specific mission requirements in addition to the manufacturer's requirements. **(T-0)** Newly assigned personnel already qualified will receive local operational conditions refresher training from gaining unit. **(T-1)**

4.4.6.3. **(AFSOC)** Operators of Government-owned tactical and specialty vehicles may also use AFSOC Tactical Vehicle (TACV), Logistics Readiness Squadron or 24 SOW Special Tactics Training School (STTS) course.

4.4.6.3.1. **(Added-AFSOC)** All personnel (assigned or attached) who operate a Special Operations Force's All-Terrain Vehicle /Light Tactical All-Terrain Vehicle tactically or in unique operational environments shall complete, at a minimum, the following critical task training requirements IAW USSOCOM D 350-16, *Special Operations Forces Baseline Interoperable Training Standards-Tactical Ground Mobility*, Table 3-1 requirements. **(T-2)**

4.4.6.3.1.1. **(Added-AFSOC)** Demonstrate familiarization with vehicle-specific components, employment, load planning, and required safety measures.

4.4.6.3.1.2. **(Added-AFSOC)** Perform vehicle-specific preventative maintenance checks and services.

4.4.6.3.1.3. **(Added-AFSOC)** Demonstrate proficiency operating vehicle in daytime conditions.

4.4.6.3.1.4. **(Added-AFSOC)** Demonstrate proficiency operating vehicle in nighttime conditions utilizing white lights and Night Vision Devices (NVDs), as required.

4.4.6.3.1.5. **(Added-AFSOC)** Demonstrate familiarization with vehicle-specific roll-over and recovery techniques.

4.4.6.3.1.6. **(Added-AFSOC)** Demonstrate familiarization with vehicle-specific basic battle damage assessment and repair, as required.

4.4.6.3.1.7. **(Added-AFSOC)** Demonstrate proficiency negotiating vehicle through special terrain in daytime conditions.

4.4.6.3.1.8. **(Added-AFSOC)** Demonstrate proficiency negotiating vehicle through special terrain in nighttime conditions utilizing white lights and NVDs as required.

4.4.6.3.2. **(Added-AFSOC)** Utilization of the *AFSOC LTATV Training Lesson Plan* along with certified instructor meets USSOCOM Policy Memorandum 20-04, *U.S. Special Operations Command Special Operations Force All-Terrain Vehicle*, dated 21 Jan 2020, mandate.

4.4.6.4. **(Added-AFSOC)** Only certified instructors will conduct specialty, tactical and off-road vehicle training using approved course criteria. **(T-2)** Commanders of units possessing these vehicles will ensure a sufficient number of trained instructors are available to perform required training. **(T-2)** Funding for instructor training is the responsibility of the owning organization. **(T-2)**

4.4.6.5. **(Added-AFSOC)** Instructor certification can be obtained using ROHVA, SVIA, Polaris Defense, USSOCOM contracted training, HQ AFSOC Tactical Safety Manager (TSM) or other AF, DoD or AFSOC approved train the trainer courses.

4.4.6.5.1. **(Added-AFSOC)** Units will submit training requirements through their respective wing safety office if seeking to use USSOCOM contract training or HQ AFSOC Tactical Safety Manager (TSM) to fulfill training requirements. **(T-2)**

4.4.6.6. **(Added-AFSOC)** Vehicle owning unit will provide operators refresher/sustainment training every 2 years and will be documented using an AF Form 483, *Certificate of Competency*, or other Wing/Group Safety approved locally produced form of documentation. **(T-2)**

4.4.6.6.1. **(Added-AFSOC)** ST units will adhere to USSOCOM D 350-16. **(T-2)**

4.5. Motorcycle Mentorship Program. Wing, installation, and unit commanders are strongly encouraged to establish a mentorship program using approved Mentorship Modules to provide both experienced and inexperienced operators an opportunity to share information and promote safe riding. At a minimum the program should encompass the following:

4.5. (AFSOC) Motorcycle Mentorship Program. Wing/group safety offices will review all assigned unit's mentorship programs to ensure minimum requirements IAW DAFI 91-207 are met. **(T-3)** Unit's will ensure a mentorship training syllabus review is completed by wing occupational safety prior to granting riders refresher/sustainment credit. **(T-3)**

4.5.1. Conduct periodic meetings with riders.

4.5.2. Review recent mishaps and causes with riders.

4.5.3. Advocate personal risk management and decision making to riders.

4.5.4. Emphasize formal and informal training opportunities.

4.5.5. Highlight impact of seasonal conditions on safe riding.

4.5.6. Promote safety and esprit de corps amongst motorcycle riders.

4.6. Driver Improvement and Rehabilitation Course. This is a one hour driver rehabilitation course intended to educate personnel on safe driving.

4.6.1. Personnel while operating a GMV who have been convicted of a moving traffic violation or have been determined to have been at fault in a traffic mishap will attend training IAW DoDI 6055.04. **(T-0).**

4.6.2. Safety personnel may utilize AF-developed or provided courseware. Curriculum may be augmented with relevant supplemental information and materials.

4.6.3. Commanders may use approved civilian on-line or classroom courses. Approved traffic safety courses are posted on the AFSEC SharePoint® site.

4.7. Government-owned Motor Vehicle Training.

4.7.1. Operators of government-owned motor vehicles will be trained IAW AFI 24-301 and AFMAN 24-306 including the proper usage of spotters when required. **(T-1).**

4.7.2. Operators of GVOs not otherwise addressed in this instruction shall be trained in the proper use and unique handling characteristics of the vehicle IAW DoDI 6055.04. **(T-0).**

4.7.3. Owning units of GVOs will use Air Force Quality Training Packages or training plans, as established or approved by their corresponding functional area. **(T-1)**

4.7.3.1. DELETED

4.7.3.2. DELETED

4.7.3.3. **(Added-AFSOC)** Certified instructors providing training will issue an Air Force Form 483, *Certificate of Competency*, or other Wing/Group Safety approved locally produced form of documentation to trainees upon course completion. **(T-2)** Documentation must clearly indicate what machine(s) each individual operator is qualified to operate. **(T-2)** Operators will have certification documentation in their possession while operating the conveyance. **(T-3)**

4.7.3.4. **(Added-AFSOC)** Unit commanders will ensure formal training programs are developed and administered on the safe operation of these vehicles. **(T-2)** Training will include instruction on each of the following basic skills and abilities; vehicle nomenclature, starting/stopping, four-point turn, turning left/right/slalom/sharp, obstacles, hills, rollover recovery, nigh vision goggle use characteristics (as applicable), load planning, operating during adverse weather and required personnel protective equipment. **(T-2)** The Occupational Safety Office that has oversight of the unit's traffic safety program will review the training plans during program management assessments. **(T-2)**

4.7.3.5. **(Added-AFSOC)** Instructors will gain certification by attending an operator instructional course IAW **paragraph 4.4.6.5**. **(T-2)** Units will document this training upon course completion. Certified Instructors will certify personnel to meet their unit's requirements IAW USSOCOM Directive 385-1 and this instruction. **(T-2)**

4.7.4. If no standardized training plan is available, units will develop written plans of instruction and training documentation for the specific vehicle type. **(T-1)** Training plan, at a minimum, will address:

4.7.4.1. Vehicle type. **(T-1)**

4.7.4.2. Minimum required PPE for safe vehicle operation. **(T-1)**

4.7.4.3. Content of initial training required. **(T-1)**

4.7.4.4. Quantity of hands-on drivers training for operational conditions. **(T-1)**

4.7.4.5. Certification procedures. **(T-1)**

4.7.4.6. Frequency and content of refresher training. **(T-1)**

4.7.4.7. Remedial training for observed undesirable driving behaviors. **(T-1)**

4.7.5. Training records will be maintained in accordance with DoDI 6055.04. **(T-0)**

4.7.6. Operators of emergency vehicles will receive emergency response training to ensure the safe operation of vehicles under emergency conditions. **(T-0)**

4.7.6.1. Units will use Air Force Quality Training Packages or training plans as established or approved by their corresponding functional area. **(T-1)**

4.7.6.2. Units will include relevant information or conditions applicable to their specific location and type of vehicle. **(T-1)**

4.7.7. Passenger van operators will receive training IAW DoDI 6055.04. **(T-0)**

4.7.8. Units will ensure instructors providing vehicle operator training meet the qualification requirements of the curriculum developer. **(T-1)**

Chapter 5 (Added)

TACTICAL VEHICLE SAFETY(ADDED)

5.1. Overview. All personnel in the scope of this DAFI will comply with DoDI 6055.04, Section 4 guidance for tactical vehicle safety and the following guidance. **(T-0)**

5.1. (AFSOC) Overview. AFSOC units will adhere to AFSOC/A3 GENADMIN 23-12D message, *Non-Aviation High Risk Training Policy* guidance reference "Tactical Ground Mobility". **(T-2)**

5.1.1. Owning organizations of government-owned tactical motor vehicles will document and ensure vehicles are maintained in accordance with manufacturer requirements. **(T-1)**

5.1.2. During tactical operations or realistic training commanders will identify required PPE to be used by vehicle occupants based on a risk assessment in accordance with AFI 90-802, *Risk Management.* **(T-0)**

5.1.3. During Tactical operations or realistic training commanders may issue temporary exemption to required PPE based on a risk assessment in accordance with AFI 90-802. This exception is not intended for day-to-day or routine operations and limited to on-installation tactical vehicles. **(T-0)**

5.1.4. **(Added-AFSOC)** AFSOC personnel will follow baseline training standards for Tactical Vehicles specified in the *AFSOC Tactical Ground Mobility (TGM) Syllabus of Instruction.* **(T-2)**

5.2. Tactical Vehicle Safety.

5.2.1. Tactical vehicle restraint systems usage will be mandatory during routine or administrative movements to and from training and maintenance operations. **(T-0)**

5.2.2. Protective Equipment for Tactical Operations. Operators must adhere to the manufacturers' operating recommendations and Federal, State or host-nation regulations in accordance with DoDI 6055.04. **(T-0)**

5.2.3. All individuals covered by this issuance must wear the following PPE while riding in/on tactical vehicles, to include snowmobiles, motorcycles, UTVs, ATVs and watercrafts being used in tactical operations. **(T-0)**

5.2.3.1. Head Protection. At a minimum, headgear will be used, such as a combat vehicle crewmember helmet, or combat helmet or equivalent. **(T-0)**

5.2.3.1.1. During tactical operations, alternative helmets may be used based on risk assessment in accordance with AFI 90-802.

5.2.3.1.2. A helmet meeting current Federal Motor Vehicle or host nation safety standards shall be worn and properly fastened under the chin when using tactical vehicles in a non-tactical environment. **(T-0**)

5.2.3.2. Eye Protection. Goggles, wrap-around glasses or a full-face shield designed to meet or exceed American National Standards Institute (ANSI)/International Safety Equipment Association (ISEA) Z87.1, *American National Standard for Occupational and Educational Personal Eye and Face Protection Devices,* or UNECE 22.05, *Motorcycle*

Helmet Standard, or British Standard (BS) 6658, *Specification for Protective Helmets for Vehicle Users,* in effect when manufactured, will be properly worn. **(T-1)** A windshield does not constitute proper eye protection. Host nation equivalent is acceptable if it meets or exceeds ANSI/ISEA Z87.1.

5.2.3.3. Protective Clothing. Wearing of long-sleeved shirt or jacket, long trousers and full-fingered gloves are required. **(T-1)**

5.2.3.4. Foot Protection. Sturdy over-the-ankle footwear that affords protection for the feet and ankles is required to be worn. **(T-1)**

5.3. Government-Owned Tactical Motorcycle, UTV and ATV Operations.

5.3.1. Passengers are not authorized on motorcycles, UTVs, ATVs or three-wheeled vehicles unless they are specifically designed (as determined by the manufacturer) to carry a passenger. **(T-0)**

5.3.2. Operators of government-owned or government-leased tactical motorcycles, UTVs and ATVs must complete an approved safety training course before operating the vehicle. **(T-0)**

5.3.3. All government-owned motorcycles, mopeds, motor scooters, UTVs and ATVs (when equipped) that are operated on an installation, in both on and off-road modes, will have headlights turned on at all times, except where prohibited during military mission or by State, local or host nation law. **(T-0)**

5.3.3.1. **(Added-AFSOC)** All AFSOC personnel who will operate a Tactical Vehicle where military mission prohibits the use of white light will demonstrate proficiency operating tactical vehicles in nighttime conditions utilizing Night Vision Devices (NVDs) IAW AFSOC TGM SOI Critical Tasks 1-4 and 1-8. **(T-2)**

5.3.3.2. **(Added-AFSOC)** All AFSOC personnel who will operate a Tactical Vehicle in support of Joint Special Operations missions and exercises should understand and be able to operate a Tactical Vehicle under blackout conditions.

5.4. Training and Education.

5.4.1. Tactical Vehicle Driver Training.

5.4.1.1. Qualification training is required for all tactical vehicle operations, including the proper usage of spotters, when required. **(T-0)**

5.4.1.2. Operators of tactical motor vehicles requiring a license will be licensed in accordance with DoDI 6055.04, AFI 24-301, *Ground Transportation,* and AFMAN 24-306, *Operation of Air Force Government Motor Vehicles.* **(T-0)**

5.4.1.3. Owning units of tactical vehicles will use Air Force Quality Training Packages or training plans as established or approved by their corresponding MAJCOM/FLDCOM or functional area. **(T-0)**

5.4.1.3.1. If no standardized training plan is available, units will develop written plans of instruction and training documentation for the specific vehicle type. **(T-1)**

5.4.1.3.1. **(AFSOC)** AFSOC TGM SOI is the approved MAJCOM Syllabus of Instruction.

5.4.1.3.1.1. **(Added-AFSOC)** AFSOC units who have a need for TGM training shall develop and submit lesson plans that will meet the TASK/CONDITION/STANDARD of all items on the AFSOC TGM Critical Task List (CTL) for each specific vehicle they intend to use to AFSOC/A3T for review and approval or disapproval. **(T-2)** Previously approved lesson plans are allowed for use and will be maintained on the AFSOC Tactical Safety SharePoint page. **https://usaf.dps.mil/:f:/r/teams/HQAFSOCSE/Shared%20Documents/Tactical%20Safety?csf=1&web=1&e=60ahjU**.

5.4.1.3.2. Training plan, at a minimum, will address:

5.4.1.3.2.1. Vehicle type. **(T-1)**

5.4.1.3.2.2. Minimum required PPE for safe vehicle operation. **(T-1)**

5.4.1.3.2.3. Content of initial training required. **(T-1)**

5.4.1.3.2.4. Minimum hours of hands-on drivers training for operational conditions. **(T-1)**

5.4.1.3.2.5. Certification procedures. **(T-1)**

5.4.1.3.2.5.1. **(Added-AFSOC) Record Keeping.** Units will maintain a master listing of all trained personnel within the last 5 years IAW DODI 6055.04 paragraph 3.7.j. **(T-2)** Documentation at a minimum will capture vehicle type, instructor's name, student's name, date trained and refresher/sustainment training due date. **(T-2)**

5.4.1.3.2.6. Frequency and content of refresher training. **(T-1)**

5.4.1.3.2.7. Remedial training for observed undesirable driving behaviors. **(T-1)**

5.4.2. Tactical Motorcycle, ATV and UTV Operator Training.

5.4.2.1. Operators of government-owned or government-leased tactical ATVs or UTVs must complete an approved safety training course before operating the vehicle. **(T-0)**

5.4.2.1.1. Examples of courses are those offered by the Specialty Vehicle Institute of America and Recreational Off-Highway Vehicle Association.

5.4.2.1.2. Courses will be tailored to include specific mission requirements in addition to the manufacturer's requirements. **(T-0)**

5.4.2.2. Tactical Motorcycle Training.

5.4.2.2.1. All operators of tactical motorcycles will attend an initial training course for motorcycles as identified in **paragraph 4.4.5.1**. **(T-1)**

5.4.2.2.2. Additional training course will be in accordance with **paragraph 5.4.1** and tailored to satisfy specific mission objectives. **(T-1)**

5.5. (Added-AFSOC) Instructor Qualification.

5.5.1. **(Added-AFSOC)** Ultimately, it is the responsibility of the Unit Commander of units possessing Tactical Vehicles to identify, fund, and ensure there are a sufficient number of trained instructors available to perform required training.

5.5.1.1. **(Added-AFSOC)** Tactical Vehicle instructors will be appointed in writing by the Unit Commander. **(T-2)** For Special Tactics Squadrons, to include Special Tactics Training Squadron (STTS) and the 720th OSS, the unit Letter of Certifications (LOX) meets this requirement.

5.5.1.1.1. **(Added-AFSOC)** The Unit Commander should carefully consider who they appoint as Unit Tactical Vehicle Instructors. Unit Tactical Vehicle Instructors should be identified based off of maturity, skill, experience, and discipline. Tactical Vehicle instructors should be an NCO/SNCO, have completed some form of Risk Management (RM) training, displayed solid deliberate risk assessment during past training events, and, ideally, attended an advanced driving course at some point in their career.

5.5.1.2. **(Added-AFSOC)** Instructors must be train-the-trainer qualified. **(T-2)** Special Tactics personnel must have completed the Special Tactics Instructor upgrade instead of train-the-trainer. **(T-2)**

5.5.1.3. **(Added-AFSOC)** Tactical Vehicle instructors will at a minimum have attended a basic driver's course for the specific vehicle they will be instructing. **(T-2)** It is recommended that instructors also attend an advanced driver's course. When initial driver training is required, training may be accomplished by contract with a commercial driver training agency at unit expense. Examples of basic driver's course include, but are not limited to:

5.5.1.3.1. **(Added-AFSOC)** Unit approved course taught by a certified instructor

5.5.1.3.2. **(Added-AFSOC)** Polaris Tactical Drivers Course for MRZR

5.5.1.3.3. **(Added-AFSOC)** Recreational Off-Highway Vehicle Association (ROHVA) for UTV/ATV.

5.5.1.3.4. **(Added-AFSOC)** Specialty Vehicle Institute of America (SVIA) for specialty vehicles.

5.5.1.3.5. **(Added-AFSOC)** BC Customs Basic Drivers Course for SRTV

5.5.1.3.6. **(Added-AFSOC)** STTS Tactical Vehicles Course

5.6. (Added-AFSOC) Training Documentation and Currency.

5.6.1. **(Added-AFSOC)** Certified instructors providing training will issue an Air Force Form 483, Certificate of Competency, or other Wing/Group Safety approved locally produced form of documentation to trainees upon course completion. **(T-2)** For Special Tactics Squadrons, to include the STTS and 720th OSS, specific vehicle certification on the Squadron LOX and documentation in Special Tactics members individual training record/CFETP meets this requirement.

5.6.2. **(Added-AFSOC)** On the Job (OJT) training.

5.6.2.1. **(Added-AFSOC)** DAF Form 797, *Job Qualification Standard Continuation/Command JQS*. The instructor will document the qualification in the trainee's DAF Form 797 located in their training folder. **(T-2)**

5.6.2.2. **(Added-AFSOC)** DAF Form 623A, *On-The-Job Training Record - Continuation Sheet*. A DAF Form 623A will be completed for all practical exercises. **(T-2)** The DAF Form 623A consists of practical exercise unit number, date accomplished, trainee's strengths and weaknesses, instructor's recommendations and instructor's signature block.

5.6.2.3. **(Added-AFSOC)** The DAF Form 797 will be maintained in the individuals training records. **(T-2)** The DAF Form 623A is maintained and required for current training objective (i.e., award of the skill level or completion of qualification training). The supervisor will determine if any additional DAF Forms 623A will remain in the training record.

5.6.3. **(Added-AFSOC) Currency.**

5.6.3.1. **(Added-AFSOC)** Currency training will be tracked and logged using approved MAJCOM currency training recording methods. **(T-2)** For Special Tactics Squadrons, to include STTS and the 720th OSS, utilization of Squadron Aviation Resource Management (SARM) and DAF Form 1098, *Special Task Certification and Recurring Training*, meets this requirement. Units utilizing Tactical Vehicles lacking a SARM function must develop and maintain an operational process to track and log Tactical Vehicle training/currency. **(T-2)**

5.6.3.1.1. **(Added-AFSOC)** It is the responsibility of the TGM operator and the Unit Training Manager (UTM) to record, maintain, and track TGM currency training.

5.6.3.1.2. **(Added-AFSOC)** Individual "GO/NO GO" must be accomplished prior to TGM operations. **(T-2)** "GO/NO GO" will consist of current PT test, current physical, and currency on TGM vehicle specific training. **(T-2)**

JOHN T. RAUCH
Major General, USAF
Chief of Safety

(AFSOC)

JESSE K. MORSE, Col, USAF
Director of Safety

Terms

Air Force Foreign National—Is employed by the AF and is an individual who is a citizen of any country other than the United States.

AFSAS Training Module-MUSTT—A motorcycle tracking tool providing motorcycle operator demographics and information.

All-Terrain Vehicle (ATV)—Any motorized off-highway vehicle designed to travel on three or four low-pressure tires, having a seat designed to be straddled by the operator and handlebars for steering control, with or without passenger capability.

Civilian Personnel—Civil service employees of the DoD Components (including Reserve Component Military Reserve Technicians unless in a military duty status), non-appropriated fund employees (excluding military personnel working part-time to avoid dual reporting), Corps of Engineers Civil Works employees, youth or student assistance program employees, Navy civil service mariners with the Military Sealift Command, and Army and Air Force Exchange Service employees.

Commercial Design Vehicle—A vehicle designed to meet civilian requirements and used without major modifications by DoD activities for routine transportation of supplies, personnel, or equipment. Commonly referred to as commercially off the shelf.

Distracted Driving—Is any non-driving activity a person engages in that has the potential to distract him or her from the primary task of driving and increases the risk of crashing.

DoD-Component-Defined Training—Is an AFSEC/SEG approved organized training curriculum providing a motorcycle operator with academic, behavioral and hands on instruction to improve riding techniques and skills.

Driving—Operating a motor vehicle with the motor running, including while temporarily stationary because of traffic, a traffic light or stop sign, or otherwise. Does not include operating a motor vehicle with or without the motor running when pulled over to the side of, or off, roadway or parking area and has halted in a location where the driver can safely remain stationary.

Emergency Vehicles—Police, ambulance, fire, crash and rescue, explosive ordnance disposal and hazardous material response vehicles.

Government Motor Vehicle (GMV)—A motor vehicle that is owned, leased, or rented by a DoD Component (not an individual), primarily designed for over-the-road operations, and whose general purpose is the transportation of cargo or personnel. Examples of GMVs are passenger cars, station wagons, vans, ambulances, buses, motorcycles, trucks, and tractor-trailers. Vehicles on

receipt to and operated by non-DoD persons, agencies, or activities such as the U.S. Postal Service or the American Red Cross are not GMVs.

Government-Owned—For this instruction means any asset that is owned, leased, rented or controlled by a DoD Component.

Government Vehicle Other (GVO)—Vehicles designed primarily for off-the-highway operation such as specialty/special purpose vehicles (side by side, utility vehicle), construction-tracked vehicles, forklifts, road graders, agricultural-type wheeled tractors, and aircraft tugs. Includes military combat and tactical vehicles (e.g., tanks, self-propelled weapons, armored personnel carriers, amphibious vehicles ashore, and high-mobility multipurpose wheeled vehicles).

Hands-Free Device Operation/Use—The use of a vehicle voice-activated system or cellular phone in speaker mode or with a hands-free attachment (headset or single bud earpiece) that allows operators to keep both hands on the steering wheel and eyes on the road whenever the vehicle is in motion.

(Added-AFSOC) Heavy Tactical Vehicle—Includes all MRAP variants and similar heavily armored transportation vehicles. Possess a GVRW of 23,001 pounds and greater.

(Added-AFSOC) Light Tactical All-Terrain Vehicle—Light tactical all-terrain vehicles are a subset of the LTV category, includes MRZR, Polaris Ranger and other side-by-sides (SXV), Snow Machines, Jet Skis, Four Wheel ATVs, and Dirt Bikes.

(Added-AFSOC) Light Tactical Vehicle—Light tactical vehicles (LTV) include LTATVs, SRTVs, and other tactical vehicles with a GVRW 5,500 pounds or less and a speed greater than 35 MPH.

Low-Speed Vehicle (LSV)—Any 4-wheeled motor vehicle whose top speed is greater than 20 miles per hour but less than 25 miles per hour, and whose gross vehicle weight rating is less than 3,000 pounds. LSVs meet the design standards of 49 CFR Part 571 and will be designated by a manufacturer certification.

(Added-AFSOC) Medium Tactical Vehicle—Includes HMMWV, MTV and GMV 1.1. GVRW between 5,501 and 23,000 pounds.

Military Personnel—US military personnel on active duty, Reserve or National Guard personnel on active duty or performing inactive duty training (federal service), Service academy cadets, officer candidates in officer candidate school and Aviation Officer Candidate School, Reserve Officer Training Corps cadets when engaged in directed training activities, and foreign national military personnel assigned to the DoD Components.

Moped or Motorized Bicycle—Any two or three wheel device powered by human propulsion or electrical energy and an automatic transmission. Additionally, a motor that produces less than two gross brake horsepower, propels the device at a maximum speed of not more than 30 miles per hour on level ground, and has a maximum engine size of 49 cubic centimeters. A moped only refers to motor vehicles both clearly defined by and authorized in traffic by applicable traffic codes and laws.

Motorcycle—Any motor vehicle having a seat or saddle for the use of its operator and designed to travel on not more than three wheels (includes mopeds, motor scooters, and pocket bikes). This does not include ATVs.

Motorcycle Safety Representative—An individual appointed by installation, group or squadron commander to manage the unit's motorcycle mishap prevention program.

Motor Vehicle—Any transportation device with a self-contained power unit mounted on wheels or tracks or is designed to be towed by and used together with such self-propelled device that derives motive power from fossil fuels, electricity or other external sources of energy. The exception is devices moved by human power or those designed to be operated solely on a rail or track system.

Non-Motorized Transportation Devices—Included in this category are non-motorized skateboards, scooters, rollerblades, skates, and other wheeled devices used as transportation or for recreation. This category does not include standard non-motorized bicycles. Also not included are wheelchairs used by people with disabilities.

Off-Duty—DoD personnel are off-duty when they are not on-duty. Additional guidance on determining duty status is provided in AFI 91-204 and applies to this instruction.

On-Duty—DoD personnel are on-duty when physically present at any location where they are to perform their officially assigned work. Additional guidance on determining duty status is provided in AFI 91-204 and applies to this instruction.

Off-Highway Vehicle—Are motor vehicles owned, leased, rented or controlled by non-DoD Component entities or individuals primarily designed for off-highway use and capable of cross-country travel on land, snow, ice, marsh, swampland, or other natural terrain. Example of Off-Highway Vehicles are Side-by-Side, a Recreational Utility Vehicle, Utility Terrain Vehicle, construction-tracked vehicles, forklifts, road graders, agricultural-type wheeled tractors, and aircraft tugs.

On-road—The performance of a vehicle on a smooth or paved driving surface, such as a traditional road, street or highway.

Pedestrians—Individuals on foot within the trafficway, (e.g. walking, jogging, running or using a personal conveyance device).

Personal Transportation Device (PTD) —A personal transportation device that has a motor, battery, or electric propulsion system that powers movement. Does not include devices covered under the American Disabilities Act, listed at **https://www.ada.gov/opdmd.htm**, such as motorized wheelchairs, mobility aids, and other power-driven mobility devices (OPDMD).

Private Motor Vehicle (PMV)—Are motor vehicles owned, leased, rented or controlled by non-DoD Component entities or individuals primarily designed for over-the-road operations, and whose general purpose is the transportation of cargo or personnel. Examples of PMVs are passenger cars, station wagons, vans, ambulances, buses, motorcycles, trucks, and tractor trailers. A trailer towed by a PMV is considered part of the vehicle, even if it is detachable from the vehicle.

Retroreflective—The unique ability of a surface to reflect light back toward the light source even when the surface is not perpendicular to the light. Retro reflectivity is the measure of this unique property.

Risk Assessment—The deliberate process of detecting hazards, their causes, and systematically assessing the associated risks IAW AFI 90-802, *Risk Management*.

Roads (Roadway)—The part of a trafficway designed, improved and ordinarily used for motor vehicle travel, including shoulder and median when present. This includes parking lots but excludes the sidewalk or areas adjacent to roadways not designed for vehicle traffic. Excludes areas specifically engineered for recreational use, fitness or pedestrians.

Specialty/Special Purpose Vehicle—A commercially or military designed motor vehicle primarily for off-highway usage such as utility vehicles, side by sides, Light Terrain All-Terrain Vehicles and multipurpose vehicles. Includes special purpose motor vehicles such as tugs, jammers, ambulift, etc. both tactical and non-tactical motor vehicles. Excludes motorcycles or ATVs.

Sport bike—A motorcycle optimized for speed, acceleration, braking, and cornering on paved roads, typically with a front fork rack below 30 degrees. This includes any motorcycle where the foot-pegs are behind the operator's center of gravity or the manufacturer classifies or advertises it as a sport bike.

State-Approved Course—Any course accepted by the sponsoring State or host-nation in lieu of riding skills testing for the issuance of a motorcycle license or endorsement.

(Added-AFSOC) Tactical Ground Mobility—IAW USSOCOM Directive 350-16, SOF Tactical Ground Mobility is defined as the employment of any Government Motor Vehicle (GVO) or Government Motor Vehicle Other (GMVO) by USSOCOM personnel for tactical military training and/or operations.

Tactical Vehicle—A motor vehicle designed to military specification or a commercial design motor vehicle modified to military specification to meet direct transportation support of combat or tactical operations, or for training of personnel for such operations.

Text Messaging—Reading from or entering data into any handheld or other electronic device, including for the purpose of texting, e-mailing, instant messaging, obtaining navigational information or engaging in any other form of electronic data retrieval or electronic data communication.

Three-Wheeled Vehicle or Trike—A three-wheeled vehicle or trike other than an ATV, designed to be registered, licensed and driven on roadways.

Trafficway—Is any land open to the public as a matter of right or custom for moving persons or property from one place to another, includes shoulders, median and sidewalks.

Utility Vehicle—A vehicle specifically for utility use that is intended to transport a person(s) or cargo with a top speed in excess of 25 miles per hour and is 80 inches or less in overall width; designed to travel on 4 or more wheels, 2 or 4 tracks, or combinations of 4 or more tracks and wheels; using a steering wheel for steering control; with a non-straddle seat; with a gross vehicle weight rating of no more than 4,000 pounds; and with a minimum cargo capacity of 350 pounds. Examples include the Kawasaki Mule, Polaris Ranger, and John Deere Gator.

Attachment 2

UNIT'S INITIAL MOTORCYCLE SAFETY BRIEFING CHECKLIST (EXAMPLE).

Table A2.1. Unit's Initial Motorcycle Safety Briefing Checklist (Example).

TOPICS	BRIEF FOLLOWING ITEMS	YES	NO
AFI 91-207, *The US Air Force Traffic Safety Program*			
	Introduction to unit Motorcycle Safety Representative		
	Tracking & training requirements – AFSAS Training Module-MUSTT		
	Training and scheduling procedures		
	Verification of training completed (e.g. MSF card or training certification)		
	Unit motorcycle safety procedural requirements		
	Mentorship programs – (unit, installation, or private clubs)		
MAJCOM/Installation/Unit instructions			
	Requirements different from those already covered in previous instructions		
Licensing & registration requirements			
	State/Host-nation requirements		
	Local ordinances regarding motorcycles		
	Hazards associated with loaning/borrowing motorcycles		
	Hazards associated with renting motorcycles		
Local driving conditions			
	Weather conditions as applicable to riding		
	High hazard areas/intersections/ roads		
	MAJCOM/Installation/Unit DWI – DUI awareness programs and initiatives		
Unit mishap statistics			

	Brief unit mishap synopsis in past 3 years and top 3 causes		
	Commander’s policy regarding mishaps and mishap prevention		
Installation Motorcycle Safety Representative			
	Name/Phone/Email		
Rider’s Name:			
Signature:		Date:	
Briefer/Title:			
Signature:		Date:	

Attachment 3

MOTORCYCLE PRE-SEASON/ANNUAL BRIEFING CHECKLIST (EXAMPLE).

Table A3.1. Motorcycle Pre-Season Briefing Checklist (Example).

SUGGESTED TOPICS	RECOMMENDED BRIEFING ITEMS	YES	NO
Pre-ride inspection of motorcycle checklist	Tires & Wheels – Controls, Lights, Oil, Chassis, Stands (T-CLOCS) Inspection: Tires, Controls, Lights & Electronics, Oil & Fluids, Chassis, Side or Center Stands		
Wear proper PPE	Head protection, eye protection, foot and ankle protection, full fingered gloves or mittens, long trousers, long sleeved shirt or jacket (Abrasion resistant or leather offers more protection). Riders are encouraged to select PPE that incorporates fluorescent colors and retro-reflective material.		
Riding skills	Examples: BRC – MSRC		
	Start slow, short rides		
	Avoid highly congested areas until you have a chance to freshen up your observation and riding skills		
Weather/Local riding conditions	Conditions can change rapidly in early spring, be prepared		
Licensing/Registration	State/Local/Installation/ Host-Nation requirements		
Mishap trends	Local area – High mishap potential areas		
	Air Force – Top 3 mishap causes		
Risk Management	Risk Management process before riding		
Mentorship (if available)	Installation/Unit/Local mentorship organizations		

Attachment 4

MENTORSHIP REFRESHER TRAINING

A4.1. Installation or Unit organized mentorship refresher training will meet the following requirements:

A4.1.1. Organized curriculum with a written outline or lesson plan. **(T-3).**

A4.1.2. Consists of both instructional and hands-on content, minimum four hours, to include at least three skill based Defense Safety Oversight Committee (DSOC) Mentorship Modules from the table below. **(T-3).**

A4.1.2.1. Instructional content may be covered during hands-on training.

A4.1.2.2. Modules are available on the AFSEC/SEG SharePoint® site.

A4.1.2.3. Documentation of successful completion will be uploaded to the motorcycle operators MUSTT record. **(T-3).**

A4.1.3. Must be approved by the installation or squadron commander in coordination with the safety office. **(T-3).**

A4.1.4. If refresher training incorporates an official mentorship ride a pre-ride safety briefing and T-CLOCS inspection will be conducted by commander or designated representative. **(T-3).**

Table A4.1. Skill-Based DSOC Mentorship Modules.

Skill-Based DSOC Mentorship Modules	
Module #	Name:
06	Seeing and Being Seen
08	Risk Awareness
09	Distractions and Fatigue
10	Highway Hypnosis
16	Modifications: Changing Motorcycle Dynamics
17	Personal Protective Equipment
18	Riding in Different Environments
21	Highway and Interstate Riding Techniques
22	Dynamics of Cornering and Traction Management
24	Cornering Proper Speed and Lane Position
25	Dynamics of Stopping
27	Emergency Braking
33	Stunting and Risky Behavior

Attachment 5

TRAFFIC SAFETY PROGRAM OVERVIEW CHECKLIST

A5.1. Traffic Safety Program Overview Checklist.

A5.1.1. Does the installation traffic code include a child restraint requirement? Reference paragraphs **1.3.3.1.1** and **3.5.1**.

A5.1.2. Does the Traffic Safety Coordination Group membership include, at a minimum, installation safety, security forces, civil engineering and transportation functions? Reference **paragraph 1.3.6.4**.

A5.1.3. Does the Traffic Safety Coordination Group coordinate with local authorities to mitigate off-base traffic hazards? Reference **paragraph 1.3.6.5**.

A5.1.4. Does the unit in and out processing procedures include contacting the motorcycle safety representative? Reference **paragraph 1.3.4.4**.

A5.1.5. Does the unit conduct initial motorcycle safety briefing? Reference **paragraph 1.3.4.5**.

A5.1.6. Are Motorcycle Safety Representative appointment letters forwarded to the safety office? Reference **paragraph 1.3.4.3**.

A5.1.7. Are Motorcycle Safety Representatives trained within 30 days of appointment? Reference **paragraph 1.3.5.1.1**.

A5.1.8. Are Motorcycle Safety Representatives using AFSAS Training module-MUSTT to track active military riders? Reference paragraphs **1.3.9.5** and **4.1.1.2.2**.

A5.1.9. Have commanders established duty-hour limits for operators of GOVs? Reference **paragraph 3.4.1**.

A5.2. Traffic Safety Training Checklist.

A5.2.1. Does the unit have written training guidance and vehicle specific Plan of Instruction for government-owned motor vehicles (any self-propelled vehicle)? Reference paragraphs **1.3.4.10**, **2.2.2.4**, **3.2** and **4.7**.

A5.2.2. Is the installation Safety Office presenting local conditions information at the installation's Newcomer Orientation Program? Reference **paragraph 4.3**.

A5.2.3. Is a Driver Improvement and Rehabilitation Training class available? Reference paragraphs **1.3.3.10** and **4.6**.

A5.2.4. Are annual motorcycle safety briefings being conducted? Reference paragraphs **1.3.4.6** and **1.3.9.4**.

A5.2.5. Is approved motorcycle training made available for military riders? Reference paragraphs **1.3.3.7** and **4.4.1**.
