OPR: 51 SFS/S5

Certified by: 51 MSG/CC
(Col Kevin R. Mantovani)

Supersedes: 51FWI31-113, 15 October 2015

Pages: 50

This instruction implements Air Force Policy Directive (AFPD) 31-1, *Integrated Defense,* and complements Air Force Manual (AFMAN) 31-113, *Installation Perimeter Access Control (FOUO)*, AFMAN31-113_PACAFSUP-O, and United States Forces Korea Regulation (USFKR) 190-7, *Installation Access Control.* It provides guidance and procedures on installation access on Osan Air Base (AB). It applies to all personnel assigned or attached to the 51 FW and /or who require access to Osan AB's Status of Forces Agreement (SOFA) exclusive property. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through the appropriate functional chain of command. Ensure that all records created as a result of processes prescribed in this publication are maintained IAW AFMAN 33-363, *Management of Records*, and disposed of in accordance with (IAW) the Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS). The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

SUMMARY OF CHANGES

This document has been substantially revised and must be completely reviewed. Changes incorporate USFKR 360-4, *Good Neighbor Program* and USFKR 190-7 updates and included: modifications to the Good Neighbor Program; the addition of base pass application approval

procedures; the addition of installation access document retrieval from personnel who no longer require installation access; substantial expansion of temporary vehicle registration procedures; the revision of Korean General Schedule (KGS) employee escort privileges to allow KGS employees to escort a maximum of 3 personnel and 0 vehicle; and other various updates to verbiage to reflect modern procedures and to clarify existing protocols. This publication supersedes 51FWI 31-113, 15 October 2015.

Chapter 1

OSAN AIR BASE BOUNDARY AND INSTALLATION ACCESS AUTHORITY

1.1. Base Boundary (BB). Per USFKR 10-2, *Installation Management and Base Operations*, and USFKR190-50, *Law Enforcement Procedures in Korea*, the 51 FW/CC is designated as the Area V Commander. Area V consists of Osan AB and the outer boundaries reaching out to a three (3) kilometer radius from the perimeter of the base. Area V will also include Suwon AB with regards to Air Force requests for installation access. The 51 FW/CC has been delegated authority over all military and SOFA personnel and property to include law enforcement (LE) responsibility within these areas.

1.1.1. Osan AB's armistice BB is defined by the base perimeter out to the edges of the SOFA granted land. Refer to the Osan AB *Integrated Defense Plan* (IDP) regarding Osan AB's BB.

1.1.2. Operate only the minimum number of perimeter Entry Control Points (ECPs) required for operational needs. ECPs will not remain open for convenience.

1.2. Objective. The objective of installation access control is to restrict and/or control entrance to Osan AB to only authorized persons and their vehicles.

1.2.1. Installation access control procedures include identity proofing and vetting to determine the fitness of an individual, and the issuance of access credentials.

1.3. Command Authority. The 51 FW/CC exercises the authority to publish and enforce command/installation-specific guidance and procedures for safeguarding personnel, facilities and property. This authority is derived from the Internal Security Act of 1950 (50 U.S.C. 797), DODI 5200.08, *Security of DOD Installations and Resources and the DOD Physical Security Review Board (PSRB)*, DOD 5200.08-R, *Physical Security Program*, USFKR 190-50, USFKR 190-7 and this instruction. Host Nation defense cooperation agreements and SOFA should also be applied.

1.4. Jurisdiction. The 51 SFS/CC will work closely with the 51 FW/JA, Korean National Police (KNP) and USFK to establish protocols for handling civilian violators. 51 SFS personnel will be knowledgeable of the type of jurisdiction and governing USFK directives. Refer to AFMAN 31-201, Volume 3, *Flight Operations*, for additional information on jurisdiction.

1.5. Responsibilities.

1.5.1. The 51 FW/CC will ensure Republic of Korea (ROK) Air Force Operations Command (AFOC) adhere to the requirements of this regulation, to include the use of the Defense Biometrics Identification System (DBIDS).

1.5.2. The 51 SFS Director of Plans and Programs (51 SFS/S5) through the Pass and Registration Office (51 SFS/S5P), located in bldg 765, owns the responsibilities and procedures in issuing passes, registering vehicles, and enrolling credentials into DBIDS IAW applicable regulations and policies.

1.5.3. Approval Authority: The 51 FW/CC delegates approval authority for the issue of the USFK Form 37EK (AUTO), *USFK Pass/ID – Employee*, identification card, as outlined below:

1.5.3.1. The 51 MSG/CC has delegated approval authority for access to the installation under Force Protection Condition (FPCON) Alpha and Bravo. The 51 MSG/CD and 51 SFS/CC will act as the alternates to the 51 MSG/CC. This delegation authorizes approval of installation passes for Osan AB and Area V (including Suwon AB). Delegated members serve as the approving authority in Section V of the USFK Form 82-E, *Application for Installation Base Pass*.

1.5.3.2. The 51 FW/CC is the approval authority for access to Area V installations under FPCON Charlie and Delta and the Sponsored Guest Program (Honorary Commander/Good Neighbor). In the absence of the FW/CC this approval authority will be delegated to the 51 FW/CV.

Chapter 2

INSTALLATION ACCESS PROCEDURES

2.1. Osan AB Entry Control Points (ECPs). ECPs are integral to the defense of Osan AB. ECPs include those used on a routine basis, day-to-day operations and those staffed only on a specified day or for a specific period of time. Osan AB ECPs may be used for motor vehicles only, pedestrians only, or both. See authorization below:

Table 2.1. Osan AB ECPs.

Gate Location	Pedestrians	Motor Vehicles	Bicycles	Operating Hours
Main Gate Vehicle	N	Y	Y	Inbound 0500-2200 Outbound 0500-2200
Main Gate Pedestrian	Y	N	Y	24 hours
Morin Gate*	N	Y	Y	24 hours
Morin Gate VCC*	N/A	N/A	N/A	0600-2200
Morin Gate Pass & ID*	N/A	N/A	N/A	0700-1600
Davis Gate	N	Y	N	As needed
Hill 180 Gate	N	Y	N	As needed
AFOC (ROKAF Gate)	Y	Y	Y	24 hours

2.2. Installation Perimeter Controls. To restrict entry to authorized personnel, the perimeter of Osan AB shall have appropriate fencing, lighting and signage that clearly delineates the legal boundary of the installation. This is a legal demarcation and is not necessarily the same as the tactical boundary required by the BB. If the perimeter contains exploitable gaps and is left uncontrolled or unmonitored, it may permit unauthorized personnel the ability to gain access.

2.2.1. The installation perimeter is effectively controlled when:

2.2.1.1. Personnel and vehicles requesting legitimate access are channeled to the ECP for screening and searches.

2.2.1.2. Personnel and vehicles attempting illegal access by breeching the perimeter are likely to be observed and intercepted.

2.2.2. Several factors influence how robust perimeter controls must be:

2.2.2.1. The amount of risk the commander accepts or opts to mitigate.

2.2.2.2. The capabilities of the identified threat.

2.2.2.3. The resources available to build and maintain perimeter controls.

2.2.2.4. Weather patterns and terrain.

2.3. Entry requirements. Individuals (over the age of 10) desiring access to Osan AB and/or who travel through and/or park on any portion of the installation must present an authorized form of a DoD issued identification card as outlined in **Chapter 3**, or a USFK authorized non-DoD identification card outlined in **Chapter 4**. All vehicles (privately owned or non-tactical government owned) must be properly registered in DBIDS and display a DBIDS registration sticker and/or authorized USFK Form 192E (temporary vehicle pass).

2.4. DBIDS. DBIDS on Osan AB is not a USAF managed system. DBIDS is a joint development effort between the Defense Manpower Data Center (DMDC) and the USFK, Provost Marshal Office (PMO). The purpose is to provide a common access control system throughout the ROK against unauthorized access and aid USFK in easily identifying and authorizing access to personnel entering USFK installations. DBIDS automates personnel registration procedures and functions, which includes a standardized automated personnel identification pass (USFK Form 37EK (AUTO)), a centralized database of all personal vehicles (both SOFA & authorized Non-SOFA), and an identification verification system based on Digitized Fingerprint Minutia Data (DFMD).

2.4.1. DBIDS Access. The use of DBIDS for installation access is mandatory. A DBIDS scanner will be used at all ECPs to conduct a 100% hands on scan of both identification cards and DBIDS vehicles decals. All DoD affiliated personnel entering Osan AB (military, civilian, dependents, etc) are required to present their DoD Identification (ID) card. Military personnel must present a copy of their orders or leave authorization. Dependents, civilians, and retirees must present a valid passport.

2.4.1.1. In the event of a lost identification card, only DoD personnel can gain access to the installation through DBIDS DFMD verification.

2.4.1.2. If DBIDS is not operational, the entry controllers will verify access against the debarment roster.

2.4.1.3. All newly assigned personnel to Osan AB (e.g. military, civilian, dependents, etc) are required to register in DBIDS within the first ten days of assignment. When enrolling in DBIDS, military personnel present their DoD ID card and orders, while civilian employees will present their DoD ID card and passport with current Visitor Intention to Stay Abroad (VISA) stamp. Contractors registering in DBIDS must present a USFK Form 700-19A-R-E, *Invited Contractor and Technical Representative Personnel Data Report,* or for non-SOFA contractors, a USFK Form 82-E. Contractors will not be granted unescorted access until these documents have been approved by the designated approval authorities.

2.4.1.3.1. Prior to enrollment in DBIDS, during the first ten (10) consecutive days in the ROK, unescorted installation access for permanently assigned personnel is granted with the use of the DoD or ROK military ID card in conjunction with military orders, leave paperwork or passport.

2.4.1.4. Visitor children under age 11 do not have to be registered in DBIDS when escorted by a DoD ID card holder. This also applies to Republic of Korea Air Force (ROKAF) dependents when accompanied by their sponsor/parent who have a valid USFK Form 37EK ID card.

2.4.2. Lost/stolen DoD ID Card. If an authorized individual had their ID card lost or stolen, the Installation Entry Controller (IEC) will contact the Base Defense Operations Center (BDOC) with the individual's name and duty phone number. The IEC will then verify the individuals DFMD in DBIDS and instruct the individual to report to their First Sergeant to receive a lost identification card letter. They will then report to BDOC to accomplish an AF Form 1168, *Statement of Suspect/Witness/Complainant*, summarizing the events that led to the loss of the ID card. Once the statement has been completed, they will report to the Military Personnel Flight (MPF) customer service with the lost identification letter and AF Form 1168 to replace the ID. The individual will then report to Pass & Registration (bldg 765) to register the ID card into DBIDS.

2.4.2.1. Lost/stolen USFK Form 37EK (AUTO) or non-US CAC (with blue stripe). If an individual loses their USFK Form 37EK (AUTO)/non-US CAC and attempts to enter the installation, the IEC will contact BDOC with the individual's name and duty phone number. The IEC will then contact the individuals sponsor and have them escort the individual to BDOC to accomplish an AF Form 1168. Once the statement has been completed, they will be instructed to report to Pass & Registration (bldg 765) to replace the USFK Form 37EK (AUTO) or the MPF for Common Access Cards (CACs).

2.4.3. Personnel are only authorized to escort guests onto the installation with a DBIDS registered ID card.

2.5. Escorted Entry. The procedures listed below are used to escort personnel onto the installation. Guests may be escorted onto the installation by US/ROKAF military personnel, US/ROKAF military dependents (age 16 and above), US citizens with a DoD ID card, and other personnel authorized by possession of a USFK Form 37EK (AUTO) identification card.

2.5.1. Designated Country Personnel (DCP). Access approval for DCP will be followed IAW USFKR 190-7. Designated countries are those of counterintelligence concern to USFK that may have policies or engage in activities that are contrary to the interest of the United States. Refer to USFKR 190-7 or contact the Section Chief, Pass & Registration at 784-1761 for any questions concerning countries of counterintelligence concern. **Note:** Security Forces maintains the current Designated Countries List (DCL) provided by USFK. This list will be present at each of the ECPs, but it is not available for public distribution.

2.5.1.1. DCP children who are full-time students at a foreign or international elementary, middle, or high school do not require DCP access approval when participating in a supervised and organized school event in Korea (e.g. school sports, concerts, drama, etc).

2.5.1.1.1. Visiting school DCP coaches, teachers, staff, parents, and chaperones will not be granted similar access for school events unless a DCP request has been previously submitted and approved.

2.5.2. Non-Korean personnel, including US citizens, must present a valid passport with a current visa or a ROK alien registration card and must exchange another form of valid photo ID such as a driver's license for escorted entry.

2.5.2.1. All guests must have an official form of photo identification to enter the installation. Non-Korean guests must present a valid passport or Korean Alien Registration Card. **Note:** If the only ID the guest has is a passport, entry controllers are authorized to accept the sponsor's picture ID. This ID must be other than the one authorizing them onto

the installation (i.e. DoD ID card). The guest will be required to present the passport for identification and to ensure they have a current immigration visa stamp, but the passport will **not** be kept by entry controllers.

2.5.3. Korean national guests, age 18 and over, must present an official ROK Government photo ID. The following are acceptable forms of ID: Korea Identification (KID) card, ROK Driver License, ROK certificate of KID, Korean passport, Korean National Police Agency (NPA) Identification card issued to Korean NPA personnel, ROK Military ID, ROK Ministry of National Defense ID, other ROK Government Ministry official ID.

2.5.3.1. Only Korean driver licenses where the 7th number is a 1, 2, 3 or 4 may be accepted as a valid form of identity for visitors (e.g.; xxxxxx-1xxxxxx, xxxxxx-2xxxxxx, xxxxxx-3xxxxxx, or xxxxxx-4xxxxxx). Any Korean driver licenses that have a number other than 1, 2, 3 or 4 in the 7th position shall not be used to verify identity or nationality for visitor personnel, as these licenses are issued to non-Korean personnel.

2.5.3.2. Koreans, ages 12 to 17, may use a school pass or a Korean Registration Certificate as an acceptable means of photo ID. Children under the age of 12 do not require an ID, temporary pass, or registration in DBIDS, when escorted by an authorized DoD/ROKAF ID card holder with escort authorizations. **Note:** ROKAF children will be allowed to apply for USFK Form 37EKs (AUTO) at the age of 6.

2.5.4. The sponsor and guest must appear together at the designated entry control point when requesting or returning passes. If a sponsor voluntarily leaves the installation with their guest with intentions of returning, deregistering the guest is not necessary as long as both the sponsor and guest return together. The escort/sponsor must show their valid ID card to the entry controller, assume complete responsibility for the conduct of his/her guest(s) and remain with the guest(s) at all times while on the installation. The sponsor will retain the guest pass until they sign their guest(s) off the installation. Failure to return a pass by the required time could result in escort privileges being revoked. As a function of DBIDS, escorts/sponsors cannot be swapped.

2.5.4.1. Personnel authorized visitor escort privileges for Osan AB are prohibited from escorting workers such as contractors, laborers, equipment, or vehicles onto Osan AB for personal gain. Personal gain is defined, but not limited to, the receipt of monetary gifts or favors.

2.5.4.2. Non-DOD personnel who possess escort privileges (USFK Form 37EK (AUTO)) are prohibited from escorting workers, equipment, or vehicles onto Osan AB for the purpose of transporting workers to a different job site not associated with the sponsoring organization's original USFK Form 37EK (AUTO) justification.

2.5.4.2.1. Personnel who violate the visitor escort/pass policy will have their escort privileges revoked IAW **paragraph 2.6**.

2.5.5. Escort Privileges. Below are the escort privileges for the more common passes used at Osan AB. For a more detailed listing refer to Appendix E of USFKR 190-7.

2.5.5.1. US/ROKAF military members, dependents, DoD civilian employees, DoD retired military, and DoD retired military dependents are authorized escort privileges up to four guests and one vehicle onto the installation. **Note:** ROKAF dependent escort restrictions are further outlined in **Chapter 9**.

2.5.5.2. KGS employees are authorized escort privileges of a maximum of three people and no vehicle escort. Sponsors request personnel and vehicle escort authorizations when submitting the USFK Form 37EK (AUTO) application (USFK Form 82-E).

2.5.5.3. Contractors/vendors are authorized escort privileges of a maximum of three people and no vehicle escort. Sponsor designates authorization.

2.5.5.4. Sponsored Guests.

2.5.5.4.1. Special Advisory Counsel members are authorized escort privileges of a maximum of three people and one vehicle escort.

2.5.5.4.2. Honorary Commanders are authorized escort privileges of a maximum of three people and no vehicle escort.

2.5.5.4.3. Good Neighbors are authorized escort privileges of a maximum of one person and no vehicle escort.

2.5.5.5. ROK law enforcement/government officials ae authorized escort privileges of a maximum of three people and no vehicle escort.

2.5.5.6. Personnel issued a USFK Form 37EK (AUTO) are only authorized escort privileges when it is indicated on the front of the pass in the Escort Privileges section.

2.5.6. The BDOC will be contacted in any situation where a questionable form of identification is presented by a visitor for access to the installation.

2.5.7. Visitors must relinquish a valid form of identification to the entry controller to receive a visitor pass. This information will also be recorded on an escort log, which will be present at each visitor control center. The identification will be maintained at the visitor control center until the pass is returned.

2.5.8. The names of all visitors will be checked against the DBIDS debarment roster.

2.5.9. The following are two types of visitor passes authorized:

2.5.9.1. Visitor Pass: Visitor passes will be available for up to a 96 hour time period from the time of registration at the visitor gate. These passes are issued from the gate via a red in color (*ESCORTED*) USFK Form 37EK (AUTO) marked with a "V." Visitors must either be re-registered by an authorized escort or de-registered by their sponsor and exit the installation after each 96 hour period. (Note: the same sponsor who registers a guest must also deregister a guest. This is a mandatory function of DBIDS). **Note:** A 96 hour guest pass does not exempt a US military member from established curfew hours.

2.5.9.2. Short Term Visitor Pass: Personnel visiting assigned USFK members (active duty, civilian or contractor) may receive an *UNESCORTED* USFK Form 37EK (AUTO) identification card valid up to 60 days. The visitor in this category typically does not live in the ROK. Short term visitor pass requests will not be accepted for the purpose of circumventing the requirements of a visitor pass or for the convenience of a sponsor who

may have family living in the ROK. Short term visitor pass requests will also not be accepted from sponsors who reside in unaccompanied housing for the purpose of sponsoring guests who are residents of the ROK (e.g. local nationals who are a girlfriend/boyfriend, etc). Exceptions are limited to visiting family members (parents, siblings, etc.) who do not hold a DOD ID card. Short term visitor pass holders are not authorized escort privileges.

2.5.9.2.1. Sponsors should submit a completed USFK Form 82-E to the Pass & Registration office at least 30 days prior to the visit. Additional categories of pass requests are IAW USFKR 190-7 Chapter 2-4 and Appendix E.

2.6. Escort Violations. The following are considered escort violations:

2.6.1. Not remaining with the guest at all times while on the installation.

2.6.2. Handing off a guest to another person.

2.6.3. Not escorting the guest to the same ECP where the guest was signed in when returning the guest pass. Exception: due to Morin Gate closing at 2200 hrs, if any guest is signed in at that gate, they are required to sign out at the Main Gate between the hours of 2200 and 0600 hrs.

2.6.4. Failure to sign out a guest before the expiration of the visitors pass.

2.6.5. Personnel who violate the escort policy will have their escort privileges revoked and will remain revoked for the minimum penalty period as outlined below:

2.6.5.1. First-time offenders who violate the escort policy will receive a 30-day revocation of escort privileges.

2.6.5.2. Second-time offences will result in a six month (180 days) revocation.

2.6.5.3. Third-time offenders will receive a revocation of escort privileges until the member has departed from the installation (PCS) or one year after the offense has occurred, whichever occurs first.

2.6.6. Security Forces will conduct an AF Form 1168, blotter entry, and Security Forces Management Information System (SFMIS) report. Security Forces will also issue a Violation of Osan Air Base Escort/Visitor Pass Policy to the sponsor who has committed the escort violation.

2.6.7. If the offender has a Non-DoD ID card (e.g. USFK Form 37EK (AUTO)), the offender will be required to report to the Pass & Registration office to have their escort privileges removed from the ID card. Reinstatement occurs after the revocation period has expired and the individual reports to the 51 SFS Reports & Analysis section in bldg 391.

2.7. Sponsoring individuals/organizations will retrieve and return base access credentials to include vehicle registration decals when:

2.7.1. No longer required.

2.7.2. Official business relationships have been terminated.

2.7.3. Access documents have expired.

2.7.4. The sponsoring individual/organization will return these documents to bldg 765 within five days for destruction. Note: Sponsoring organizations are required to track, and report every 30 days to S5P, the number of active installation access passes they're sponsoring at any given time.

2.8. Force Protection Condition (FPCON) Restrictions. DoD/ROKAF ID card holders are authorized access during all FPCONs. For non-DoD/ROKAF ID card holders, the highest required FPCON will be requested by the sponsoring organization and, as approved, reflected on the USFK Form 37EK (AUTO).

2.8.1. The 51 SFS/Pass and Registration will limit FPCON access to Bravo if not specified by the sponsoring organization.

2.8.2. During FPCON Charlie or Delta, routine visitor operations will cease. Additional restrictions on installation access may be directed by the 51 FW/CC.

2.8.2.1. When an Installation, Area, or USFK is in FPCON Charlie or Delta, only personnel with the corresponding authorized FPCON Charlie or Delta access may enter an installation.

2.9. Commercial, Delivery and/or Contract Vehicles Access. Commercial, Delivery and/or contractor vehicles are defined as vehicles larger than a standard sedan (a bongo truck is not exempt) used to introduce items for commercial, construction, delivery and/or contractor purposes. All vehicles fitting this description will enter the commercial vehicle access control point to be searched for contraband and explosives.

2.10. ECP Closure Procedures. All gates will be closed upon notification of an alarm activation originating from all Arms, Ammunitions and Explosive (AA&E) facilities and facilities storing funds. Additionally, when a robbery has taken place at any facility and a description of the perpetrator/vehicle is obtained, the BDOC will direct the gates be closed ASAP.

2.10.1. When stop, check and pass procedures are implemented, the entry controller is required to stop personnel and vehicles from entering or departing the installation or controlled areas. 51 SFS personnel will check for proper identification and allow the individual to enter the installation after the identification is determined to be satisfactory and there is another vehicle blocking in place to block the inbound lanes. Unsafe conditions may cause entry to be temporarily delayed. Outbound traffic is stopped until the alarm or situation is cleared.

2.10.2. All installation perimeter gates must be locked when not in use. Locks must provide protection equivalent to the fencing itself.

2.10.3. Conducting Random Installation Entry/Exit Vehicle Checks (RIEVC). Osan AB's Integrated Defense Council (IDC) determines when, where and how to implement random vehicle checks and how they will be conducted.

2.10.4. The IDC institutes the RIEVC program. The intent is to protect the security of the command and to protect government property. Checks are not conducted merely to establish probable cause.

2.10.5. Every three months 51 SFS/S3O will submit a set of random dates and vehicles to be inspected to the 51 MSG/CC. The 51 MSG/CC approves and signs the RIEVC letters. 51 SFS/S3O will disseminate to Flight Operations to implement.

2.10.6. When conducting a RIEVC, the SF member conducting the search will look for government property, classified documents, illegal goods and contraband.

2.10.6.1. All individuals departing the installation with government property will have in their possession an AF Form 1297, *Temporary Issue Receipt*.

2.10.6.1.1. The AF Form 1297 will have the property in question described on it and will be signed by the squadron representative who can authorize the removal of the property from the installation.

2.10.6.1.2. If the individual does not have an AF Form 1297, BDOC will contact their organization to find out if he/she is authorized to have the property.

2.10.6.2. Personnel must be in possession of DD Form 2501, *Courier Authorization*, or a courier authorization memorandum signed by their Squadron Commander or security manager to transport classified material off the installation. Packages must display an exemption from search notice. **Note:** Refer to AFI 16-1404*, Air Force Information Security Program*, for further information concerning transport of classified material. Any person found in possession of any classified documents and attempting to depart the base without the required documents will be detained.

2.10.7. Refusal to submit to the REIVC may result in a debarment from the installation as determined by the 51 FW/CC.

2.10.8. Unauthorized Entry. Under Title 50 U.S.C. 797, any guidance issued by the 51 FW/CC that include parameters for authorized entry to or exit from a military installation is legally enforceable against all persons, whether or not those persons are subject to the Uniform Code of Military Justice (UCMJ).

2.10.8.1. Military personnel who re-enter an installation after having been properly ordered not to do so will be apprehended.

2.10.8.2. Civilian violators may be detained and either escorted off the installation or turned over to KNP. Always consult with 51 FW/SJA when dealing with unauthorized entry situations. Civilian violators may be prosecuted under Title 18 U.S.C. 1382.

2.11. Exceptions to Policy. Personnel requesting an exception to policy concerning any chapter, section or paragraph in this instruction must forward a written request through the appropriate individual unit chain of command to 51 SFS/S5. The request will then be further coordinated to the 51 FW/CC or designated representative for final decision. Requests for exception to policy must provide, at a minimum, justification for the exception and include appropriate compensatory measures.

Chapter 3

DOD PERSONNEL INSTALLATION ACCESS

3.1. Methods of Access. Per DoDI 1000.13, *Identification (ID) Cards for Members of the Uniformed Services, Their Dependents, and Other Eligible Individuals,* and AFI 36-3026, Volume 1_(IP), *Identification Cards for Members of the Uniformed Services, their Eligible Family Members, and Other Eligible Personnel*, the DoD provides members of the uniformed services with a distinct ID card identifying them as active duty, Guard, Reserve or retired members and authorizing them to receive Uniformed Services' benefits and privileges.

3.2. Types/Forms of Authorized Identification. DoD (to include both SOFA and non-SOFA) personnel desiring access to Osan AB must present one of the following types of individual access documents listed below in order to gain unescorted access: **NOTE:** Children age 11 and under do not require an ID or temporary pass when escorted by an authorized DoD ID card holder.

3.2.1. Automated CAC Geneva Conventions Identification Card. The CAC is white in color and contains the bearer's photograph in the upper left hand corner of the card. The organizational (AF, Army, Navy, Marine Corp and US Coast Guard) seal is located to the right of the bearer's photograph. The only other information on the front of the card is the bearer's name, pay grade, rank, date of issue and expiration date. The back of the card contains a ghost image photograph of the bearer on the left side of the ID. Other information on the back of the card includes the bearer's date of birth, DoD ID number and Geneva Convention category (except non-emergency civilian employees and contractors).

3.2.1.1. The CAC issued to non-U.S. citizen personnel is now valid as an Installation Access Document for physical access to Osan AB. The non-U.S. citizen DoD CAC, easily recognizable by its distinct horizontal ***blue*** stripe, is authorized to be registered in the USFK DBIDS, in accordance with the authorizations approved through the USFK Form 82E, pass application process. Personnel who have this CAC are **NOT** permitted to possess both the CAC and a USFK Form 37EK (AUTO).

3.2.1.2. The U.S. DoD Contractor CAC (without an approved USFK Form 700-19A-R-E, easily recognizable by its distinct horizontal ***green*** stripe, is authorized to be registered in DBIDS, in accordance with the authorizations approved through the USFK Form 82E. Emergency Essential (EE) contractor CACs do not contain the green stripe, however are clearly marked as contractors.

3.2.2. Uniformed Services Identification Card - DD Form 2S(RES), *Armed Forces of the United States Geneva Conventions Identification Card (Reserve)(Green)* (United States Uniformed Services Identification Card) (Active/Reserve/Retired) A green/red/blue ID card issued to individual ready reserve, reserve retired and active duty retired members of the uniformed services.

3.2.3. Uniformed Services Identification and Privilege Cards. A brown ID card issued to DoD employees and invited contractors/technical representatives. DD Form 2764S, *United States DoD/Uniformed Services Civilian Geneva Conventions Identification Card (TAN),* is issued to personnel with Geneva Convention status. DD Form 2765S, *Department of Defense/Uniformed Services Identification and Privilege Card (TAN),* is issued to personnel

without Geneva Convention status, to include honorably discharged veterans rated 100 percent disabled by the Department of Veterans Affairs (DVA).

3.2.4. Uniformed Service ID cards - DD Form 1173, *Uniformed Services Identification and Privilege Card* and DD Form 1173-1, *Department of Defense Guard and Reserve Family Member Identification Card*. A brown/red ID card issued to family members of active/reserve duty military, DoD employees, invited contractors/technical representatives, and discharged 100 percent disabled veterans.

3.2.5. The DoD Civilian Retiree ID Card. A CAC-like ID card issued to personnel who provided a career of service to DoD and the U.S. military and who may be permitted space available usage of MWR facilities.

3.2.6. AFOSI Form 59, *AFOSI Credential*/AFOSI Form 59A, *AFOSI Credential (Signature Portion),* AF Form 688A, *Security Forces Investigator Credential* or USFK Form 142EK, *USFK Police ID Card* (or any other federal U.S. or ROK form of law enforcement/state credential). AFOSI, SF Investigators and their Korean Police Detectives must show their CAC/USFK Form 37EK (AUTO) ID card to gain entry on to the installation.

3.2.6.1. Individuals being escorted by AFOSI and SF Investigations will be allowed access to the installation with properly issued USFK Form 37EKs (AUTO) (a red-in-color photo ID displaying Military Police (MP) crossed pistols). The escortee does not require additional identification, however will remain with the sponsor at all times.

3.2.7. USFK Provost Marshall Office issues Distinguished Visitor (DV), USFK Form 37EK (AUTO) escort passes (a red-in-color photo ID displaying MP crossed pistols) to ease access requirements for those non-DoD "Distinguished Visitors" (as defined in USFKR 1-23, *Distinguished Visitors*) who do not possess a DoD ID card and do not require a permanent pass. Since DV passes lack personal identification information (PII), photographs, and DBIDS registration data, they will only be used by the designated escort officer for official DV escort and will be maintained between escort missions by the using staff agency as a controlled item. These passes are authorized for use at all USFK installations.

3.2.8. Personnel who have authorized dual status (e.g. retiree who is also a US Civilian employee) are allowed to maintain separate forms of IDs for each category.

Chapter 4

NON-DOD PERSONNEL INSTALLATION ACCESS

4.1. Methods of Access. Locally Produced Physical Access Control System (PACS) Passes/Cards, i.e. USFK Form 37EK(AUTO). Individuals receiving a locally produced credential must have a validated need to enter the installation and be properly sponsored. The individual must submit to applicable identity proofing, vetting and fitness determination and conform to USAF protocol requirements for physical access and credential/screening standards as specified in this instruction and USFKR 190-7. The USFK Form 37EK(AUTO) will provide access only at the base the form was issued, unless permission is granted for USFK wide access or another specific installation (e.g. Camp Humphries, Kunsan or Yongsan). Access authorizations may vary based on needs and requirements of the installation. **NOTE:** Personnel will not possess more than one type of USFK Form 37EK(AUTO) installation access document, nor are they authorized to have a USFK From 37EK(AUTO) and a DoD ID card.

4.2. Categories of Personnel. Personnel who require routine installation access may include, but are not limited to, contractors, employees, volunteers, visitors (official and unofficial), delivery organizations, service providers, vendors, interns, Sponsored Guest (formerly known as Good Neighbors (GN)/Honorary Commanders (HC)) and ROK military personnel, family members and employees. Individuals may or may not be U.S. citizens. **Note:** The criteria for the Osan AB Good Neighbor/Honorary Commander Program is IAW USFKR 360-4, however the identification card is now classified as a Sponsored Guest. Any supplement guideline would be published by the 7AF/CC.

4.3. Types/Forms of Authorized Identification/Passes. One of the following forms of non-DoD identification must be presented to gain unescorted access to a USFK installation or base. Forms of personal identification other than those listed below will not be accepted.

4.3.1. USFK Form 37EK(AUTO). A DBIDS-produced Installation Access Pass that is issued to individuals who are authorized escorted or unescorted access to Osan AB, but who do not possess a DoD CAC or other non-CAC form of DoD ID card. Persons who possess a DoD CAC or other non-CAC DoD ID card are not authorized to be issued a USFK Form 37EK(AUTO). Anyone registering a DoD CAC that is already in possession of a USFK Form 37EK(AUTO) must surrender the USFK Form 37EK(AUTO) at the time of CAC registration in DBIDS. The USFK Form 37EK(AUTO) comes in a variety of different styles and colors:

4.3.1.1. A lime green in color photo ID pass provides individual access authorizations for personnel approved for unescorted installation access (e.g. local national employees, contractors, and short term visitors).

4.3.1.2. A red in color photo ID pass provides individual installation access authorizations for personnel who require escort at all times. It may be issued to authorized drivers, spouses, or contractors who require recurring access, but must be escorted at all times by the designated sponsor while on the installation.

4.3.1.3. A dark green in color photo ID pass provides individual access authorizations for non-SOFA personnel categorized as “Sponsored Guest” and is approved for unescorted installation access.

4.3.2. List of non-DOD status personnel categories of access:

4.3.2.1. Employees. All personnel who are employed by USFK/Osan AB but not entitled to one of the DoD ID Cards listed above. Personnel in this category may be issued a USFK Form 37EK(AUTO). These specific procedures apply to:

4.3.2.1.1. Direct Hire KGS and Korean Wage Board (KWB) employees.

4.3.2.1.2. The Army and Air Force Exchange Service (The Exchange) and Defense Commissary Agency (DeCA) Employees.

4.3.2.1.3. Non-Appropriated Fund (NAF) Employees.

4.3.2.1.4. Korean Employee Union officials who represent USFK appropriated and non-appropriated fund Korean employees. Only accredited National Level Union Leaders may receive USFK-wide access. FPCON Delta, days and hours of access, and escort privileges up to three persons and one vehicle will be justified in the pass application. Pass expiration date will not exceed the elected term of office for the union official.

4.3.2.2. ROK Military. Military members of the ROK Armed Forces who are assigned or attached to AFOC and its tenant units physically located on Osan AB, and their command-sponsored immediate family members (spouses and minor children). **Note:** Refer to **Chapter 9** for more specific authorizations for ROKAF assigned to Osan AB.

4.3.2.2.1. Civilians employed by the AFOC and directly assigned or attached to AFOC or one of it tenant units located on Osan AB.

4.3.2.3. Korean Augmentation to the U.S. Army (KATUSA). This program is unique to U.S. Army Forces in Korea and applies to KATUSAs assigned to the Army tenant units located on Osan AB.

4.3.2.4. Contractors/Technical Representatives (Based in the United States). U.S. citizens contracted to work for DoD in the USFK, but who do not meet the requirements of USFKR 700-19, *The Invited Contractor and Technical Representative Program*, for invited contractor or SOFA status.

4.3.2.5. Contractors/Technical Representatives (Non-U.S. and/or living in country). Korean nationals or third country nationals who reside in Korea, and are contracted to work for the DoD for a specified time period in USFK.

4.3.2.5.1. Contractors categorized as daily (construction) laborers, will apply for the red "ESCORT ONLY" USFK Form 37EK(AUTO) approved through the USFK Form 82-E, which is normally sponsored by 51 CES or the U.S. Army Corps of Engineers, Far East Division (FED).

4.3.2.6. ROK Law Enforcement. Officers assigned to KN Police stations or key members of the National Police Agency, Korea Customs Service or the Korean Immigration Service who require frequent access to Osan AB in the performance of their official duties. Typically the sponsor for these personnel is the 51 SFS/CC or 5th Field Investigative Squadron (FIS)/AFOSI Det/CC.

4.3.2.7. ROK Government Officials. ROK government officials at local, regional, or national levels who require frequent access in support of official business with Osan AB. These officials must be currently serving in a government position and may only be granted access to Osan AB to conduct official business.

4.3.2.8. Sponsored Guest. For additional categories of Sponsored Guests not listed below refer to USFKR 190-7, para 2-4. c.

4.3.2.8.1. The 7 AF/CC's Special Advisory Council (SAC) members advise the 7 AF/CC on issues related to community relations and involvement. The 7 AF/CC selects the members from a pool of retired ministers, generals, governors, national assembly members, government officials and business executives. SACs are issued a USFK 37EK(AUTO) for a period of two years, valid for Yongsan & Osan/Sun-Mon/0600-2200.

4.3.2.8.2. Honorary Commanders (HC) exist to enhance community relations between commanders and the community, to improve the positive image of USFK, to strengthen the ROK/US Alliance and to further service members' understanding of Korean culture. HCs must be reputable community leaders and influencers in the local community. HCs are limited to serve as an honorary commander for 7 AF/CC, 7 AF/CV, 7 AF/CCC, 607 AOC/CC and 51 FW/CC positions. HCs are issued a USFK 37EK for a period of two years, valid for Osan only/Sun-Mon/0600-2200.

4.3.2.8.3. Good Neighbors (GN) foster positive relationships with local community members to strengthen public support and understanding of the ROK/US alliance. GNs should be people who will a positive relationship with the unit, service members and the local community. Good Neighbor. GNs are issued a USFK Form 37EK(AUTO) for a period of two years/ valid for Osan only/Sun-Mon/0600-2200. ***Note:*** The total number of authorized GNs is limited by unit type.

4.4. Special Rules Governing Sponsored Guest/Good Neighbor Access

4.4.1. For additional information concerning Sponsored Guest/Good Neighbor, consult acc.

4.4.2. Participation in the USFK Good Neighbor Program (USFKR 360-4) does not create an entitlement for USFK installation access. Personnel authorized to sponsor, request, and approve Special Guest access under the provisions of this regulation shall determine which Good Neighbor Program participants will be nominated for and provided Sponsored Guest access, based on their command objectives and in accordance with the provisions of this regulation.

4.4.3. Installation access shall not be based on membership in a private organization; gifts or favors, monetary or non-monetary donations, or other payments to any individual or to a private organization; or past approval of installation access.

4.4.4. Private organizations shall have no role in sponsoring, requesting, or approving of individuals for installation access.

4.4.5. In sponsoring, requesting, or approving access, the sponsor, requesting authority, and approving authority must be acting in their official capacity and not as a member of a private organization. Commanders or civilian employees serving as an officer of a private organization shall not sponsor, request, or approve access under this provision in any capacity.

4.4.6. The sponsor for an individual considered for installation access will be, at a minimum, an O-4 or higher commander or their GS-14/15 deputies when acting as an activity commander. The official requestor must be an O-6 commander. An O-6 commander sponsor may act as requestor as well. The 7AF/CC has delegated approval authority for installation HC/GN passes to the 51 FW/CC.

4.4.7. Automatic renewal memorandums are not allowed for SAC, HC and GN passes

4.5. Pass Application Procedures. Base passes will be issued to non-SOFA employees that are permanently employed, non-DoD visitors, and contractor employees when applications have been approved by an authorized approval and the background investigation is complete.

4.5.1. Background Checks. Background checks are used to determine if an applicant is a security risk. Background check requirements are based on an individual's category. 51 SFS/S5P conducts an initial background check through the SFMIS and DBIDS. 51 SFS/S5P then submits the applicants' information to the USFK Provost Marshal Office for a Korean National Police Agency (KNPA) background check. A pass may be approved and issued while the KNPA background check is pending. **Note:** Installation access background checks will not be used for any other purpose (i.e. systems access, child care provider, etc.)

4.5.1.1. National Crime Information Center (NCIC) and/or U.S. Embassy. Non-DoD civilians may also receive a NCIC and/or U.S. Embassy-conducted background check, as requested by USFK, or by components through USFK, on a case-by-case or random basis

4.5.1.2. Completed KNPA background checks are valid for three years. Passes may be renewed for existing pass holders whose background checks are older than three years, but a new check must be completed IAW **para 4.4.1**.

4.5.2. If derogatory information is found upon completion of the background checks, 51 SFS/S5P will forward it to the sponsor for consideration as to whether or not the individual's access authorizations should be amended or revoked. Any further disposition and/or conflict with the request will be forwarded to the 51 MSG for a final decision. **Note:** Results of the background check will not be provided or forwarded to any other agencies other than the sponsor or approving official.

4.5.3. The following procedures will be used when processing permanent/temporary/short-term base pass requests:

4.5.3.1. All applications will be stamped and logged into a database with an assigned tracking number.

4.5.3.2. The 51 SFS/S5P will conduct the SFMIS and DBIDS check. Upon completion of the SFMIS and DBIDS check, all derogatory information obtained will be attached to the front of the pass. Passes requiring the additional KNPA check (e.g. employees/contractors) will be forwarded to the USFK Provost Marshal Office. Once the local background check is completed, and approval is received, initial issue of a pass or renewal of a pass by 51 SFS/S5P may be completed.

4.5.3.3. The completed application will be reviewed and signed by the NCOIC, Installation Access Control (51 SFS/S5P) and forwarded to the approval authority.

4.5.3.4. Non-DOD personnel applying for temporary and/or permanent base passes will include the following documents:

4.5.3.5. A properly completed USFK Form 82-E, with all appropriate information signed by an authorized requesting official. Sponsors for the pass must be an O-3/GS-9, or above. Requestors must be a commander or deputy commander O-4 or above, contract administrators (by job title and official position classification), GS-14/15, may serve as requesting authority for contractor passes specifically related to the contracts they administer. **NOTE:** The sponsor and requesting authority may be the same person, provided he or she meet the grade requirements.

4.5.3.5.1. Authorized requesting officials must have a locally generated memorandum (signature letter) or DD Form 577, A*ppointment /Termination Record-Authorized Signature* on file with 51 SFS/S5P, who will verify appropriate documentation is submitted with each initial application request. The USFK Form 82-E may be typed or hand written and signatures may be with wet ink or digitally signed. **Note**: ROKAF requestors and sponsors typically use a traditional Korean signature stamp.

4.5.3.6. All requests for a temporary/permanent/short-term pass will utilize the current version of the USFK Form 82-E. Follow the instructions for completing the USFK Form 82-E located on page 3 of the application form. The form can be located on the USFK website at: **http://8tharmy.korea.army.mil/g1_AG/Programs_Policy/Publication_Records_Forms.htm**

4.5.3.7. All passes will be returned to 51 SFS/S5P by the sponsor or sponsoring agency upon termination of either the contract or employment within 5 days for destruction.

4.6. Pass Application Approval. The approval authority will review all paperwork and approve/disapprove the request. The application is then returned to Pass & Registration for further disposition.

4.6.1. An individual's full social security number or full Korean ID number, together with name and other personnel identifying data, is used for the collection of derogatory information on file in determining an individual's suitability for access to Osan AB. Disclosure of information is voluntary however failure to provide required information will result in denial of access.

4.6.2. Authority to approve passes for Area V for Force Protection A/B access is delegated to 51 MSG/CC. The 51 MSG/CD and 51 SFS/CC (or the 51 SFS/CD in the absence of the 51 SFS/CC) will act as the alternates to the 51 MSG/CC.

4.6.3. Authority to approve passes for Area V in FPCON C/D is retained by the 51 FW/CC (or the 51 FW/CV in the absence of the 51 FW/CC).

4.6.4. If an application is disapproved, the requesting authority may re-submit the application with a memorandum to the approval authority to justify the reasons for allowing the individual access to the installation. If disapproved a second time the decision is final. **Note:** It may take up to 30 days for a base pass request to be processed.

4.7. Renewal Procedures. If there are no changes to the access authorizations for local national contractors and employees (Direct Hire KGS/KWB, AAFES, DeCA and NAF) who have continuous access; the requesting authority may submit a request memorandum for the renewal month with a list of employee names, KID number, FPCON, Personnel/Vehicle escorts, background completion date, anticipated retirement, separation, or contract termination date. The requesting authority must include a copy of the current USFK Form 37EK(AUTO) with the renewal memorandum. HC/Good Neighbor Program (GNP) and all other non-DoD personnel may not use a renewal memorandum. Renewals must be submitted with a properly filled out USFK Form 82-E.

4.7.1. For changes to a current pass, the sponsor and requesting authority must submit the complete application packet with full justification for the changes to current access authorizations.

4.7.2. Submit renewal requests no earlier than 30 days prior to the expiration date of the current pass.

4.7.3. At no time will an initial/renewal base pass request be submitted along with a vehicle registration renewal. A current base pass USFK Form 37EK(AUTO) must be attached to any vehicle registration request.

4.8. Reporting and Processing Lost, Stolen or Damaged Installation Access Documents. Immediately report lost or stolen USFK Form 37EK(AUTO) to 51 SFS BDOC. The BDOC will document this report utilizing an AF Form 1168. This form serves as notice of lost installation access media and a tool to assist BDOC in tracking the number of lost ID cards. The BDOC will update DBIDS to identify lost/stolen ID cards and USFK installation passes. An AF Form 1168 is not a valid form of ID for installation access, and the individual will have to be escorted by their sponsor. In all circumstances, suspected lost or stolen access documents will be reported no later than 24 hours after losing accountability.

4.8.1. The individual must present the AF Form 1168, or a law enforcement report verification memorandum to the Pass & Registration Office to receive a replacement pass. The expiration date will remain the same as established by the original approved application.

4.8.2. An unserviceable USFK Form 37EK(AUTO) may be exchanged at Pass & Registration. The individual must appear in person and turn in the unserviceable pass. The expiration date will remain the same as established by the original approved application.

4.8.3. Retrieval of access documents. Sponsoring agencies must ensure to retrieve access documents from individuals when they no longer require installation access, when official business relationships are suspended or terminated, or when the access documents have expired.

4.8.3.1. The local civilian personnel offices must establish procedures to retrieve all USFK 37EK (AUTO) passes/CACs from separating or retiring local national employees prior to granting final clearance to the employee.

4.8.3.2. ROKAF sponsoring units must establish procedures to retrieve all USFK 37EK (AUTO) passes from ROKAF members who PCS, separate, or retire, to include family members, MND employees, and contractors.

Chapter 5

PRE-POSITIONED MEMORANDUM/ENTRY AUTHORIZATION LIST (EAL)

5.1. Methods of Access. In accordance with the guidelines contained in this paragraph, EALs may be used to either increase personnel escort privileges or obtain one-time access for special events hosted by an authorized sponsor and/or installation unit. **Note:** EALs will not be accepted and/or processed less than 72 hours prior to the specified event.

5.2. Types of Authorized EALs. EALs are used on a temporary basis for granting *ESCORTED* or *UNESCORTED* entry in conjunction with a valid identification card. Requesting agencies are responsible for the accuracy of the data contained on the EAL. The following types of EALs may be approved:

5.2.1. Increased escort authority. For a single one-time event, U.S. DoD SOFA or ROKAF status personnel or organization/unit may submit a request in a memorandum format for increased personnel escort privileges beyond the limits established. Visitors must be *ESCORTED* at all times while on Osan AB. Examples of when an EAL are authorized include, but are not limited to:

5.2.1.1. Large social events, such as an anniversary party or wedding, to allow DoD ID or ROKAF USFK Form 37EK(AUTO) cardholders and family members to escort more than four nonaffiliated personnel to events. Entry will only be permitted at the Morin Gate or the Main Gate (pedestrian side).

5.2.1.2. Special events (e.g. unit holiday party or a religious activity), to allow DoD ID or ROKAF USFK Form 37EK(AUTO) cardholders to escort more than four (4) nonaffiliated persons to an on-base religious activity.

5.2.1.3. Special function hosted by installation schools, education offices or community services activity. Children ages 11 and under are exempt from the need to be identified on the memorandum.

5.3. EAL Procedures. EALs will be prepared in the standard memorandum format and must indicate the dates of visit, expiration date and the gate to which entry is requested. Include full name, nationality, full KID, ROK ID number, Passport or Social Security Number (SSN) and location of the event. If applicable, include vehicle make, model, license plate, insurance, registration, and driver license information. Copies of the vehicle documentation must be submitted with the EAL if the guest(s) is operating a vehicle. See **Attachment 7** for an example of an EAL.

5.3.1. EALs must be submitted to the NCOIC, Installation Access Control (bldg 765) during normal duty hours for processing and approval.

5.3.2. Approval of EALs 51 is the FW/CC or the 51 FW/CV in the absence of the 51 FW/CC.

5.3.3. Once approved, 51 SFS/S5P will post a digital copy in BDOC's shared drive. The original copy will be maintained by 51 SFS/S5P. 51 SFS/S3 will disseminate hard copies of EALs to the appropriate installation gates.

Chapter 6

VEHICLE INSTALLATION ACCESS

6.1. General. All Privately Owned Vehicles (POVs) and Military Non-Tactical Vehicles (NTVs) accessing U.S. military installations must have a valid USFK Bar-Coded Vehicle Registration Decal or USFK Form 192EK, *Temporary Vehicle Pass*. Vehicle registration does not presuppose authorized personnel access for the driver and occupants. Regardless of registration status, vehicles will be denied entry onto Osan AB until the access authorizations of all vehicle occupants are verified IAW the previous chapters of this instruction. Vehicles found on Osan AB without properly displayed access documents may be cited or impounded IAW 51 FWI 31-218, *Osan Air Base Motor Vehicle Traffic Supervision*.

6.1.1. All USFK issued vehicle access documents remain U.S. Government property. SF personnel will confiscate expired or improperly displayed vehicle access documents. Persons in possession of unauthorized vehicle access documents are subject to punitive or administrative actions and sanctions.

6.1.2. USFK DBIDS vehicle registration decals will permit vehicle access in accordance with the DBIDS installation access authorizations of the owner/operator. Locally developed and procured decals are prohibited, however, the 51 FW/CC may authorize supplemental vehicle identification stickers for areas under his control, to further identify vehicles authorized to enter or park at particular facility and/or parking lot. SF personnel will not grant access to Osan AB based on such decals.

6.2. DBIDS Registration. 51 SFS/S5P will issue a bar-coded DBIDS vehicle registration decal to all vehicles that are authorized access and operation on USFK installations, both to SOFA and non-SOFA personnel. 51 SFS/S5P will record the registration information in DBIDS and issue and emplace the appropriate vehicle registration decal. All DBIDS vehicle registration and personal information fields must be reviewed and updated whenever a vehicle is registered or reregistered. DBIDS vehicle registration decals will be affixed by 51 SFS/S5P personnel in the lower left-hand corner of the vehicle windshield.

6.3. U.S. and ROK Military NTVs. All non-tactical U.S. government and ROK military owned or leased NTVs that are licensed for operations on public roadways and require access to Osan AB, including transportation motor pool, GSA, NAF and unit vehicle fleets, will be issued a bar-coded DBIDS vehicle registration decal. The DBIDS vehicle registration decal will be displayed on the lower left corner of the windshield. The DBIDS NTV decal will remain valid as long as the U.S. Government or ROK military retains ownership of the vehicle and the vehicle requires access to Osan AB for the conduct of official business.

6.4. SOFA Status Vehicles. SOFA status owners/operators must register their vehicle in DBIDS at the Pass & Registration Office IAW the provisions of 51 FWI 31-218.

6.5. Non-SOFA Status Vehicles. Vehicle registration decals may be issued to a non-SOFA contractor, employee, vendor, ROK military, non-SOFA DoD personnel (e.g.; U.S. Military retiree, U.S. Military reservist, widow/widower of a U.S. Military retiree, non-remarried former spouse of U.S. Military retiree, DoD Civilian retiree, etc.) and Sponsored Guest.

6.5.1. Vehicle registration decals for non-SOFA status vehicles will expire in conjunction with the expiration of the USFK Form 37EK(AUTO) for non-DoD personnel, or DBIDS expiration date for non-SOFA status DoD personnel. At no time will the vehicle registration period exceed the expiration of personal access documents for non-SOFA personnel.

6.6. Temporary Vehicle Registration. The USFK Form 192EK is the only designated access document for vehicles requiring short-term, temporary access. It will not be used to bypass other regulatory standards [e.g., safety inspection, insurance limits, one POV per family rule (USFKR 190-1, *Motor Vehicle Traffic Supervision*, etc.]. The USFK Form 192EK will not be routinely issued for vehicles owned or regularly operated by DoD or local national employees, contractors, residents, retirees, or assigned military personnel. Family members/dependents are not authorized temporary vehicle registration or issuance of a USFK Form 192EK temporary vehicle pass. The following categories may be eligible for temporary vehicle registration:

6.6.1. Visitor Vehicles. Visitor center ECs may issue a USFK Form 37EK(AUTO) and USFK Form 192EK for the period of the visit, not to exceed 96 hours for individuals with authorized personnel and vehicle escort. The vehicle owner/operator must present a valid driver's license, proof of ownership (registration), proof of a valid safety inspection, and proof of insurance.

6.6.1.1. Vehicles registered under Power of Attorney (POA) will only be given a 24 hr vehicle pass to allow registration or selling of vehicle.

6.6.2. Rental Vehicle for permanently assigned personnel.

6.6.2.1. Daily Rental Vehicle. Visitor center ECs and the Pass and Registration office may issue The USFK Form 192EK for no more than seven (7) consecutive days. Individuals must meet the grade and status restriction established by USFKR 190-1 to register and operate a vehicle. Individuals must also present a USFK Form 134EK, *Driver's License*, proof the vehicle is a short-term rental in their name, and proof of minimum required insurance in order to be issued a USFK Form 192EK.

6.6.2.2. Short-Term Rental Vehicle. Visitor center ECs and Pass and Registration office may issue the USFK Form 192EK for short-term rentals up to a maximum time period of 30 days. Individuals must meet the grade and status restrictions established by USFKR 190-1 to register and operate a vehicle. This privilege is established primarily for individuals who rent a vehicle while on leave or personnel whose authorized POV has not arrived or has been shipped from Korea, or whose SOFA licensed vehicle is inoperative or insufficient to meet specific needs such as the visit of an extended family.

6.6.3. Rental Vehicle for TDY/TAD and Contractors

6.6.3.1. Daily Rental Vehicle. In order to qualify for this privilege, the individual must meet the grade and status restrictions established by USFKR 190-1 to register and operate a vehicle. They must also present a USFK Form 134EK driver's license or international driver's license for Contractors, and they must show proof the vehicle is a short-term rental in their name with minimum required insurance. The USFK Form 192EK will not be permitted for than seven (7) consecutive days.

6.6.3.2. Short-Term Rental Vehicle. Individuals must have TDY orders authorizing a rental vehicle to be issued a USFK Form 192EK for short-term rentals up to maximum time period of 30 days.

6.6.3.3. Extended rental beyond 30 days. Any DOD TDY or contractor personnel providing service to the command may be issued short-term vehicle pass not to exceed 60 days. For any passes beyond 60 days, the unit or requesting authority must complete a USFK Form 195EK-E, *Application For USFK Vehicle Registration Decal* and justify the need to the approving authority (51 MSG/CC or CD). If approved, Pass and Registration will issue the vehicle pass in 60 day increments.

6.7. Lost, Stolen or Destroyed Vehicle Registration Decals. Lost, stolen or destroyed USFK Vehicle Registration Decals will be reported immediately to BDOC. BDOC will flag the decal in DBIDS and complete an AF Form 1168. The owner/operator must report to bldg 765 with a copy of the statement in order to obtain a new decal. If a vehicle decal is reissued due to loss, theft or destruction, the expiration date will match the expiration date established by the original application.

Chapter 7

DEFENSE BIOMETRIC IDENTIFICATION SYSTEM (DBIDS)

7.1. Policy and Procedures. The DBIDS is a records database installed on Osan AB for the enhancement of installation access control. Capabilities of the system include tracking personnel who are issued debarment orders, wanted personnel flags, tracking of escorted visitors and contractor personnel who have not been issued base passes, instances of lost, stolen or missing ID media, vehicle registration, and entry authorization for vehicle entry onto Osan AB. DBIDS is for official use only and is managed by the USFK Combined Joint Provost Marshall (CJPM) Security Division. Osan AB has a Site Security Manager (SSM) assigned to 51 SFS/S5P. The following policies and procedures will be adhered to when operating or using DBIDS.

7.1.1. All 51 SFS military personnel, DAF Civilians (GS), and Korean National employees who have official need to operate DBIDS will receive training from CJPM DBIDS Operations or the SSM and receive a user name and password. All users must log on with their own account and log off upon completion of their business with DBIDS. Users will not share user name and passwords. ROKAF Military Police Airmen are authorized to use the gate hand scanners only. Unauthorized usage of the DBIDS will not be tolerated.

7.1.2. DBIDS use is for Osan AB Installation Access and 51 SFS Law Enforcement investigative purposes. DBIDS database information can also be used upon an official written request from a Commander or Staff Judge Advocate (SJA) in conjunction with an ongoing investigation (judicial or non-judicial). This official use requirement includes instances of escorted visitor's reports, scanned personnel ID gate logs, site logs for installations, stolen or lost license, decal and ID reports. Requests will be submitted to the 51 SFS/S5, Director, Plans and Programs Branch for approval.

7.1.3. All personnel flags, bars, wanted and lost or stolen reports within DBIDS will be input with proper SFS point of contact information provided.

Chapter 8

INSTALLATION DEBARMENT PROCEDURES

8.1. Debarment Authority. IAW USFKR 190-7, the Commander, USFK has delegated debarment authority for USFK-wide debarment to each of the USFK geographic Area Commanders, as designated in USFKR10-2. As the Area V Commander, the 51 FW/CC may bar individuals from all USFK installations.

8.1.1. Under the authority of Title *50 U.S.C. 797* and DoDI 5200.08, and as subject to any host-nation agreement, the 51 FW/CC may deny access to installations through the use of a debarment order. The 51 FW/CC may not delegate this authority. Debarment letters will be coordinated through the 51 FW/JA. Documentation supporting a debarment must be kept for the period of the debarment. Anyone barred from an installation may petition the 51 FW/CC for partial or limited privileges. **Note:** All retirees and/or dependents that are barred from the installation will have limited access to medical facilities on the installation during the debarment period. These individuals will not be required to petition the 51 FW/CC for this limited privilege, however they must first coordinate with the 51 SFS Reports and Analysis Office (bldg 765) by calling 784-7920.

8.1.2. The 51 FW/CC may deny an individual access for involvement in the commission of a criminal offense, when access is inconsistent with the interests of national security, when personal conduct reflects negatively on the image of the US overseas, or when access adversely affects the health, safety or morale of personnel on the installation.

8.2. Procedures. Debarment orders should be in writing and contain sufficient details to support prosecution by civilian authorities. The debarment order must also state a specific, reasonable period of debarment with a termination date. There will never be a debarment order given out with an indefinite expiration date. Oral debarment orders should be given only when time constraints prevent preparing a written order, or the severity of the crime warrants immediate debarment. Oral debarments must be documented in the SF blotter with the time, date and name of the Area V Commander giving the order. Debarments to be implemented from other installations should be initiated by the SF Reports and Analysis Section (51 SFS/S5R) upon receipt of the documentation from the installation issuing the debarment order. Upon approval of the 51 FW/CC, the order will be mailed by certified mail to the individual. In all cases, oral debarments must be immediately followed-up in writing within 24-hours or the next duty day. See AFI 31-120, *Security Force Systems and Administration*, for an outline when preparing debarment orders. SFMIS contains debarment information at most Air Force locations.

8.2.1. If practical, debarment letters will be hand-delivered.

8.2.1.1. If hand-delivery is impracticable, debarment letters should be sent by certified mail to ensure a record of receipt.

8.2.1.2. For individuals who reside overseas, off the installation, or a certified letter cannot be issued to them, individuals will be denied entry through DBIDS and the barred individual will be escorted to bldg 765 and make contact with 51 SFS/S5R to receive their debarment letter.

8.2.2. If someone enters Osan AB without authorization, including re-entry following receipt of an order to leave or debarment from the installation, 51 SFS must take the following actions (subject to host nation agreements):

8.2.2.1. Detain and identify violators.

8.2.2.2. Process a debarment order and/or violation notice, order them to leave and, if appropriate, release them to civilian authorities.

8.2.2.3. Ensure they are escorted off the installation.

8.2.3. Actions against civilian employees will also be coordinated through the servicing personnel office and such coordination will be made a part of the official file located at the civilian personnel office.

8.2.3.1. Civilian employees may be barred if 51 FW/CC has determined that a civilian employee poses a serious and imminent threat to the health, safety or security of the installation or facility. In such a very unusual case, the debarment authority may take immediate action, which may include a temporary bar to remove the employee from the installation or facility. In such cases, the 51 FW/CC will coordinate with the servicing civilian personnel advisory center or civilian personnel flight and the employee's supervisory chain as soon as practical thereafter for a permanent and/or complete debarment of the employee, if necessary.

8.2.4. Actions to bar contractors from access to installations will be coordinated with the ACS for Acquisition Management, USFK and/or Commander, U.S. Army Engineer District, Far East, as appropriate.

8.2.5. Limited debarments may be imposed on individuals that does not restrict access under certain circumstances, such as allowing access to places of duty.

8.2.5.1. The FW/CC must consider revoking the individual's vehicle registration privileges and driving privileges.

8.2.5.2. In cases of total debarment, vehicle registration rights are automatically revoked.

8.2.6. In cases where an individual is barred at another base and is requesting to enter Osan AB, the 51 FW/CC will be informed of the debarment. The 51 FW/CC will consider whether or not the barred individual will also be barred and/or denied access to Osan AB.

8.2.7. Active duty and retired military, DoD civilians and their family members may be entitled to have access to medical and dental facilities, among other legal rights. Thus, if persons with these legal rights are barred from installations or facilities, specific provisions for limited access for the continued exercise of these legal rights may be offered and explained in detail within the debarment letter. An example of such provision: If you are eligible, you may re-enter Osan AB to obtain medical/dental care. Prior to entry, you must notify the Law Enforcement Desk of the time and location of your appointment. You must be escorted by an individual with escort privileges from the Main Gate directly to the medical facility. You must also be escorted when exiting the installation through the Main Gate immediately upon completion of your appointment. You may not deviate from this route nor stop for any reason on your way to or from medical facilities.

8.3. Disposition. The 51 FW/CC will designate the period of debarment. The minimum period for debarment is two years. The term 'indefinite' will not be used when imposing bar actions. Expiration of the period of debarment or removal of a bar does not necessarily mean installation access is reinstated or permitted. Individuals must request termination of the debarment once the debarment has expired.

8.3.1. The 51 FW/CC, after consulting with the servicing judge advocate's office or legal representative, will determine the length of debarment.

8.3.2. Once imposed, 51 SFS/S5R will ensure that the debarment information is entered into SFMIS and DBIDS.

8.3.3. The 51 SFS/S5R will maintain all bar action files for one year after the debarment is terminated.

8.3.4. If the 51 FW/CC decides to remove a debarment after the debarment period has ended, the affected person and other agencies previously informed of the action will be provided a copy of the letter removing the bar. **Note:** Removing a bar does not automatically authorize installation access. Individuals must reapply for installation access based upon a continuing official requirement. The requesting authority will present a copy of the letter removing that debarment at the time of application.

8.4. Legal Entitlements to Installation Access. Subject to the provisions below, active duty members and civilian employees may not be completely barred from the installation or facility to which they are assigned, employed or are required to enter on official job-related business. Active duty member or civilian employee access to areas within that installation or facility may be limited or restricted to where no employment-related access need exists. Furthermore, they may be barred from other installations or facilities, as appropriate. For purposes of this paragraph, "active duty members" include reserve military personnel on active duty and assigned for duty to USFK installations and "civilian employees" include both U.S. (appropriated and NAF, to include U.S. invited contractor employees) and KN (appropriated and NAF, to include U.S. invited contractor employees). All other personnel, including government contractors, may be barred from any or all USFK installations or facilities as necessary. Military members pending discharge from the Armed Forces may be barred from their former place of duty and/or other locations on USFK installations if their presence in such locations would interfere with the mission or would be prejudicial to good order and discipline.

8.4.1. Civilian employees may be completely barred from the installation or facility to which they are assigned or employed if:

8.4.1.1. The 51 FW/CC determines that, based on the nature of the misconduct, a civilian employee is a serious threat to the health, safety or security of the installation or facility, (e.g., bringing a weapon onto the installation, stealing classified documents, threatening bodily harm or destruction of government property). In such a case, the debarment authority will contact the employee's immediate supervisor, who will be instructed to place the employee on enforced leave with the intent to initiate removal action. After the employee is placed on enforced leave, the 51 FW/CC may completely bar the individual from the installation or facility.

8.4.1.2. Subject to the provisions below, active duty members, dependent family members and retirees may not be completely debarred from the installation or facility to which they are assigned, employed or are required to enter on official job-related or benefits related business. Examples include military members and their dependents whom are eligible for military medical care and cannot be turned away (legislative in nature). All other personnel may be barred from an installation or facility as necessary.

8.4.1.2.1. If individuals with legal rights are barred from installations or facilities, specific provisions for limited access for the continued exercise of these legal rights must be offered and explained in detail within the debarment letter. In these cases, the individual's debarment letter will contain additional guidance allowing the barred personnel limited access onto and off the installation.

8.5. Dedebarment Rosters. 51 SFS will use the DBIDS debarment roster to ensure that unauthorized personnel are not allowed access, and if applicable, charged with trespassing when entry is illegally gained.

8.5.1. Entry Controllers will maintain a list of personnel barred from the installation. In the event of DBIDS failures, ECs will use a printed debarment roster from DBIDS. All lists are For Official Use Only (FOUO) and the Privacy Act of 1974 applies.

8.5.2. The 51 SFS/S5R will update DBIDS and SFMIS debarment rosters with additions and deletions when required. Do not release lists to the public, leave them unsecured or place them where unauthorized personnel can view them.

8.5.3. Debarment lists may be combined and maintained in the same manner as lists used for tracking and documenting personnel denied on-base driving or other privileges.

8.5.4. Debarment lists are generated using SFMIS created reports and inputted into DBIDS. Electronic debarment lists must be updated within 24 hours of a preliminary debarment order being issued by the 51 FW/CC. Pen and ink changes are authorized with the approval of the 51 SFS/CC or designee.

8.6. Reinstatement Procedures. A barred person may request reinstatement of access privileges after the debarment period has ended. The 51 FW/CC is the final authority for reinstatement actions. If management action to separate/remove a KN employee from employment is cancelled and the employee is reinstated by a deciding official under the USFK Korean Employees Appeals Procedures in USFKR 690-1, *Regulations and procedures – Korean Nationals,* the bar against the employee will immediately be lifted to enable the employee to report for duty. Deciding officials are the Commander, 7th Air Force for Air Force employees; the Commander, U.S. Naval Forces Korea for Navy Employees; the Commander, U.S. Marine Corps Korea for Marine Corps employees; and the Deputy Chief of Staff USFK for all other employees.

8.7. Appeal Process. Bar actions are administrative actions and not judicial. Accordingly, they are not subject to regulatory or statutory rights for appeal unless specifically provided for by the 51 FW/CC and identified in the debarment letter.

8.7.1. The 51 FW/CC has the authority and latitude to establish procedures concerning locally imposed debarment actions and appeal processes for those bar actions. Appeal processes will be stated in each individual's debarment letter.

8.7.2. Even though there is no regulatory or statutory right for an appeal, individuals may submit matters of reconsideration to the 51 FW/CC, who may consider these matters, especially in instances of administrative error or mistaken identity. If the debarment letter identified an appeals process, individuals seeking reconsideration must submit matters IAW that process.

Chapter 9

ROKAF INSTALLATION ACCESS

9.1. Methods of Access. This section specifically covers authorizations for issuing the USFK Form 37EK(AUTO) to ROKAF/AFOC military personnel, family members, and MND employees. ROKAF contractors will refer to authorizations IAW previous chapters. The USFK Form 37EK(AUTO) will provide *UNESCORTED* access to Osan AB only, unless USFK wide permission is established and approved.

9.1.1. The 51SFS/S5P will accept applications for USFK Form 37EKs(AUTO) for eligible ROKAF personnel assigned to Osan AB IAW USFKR 190-7 and the additional criteria outlined in this chapter.

9.2. Categories of Personnel. Personnel requiring routine access to Osan AB may include, but are not limited to, ROK military personnel assigned to Osan AB, their authorized dependents (e.g. immediate family members and extended family members), and MND employees assigned to Osan AB. **Note:** ROKAF children ages six (6) and up are eligible to apply for a USFK Form 37 EK(AUTO).

9.3. Types/Forms of Authorized Identification/Passes. ROKAF personnel must apply for a USFK Form 37EK(AUTO) upon arrival to Osan AB. ROKAF personnel will be granted a 10-day grace period to accomplish the application. ROKAF personnel will present their ROK military ID along with a properly stamped letter/memo (**see Attachment 8**) clearly marked with the initial date of entry.

9.4. Categories/Access Requirements for ROKAF Personnel.

Table 9.1. Active Duty ROKAF Personnel.

CATEGORY Non-DOD Personnel	Type Pass	Expire Date	Personnel Escort Privileges	Vehicle Escort Priv	FPCON Restriction	# Veh to Register
ROK Mil Assigned to Osan – Living on base	USFK Form 37EK(AUTO)	Per Orders or 3-years	4	1	C/D	2
ROK Mil Assigned to Osan – Living off base	USFK Form 37EK(AUTO)	Per Orders or 3-years	4	1	C/D	1
ROK Mil Not Assigned to Osan	Visitor Pass Escorted	Up to 96 hours	0	0	C/D	If Signed on by Sponsor
Note: ROK privately owned vehicles will be allowed to transit and/park on USAF roads/parking lots at any time as long as they are properly registered in DBIDS with a properly displayed DBIDS registration decal. Vehicles not registered in DBIDS are not authorized.						

Table 9.2. Active Duty ROKAF Personnel Dependents.

CATEGORY Non-DOD Personnel	Type Pass	Expiration	Personnel Escort	Vehicle Escort	FPCON Restriction	# Veh to Register
Authorized Dependent to ROK Mil Assigned to Osan – Living on base	USFK Form 37EK(AUTO)	Per Orders or 3-years	4 – Adults 4 – Child >16 yrs 0 – Child <16-yrs	1 – Adults 0- Child	C/D	0 Each sponsor may register up to 2 vehicles
Authorized Dependent to ROK Mil Assigned to Osan – Living off base	USFK Form 37EK(AUTO) Spouse Only	Per Orders or 3-years	0	0	C/D	0
Authorized Dependent to ROK Mil Not Assigned to Osan	Visitor Pass Escorted	Up to 96 hours	0	0	A/B	If signed on by Sponsor

Note: An authorized dependent is defined as a "legal dependent" family member living permanently at the same address. Per USFKR 190-7, this includes the spouse and children who are unmarried and ages 21 years and younger. This does **NOT** include adult children over 21 years, parents, or other family members who are physically and/or financially capable of taking care of themselves.

ROKAF children 11 years old and younger are allowed to enter/exit the base without a USFK Form 37EK(AUTO) only when accompanied by adult or older children whom possess an authorized USFK Form 37EK(AUTO) with escort privileges annotated. ROKAF children under this category may be exempt if the child can be verified using an identification book published by the AFOC Service Support Wing containing information on all school age children.

Table 9.3. Active Duty ROKAF Personnel Extended Family Members.

CATEGORY Non-DOD Personnel	Type Pass	Expiration	Personnel Escort	Vehicle Escort	FPCON Restriction	# Veh to Register
Extended Family Member to ROK Mil Assigned to Osan –Living on base	1-year Unescorted	1-year	3	1	A/B	0
Extended Family Member to ROK Mil Assigned to Osan –Living off base	Visitor Pass Escorted	Up to 96 hours	0	0	A/B	If signed on by Sponsor
Extended Family Member to ROK Mil Not Assigned to Osan	Visitor Pass Escorted	Up to 96 hours	0	0	A/B	If signed on by Sponsor

Note: Extended family members are defined as a family member living permanently at the same address. This can include adult children over 21-years old, parents, brothers/sisters, or other immediate family as certified by AFOC to live full-time in the ROKAF on base housing. Proof of residency at the on base housing address must be included in the base pass submittal package.

Table 9.4. ROKAF MND Civilians
