Pages: 55

---

This instruction implements guidance and procedures found in Air Force Manual (AFMAN) 11-202, Volume 1, *Aircrew Training*. It establishes requirements for managing formal operations training development (OTD) to support weapon systems under the functional control of the Air Combat Command (ACC) Director of Operations (ACC/A3). It outlines the ACC OTD integration process for agencies developing, or requesting development of, operations training courseware in ACC. This instruction applies to all ACC organizations that conduct formal operations training or formal OTD under an ACC/A3 approved syllabus. This instruction also applies to Air National Guard (ANG) and Air Force Reserve Command units and members who use ACC formal operations training publications, and the United States Air Force Weapons School (USAFWS). This publication does not apply to the United States Space Force. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. Submit comments for improvements to this instruction on the Department of the Air Force (DAF) Form 847, *Recommendation for Change of Product,* through the appropriate chain of command to ACC Training Support Squadron (TRSS)/Training Development Flight (ACC TRSS/TDF), 205 Dodd Blvd, Suite 121, JB Langley-Eustis, VA 23665-2789 or via email to **acctrsstdf@us.af.mil**. This publication may be supplemented at any level, but all supplements must be routed through ACC TRSS/TDF and ACC/A3 for coordination prior to certification and approval. See **paragraph 1.1.3** for waiver authority statement. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the DAF.

*SUMMARY OF CHANGES*

This publication has been substantially revised and should be reviewed in its entirety. Substantial changes include: The scope of formal operations training was clarified. Changed from a tiered waiver system to explicit waiver authority. Downgraded all ACC/A3 graduate evaluation program waiver authority to the Wing (WG)/Commander (CC) (WG/CC). Other WG/CC waiver authorities were removed (now ACC Training Support Squadron Commander [ACC TRSS/CC]) or changed to recommendations. Removed Chapter 4, Budget and Funding, Table A5.2, 436. TS Formal Training Responsibilities, Attachment 12, Aircrew Training Aid (ATA)/Aircrew Training Device (ATD) Instructional Effectiveness, Evaluation Process, and Attachment 14, Instructor Upgrade Training Requirements. Attachment 13, Syllabus Review Board Minutes Format was moved to Table 3.1..

## Chapter 1

## STRUCTURE AND RESPONSIBILITY

**1.1. General.** This instruction establishes policy and guidance to assist personnel in managing formal OTD in support of weapon systems under the control of ACC/A3. AFI 10-217_ACCSUP, *Management of Air Force Operational Training and Undergraduate Aircrew Training Systems*, defines formal training as training in an officially designated course conducted or administered in accordance with appropriate course outline and training objectives.

1.1.1. ACC/A3 is the executive authority for all ACC formal operations training programs and the approval authority for all new formal operations training syllabi. ACC/A3 delegates syllabus approval authority to the ACC Training Support Squadron Commander (ACC TRSS/CC) for all changes or revisions. ACC/A3 delegates all training task list (TTL) approval authority to the ACC TRSS/CC.

1.1.2. On behalf of ACC/A3, ACC TRSS is the single point of contact (POC) for formal OTD requirements within ACC/A3. A3-directed formal operations training includes all initial qualification training, requalification training and may include mission, instructor and upgrade qualification training when directed by the Functional Area Manager (FAM), or applicable AFMAN or Air Combat Command Manual (ACCMAN) Mission Design Series Volume 1, and taught using an approved formal operations training syllabus.

1.1.3. Waivers. ACC/A3 is the waiver authority for requirements as noted. The Wing (WG) Commander (CC) (WG/CC) over a Formal Training Unit (FTU) is the waiver authority for requirements as noted. Unless otherwise stated, the ACC TRSS/CC is the waiver authority for all other content in this instruction. All waivers will use DAF Form 679, *Department of the Air Force Publication Compliance Item Waiver Request/Approval*. Submit all waivers for the ACC/A3 or ACC TRSS/CC through ACC TRSS/TDF. Submit WG waiver requests through the appropriate chain of command to the WG/CC. Wings will send copies of all approved waivers to FAMs and ACC/TRSS Training Development Flight (**acctrsstdf@us.af.mil**) not later than 10 days after approval.

**1.2. Roles and Responsibilities.**

1.2.1. ACC/A3:

1.2.1.1. Serves as the executive for ACC/A3 formal operations training.

1.2.1.2. Establishes OTD Teams for emerging weapon systems to include staffing, structural alignment, and location.

1.2.2. Weapon System FAM. See **Attachment 2** for a list of applicable weapon system FAM offices.

1.2.2.1. Chairs the training planning team (TPT) annually IAW AFI 10-217_ACCSUP.

1.2.2.2. Serves as the office of primary responsibility (OPR) for formal operations training TTLs and syllabi.

1.2.2.2.1. Directs establishment of formal operations training syllabi and TTL for emerging weapons systems or programs.

1.2.2.2.2. Coordinates with respective OTD Team(s) to incorporate training requirement changes into FTU syllabi.

1.2.2.2.3. Reviews all syllabi no later than 24 months after syllabus approval date or last syllabus review board (SRB), whichever event occurred later.

1.2.2.2.4. Validates and coordinates with ACC TRSS for approval of formal training TTLs and syllabi. References appropriate weapons system AFIs and Manuals and Major Command (MAJCOM) Instructions and Manuals to ensure all syllabi align with specific weapons system training guidance.

1.2.2.2.5. Chairs or attends SRBs. At a minimum, the FAM will attend (online or in-person) the SRB or designate an alternate representative within the three or four-letter office with the authority to make final decisions on their behalf.

1.2.2.2.5.1. Schedules, organizes, and hosts the SRB, or delegates responsibility to the applicable OTD team.

1.2.2.2.6. Provides guidance to OTD Teams for the timing and resolution of out-of-cycle changes or revisions.

1.2.2.3. Approves course material used for aircrew, cyber and expeditionary communications operations training when aircraft or system modifications are not supported by Technical Orders.

1.2.2.4. Provides direct support to the TRSS Contracting Officer Representative (COR) for ACC TRSS-managed contracts.

1.2.2.4.1. Participates in Contract Source Selections as technical advisors or members of the technical evaluation teams.

1.2.2.4.2. Coordinates with WG and FTU to verify all new contract performance work statement (PWS) modification requirements.

1.2.2.4.3. Procures annual training contract funding as required.

1.2.2.4.4. Coordinates training contract Program Objective Memorandum requirements.

1.2.3. ACC TRSS:

1.2.3.1. Establishes formal OTD guidance for OTD Teams.

1.2.3.2. Oversees ACC TRSS detachments supporting formal operations training throughout ACC for current and emerging weapon systems training development to include OTD Team staffing and structural alignment.

1.2.3.3. Establishes training requirements for OTD Teams (see **Attachment 4**).

1.2.3.4. Manages ACC TRSS staffing positions to ensure sufficient personnel are assigned to meet the training requirements of the operations community and this publication.

1.2.3.5. Advises ACC/A3 on structure and staffing of all ACC TRSS detachments.

1.2.3.6. Appoints an OPR for the development and validation of the Management Internal Control Toolset self-assessment checklists for this publication and Air Combat Command Instruction (ACCI) 11-252, *ACC Formal Operations Training Publication Management*.

1.2.3.7. ACC TRSS Acquisition Flight (ACC TRSS/ACQ):

1.2.3.7.1. Appoints ACC TRSS Program Managers for ACC TRSS contracts. ACC TRSS nominates contract aircrew training (CAT)/courseware development (CWD) CORs who are approved by ACC Acquisition Management Integration Center (AMIC). Program Managers/CORs are responsible for keeping their assigned detachments informed of relevant ACC TRSS contract issues within their area of expertise, presenting their detachment's concerns to the ACC TRSS/CC, and acting as liaison between detachments and other ACC staff agencies.

1.2.3.7.2. Manages CAT/CWD contracts assigned to ACC TRSS by ACC/A3.

1.2.3.7.3. Coordinates with ACC AMIC contract administrators on all contractual issues.

1.2.3.7.4. Manages and coordinates competitive selection of CAT/CWD contractors with ACC AMIC to include preparation of solicitation packages. Solicitation packages consist of the PWS government cost estimate, Quality Assurance Plan, security requirements via Department of Defense (DD) Form 254, *Department of Defense Contract Security Classification Specification*. Conducts pre-proposal meetings, technical evaluations, technical evaluation debriefings, and post award meetings.

1.2.3.7.5. Assists ACC TRSS detachments with non-ACC TRSS managed contracts when able.

1.2.3.8. ACC TRSS/TDF:

1.2.3.8.1. Guides the development of formal operations training course syllabi and TTLs.

1.2.3.8.2. Coordinates all formal operations training syllabi and TTLs with the appropriate ACC staff, weapon system FAM, and external staff agencies, as required, prior to approval.

1.2.3.8.3. Routes foreign disclosure syllabi and TTLs to ACC International Engagements (ACC/IAP) for review and approval.

1.2.3.8.4. Manages and serves as the primary POC for the ACC Formal Operations Training Graduate Evaluation Program.

1.2.3.8.5. Conducts detachment and other OTD Team site visits as required.

1.2.3.8.6. Conducts OTD Team training.

1.2.3.8.7. Reviews SRB minutes, files a copy, and updates the tracking system.

1.2.3.8.8. Serves as a liaison to the 436th Training Squadron (436 TRS) to assist in scheduling training courses mandated by this instruction.

1.2.3.8.9. Maintains a controlled repository of training documentation on SharePoint, **https://usaf.dps.mil/sites/12166/SitePages/Home.aspx**.

1.2.4. OTD Teams. See **Attachment 1**, *Terms,* for definition. OTD Team members attending formal training should remain on the OTD Team for a minimum of 2 years after training completion.

1.2.4.1. Track product development and provide information to the FAM to eliminate any possibility of duplicate development efforts and ensure proper prioritization of competing operations training requirements.

1.2.4.2. Follow Department of the Air Force Handbook (DAFH) 36-2675, *Information for Designers of Instructional Systems*, and ACC TRSS guidance for analyzing, designing, developing, implementing and evaluating instructional systems and courseware unless otherwise approved by ACC/A3. Guidance in this reference will be used as sources for basic developmental principles, various learning methods and techniques, to include ways to evaluate learning and the reasons for such evaluation.

1.2.4.3. Evaluate the quality of instruction through periodic review of courseware, critiques, classroom dynamics, student test results, instructor feedback, and survey data.

1.2.4.4. Work with subject matter experts (SMEs) to verify that training courseware is technically accurate and effective. SMEs do not have to be assigned to the OTD Team to provide valid feedback.

1.2.4.5. Develop TTLs and syllabi IAW ACCI 11-252. Instructional System Development (ISD) personnel will review TTLs and syllabi for proper format, quality, and adherence to ISD principles prior to submitting to ACC TRSS for coordination and approval.

1.2.4.6. Implement a Graduate Evaluation Program for the formal operations training syllabi they develop and prepare and submit Graduate Evaluation Reports (GERs) in preparation for periodic syllabus reviews unless approved by the WG/CC.

1.2.4.7. Coordinate with FTU to nominate government SMEs for CAT/CWD surveillance, as required.

1.2.4.8. Coordinate with FTU or contractor course managers to schedule and assist with documented reviews of course control documents at least once every two years unless otherwise approved by ACC/A3.

1.2.4.9. Participate in the TPT for the assigned weapon system and work with the ACC weapon system FAM to determine level of participation desired.

1.2.4.10. Interface with ACC/A3 and ACC TRSS staffs to incorporate long-range plans into current training systems and the System Training Plan IAW AFI 10-217_ACCSUP.

1.2.4.11. Notify ACC TRSS/TDF 90 days in advance of scheduled SRB.

1.2.4.12. Review all syllabi and TTLs within 24 months after syllabus approval or the last SRB, whichever occurred last. Weapon system changes, course critiques, or other data may necessitate earlier out-of-cycle review. Review extensions less than four months may be authorized by the OTD Team Lead, extensions exceeding four months must be requested through ACC TRSS/TDF.

1.2.4.12.1. Attend and document results of the SRB.

1.2.4.12.2. Forward SRB minutes formatted IAW **Table 3.1** to the syllabus OPR and ACC TRSS/TDF no later than 30 days after the SRB.

1.2.4.13. Maintain the syllabus and TTL record sets IAW the Air Force Records Disposition Schedule Table and Rule: T 36-40 R 03.00, Curriculum Materials Record Sets of Training Plans, Extension Course Institute Job Qualification Standards.

1.2.4.14. Attend reviews, meetings, and working groups directly affecting associated weapon system FTU syllabus and TTL development.

1.2.4.15. Consult with the 29th Test and Evaluation Squadron (29 TES), Eglin AFB FL, to support the simulator certification (SIMCERT) program when directed by the FAM or other governing instruction.

1.2.4.16. Contact the 436 TRS for instructional video production requests. Review and process training aid requests IAW **Chapter 5**.

1.2.4.17. Remain current in state-of-the-art instructional and presentation technologies, research and training technologies, and approaches applied in other MAJCOMs, services, industries, and educational and governmental agencies.

1.2.4.18. Use the ISD process to develop and evaluate the training effectiveness of ATAs and ATDs in formal training syllabi at least every 24 months in conjunction with the scheduled SRB. ATAs and ATDs evaluated under this paragraph are those aids that are not evaluated under other formal guidance, such as SIMCERT. Two months prior to the scheduled SRB, education and training personnel will determine if training aid objectives are current with the weapon system training requirements and review how well the ATA and ATD supports the lesson's current or revised criterion-referenced objectives (CROs). The OTD Team will review course critiques, graduate evaluation survey results, and other feedback mechanisms regarding the ATA and ATD. A SME will perform the actions on the ATA/ATD task list. Working with the SME, the training specialist will evaluate whether each performed task effectively aligns with the current or revised CRO. Results of ATA and ATD reviews must be presented in the SRB and must be documented in the SRB minutes. See **Table 3.1**.

1.2.4.19. Ensure OTD Team members assigned to operational crew positions maintain, as a minimum, basic mission capable status. **Exception:** ACC assigned B-52 OTD Team and FTU personnel will maintain a mission ready status.

1.2.4.20. Verify the accuracy of OTD Team supported courses in Education and Training Course Announcements (ETCA), **https://usaf.dps.mil/teams/app10-etca/SitePages/home.aspx**, within 30 days of any syllabus update.

1.2.4.21. Ensure all computer-based training (CBT) development projects within ACC are documented, updated, and maintained with the OTD Team.

1.2.4.22. Provide SME, ISD, and other requested support during formal course syllabi evaluations by the Academic Council on Education or Community College of the Air Force (CCAF).

1.2.4.23. Oversee the development of CBT courseware products and coordinate the manufacture and life-cycle maintenance of aircrew aids and training devices.

1.2.4.24. Ensure all foreign disclosure courseware is approved by the local Foreign Disclosure Office, as required.

1.2.5. 436th Training Squadron Commander (436 TRS/CC). The 436th TRS/CC administers After-the-Fact Funding (ATFF) provided by ACC/A3 to support ACC student travel expenses for those courses related to operations or operations support. All OTD team responsibilities listed in **Paragraph 1.2.4** apply.

1.2.6. Operational WGs, Centers, and Groups (GPs).

1.2.6.1. Respond to OTD Team requests for information concerning the development of formal operations training.

1.2.6.2. Provide technical expertise and assistance to OTD Teams, as required. If the specialty or Air Force Specialty Code is available within the supported unit, nominate qualified individuals to fill OTD Team SME vacancies.

1.2.6.3. Place a high emphasis on the Graduate Evaluation Program IAW **paragraph 3.3.1.3** and other methods of gathering data to evaluate the quality of operations training (see **Chapter 3**). The GP/CC over an FTU should provide a POC within each operational unit to assist the OTD Team in ensuring formal course graduates and their supervisors in the completion and returning of graduate evaluation surveys.

1.2.6.4. The WG/CC over an FTU should establish implementation policies within the authority and direction of the approved syllabus.

1.2.6.5. Ensure ACC TRSS assigned personnel are not counted under wing force readiness reporting unless otherwise approved by ACC/A3.

1.2.6.6. Appoint appropriately qualified personnel with necessary security clearances to perform OTD Team SME roles and functions or detail them to ACC TRSS detachments as required.

1.2.6.7. The WG/CC over an FTU should develop a policy addressing test compromise (see **paragraph 2.5**.).

1.2.6.8. Each WG/CC over an FTU, or designated representative, is responsible for establishment and enforcement of academic instructor performance criteria and documentation (see **paragraph 2.4**.).

1.2.7. FTUs. FTUs are organizations conducting formal training courses listed in ETCA.

1.2.7.1. Conduct formal operations training IAW ACC/A3-approved syllabi and associated training course documents unless otherwise approved by ACC/A3.

1.2.7.2. Appoint academic instructors IAW the prerequisites contained in **Chapter 2**.

1.2.7.3. Reproduce and distribute all student training materials, as needed. Verify that all training materials are current and accurate.

1.2.7.4. Comply with testing procedures and ensure test security IAW **Chapter 2** unless otherwise approved by the WG/CC.

1.2.7.5. Appoint SMEs to participate in the development, revision, validation, and evaluation of courseware. SMEs are acknowledged experts on a particular weapon system or training lessons.

1.2.7.6. Establish procedures for participating in the Graduate Evaluation Program and assist the OTD Team as requested unless otherwise approved by the WG/CC. Send a roster of formal course graduates to the appropriate OTD Team within 30 days after graduation. The roster will include name, rank, gaining unit, crew position, class designation, appropriate syllabus, designation, graduation date, and any other information requested by the OTD Team.

1.2.7.7. When assisting the OTD Team, use the ISD process for development and modification of all courseware. Consult the OTD Team for ISD guidance.

1.2.7.8. Assess the quality of instruction by reviewing test results and survey data, obtaining instructor feedback, and ensuring compliance with the contract quality assurance surveillance plan unless otherwise approved by the WG/CC. Reference **paragraph 2.5** and **Chapter 3**.

1.2.7.9. Verify student training and courseware requirements are met.

1.2.7.10. Provide inputs and coordinate draft TTL and syllabus changes with the OTD Team and FAM.

1.2.7.11. Coordinate with the OTD Team for any computer-based or multimedia training development requests or contract acquisition.

1.2.7.12. Participate in SRBs and other review-centered meetings, as requested.

1.2.7.13. Will implement the new syllabus within 180 days or the next scheduled class start date, whichever is later unless otherwise approved by ACC/A3.

## Chapter 2

## COURSE ADMINISTRATION

**2.1. Course Administration.** FTUs are responsible for course administration.

**2.2. Course Manager.** The FTU will assign a course manager for each syllabus. In addition to FTU guidance, the course manager will:

2.2.1. Manage training using only current ACC/A3-approved formal operations training syllabi.

2.2.2. Prepare and maintain a master file of lesson plans for each lesson of instruction unless otherwise approved by the WG/CC.

2.2.3. Coordinate proposed changes in TTL, syllabus, and lesson plan content with the OTD Team. The OTD Team, as the focal point, will provide guidance and coordinate proposed changes with the FAM, as necessary.

2.2.4. Use syllabus course training standards or appropriate supporting objectives in lesson plans.

2.2.5. Participate in TTL, syllabus, and courseware reviews as requested by the FAM or OTD Team unless otherwise approved by the WG/CC.

2.2.6. Ensure when training is supported by a contract, the COR and associated OTD Team verify that contract instructors are qualified IAW the PWS. Otherwise, the FTU should assign a primary and alternate instructor to each lesson of instruction in a course. Only qualified instructors will conduct instruction.

**2.3. Academic Instructor Training Requirements.**

2.3.1. Prior to government personnel performing academic training instructor duties for an ACC/A3-approved formal operations training syllabus, academic instructors and evaluators will receive training in effective listening and communication, learning theory, ISD, objectives and lesson plan development, questioning techniques, instructional aides, student-centered instruction, instructional methods, instructor fundamentals, classroom management, and an overview of tests and measurement. Viable options for satisfying this training requirement are listed in the following paragraphs. **Exceptions:** USAFWS instructors and guest lecturers are exempt from the training requirements outlined in **paragraph 2.3.1** and will implement instructor training requirements IAW local policies and procedures. USAF weapons instructors must complete the weapons school instructor training program prior to performing any academic instructor duties for weapons instructor courses at the USAFWS unless otherwise approved by the WG/CC. Guest instructors or lecturers are individuals not assigned to the FTU but who teach portions of FTU academic lessons and will be approved by FTU/CC before conducting instruction.

2.3.1.1. Classroom Instructor Course (CIC). The 5-day courses are ACC/A3-approved.

2.3.1.1.1. ACC CIC conducted by 436 TRS, Dyess AFB TX. The course is ACC ATFF funded and CCAF accredited.

2.3.1.1.2. 39th Information Operations Squadron (39 IOS) CIC conducted by 39 IOS, Hurlburt Field FL.

2.3.1.2. Instructor Methodology Course (IMC).

2.3.1.2.1. ACC IMC conducted by 436 TRS, Dyess AFB TX. The 8-day course is ACC/A3-approved, ACC ATFF funded and CCAF accredited.

2.3.1.2.2. 39 IOS IMC conducted by 39 IOS, Hurlburt Field FL. The 10-day course is ACC/A3-approved.

2.3.1.3. Alternative Courses. Air Education and Training Command (AETC) Basic Instructor Course, AETC Principles of Instruction Course, 505th Training Squadron (505 TS) Academic Instructor Course, 607th Air Control Squadron (607 ACS) Battle Manager Instructor Training, Total Army Instructor Training Course and USAF Expeditionary Operations School Academic Instructor School.

2.3.1.4. ACC TRSS/TDF may approve other academic instructor courses within ACC or other MAJCOMs. Send academic instructor training courses for review to ACC TRSS/TDF via email, **acctrsstdf@us.af.mil**.

2.3.2. Prior to performing academic instructor duties for CCAF-accredited courses, academic instructors must meet instructor requirements as prescribed by CCAF such as AETC's Principles of Instruction Course. ACC CIC does not meet CCAF requirements. Seek CCAF for additional guidance.

**2.4. Academic Instructor Assessments.**

2.4.1. CIC training is required to conduct instructor assessments of government personnel unless otherwise approved by the WG/CC. Academic instructor assessments will be part of instructor development and a continuous-training process.

2.4.1.1. Each GP/CC over an FTU, or designated representative, is responsible for establishment and enforcement of academic instructor performance criteria and documenting corresponding instructor performance for the academic platform instructor training relating to their mission design series or mission system volumes. Instructor performance will be assessed by WG-appointed instructor assessors. Academic Instructor assessors must have completed academic instructor training themselves and must use a unit-approved assessment form unless otherwise approved by the WG/CC. If the quality of an instructor's performance is unacceptable (less than satisfactory in any area of the assessment), the chief of academics or appropriate flight commander is notified and will take appropriate action.

2.4.1.2. The GP/CC over an FTU will develop local procedures for academic instructor training and assessment. At a minimum, an instructor candidate will teach one class under the direct supervision of a qualified instructor and attend CIC, or equivalent training, before being authorized for classroom instruction. Additionally, they will receive an annual classroom instruction assessment.

2.4.1.3. All academic instructor candidate assessments will be documented using a unit-approved Academic Instructor Assessment Form.

2.4.2. Contract instructor surveillance will be conducted IAW the contract quality assurance surveillance plan supporting the CAT/CWD contract, as appropriate.

**2.5. Student Examinations.**

2.5.1. Instructors qualified in their subject area will administer student examinations to evaluate student achievement of course objectives unless otherwise approved by the WG/CC.

2.5.2. Test questions will be developed using specifications in DAFH 36-2675. Individuals who fail a test will receive remedial instruction and will be scheduled for retesting. The minimum passing score for written examinations is 85% unless otherwise approved by ACC/A3. **Exceptions:** The 505 Test and Training Group (505 TEG), USAFWS, Joint Air-Ground Operations Group, 6 Combat Training Squadron (6 CTS), 507 Air Defense Aggressor Squadron (507 ADAS), 39 IOS, 223d Cyber Operations Squadron (223 COS), and 436 TRS establish their unique student examination criteria and retesting procedures.

2.5.3. Academic Integrity.

2.5.3.1. FTUs will establish a well-proctored and disciplined environment for testing. Testing as part of formal syllabus training will:

2.5.3.1.1. Include a briefing on academic testing policies during course orientation. Unless otherwise approved by the WG/CC, the briefing will mention that test compromise in any form is not tolerated and will be adjudicated IAW wing and group policies.

2.5.3.1.2. Ensure all academic testing is proctored by an FTU/CC-appointed instructor unless otherwise approved by the WG/CC.

2.5.3.2. FTU testing administrators will:

2.5.3.2.1. Control all non-computerized test materials from secure storage check-out until check-in to prevent compromise unless otherwise approved by the WG/CC.

2.5.3.2.2. Ensure computerized tests remain electronically locked until the start of the examination period; re-locked once testing is complete unless otherwise approved by the WG/CC.

2.5.3.2.3. Ensure students leave notes, binders, publications, Technical Orders, and electronic devices outside of the test proctoring area unless authorized by the syllabus. Only material specified in the syllabus to be referenced during open book tests will be allowed in the testing area unless otherwise approved by the WG/CC.

2.5.3.2.4. Ensure students and personnel do not remove any notes or materials from the testing area, unless cleared by the proctor unless otherwise approved by the WG/CC.

2.5.4. Test storage.

2.5.4.1. The FTU/CC will develop local procedures to store hard-copy exams with access restricted to FTU/CC appointed personnel unless otherwise approved by the WG/CC.

2.5.4.2. The FTU/CC will develop local procedures that ensure electronic exam databases will be password-protected and stored on a secure server with access limited to FTU/CC appointed personnel unless otherwise approved by the WG/CC.

## Chapter 3

## COURSE ASSESSMENT

**3.1. General.** Overall quality and effectiveness of training programs are assessed through regular, periodic monitoring of classroom instruction, review of student testing results, instructor feedback, and other internal and external assessment data. FAMs, FTUs, and OTD Teams use internal and external assessment data to continually improve the quality and effectiveness of the training system.

**3.2. Internal Assessments.** Internal assessments ascertain the effectiveness and quality of a training course by gathering data from student examinations, end-of-course questionnaires, reviewing courseware and course control documents (such as syllabi), and assessing instructor performance.

3.2.1. End-of-Course Questionnaires.

3.2.1.1. Student assessments of training include completion of an end-of-course questionnaire covering academics, aircrew device training, performance tasks, and actual flying sorties. Questionnaires will contain numerical ratings for use in trend analysis and are developed by the FTU or contractors. FTUs or contractors gather questionnaires and continuously analyze data with OTD Team assistance as appropriate. All communication with contractors will go through the appointed Government Appointed SME. FTUs or contractors will distribute analysis results locally (FTU/CC, Operations Group (OG)/CC, OTD Team, etc.) and may forward results to the syllabus OPR unless otherwise approved by the WG/CC.

3.2.1.2. If the analysis indicates syllabus modifications are needed, the syllabus OPR, OTD Team, and FTU, as applicable, will coordinate the modifications and present them at the next SRB. If the weapon system FAM directs an out-of-cycle syllabus revision, the OTD Team will prepare the syllabus change IAW ACCI 11-252.

3.2.2. Courseware Reviews. Review all courseware affected by syllabus changes during the syllabus review process. All other courseware will be reviewed as required by FAM or OTD Team and contract specifications as applicable. Reviews are conducted by FTU instructors, SMEs or ISD personnel, and others as appropriate. Courseware is reviewed for accuracy, quality (matching TTL tasks to criterion-referenced objectives and lesson objectives, grammar, etc.), and effectiveness of design. Courseware reviews during actual lesson delivery are supplementary reviews and may be used to assess courseware training objectives and lesson media selection. All reviews will be documented.

**3.3. External Assessments.** External assessments assess the quality of the training the graduate received based on how well students meet job performance requirements in an operational environment.

3.3.1. Graduate Evaluation Program. OTD Teams will establish a Graduate Evaluation Program for their specific weapon system. The Graduate Evaluation Program consists of graduate and supervisor feedback based on surveys, personal interviews, and alternative data sources such as safety investigation reports, accident investigation reports, standardization and evaluation (Stan/Eval) reports, Inspector General reports, training requirement meetings, etc. Individual assessment programs and methods used may be tailored to meet the needs of

specific weapon systems but must follow the guidelines stated in this instruction unless otherwise approved by the WG/CC. **Attachment 6** is a schematic of the overall graduate evaluation process. **Exception:** The 436 TRS and USAFWS are not required to establish a Graduate Evaluation Program.

3.3.1.1. ACC TRSS Graduate Evaluation Program Manager (GEPM). The ACC TRSS GEPM manages the ACC Formal Operations Training Graduate Evaluation Program and provides guidance for the development of graduate evaluation questionnaires and the GER. The ACC TRSS GEPM serves as a liaison between the Air Force Personnel Center (AFPC) and the OTD GEPM. This role administers survey control numbers (SCNs) for graduate and supervisor questionnaires, monitors official surveys to ensure AFPC compliance, and submits an annual report of all issued SCNs to AFPC. Additionally, the ACC TRSS GEPM reviews each graduate evaluation survey and GER every two years.

3.3.1.2. OTD Teams. OTD Teams evaluate graduates three to six months after completing training or prior to beginning the next applicable qualification training, whichever comes first. This allows for leave and travel time and gives supervisors time to observe and analyze the graduate's performance and determine how well graduates performed following training. Surveying within 180 days after graduation helps differentiate FTU training performance from subsequent operational unit training.

3.3.1.3. OTD Teams are responsible for creating their own surveys and requesting the SCN from ACC TRSS GEPM. Additionally, they will provide ACC TRSS GEPM access to their survey platforms for continuous assessment.

3.3.1.4. OTD Teams will request assistance from WGs to ensure maximum participation in Graduate Evaluation Programs. The OG/CC over an FTU should provide a POC within each operational unit to assist the OTD Team in implementing the Graduate Evaluation Program and ensuring formal course graduates and their supervisors complete and return graduate evaluation surveys. Unless otherwise approved by the WG/CC, operational unit POCs will ensure the distribution of surveys and return of all surveys IAW OTD Team guidance, as well as provide support for OTD Team field evaluation visits and other data collection efforts, as required.

3.3.1.5. FTUs. All units providing formal training will establish procedures for participating in the Graduate Evaluation Program and assist the OTD Team as requested. Within 30 days following graduation, FTUs will forward a roster of formal course graduates to the appropriate OTD Team to initiate the graduate evaluation process unless otherwise approved by the WG/CC. These rosters include name, rank, email, gaining unit, crew position, class designation, appropriate syllabus designation, graduation date, contact information, and any other information requested by the OTD Team.

3.3.2. Graduate Evaluation Questionnaire Process.

3.3.2.1. Separate questionnaires are developed for graduates and supervisors. The questionnaires will be developed IAW **Attachment 7**. Questionnaires will include rating scales verbatim as shown in **Attachment 9**. OTD Teams will distribute questionnaires to graduates and training supervisors. **Note:** a "training supervisor" does not need to be an individual in the graduate's direct chain of command, but rather it is the individual with the most knowledge of the graduate's mission task performance. Comments for ratings "0" and

"4" are required, comments for ratings "1" and "3" are highly desired, and comments for "2" are optional.

3.3.2.2. Graduate questionnaires evaluate how well academic training, device training, and flying training, as applicable, prepared the graduate to perform specific mission tasks. Questionnaires will be designed to solicit additional information through written comments. Send surveys to all graduates except for the ranks of E-9 and O-6 and above.

3.3.2.3. Training supervisor questionnaires will assess how well the training prepared the graduate to perform specific mission tasks for follow-on training or weapon systems employment. It will also solicit additional information through written comments. It is desired that a training supervisor completes a questionnaire for each graduate. Send surveys to all supervisors except for the ranks of E-9 and O-6 and above.

3.3.2.4. Questionnaire validity and success depend on an effective Graduate Evaluation Program, a high survey return rate, and the thoroughness and sincerity of graduates and supervisors providing the feedback.

3.3.2.5. Alternative data-collection methods may be used to meet specific evaluation needs when most appropriate. Alternative data collection methods will be documented in Part II, Section 3 of the GER. Alternative methods can include, but are not limited to, interviewing newly, arrived or upgraded instructors from the field, video teleconferencing, and telephone-inquiry techniques. Additional potential information sources include student critiques, inspection reports, accident investigation reports, safety investigation reports, Stan/Eval reports, "sidebars," and training requirement meetings. Regardless of the method of delivery, every effort will be made to have surveys sent out at the same predetermined time.

3.3.2.6. OTD Teams analyze Graduate Evaluation questionnaires and data from other sources, comparing graduate performance with course standards and training objectives. Factors to consider include population, sample size, the number and quality of graduate and supervisor questionnaire responses, and information from other relevant sources. Data is monitored over two or more classes for trends and evidence of inadequate or excessive training. Consolidated questionnaire responses are considered relevant when 10% or more of a particular item's numerical or written responses reflect the same rating. The OTD Team may use subjective judgment to deem selected written responses relevant despite not meeting the 10% threshold. All validated or relevant written comments will be included in the GER, to include corrective action taken or recommended; however, the OTD Team will use subjective judgment to draw conclusions and make recommendations. A GER will still be submitted, regardless of sample size.

3.3.3. Field Visits. The purpose of a field visit is to validate findings collected via data analysis, research training deficiencies that are classified or cannot be discovered via graduate surveys, and to facilitate OTD Team discussion with Combat Air Forces (CAF) leadership regarding FTU training priorities and graduate quality. Field visits are arranged and conducted by OTD Team members, preferably an experienced SME and an Education and Training professional, who will visit operational units as deemed necessary depending on the state of training and assessment feedback suggesting a field visit is necessary.

3.3.3.1. Survey data, safety issues, and other compelling training-related matters can be used to justify a field visit. Field visits are highly encouraged when survey return rates are below 20% within one year after the most recent SRB. The ACC TRSS GEPM may accompany teams on field visits with approval of the ACC TRSS/CC.

3.3.3.2. To enhance the effectiveness of field visits, OTD Team members are encouraged to participate in part-task, performance, operator, and full-mission training experiences in training devices and on flying missions.

3.3.3.3. Submit a trip report to ACC TRSS/CC, ACC TRSS/TDF, the unit visited, and other local offices. See **Attachment 11** for an example of a field visit report.

**3.4. Graduate Evaluation Report (GER).**

3.4.1. The GER is a summary and analysis of training data gathered from graduate surveys, training supervisor surveys, and alternate data-collection methods. The GER serves to close the feedback loop with graduates, training supervisors, responsible FTUs, and headquarters. It keeps associate units informed of training system issues, facilitates preparation of necessary syllabus changes, and provides weapon systems FAMs the opportunity to respond to issues and recommendations. The GER assures associate units that training developers are listening to their concerns.

3.4.2. The OTD GEPM will compile all data into a GER prior to the biennial SRB or sooner, if required, due to weapon system, syllabus, courseware changes, or preliminary analysis of incoming graduate evaluation data. GERs are due to the ACC TRSS GEPM 60 days prior to the SRB. The GER review is a mandatory agenda item for the SRB and will be included in the SRB minutes.

3.4.2.1. When a syllabus is rescinded, a closeout GER is only required if the FAM directs an SRB or syllabus update prior to the weapon system leaving ACC, or if there is a likelihood of the weapon system returning to ACC formal operations training.

3.4.2.2. When a syllabus is superseded, include the data for the period from the close out of the previous GER to implementation of the revised syllabus with the revised syllabus GER data, as applicable.

3.4.2.3. Submit a Letter of No Report to ACC TRSS GEPM only when no classes have been taught or there are no graduates to survey during the graduate assessment period. Follow guidance in **Table A10.2**, for submitting a letter of no report.

3.4.3. Follow the GER format and guidance found in **Attachment 8**, **Attachment 9**, and **Attachment 10**.

3.4.4. Upon receipt of the GER from the OTD Team, the ACC TRSS GEPM will review the report for completeness, accuracy, and format. GERs that do not follow the format and guidance found in **Attachment 8**, **Attachment 9**, and **Attachment 10** will be returned to the OTD Team GEPM for correction. Once the ACC TRSS GEPM releases the approved GER to the OTD GEPM, the OTD Team Lead will sign the GER and return to the ACC TRSS GEPM.

3.4.4.1. The ACC TRSS GEPM will digitally sign the GER Release Message and distribute to the ACC weapon system FAM and OTD Team. **Exception:** The 39 IOS/CC will sign and distribute the GER release message and GER.

3.4.4.2. Upon receiving the GER Release Message from the ACC TRSS GEPM, the OTD Team Lead will distribute the release message, along with the signed GER, to their local distribution.

3.4.5. The OTD Team will file the GER in the syllabus record set and retain copies of the last three GERs for each formal course to assess trends resulting from syllabus changes.

3.4.6. The syllabus OPR will review the GER and use it to implement syllabus modifications at the SRB (or earlier depending on the criticality of the information).

**3.5. Syllabus Review Board (SRB).**

3.5.1. The SRB is the final step in the assessment process. Board members will validate and prioritize feedback and course assessment from all sources, include leadership messages, incorporate changes to weapon system designed operational capabilities, and manage resource constraints. The SRB minutes should present clear direction and action items for the syllabus revision.

3.5.2. The SRB will review information such as student flow, accident investigation reports, safety investigation reports, GERs, end-of-course critiques, weapon system modifications, course waivers, training deficiencies, Stan/Eval trend analysis reports, and operational unit Designed Operational Capability (DOC) Statement missions to determine if changes in the training tasks lists, syllabus, or courseware are necessary.

3.5.3. ACC TRSS/CC must approve any syllabus review procedure used instead of an SRB. **Exception:** The USAFWS will conduct syllabus reviews during their mid-course and end-of-course review sessions chaired by the USAFWS Commandant (USAFWS/CO). The ACC/A3 weapons system FAM is not required to chair or attend USAFWS reviews.

3.5.4. The ACC weapons system FAM will chair or attend the SRB IAW **paragraph 1.2.2.2.5**. If the FAM does not chair the SRB, the respective OTD Team Lead will chair the SRB.

3.5.5. SRB Minutes. **Table 3.1** depicts an example of the format for SRB minutes. **Note:** The SRB minutes are only CUI when filled in. The SRB chairperson will review the minutes and the OTD Team Lead will sign the minutes. The OTD Team will distribute the minutes to all invited organizations and all SRB attendees. The OTD Team will send a copy of the minutes to ACC TRSS/TDF within 30 days of the SRB. **Note:** All minutes will be prepared as official memoranda IAW AFMAN 33-326, *Preparing Official Communications*.

**Table 3.1. Syllabus Review Board (SRB) Minutes.**

**CUI** (When filled in)

MEMORANDUM FOR (See **paragraph 3.5.5)**

FROM: OTD Team Lead

SUBJECT: (Syllabus name, or weapon system, and position, if applicable) SRB Meeting Minutes

**1. SRB Overview.** (Provide SRB overview including when, where, and who chaired the SRB. List the syllabi reviewed.)

**2. SRB Agenda.** (List the agenda and identify an OPR as in the following example. Verify the mandatory agenda items are addressed.)

a. Welcome and Introductions

b. Weapon System Mission Priorities [Mandatory] (OPR: FAM)

c. Graduate Evaluation Reports [Mandatory] (OPR: OTD Team)

d. End-of-Course Inputs (OPR: FTU/OTD Team)

e. Student Non-Progressions (OPR: FTU/OTD Team)

f. Training Task List Review [Mandatory] (OPR: OTD Team)

g. Aircrew Training Aid Review [Mandatory if applicable] (OPR: OTD Team)

h. Chapter 1 Issues (OPR: OTD Team)

i. Chapter 2 Issues (OPR: OTD Team)

j. Chapter 3 Issues (OPR: OTD Team)

k. Chapter 4 Issues (OPR: OTD Team)

l. Chapter 5 Issues (OPR: OTD Team)

**3. Attendees.** (List the attendees rank, name and organization. List must identify the SRB chairperson and the recorder(s).)

**4. Meeting Minutes.** (Address each item in the agenda. Document and summarize issues, discussions and, most importantly, the decisions and recommendations made by the board. Identify action items as needed.)

OTD Team Lead Signature Block

**CUI** (When filled in)

## Chapter 4

## COURSEWARE MANAGEMENT

**4.1. General.** OTD Teams are tasked by ACC/A3 to initiate, develop, distribute as applicable, and maintain courseware (including Augmented and Virtual Reality) that provides formal operations training for ACC FTUs. OTD teams accomplish this by using civilian contractors or government development teams to build and maintain training programs. Government development teams (and civilian contractors per PWS) and OTD Teams will conduct a media analysis to determine the most effective media methods to satisfy each training objective(s) and document results in the lesson strategy. The following paragraphs detail responsibilities of the courseware development teams.

4.1.1. Government Roles and Responsibilities.

4.1.1.1. The FAM establishes requirements, sets the initial development philosophy, generates standards, and ensures configuration requirements are maintained. The military and civilian personnel within the OTD Team build and maintain non-contractor courseware products, ensures all courseware meet customer requirements, and acts as the focal point for all local FTU program training needs.

4.1.1.2. The OTD Team Lead is the approval authority for all courseware except CBTs intended for CAF-wide distribution. CAF-wide CBTs will be approved by the ACC TRSS/CC.

4.1.2. Contractor Roles and Responsibilities. Contractors follow existing requirements as stated in their respective contracts. Contractors are the continuity of the courseware development cycle through the Courseware Development Schedule.

4.1.3. ISD. All courseware will be developed following the ISD process. Information and guidance for designers of instructional systems on how and under what conditions to incorporate training technologies into the ISD process can be found in DAFH 36-2675. This guidance addresses the use of instructional technologies in both resident and non-resident instructional systems.

4.1.4. CAT/CWD Acquisition Process. ACC TRSS/ACQ manages some ACC/A3 directed training contracts that use civilian contractors to produce courseware for various OTD Teams. In most cases, these contractors also perform academic instruction. This form of training solution is referred to as CAT/CWD contracts. These contracts are individually designed to meet the specific needs of students, FTUs, and operational units. In addition to courseware development, they usually include classroom and training device instruction. In some instances, it may also include flying training.

4.1.5. ACC operational units desiring CAT/CWD support for aircrew training will formally coordinate requests through their respective weapon system FAM at ACC. Upon FAM verification and approval, ACC TRSS/ACQ and AMIC will determine if the training requirement is in scope of an existing contract and they can acquire the training through a contract modification or determine if a new contract is required. Contract Modifications of existing contracts usually take 4-6 months, and new contract awards can take up to 18 months to complete. New contract or contract modifications will not be executed until certified funding is provided.

4.1.6. Contract Program Management. ACC TRSS/ACQ is the program office and COR for ACC/A3-directed CAT/CWD contracts. ACC AMIC is the contract administrator and provides support to the TRSS in developing contract documents supporting ACC training requirements IAW Federal Acquisition Regulations.

4.1.7. CAT/CWD contracts not managed by ACC TRSS/ACQ. For non-ACC TRSS managed contracts, the MAJCOM or ACC Division will be the contract POC. The MAJCOM program office for the contract will be responsible for providing all financial support throughout the lifetime of the contract.

**4.2. Courseware Development.** This section outlines the processes and guidelines for creating effective training materials, including the use of contractor-produced courseware and the development of interactive multimedia instruction. It covers the various types of courseware development contracts, levels of interactivity, and the necessary components for each level, ensuring that training materials meet the specific needs of students, flight training units, and operational units.

4.2.1. CWD contracts may be awarded if the FTU, ACC TRSS, and ACC/A3 determine this to be effective and efficient.

4.2.2. CWD contracts will be individually designed to meet the specific needs of students, FTUs, and operational units. CAT/CWD contracts usually include classroom instruction, training device instruction, and may also include flying training. They also provide courseware development for new or revised instructional products. Products may include lesson plans, student study guides, textbooks, tests, grade sheets, interactive courseware, and syllabi development etc.

4.2.3. The OTD Teams will validate technical accuracy, ISD adherence, and ensure the courseware is compliant with the contract.

4.2.4. This section defines the various levels of interactivity and outlines the necessary components that must exist at each level. It is important to note that the "cost" of courseware development, both in terms of dollars and man-hours spent building each product, increases as the level of interactivity increases. DAFH 36-2675 series outlines the various types of instructional technology capabilities from traditional media to internet-based instruction.

4.2.4.1. CBT programs will be designed around interactive multimedia instruction.

4.2.4.2. OTD Teams will survey existing training material before developing new CBTs.

4.2.4.3. For contractor developed CBTs, the government will determine the type, level of interactivity for CBTs and, if required) will be stated in the respective PWS.

4.2.4.4. The following paragraphs outline CBT development levels of interactivity:

4.2.4.4.1. Passive Participation Level 1 – Baseline Presentation. This is the lowest level of interactive courseware development. In Level 1, the learner receives information. The media used are primarily text and graphics (not complex). This level is used primarily to introduce knowledge, including ideas, concepts, and processes. Information is generally provided in a linear format (one idea after another). Minimal interactivity is incorporated in the form of text, navigational icons, static graphics, and illustrations (e.g., photos, charts, tables), learner-initiated animations, pop-ups and hyperlinks, and simple assessment questions.

4.2.4.4.2. Limited Participation Level 2 – Medium Simulation Presentation. This presentation level involves the recall of more information than a basic level 1 presentation. There is more interaction such as using a stylus to rotate a switch. Level 2 normally combines audio, video, text, graphics and animation. This level may also include testing or remedial instruction.

4.2.4.4.3. Complex Participation Level 3 – High Simulation Presentation. This level involves aspects of both level 1 and level 2 while using some of the abilities of interactive courseware. Level 3 may present on-screen interaction similar to that used in an aircraft simulator. This level provides a high degree of interactivity, extensive branching capability, maximum mediation opportunity, real-time event simulation with minor equipment limitations, and capability to interface with other input devices.

4.2.5. Non-Contractor Produced Courseware. This includes courseware or other syllabus-related documents or products produced or managed by OTD Teams without the support of a courseware development contract. The OTD Team must apply all ISD functions and phases in the development and maintenance of non-contractor produced courseware.

**4.3. Security Markings.** All classified courseware will be security marked IAW Department of Defense Manual (DoDM) 5200.01V2_AFMAN16-1404V2, *Information Security Program: Marking of Classified Information,* and DoDM 5205.07, Volume 4, *Special Access Program (SAP) Security Manual: Marking*, if applicable. All courseware protected as Controlled Unclassified Information (CUI) will be marked IAW DoD Instruction (DoDI) 5200.48_DAFI16-1403, *Controlled Unclassified Information (CUI)*.

**4.4. Unclassified Courseware Handling.** OTD Teams will ensure courseware is distributed, maintained, and controlled IAW DoDI 5200.48_DAFI16-1403 and other local policies and procedures. This includes implementing and maintaining the required safeguarding and handling measures for CUI, as outlined in applicable regulations and policies. Unclassified courseware products, including those that contain CUI, may be stored on DoD information systems, in compliance with CUI safeguarding requirements.

4.4.1. The OTD Team will distribute syllabi, TTLs, and courseware as required for the execution of the formal training courses they manage. All other organizations or individuals desiring courseware, to include TTLs and syllabi, must submit a formal request to the respective OTD Team.

4.4.2. The OTD Team Lead, weapons system FAM, or ACC TRSS/TDF may approve the release and distribution of government owned courseware, syllabi, and TTLs to any US DoD organization or US DoD contractor for administrative or operational use by electronic transfer IAW all applicable policies and procedures.

4.4.3. ACC TRSS/CC may authorize the release of government owned courseware, syllabi, and TTLs to other organizations or individuals. OTD Teams will forward these requests to ACC TRSS/TDF.

4.4.4. All TTL and syllabi provided to foreign personnel will require a positive foreign disclosure authorization from ACC International Engagements (ACC/IAP) through ACC TRSS/TDF. The OTD Team, or applicable originator, will ensure all other instructional materials provided to foreign personnel receive a positive foreign disclosure authorization by their local Foreign Disclosure Office.

**4.5. Classified Courseware Handling.** OTD Teams will ensure classified courseware is distributed and maintained as outlined in DoDM 5200.01V3_DAFMAN16-1404V3, *Information Security Program: Protection of Classified Information*, and other applicable regulations and policies.

4.5.1. Electronic Distribution.

4.5.1.1. Classified training products will be stored and transmitted using the approved secure communications system. For SAP courseware systems follow the Program Security Officer approved procedures documented in the System Security Plan or Information Assurance Standard Operating Procedures. OTD Teams may advertise the availability of these products on DoD information systems or electronic courseware catalog.

4.5.1.2. OTD Teams will verify the identity of the requester through a written record (e.g., email, Memorandum for Record, or other documented correspondence) and confirm with the requester's security official via a follow-up telephone call before releasing any classified materials. Once authenticated, the OTD Team will distribute the product within five duty days to the requestor.

4.5.2. Physical Distribution. Refer to DoDM 5200.01V3_DAFMAN16-1404V3 for classified information transportation guidance.

## Chapter 5

## TRAINING AID AND DEVICE MANUFACTURING

**5.1. General.** This chapter defines ATAs, ATDs, and responsibilities of each agency involved in procurement, maintenance, transportation, and disposal. Furthermore, it delineates policies governing their local manufacture and management.

**5.2. Aircrew Training Aids and Training Devices.** For the purpose of this instruction, an ATA or ATD is any device used in formal and continuation training programs that are manufactured within the command. ATAs include charts, photographs, videos, cutaways, and models. ATDs include non-electronic and electronic immersive equipment. Training aids excluded from the guidance of this chapter include environmental improvement projects, housekeeping equipment, and devices such as flight scheduling boards, command post briefing boards, or award plaques that do not directly apply to training programs. ATAs and ATDs are integral to formal operations training courses of instruction and continuation training programs under the direction of the ACC/A3.

**5.3. Responsibilities.**

5.3.1. OTD teams are recommended to lead the coordination of ATA and ATD procurement.

5.3.2. ACC TRSS Detachment 9 provides the manufacturing of ATAs and ATDs for ACC.

5.3.2.1. ACC TRSS Detachment 9 budgets to enable the production and maintenance of ATAs and ATDs that may not be available or practical through other procurement channels or are otherwise cost-prohibitive.

5.3.2.2. ACC TRSS Detachment 9 will be fully reimbursed for the development costs of ATAs ATDs created for units outside of ACC and its affiliates.

5.3.2.3. In cases where ACC TRSS Detachment 9 does not have funding available, customers will be required to obtain funding through their requesting organization.

5.3.2.4. Based on customer requirements, ACC TRSS Detachment 9 will ensure devices are manufactured to meet specific needs within CAF training programs, are designed to maximize training potential, and are cost-effective. It will avoid duplication of effort or unnecessary expenditure of resources by coordinating all requests through the applicable OTD team associated with the weapon system the ATA or ATD will support.

5.3.3. The 436th Training Squadron (436 TRS) at Dyess AFB is responsible for creating video and other digitally immersive ATAs for a broad range of technical and functional career fields, including other DoD services. Their budget makes possible cradle to grave production through scripting, shooting, narrating, editing, dubbing, and initial distribution to include life cycle updates of ATA products. If travel is required to accomplish any portion of the video production, all direct costs and direct personnel hours for production must be identified and the travel expenses will be the responsibility of the requesting organization for each production IAW DoDI 5040.07, *Visual Information (VI) Productions*.

5.3.3.1. Video ATAs may include but are not limited to in-flight video productions, aircraft servicing, or Red Flag type training videos.

5.3.3.2. MAJCOMs other than ACC requesting products are required to establish non-refundable site once production begins. For clarification, contact 436 TRS.

5.3.3.3. The 436 TRS works with designated OPRs, SMEs, and other professionals to ensure all completed productions are technically accurate and meet the customer's requirements. OTD Teams serve as, or provide, SMEs for training systems associated with their mission design series or mission system volumes. A knowledgeable and available SME is a vital requirement for successful and timely production of ATAs and ATDs.

**5.4. Training Aid Needs Assessment.** Application of the ISD process for media selection will identify areas where integrated activities require training aids. ATAs are designed primarily to improve training, save resources, and enhance safety.

**5.5. Requesting Aircrew Training Aids (ATA).** The submitting organization should coordinate requests for manufacture, update, or modification of ATAs or ATDs with the OTD team for that weapon system. All ACC requests should first go to ACC TRSS Detachment 9 or the 436 TRS for consideration. If HQ ACC TRSS Detachment 9 or 436 TRS are not able to accommodate the training needs, the requesting organization may seek alternative sources for development.

5.5.1. For ACC TRSS Detachment 9 produced ATAs and ATDs, contact HQ ACC TRSS Detachment 9 at **acctrssdet9.atd.atd@us.af.mil**.

5.5.2. For 436 TRS produced training products, contact the 436 TRS at **436TSIP@us.af.mil**.

**5.6. Maintenance of ATAs and ATDs.** ACC TRSS Detachment 9 will provide both field-level and depot-level maintenance for HQ ACC TRSS Detachment 9 created ATAs and ATDs, and many of those built by other trainer fabrication organizations.

**5.7. Movement of ATAs and ATDs.** For disposition or relocation of ATAs and ATDs, contact the syllabus OPR for guidance. ATD and ATA will typically be shipped through servicing Traffic Management Offices using DD Form 1149, *Requisition and Invoice/Shipping Document.*

**ACC TRSS/TDF**—ACC Training Support Squadron Training Development Flight

**AFGSC/A3TV**—AFGSC Standards and Evaluations Branch

**AFGSC/A3TZ**—AFGSC Standardization and Evaluation Branch

**USAFWS/CO**—USAFWS Commandant

*Terms*

**Combat Air Forces (CAF)**—The military units and personnel dedicated to conducting operations, including offensive and defensive missions in combat scenarios.

**Continuation Training**—Training conducted after qualification to provide crewmembers with the volume, frequency, and mix of training necessary to maintain proficiency.

**Course Control Documents**—Specialized publications used to control the quality of the instructional system, such as training standards, plans of instruction, syllabi, TTLs, and lesson strategy reports.

**Course Manager**—Individual appointed by the FTU as the primary POC for all matters regarding a specific course.

**Courseware**—Training materials such as technical data and textual, audiovisual and computer-based instructional materials.

**Education and Training Course Announcements (ETCA)**—Internet site containing comprehensive list of all available Air Force formal training courses.

**Functional Area Manager (FAM)**—The FAM is the individual accountable for managing and overseeing all personnel and equipment within a specific functional area to support operational planning and execution. Responsibilities may include developing and reviewing policy; developing, managing and maintaining unit type codes; developing criteria for and monitoring readiness reporting; force posturing, analysis, and execution activities which are crucial to the management and execution of our Air Force readiness programs.

**Instructional System**—An integrated combination of resources (students, instructors, materials, equipment and facilities), techniques, and procedures performing effectively and efficiently the functions required to achieve specified learning objectives.

**Lesson Plan**—An approved method of instruction that provides specific definition and direction to the instructor on learning objectives, equipment, instructional media material requirements, and conduct of training. Lesson plans are the principal component of curriculum materials in that they sequence the presentation of learning objectives and program the use of supporting instructional material.

**Office of Collateral Responsibility (OCR)**—Assists the Office of Primary Developmental Responsibility (OPDR) with the review of syllabi, TTLs, other courseware, evaluates ATAs and ATDs, and other formal training responsibilities to ensure compliance with ACC TRSS guidance, as requested. In the case of FAM designations as an OCR (example – AETC dual-signed syllabi), the OCR is a stakeholder and concurs or non-concurs in the formal approval process-chain.

**Office of Primary Developmental Responsibility (OPDR)**—Development, maintenance, and use of the identified training items.

**Office of Primary Responsibility (OPR)**—Ensures training is valid and current.

**Operations Training Development (OTD) Team**—OTD Teams are ACC focal points for the development of formal operations training regarding the teams' assigned weapon system(s) or program. OTD Teams exist as ACC TRSS-owned detachments and as embedded organizations within a WG, OG or FTU. While different organizational structures exist, the requirements remain

the same. An OTD team is usually composed of a team lead, crew position SMEs, training personnel with ISD experience, and program analysts.

**Subject Matter Expert (SME)**—An individual who by education, training, or experience is a recognized expert on a particular subject, topic, or system.

## Attachment 2

## FUNCTIONAL AREA MANAGER (FAM)

### A2.1. Functional Area Managers (FAMs).

A2.1.1. FAMs are the syllabus and TTL OPRs for formal operations training programs.

A2.1.2. ACC TRSS also provides support to AFGSC IAW the Memorandum of Agreement between ACC and AFGSC. FAMs are designated in **Table A2.1**.

**Table A2.1. Functional Area Managers (FAMs).**

| Formal Training Program | OPR(s) |
|---|---|
| 39 IOS Classroom Instructor Course, 39 IOS Instructional Systems Development Course, 39 IOS Instructor Methodology Course | 39 IOS |
| ACC Classroom Instructor Course, ACC Instructor Methodology Course, ACC ISD Principles Course | 436 TRS |

## Attachment 3

## OPERATIONS TRAINING DEVELOPMENT TEAMS

**A3.1. Operations Training Development (OTD) Teams.** Table A3.1 lists all ACC major weapon systems, training subjects and their associated OTD Teams. The F-35, F-16, HH-60 and HC-130J do not have supporting OTD Teams. The ACC FAM maintains full development responsibilities for those systems.

**A3.2. Training Support Squadron (TRSS) Detachment 8.** Detachment 8 functions as the office of collateral responsibility (OCR) for the USAFWS, TACP/6 CTS, and RQ-170 syllabi and TTLs, as applicable. Detachment 8 is the OPDR for MQ-9 TTLs and may also provide Graduate Evaluation Program assistance for the MQ-9, RQ-170, and 6 CTS. The USAFWS and ACC TRSS Detachment 8 will work as a team to ensure quality courseware and proper contract management.

**Table A3.1. Operations Training Development (OTD) Teams.**

## Attachment 4

## OPERATIONS TRAINING DEVELOPMENT (OTD) TEAM TRAINING REQUIREMENTS

**A4.1. Required Training for Operations Training Development (OTD) Teams.** Training in **Table A4.1** lists courses that can satisfy OTD Team ISD and CIC training requirements. This listing is not all-inclusive but merely a listing of preferred courses that OTD Teams can complete to adequately prepare them to perform their duties. See notes in **Table A4.1**.

**Table A4.1. Operations Training Development (OTD) Team Training Requirements.**

| Course Title<br>Preferred Course | Position[4] | | | | | |
|---|---|---|---|---|---|---|
| | TRSS Detachment/ CC | Functional SME | Ed & Training Tech / Specialist (3F2/Civ) | OTD Support Positions[3] | Government CAT Surveillance SME | Government CWD Surveillance SME |
| ACC ISD Principles Course (or suitable substitute) | X | X | X | S | S | S |
| OTD Team Training | X | X | X | S | S | S |
| ACC CIC Course (or equivalent)<br>3J5ACC3S200 000 | | | | | S | |
| | | | | | | |
| Govt SME Training[2] | X | | | | X | X |

X = Mandatory requirement[1]

S = Suggested

**Notes:**

1. All mandatory courses will be scheduled or completed within five months of assignment to the OTD Team.

2. Government SME training is contract specific, lasts approximately 2 hours, and is conducted by HQ ACC TRSS/ACQ via teleconference or site visit.

3. OTD Support Positions includes personnel provide administrative non-ISD support.

4. If an individual fills multiple positions on the table, then they need to complete all training for both roles. Example: if a SME is also a Government CAT Surveillance SME, then they need to complete all training in the SME and Government CAT Surveillance SME columns.

## Attachment 5

## FORMAL TRAINING RESPONSIBILITIES

**A5.1. Formal Training Responsibilities.** See **Table A5.1** for ACC formal operations training responsibilities. A5.1.2. **Table A5.1** shows how the training responsibilities delineated in the way they are most commonly assigned but may be distributed as seen fit by the owning organization.

**Table A5.1. Formal Training Responsibilities.**

| **Responsibility** | **OPR** |
|---|---|
| Training Task List (IAW ACCI 11-252) | FAM |
| Operations Training Syllabi (IAW ACCI 11-252) | FAM |
| ETCA Updates | OTD Team |
| Course Training Standards | FAM |
| Criterion-Referenced Objectives | OTD Team |
| Lesson Plans/Instructor Guides | FTU |
| Multimedia and Instructional Media | OTD Team |
| Instructor Evaluations | WG/CC over an FTU |
| Simulator/Device Lesson Plans | FTU |
| Student Guides/Handouts | FTU |
| Referenced Text/Workbooks | OTD Team |
| Tests and Quizzes | OTD Team |
| End-of-Course Surveys | FTU |
| Graduate Evaluation Program | OTD Team |
| Mock-ups | OTD Team |
| Phase Briefings | FTU |
| Phase Manuals | FTU |
| Student Training Records, Grade Sheets, Related Forms/Records | FTU |

## Attachment 6

## GRADUATE EVALUATION PROCESS

**A6.1. Graduate Evaluation Process.** Apply this graduate evaluation process for formal operations training courses. Refer to **paragraph 3.3** for more information concerning external graduate evaluation methods.

**Figure A6.1. Graduate Evaluation Questionnaire Process.**

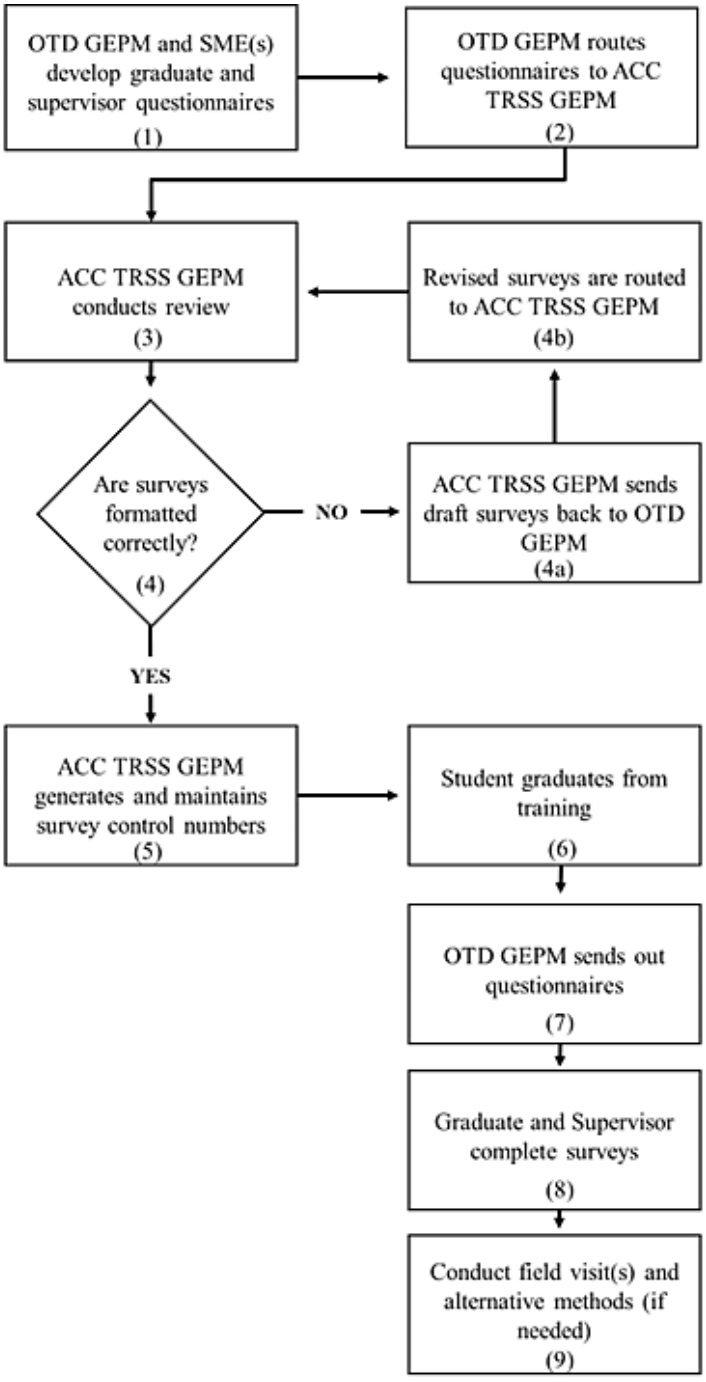

**Table A6.1. Graduate Evaluation Questionnaire Process.**

| Process Details: |
| --- |
| 1. The OTD GEPM and SME(s) develops or updates (as necessary) the graduate/supervisor questionnaires no later than 30 duty days after syllabus approval. See **Attachment 7** for guidance. **Exception:** If there is no change to a survey, the OTD GEPM will submit a memorandum of no change to the ACC TRSS GEPM. The TRSS GEPM will reissue an SCN. |
| 2. The OTD GEPM routes questionnaires to the ACC TRSS GEPM. |
| 3. The ACC TRSS GEPM conducts review within 14 duty days. |
| 4. The ACC TRSS GEPM reviews to ensure ACCI 11-251 compliance. |
| 4a. If corrections are required, the surveys are sent back to the OTD GEPM. The OTD GEPM will make all corrections within 14 duty days. |
| 4b. The OTD GEPM will send the revised surveys back to the ACC TRSS GEPM. |
| 5. The ACC TRSS GEPM administers and maintains the SCNs. An SCN is assigned to each respective survey instrument. |
| 6. Student graduates from training. |
| 7. The OTD GEPM sends out graduate evaluation surveys to graduates and their training supervisors. The survey window is three to six months after graduation. |
| 8. Graduates and training supervisors complete surveys. ACC survey return rate goal is 80%. |
| 9. The OTD GEPM may gather data via alternate methods or conduct field visit(s) to operational units. |

**Figure A6.2. Graduate Evaluation Report (GER) Process.**

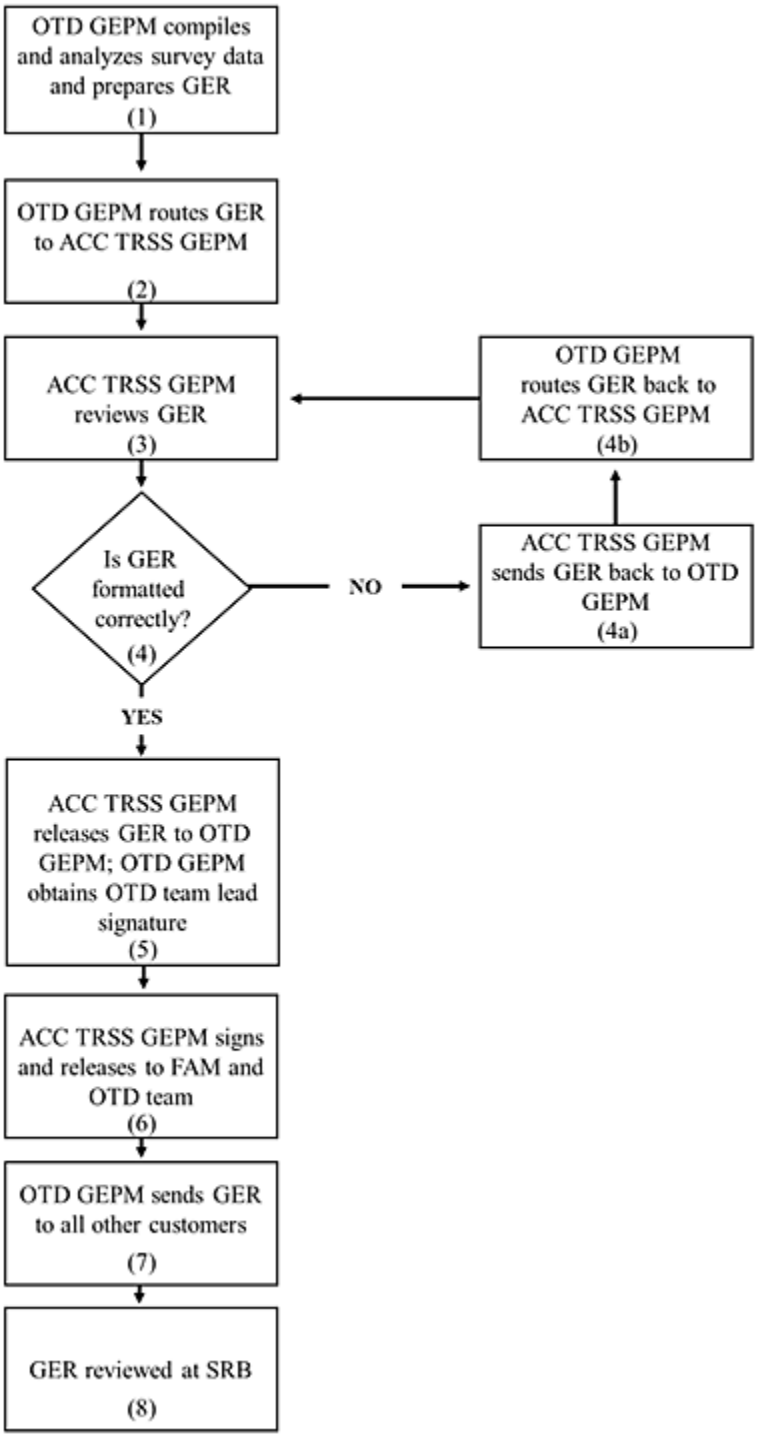

**Table A6.2. Graduation Evaluation Report Process.**

| Process Details: |
| --- |
| 1. The OTD GEPM compiles and analyzes survey data and prepares the GER prior to biennial SRB. See **Attachment 8**, **Attachment 9**, and **Attachment 10** for guidance. |
| 2. The OTD GEPM routes GER to the ACC TRSS GEPM. GERs are due 60 days prior to the SRB. |
| 3. The ACC TRSS GEPM conducts review within 14 duty days. |
| 4. The ACC TRSS GEPM reviews to ensure ACCI 11-251 compliance. |
| 4a. If corrections are required, the GER is sent back to the OTD GEPM. The OTD GEPM will make all corrections within seven duty days. |
| 4b. The OTD GEPM will send the revised GER back to the ACC TRSS GEPM. |
| 5. Once the ACC TRSS GEPM releases the approved GER to the OTD GEPM, the OTD Team Lead will sign the GER and return to the ACC TRSS GEPM. |
| 6. The ACC TRSS GEPM signs and releases to the FAM and OTD Team. **Exception:** The 39 IOS/CC will sign and release the GER release message and GER. |
| 7. The OTD GEPM sends the release message with attached GER to all other customers the syllabus supports. |
| 8. The GER is reviewed at the SRB along with other sources of feedback. Pertinent data that could affect changes to current formal training courses curriculum are identified. |

## Attachment 7

## GRADUATE EVALUATION QUESTIONNAIRES

**A7.1. Graduate Evaluation Questionnaires.** Graduate evaluation questionnaires solicit information necessary to evaluate the training received at the training unit to ascertain whether the student was trained to the appropriate level based on performance required at the operational unit. Questionnaires variations are authorized; however, each questionnaire will include:

A7.1.1. SCN.

A7.1.2. The following Informed Consent Statement: "This voluntary questionnaire is part of a continuous improvement process, and the results are taken seriously. This questionnaire is conducted IAW ACCI 11-251, *ACC Formal Operations Training Development Program*. This survey is confidential, the graduate and supervisor's information will be used only for tracking and analysis purposes and will not be used to grade or take action against any participant."

A7.1.3. Instructions for return and response suspense.

A7.1.4. The action officer and sponsor's contact information.

A7.1.5. The following Privacy Act Statement Authority: 10 USC § 9013, *Office of the Secretary of the Air Force*. Purpose: To provide senior leadership insight on the training received at the training unit. Routine Uses: Feedback will be used to ascertain whether the student was trained to the appropriate level based on the performance required at the operational unit. Disclosure: Providing information in this survey is voluntary. Individual responses will be kept confidential.

A7.1.6. The following OPSEC disclaimer: ***DO NOT*** *provide names of individuals, units, or locations. Remember OPSEC guidance and do not discuss or comment on classified or operationally sensitive information. Comments that indicate intent to cause harm to self or others, commit criminal acts, or describe illegal behavior cannot be protected.*

A7.1.7. Demographic information including graduate's name, graduate training supervisor's name, course graduated from, and an indication of graduate or supervisor questionnaire.

A7.1.8. An explanation and instruction of the applicable graduate or supervisor rating scale. Graduate and supervisor questionnaires will use the rating scales in **Attachment 9**.

A7.1.9. Ratings matrix from syllabus task areas (also called mission tasks, graded mission elements, etc.).

A7.1.10. Questions for graduates and supervisors to provide written comments about academic lessons, part-task training/performance training/device sessions and full-mission/operator mission/flying missions used in training.

A7.1.11. Opportunity for graduates and training supervisors to provide additional written comments.

**A7.2. Questionnaire Requirements.** Questions included in the Graduate Evaluation questionnaires must meet the following requirements.

A7.2.1. Be grammatically correct.

A7.2.2. Be clear and easy to understand.

A7.2.3. Be professional and neat in appearance.

A7.2.4. Be developed and treated as though intended for public release.

A7.2.5. Not require an excessive amount of time or effort to respond. Not to exceed 30 minutes to complete a survey.

A7.2.6. Contain items that are mission related and actionable.

A7.2.7. Contain the minimum number of items necessary to meet stated survey objective(s).

A7.2.8. Cover each topic sufficiently, in a logical sequence and avoid redundancy.

A7.2.9. Contribute significantly to the study of relevant DAF policy or program issues.

A7.2.10. Support effective survey research and minimize survey redundancy and survey fatigue.

A7.2.11. Follow Federal guidelines and Office of Management and Budget standards for demographic questions such as sex, race, and ethnicity.

**A7.3. Distribution.** Surveys will not be submitted to contract personnel, foreign students, or bargaining-unit civilian employees.

## Attachment 8

## GRADUATE EVALUATION REPORT (GER) GUIDELINES

**A8.1. Graduate Evaluation Report (GER) Guidelines.** This attachment provides guidelines that must be followed when developing all ACC formal operations training GERs.

A8.1.1. Graduation Evaluation Report.

A8.1.1.1. Classification. GERs will be marked "CUI" and follow all applicable marking guidance. See **Attachments 9** and **Attachment 10** for guidance.

A8.1.1.2. Data Tables. Verify survey data and present the total number of survey responses. The number of responses for each line in the matrix will usually add up to the total number of respondents. Explain any instances where a respondent submitted comments without selecting a rating value or where a majority of respondents selected "N/A."

A8.1.1.3. Percent Dissatisfaction Computation. Dissatisfaction is defined as a rating of inadequate (0) and excessive (4). Compute the percent dissatisfied by summing the number of "0" and "4" responses and divide by the total number of responses (excluding "N/A" responses). Express the percentage to the nearest whole percent.

A8.1.1.4. Pertinent Data Analysis. Pertinent data falls into two categories: ratings and written comments. When the percent dissatisfaction column is 10% or larger, (or when individual ratings are more than 10% except for "2") the ratings are pertinent and must be reported in this section. When 10 %of the respondents written comments indicate a concern, the comments are pertinent and must be reported in this section. Any comment may be deemed pertinent based on OTD Team subjective evaluation and may be included in this section.

A8.1.1.4.1. Graduate Pertinent Data Analysis. Summarize all pertinent findings for each training category (e.g., academic, device, and flying training). If there are no pertinent findings for a category, list the training category and indicate "None." in this paragraph.

A8.1.1.4.2. Supervisor Pertinent Data Analysis. Summarize all pertinent findings for each training category (e.g., academic, device, and flying training). If there are no pertinent findings for a category, list the training category and indicate "None." in this paragraph.

A8.1.1.4.3. The corrective action will be well thought out and listed in explicit detail. If no corrective action is necessary, list "None." If clear correction action is not evident, the matter can be deferred to the SRB.

A8.1.2. General Writing Guidelines.

A8.1.2.1. Font Style and Size. Use Times New Roman or Arial 11 or 12-point font for all reports. Font size must be consistent throughout document. **Exception:** Font style and size may differ in tables and figures to save space or fit an entire table/figure on one page, but tables/figures must be consistent within the document.

A8.1.2.2. Use of Bold Type. Use bold type to highlight section, table, and chart headings. See **Attachment 9**.

A8.1.2.3. Line Spacing. Lines will be single-spaced and justified.

A8.1.3. Be consistent throughout the document when grammatical guidelines are not defined or there is more than one correct method.

A8.1.4. Acronyms.

A8.1.4.1. Spell out all acronyms when first used.

A8.1.4.2. Do not capitalize words within the context of a sentence just because the acronym is capitalized (e.g., Attached is the graduate evaluation report (GER) for the…).

A8.1.5. Capitalization and Word Use Guidelines.

A8.1.5.1. Reference AFH 33-337, *The Tongue and Quill* for rules on capitalization.

A8.1.5.2. Do not break organizational references (e.g., 55 OG/CC) onto separate lines.

A8.1.5.3. Spell out numbers less than 10 unless used to designate a unit of time.

A8.1.5.4. Follow the guidelines in the AFH 33-337 for proper use of commas. Use will be consistent throughout document.

## Attachment 9

## GRADUATE EVALUATION REPORT (GER) FORMAT

**A9.1. Graduate Evaluation Report (GER).** This template illustrates the format for a GER. The OTD Team will follow the GER format in **Table A9.1**, and the writing guidelines in **Attachment 8**. **Note:** The report is only CUI when filled in.

**Table A9.1. Graduate Evaluation Report (GER) Template.**

**CUI** (When filled in)

MEMORANDUM FOR [insert the three-letter directorate and four-letter FAM]

Date

FROM: *(OTD Team Lead)*

SUBJECT: *(Syllabus Title)* Graduate Evaluation Report/(SCN: XX-XXXX)

PART I - GENERAL ANALYSIS

1. General. This report for *(syllabus title, date),* is prepared IAW ACCI 11-251, *ACC Formal Operations Training Development Program.* It covers the period of *(start date to end date) and* precedes the proposed *(weapon system and crew position, if applicable)* Syllabus Review Board scheduled for *(month and year).* The overall health of the training system is *(state health of the system, e.g., "satisfactory")* and *(state degree of changes, e.g., "minor")* syllabus changes *(are/are not)* required. Data was obtained using graduate evaluation surveys *(and list all as alternative collection methods and field visits, as applicable), (list number or "No")* accident investigation reports and *(list number or "No")* safety investigation reports were used during this period.

2. Participation Rates:

a. Number of graduates: #

b. Number of graduate surveys returned/distributed: ##/##

c. Graduate survey return rate: ##%

d. Number of supervisor surveys returned/distributed: ##/## (a supervisor may return a single survey if evaluating multiple students for the same position)

e. Supervisor survey return rate: ##%

Controlled by: USAF
Controlled by: [ACC TRSS Detachment or OTD Team]
CUI Category: BASIC
Limited Dissemination Control: FEDCON
POC: [OTD GEPM, DSN]

**CUI** (When filled in)

**Table A9.2. Graduate Evaluation Report (GER) Template (Continued).**

**CUI** (When filled in)

PART II - GRADUATE AND SUPERVISOR DATA

1. Graduate Data:

a. Data Analysis. The following is the graduate survey rating scale and the corresponding response breakdown based on (*XX %)* graduate surveys returned. Graduates rated task areas relative to the training they received. *(Explain instances where graduates did not use the rating matrix or marked items as "N/A.")*

**Graduate Survey Rating Scale**

| | |
|---|---|
| N/A | I do not perform duties in this area. Comments Desired. |
| 0 | **Marginal** – Little to no training occurred to perform required tasks; additional training is needed now. Comments Required. |
| 1 | **Limited** – Some training occurred to perform required tasks; revise the course to increase emphasis. Comments Desired. |
| 2 | **Sufficient** – I was sufficiently trained to perform the required tasks; no problems were noted. |
| 3 | **Ample** – More than enough training occurred to perform required tasks; revise the course to decrease emphasis. Comments Desired. |
| 4 | **Excessive** – Needless training occurred to perform required tasks; reduce or remove training altogether. Comments Required. |

**Graduate Survey Rating Breakdown**

(Enter number of responses under each score. Surveys must include an N/A option to account for individuals that do not perform all tasks listed on the survey. Compute % Dissatisfied (see **paragraph A8.1.2.3**)).

| Task Area | N/A | 0 | 1 | 2 | 3 | 4 | % Dissatisfied |
|---|---|---|---|---|---|---|---|
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

b. Pertinent Data Analysis. The following findings were collected from graduate surveys, validated, and directly correlated to the indicated portions of the course. (Summarize validated findings for each of the various training categories. If there are no findings for the training category, list the category followed by "None".)

**CUI** (When filled in)

**Table A9.3. Graduate Evaluation Report (GER) Template (Continued).**

**CUI** (When filled in)

1. Academic Training:
   - Finding(s):
   - Corrective action(s):
2. Part-Task/Performance/Device Training:
   - Finding(s):
   - Corrective action(s):
3. Full-Mission/Operator Mission/ Flying Training:
   - Finding(s):
   - Corrective action(s):

2. Supervisor Data:

a. Data Analysis. The following is the supervisor survey rating scale, and the corresponding response break down based on (XX%) supervisor surveys returned. This section list questions about how supervisors rated all mission task areas relative to training their graduates received. (Explain instances where supervisors did not use the rating matrix or marked items as "N/A.")

**Supervisor Survey Rating Scale**

| | |
|---|---|
| N/A | Graduate does not perform duties in this area. |
| 0 | **Marginal** – Little to no training occurred to perform required tasks; additional training needed now. Comments Required. |
| 1 | **Limited** – Some training occurred to perform required tasks; revise course to increase emphasis. Comments Desired. |
| 2 | **Sufficient** – Graduate was sufficiently trained to perform required tasks; no problems noted. Comments Optional. |
| 3 | **Ample** – More than enough training occurred to perform required tasks; revise course to decrease emphasis. Comments Desired. |
| 4 | **Excessive** – Needless training occurred to perform required tasks; reduce or remove training altogether. Comments Required. |

MEMORANDUM FOR [insert the three-letter directorate and four-letter FAM]

FROM: *(OTD Team Lead/CC)*

SUBJECT: *(Syllabus Title)* Graduate Evaluation Report /(SCN: XX-XXXX)

1. This Letter of No Report for *(syllabus title, date)*, is prepared IAW ACCI 11-251, *ACC Formal Operations Training Development Program*. It covers the period of *(start date to end date)*, and precedes the proposed *(weapon system, and crew position, if applicable)* Syllabus Review Board scheduled for *(month and year)*. *(Explain why there is no report, e.g., no classes were taught or there were no graduates to survey during this evaluation period.) (The following statement is optional: The overall health of the training system is (state health of system, e.g., "satisfactory") and (based on known factors, state degree of changes, e.g., "minor") syllabus changes are anticipated.)

2. Questions concerning this Letter of No Report can be addressed to *(OTD Graduate Evaluation Program Manager, rank and name, DSN XXX-XXXX).*

## Attachment 10

## GRADUATE EVALUATION REPORT (GER) RELEASE MESSAGE

**A10.1. Graduate Evaluation Release Message.** The release message is used to prepare the email to convey the GER to the FAM and their respective division. This template illustrates the format of a GER release message. The OTD team will develop the release message IAW **Table A10.1** and **Table A10.2** and the writing guidelines in **Attachment 8**.

**A10.2. Classification.** Release Messages will be marked "CUI" above the "MEMORANDUM FOR" line, in the page header and footer. Place the CUI designation indicator at the bottom right of the release message.

**A10.3. Graduate Evaluation Release Message Template.** All release messages will be prepared as official memorandum IAW AFMAN 33-326 and will be used to create the electronic email to convey the GER to the functional manager. **Note:** The evaluation is only CUI when filled in.

MEMORANDUM FOR [insert the three-letter directorate and four-letter FAM]

FROM: [ACC TRSS GEPM]
[Insert Address]
[Insert Address]

SUBJECT: *(Syllabus Title)* Graduate Evaluation Report/(SCN: XX-XXXX)

l. Attached is the graduate evaluation report (GER) for *(syllabus title, date)*, prepared IAW ACCI 11-251, *ACC Formal Operations Training Development Program*. This report is designed to help assess the overall quality of the evaluated training program, provide feedback in support of the next *(weapon system and crew position, if applicable)* SRB scheduled for *(day, month, and year)*. This report contains a summary of findings, and an analysis of all data gathered from questionnaires submitted by training program graduates and their supervisors *(and validation accomplished through (list all alternative methods and field visits used to gather graduate evaluation data, as applicable)*.

2. Specific Items of Interest: *(Brief synopsis of key graduate/supervisor comments)*

3. Questions concerning this GER can be addressed to *(OTD Team Lead, rank and name, DSN XXX-XXXX)* or OTD Graduation Evaluation Program POC, *(rank and name, DSN 574-XXXX).*

## FIELD VISIT REPORT

**A11.1. Field Visit Report.** This attachment describes how to develop a field visit after-action report.

**A11.2. Field Visit Report.** Table A11.1 depicts a sample field visit report. The areas in the report may require more/less/different information. Specific data contained in the table is presented for example only. **Note:** The report is only CUI when filled in.

**Table A11.1. Field Visit Report Template.**

**CUI** (When filled in)

MEMORANDUM FOR ACC TRSS/CC

FROM: (OTD Team Lead)

SUBJECT: Field Visit Report

1. Members of (OTD Team) conducted a field visit on (dates of visit) to the (applicable unit) for assessing recent graduates from the (title of course(s)).

2. (Summarize the field visit. Include names of OTD Team members and contacts at the visited unit(s), areas visited, personnel interviewed and performance results of recent graduates from the course. Also document what areas were found deficient and any recommendations for improvement.)

3. (Indicate the OTD Team POC and contact information.)
