Pages: 8

AFI 11-2C-130J V2, 22 November 2005, Incorporating Change 1, 10 August 2010, is supplemented as follows: It implements the 317th Operations Group (OG) policies on evaluation criteria, requirements, and profiles. It is applicable to all personnel assigned or attached to the 317 OG. Additionally, it adopts the 317 OG overprint for each crew position to AF Form 3862, *Aircrew Evaluation Worksheet*. Any deviations from these procedures are not authorized unless approved by the 317th Operations Group Commander (OG/CC) or the designated representative. Submit suggested improvements to this instruction through respective Squadron Standardization/Evaluations (CCV) to 317 OG Standardization/Evaluations (OGV).

The Privacy Act of 1974 applies to certain information gathered pursuant to this instruction. The Privacy Act System Number F011 AF XO A, Aviation Resource Management System (ARMS) covers required information. The Paperwork Reduction Act of 1974 as amended in 1996 affects this instruction. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFPD 37-1, *Information Management*, and AFMAN 37-123, *Management of Records*, and disposed of in accordance with the Air Force *Records Disposition Schedule (RDS)*, located at **https://www.my.af.mil/gcss-af61a/afrims/afrims/**.

1.8.3.1. **(317OG)** The baseline qualification (mission ready) for 317 OG aircrew is INSTM/QUAL/MSN to include airdrop and max-effort procedures for pilots, and QUAL/MSN to include airdrop and air-land procedures for loadmasters.

1.8.4. **(317OG)** Previously qualified instructors will requalify in the aircraft as basic or MSN aircrew members (as applicable) prior to beginning Requalification (RQ) to instructor. Previously qualified C-130J instructors will complete a re-qual evaluation (RQ INSTR). Instructors candidates previously qualified as an instructor in any other US Air Force aircraft will receive an evaluation and have it annotated as an "INIT INSTR" on the AF IMT Form 8, *Certificate of Aircrew Qualification*.

1.8.5.1. **(317OG) 317 OG EPE Program Requirements.** All 317 OG Emergency Procedures Evaluation (EPE) requirements and EPE guides are listed in the crew-specific 317 OG evaluator guides.

1.10.1. **(317OG)** In-flight evaluations will be administered using the crew position specific 317 OG evaluator guides. Evaluators will also use the 317 OG evaluator guides during the pre-brief, EPE, and debrief. Evaluator guides are available on the 317 OG OGV E-PUBS Folder, located at:
https://cs1.eis.af.mil/sites/aircrewpubs/ACPL/Local_Folders/Forms/AllItems.aspx?RootFolder=%2Fsites%2Faircrewpubs%2FACPL%2FLocal%5FFolders%2FLocal%5FKDYS%5FDyess%5F317&FolderCTID=0x01200036FBA2EA05156A418F439731FA9DFDDF&View={5C0A9775-B4AC-495D-9B63-3502A9A87C4F}

1.11. **(317OG)** IMT Form 3862, *Aircrew Evaluation Worksheet* 317 OG overprints (**Attachments 1 and 2**) are available on the 317 OG OGV E-PUBS Folder.

1.13. **(317OG) 317 OG C-130J Evaluation Profiles.** Evaluators will use the evaluation profiles listed in the crew position-specific 317 OG Evaluator Guides, but may be tailored to Squadron Commander (Sq/CC) specific profiles as applicable. The guides are available on the 317 OG OGV E-PUBS Folder.

2.5.1. **(317OG)** Prior MAF Aircraft Commanders are required to complete an Operational Mission Evaluation (OME) in order to gain MP qualification.

2.5.1.1. **(317OG)** For the OME, the pilot being evaluated may have the C-code ("acting in next higher qualification for evaluation purposes," as defined in AFI 11-401 AMC Supplement, *Aviation Management,* dated 18 June 2014). Additionally, an instructor is not required to be at the controls unless events requiring an instructor are being accomplished.

2.5.2. **(317OG)** The Aircraft Commander (AC) candidate is required to complete one of the following three OME profiles. The OME will include a takeoff, approach, and landing to a full stop at an airfield outside the local area. Profile 1 will be accomplished to the maximum extent possible.

2.5.2.1. **(317OG) Profile 1.** Off-station Remain Overnight (RON). The evaluation will be planned to RON away from home station and may be conducted on an operational or training mission.

2.5.2.2. **(317OG) Profile 2.** Out and Back with no RON. If an off-station RON mission is not feasible, then the OME may be conducted on a Joint Airborne/Air Transportability Trainer (JA/ATT) or similar out and back mission. This option requires SQ/CC approval.

2.5.2.3. **(317OG) Profile 3.** Local Mission with no RON. If an off-station RON or Out and Back mission is not feasible, the OME may be conducted locally. This option requires 317 OG/CC approval and should be used only as a last resort. The takeoff, approach, and landing must be at an airfield other than KDYS or KABI.

DAVID L. OWENS, Colonel, USAF
Commander

Figure A3.1. Loadmaster IMT Form 3862 317 OG/OGV Overprint, Pages 4 of 4 and 1 of 4

(QUAL/MSN) This evaluation was administered in the Dyess AFB local area and _____. The examinee accomplished all required preflight inspections, aircraft/airdrop preparations, loaded, rigged and performed all in-flight duties for the aerial delivery of a Heavy equipment platform weighing _____ pounds, and/or a single CDS container weighing _____ pounds. The examinee was primary for the entire mission.

(INIT INSTR) Areas evaluated were Instructor ability, Instructor demonstration, Student briefing/critique, and knowledge of training forms. The examinee instructed _____and_____.

DISCREPANCIES:

1. Ground

2. Flight

3. EPE

RECOMMENDED ADDITIONAL TRAINING:
