Pages: 11

This instruction implements AFPD 32-70, *Environmental Quality*, establishes procedures and responsibilities for controlling ORVs, prescribes ORV operating conditions, ensures natural/cultural resources protection, establishes a safety and accident prevention program, and minimizes use conflicts. This instruction applies to all military units, Air National Guard, personnel assigned or attached to Eielson AFB, civilian employees, military dependents, and all other individuals while on Eielson AFB land. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFMAN 33-363, *Management of Records*, and disposed of in accordance with Air Force Web-RIMS *Records Disposition Schedule (RDS)* located at **https://www.my.af.mil/afrims/afrims/afrims/rims.cfm**. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through the appropriate functional chain of command. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

SUMMARY OF CHANGES

This publication has been substantially revised. Some of the major areas of changes are: Section 2 removed the requirement for base registration of all-terrain vehicles (ATVs). Section 3 added the requirement for all ORV operators to possess the ATV Safety Institute (ASI) card. Paragraph 4.1 added that operators of privately owned or rented ORV will attend appropriate off-road

performance-based safety training for on-installation operation. Section 8 is updated to reflect changed street names.

1. Responsibilities:

1.1. Civil Engineer. Responsible for maintaining the ORV hands-on training site near Spruce Lake. Prescribes ORV operating conditions protective of natural/cultural resources and minimizes use conflicts. Maintains appropriate signs and barricades to delineate and protect trails and special-use areas, monitors ORV impacts, and modifies this instruction when warranted.

1.2. Security Forces. Provides policy enforcement through patrols and handles violations in accordance with military directives.

1.3. Wing Safety. Implements and monitors ORV safety education and accident prevention program for two-wheeled vehicles, ATVs, utility vehicles (UTVs) and snowmobiles. Issues the ASI card to personnel who successfully complete the ATV course. Issues the AF Form 483, Competency Card, to individuals who successfully complete the training for two-wheeled vehicle, UTV and snowmobile operations.

1.4. All Personnel. Report any infractions to this policy or unsafe behavior to Security Forces.

2. Registration. Current registration with any state is required for all privately-owned ORVs prior to operation on base. If required, display the state registration decal as outlined by state law. An ORV is considered operational if parked next to a housing unit or work place, and must therefore be registered with any state.

3. Operator License and Age Requirements. To operate an ORV, all personnel must have either the ASI card to operate an ATV, or an AF Form 483 Competency Card to operate a UTV, dirt bike or snowmobile. Operators must carry these cards with them at all times while operating an ORV on base.

4. Safety Education Program:

4.1. All operators of privately-owned ORVs or those rented from 354 FSS Outdoor Recreation will attend appropriate off-road performance-based safety training for on-installation operation. An AF IMT 483, Certificate of Competency, is required for snowmobile, UTV, and dirt bike operation on Eielson.

5. Liability Insurance. All ORVs must be insured per AFI 32-7064, *Integrated Natural Resources Management*, paragraph 10.3.1.

6. Mandatory ORV Equipment. All ORVs operating on Eielson AFB will have working brakes, headlights, and taillights. All ORVs will have a factory installed exhaust system (or equivalent) in good working order for constant operation. Excessive noise, pollutants, or muffler cutout, bypass or similar devices are not allowed.

7. Safety Requirements. The following are applicable to all ORVs operated on Eielson AFB land:

7.1. The manufacturer's designed seating capacity will not be exceeded.

7.2. A rigid tow bar is required to tow passengers in a sled, trailer, cart, inner tube, toboggan, etc.

7.3. All ORV racing and competition events are prohibited on base except as authorized by the 354th Mission Support Group Commander. Requests to have races or competition events will be submitted to the 354th Mission Support Group Commander through the Natural/Cultural Resources office and Wing Safety.

7.4. Protective helmets meeting minimum DOT®™, Snell specifications are required for all persons riding or being towed by ORVs.

7.5. Eye protection (full-face shield, wrap around glasses or goggles) designed to meet or exceed American National Standards Institute Standard Z87.1, United Nations Economic Commission for Europe 22.05 is mandatory and will be properly worn.

7.6. Headlights and taillights must be turned on at all times when using an ORV.

7.7. Full-finger gloves (made of leather or other abrasion-resistant material), long-sleeved shirt or jacket, long pants, and over-the-ankle boots are mandatory for motorcycle, trail bike, and ATV operators. In addition, ATV operators should also wear knee pads, shin guards and padded full-fingered gloves.

8. Rules Governing Operation:

8.1. No one shall operate an ORV on Eielson AFB lands:

8.1.1. In a reckless or negligent manner, under the influence of alcohol or drugs, or in such a manner as to damage or destroy government or private property.

8.1.2. In excess of established speed limits (posted speed limits or those established by this instruction).

8.1.3. Beyond existing trails, right-of-ways, or approved ORV usage areas.

8.1.4. To chase, disturb, or in any manner cause disruption of normal wildlife activities.

8.2. Persons under 16 years of age must be under the direct supervision of their parent or legal guardian. Direct supervision is riding the same ORV if the seating capacity is not exceeded or another ORV within 100 feet of the youth.

8.3. Non-street legal ORVs will be transported on a trailer through the main gate.

8.4. Operating non-street legal ORVs on any maintained paved or gravel roads or parking areas is prohibited. The following exceptions apply:

8.4.1. During snowmobile season, snowmobiles and ATV use is allowed on the shoulders of the following roads: Manchu Trail east of the French Creek Bridge, Ski Lodge Road, Quarry Road east from the intersection of Mullins Pit Road, and roads west of the Richardson Highway. Road use is allowed on the Trans-Alaska pipeline up to the base boundary and the military pipeline. Obeying posted speed limits and operating on the road's extreme right-hand side is mandatory. Attachment 3 illustrates the usage areas.

8.4.2. During snowmobile closed season, operators of privately-owned ATVs and trail bikes must take the most direct access route to get to usage areas. Attachment 2

illustrates the summer usage areas. Operators using the ATV and trail bike access routes to get to use areas will possess an ASI Card or a base certificate of competency. Housing occupants cannot operate west or south of Arctic Avenue unless to get fuel from the base service station. All dorm residents will exit the dorm resident ATV storage lot onto Wabash Avenue, proceed east on Wabash Avenue to Central Avenue, cross Central Avenue to McKinley Street, travel east on McKinley Street to Arctic Avenue, go north on Arctic Avenue to Transmitter Road. Operation on Transmitter Road between Arctic Avenue and Central Avenue is prohibited. ATV and trail bikes are prohibited from operating on Quarry Road west of Mullins Pit Road and west of Wildlife Way. ATV and trail bike operations are limited to the extreme right-hand side of these streets. The speed limit on these roads is 15 mph. When crossing a bridge or culvert on a road not permitted for ATV or trail bike use, the speed limit is restricted to maintaining forward motion, roughly 5 mph.

8.4.3. ORVs can operate within the military and the Trans-Alaska pipelines right-of-away. A Right-of-way Use Guideline (RUG) card from Alyeska Pipeline Service Company is required to access the Trans-Alaska pipeline. Possession of the RUG card and an ATV Safety Institute Card are mandatory while riding on the Trans-Alaska pipeline.

8.5. ORVs must operate off the drivable road surface except on those roads authorized for ORV use.

8.6. ORV use is prohibited in or adjacent to areas where training is being conducted, children are playing, or heavy equipment is operating.

8.7. ORVs will not be driven to and from duty sections or places of employment.

8.8. Firearms or other hunting instruments can be carried on any ORV. ORV operators will comply with 354 FWI 32-7001, *Conservation and Management of Natural Resources,* concerning the discharge and use of firearms on Eielson AFB. Firearms will be in plain view and unloaded when being carried on an ORV to or from authorized hunting areas. It is prohibited to leave firearms unattended or unsecured.

8.9. Crossing streams with ORVs where no bridge, culvert, or designated crossing exists is prohibited, except when the ground and stream are frozen enough to support ORV and operator.

8.10. Snowmobile use is prohibited until there is adequate snow cover to prevent damage to underlying terrain. The 354th Mission Support Group Commander determines the beginning and end of the snowmobile season on Eielson AFB.

8.11. Completely steel-tired or tracked, medium or heavy ORVs will not be operated on base.

8.12. No licensed privately owned vehicles are allowed off-road on Eielson AFB.

9. Closed Areas. The following areas are closed to all ORV use: (See maps on Attachments 2-3 or go to Natural Resources Office, Bldg. 2215)

9.1. Airfield.

9.2. Firing range and impact area.

9.3. Asbestos landfill, soil remediation area, and fire training area.

9.4. Quarry Road and Engineer Hill Munitions Storage areas.

9.5. Explosive Ordinance Disposal controlled area and the hazardous cargo route to potential explosion sites.

9.6. Ski slope and sledding hill next to ski lodge.

9.7. Fuel storage tank farms.

9.8. Sewage lagoon and treatment area.

9.9. Par course trail, picnic area, and self-guided nature trail.

9.10. Arctic survival training area and command post.

9.11. Cross-country ski area bounded by the ski slope, the east and south boundaries of Eielson AFB, and Quarry Road, as well as 160 acres in the Yukon Maneuver Area granted for use to Eielson by United States Army Alaska.

9.12. Area bounded by Central Avenue, Transmitter Road, Garrison Slough, north base boundary, and Old Richardson Highway is closed to ORV use. This area includes the main gate and Alaska railroad tracks north of Transmitter Road.

9.13. Archery practice and field ranges and trap/skeet range.

9.14. When snowmobile season is closed, ORV operation is prohibited on the dike surrounding Moose Lake and French Creek subdivisions, Bear Lake, Scout Lake wildlife management areas, on paved bike trails and all grassed areas within the cantonment area, Mullins Pit, and Cathers Lake. ORV use is prohibited surrounding Mullins Pit and Cathers Lake areas when construction equipment is operating.

9.15. The forested buffer zone around Manchu Ponds.

9.16. School grounds to include the high school football field and track.

9.17. When there is no snow cover on the ground, the Chena Campground area is closed to the operation of ATVs. ORVs may only be used to access campsites from the roads within the Chena River Campground.

9.18. Detachment 460 Air Force Technical Application Center (Det 460), Remote Operating Facility. ATV use within Det 460 area to include Beaver Creek Road is prohibited.

9.19. "C" Battery off Johnson Road in the Yukon Maneuver Area.

9.20. Birch Lake recreation area.

9.21. In the base cantonment area, ORVs will not operate or park on grass areas, sidewalks, lawn areas, and athletic fields except during snowmobile season.

9.22. During the closed snowmobile season, ORVs are prohibited from operating in wetlands.

10. Designated Use Areas. ORV operation is authorized only at designated areas or trails as outlined in attachments 2 and 3. Additional maps are available at Natural Resources, building 2215.

10.1. **Two-Wheeled ORVs:**

10.1.1. The use of motorcycles and motor scooters is prohibited on Eielson AFB except on maintained roads to access designated-use areas (areas not listed in paragraph 9).

10.1.2. The use of trail bikes is prohibited on Eielson AFB except in designated-use areas (areas not listed in paragraph 9) and on designated access routes, paragraph 8.4.2.

10.1.3. When there is snow cover on the ground, two-wheeled ORV use is prohibited.

10.2. **Four-Wheeled ORVs:** Privately owned ATV use is prohibited except on designated access routes (paragraphs 8.4.1. and 8.4.2.) and in designated-use areas (see attachment 2). ATVs can operate on the base streets listed in paragraph 8.4. to get to the usage areas. If gas is needed, the ORV operator will take the most direct route to and from the gas station. During snowmobile season, ATVs may use snowmobile trails across the frozen, snow-covered lawns to get to the use areas.

10.3. **Snowmobiles:**

10.3.1. Snowmobile use is prohibited except on specific access routes, paragraph 8.4.1., in designated-use areas (areas not listed in paragraph 9).

10.3.2. Operation in the base cantonment area:

10.3.2.1. Base cantonment operations are limited to the most direct route necessary to reach designated use areas. The base cantonment area is the transit zone to the designated usage areas only, not a designated use area.

10.3.2.2. Operation on streets or parking areas is limited to crossing perpendicular to traffic flow. Snowmobiles will yield the right-of-way to vehicles and pedestrians at all times.

10.3.2.3. The cantonment speed limit for snowmobiles is restricted to maintaining forward motion, roughly 5 mph. Operators will take the most direct route to designated-use areas and maintain a 100-feet building separation. When 100-feet separation is not possible, transit the buildings at an equal distance.

10.3.3. Snowmobilers meeting all the requirements for on-base operation can only enter/exit Eielson AFB using A Battery Road or the Trans-Alaska pipeline off Transmitter Road.

11. Public Access. The public can obtain base ORV privileges, subject to safety, property security, mission requirements, and all restrictions and rules stated in this instruction.

12. Parking and Storage. ATV storage next to base family housing year round is permissible. All dormitory residents will store their ATVs and snowmobiles in the storage lot located off Wabash Avenue, northwest of building 2275, throughout the year. During summer months, housing resident ATVs are to be parked in an orderly fashion in a parking space, garage, or patio. No ATV parking on seeded areas is allowed from April through October. During the snowmobile season, ORV parking on frozen, snow-covered lawns adjacent to assigned quarters is allowed. Snowmobiles are not year-round vehicles; summer storage in either assigned garages or the recreational vehicle storage lot is mandatory.

13. Exceptions:

13.1. Government-owned or leased ORVs used for official duties may operate in closed areas and on closed roads. Operation is restricted to official duties only. When time allows, permission shall be obtained from the proper custodian of the closed, off-limits, or controlled area. The operator is liable for any damage to natural/cultural resources and must comply with the base ORV safety prevention program.

13.2. Government-owned ORVs will have an Air Force vehicle registration number or marked as follows:

13.2.1. Either USAF or the organizational name will be stenciled or attached using a metal plate to both sides of the snowmobile cowling, gas tank, or below the handlebars on an ATV.

13.2.2. The lettering must be at least 1 3/4 inches in height and contrast with the color of the vehicle.

13.3. Direct written requests to operate personal ORVs in closed areas to Natural/Cultural Resources. A request will contain a reason and length of entry, type, color, and year of ORV, and ORV license and registration number. Natural/Cultural Resources will coordinate the request with the proper authorities. Both Natural/Cultural Resources and the property custodian will approve the request before it can be granted. Natural/Cultural Resources will forward an approved request copy to the Security Forces.

14. Violations:

14.1. Instruction violations include: Violating state and base ORV registration requirements, operator license, age requirements, mandatory equipment requirements, safety requirements, rules governing ORV operation, trespassing in closed areas, or ATV and snowmobile parking and storage rules.

MICHAEL P WINKLER, Colonel, USAF
Commander

Abbreviations and Acronyms:

ASI—All Terrain Vehicles Safety Institute

ATV—All Terrain Vehicles

Det460 AFTAC—Detachment 460 Air Force Technical Application Center

EOD—Explosive Ordnance Disposal

OPR—Office of Primary Responsibility

ORV—Off-road Vehicles

POL—Petroleum, Oils, and Lubricants

RDS—Records Disposition Schedule

RUG—Right-of-way Use Guideline

USARAK—United States Army Alaska

UTV—Utility Vehicles

Terms

All-Terrain Vehicle (ATV)— Tracked vehicles, low-pressure/flotation-type tired vehicles, amphibious machines including airboats, and air cushion vehicles primarily designed for recreational purposes. This includes all brands of three or four wheelers.

Medium Weight ATV— Argo, Big Mac, Coot, Cushman Trackster, Eagle, Pac-Trac, Playcat, Raidtrac 718, Ranger Ferret, Sidewinder, etc.

Heavy Weight ATV— Bombardiers, Kid, Nodwell, Raidtrac 1800, Sno Cats, Surplus Military Track Vehicles, Thiokol, Weasel, SUSV, and so on.

Off-Road Vehicle (ORV)— Includes all ATVs, trail bikes (non-street legal motorcycles), UTVs or snowmobiles.

Snowmobile— Any vehicle propelled by mechanical power, steered using skis, and designed to travel over ice and snow.

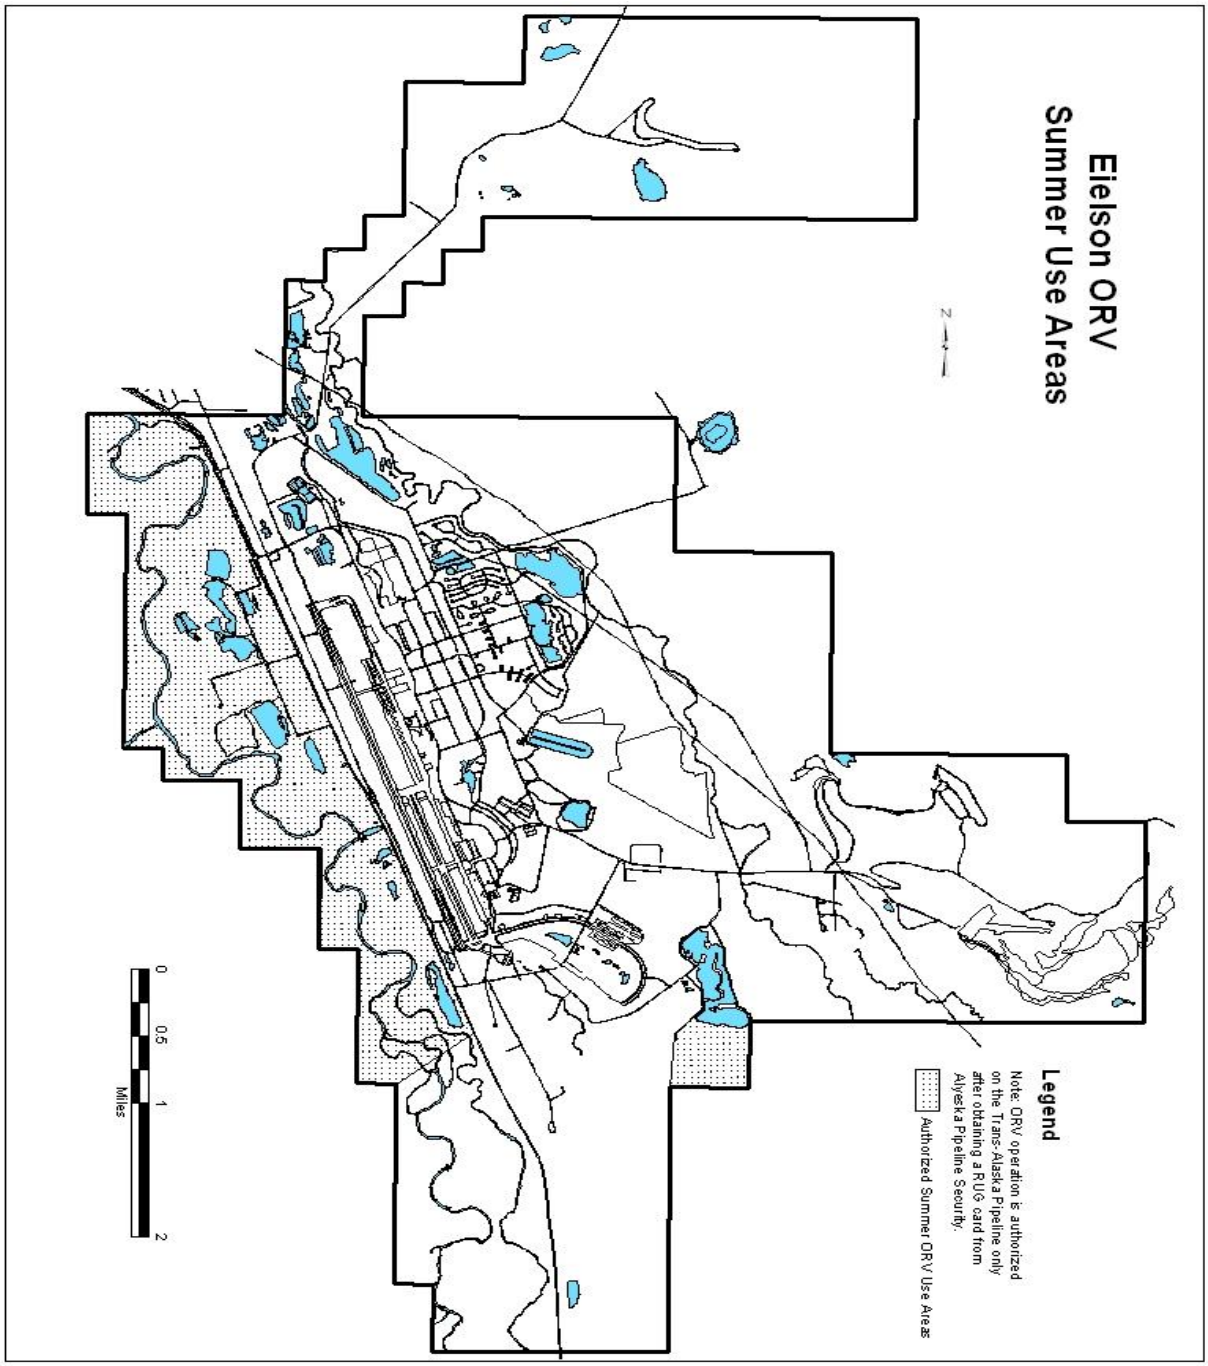

Trail Bike— A two-wheeled ORV not meeting the requirements for on-street operations, e.g., motor cross motorcycle, dirt, or mini bike.

Utility All—Terrain Vehicle (UTV) - A small two-six person, four-wheel drive off-road vehicle, e.g., side-by-side ORVs, Polaris RZR, Polaris Ranger.
