Pages: 29

This instruction implements Department of the Air Force Policy Directive (DAFPD) 10-2, Readiness, and describes procedures used by Yokota Air Base (AB) to implement pyramid recalls. This instruction applies to all agencies assigned to the 374 AW and partner units. This instruction requires collecting and maintaining information protected by the Privacy Act of 1974 authorized by 10 U.S.C. 8013, Secretary of the Air Force and E.O. 9397 (SSN). System of records notice F033 AF C Locator, Registration and Postal Directory Files (May 9, 2003, 68 FR 24944) applies. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) AFI 33-322, Records Management and Information Governance Program, and disposed of IAW the Air Force Records Disposition Schedule (RDS) located at: **www.e-publishing.af.mil**. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the DAF Form 847, Recommendation for Change of Publication; route 847 Forms from the field through the appropriate functional chain of command.

SUMMARY OF CHANGES

This document has been revised and must be reviewed. Major changes include: Updated general information; changed Group Subject Matter Experts (Group SMEs) to Unit Command Centers (UCCs); authorized cellphones and text/instant messaging for covert and overt recalls; made 374 Comptroller Commander primary for WSA recall. Updated CAT Recall procedures, IAW Yokota ABI 10-203, *Yokota Air Base Command and Control Operations,* to clarified role of CAT Director and updated CAT activation to reflect geographically separated UCCs. Removed term Group

Control Centers (GCCs) and replaced with (UCCs), as GCC is no longer defined in DAFI 10-2501, Emergency Management Program.

Attachment 5—PYRAMID RECALL PROCEDURE BASELINE 28

Attachment 6—EXAMPLE ON-CALL / STANDBY LETTER 29

1. General Procedures and Terminology.

1.1. The purpose of a base-wide recall, or mass notification process, is to provide timely notification and/or information to all Wing and Partner (Tenant) units and/or to recall personnel to duty. This is accomplished using the Pyramid Recall System (PRS). The type of information passed using these procedures includes, but is not limited to: establishing accountability, disseminating critical information, inform members of threats to the installation, host-nation/US emergency, natural disaster, severe weather alerts, changes in Defense Readiness Condition (DEFCON)/Force Protection Condition (FPCON)/Typhoon Conditions (TCCOR), major accidents; or other time-sensitive information requiring broad dissemination.

1.2. **The primary means of base-wide recalls/notifications is the Pyramid Recall System.** Enhanced notification tools such as AtHoc are mass messaging systems and are tools to augment the Pyramid Recall System. These tools will not replace Pyramid Recalls. If a member receives an AtHoc or other type of mass notification message, do not assume other people have been notified. Proceed with Pyramid Recall procedures. It is each member's responsibility to ensure the next person in the chain has been notified.

1.2.1. **Pyramid Recall System (PRS).** Groups, unit/squadrons, and partner organizations are responsible for developing and maintaining a plan to contact all assigned unit personnel; as well as providing a method to be contacted by the 374 AW/CP during duty and non-duty hours.

1.2.2. **Pyramid Recall Roster (PRR).** 374 AW Units will develop and maintain current Pyramid Recall Rosters to facilitate immediate recall of personnel, both overtly and covertly, regardless if electronic communications are available.

1.2.2.1. Prepare and maintain **pyramid recall rosters** using the sample in **Attachment 4**, **Figure A4.1**., **Figure A4.2**., **Figure A4.3**, and the following guidelines:

1.2.2.2. PRRs must contain, as a minimum: current as of date, a header which identifies the organization, the recall roster monitor's name, duty position and office phone number, the unit members' name, grade, residence address, residence telephone number, cell phone number (if applicable), a Privacy Act statement, the statement "Controlled Unclassified Information" (CUI), Personnel Accounting System (PAS) code for the unit (**Note:** if members under different PAS codes are on your unit's roster, include their PAS code in the section with the member's name), and have the information contained in **Figure A4.2** as the last page of the PRR (see **Attachment 4**). PRRs must also identify personnel housing locations next to the address element using the following abbreviations in parentheses: dorms (D), East housing (E), South housing (S), North housing (N), off-base housing (O), and West housing (W). Units are authorized to add additional information as needed. Recall rosters will be submitted to the Command Post Org box (**374.aw.cp@us.af.mil**) by the 1st of each month.

1.2.2.3. PRRs will also include the DSN telephone numbers for the unit's primary and alternate UCC members. Emergency telephone numbers are also highly encouraged. See **Figure A4.1** for more guidance.

1.2.2.4. It is mandatory for all rosters to have the current AFPAAS website and phone number which are annotated in DAFI 36-3802, *Force support Readiness Programs*.

1.2.2.5. It is mandatory for all rosters to have Personnel Accounting System (PAS) codes to account for and report by individual unit IAW DAFPD 36-38, *Force Support Readiness*.

1.2.2.6. It is mandatory to have **Figure A4.2** as the last page of all PRRs. This figure is maintained by the 374 AW/CP.

1.2.2.7. Unit Commanders are responsible for their unit's ability to successfully execute a unit recall and should periodically test their recall procedures. Wing exercise recalls can be included as a component of this routine testing. If the capability exists, units may coordinate with the appropriate UCC to initiate a notification utilizing an enterprise notification system (AtHoc, etc.) for their group or squadron, as necessary.

1.3. The term "partner unit" refers to all tenant military and civilian organizations located on or assigned to Yokota AB that are not under the 374 Airlift Wing.

1.4. The 374 Airlift Wing Commander (374 AW/CC) or designated representative is the authority for ordering base wide recall/notification procedures. The 374 Airlift Wing Command Post (374 AW/CP) will initiate all base-wide notifications/recalls. Flexibility exists to accommodate varying levels of personnel recalled. Partner units' inclusion in recalls will be at the discretion of the 374 AW/CC or designated representative.

1.5. **Overt Recall Procedures:** Use all means available to recall personnel to include use of Giant Voice, telephones/cellphones, text/instant messaging, radios, speaker-equipped vehicles, mass notification systems such as AtHoc, etc.

1.6. **Covert Recall Procedures:** Use only telephones/cellphones, text/instant messaging, encrypted radio, or personal contact to recall base personnel. Do not use Giant Voice, unencrypted radios, mass notification systems such as AtHoc, speaker equipped vehicles, etc.

1.7. **Comm-in:** The primary method to notify personnel is by telephone/cellphone. If an individual cannot be reached within two hours after recall start time, the unit should send a runner to the member's residence. If unable to contact the next individual on the roster within 5 minutes, contact the individual/individuals below that person in the PRR. The names of all individuals *not* contacted should be passed to your Commander/UCC as soon as possible.

1.8. **Comm-out.**

1.8.1. Comm-out Recalls. Under comm-out conditions, there may not be the ability to initiate a voice recall, or the nature of the threat requires a higher level of security. During comm-out recalls, the primary method to initiate a recall is by dispatching pre-assigned runners during duty and non-duty hours to the Base Defense Operations Center (BDOC).

1.8.1.1. The 374 AW/CC or designated representative will inform the 374 AW/CP that he/she wishes to initiate a comm-out recall. Alternatively, the 374 AW/CP will dispatch a runner to the BDOC to send a patrolman to the 374 AW/CC to inform him/her of a situation that may require a recall. The BDOC in turn will dispatch patrolmen to the 374 AW/CC/CV and/or 374 AW Group Commanders or Deputies quarters and/or office.

1.8.1.2. BDOC will dispatch patrolmen to the CAT Director and/or EOC Director if the 374 AW/CC activates the CAT and/or EOC. Recall message to Group Commanders will include direction for units to send runners to the CAT to receive further 374 AW instructions (Yokota Command Directives). The control center structure will be established using runners in place of fax, email, and telephone systems.

1.9. Unit Control Centers (UCC). UCCs represent the Group Commander's (or Group Commander equivalent) command and control center and are located within their unit. They are the conduit for information passed to, or received, from their respective squadrons/units. The UCC's also contact and take accountability for select partner units, when required.

1.9.1. UCCs establish communication with the CAT when the CAT is activated. They provide the means for squadron/unit commanders to pass and receive information to/from Senior Leadership and the CAT Staff.

2. Responsibilities.

2.1. 374 AW/CC or designated representative:

2.1.1. Will direct the 374 AW/CP to initiate all recalls for Yokota AB.

2.1.2. Will direct CPO or legal, when necessary, to determine whether civilians and/or contractors should be notified/recalled.

2.1.3. Direct Crisis Action Team (CAT) and/or Emergency Operations Center (EOC) activation.

2.1.4. Permit UCCs to execute recall of their assigned group and unit personnel from other than CAT/Squadron facilities, if necessary.

2.1.5. Direct/authorize use of the INWS (Giant Voice, enterprise mass notification systems such as AtHoc, etc.) targeted to the entire base populace.

2.2. 374 AW Command Post (**374 AW/CP**) will:

2.2.1. Initiate recalls when directed by the 374 AW/CC or designated representative.

2.2.2. Immediately notify the d (IPR, 374 FSS/FSPI) office or stand-by personnel in the event of a recall.

2.2.3. Notify 374th SFS/BDOC in the event of a comm-out or covert recall.

2.2.4. When the CAT and/or the EOC is activated and the situation requires, the CAT and EOC Directors may request, through the AW/CC or designated representative, for a trained READY augmentee member to provide an armed presence at the CAT and EOC.

2.2.5. Notify 374 AW Group Commanders.

2.2.5.1. If the 374 AW/CP is unsuccessful contacting a commander, they will attempt to contact a deputy commander, then an executive officer before that commander will be considered notified by the CP. It is the responsibility of the notified member to contact his/her respective commander and UCC, if necessary.

2.2.6. Activate the INWS.

2.2.6.1. INWS includes the Giant Voice and enterprise mass notification systems such as AtHoc.

2.2.7. Obtain and file current recall rosters of all 374 AW, 5 AF, and partner units assigned or attached to Yokota AB, by working with Group/Squadron/Unit Pyramid Recall Roster Monitors. Recall rosters will be sent to the 374 AW/CP on the first duty day of each month.

2.2.8. Maintain procedures to initiate the PRS.

2.2.9. Execute command center activations and recalls of personnel and agencies when directed by the appropriate authority.

2.2.10. Initiate periodic tests of the PRS when directed. Tests will consist of telephonic contact of CAT/EOC members and/or selected units to determine their ability to perform control center activations and pyramid recall actions.

2.2.11. Initiate 5 AF recalls if directed by 5 AF/CC or delegated representative. This includes individual staff directorates as required if directed by 5 AF Chief of Staff or other delegated representative.

2.3. **374 AW/DS (Primary) and/or 374 CPTS/CC (Secondary)** will:

2.3.1. Ensure Wing Staff Agency (WSA) chiefs develop, maintain, and publish PRRs and comm-out procedures.

2.3.2. Contact WSA Chiefs during recalls.

2.3.3. Identify mission essential military personnel on the unit's recall roster.

2.3.4. Initiate pyramid recall of WSA assigned Active Duty, GS civilians, contractors, local national members, and their dependents, when directed.

2.3.5. Notify the WSA UCC during Level 2: CAT Admin or Level 3: Full CAT activation.

2.4. **374 AW Group Commanders** will:

2.4.1. Develop, maintain, and publish PRRs and comm-out procedures for their staffs.

2.4.2. Ensure subordinate commanders develop, maintain, and publish PRRs and comm-out procedures.

2.4.3. Identify mission essential military personnel on the unit's recall roster.

2.4.4. Identify mission-essential civilians needed to operate the base and its mission essential services and annotating these individuals on the unit's recall roster.

2.4.5. When directed, recall their groups to include Active Duty, GS civilians, contractors, local national members, and their dependents.

2.4.6. If not directed by 374 AW/CC or designated representative, determine whether civilian, contractor, assigned reserve personnel and shift workers will be notified/recalled.

2.4.7. For CAT activations, recall applicable agency representatives as required.

2.4.8. Ensure UCC personnel are appointed in writing and trained by 374 CE/CEX Emergency Management per DAFI 10-2501, *Emergency Management Program*.

2.4.8.1. Commanders will ensure that if the UCC member is unavailable, the secondary is ready and trained to assume UCC responsibilities.

2.4.9. Notify their respective UCC personnel during *Level 2: CAT Admin or Level 3: Full CAT activation*.

2.4.10. Initiate internal (Group Only) recalls as necessary.

2.4.10.1. If the capability exists, the Group Commander may utilize enterprise mass notification systems (such as AtHoc, etc.) to accomplish an internal group recall.

2.4.11. If issued, Commanders will always carry a government issued duty cell phone. If not issued a duty cell phone, Commanders will ensure they are able to be contacted during off-duty hours or ensure a good hand-off with their deputy.

2.5. **Unit Commanders** will:

2.5.1. Develop, maintain, and publish PRRs and comm-out procedures for their organization and staffs.

2.5.2. Identify mission essential military personnel on the unit's recall roster.

2.5.3. Identify mission essential civilians needed to operate their mission essential functions and include these individuals on the unit's recall roster.

2.5.4. When directed, recall their groups to include Active Duty, GS civilians, contractors, local national members and dependents, as required.

2.5.5. If not directed by declaring authority, determine whether civilian, contractor, assigned reserve personnel and shift workers will be notified/recalled.

2.5.6. Recall applicable UCC personnel as required and during *Level 2: CAT Admin or Level 3: Full CAT activation* or UCC activation for EOC support.

2.5.7. Ensure a UCC is established and manned with appropriately trained and qualified personnel.

2.5.8. Initiate internal (Squadron/Unit Only) recalls as necessary.

2.5.8.1. If the capability exists, the Squadron/Unit Commander may utilize enterprise mass notification systems (such as AtHoc, etc.) to accomplish an internal Squadron/Unit recall.

2.5.9. Inform the 374 AW/CP if you will be unable to perform duties due to absence or other circumstances and ensure the 374 AW/CP has the name and 24-hour contact information of who will be acting on your behalf (Deputy, etc.).

2.5.10. If issued, Commanders will carry a government issued duty cell phone at all times. If not issued a duty cell phone, Commanders will ensure they are able to be contacted during off-duty hours or ensure a good hand-off with their deputy.

2.6. **374 AW Force Support Squadron (374 FSS/Director**) will:

2.6.1. IPR:

2.6.1.1. Will be manned within 1 hour of recall start time (RST) to compile the Wing's recall data.

2.6.1.2. Report Wing recall status/accountability to the 374 AW/CC every hour through the Crisis Action Team (CAT) or through the 374 AW/CP if the CAT is not activated.

2.7. **374 AW Security Forces Squadron (374 SFS)** will:

2.7.1. Dispatch patrols to notify key senior leadership to enable a comm-out recall, if necessary.

2.7.2. When directed by 374 AW/CC or designated representative dispatch a trained READY augmentee member to provide an armed presence at the CAT and/or EOC. The READY augmentee will report to the Command Post and will receive a temporary visitors badge and special security instructions prior to assuming entry control duties.

2.8. **Unit Control Centers (UCCs)** will:

2.8.1. Ensure unit pyramid notification/recall procedures are executable when communications are inoperable or impaired. Work with Commanders to ensure comm-out procedures are as efficient as possible and personnel are familiar with the procedures.

2.8.2. Establish communications with their respective UCCs as soon as possible.

2.8.3. Establish contact with their respective list of partner units for accountability purposes (**Attachment 3**).

2.8.4. Ensure strength reporting procedures are established and consistent with each subordinate squadron and partner unit.

2.8.5. Notify IPR of group recall percentage via C2IMERA, when directed, or at DSN 225-8519/9518 or via email at NIPR: **374FSS.FSPI.IPR@US.AF.MIL** or SIPR: **USAF.YOKOTA.374-AW.LIST.374-AW-IDRC@MAIL.SMIL.MIL**.

2.8.5.1. Report recall status at **RST+1** and continue to report every hour until the entire group and/or assigned partner units have attained 100% accountability, if required/applicable.

3. Recall Types/Options.

3.1. Recall Overview. The recall process is initiated by the 374 AW/CP when directed by the 374 AW/CC or designated representative. The 374 AW/CC or designated representative will determine which recall to initiate depending on the situation, or as directed by higher headquarters.

3.1.1. The R-hour is the reference time determined by the 374 AW/CC to initiate a recall/notification. The Q-hour is the time that mobility operations will start in preparation for a deployment and will be determined by the 374 AW/CC or HHQs (if applicable). Since accountability reports are due based upon the R-hour, this time will be relayed to members of the CAT/UCCs (if activated). Q-hour should be relayed for mobility recalls if known/determined at the time of the recall.

3.1.2. When directed by the 374 AW/CC, the 374 AW/CP will contact the 374 AW/CV, 374 AW/CCC, 374 AW/DS, 374 AW/XP, and Group Commanders. If directed, the CP will also contact the 515 AMOG/CC, who will in turn, contact the 730 AMS/CC.

3.1.3. The Group Commanders initiate their organization's PRS. Tenant unit commanders will initiate their unit's PRS.

3.1.4. The 374 AW/DS (Primary) or 374 CPTS/CC (Secondary) will notify Wing Staff Agency Chiefs.

3.2. **General Recall.** Units and agencies initiate pyramid recall *advising members to report to units/workstations*. Units do not contact aircrew members in pre-departure crew rest and air traffic controllers in crew rest unless specifically directed in the recall message. This option does not require CAT/EOC activation.

3.3. **Mobility Recall.** This is used for the *pre*-deployment of forces. Accomplish all steps for a General Recall and consider "Full Activation" CAT directed by 374 AW/CC. Additionally, all mobility work centers will activate (Deployment Reception Control Center (DRCC)/Processing line). After contacting their UCCs, personnel will report to their mobility work centers as applicable.

3.4. **Accountability Recall:** This is used for *Pyramid Recall Monitor/*UCCs to initiate their pyramid recall procedures. Personnel will not report to their duty sections, unless *directed* by their chain of command. Units do not contact aircrew members in pre-departure crew rest and air traffic controllers in crew rest unless specifically directed in the recall message. UCCs will contact their assigned Partner Units (see **Attachment 3**) and have them initiate their PRS, if required. UCCs will be responsible for tracking accountability status for their units and assigned partner units. Each unit will report to the UCC on an hourly basis the percentage of members contacted until 100% completion, as specified in **paragraph 4.3.4** and **Attachment 2.**

3.4.1. The IPR office in coordination with the 374 AW/CP will be the focal point to collect/monitor recall information and make applicable reports to the 374 AW/CC. See Paragraph 3.3.4 and **Attachment 2.**

3.5. **Information Recall.**

3.5.1. **Announcement.** The information recall is used if the 374 AW/CC or designated representative only wants to push a message without a feedback loop. Examples include: base lockdown, shelter-in-place, or other situation where the CAT cannot physically convene. This could also be used for important announcements such as facility closures due to forecast inclement weather, etc. The 374 AW/CC or designated representative determines if the CAT Executive Staff is necessary to push information, or if mass notification methods can be used instead.

3.5.1.1. Shelter-In-Place. The purpose of this notification is to protect the base population from fire, explosive hazards, falling objects, and inhalation hazards. The 374 AW/CC will direct the 374 AW/CP to send out Installation Notification and Warning System (INWS) messages, to include Giant Voice and other mass notification systems (AtHoc, etc.). An Accountability Recall is recommended following "All Clear."

3.5.1.1.1. Personnel will execute Shelter-In-Place procedures IAW YAB Plan 10-2, *Yokota AB Installation Emergency Management Plan*.

3.5.1.2. Lockdown. This is used when an Active Shooter or violent incident takes place or the threat of a violent event exists, which requires all personnel to take quick action to save lives. An Accountability Recall is recommended following "All Clear."

3.5.1.2.1. Any unit initiating lockdown procedures in reaction to an Active Shooter will notify the BDOC immediately.

3.5.1.2.2. Refer to your unit's lockdown procedures, in addition to YAB Plan 10-2 and *Airman's Manual* for individual Lockdown/Active Shooter actions.

3.5.2. **Inquiry.** This will be used when the Wing Commander desires an acknowledgement from each unit in the Wing/Base, confirming receipt of the message. Command Post initiates the Pyramid Recall. Group Pyramid Recall Monitors or UCC's will report responses to CP or IPR as directed.

3.5.2.1. UCCs *are* responsible for maintaining 24-hour POC contact information *with partner units*.

3.6. **Crisis Action Team (CAT) Activation:** Follow CAT activation guidance in Yokota ABI 10-203. The 374 AW/CC or designated representative is the authority to activate the CAT. The 374 AW/CC will specify CAT activation level and set a time for first call in if desired. Any caveats or changes to the above will be specified in the recall message. This option can be stand-alone or combined with another recall option but should be initiated first.

3.6.1. Use the following verbiage during all activations:

3.6.1.1. "**This is the Yokota Command Post. The** (374 AW/CC or designated authority) **has directed a** (Senior Staff/CAT Admin/Full CAT) ***Activation***. (If required) *Senior Staff report to (374 AW/CC directed location) at X Local Time.* (*IF FULL CAT)* **R-hour is** (Local Time). (*Additional information i.e., interrupt crew rest, exclude partner units, MLCs etc."*

3.6.2. Full CAT Activation initiates an accountability recall that does not interrupt crew rest but requires partner units to be notified.

3.6.2.1. Do not notify Partner Units of CAT Activation during a Beverly Morning exercise unless they are designated exercise participants.

3.7. **Emergency Operations Center (EOC) Recall:** Follow EOC Activation guidance in YAB Plan 10-2. Generally, the EOC will be activated in response to an emergency, usually after the Incident Commander (IC) determines that the emergency can no longer be handled unless the EOC is activated. This option can be stand alone or combined with another recall option.

3.7.1. Use the following verbiage during all activations:

3.7.1.1. "**This is the Yokota Command Post. The** (374 AW/CC or designated authority) **has directed an** (EOC) ***Activation***. (If required) **R-hour is** (Local Time)."

3.7.2. EOC Director will most likely require UCC activation. Use the following verbiage:

3.7.2.1. "**This is the Yokota Command Post. The** (374 AW/CC or designated authority) **has directed UCC *Activation in support of EOC operations***. (If required) **R-hour is** (Local Time)."

3.8. **Threat Working Group (TWG) Recall:** This recall assembles members of the Wing Commander's Threat Working Group. The 374 AW/CC, designated representative, or the Wing Anti-Terrorism Officer (ATO) can initiate a TWG in the event of a perceived threat of enemy attack. The 374 AW/CP will contact the Wing Anti-Terrorism Officer, and in turn, he or she is responsible for contacting the members of the Threat Working Group.

3.9. **Telephone Standby.** Personnel placed on telephone standby will remain in the immediate vicinity (i.e., within hearing distance) of their telephone or carry a cellphone while awaiting further instructions. They will be available for immediate recall and will report for duty at their regularly scheduled time unless otherwise directed.

3.10. **Additional Recall Information.** These options allow the 374 AW/CC or designated representative the ability to further tailor or augment recall options to the particular situation requiring the recall. These should be included in plain language at the end of a recall message.

3.10.1. Option 1 Directs Commanders to disregard crew rest for aircrew and air traffic controllers.

3.10.2. Option 2 Eliminates the need to recall non-mission essential civilian personnel (e.g., exercises, PRS test).

3.10.3. Option 3 Directs personnel to report to their unit carrying their chemical gear and IPE (bagged).

3.11. For pyramid recalls and tests of the pyramid notification system, civilians will be contacted as directed by the declaring authority but will not be placed on standby or recalled to duty without explicit direction of the wing, group or partner unit commander.

3.12. During a recall to duty, crew/shift workers should follow their current duty schedule and remain on telephone standby unless otherwise directed.

4. Pyramid Recall System Execution.

4.1. Pyramid Recall System Execution. The 374 AW/CC or designated representative will direct the 374 AW/CP to initiate the recall. The recall notification may add additional measures commensurate with the situation.

4.1.1. In the event of a natural disaster, Higher Headquarters directed, and/or national emergency recall, IPR will also send out an AFPAAS recall. This AFPAAS recall can be sent in conjunction with Pyramid Recall procedures. IPR will notify CP prior to sending out an AFPAAS recall.

4.2. The 374 AW/CP will contact the 374 AW/CV, 374AW/CCC, 374 AW Group Commanders, 374 AW/XP, 374 AW/DS, and tenant unit commanders (if required).

4.2.1. The 374 AW Group Commanders and tenant unit commanders will then contact their respective executive staff and Squadron Commanders. Squadron Commanders will, in turn, contact their unit's members in accordance with their Pyramid Recall System.

4.2.2. The 374 AW/CP will contact any tenant units which do not fall under the responsibility of 374 AW Group Commanders; but which are still administratively associated with Yokota AB due to MOU, MOA, etc.

4.2.3. The 374 AW/DS (Primary) or 374 CPTS/CC (Secondary) will contact the WSA Chiefs and wing front office personnel.

4.3. To facilitate effective communications when the CAT/EOC is activated or partner unit notifications/accountability must be maintained and tracked, the 374 AW uses the UCC system.

4.3.1. Each group will have individuals identified to serve as their respective UCC, who reports to their respective Group Commander. Wing Staff Agencies (WSA) will have a UCC responsible to the 374 AW/DS (Primary) or 374 CPTS/CC (Secondary).

4.3.2. Each squadron (or unit/agency) within those groups will ensure all UCC responsibilities are fulfilled. The exceptions are the 374th Medical Group (374 MDG) which will only operate one UCC due to its size and nature of operation.

4.3.3. Final authority to deactivate the specific UCC remains with the Wing Commander or designated representative.

4.3.4. UCCs will report and track personnel strength and accountability as directed by the 374 AW/CC by utilizing C2IMERA, Excel, SharePoint, voice report, or other means as directed. See **Attachment 2** for required information to update the recall tracker. Personnel strength reporting begins at R-Hour plus 1 and continues every hour thereafter until all units have attained 100% personnel accountability. The 374 AW/CC's goal is 100% contact of all accountable personnel by R-hour plus 3. The IPR office, in coordination with the 374 AW/CP, will be the focal point to collect/monitor recall information and make applicable reports to the 374 AW/CC. IPR will forward AFPAAS recall status reports to Higher Headquarters, when directed by Higher Headquarters guidance and as requested by 374 AW/CC. If IPR is directed to track recall status, all UCCs will collect the data for their respective units and input information into C2IMERA, if directed, or forward the information to them at DSN 225-8519/9518 or via email at NIPR: **374FSS.FSPI.IPR@US.AF.MIL** or SIPR: **USAF.YOKOTA.374-AW.LIST.374-AW-IDRC@MAIL.SMIL.MIL**. **NOTE:** Personnel in crew rest will be considered accounted for, unless directed to be recalled.

4.3.4.1. UCCs will establish accountability procedures for dependents when their sponsor is TDY or on leave if required (natural emergencies, regional accountabilities etc.).

4.4. Use the following verbiage during all recalls: "**This is the Yokota Command Post. The** (374 AW/CC or designated authority) **has directed a** (XXXX) **recall. R-hour is** (if required) *(Add any additional information or instructions as given by the 374 AW/CC or designated representative in plain language)*."

4.4.1. The 374 AW/CC has the option to pass additional information at the end of the verbiage if deemed necessary. In order to ensure the message is relayed as accurately as possible, it is highly encouraged that members write down the notification message and relay it word-for-word.

4.4.2. If directed by the 374 AW/CC or designated representative, the 374 AW/CP will begin recall/information announcements on the Giant Voice System at appropriate intervals until the CAT or wing leadership determines the wing has reached a mission-capable status.

5. Recall Roster Maintenance/Responsibilities.

5.1. **Group Commanders** will:

5.1.1. Appoint a primary and alternate Pyramid Recall Monitor (PRM). PRM members should be the same members that make up their respective UCCs. PRMs will:

5.1.1.1. Maintain copies of all Squadron recall rosters. Provide recall rosters to the 374 AW/CP and their responsible UCC on the first duty day of each month. Even if there are no changes, send the recall roster with the new month's date.

5.1.1.2. Maintain up to date 24-hour point of contact information for the partner units that their UCC is responsible for during recalls/notifications (IAW **Attachment 3**). Provide a copy to the 374 AW/CP on the first duty day of each month.

5.1.1.3. Prepare and maintain pyramid recall rosters (IAW **Attachment 4**).

5.1.1.4. Develop and maintain comm-out recall procedures and maps. These maps will include the building and/or room number of all members' residences/dorms in their PRR. Units will maintain detailed maps of all members who reside off base to include written driving directions from one of the gates.

5.1.1.5. Assign runners who are familiar with the comm-out routes.

5.2. **Each Squadron/Unit Commander (to include Partner Units)** will:

5.2.1. Appoint a primary and alternate Pyramid Recall Monitor (PRM). PRM members should be the same members that make up their respective UCCs. PRMs will:

5.2.1.1. Maintain copies of all Squadron Recall Rosters. Provide recall rosters to the 374 AW/CP and their responsible UCC on the first duty day of each month. Even if there are no changes, send the recall roster with the new month's date.

5.2.1.2. Develop and maintain comm-out recall procedures and maps. These maps will include the building and/or room number of all members' residences/dorms in their PRR. Units will maintain detailed maps of all members who reside off-base to include written driving directions from one of the gates.

5.2.1.3. Assign runners who are familiar with the comm-out routes.

5.2.1.4. Ensure the Squadron/Unit Commander (or equivalent) is able to be reached at any time due to events that may happen outside of duty hours. If this person is on leave/TDY, they will inform the 374 AW/CP who the acting Commander is to ensure positive communication during a recall.

5.3. **5 AF Command Center** (374 AW/CP) will coordinate with 5 AF Chief of Staff (5 AF/CoS) to:

5.3.1. Provide the 374 AW/CP (which also acts as the 5 AF Command Center) accurate and up to date recall rosters for the various A-Staff personnel, to include 24-hour contact information by the first duty day of each month.

5.3.2. Assist the 374 AW/CP with maintaining accurate Key Personnel information for 5 AF/CC, 5 AF/CV, 5 AF/CCC and executive officers/aide-de-camps.

5.4. **All military and civilian personnel will:**

5.4.1. Inform their unit PRR monitor and immediate supervisor of address and/or telephone number changes, to include providing a new or updated map to their quarters as soon as the change occurs.

5.4.2. Individuals residing off-base will provide the PRR monitor and supervisor or person responsible for contacting them, a detailed map of the area in which they reside using well known streets or land marks as a guide. Each map will include written instructions from one of the gates to the individual's quarters.

5.4.3. Dispose of obsolete rosters in such a manner as to prevent the unauthorized release of personal information (shredding, burning etc.).

5.4.4. Be responsible for updating AtHoc data.

5.5. The **374 AW/CP** will:

5.5.1. File current recall rosters of all 374 AW, 5 AF, and partner units assigned or attached to Yokota AB, provided by the unit's PRR monitor.

5.5.1.1. The 374 AW/CP will track unit's compliance in updating & maintaining their recall rosters in accordance with the directives stated in this instruction. The 374 AW/CP will notify the IPR office, 374 AW/DS, 374 AW/CC, 374 AW/CV, and 374 AW/CCC of all units not in compliance.

5.5.1.2. The 374 AW/CP will maintain up-to-date e-mail distribution lists for Partner Units and update IPR of any changes.

5.5.2. Maintain procedures to initiate the PRS.

5.5.3. Initiate periodic tests of the PRS when directed. Tests will consist of telephonic contact of CAT and/or EOC members and other selected units to determine their ability to perform control center activations and pyramid recall actions.

6. Key Personnel Status/On-Call Rosters/Aircrew Accountability.

6.1. PACAF, NAF, and Wing Commanders or their designated representative must be telephonically available within 15 minutes of the Air Force Service Watch Cell's (AFSWC) initial attempt (through the Pacific Command Center) to contact.

6.1.1. If 5 AF/USFJ CC/CD, or 374 AW CC/CV will be unavailable, they or their designated representative will inform the 374 AW/CP. The 374 AW/CP will maintain key leader location and availability for situational awareness.

6.2. The 374 AW/CP will maintain a key personnel list, to include duty and personal telephone contact information, as well as applicable executive officers and/or aide-de-camps, for the following:

6.2.1. 5 AF/CC, 5AF/CD, 5AF/CoS, USFJ/CC, USFJ/CD, 374 AW/CC, 374 AW/CV, All 374 AW Group Commanders and deputies, 21 SOS/CC, 21 SOS/DO, 515 AMOG/CC, 515 AMOG/CD, 730 AMS/CC, 730 AMS/DO and any other key personnel defined by the 374AW/CC.

6.2.2. The 374 AW/CP will work with the above offices/staffs to ensure changes in status are annotated and briefed.

6.3. All 374 AW Squadrons/Units will provide the 374 AW/CP with the name and contact information of their Commander, Deputy, Senior Enlisted Leader, and First Sergeant.

6.3.1. This information may be included/annotated on their monthly recall roster submission.

6.3.2. If a Commander will be unavailable (TDY, leave, deployment, etc.), they will inform the 374 AW/CP and provide contact information for their unit's designated representative during the time of absence.

6.3.3. All unit commanders/SELs will always carry an official or personal cell phone with them to facilitate timely message notification in the event of a recall or other emergency.

6.4. If unit guidance dictates, or units desire, they will provide the 374 AW/CP with an "on-call" or "standby" roster for non-duty hours notifications. Refer to **Attachment 6** for an example standby letter.

6.5. Aircrew Recall / Accountability.

6.5.1. 374 AW/OGV will ensure the 374 AW/CP has the most current Operations Supervisor phone listing. The flying squadrons will ensure the 374 AW/CP has the name and phone number of the duty/on-call Operations Supervisor if different from this listing.

6.5.2. Yokota AB Flying Squadrons will provide the 374 AW/CP a copy of crew orders for local training/O&M sorties or any sortie where the full crew is not entered into GDSS2. This will assist FCIF/TCTO information for off-station non-TWCF crews.

6.5.3. 374 AW/CP will maintain a list of transient aircrew lodging locations and applicable phone numbers, in case of an emergency requiring notification or if transient crew home-station emergencies require notification of personnel.

6.5.4. 374 AW/CP will coordinate with 374 FSS to develop notification procedures for transient personnel residing in the Kanto Lodge/billeting facilities.

7. Installation Notification & Warning System (INWS)/Mass Notifications.

7.1. The INWS consists of the Giant Voice system, and any enterprise mass notification system (such as AtHoc, etc.). These are tools that can be used to supplement and expedite recalls. They are not a replacement for the Pyramid Recall System or the chain of command.

7.2. This is the *Recall Instruction* for Yokota Air Base. For detailed information about Giant Voice messaging, sounds, testing, etc., refer to DAFI 10-2501, *Emergency Management Program*; YAB Plan 10-2, *Yokota AB Installation Emergency Management Plan*, and AFTTP 3-4, *Airman's Manual*.

7.3. The INWS is activated by the 374 AW/CP.

7.3.1. INWS notifications will only be made with permission from the 374 AW/CC, unless pre-coordinated conditions exist, per existing guidance.

7.4. Base-wide notifications via an INWS system will only be used for an actual emergency. Exercise and/or test announcements will be clearly labeled as such. If appropriate, the 374 AW/CP will coordinate with 374 AW/PA to announce a test message ahead of time.

7.4.1. The INWS will not be used for routine message traffic/notifications.

7.5. "AtHoc" INWS.

7.5.1. PACAF has designated "AtHoc" as the INWS that will augment mass notification capabilities. MAJCOM and Yokota Air Base guidance and policy letters are maintained by the 374 AW/CP.

7.5.2. The 374 AW/CP and the 374 Communications Squadron are the AtHoc Wing Installation Managers designated by the 374 AW/CC.

7.5.3. 374 AW/CP initiates AtHoc notifications per current MAJCOM and 374 AW/CC guidance.

7.5.4. Per PACAF Policy Letter, all military personnel will enter emergency notification information into the AtHoc Alerts white globe self-service module within 30 days of assignment to their unit. Civilians and contractors are highly encouraged (but not required) to enter their information into AtHoc.

ANDREW L. RODDAN, Colonel, USAF
Commander, 374th Airlift Wing

WSA—Wing Staff Agency

Attachment 2

RECALL STATUS REPORTS

A2.1. UCCs are responsible for reporting and monitoring personnel strength. These reports will include Personnel Accounting Symbol (PAS) codes and be routed to their respective UCCs. Personnel strength accounting begins at R-Hour plus 1 and continues every hour thereafter until all units have attained 100% personnel accountability.

A2.2. The wing goal for strength reporting is: R+3, 100% personnel accountability.

A2.3. UCCs will provide the following information for assigned military personnel per PAS code:

A2.3.1. Number of personnel authorized. (Based on Unit Manning Document [UMD].)

A2.3.2. Number of personnel assigned. (This figure will be based on the unit strength report.)

A2.3.3. Number of personnel on leave.

A2.3.4. Number of personnel TDY/deployed.

A2.3.5. Other. (e.g., hospital, confinement, etc.)

A2.3.6. Number of personnel available. (Subtract paragraphs **A2.3.3, A2.3.4, and A2.3.5** from **paragraph A2.3.2**.)

A2.3.7. Number of personnel present for duty. (Present for duty is defined as the individual either being at his or her duty section or having been contacted, briefed on the current situation and made aware of duty requirements.)

A2.3.8. Percentage recalled at present time. (Divide **paragraph A2.3.7**. by **paragraph A2.3.6** and multiply by 100.)

A2.4. If the recall reporting is executed via voice report, all UCCs will use the method outlined below.

Figure A2.1. Personnel Strength Voice Report Sample.

"This is (Unit) with a recall status report for (PAS Code). Report time is XXXX. Line 1 is 45…Line 2 is 44…, etc."	
1. Number of Personnel Authorized:	45
2. Number of Personnel Assigned:	44
3. Number of Personnel on Leave:	1
4. Number of Personnel on TDY:	2
5. Number of Personnel in Other Status (Hospital, Confinement, etc.):	1
6. Number of Personnel Available:	40
7. Number of Personnel Present for Duty:	21
8. Percent of Personnel Recalled at Present Time:	51%
With each report, provide the name, grade, and duty phone of the POC.	
NOTE: Report should not include what each "Line number" means/includes due to OPSEC	

A2.5. UCCs will contact members who are TDY, deployed, or on leave, only when directed by their respective commander.

A2.5.1. For individuals on TDY at a non-military installation or on leave, recall individuals by any means necessary (e.g., fax, telephone, e-mail, etc.) while maintaining OPSEC considerations, if required.

A2.5.2. Personnel recalled to duty while on leave will be authorized travel and transportation allowances authorized in Joint Federal Transportation Regulation (JFTR), Volume 1, Chapter 3, Table 3-20, line 9.

Attachment 3

PARTNER UNIT NOTIFICATION LIST (WHEN DIRECTED BY 374 AW/CC)

A3.1. UCCs are responsible for maintaining up to date 24-hour point of contact information for partner units. They will also provide a copy to the 374 AW/CP.

A3.2. Over time, partner units may change. Please refer to the 374 AW/CP for clarification. As of the publishing of this document, the list is maintained on the Yokota Command Post SharePoint site.

Table A3.1. The WSA UCC will notify the following partner units.

Unit	Duty Phone
5 AF Staff	225-6067/6068
USFJ Staff	223-6066
Defense Finance Accounting Service-Japan (DFAS-J)	225-9838/9840
Defense Energy Support Center-Japan	225-2673
Pacific Stars & Stripes	225-4505
PACOM ADP Server Site-Japan (PASS-J)	225-6593
Navy Federal Credit Union (CPTS)	1-888-842-6328
Community Bank (CPTS)	225-4252/8469
American Forces Network (AFN)	225-1567/5749

Table A3.2. The 374 OG UCC will notify the following partner units.

Unit	Duty Phone
Defense Information Systems Agency, Pacific Area (DISA-PAC)	225-5105
Department of Defense (DoD) Special Representative, Japan (DSRJ)	224-0500
US Coast Guard (USCG) Activities, Far East	225-6133
Air Force Standards Agency Detachment	225-1316
Detachment 402 - AFISRA	225-2491/6201

Table A3.3. The 374 MXG UCC will notify the following partner units.

Unit	Duty Phone
Det 934, Air Force Audit Agency (AFAA)	225-8575
Det OD7E (HQ USAF) Area Defense Counsel	225-8114/8119
Det 621 (AFOSI)	225-9881/7910
6th Field Investigation Sq (AFOSI)	225-4968/4820

Embry Riddle Aeronautical University (FSS)	225-9133

Table A3.5. The 374 MDG UCC will notify the following partner units.

Unit	Duty Phone
American Red Cross (ARC)	225-7522
Women-Infant & Children – Overseas (WIC-O)	225-9426
Defense Threat Reduction Agency (DTRA)	225-8638/8568
Education and Development Intervention Services (EDIS)	225-9993
Veterinary Clinic, US Army	225-2143

Table A3.6. The 730 AMS Unit Control Center will notify the following partner units.

Unit	Duty Phone
Navy Overseas Air Cargo Terminal (NOACT)	225-9514/9428
Army Aerial Port Liaison Office (AAPLO)	225-9524/8700

Attachment 4

PYRAMID RECALL ROSTER FORMAT EXAMPLE

Figure A4.1. Sample Unit/Agency Recall Roster.

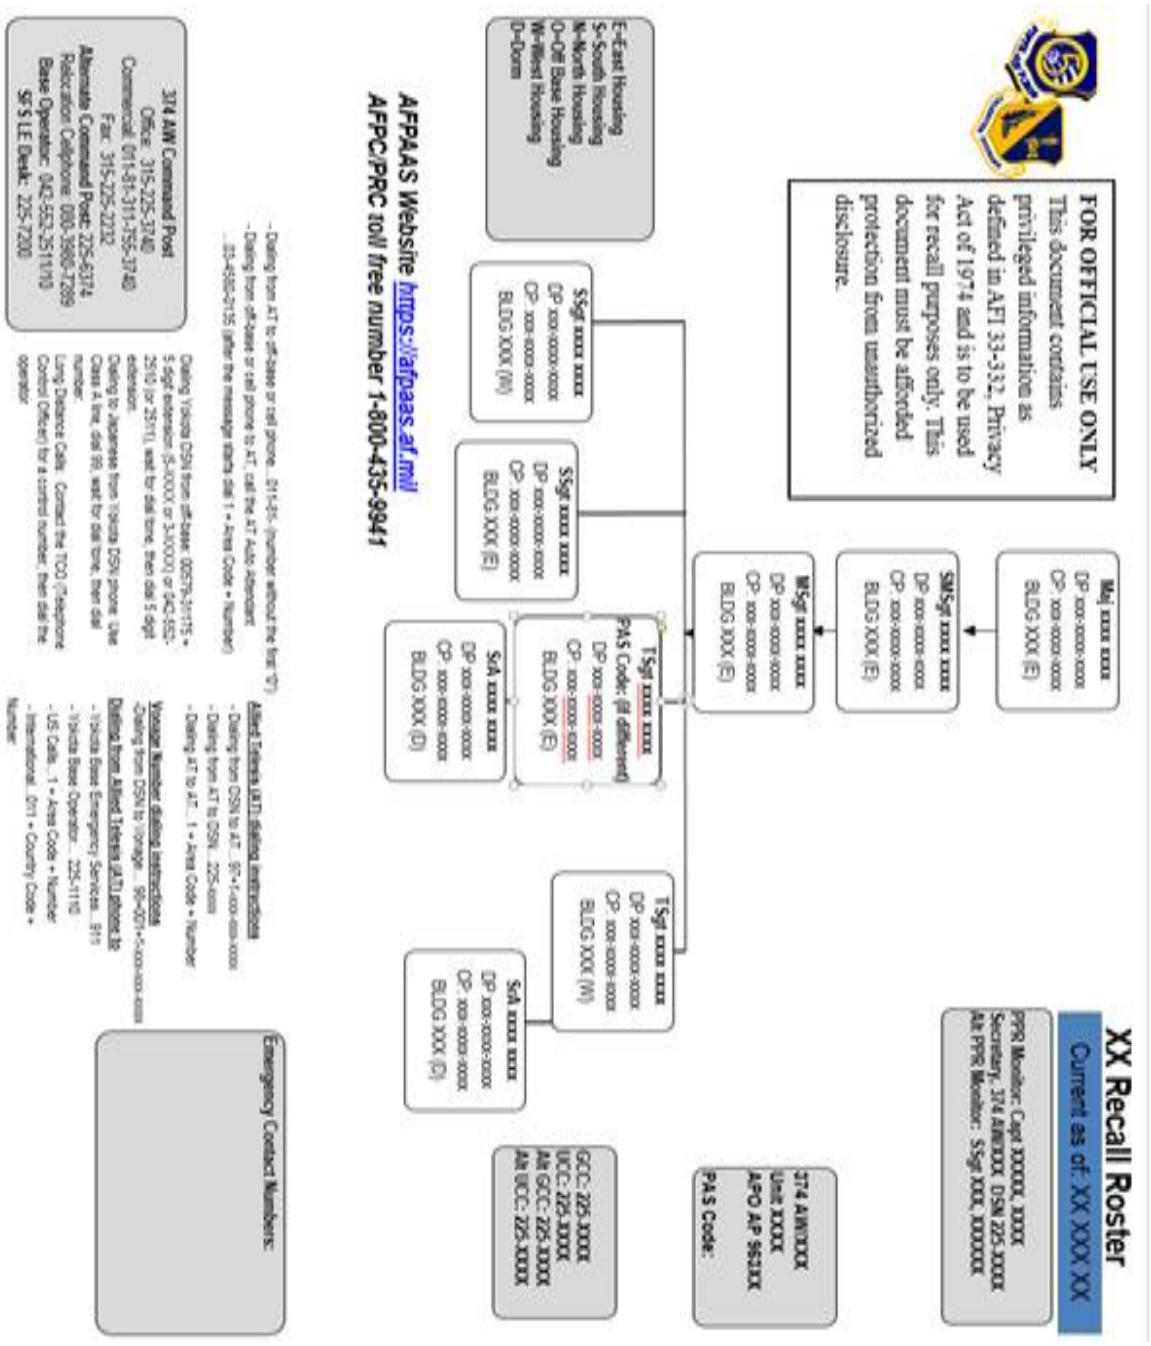

Figure A4.2. Notification Format.

FOR OFFICIAL USE ONLY

1. 374 AW/CC chooses type of recall

GENERAL RECALL

1. Units and agencies initiate pyramid recall procedures.
2. Do not contact aircrew/ATC in crew rest unless specified in the recall message (Option 1).
3. All personnel report to their duty station.
4. Squadron Commanders will activate their respective UCC.

MOBILITY RECALL

1. Accomplish all items for a General Recall.
2. Mobility work centers activate.
3. Mobility work center personnel contact their UCC then report for duty at applicable work center.

ACCOUNTABILITY RECALL

1. UCCs will report immediately to workstations, unless 374 AW/CC (or designated representative) states otherwise.
2. UCCs will contact assigned partner units, if required.
3. Units will initiate Pyramid Recall Procedures.
4. Do not contact aircrew/ATC in crew rest unless stated otherwise.
5. Log into AFPAAS (info on your recall roster) and confirm status, if applicable/available.

INFORMATION (Announcement)

SHELTER IN PLACE (used to protect personnel from hazards)

1. Execute your unit's procedures IAW YABI 10-2.
2. Listen for the "All Clear," expect Accountability Recall to follow.

LOCKDOWN (used to respond to security threat)

1. Execute your unit's procedures, and IAW YABI 10-2.
2. Listen for the "All Clear," expect Accountability Recall to follow.

INFORMATION (Inquiry) RECALL

1. Units and agencies initiate Pyramid Recall Procedures.
2. UCC activate (if partner units require notification).

CAT RECALL

Level 1 (Virtual/CAT Staff): The CAT Staff, select TWG members, and identified UCC's will virtually monitor the Non-classified Internet Protocol Router Network/Secured internet protocol router (NIPR/SIPR) approved chat platforms, NIPR C2IMERA, SIPR C2IMERA and other sources of communication from their primary duty location.

NOTES:

1. During an exercise, do not contact civilians for extended duty unless otherwise directed.

2. If next individual on Pyramid Recall Roster cannot be reached, make the next individual's notification on their behalf and inform the UCC.

3. The Installation Personnel Readiness (IPR) office will be the focal point to collect/monitor recall information and make applicable reports to the 374 AW/CC and/or Higher Headquarters, unless otherwise directed.

* 374 AW/CC will direct CAT staff level in recall message.

Level 2 (CAT CORE Team): The remaining TWG members and UCC's will also report in to complete the CAT CORE Team. CAT and UCC members will meet at their respective primary locations.

Level 3 (Senior Staff): The Commanders Senior Staff (O-6 level) to include 515 AMOG/CC and CPTS/CC will report to their primary UCC locations. Note: The UCC's will act as advisors to the Commanders Senior Staff.

Level 4 (Advisory Support Staff): Select members of the Advisory Support Staff will report to the primary CAT location. A member of the 730 AMS may also join the CAT, as required in primary CAT location.

Level 5 (Full Activation/UCCs): The remaining members of the Advisory Support Staff will report to the primary CAT location or designated UCC. (All Squadron UCCs activate and initiate recall procedures, stand by for C2 coordination from CAT through the UCCs).

EMERGENCY OPERATIONS CENTER (EOC) RECALL

1. EOC personnel report to primary/alternate location, as directed.

THREAT WORKING GROUP (TWG) RECALL

1. Initiated by 374 AW/CC or designated rep or Wing Anti-Terrorism Officer (ATO).

2. Assembles Wing CC's TWG.

TELEPHONE STANDBY

1. Remain within immediate vicinity of their phone, or carry cell phone while awaiting further instructions.

2. Be prepared to report immediately to appropriate work location.

2. 374 AW/CC adds option, if required.

Option 1 Directs Commanders to disregard crew rest for aircrew/ATC.

Option 2 Eliminates need to recall non-mission essential civilian personnel (i.e. exercises, PRS test).

Option 3 Directs personnel to report to their unit carrying their chemical gear and IPE (bagged).

Option 4 Places personnel in Telephone Standby.

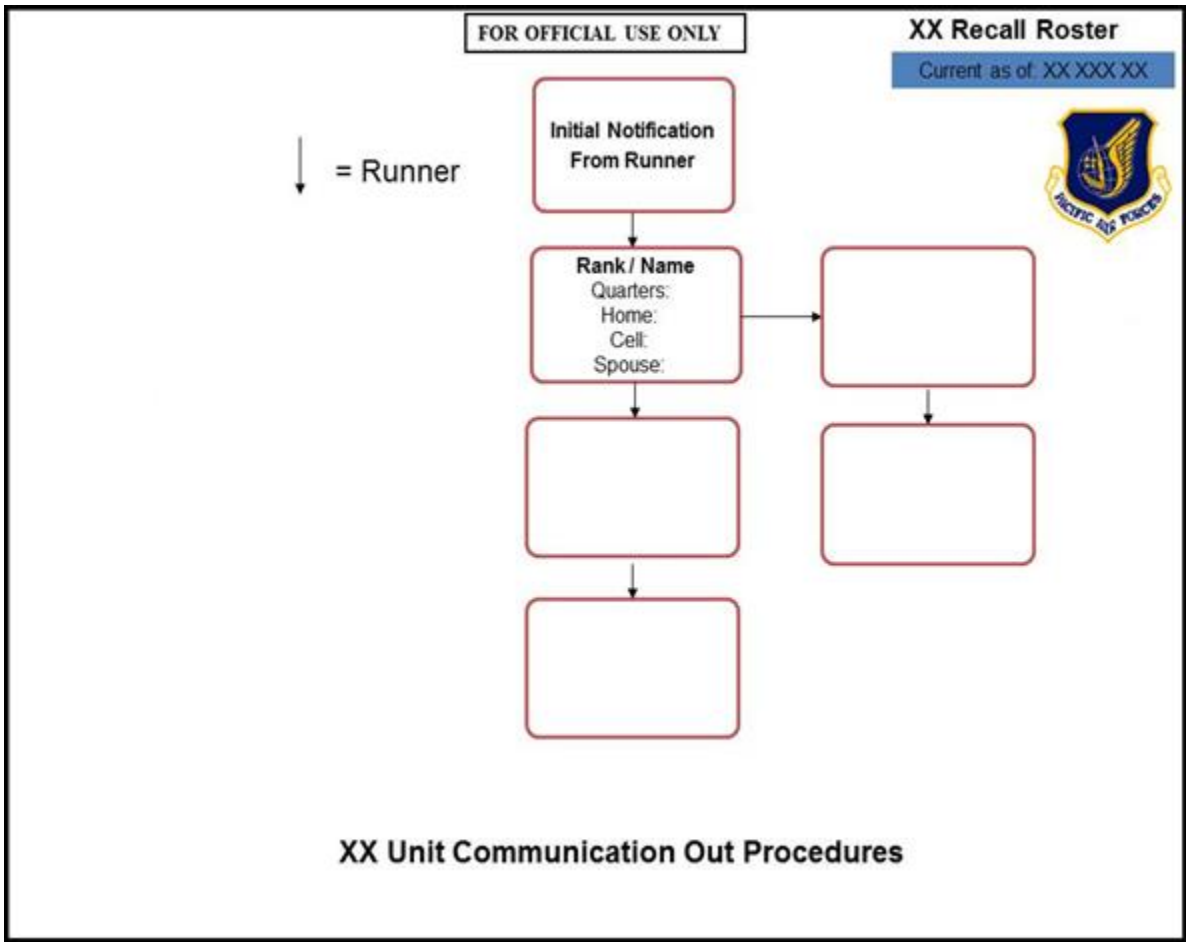

3. **Message Format**

"**This is the Yokota Command Post.** (XX) **recall is in effect. Option(s)** (1, 2, 3, etc.) **applies** (if required). **R-hour is** (if required). (Add any additional information or instructions as given by the 374 AW/CC or designated representative)." *CAT, TWG or EOC recall will be sent prior to accountability recall message when required.*

Senior Staff Members:

OG, MXG, MSG, MDG, WSA, 730/515, PA, JA, SE, EOC Director, IDO, Command Post, XP/CAT Director, AW/CV, AW/CC. Include OSS/OSW when natural disaster related.

Figure A4.3. Sample Comm-Out Recall Roster.

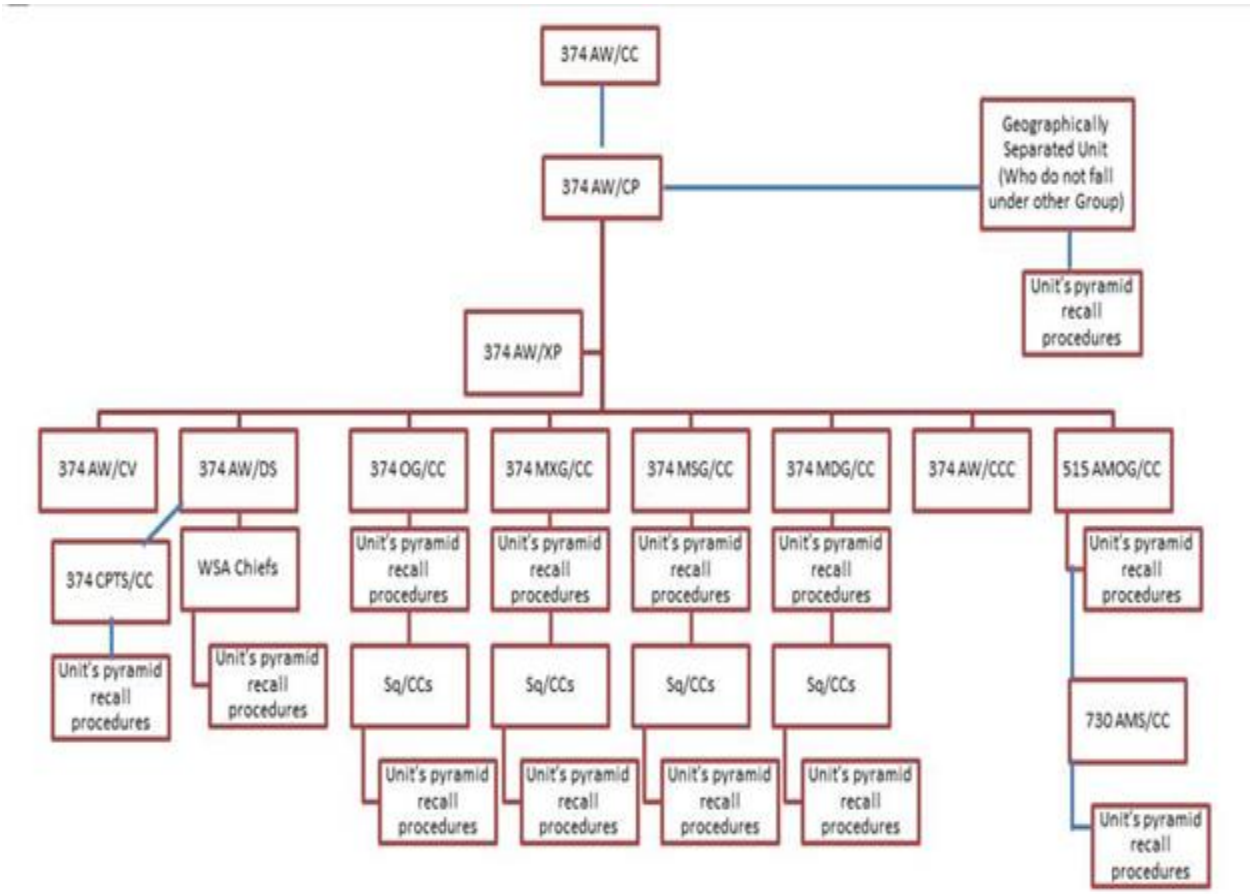

A4.1. Comm-out recall procedures will not always match comm-in Pyramid Recall System recall procedures. When designing comm-out procedures, consider who lives in which buildings and who lives off-installation. Consider this to ensure the most efficient path is being used.

Attachment 5

PYRAMID RECALL PROCEDURE BASELINE

A5.1. The following chart demonstrates the basic recall procedures. Additional notifications will be made in accordance with this instruction.

Figure A5.1. Recall Procedure Chart.

NOTEs

1. UCCs will be notified by their respective unit commander.

Attachment 6

EXAMPLE ON-CALL / STANDBY LETTER

A6.1. The following is only an example. Units may tailor their letter as needed.

Figure A6.1. Sample On-Call/Standby Letter.

"For Official Use Only"
DEPARTMENT OF THE AIR FORCE
PACIFIC AIR FORCES

DD Mon YYYY

MEMORANDUM FOR: 374 XXX/XX
374 XX/XXX

FROM: 374 XXX/XXXXX

SUBJECT: XXXXXX Stand -by Roster

1. The following personnel are assigned stand-by duties in the event of an emergency for XXXXXXXXXX after normal duty hours. Stand-by duties are performed (LIST DAY RANGE) (LIST TIME RANGE) and 24-hour coverage during weekends, holidays and down-days.

SPECIFIC DUTY	DATE ASSIGNED	SPECIFIC DUTY	DATE ASSIGNED
A1C XXXXX	16 Feb 16 – 23 Feb 16	SSgt XXXX	15 Mar 16 – 22 Mar16
SrA XXXX	23 Feb 16 – 01 Mar 16	SSgt XXXX	22 Mar 16 – 29 Mar 16
A1C XXXX	01 Mar 16 – 08 Mar 16	SrA XXXX	29 Mar 16 – 05 Apr16
A1C XXX	08 Mar 16 – 15 Mar 16	A1C XXXX	05 Apr 16 – 12 Apr 16

2. The 374 AW Command Post will notify stand-by personnel by calling cell number XXX-XXXX-XXXX. In the event the stand-by person cannot be contacted within 30 minutes, please notify the individuals in the following order:

RANK/NAME:	PHONE
TSgt XXXX	XXX-XXXX-XXXX
MSgt XXXX	XXX-XXXX-XXXX

3. This letter supersedes the previous Stand-by Roster. If you have any questions please call MSgt XXXX at 225- XXXX.

XXXX X. XXX, Capt, USAF
Chief, XXXX XXX
