Supersedes: YOKOTAABI31-116, 2 May 2024

Pages: 51

This instruction establishes responsibilities and procedures for motor vehicle operations and traffic supervision at Yokota Air Base (YAB) and the Tama Hills Recreational Area. The rules outlined herein apply to all U.S. Forces personnel (including active duty, reserve, DoW civilians), their dependents in Japan, visitors, U.S. Official Contractors and their employees under Article XIV of the Status of Forces Agreement (SOFA), other civilians who are employed by, serving with, or accompanying U.S. Forces in Japan under Article I(b) of the SOFA, MLA, IHA, JSDF, U.S. military retirees, and United Nations Command, Rear (UNC(R)) personnel assigned to or visiting U.S. Forces, Japan (USFJ) facilities. This instruction is implemented in accordance with, but is not limited to, Air Force Instruction DAFMAN 31-103v1, *Law Enforcement Operations*; DAFI 31-218, *Motor Vehicle Traffic Supervision*; and USFJI 31-205, *Motor Vehicle Operations and Traffic Supervision*. This publication requires the collection and maintenance of information protected by the Privacy Act (PA) of 1974. The authority to collect and maintain the records prescribed is Title 10, U.S. Code, Section 8013. The primary form used is 374 AW Form 50, *Application for Operator's Permit*. All affected forms contain an appropriate PA statement. The applicable System of Record Notices (SORNs) are F031 AF SP L, Traffic Accident and Violation Reports, and F031 AF SP K, Vehicle Administration Records. All records created as a result of the processes prescribed in this publication will be maintained IAW AFI 33-322, *Records Management and Information Governance Program*, and disposed of according to the Air Force Records Disposition Schedule (RDS) located on the Air Force Portal. To recommend a change to this publication, submit an AF Form 847, Recommendation for Change of Publication, through the appropriate functional chain of command to the Office of Primary Responsibility (OPR).

SUMMARY OF CHANGES

This publication has been substantially revised and must be reviewed in its entirety. Major updates include revised traffic points in **Table 5.1** and changes throughout the publication to align with USFJI 31-205 and DAFI 31-218. Deleted prescribed forms: 374 AW Forms 1, 7, 11, 12, 18, 48, and 56.

Chapter 1

INTRODUCTION

1.1. Program Purpose and Authority. This instruction establishes policy, assigns responsibilities, and outlines procedures for motor vehicle traffic supervision on Yokota Air Base (YAB). It is implemented in accordance with (IAW) United States Forces Japan (USFJ) Instruction 31-205, *Motor Vehicle Operations and Traffic Supervision*, and the Yokota Base Defense Plan (BDP). As YAB is a "closed" installation, all personnel must adhere to its stringent entry control requirements.

1.2. Governing Directives. The provisions of this instruction are governed by and must remain in compliance with the following primary directives:

1.2.1. AFMAN 31-116, *Air Force Motor Vehicle Traffic Supervision*.

1.2.2. DAFI 31-218, *Motor Vehicle Traffic Supervision*.

1.2.3. USFJI 31-205, *Motor Vehicle Operations and Traffic Supervision*.

1.2.4. 32 U.S. Code of Federal Regulations, Part 634.

1.3. Delegation of Authority.

1.3.1. *Wing Traffic Review Officer (WTRO)*: On YAB, the duties of the WTRO are delegated to the 374 MSG/CD (Deputy Commander). The 374 MSG/CD acts as the Installation Commander’s representative to identify high-risk drivers, authorize preliminary suspension or revocation letters, and serve as the final approval authority for all restricted driving requests. In the WTRO's absence, these duties are performed by the 374 MSG/DD (Deputy Director).

1.3.2. *Visitor Control*: All visitor entry requirements (e.g., physical escort or denial of access) will be strictly enforced as outlined in the Yokota BDP. 374 AW Form 68EJ (Visitor Pass) will be administered by the 374 SFS Pass and Registration office to authorized personnel IAW the Yokota BDP.

Chapter 2

DRIVING PRIVILEGES

2.1. Requirements for Driving Privileges. A "driving privilege" is the authority granted by the 374 AW/CC to operate a motor vehicle on YAB and throughout Japan, conferred via a USFJ Form 4EJ or OF 346. Acceptance of this privilege requires all personnel (military, DoW civilians, contractors, and family members) to comply with Japanese laws and all applicable regulations. To ensure compliance, operators must always keep the following items in their privately owned vehicle:

2.1.1. *Military Vehicle Title*: Certificate of Title of Motor Vehicle.

2.1.2. *USFJ Form 4EJ*: U.S. Forces Operator's Permit with the appropriate vehicle being operated.

2.1.3. *Identification*: DoD Identification Card.

2.1.4. *Japanese Insurance and Title*: Proof of current Japan Compulsory Insurance (JCI) and the Japanese vehicle title. The term JCI throughout this plan refers to these two items.

2.1.5. *Liability Insurance*: Proof of liability insurance meeting USFJI 31-205 requirements.

2.1.6. *Vehicle Registration Decal*: A current and properly affixed USFJ Form 15A (for 4-wheel vehicles) or 15B (for 2-wheel vehicles). Expired decals must be removed.

2.1.7. *Japanese Registration/Tax*: A valid Japanese vehicle registration (inspection) card with the road-use tax stamp attached. (This is not applicable to vehicles assigned "OV" numbers).

2.2. USFJ Form 4EJ: Application and Renewal.

2.2.1. *Initial Application Requirements*. To obtain a USFJ Form 4EJ, all applicants will retrieve their initial license from the Reports and Analysis Office (374 SFS/S5R, B316) via the newcomers orientation and must meet the requirements corresponding to their status:

2.2.1.1. **SOFA Status U.S. Citizens:** Must present either a valid operator's license from any U.S. state/territory or the District of Columbia, or proof of completing a certified formal driving course IAW USFJI 31-205.

2.2.1.2. **SOFA Status Non-U.S. Citizens:** Must present either a valid operator's license from any U.S. state/territory or the District of Columbia, a valid Government of Japan (GoJ) operator's permit, or a valid license from a country listed in USFJI 31-205.

2.2.1.3. Applicants with a license from a country not listed in the instruction must complete the on-base driving course before a 4EJ is issued.

2.2.2. *Maintaining and Renewing with an Expired U.S. License*.

2.2.2.1. **Individual Responsibility:** It is the operator's responsibility to maintain a valid U.S. license. Personnel must contact their state's Department of Motor Vehicle office for renewal options, as many states offer extensions or mail-in renewals for overseas service members. Vehicle owners are solely responsible for ensuring only authorized and licensed personnel operate their vehicles.

2.2.2.2. **Renewal Requirement:** To renew a USFJ Form 4EJ with an expired state license, the operator must provide official state documentation to 374 SFS/S5R proving the license's validity while overseas. Renewal will not be granted without this proof.

2.2.2.3. **Waiver Process:** If an operator's state does not offer extensions and the license expires, the NCOIC (374 SFS/S5R) may grant a 4EJ renewal waiver. This requires a review of the individual's driving record and a signed attestation their U.S. license has not been revoked or suspended.

2.2.3. *Personnel Arriving from other USFJ Installations.* Members executing a change of station to YAB from another USFJ installation must attend the "Right Start" local conditions training. Upon completion, they must bring their 374 AW Form 50 and previous USFJ Form 4EJ to 374 SFS/S5R to update their license with the new DEROS.

2.2.4. *Possession, Loss, and Extension of USFJ Form 4EJ.*

2.2.4.1. **Requirement to Possess:** Personnel are required to sign for and possess a valid USFJ Form 4EJ from 374 SFS/S5R before operating any vehicle. Failure to do so may result in penalties outlined in **Table 5.1**.

2.2.4.2. **Lost License:** Personnel who lose the 4EJ must request replacement with 374 SFS/S5R.

2.2.4.3. **Extensions:** To process a 4EJ extension, personnel must provide proof of their new DEROS. Military members may use a Memorandum for Record (MFR) or a printout from 374 FSS. DoW civilians or contractors must provide updated orders or a Letter of Employment.

2.2.5. *Hardship Driving Privileges.* The WTRO may authorize "ON-BASE ONLY" driving privileges for family members or guardians to support assigned personnel during extenuating circumstances. The sponsor must submit a request through their unit commander to the WTRO for final approval. Once approved, the individual must complete the YAB driver's test and local conditions briefing before being issued a restricted 4EJ at 374 SFS/S5R.

2.2.6. *Student Driving Permits*. This applies to SOFA-sponsored dependents aged 16-18 who do not have a U.S. license upon arrival.

2.2.6.1. **Obtaining a Permit:** At age 16, the student may attend the COURSE II briefing conducted by 374 AW/Safety. With the certificate of completion and a 374 AW Form 50, the student and their sponsor will be issued a 4EJ marked "Student Driver's Permit," valid for six months.

2.2.6.2. **Permit Restrictions:** The initial permit requires the student driver to be always accompanied by a licensed parent or guardian and is for on-base driving only.

2.2.6.3. **Unaccompanied On-Base Driving:** After completing the formal Driver's Education Class, the student is eligible for an unaccompanied "ON-BASE ONLY" 4EJ.

2.2.6.4. **Unrestricted License:** An unrestricted 4EJ can be issued once the driver turns 18 and all requirements in **para 2.2** have been met.

2.2.7. TDY/TDA Personnel.

2.2.7.1. **Government Vehicles (GOV):** TDY/TDA personnel may operate a GOV on-base with a valid U.S. license and completion of the local conditions brief. If official duties require off-base driving, a justification memo from their unit commander is required to issue a USFJ Form 4EJ.

2.2.7.2. **Privately Owned Vehicles (POV):** Personnel TDY for 6 months or longer may purchase a POV, but a military member permanently stationed at YAB must co-sign the registration documents and assumes full responsibility if the vehicle is not properly deregistered upon the TDY member's departure. Personnel TDY for less than 6 months are not authorized to purchase a POV.

2.2.7.3. **Prohibited Actions:** TDY personnel may not give power of attorney to permanently stationed members for the purposes of registering a vehicle.

2.2.8. Issuance of a USFJ Form 4EJ for personnel not covered in these paragraphs will be handled IAW USFJI 31-205.

2.3. Stopping and Inspecting Personnel or Vehicles.

2.3.1. *Authority to Inspect*. To protect personnel, secure property, and maintain good order and discipline, the 374 AW/CC has the authority to direct security checks of personnel and vehicles on YAB. These programs include, but are not limited to:

2.3.1.1. Installation entry and exit point checks.

2.3.1.2. Sobriety checkpoints.

2.3.1.3. Other unannounced safety and security checkpoints.

2.3.1.4. Checks conducted as part of force protection measures.

2.3.2. *Failure to Comply*. Attempting to elude, evade, or otherwise fail to stop for a checkpoint will result in an immediate one-year revocation of driving privileges and a six-point assessment against the operator's record. Violators may also face additional criminal charges.

2.4. Implied Consent Policies.

2.4.1. *Implied Consent to Testing*. As a condition of accepting driving privileges, all drivers consent to a test of their blood, breath, or urine for alcohol or drugs when lawfully stopped or apprehended. Refusal to complete a test will result in an immediate one-year revocation of driving privileges. Security Forces will advise suspects of this policy using the implied consent policy script.

2.4.2. **Implied Consent Script.** "I am requesting you submit to a test of your [breath/blood/urine] to determine its alcohol or drug content. You are advised that refusing to complete this test will result in a one-year revocation of your driving privileges. Furthermore, if you are found to have been driving under the influence, your privileges may be revoked for an additional two years. You do not have the right to consult an attorney before deciding whether to submit to this test."

2.4.3. *Implied Consent to Vehicle Impoundment*. Accepting driving privileges also includes consent to have one's vehicle impounded. As stated on POV registration forms, vehicles may be removed and temporarily impounded if they are parked illegally for extended periods, interfere with military operations, create a safety hazard, are disabled by an incident, or are abandoned.

2.5. Suspension or Revocation of Driving Privileges.

2.5.1. *General Process and Surrender of License*. All suspensions and revocations are coordinated through 374 SFS/S5R. Personnel whose privileges are suspended or revoked must immediately surrender their USFJ Form 4EJ to 374 SFS/S5R or an on-duty Security Forces member. They must also notify their unit Vehicle Control Officer (VCO) and surrender their DAF Form 2293, if applicable. During the suspension/revocation period, individuals are prohibited from operating any POV or GOV unless granted restricted privileges.

2.5.2. *Suspension for High-Risk Driving*. Unit commanders (for military) and the WTRO (for all others) may suspend privileges for up to 180 days for individuals demonstrating high-risk driving behavior. Medical physicians may also recommend a medical suspension. All suspensions will be issued in writing, stating the reason and duration.

2.5.3. *Suspension of Specific Offenses*. Citations for using a handheld electronic device or failure to wear motorcycle PPE will be issued a suspension letter along with a DD Form 1408, *Armed Forces Traffic Ticket*. The suspension letter suspends the driver's driving privileges effective at 0001L on the second duty day following the citation. The driver has Three duty days to contact 374 SFS/S5R to rebut the citation, if desired. In the event a rebuttal is requested, the suspension will not take effect until the first duty day following a decision on the rebuttal if the result is averse to the driver.

Table 2.1. Suspension for Electronic Device Use.

Number of Offense	Period of Suspension	Points Assessed
1st Offense	30 Days	6 Points
2nd Offense	6 Months	6 Points

Table 2.2. Suspension for Motorcycle PPE Violation.

Number of Offense	Period of Suspension
1st Offense	14 Days
2nd Offense within 12 months	30 Days
3rd Offense within 18 months	12 Months

2.5.4. *Revocation for Serious Offenses*. Driving privileges will be revoked for a minimum of 6 months for serious offenses.

2.5.4.1. **DUI/DWI:** Security Forces will confiscate the USFJ Form 4EJ on the spot for incidents involving impaired driving (DUI/DWI), reckless driving, or refusal of a chemical test. DD Form 2817, *Evidence and Property Custody Document*, will be accomplished on all confiscated items.

2.5.4.2. **Underage Drinking and Driving:** Personnel under 20 found to have consumed any alcohol before operating a vehicle will have their driving privileges revoked, regardless of their blood alcohol content (BAC).

2.6. Administrative Procedures for Suspensions and Revocations.

2.6.1. *Notification and License Surrender*: An individual must report to 374 SFS/S5R within 3 duty days of notification to acknowledge the suspension/revocation and surrender their 4EJ. If a hearing is held and the suspension is upheld, the 4EJ must be surrendered within 24 hours (or the next duty day). Failure to acknowledge within 3 days results in an automatic suspension and forfeiture of hearing rights.

2.6.2. *Appeals and rebuttals* will be submitted to 374 SFS/S5R within 3 duty days of acknowledging the suspension letter.

2.6.3. *Delayed Action for TDY/Deployment*: If an individual receives a citation carrying a suspension/revocation immediately before a TDY, deployment, or extended leave, the action will be delayed until their return. Upon returning, the member must report to 374 SFS/S5R with their supervisor to begin the administrative process (rebuttal, hearing, etc.). However, the WTRO reserves the right to impose an immediate suspension if the circumstances are deemed serious enough to warrant it.

2.6.4. *Driving While Suspended*: Driving while privileges are suspended or revoked results in an automatic, additional 24-month revocation.

2.7. Alcohol and Drug Abuse Prevention and Treatment (ADAPT) and Reinstatement Requirements.

2.7.1. *ADAPT Referral*: After any suspected alcohol-related incident, commanders will direct military personnel to the ADAPT program for evaluation. This is mandatory for military members. Civilians are encouraged to attend.

2.7.2. *Mandatory Training for Reinstatement*: To have privileges restored, individuals must provide proof of completing required programs.

2.7.2.1. **For Point Accumulation:** Must complete the Course V, *Driver Improvement Course*. Note: Not required for non-moving violations.

2.7.2.2. **For Impaired Driving:** Military personnel must show proof of completion of all ADAPT program requirements.

2.7.3. *Reinstatement After Acquittal*: If an individual is found "not guilty" in court, the suspension will generally be lifted. Exceptions: The suspension will remain in effect if it is based on:

2.7.3.1. A refusal to take a chemical test.

2.7.3.2. A valid BAC test result, even if criminal charges were reduced. In this case, the suspension process will continue, and the members will be notified of their right to a hearing.

2.8. Restricted Driving Privileges.

2.8.1. *Eligibility and Application*. The WTRO may grant restricted "mission essential" driving privileges. The requestor must provide a letter (**Attachment 3**), endorsed by their unit commander, justifying the need (e.g., travel to work, hospital, gas station) and not personal hardship. The request must include completion of any required rehabilitative programs (e.g., ADAPT, driver improvement courses). If approved, the member's 4EJ must be stamped with "Restricted" and a copy of the restricted driving letter will be kept in the vehicle authorized.

2.8.2. *Vehicle Registration*: Vehicles must be de-registered within 10 days of a year-long (or more) revocation unless restricted privileges are granted or a licensed family member is available to drive.

2.8.3. *Violation of Restrictions*: If an individual with restricted privileges is cited for a moving violation or caught driving outside their approved limits, the restricted privileges will be terminated and the original, full suspension will be reinstated.

2.9. Reciprocity.

2.9.1. *Other Installations*: YAB honors reciprocal suspensions/revocations from other USFJ installations.

2.9.2. *State-Military Actions*: For revocations of 12 months or more, 374 SFS/S5R will notify the member's home state licensing agency. If the state revokes the member's license, any restricted driving privileges at Yokota will be terminated.

Chapter 3

MOTOR VEHICLE REGISTRATION

3.1. General Registration Policy.

3.1.1. *Authorization*: All personnel with SOFA status are authorized to register vehicles. Dependents may only register a vehicle if they possess a Power of Attorney (POA) from their sponsor; the vehicle will be registered in the sponsor's name. Exceptions reviewed on a case-by-case basis. Retired personnel are not authorized to register "Y" plated vehicles or receive a USFJ Form 15A/B.

3.1.2. *Timeline*: Vehicles must be registered with 374 SFS/S5PR (Pass & Registration/B993) within 10 duty days of acquisition. Vehicles must be de-registered within 10 duty days of sale, transfer, or when instructed. Failure to comply may result in penalties outlined in **Table 5.1**.

3.1.3. *Vehicle Sale/Transfer Limit*: Personnel may not sell or transfer more than four "Y" plated vehicles within a single calendar year.

3.2. Temporary Registration Procedures.

3.2.1. *Temporary License Plates ("Kari Number")*: For off-base vehicles needing inspection or registration, a temporary "slash plate" may be obtained from the local City Hall. These are valid for a maximum of 5 days and are only for driving the vehicle between home, the inspection center, or a garage. Plates must be securely displayed on the vehicle's exterior.

3.2.2. *Decal Removal*: When selling or transferring a vehicle, the owner must remove the existing USFJ Form 15A/B decal, unless the sale is to another SOFA member.

3.3. Vehicle Limits and Waivers.

3.3.1. *Standard Vehicle Authorization*: Vehicle registration limits are applied individually to eligible SOFA status persons, not as a household total (All personnel must be licensed). The standard authorization is as follows:

3.3.1.1. **Sponsor:** Authorized to register (1) 4-wheel vehicle and (1) 2-wheel vehicle.

3.3.1.2. **Spouse:** Authorized to register (1) 4-wheel and (1) 2-wheel under sponsor’s name.

3.3.1.3. **Dependent Child:** Authorized to register (1) 4-wheel and (1) 2-wheel under sponsor’s name.

3.3.2. *Permanent Waiver Request*: To register a vehicle exceeding the standard household limit, the SOFA member must submit a formal waiver request. The package must contain the following:

3.3.2.1. **Strong Justification:** A detailed memo explaining why the additional vehicle is necessary, focusing on mission requirements or significant family hardship rather than personal convenience.

3.3.2.2. **Clear Parking Plan:** Verified proof of an authorized parking space for the additional vehicle.

3.3.2.2.1. For On-Base Residents: Parking location and why it will not impact on-base parking.

3.3.2.2.2. For Off-Base Residents: The plan must include official documentation, such as a copy of the housing rental contract that explicitly states the number of authorized parking spaces, or a formal letter/email from the landlord confirming the parking availability and limit.

3.3.2.3. **Unit Commander Endorsement:** The completed waiver request must be endorsed by the member's unit commander or agency chief.

3.3.2.4. The entire endorsed package is then forwarded to 374 SFS/S5PR, which will route it to the 374 MSG/CC for final approval or disapproval.

3.3.3. *Temporary Waiver (60-Day)*: For short-term needs (e.g., maintenance, transfer), a member may request a temporary 60-day waiver by submitting a letter to 374 SFS/S5PR. If member passes the 60-day requirement, a notice will be sent to the member’s unit leadership for correction.

3.3.4. *Waiver Appeals*: A denied waiver may be appealed by routing a letter through the unit commander to the 374 MSG/CC, whose decision is final.

3.4. Special Registration Cases.

3.4.1. *Motorcycles*: An individual may register a motorcycle before completing the required Motorcycle Safety Foundation (MSF) course, but they are prohibited from operating it until properly licensed. The registration requires a memorandum from the unit commander identifying the owner and vehicle. (Note: MSF training is not required for any 2-wheel vehicles 49cc or less).

3.4.2. *Vehicles from Local National Spouses*: A "non-Y" plated vehicle owned by a local national spouse who gains SOFA status can be registered in the sponsor's name. The sponsor must provide the spouse's dependent ID, proof of relationship, a translated vehicle title, JCI, liability insurance, and a current road tax receipt.

3.4.3. *Handicap Parking Permits*: Personnel requiring a handicap permit must provide a current letter (English-translated) from a medical provider to 374 SFS/S5PR detailing the need and duration. A temporary placard will be issued, not to exceed the members’ DEROS.

3.4.4. *"OV-Plated" Vehicles*. OV-plated vehicles are for official use by authorized agencies (e.g., NAF, AAFES, Red Cross). The WTRO approves all new OV-plate requests. All OV-plated vehicles must be registered annually with 374 SFS/S5PR with an updated USFJ Form 15A.

3.5. Maintaining and Disposing of Vehicles.

3.5.1. *Owner Responsibility*: Vehicle owners are responsible for ensuring their registration, insurance (JCI and liability), and safety inspections are always current, regardless of the owner's or vehicle's operational status (e.g., on leave, deployed, in storage). The vehicle owner will be cited for any registration, tax, or insurance violations committed by the operator.

3.5.2. *Wrecked or Inoperative Vehicles*: Inoperative vehicles may only be parked at the Auto Hobby Center, BX Garage (with a work contract), or an off-base shop. Vehicles parked elsewhere will be ticketed and possibly towed.

3.5.3. *De-registration for Major Maintenance*: When a vehicle requires major maintenance, the following procedure applies:

3.5.3.1. **Initial Notification:** The owner must first obtain a parking authorization letter from the FSS Auto Hobby Center or BX Garage. This letter must be provided to 374 SFS/S5PR to officially document the vehicle's maintenance status.

3.5.3.2. **Maintenance Period (Up to 180 Days):** The inoperative vehicle may remain at the approved on-base maintenance location for up to 90 days, with one possible 90-day extension (for a total of 180 days), without being formally de-registered.

3.5.3.3. **Mandatory De-registration:** If the vehicle is not repaired and made operational after the 180-day period, it must be de-registered with 374 SFS/S5PR. Once de-registered, the requirements for JCI, liability insurance, and base inspection may be allowed to lapse. The vehicle must then be removed from the installation at the owner's expense. The vehicle may be re-registered at any time once it is fully repaired, passes all inspections, and falls within the owner's authorized vehicle limit.

3.5.4. *Final Departure (PCS, Separation, etc.)*: Personnel may not permanently depart Japan without selling, transferring, or properly de-registering all vehicles. A POA may be used to accomplish this for up to 90 days after departure, with one 90-day extension possible under extenuating circumstances.

Chapter 4

TRAFFIC PLANNING AND CODES

4.1. General Traffic Code and Enforcement. The rules within this chapter apply to all personnel on YAB, including operators of all motor vehicles, including Privately Owned Vehicles (POV) and Government Operated Vehicles (GOV), special purpose vehicles, e-scooters, bicycles, e-bikes, as well as all pedestrians. It is critical for all operators to understand compliance with these on-base rules does not guarantee compliance with Japanese law. Activities or vehicle modifications permitted on YAB may be illegal off-base and can result in significant fines and penalties from Japanese authorities. *Note*: All GOV operators must follow guidance for operation and licensing IAW DAFI 24-301.

4.1.1. *Authority*: The 374 SFS is responsible for enforcing traffic rules. On-scene SFS personnel or other authorized traffic controllers (e.g., school crossing guards) have precedence over all signs and written regulations.

4.1.2. *Speed and Traffic Enforcement*: 374 SFS uses observation, lidar, and radar to enforce speed and traffic compliance. All operators of enforcement devices are fully trained and certified. 374 SFS/S3T provides and documents training.

4.1.3. *Heavy Equipment Movement*: The movement of heavy or oversized equipment (e.g., cranes, loaders) must be coordinated with 374 SFS to determine the safest route and time. An escort (unit responsible) is required if the vehicle is wider than one lane or will impede traffic.

4.1.4. *Japan Website on Traffic Rules*: Operators may use the following website to have better knowledge of off-base traffic rules, including for bicycles: **https://www.keishicho.metro.tokyo.lg.jp/multilingual/english/traffic_safety/traffic_rules/**

4.2. Obeying Traffic Control Devices. All vehicle operators must obey standard traffic signs, signals, and road markings.

4.2.1. *Traffic Signals and Signs.* All licensed operators must be knowledgeable of all signals and signs for YAB and Japan. These are provided during 4EJ issuance.

4.2.1.1. **Solid Red/Yellow/Green Lights:** Obey standard procedures. Stop on red, prepare to stop on yellow, and proceed on green.

4.2.1.2. **Flashing Red/Yellow Lights:** Treat a flashing red as a stop sign. Treat a flashing yellow as a yield, proceeding with caution.

4.2.1.3. **Stop/Yield Signs:** Come to a complete stop at a stop sign. At a yield sign, slow down and stop if necessary, yielding to all other traffic.

4.2.2. *Power Outages*: If traffic lights are not functioning, the intersection becomes a four-way stop.

4.2.3. *Overrun Crossing Lights*: Drivers must obey the lights at the runway overruns. Stop for a red light and sounding bell. Proceed with caution on yellow, being prepared to stop for aircraft. If the lights are out of order, do not cross; report the malfunction to Airfield Management (225-7006). 374 CES will initiate an emergency work order for non-working lights.

4.2.4. *Unauthorized Tampering*: No one may alter, remove, or interfere with any official traffic control device or sign without authority from the 374 AW/Traffic Safety Working Group (TSWG).

4.2.4.1. The 374 MSG/DD or designee chairs 374 AW/TSWG. Meeting facilitated by 374 CES/CEOE and members include 374 AW/SE, 374 SFS, 374 CES and 374 LRS. All temporary parking signs must be approved by the 374 SFS/Police Services and coordinated through 374 AW/SEG.

4.3. Rules of the Road.

4.3.1. *Lane Discipline*: Drive in the left lane except when lawfully passing or turning. Do not straddle the centerline.

4.3.2. *Yielding the Right-of-Way*: Vehicle operators must always be prepared to yield the right-of-way to ensure safety. Yielding is mandatory in the following situations:

4.3.2.1. To all emergency vehicles responding with active lights and/or sirens.

4.3.2.2. To all pedestrians within a marked crosswalk.

4.3.2.3. To all traffic already circulating within a traffic circle (roundabout).

4.3.2.4. To all military convoys and troop formations.

4.3.2.5. To fuel trucks at the intersection of McGuire and James Ave.

4.3.2.6. To any bus that is actively loading or unloading passengers (stop no closer than 20 feet). You are not required to stop if traveling on the opposite side of a road divided by a physical median. Note: When a bus has their hazards on all vehicles regardless of flow of traffic will come to a complete stop until the bus resumes movement.

4.3.3. *Turning and Stopping*: Signal your intent to turn continuously for at least 100 feet (30 meters) before the turn. U-turns are prohibited unless a sign explicitly permits them. Do not suddenly stop or decrease speed without first giving an appropriate signal to the traffic behind you when possible.

4.3.4. *Distance*: Do not follow other vehicles closer than one car length for every 10 MPH of speed.

4.3.5. *Prohibited Driver Actions*:

4.3.5.1. Do not race or exhibit aggressive behaviors (e.g., breaking traction, excessive revving).

4.3.5.2. Do not drive through parking lots to circumvent traffic controls.

4.3.5.3. Do not operate a vehicle if you are ill, sleepy, or otherwise physically impaired.

4.3.5.4. Do not carry open containers or consume alcohol in a vehicle (applies to all occupants).

4.3.5.5. Do not display decals or stickers that are contrary to good order and discipline.

4.3.5.6. Do not use radar detection devices or CB radios (unless licensed by GoJ). The unlawful use or possession of this equipment will be subject to confiscation by 374 SFS.

4.3.5.7. Do not leave a vehicle unattended with the engine running, except in a residential spot for defrosting windows.

4.4. Vehicle and Occupant Safety.

4.4.1. General Safety.

4.4.1.1. **Seatbelts:** All occupants of a moving vehicle must wear seatbelts. Do not ride in seats where restraints have been removed or disabled.

4.4.1.2. **Occupancy Limits:** Do not carry more people than the vehicle's designed seating capacity. No one may ride in areas without fixed seats (e.g., truck beds).

4.4.1.3. **Vision and Obstruction:** Do not operate a vehicle with doors or windshields removed, or where the operator's forward or rear view is obstructed.

4.4.2. *Child Safety Seats*: All child safety restraint devices must meet US DoT and host nation certifications and be installed IAW manufacturer instructions.

4.4.2.1. Ages 0-4 (or <45 lbs): Must be in an approved infant or child restraint device.

4.4.2.2. Ages 4-7 (>45 lbs and <4'9"): Must be in a booster seat or an approved child restraint.

4.4.2.3. Ages 8+ (or >4'9"): May use a standard vehicle seatbelt.

4.4.3. *Headlights*: Use headlights during darkness, inclement weather, or low visibility. Dim them to parking lights when entering gates at night. Fog lights may not be used in place of headlights.

4.4.4. *Listening Devices*: Wearing headphones or earphones while operating a vehicle or bicycle is prohibited. Exceptions exist for emergency crews and motorcyclist communication systems.

4.4.5. *Handheld Devices*: Using a handheld cell phone while driving is prohibited unless the vehicle is safely parked or a hands-free device is used. This does not apply to official emergency reporting.

4.4.6. *Unloading Passengers*: Do not stop to discharge passengers in an intersection, roadway, or other areas not designated for that purpose.

4.4.7. *Interior Noise Levels*: In-vehicle noise must not be audible from 50 feet away or distract the driver from hearing emergency vehicles.

4.5. Overtaking and Passing.

4.5.1. *Passing is Permitted*: You may pass another vehicle on the right only when there is a broken white centerline and you can complete the pass safely without coming within 200 feet of oncoming traffic or 100 feet of an intersection.

4.5.2. *Passing is Prohibited*: Do not pass when there is a solid centerline, on a curve or hill, within 100 feet of a bridge or crosswalk, or when overtaking a police escort or munitions convoy.

4.6. Special Traffic Rules and Speed Limits.

4.6.1. *National Anthems*: When the Japanese or U.S. National Anthem is played, all vehicles must safely come to an immediate and complete stop. ***Exception***: If on a runway overrun, continue across safely before stopping.

4.6.2. *Railroad Crossings*: Drivers must come to a complete stop before all railroad crossings and, should a vehicle become disabled on the tracks, they are required to display emergency signals and make every effort to remove it, notifying authorities if unsuccessful.

4.6.3. *M-Series Vehicles*: Not authorized in housing areas except for official business.

4.6.4. *Speed Limits*: Speed limits are based on clear, dry conditions. Drive slower in inclement weather or when going by construction areas.

Table 4.1. Speed Restrictions on YAB.

CONDITIONS	MPH	KPH
General Roadways (unless otherwise posted)	25	40
Housing Areas	12	20
School Zones (during school hours)	12	20
Parking Lots or Alleyways	12	20
Passing Troop Movements	12	20
Operating in Reverse	6	10
North Overrun	37	60
South Overrun	31	50
When towing vehicles, trailers, or other cargo (vehicles must be towed using approved equipment or vehicles).	18	30
Maximum speed for Moped (less than 50cc)	18	30
Maximum speed for Moped (More than 50cc)	25	40
Minimum speed for all roadways	6	10

4.7. Special Procedures for POVs.

4.7.1. *Loaning and Borrowing Vehicles*: USFJ personnel may not lend their POV to or borrow a vehicle from anyone who does not possess a valid USFJ Form 4EJ. If you are operating a vehicle registered to someone else who is not present, you must have written permission in your possession. Failure to produce this permission may result in the vehicle being impounded at the owner's expense.

4.7.2. *Airfield Access*: POVs may not enter the airfield unless specifically authorized and the operator has flight line driving privileges.

4.7.3. *Non-SOFA Drivers*: Non-SOFA family members may be authorized to drive under specific conditions IAW USFJI 31-205, which requires a letter approved by the WTRO and completion of the newcomer's driving orientation.

4.8. Vehicle Condition and Modifications.

4.8.1. *General Condition*: Vehicle owners are required to maintain their vehicles in a safe, operational condition always, using **Attachment 7** as a guide. It is unlawful to operate a vehicle with known safety defects, such as inoperative lights, cracked windows, or tires with less than 1/16-inch tread. All repairs or modifications must comply with Japanese law and pass a Government of Japan (GoJ) inspection, and all required safety devices, including a standard non-siren horn, must be fully functional.

4.8.2. *Vehicle Modifications*: It is illegal to modify a vehicle in any way that alters it from the specifications listed on its official Japanese title (e.g., changing suspension height, rims, etc.).

4.8.3. *License Plates*: Plates must be securely fastened to the front and rear of the vehicle, be clearly visible, and not be obscured by covers/frames or bent in a manner to obstruct visibility. Operating a vehicle with a valid plate, missing plate or broken rear seal is prohibited.

4.8.4. *Window Tint*: The front driver and passenger side windows must allow at least 70% light transmission. All windows to the rear of the driver may be tinted darker.

4.8.5. *Exhaust*: Vehicles must have an operational muffler that prevents excessive noise or smoke. The exhaust will extend to the rear of the vehicle and should not be heard from more than 150 feet away and must not be lower than 9cm from the ground.

4.8.6. *Vehicle Cameras*: In-vehicle recording devices may only be used as directed by the manufacturer to capture footage for insurance claims, and any imagery recorded beyond this purpose is subject to assessment by 374 SFS and 374 AW/PA.

4.8.7. *Correcting Vehicle Defects (DD Form 1408):* When issued a "fix-it" ticket, the operator has 3 duty days to correct the violation. A copy of the ticket must be kept in the vehicle during this time. An extension may be granted only via a signed memorandum from owning First Sergeant.

4.9. Special Vehicle Operations (Motorcycles, Bicycles, Pedestrians).

4.9.1. *Motorcycle and Moped Operations*: All personnel must adhere to the following requirements before and during the operation of any motorcycle or moped on or off YAB.

4.9.1.1. **Prerequisites to Ride.** Before riding or registering a motorcycle, all personnel must complete the required prerequisite training established in USFJI 31-205. The process begins by submitting a YAB Form 51, *Motorcycle Rider Application* (**Attachment 8**). After completing all mandatory Motorcycle Safety Foundation (MSF) courses, the individual will be eligible to obtain a USFJ Form 4EJ, properly endorsed for the correct size of motorcycle. Once licensed, operators are prohibited from loaning their motorcycle to any person who is not properly trained and licensed for that vehicle. The only exception is for an unlicensed individual to borrow a motorcycle strictly for participation in an MSF course, where they must be under the direct supervision of a certified Rider Coach and are not permitted to ride the motorcycle to or from the training area.

4.9.1.2. **Beginner Rider Program.** To ensure new motorcyclists gain experience in a controlled environment, all first-time riders are enrolled in the Beginner Rider Program, which follows the following process.

4.9.1.2.1. Program Start and Initial Licensing: Immediately after completing the Basic Rider Course (BRC), the rider must contact their unit Motorcycle Safety Representative (MSR) to get an official starting odometer reading. This action officially begins the tracking period. The rider will then be issued a temporary USFJ Form 4EJ from 374 SFS/S5PR, which will be annotated "On-Base Only."

4.9.1.2.2. Riding Requirements for Graduation: To have the on-base restriction lifted, the rider must successfully document having a minimum of one month of riding experience with at least 250 kilometers (160 miles) on their motorcycle logged.

4.9.1.2.3. Obtaining an Unrestricted License: Once both requirements are met, the MSR will validate the time and mileage and provide the rider with an official authorization letter. The rider must then take this letter to 374 SFS/S5PR to be issued a standard, unrestricted license.

4.9.1.2.4. Exceptions and Extensions:

4.9.1.2.4.1. Off-Base Personnel: For riders who cannot practically comply with the beginner rider program’s on-base restriction (e.g., they live or work off-base), a unit commander may grant a written exemption after applying sound Risk Management principles.

4.9.1.2.4.2. Mileage Extension: If a rider is unable to log the required 250 kilometers within a three-month period, they may request a new temporary permit from 374 SFS/S5R to continue working toward the mileage goal.

4.9.1.3. **Required Personal Protective Equipment (PPE).** The following PPE is always mandatory for all riders and passengers, both on and off the installation:

4.9.1.3.1. Helmet: Must be properly fastened and meet or exceed DoT, ECE 22-05, or equivalent safety standards.

4.9.1.3.2. Eye Protection: Impact-resistant goggles, wrap-around glasses, or a full-face shield. A standard windshield or sunglasses is not sufficient.

4.9.1.3.3. Clothing: Long-sleeve shirt or jacket for upper body and long pants for lower body. Must have full-fingered gloves made of leather or other abrasion-resistant material for the hands. Must have sturdy, over-the-ankle footwear.

4.9.1.4. **Rules of the Road.** Motorcycle and moped operators must ensure safe operation by always riding forward on the permanent seat with a leg on each side, securing all packages so they do not interfere with control, and maintaining all required safety equipment, such as lights and signals, in proper working order.

4.9.1.4.1. Headlights and Mirrors: Headlights must always be “on” and the handlebars must each be equipped with a rear-view mirror. Mopeds will have at least one rear view mirror.

4.9.1.4.2. Lane Discipline: Riders are entitled to the full use of a traffic lane. Do not ride two abreast in a single lane, weave within a lane, pass vehicles in the same lane ("lane splitting"), or ride between lanes of stopped or slow-moving traffic.

4.9.1.4.3. Passengers: A passenger is only allowed if the motorcycle is designed for two people and equipped with a dedicated passenger seat and foot pegs. Passengers must be at least 6 years old and able to place their feet firmly on the foot pegs while seated.

4.9.1.4.4. Parking: Motorcycles or mopeds may be parked at bicycle racks in housing and dormitory areas.

4.9.2. *Bicycle Operations*: All personnel operating a bicycle on YAB are subject to the same rules of the road as motor vehicle operators and must adhere to the following requirements.

4.9.2.1. **Riding and Roadway Conduct.**

4.9.2.1.1. Follow Traffic Laws: Obey all traffic signs, signals, and pavement markings.

4.9.2.1.2. Lane Position: Ride single-file on far-left side of the road, moving with the flow of traffic.

4.9.2.1.3. Maintain Control: Always keep at least one hand on the handlebars. Use appropriate hand and arm signals to indicate turns.

4.9.2.1.4. Runway Overrun: When crossing the south overrun, you must use the designated bicycle path. Bicycles are prohibited from using the roadway to cross the runway. You are not required to stop for the overrun lights when using the path.

4.9.2.2. **Required Safety Equipment.**

4.9.2.2.1. Helmet: All riders and passengers must wear an approved helmet that is properly fastened.

4.9.2.2.2. Night/Low Visibility Riding: From official sunset to sunrise or during periods of poor visibility, the bike is required to have an illuminated, forward-facing white light, a red rear reflector, and the rider must wear a reflective vest or highly reflective clothing.

4.9.2.3. **Prohibited Actions.** The following actions are strictly prohibited while operating a bicycle:

4.9.2.3.1. Wearing headphones/earphones or using a cell phone (including texting).

4.9.2.3.2. Operating a bicycle while under the influence of alcohol or drugs.

4.9.2.3.3. Performing stunts on any roadway, sidewalk, or parking lot that could impede traffic.

4.9.2.3.4. Parking in spaces designated for cars or motorcycles or blocking pedestrian traffic.

4.9.2.4. **Passengers.** A passenger is only permitted on a bicycle if it is equipped with a dedicated seat and footrests designed for that passenger.

4.9.3. *Pedestrian Rules*. Personnel on foot are considered pedestrians and are subject to traffic laws. Pedestrians who violate these policies may be issued a citation. Specifically, citations for violations such as "Jaywalking" will be forwarded to violator's unit leadership for administrative action.

4.9.3.1. **General Conduct and Roadway Rules.**

4.9.3.1.1. Right-of-Way: Pedestrians have the right-of-way on sidewalks. When on a roadway, you must yield to all responding emergency vehicles.

4.9.3.1.2. Walking on Roads: If no sidewalk is available, pedestrians must walk single-file on the outermost edge of the road, facing oncoming traffic.

4.9.3.1.3. Crosswalks. Use marked crosswalks when available, but only after ensuring it is safe to proceed. If no crosswalk is present, you must yield to all vehicle traffic.

4.9.3.1.4. Jogging on Roads: Joggers must run on the outermost edge of the road or use sidewalks, ensuring they do not impede vehicle or pedestrian traffic.

4.9.3.1.5. Airfield and Runway Overruns: Pedestrians must use the designated paths to cross the overruns and must yield to all vehicle traffic where paths intersect roads within the airfield area.

4.9.3.2. **Required Safety Attire and Equipment.**

4.9.3.2.1. Reflective Gear (e.g., reflective belt, vest, or highly reflective clothing): Mandatory for walkers/joggers on roadways during darkness or poor visibility.

4.9.3.2.2. Listening Devices: Joggers/Walkers will wear only (1) one "earbud" type earphone while running/walking on roadways/sidewalks to include traversing intersections/roads. Headphones (items which cover both ears) will not be worn while jogging/walking on roadways. Personnel may wear headphones while walking on sidewalks, however must remove prior to crossing roadways. This restriction does not apply to designated jogging paths.

4.9.3.3. **Prohibited Activities.**

4.9.3.3.1. Do not stand in or otherwise obstruct roadways, and do not carelessly impede traffic flow.

4.9.3.3.2. Children are not permitted to play in streets or leave toys in streets, driveways, or sidewalks.

4.9.3.3.3. Hitchhiking anywhere on base is prohibited.

4.9.3.3.4. Do not walk in a roadway while under the influence of alcohol or drugs. If impaired, use sidewalks or stay as far away from the road as possible. Consuming alcohol or carrying open containers in public is prohibited, except in specifically authorized areas.

4.10. Prohibited and Restricted-Use Vehicles.

4.10.1. *Prohibited Vehicles*: Special purpose vehicles such as dirt bikes, ATVs, dune buggies, and motorized go-carts are prohibited from being operated on any Yokota AB roadway.

4.10.2. *Low-Speed Vehicles (LSVs)*: LSVs capable of speeds over 20 mph may be operated on roadways only if they meet all DOT safety standards (e.g., windshields, lights, seatbelts).

4.10.3. *Golf Carts*: Golf carts (speed less than 20 mph) are not street legal and shall not be used on roadways with commercial traffic. They may only be used for official wing events with WTRO approval and within designated areas defined by the operating unit.

4.10.4. *E-Scooters and Personal Mobility Devices*: E-scooters, e-bikes, skateboards, and similar devices are generally restricted to sidewalks. Operators must wear an approved safety helmet. Operation off base must comply with all Japanese laws, and violations can result in fines, arrest, and impoundment at the owner's expense. E-devices will be limited to no more than 600 watts.

4.10.4.1. **Exception to Policy (ETP).** Personnel may get an exemption for e-device limitations for on-base use only. The ETP will be requested via memo and approved by 374 SFS/CC.

4.11. Parking Regulations. Parking on YAB is authorized only in areas specifically designated by signs or painted white lines. All personnel must adhere to the following regulations:

4.11.1. *Prohibited Parking.* It is strictly prohibited to park a vehicle in any of the following manners:

4.11.1.1. **In Unauthorized Areas:** On grass, sidewalks, unpaved surfaces, or in designated fire lanes.

4.11.1.2. **In Reserved Spaces:** In any reserved or handicapped parking space without the proper authorization or placard.

4.11.1.3. **Obstructing Access:** In a way that blocks a driveway, intersection, crosswalk, fire hydrant, or force protection barrier.

4.11.1.3.1. Within 15 feet (5 meters) of a fire hydrant, intersection, or crosswalk.

4.11.1.3.2. Within 20 feet (6 meters) of a fire station driveway or railroad crossing.

4.11.1.3.3. Within 30 feet (10 meters) of a bus stop.

4.11.1.4. **Improperly Positioned:** Facing against the flow of traffic, double parking preventing another vehicle’s free movement or more than 12 inches from the left-hand curb.

4.11.1.5. **Exceeding Time Limits:** More than 24 hours in parking garages, more than 72 hours in any other public parking space and more than 60 days in the designated long-term parking lot. Exceptions for extended parking due to TDY or deployment must be pre-coordinated and approved by 374 SFS/Police Services via an email/memo from the unit’s first sergeant.

4.11.2. *Special Parking Rules*.

4.11.2.1. **Housing Areas:** Residents must park in their designated spots (marked by floor/apartment or house number). Visitors must use unmarked visitor slots or designated street parking.

4.11.2.2. **Tower Loading/Unloading:** Residents may temporarily park in tower basement driveways for active loading/unloading, but the vehicle may not be left unattended for more than 20 minutes.

4.11.2.3. **Children and Pets in Vehicles:**

4.11.2.3.1. Leaving children under the age of 12 in a vehicle (Refer to YABI 31-118). All cases will be referred to Family Advocacy and unit commanders for military members or Yokota Conduct Adjudication Program (YCAP) for civilians/dependents. Consult 374 AW/JA for further guidance.

4.11.2.3.2. **Leaving Pets Unattended in Parked Vehicle:**

4.11.2.3.2.1. **15°C/60°F - 26°C/80°F** : Maximum 15 minutes, with unlocked doors and sufficient ventilation.

4.11.2.3.2.2. **28°C/82°F - 32°C/90°F** : Maximum 10 minutes with unlocked doors and sufficient ventilation.

4.11.2.3.2.3. **32°C/90°F and Higher** - Brief stop (less than 5 minutes) with unlocked doors and sufficient ventilation.

4.11.2.4. **Two-Wheeled Vehicles:** Operators should use designated 2-wheel vehicle parking spots when available. Only one motorcycle or moped is permitted per authorized parking spot.

4.11.2.5. **Special Events:** Special event parking (e.g., festivals) must be coordinated and approved by 374 SFS/Police Services. The requesting organization will set up and remove any temporary signage.

4.11.3. *Reserved Parking*: This parking is for essential mission requirements and is enforced 24/7 (except time-limited customer parking). Spaces will not exceed 10% of the total spots at any facility.

4.11.3.1. **Authorized Personnel:** Reserved spaces are authorized for General Officers, Wing/Group and Unit leadership (CC, SEL, 1st Sgt), essential GOVs, and at designated club locations for Colonels and Chief Master Sergeants.

4.11.3.2. **Requesting New Spaces:** Requests require a justification letter (**Attachment 5**), a facility drawing, and AF Form 332, *Base Civil Engineer Work Request*. Requests for authorized positions are approved by 374 CES. All other requests will be routed to 374 AW/TSWG for final approval.

4.11.3.3. **Installation:** Approved spaces are installed by 374 CES. Signs will be marked by title or category, as designation by individual name is prohibited.

4.11.4. *YAB Public Parking Structures*: These locations are for daily work use only (less than 24 hours). Personnel are not authorized to park vehicles in these locations for extended periods without approval. Exceptions must be approved by the member's command by memorandum stating the purpose, dates, and times the vehicle will be parked and filed with 374 SFS/Police Services.

4.11.5. *Parking Warden Program*: Unit commanders may appoint a primary and alternate Parking Warden (E-5 or civilian equivalent). All appointed wardens must be trained by 374 SFS/S5R before issuing any citations. Wardens are authorized to issue parking citations (DD Form 1408) at their designated facilities and must turn them in for processing within 72 hours. ***Exception***: 374 CES/Fire parking wardens may issue citations at any facility while in the performance of their official duties.

4.12. Towing and Hauling Cargo.

4.12.1. *Securing Cargo*. All cargo must be securely latched or tied down to prevent it from shifting or falling from the vehicle. Loaded cargo must not obstruct the driver's vision to the front, rear, or sides. If cargo extends beyond the length of the vehicle, you must display a red flag (at least 20 inches square) from the end of the object during the day. At night, this must be replaced with a red light visible from 500 feet.

4.12.2. *Towing Procedures*. Vehicles must be towed using a rigid A-frame, I-beam, or a commercially designed towing strap. An operator is required in the towed vehicle if an I-beam or strap is used. A white flag must be affixed to the rear of the vehicle being towed. From dusk until dawn, the towed vehicle's rear lights and turn signals must be operational. The owner of a wrecked vehicle is responsible for ensuring all debris (glass, parts, etc.) is removed from the roadway. The owner must also reimburse all fees associated with any towing services.

4.13. Emergency Vehicle Procedures.

4.13.1. *Authorized Emergency Vehicles*. This classification includes any Law Enforcement, Fire Department, Medical, and other emergency maintenance vehicles responding to an incident, as well as the official vehicles of the 374 AW/CC, 374 AW/CD, Group Commanders, 374 AW/SE, and 374 LRS wreckers when performing official duties.

4.13.2. *Privileges of Emergency Vehicle Operators*. During an emergency response using lights and sirens, an authorized operator may park anywhere, proceed through stop signals after slowing to ensure the way is clear, and exceed posted speed limits, provided they continue to drive with due regard for the safety of all persons.

4.13.2.1. **Off-Base Response:** Only SFS, Fire, and Medical vehicles are authorized to operate in an emergency mode off-base, and only for a valid life-threatening emergency after coordinating with Japanese National Police (JNP) and the Base Defense Operations Center (BDOC).

4.13.3. *Duties of All Other Drivers.* When an emergency vehicle is approaching with lights and/or sirens activated, you must:

4.13.3.1. Yield immediately by pulling over to the far-left side of the road, clearing a path for the emergency vehicle.

4.13.3.2. Do not follow an emergency vehicle closer than 500 feet (150 meters).

4.13.3.3. Do not drive over fire hoses or any other equipment stretched across a roadway at the scene of an emergency unless directed to do so by an on-scene controller.

4.14. Traffic Accidents, Impairment, and Breakdowns.

4.14.1. Traffic Accident Procedures.

4.14.1.1. **Major Accident (>$10,000 damage, injury, or death):** Notify 374 SFS immediately by calling 911. All persons involved must remain on the scene until released by Security Forces.

4.14.1.2. **Minor Accident (<$10,000 damage, no injuries):** Report to BDOC as soon as possible, but no later than 24 hours after the incident, to complete a minor accident worksheet.

4.14.1.3. **Off-Base Accidents:** Immediately notify JNP and wait for their arrival on the scene. Do not move your vehicle unless directed by police. Upon returning to base, you must report the accident to 374 SFS/BDOC to ensure all information is officially documented.

4.14.1.4. **GOV Operator Responsibilities:** If involved in an accident while operating a GOV, you must provide reasonable assistance to any injured parties but make no statements admitting fault or liability. You are required to cooperate fully with investigating law enforcement and must complete and submit SF 91, *Motor Vehicle Accident Report*, to 374 LRS within 24 hours of the incident.

4.14.2. *Accident Investigation and Reporting*. Detailed accident investigation by a certified 374 SFS Traffic Accident Investigator will be conducted for accidents involving $10,000 or more in damage.

4.14.2.1. Access to traffic accident reports is granted to the Commanders and First Sergeants of the individuals involved, as well as to relevant base agencies including 374 AW/SE, 374 AW/JA, 374 CES, and 374 LRS (if GOVs involved). Insurance companies may obtain reports by submitting a formal request to 374 SFS/S5R, while all other inquiries for accident data must be processed through the Freedom of Information Act (FOIA) office.

4.14.3. *DUI/DWI Enforcement*. Operating a vehicle with a Blood Alcohol Concentration (BAC) of .08% or higher, or while impaired by any amount of alcohol or drugs, is defined as intoxicated driving. To enforce this, 374 SFS may use Standardized Field Sobriety Tests (SFSTs), with a Breath Alcohol Concentration (BrAC) test serving as the primary evidentiary tool. If a BrAC cannot be obtained, a blood test or urinalysis may be used. Violations cited based on the following legal limits:

Table 4.2. BAC/BrAC Levels.

VIOLATION	BAC / BrAC LEVEL
Driving Under the Influence (DUI)	.03% to .079%
Driving While Intoxicated (DWI)	.08% or higher
Underage Alcohol Violation	Any measurable amount

4.14.4. *Vehicle Breakdowns (Inoperative Vehicles)*. If your vehicle becomes inoperative on the roadway, you must take the following steps:

4.14.4.1. Move the Vehicle: Safely move the vehicle off the roadway as far as possible.

4.14.4.2. Signal the Hazard: Activate your four-way hazard flashers and raise the vehicle's hood. Use a reflective triangle or other warning device, especially at night.

4.14.4.3. Notify BDOC: Report vehicle's location, type, and plate number to BDOC at 225-7227.

4.14.4.4. Tow the Vehicle: You are responsible for having the vehicle towed to an authorized location within 72 hours. Failure may result in the vehicle being impounded at your expense. If the vehicle poses a significant hazard, 374 LRS may be requested to tow it to a safe location.

Chapter 5

DRIVING RECORDS AND THE TRAFFIC POINT SYSTEM

5.1. Overview of Driving Records and The Point System.

5.1.1. *Record Maintenance*: The 374 SFS/S5R oversees all installation driving records using the Air Force Justice Information System (AFJIS), which serves as the official repository for traffic accidents, violations, and administrative actions for all personnel under USFJ jurisdiction at YAB.

5.1.2. *Purpose of the Point System*: The traffic point system is an administrative tool used to impartially judge driving performance. It is not a disciplinary measure but serves as a guide for the WTRO and commanders when considering actions such as license suspension or revocation.

5.2. How Violations are Processed.

5.2.1. *Documenting Violations*:

5.2.1.1. **On-Base:** All violations identified in **Table 5.1** are recorded on a DD Form 1408, *Armed Forces Traffic Ticket*. More serious incidents may also require an DAF Form 3545, *Incident Report*.

5.2.1.2. **Off-Base:** JNP notifies 374 SFS of violations involving SOFA personnel. All SOFA members must provide their DoD ID and USFJ Form 4EJ to JNP officials upon request. Geneva Convention cards do not meet this criteria.

5.2.1.3. **Public Complaints:** Action on a traffic complaint requires a written statement and detailed vehicle description. Once validated as reliable, the incident is recorded in the 374 SFS blotter, and a citation may be issued. The complaint is then forwarded to the members' leadership for action.

5.2.2. *Responding to an Off-Base Japanese Citation.* Off-base traffic violations are subject to Japanese law and may result in immediate fines (payable in Yen only), arrest, or vehicle impoundment at the owner's expense.

5.2.2.1. **Blue Ticket:** Minor violation, you must pay the fine at a Japanese bank or post office within **7 days**. Keep the receipt as proof. Failure to pay can result in arrest.

5.2.2.2. **Red Ticket:** Serious violation; **do not pay a fine**. Await contact from Japanese prosecutor, who will coordinate a court date through your leadership or 374 AW/JA. 374 AW/JA will provide a SOFA rights briefing and you may be placed on administrative hold. 374 SFS may receive a listing of those personnel placed on administrative hold, upon request.

5.2.2.3. When JNP issues a ticket, they formally notify the 374 SFS/Liaison Office. The liaison office processes a formal notification, and forwards it through 374 SFS/S5R to the violator's unit.

5.2.3. *The Rebuttal Process*: If you believe a traffic citation was issued unjustly, you may formally rebut it. The process is time-sensitive and follows these specific steps.

5.2.3.1. **Declare Intent and Submit:** You must notify 374 SFS/S5R of your intent to rebut within Three duty days of the citation. You then have three duty days to submit your endorsed written rebuttal (**Attachment 2**). Failure to meet the initial deadline waives your right to a rebuttal.

5.2.3.2. **Review and Final Decision:** The 374 SFS/S5 Chief reviews the package and provides a recommendation, elevating it to the 374 SFS/CC when warranted. The entire package is then sent to the WTRO for a final, binding determination.

5.3. Point Assessment, Suspension, and Revocation. All penalties are assessed IAW **Table 5.1**, and any suspension or revocation is a total loss of on and off base driving privileges, regardless of other valid driver's licenses held. For off-base violations, 374 SFS/S5R assesses these penalties upon JNP notification and coordinates any unlisted infractions through the 374 SFS/Liaison Office.

5.3.1. *Commander Notifications*: Unit commanders may be notified when personnel accumulate six or more traffic points in six months and will also receive the driving records of newly assigned members with multiple infractions for review and potential driver improvement actions.

5.3.1.1. The violator's rebuttal must be endorsed by their unit commander, agency chief, Senior Enlisted Leader, or First Sergeant and routed to 374 SFS/S5R for processing.

5.3.2. *Record Disposition*: Driving records are maintained IAW DAFI 31-218. Assessed points may be removed over time, but the record of the violation, suspension, or revocation is permanent.

Table 5.1. Schedule of Points and Administrative Actions for Traffic Violations.

MOVING VIOLATIONS			
CODE	**SPEEDING (GENERAL)**	**POINTS**	**LENGTH**
M-01	Speeding: 2-17 KPH over posted limit	3	
M-02	Speeding: 18-25 KPH over posted limit	4	
M-03	Speeding: 26-32 KPH over posted limit	5	
M-04	Speeding: 33-49 KPH over posted limit	6	
M-05	Speeding: 50 KPH or more over posted limit	6	Up to 3 months
CODE	**SPEEDING (SCHOOL ZONE / RESIDENTIAL)**	**POINTS**	**LENGTH**
M-06	Speeding: 2-17 KPH over posted limit	6	
M-07	Speeding: 18-25 KPH over posted limit	8	
M-08	Speeding: 26-32 KPH over posted limit	10	
M-09	Speeding: 33-49 KPH over posted limit	12	Up to 6 months
M-10	Speeding: 50 KPH or more over posted limit	12	Up to 6 months
CODE	**RECKLESS & AGGRESSIVE DRIVING**	**POINTS**	**LENGTH**
M-11	Speed too Slow / Impeding Traffic	2	
M-12	Speed too Fast for Conditions	2	
M-13	Inattentive Driving	3	
M-14	Exhibition of Speed (e.g., Break Traction)	3	Up to 30 days
M-15	Reckless Driving: No Injury	-	30 days
M-16	Speed Contests / Racing	6	Up to 6 months
M-17	Reckless Driving: With Injury	-	12 months
M-18	Fleeing / Attempting to Elude Police	12	Up to 18 months
CODE	**RIGHT-OF-WAY & SIGNALS**	**POINTS**	**LENGTH**
M-19	Failure to Stop for National Anthems	3	
M-20	Failure to Yield to Pedestrian in Crosswalk	3	
M-21	Failure to Obey Traffic Signal / Sign / Officer	4	
M-22	Failure to Stop for Bus or Crossing Signal	4	
M-23	Failure to Yield Right-of-Way	4	
M-24	Failure to Yield to Emergency Vehicle	4	
M-25	Failure to Stop for Runway Crossing Lights	4	
M-26	Following too Closely	4	

CODE	MANEUVERS & EQUIPMENT	POINTS	LENGTH
M-27	Operating an Unsafe Vehicle	2	
M-28	Use of Radar Detection Device	3	
M-29	Improper Turning Movements (No Signal)	3	
M-30	Improper Passing or Lane Change	4	
M-31	Using Cell Phone (Talking or Texting)	6	See Table 2.1
M-32	Failure to Submit to Base Entry/Exit Point Check	-	12 months
CODE	**ACCIDENT & MAJOR OFFENSES**	**POINTS**	**LENGTH**
M-33	Driver Involved in an Accident and Deemed at Fault	1	
M-34	Fleeing Scene of Accident (Property Damage)	-	6 months
M-35	Fleeing Scene of Accident (Personal Injury/Death)	-	12 months
M-36	Manslaughter / Negligent Homicide with Vehicle	-	12 months
M-37	Use of Vehicle in Commission of a Felony	-	24 months
CODE	**ALCOHOL & DRUG RELATED**	**POINTS**	**LENGTH**
M-38	Open Container of Alcohol in Vehicle	4	
M-39	Refusal to Submit Chemical Test, Implied Consent (**Note 1**)	-	12 months
M-40	DWI – Presence of Drugs (Legal or Illegal)	-	12 months
M-41	DUI – Driving Under the Influence (.03% to .079%)	-	12 months
M-42	DWI – Driving While Intoxicated (.08% or greater)	-	24 months
M-43	DUI/DWI – 2nd Offense	-	24 months
NON-MOVING VIOLATIONS			
CODE	**PARKING**	**POINTS**	**LENGTH**
P-01	Parking Violation (Illegal) - General	2	
P-02	Parking in Fire Lane	3	
P-03	Parking in Reserved/Handicapped Space (Unauthorized)	3	
CODE	**OWNER (PERMITTING UNLAWFUL USE)**	**POINTS**	**LENGTH**
O-01	Allowing Unlicensed Driver or valid 4EJ (1st Offense)	3	
O-02	Allowing Physically Impaired Person to Drive	6	
O-03	Allowing Unlicensed Driver (2nd Offense)	6	Up to 6 months
O-04	Allowing Impaired (Alcohol/Drug) Person to Drive	6	Up to 12 months
O-05	Allowing Suspended/Revoked Person to Drive	6	Up to 12 months

CODE	LICENSE & DOCUMENTATION	POINTS	LENGTH
L-01	Driving without License in Possession	1	
L-02	Driving with Expired License (any type)	3	
L-03	Driving with Improper Motorcycle/Moped Category	3	
L-04	Driving SOFA vehicle without valid 4EJ (have a valid license)	3	
L-05	Driving with Improper Vehicle Endorsement	6	Up to 12 months
L-06	Driving without Valid License (any type)	-	12 months
L-07	Fraudulent Use of Driver's License	12	Up to 18 months
L-08	Driving on Suspended or Revoked License (**Note 2**)	-	24 months
CODE	**REGISTRATION & INSURANCES (Notes 3, 5, 7)**	**POINTS**	**LENGTH**
R-01	No Possession of JCI/Liability/Title	1	
R-02	No Possession of Base Registration	1	
R-03	Failure for Base Registration/De-Registration	2	
R-04	Failure to Properly Display Decals	2	
R-05	Failure to Properly Display License Plate	3	
R-06	Improper Use of Temporary (Slash) Plate (1st Offense)	3	
R-07	Expired Road Tax / Decal	3	
R-08	Expired JCI/Liability/Title: Less than 5 days	3	
R-09	Expired JCI/Liability/Title: 5 to 44 days	-	30 days
R-10	Expired JCI/Liability/Title: 45 days or more	-	6 months
R-11	Improper Use of Temporary (Slash) Plate (2nd Offense)	-	6 months
CODE	**EQUIPMENT & CONDITION**	**POINTS**	**LENGTH**
E-01	Illegal Safety Issues or equipment removed (door, hood)	2	
E-02	Illegal Vehicle Modification	3	
E-03	Illegal License Plate Cover / Obscured Plate / Tilted License Plate	3	
E-04	Unauthorized Tinted Windows	3	
E-05	Loud Stereo (audible from 15 feet)	3	
E-06	Loud Muffler (audible from 150 feet)	3

S-01	Motorcycle PPE Violation	3	See Table 2.2
S-02	Wearing Headphones while operating (Vehicle/Bike)	3	
S-03	Vehicle Running Unattended	3	

S-04	Seatbelt Violation (Driver or Passenger)	4	
S-05	Child Restraint Violation	4	
S-06	Unattended Child/Animal in Vehicle (**See Note 6**)	6	
S-07	Physically Impairment Impeding Safe Driving	6	Up to 12 months
CODE	**OTHER**	**POINTS**	**LENGTH**
X-01	Violation of Instruction Not Otherwise Listed	2	
X-02	Accumulation: 12 Points in 12 Months	-	3 months
X-03	Accumulation: 18 Points in 24 Months	-	6 months
X-04	Accumulation: 6 Tickets in 12 Months	-	12 months
NOTES			
Note 1	If revocation for an Implied Consent violation is combined with a DUI/DWI conviction, the revocation periods will run consecutively, up to a maximum of 36 months.		
Note 2	In cases where a driver incurs multiple suspensions or revocations, the time periods will be served consecutively (back-to-back).		
Note 3	Failure to have or maintain proper insurance will result in a suspension/revocation of driving privileges and/or points added to the driving record. Anyone stopped without proof of insurance is not authorized to operate any vehicle until they can show valid proof.		
Note 4	Points will not be assessed for the administrative act of a suspension or revocation itself. The only exceptions are for Implied Consent violations and other violations determined by the WTRO to be specifically unsafe acts.		
Note 5	Certain violations related to the vehicle's condition or registration status (e.g., expired road tax, improper decals) will be assessed against the registered owner/sponsor, not the operator, unless the operator acts on the owner's behalf via a Power of Attorney (POA).		
Note 6	For this violation, an DAF Form 3545 Incident Report will also be completed. A revocation of driving privileges for up to one year will be considered, especially if dangerous conditions exist (e.g., hot weather). The incident will be referred to Family Advocacy (for military) or YCAP (for civilians).		
Note 7	Military members married to other military members may register vehicles in their own names. The registered owner is always responsible for maintaining current JCI, Road Tax, and Liability insurance.		
Note 8	374 SFS/S5R is authorized to issue traffic citations based on reliable information or information received during an investigation, not just from a direct traffic stop.		

Chapter 6

IMMOBILIZING AND IMPOUNDING PRIVATELY OWNED VEHICLES (POV)

6.1. Vehicle Immobilization (Booting). To maintain safety and order, 374 SFS may employ a wheel clamp ("boot") to immobilize POVs for egregious or repeated illegal parking violations. This measure applies to vehicles found blocking fire lanes, hydrants, emergency access points, or for other significant parking offenses.

6.1.1. *Removal Procedure*: When boot is applied, instructions will be affixed to the vehicle directing the owner to report to the 374 SFS/BDOC (B210). To have the boot removed, the violator must be accompanied by a SNCO or higher from their chain of command. At the time of removal, DD Form 1408 will be issued. Unauthorized attempts to remove the boot may result in further penalties.

6.1.2. *Failure to Report*: If the owner fails to report with their chain of command within 72 hours of the boot being applied, the vehicle will be deemed abandoned and will be processed for impoundment and removal as detailed in the following sections.

6.2. General Policy and Authority for Impoundment. The 374 SFS/S2 is responsible for all SOFA vehicle impoundment procedures on YAB, conducted at the impound lot adjacent to B4072. All impoundments, releases, and disposals are conducted IAW SFOI 31-101 and DoDM 4160.21-M. This chapter establishes the standards for these actions in the interest of traffic safety and public convenience, while respecting individuals' constitutional rights.

6.3. Standards for Impoundment. Before impounding a vehicle, 374 SFS will make reasonable attempts to notify the owner. However, a vehicle will be impounded when it threatens public safety, interferes with traffic, is involved in criminal activity, or has outdated administrative paperwork. Specific reasons for immediate impoundment include, but are not limited to:

6.3.1. *Safety Hazards and Obstructions*: The vehicle is illegally parked in a fire lane, blocking a hydrant, obstructing emergency operations, or is mechanically defective and poses a hazard.

6.3.2. *Criminal Involvement*: The vehicle was used in a crime, contains evidence, or the operator was apprehended for a serious offense like DUI or refusing a chemical test.

6.3.3. *Failure to Comply*: The operator refuses to submit to a base entry/exit point or sobriety check.

6.3.4. *Abandoned*: The registered owner has PCS'd without a valid POA, or the vehicle has been left unattended and/or inoperative for more than 72 hours.

6.3.5. *Unlawful Operation*: Vehicle is being operated by a person with a suspended/revoked license, with critical expired documents (e.g., JCI, registration), or with a missing rear license plate seal.

6.3.6. *Improper "For Sale" Parking*: The vehicle is parked for sale in any location other than the authorized "Resale Lot."

6.3.6.1. Resale Lot Rules: To use the Resale Lot, the owner must obtain a display permit from the Yujo Community Center and display it on the dashboard. The permit is valid for up to 30 days but will not exceed the vehicle's document expiration date. Vehicles in the lot without a valid, current permit will be cited and may be impounded.

6.3.7. *Off-Base Vehicles*: A vehicle located off-base may be impounded if it is identified as abandoned or if Japanese authorities request assistance.

6.3.8. *Command Directed*: When ordered by the 374 AW/CC, 374 MSG/CC, or 374 SFS/CC.

6.4. The Impoundment Process.

6.4.1. *Tagging and Notification*: For a suspected abandoned vehicle, 374 SFS will place a DD Form 2504, *Abandoned Vehicle Notice*, on the vehicle. The owner has 72 hours to report to the BDOC to clear the notice.

6.4.2. *Towing and Documentation*. If the owner fails to respond within 72 hours, 374 SFS/S2 will authorize the vehicle to be towed. 374 LRS provides 24-hour towing support at the request of 374 SFS only. **Note**: Wrecker operators are not liable for damages incurred during an authorized tow.

6.4.2.1. Once impounded, the vehicle's details are entered into the 374 SFS blotter, and a thorough inventory is documented on a DD Form 2506, *Vehicle Impoundment Report*.

6.4.3. *Formal Owner Notification*: 374 SFS/S2 will send a DD Form 2507, *Notice of Vehicle Impoundment*, via certified mail to the last known owner. The owner has 60 days from the date of the letter to claim the vehicle or release it to the government.

6.5. Retrieving an Impounded Vehicle. To retrieve an impounded vehicle, the owner must report to 374 SFS/S2 and fulfill all requirements based on the reason for impoundment. In all cases, owner must provide a signed commander or First Sergeant letter authorizing the release (**Attachment 4**). **Note**: A vehicle will not be driven out of the impound lot unless it meets all legal requirements.

6.5.1. *Correcting Deficiencies*: Owner must show proof of insurance, registration, and inspection before vehicle will be released. This may require obtaining temporary plates to get a new inspection.

6.5.2. *Financial Responsibility*: Before release, the owner must reimburse the government for all associated costs, including towing, storage, disposal, and administrative fees. Payment is handled via cash collection voucher or pay garnishment.

6.6. Disposal of Unclaimed Vehicles. If a vehicle is not claimed within the 60-day notification period, or if the owner cannot be identified, 374 SFS/S2 is authorized to have the vehicle de-registered and disposed of through a local junkyard or other agency IAW DoDM 4160.21-M. The owner remains liable for all associated costs.

DANIEL E. MENDOZA, Colonel, USAF
Commander, 374th Airlift Wing

Terms

Ability—Having physical proximity and motor skills to put a vehicle in motion.

Aggressive/High-Risk Driver—Endangering people or property with traffic violations like speeding, tailgating, or running red lights.

Complete Stop—Total cessation of forward momentum, where the speedometer reads zero.

Driving under the Influence (DUI)—Violation of YAB Commander's Drinking and Driving Policy. BAC/BrAC Level of .03% to .079%.

Driving While Intoxicated (DWI)—Violation of YAB Commander's Drinking and Driving Policy. BAC/BrAC Level .08% or higher.

Drunk or Impaired—Intoxication from alcohol (drunk) or other substances (impaired) sufficient to degrade one's mental or physical faculties.

Inattentive Driving—Failure to pay proper attention to the road due to distractions like talking, eating, or using electronic devices.

Installation Entry/Exit Point Checks—Commander-directed inspections to protect the installation.

Japanese Compulsory Insurance (JCI)—Legally mandated insurance covering personal injury liability. It does not cover property damage.

Major Accident—An accident involving death, serious injury, disabling damage, or damages of $10,000 or more.

Minor Accident—Any accident that does not meet the criteria for a Major Accident.

On Base—The areas within Yokota AB and the Tama Hills Recreational Area.

Off-Base Jurisdiction—Areas falling under the responsibility of the Kanto Regional Police Bureau consisting of Saitama-Ken, Ibaraki-Ken, Tochigi-Ken, Gunma-Ken, Chiba-Ken, Niigata-Ken, Nagano-Ken, Chuo Expressway, and the areas falling under the responsibility of the Tokyo Metropolitan Police Department (Tokyo-To) except the Machida Police Station.

Operate—To drive, guide, or manipulate a vehicle's controls to cause it to move.

Parked/Standing—A stationary vehicle, whether occupied, running, or not. For enforcement, these terms are the same.

Passenger—Any person in a vehicle other than the operator.

Pedestrian—Any person on or near a roadway, sidewalk, or parking lot.

Physical Control—The present capability to dominate, direct, or regulate a vehicle, even if it is not in motion (e.g., sitting behind the wheel with the keys).

Reckless Driving—Operating a vehicle with a culpable disregard for the foreseeable consequences to others, creating imminent danger.

Revocation—The loss of driving privileges for more than 6 months.

Roadway—The improved portion of a highway intended for vehicular travel, excluding the shoulder or sidewalk.

Road Rage—A criminal act involving a deliberate attempt to harm others or property with a vehicle.

Skaters—Individuals using roller skates/blades, skateboards, or manual scooters.

Sobriety Checkpoints—Commander-directed enforcement operations to detect and deter impaired driving.

SOFA Status—U.S. military personnel, civilian employees, contractors, and their dependents

Suspension—The loss of driving privileges for 6 months or less.

U-turn—Turning a vehicle to proceed in the opposite direction.

Vehicle—Every device used to transport people or property on a roadway, except those moved by human power or on rails.

REQUEST FOR REBUTTAL OF TRAFFIC CITATION

Table A2.1. Request For Rebuttal of Traffic Citation.

MEMORANDUM FOR 374 SFS/S5R (REPORTS & ANALYSIS)

FROM: [Your Rank and Full Name and your Unit/Symbol]

SUBJECT: Traffic Citation Rebuttal of DD Form 1408 # [Enter number from top right of ticket]

1. I respectfully submit this memorandum to rebut the traffic citation issued to me on [Date of Citation] at approximately [Time] at [Location of incident, e.g., "the intersection of Airlift Ave and Friendship Blvd"].

2. Summary of Incident: In this paragraph, provide a brief, factual account of what happened from your perspective. State the violation you were cited for (e.g., "I was cited for P02, Parking in a Fire Lane").

3. Basis for Rebuttal: This is the most important section. Clearly and respectfully explain why you believe the citation was issued in error. Present any evidence or logical points that disprove the validity of the ticket. Focus on the facts of the incident. (For example: "I believe the citation was issued in error because the area I parked in did not have any visible signs showing it was a fire lane.")

4. Thank you for your time and consideration of this rebuttal. My point of contact information is [Your Phone Number] or [Your Email Address].

[Your Typed Full Name, Rank, USAF] 1st Ind, [Your Unit Endorser's Office Symbol, e.g., 374 MSG/CC]

MEMORANDUM FOR 374 SFS/S5R

I, [Endorser's Rank and Name], have reviewed this rebuttal request. I CONCUR / NON-CONCUR with my member's request.

Comments (optional but recommended): [Endorser provides brief comments here supporting their concurrence or non-concurrence.]

[Endorser's Typed Full Name, Rank, USAF] [Title], [Unit]

Attachment 3

REQUEST FOR MISSION-ESSENTIAL DRIVING PRIVILEGES

Table A3.1. Request For Mission-Essential Driving Privileges.

MEMORANDUM FOR 374 SFS/S5R (REPORTS & ANALYSIS)

FROM: [Your Rank and Full Name and your Unit/Symbol]

SUBJECT: Request for Mission-Essential Restricted Driving Privileges

1. I respectfully request mission-essential restricted driving privileges following the [suspension/revocation] of my USFJ Form 4EJ, effective [Date of Suspension/Revocation]. This request is based on critical mission requirements and is not for personal convenience. The vehicle for which privileges are requested is a [Year, Color, Make, Model] with plate # [Plate Number].

2. Justification: My duties as a [Your Job Title] in [Your Unit] require me to be physically present at my place of duty. A lack of driving privileges would directly impede my ability to support the mission. The requested privileges are limited to the following essential travel only:

3. Travel Plan: I plan to travel from my residence, [Your Address], to my duty site, [Building/ Location], and return. My duty hours are [Start Time] to [End Time], [Days of the Week]. Additionally, I will only travel to attend mandatory appointments (i.e. hospital) or to areas needed to properly maintain my vehicle (i.e. gas station, auto hobby, insurance).

4. I have completed all directed remedial training as required. [CHOOSE ONE] I have attached Course V, Driver Improvement Course certificate. OR [CHOOSE ONE] I have attached all ADAPT program documentation verifying completion.

5. I understand if approved, these privileges are a conditional trust. I will always carry a copy of the approval letter in my vehicle and will not deviate from the authorized routes or times. You may contact me at [Your Phone Number] or [Your Email Address].

REQUEST FOR RELEASE OF IMPOUNDED VEHICLE

Table A4.1. Request For Release of Impounded Vehicle.

MEMORANDUM FOR 374 SFS/S2 (INVESTIGATIONS)

FROM: [Your Rank and Full Name and your Unit/Symbol]

SUBJECT: Request for Release of Impounded Vehicle

1. My privately owned vehicle, a [Year, Color, Make, Model] with license plate number [Plate Number], was impounded on [Date of Impoundment] in connection with [State the reason, e.g., "Expired JCI," "DUI," "Abandonment," etc.].

2. I have been advised my command has taken final administrative action on this incident, and final disposition has been completed with the WTRO, where applicable.

3. [CHOOSE ONE OF THE FOLLOWING OPTIONS - DELETE THE OTHERS]

a. (For No Suspension/Revocation): My driving privileges were not suspended or revoked. I have corrected all administrative discrepancies and request the vehicle be released directly to me.

b. (For Suspension Less Than 6 Months): My driving privileges have been suspended. I request that my vehicle be released into custody of [Full Name, Rank, and Unit of individual taking custody].

c. (For Revocation of 6 Months or More): My driving privileges have been revoked. I intend to de-register and sell/dispose of my vehicle. I request the release of the vehicle's registration and title documents to accomplish this process.

4. I understand I am responsible for all towing and storage fees associated with this impoundment. My point of contact is [Your Phone Number] or [Your Email Address].

[Your Typed Full Name, Rank, USAF]

1st Ind, [Your Unit Commander's Office Symbol]

MEMORANDUM FOR 374 SFS/S2 (INVESTIGATIONS)

I, [Commander/First Sergeant's Rank and Name], have reviewed this request. Final administrative action has been taken, and there is no further need to hold the vehicle for disciplinary reasons.

I APPROVE / DISAPPROVE this request for release.

[Commander/First Sergeant's Typed Full Name, Rank, USAF]

Commander or First Sergeant, [Unit]

REQUEST FOR RESERVED PARKING SPACE

Table A5.1. Request For Reserved Parking Space.

MEMORANDUM FOR 374 AW/TRAFFIC SAFETY WORKING GROUP (TSWG)

FROM: [Your Office Symbol, e.g., 374 SFS/CC]

SUBJECT: Request for Reserved Parking Spaces for [Building Number and/or Facility Name]

1. This memorandum formally requests the approval and designation of the following reserved parking spaces for [Building Number/Facility Name]:

a.[Number] space(s) for [Position Title, e.g., "374 SFS/CC"]

b.[Number] space(s) designated for Government Owned Vehicles (GOVs).

c.[Number] space(s) designated for Handicapped accessibility.

d.[Number] space(s) for customer parking with a [Time Limit, e.g., "60-minute"] time limit.

2. This request has been reviewed and is submitted in accordance with YABI 31-116. The total number of requested spaces does not exceed the 10% limit for this facility's parking lot.

3. The point of contact for this request is [Name, Rank] at [Phone Number] or [Email Address].

[Requestor’s Typed Full Name, Rank, USAF]
[Title, e.g., "Commander, 374th Security Forces Squadron"]

FACT SHEET: UNDERSTANDING VEHICLE INSURANCE IN JAPAN

A6.1. This guide explains the mandatory insurance requirements for all USFJ personnel operating a vehicle in Japan. It is critical to understand these policies to protect yourself both legally and financially. Do not assume your U.S.-based insurance is valid in Japan. Always consult your insurance agent for specific details about your coverage.

A6.1.1. **What is Japanese Compulsory Insurance (JCI)?** JCI is the government-mandated, basic level of liability insurance required for every vehicle operated in Japan. Its sole purpose is to cover costs if you cause bodily injury or death to another person in an accident.

A6.1.1.1. *What it Covers*: JCI pays for medical treatment and other costs for people you injure, including pedestrians and occupants of other vehicles.

A6.1.2. *What it DOES NOT Cover*: JCI provides zero coverage for any damage to property, such as the other person's car, a fence, a building, or your own vehicle.

A6.1.3. *JCI Payout Limits (per person, per accident)*:

A6.1.3.1. For Injury: Up to ¥1,200,000

A6.1.3.2. For Permanent Disability: Up to ¥30,000,000

A6.1.3.3. For Death: Up to ¥30,000,000

A6.2. Why are there two types of insurance required? Because JCI only covers injury to others and has relatively low payout limits, USFJ regulations require all personnel to purchase an additional, separate commercial insurance policy to cover the significant gaps. This creates a two-layer system of protection:

Table A6.1. Insurance Coverages.

Insurance Type	What it Covers	USFJ Minimum Requirements
JCI	1. Injury or death to other people ONLY.	Mandatory by Japanese Law.
Commercial Liability	1. Property Damage (other people's property). 2. Injury/death costs that exceed JCI limits.	Property Damage: ¥3M ($30K) Bodily Injury: ¥30M ($300K)
Important: You are personally and financially responsible for any damages that exceed the limits of both your JCI and your commercial policy. Judgments in Japan can reach ¥120M or more for a single fatality, far exceeding the mandatory minimums. It is highly recommended to consider purchasing higher coverage limits.		

A6.3. Common Questions and Scenarios.

A6.3.1. *Are my family members covered to drive my car?* Not automatically. Japanese insurance policies can be very specific. Some only cover drivers over 26, while others only cover drivers explicitly named on the policy. You must verify with your insurance agent exactly who is authorized to drive your vehicle under your policy. An incorrect assumption can leave you completely uninsured.

A6.3.2. *What if someone hits my car and won't pay (e.g., hit-and-run)?* Your mandatory liability insurance will not cover repairs to your own car. To cover damage to your vehicle, you must purchase separate Collision and/or Comprehensive coverage.

A6.3.2.1. **Collision:** Covers repairs to your car after an accident.

A6.3.2.2. **Comprehensive:** Covers non-accident events like fire, theft, or a broken windshield.

A6.3.3. *What happens if I cause an accident while driving impaired or recklessly?* You can face criminal prosecution in a Japanese court, non-judicial punishment (NJP) or court-martial, loss of your driving privileges, and administrative discharge from the military. You will still be personally responsible for paying for all property damages out of pocket.

A6.4. The Importance of Post-Accident Conduct. In Japan, there is a strong cultural expectation to show remorse after an accident, often through a swift "condolence" payment to the injured party. Failure to do so can be seen as an insult and negatively impact civil negotiations. Furthermore, causing an injury in an accident can lead to criminal charges of Professional Negligence under Japanese law.

A6.4.1. Therefore, it is in your absolute best interest to contact your insurance agent and the base legal office immediately following any accident. They can provide critical advice on navigating these complex legal and cultural matters.

Attachment 7

POV SAFETY INSPECTION CHECKLIST

Table A7.1. POV Safety Inspection Checklist.

A7.1. This checklist outlines the minimum safety and operational requirements for all Privately Owned Vehicles (POVs). Each item must be inspected and found to be in working order to pass.

A7.1.1. **BRAKES & WHEELS**

Brake System & Pads: Master/wheel cylinders and lines are free of leaks; fluid level is correct. Have at least 1/3 of original thickness remaining on the pads.

Drums/Rotors: Free of cracks, deep grooves, and lubricant; meets minimum thickness.

Pedal & Handbrake: Brake pedal has at least 50% of its travel in reserve when fully applied. Handbrake/emergency brake holds the vehicle securely.

Tires: Tread depth is at least 2/32 of an inch across the entire tire. Free of cuts, bulges, or other damage. All tires on a single axle are of the same tread design. Do not extend beyond the vehicle's fender. Have the appropriate tire for the type of weather.

Wheels & Studs: Wheels are free of cracks or damage. All wheel studs and nuts are tight.

A7.1.2. **LIGHTS & ELECTRICAL**

All Lights: Headlights securely mounted, properly aimed, and fully operational (high and low beams). Taillights, brake lights, turn signals, parking lights, backup lights, license plate light, and emergency flashers are all fully operational. All light lenses are free of cracks, holes, or discoloration that would obstruct light.

Horn: Securely mounted and produces a loud, clear, standard signal.

Windshield Wipers/Washer: Wiper blades make full contact with the glass and are not cracked or brittle. Washer fluid sprays effectively onto the windshield.

A7.1.3. **VISIBILITY & GLASS**

Windshield/Windows: Free of cracks, chips, or damage that interferes with operator’s visibility.

Rear View Mirrors: Securely mounted and provide a clear view to the rear.

Speedometer: Securely mounted and operates without fluctuation; lens is clear and readable.

A7.1.4. **STEERING & SUSPENSION**

Steering System & Wheel: Affords positive control of vehicle with no excessive play. Power steering system is free of leaks. Wheel free of cracks or damage that compromises strength.

Shock Absorbers & Springs: Securely mounted, free of leaks, and effectively control rebound. Springs free of cracks or breaks; correctly assembled and secured.

Boots/Cups (CV & Steering): Not cut, torn, or cracked; all holding clamps are secure.

A7.1.5. **ENGINE, FUEL & EXHAUST**

Engine & Transmission: Securely mounted and free of major oil or fluid leaks.

Clutch: Engages smoothly without grabbing or chattering.

Fuel System: Tank, lines, and pump are free of leaks. Fuel cap is present and secures properly.

Exhaust System: Free of obvious leaks. Pipes, catalytic converter, and muffler are securely mounted with no excessive rust. Emissions conform to prescribed local standards.

A7.1.6. **DOCUMENTATION & ADMINISTRATIVE**

Japanese Compulsory Insurance (JCI): Must present a valid, unexpired JCI policy certificate.

Commercial Liability Insurance: Must present proof of a current liability policy that meets the minimum coverage required by USFJI 31-205.

Vehicle Title: Must present the official Japanese or Military Certificate of Title for the vehicle.

Military Registration: Must present a valid military registration document.

Road Tax Decal (USFJ Form 15A): The current year's decal is properly affixed to the inside of the windshield and is not expired.

License Plates: Both front and rear plates are securely mounted and clearly visible. The rear plate has an intact, official Japanese seal.

Seat Belts: All seatbelts are present, securely mounted, and fully functional (retract and latch properly). Webbing is free of cuts or frays.

A7.1.7. **REQUIRED EMERGENCY EQUIPMENT**

Road Flares: At least one emergency road flare is present in the vehicle.

Warning Triangle: A roadside emergency warning triangle is present (required for expressway).
