Supersedes: TYNDALLAFBI 31-203, 25 August 2008

This instruction implements Air Force Policy Directive (*AFPD) 31-1 Integrated Defense*. This instruction applies to all ACC activities and other USAF active duty tenant units assigned to Tyndall Air Force Base (TAFB). This instruction does not apply to the Air Force Reserve and the Air National Guard. This instruction establishes the policies, responsibilities, and procedures for the handling of inmates at TAFB. The terms "must," "shall," and "will" denote mandatory actions in this instruction. All organizations tasked by this instruction will ensure the capability is developed to satisfy all requirements. No waivers are granted. This instruction may not be supplemented or further implemented/extended. Send recommended changes or comments to Cyberspace Capabilities and Compliance (SAF/CIO A6X), 1800 Air Force Pentagon, Washington DC 20330-1800, through appropriate channels, using Air Force (AF) Form 847, *Recommendation for Change of Publication*. Requests for waivers must be submitted through chain of command to the OPR listed above for consideration and approval. This instruction requires collecting and maintaining information protected by the Privacy Act of 1974 authorized by 10 United States Code (U.S.C.) 8013 and Executive Order 9397. System of records notice (SORN) F031 AF SP A, *Correction and Rehabilitation Records* applies and is available at **http://dpclo.defense.gov/Privacy/SORNs.aspx**. Ensure that all records created as a result of processes prescribed in this instruction are maintain in accordance with (IAW) Air Force Manual (AFMAN) 33-363, *Management of Records*, and disposed of IAW Air Force Records Disposition Schedule (RDS) located in the Air Force Records Information Management System (AFRIMS).

SUMMARY OF CHANGES

This document has minor changes and must be reviewed in its entirety. Paragraph 1.6 changed the policy on holding civilian prisoners under civilian law enforcement officers' custody, and paragraph 11.5 added escort procedures for non-hospitalized inmates inside medical facilities for routine, outpatient medical appointments.

Chapter 1—ROLES AND RESPONSIBILITIES **4**

1.1. Tyndall Confinement Facility 4

1.2. Installation Commander 4

1.3. Parent Unit 4

Chapter 1

ROLES AND RESPONSIBILITIES

1.1. Tyndall Confinement Facility

1.1.1. The Tyndall Confinement Facility (TCF) is a Level I Air Force Confinement Facility (CF) designed to hold up to four inmates with a sentence of 180 days or less. Inmates receiving sentences to confinement over 180 days will be considered for transfer to a Level I Regional Correctional Facility (RCF) or higher.

1.1.2. Inmates confined in the TCF or nonmilitary institutions are subject to that institution's rules or directives including rules on discipline and treatment.

1.1.3. All inmates receive fair and humane treatment according to laws, instructions, and directives consistent with custody requirements.

1.2. Installation Commander

1.2.1. The installation commander approves deviations for Level 1 CFs except those relating to safety, transfer, and escort requirements which require Headquarters Air Force Security Forces Center, Corrections Division (HQ AFSFC/SFC) approval.

1.2.2. The installation commander must maintain capabilities to house pre-trial detainees and sentenced inmates up to 1 year. This can be accomplished through using Tyndall's CF or a HQ AFSFC/SFC coordinated/approved Memorandum of Agreement (MOA) with another corrections facility. The installation commander implements programs according to AFI 31-105, and ensures adequate Operation and Maintenance (O&M) funds are available for inmates in non-pay status.

1.2.3. The installation commander may authorize use of civilian facilities (state, county, and city) to incarcerate inmates. When no military facilities are reasonably available, facilities approved by the US Marshals Service may be used on a temporary basis. A facility may be used if the accreditation has come from the American Correctional Association, American Jail Association or by the state itself. The inmate's unit will use O&M funds to pay costs associated with housing or transferring the inmate.

1.3. Parent Unit

1.3.1. The inmate's unit is responsible for their confined personnel, regardless of location, until the member is formally gained into the Air Force Corrections System (AFCS). This responsibility includes, but is not limited to: providing escorts, assisting confined members' families, visiting confined members at least weekly, making telephonic contact when geographically separated, and obtaining transfer orders.

1.3.2. The parent unit commander is responsible for updating the personnel data system of changes in duty status until the inmate is transferred to HQ AFSFC/SFC. The parent unit must process and coordinate this duty status change with both the local Military Personnel Flight (MPF) and the Financial Services Office (FSO).

1.3.3. The parent unit commander or first sergeant must provide the confinement staff with a list of authorized visitors and escorts within 5 duty days. The visitors must be a parent unit E-7 or above and the escorts must be a parent unit E-5 or above.

1.3.4. Once an inmate or detainee is placed into confinement, the parent unit will receive a memo of the units' responsibilities from the confinement staff (Attachment 2). A signed copy will be given to the unit and the original will be kept in the inmate or detainee's Correctional Treatment File (CTF).

Chapter 2

CONFINEMENT ORDERS (PRE-TRIAL/POST-TRIAL)

2.1. Pre-Trial

2.1.1. The unit will ensure completion of AF Form 444, *Advisement of Rights Upon Pre-trial Confinement*, and DD Form 2707, *Confinement Order***.** The unit representative affecting the confinement completes the AF Form 444, and is witnessed by a confinement staff member, IAW Rules for Courts-Martial (R.C.M.) 304 and 305. NOTE: the confinement officer/NCOIC will not accept custody of a pre-trial detainee until the DD Form 2707, *Confinement Order,* is completed by the competent authority directing confinement (although a detainee will not be immediately admitted to a cell, security forces will not release the individual until completion of the DD Form 2707).

2.1.2. Unit commanders are responsible for making all appropriate notifications to victims and witnesses involved with a pre-trial detainee IAW AFI 31-105.

2.2. Post-Trial

2.2.1. The unit will ensure completion of the DD Form 2707. An authorized commissioned, warrant, or noncommissioned officer may sign the DD Form 2707, authorizing confinement. See Articles 9(b) and 11(a) of the UCMJ and MCM, R.C.M. 1101. The AF Form 1359, *Report of Result of Trial*, may serve in lieu of the DD Form 2707, if the accused was in continuous pre-trial confinement from the confinement date to the adjudged date.

Chapter 3

ISSUANCE AND CONTROL OF MEDICATION

3.1. Authorized Medications

3.1.1. Prescribed medication will be released to confinement staff for those inmates unable to depart the confinement facility. For off duty hour confinement orders, confinement staff will contact the on-call medical member to garner approval for administration of any medication prescribed prior to confinement.

3.1.2. Only medical personnel will administer controlled substances as medication for inmates/detainees. The confinement staff, or after hours personnel in charge of the facility, may administer inmate medication (other than controlled substances), after proper training is conducted by medical personnel. Medical personnel will conduct annual training on the issuance of inmate/detainee medication, which consists of initial issuance of medication by mouth.

3.1.3. All new inmates who arrive with medication will have the medication confiscated and cleared by a physician during their confinement physical prior to dispensing it to them. If feasible, have a new prescription written during the physical.

3.1.4. Over-the-counter medications (e.g., Tylenol, aspirin, etc.) may not be issued to inmates within the facility unless there is a corresponding medication log.

3.2. Medication Control and Accountability

3.2.1. All medication prescribed to an inmate will be maintained at the Base Defense Operations Center (BDOC) in a secure locker. The Confinement Staff will strictly control all medication and supplies.

3.2.2. The BDOC controller is responsible for maintaining inventory and accountability of all inmate medications at the beginning of each shift and documented in the daily confinement blotter. Staff members both during duty and non-duty hours are also responsible for ensuring the medications are dispensed in accordance with the physician's prescription.

3.3. Medication Issue Procedures

3.3.1. The confinement staff will ensure a medication issue log is utilized as outlined in AFI 31-105 paragraph. 5.7.9. Upon issuing the medication, a confinement staff member will annotate the time the medication was issued, starting medication count, and number of medications issued. The person issuing and the inmate receiving the medication will print and sign the log, which will be maintained as a permanent facility record.

3.3.2. All medications will be consumed by the inmate to whom they are prescribed under the observation of the staff member. Medication call will be conducted in the patrolmen’s office.

3.3.3. Only one inmate at a time will be given medication.

3.3.4. All personnel issuing medication to an inmate will ensure the medication is consumed in their presence by having the inmate open his/her mouth, lift his/her tongue, separate the cheeks and roll the top and bottom lip.

3.3.5. The inmate will not take medication while on a work detail unless first cleared by the Confinement Officer or NCOIC.

3.4. Medication Destruction

3.4.1. Medication no longer in use will be disposed of in coffee grounds or cat litter by the NCOIC and a witness as per the 325th Medical Group. The inmate medication log will be annotated of the disposal and filed in the inmate's Confinement Treatment File.

3.4.2. Log destruction of medication in the daily blotter.

Chapter 4

INMATE SIGN-IN/SIGN-OUT AND ESCORTS PROCEDURES

4.1. Parent Unit Escort Requirements

4.1.1. When Security Forces/Confinement Staff cannot meet minimum manning requirements, the inmate's parent unit is responsible for providing manpower to sustain facility operations.

4.1.2. Unit commanders will ensure personnel assigned to escort inmates do not have any disciplinary actions on their record. Persons with an unfavorable information file, civilian felony conviction, court-martial conviction, non-judicial punishment, pending investigations, criminal history, and history of substance abuse or individuals who may sympathize with the inmate will not be tasked to supervise inmates.

4.1.3. Escorts of inmates must be of the same sex in accordance with AFI 31-105 paragraph 2.4.1.4.1.

4.1.4. Parent units will ensure that an appropriate number of escorts are assigned according to the inmate's custody grade. At a minimum, one escort must be an authorized officer or NCO of equal or higher rank.

4.2. Inmate Custody Grades

4.2.1. Maximum custody: Inmates require two Security Forces escorts, one of which must be armed. Maximum custody inmates will not be escorted with lower custody inmates. Use approved restraining devices, i.e. handcuffs, belly chain (strap), and leg irons.

4.2.2. Medium custody: Inmates require parent unit personnel using a ratio of one escort per inmate. When Security Forces conduct the escort, the ratio is one escort per two inmates.

4.2.3. Minimum custody: Inmates require parent unit personnel to use a ratio of one escort per four inmates. When Security Forces conduct the escort, use a ratio of one escort per eight inmates. Allow inmates in this custody grade to sign out and report only to work details unescorted.

4.3. Escort Procedures

4.3.1. On base: Inmates will be signed out via DD Form 2708, *Receipt for Prisoner or Detained Person*. An escort briefing will be given to the individual from the parent unit receipting for the inmate. All escorts will ensure they are knowledgeable of all escort responsibilities and sign for an inmate via the inmate sign-in/sign-out log located at the BDOC.

4.3.2. Off base: If an inmate is to be escorted off the installation, prior approval must be obtained from the Confinement Officer. Before the supervisor or escort departs the installation with an inmate, they will be given a specific escort briefing (verbal and written) detailing requirements for escorting off-base. A DD Form 2708 will be accomplished. The vehicle driver will not be used as an escort for or off-base escorts.

Chapter 5

HEALTH AND COMFORT (H&C) ITEMS

5.1. Health and Comfort (H&C) Items

5.1.1. H&C items for inmates in non-pay status are issued according to facility guidelines and may be procured in several ways. Items are purchased using parent unit O&M funds, or the confinement officer establishes an issue stock of items, purchased through installation O&M funds. Additional guidance is found in DODI 1325.7, *Administration of Military Correctional Facilities and Clemency Parole Authority*.

5.1.2. Inmates/detainees in pay status must purchase items using their Personal Deposit Fund (PDF), to include health and comfort items, postage stamps, and envelopes. Facility commanders may impose reasonable limitations on inmate use of personal funds.

5.1.3. As a minimum, the unit will provide items for personal hygiene, in compliance with AFI 36-2903, *Dress and Personal Appearance of Air Force Personnel*, postage stamps, and envelopes for inmates in non-pay status.

5.1.4. AFI 40-102, *Tobacco Use in the Air Force*, governs smoking and tobacco use. The Tyndall Confinement Facility is a non-smoking facility.

Chapter 6

CLOTHING

6.1. Inmate Clothing Requirements

6.1.1. The parent unit commander or his appointee will be given a list of authorized clothing, Attachment 3, from the Confinement NCOIC and will ensure the inmate has all required clothing upon entry into confinement. At a minimum, inmates will have one complete set of service dress, four complete sets of ABU/ACUs, one field jacket, one short-sleeve light blue shirt (or service equivalent), one pair of boots, one pair of low quarter shoes, appropriate belts, headgear, undergarment, socks, and one set of athletic attire and running shoes. The parent unit provides missing or unserviceable items prior to confinement or transfer. If an item or items are not on the list, they are not authorized.

6.2. Distinctive Uniform Use

6.2.1. Pre-trial detainees and post-trial inmates confined in the Tyndall Confinement Facility will continue to wear the ABU uniform. Distinctive uniforms will only be authorized on a case-by-case basis for those detainees/inmates posing a danger to the public or an escape risk and then only after MAJCOM coordination and HQ AFSFC/SFC approval. If approved, pre-trial detainees will wear the black and white coverall. Post-trial inmates (maximum, medium, and minimum custody grades) will wear the orange coverall.

6.3. Pre-Trial Uniforms

6.3.1. Pre-trial detainees are military members not convicted of a crime and will continue to wear all authorized rank insignia, badges, patches, devices, etc. If it is determined by the Chief, Security Forces (CSF) that a pre-trial detainee poses a threat or an escape risk, a distinctive uniform will be worn upon approval IAW paragraph 6.2. In such a scenario, the parent unit will provide an aircrew-style patch with the detainee's last name, rank, and branch of service immediately upon placing an individual into pre-trial confinement.

6.4. Post-Trial Uniforms

6.4.1. Adjudged and sentenced inmates are still military members however, they are not afforded many of the privileges of military members and will wear the ABU/ACU uniform with only the cloth USAF and name tapes affixed. If the CSF determines that an adjudged or sentenced inmate poses a threat or an escape risk, a distinctive uniform may be used IAW paragraph 6.2. In such a scenario, the parent unit will provide an aircrew-style patch with the inmate's last name and branch of service immediately upon placing an individual into confinement. Newly adjudged inmates will be in-processed, then placed into segregation and will wear protective clothing (e.g. suicide smock) if needed until a mental health representative conducts a mental health assessment.

6.4.2. All adjudged and sentenced inmates will wear grade insignia and authorized badges and devices only on service dress uniforms for court proceedings/hearings (and religious services, only if other military members are in attendance), if not a threat/escape risk. No rank insignia will be worn during the period of confinement regardless of rank. This aspect is for the purpose of inmate population management and control and is not to be viewed as a form of punishment.

Chapter 7

INMATE VISITS AND COMMUNICATION

7.1. Visitation Times and Authorized Visitors

7.1.1. Normal visitation hours are Sundays and federal holidays from 1500-1700 hours.

7.1.2. Official visits by unit commanders, first sergeants, parent unit E-7s and above, chaplains, SJA/ADC, and Mental Health personnel are authorized at any time.

7.2. Visitation Procedures

7.2.1. The visitation area will be searched prior to and after any visitation if conducted inside the confinement area. The middle door will be closed during visitation. If there are two or more inmates, the visitation will be moved to the guardmount room.

7.2.2. Only persons authorized by the confinement staff may visit inmates.

7.2.3. Visitors must show a valid picture ID and sign the Visitation Log.

7.2.4. All visitors are required to follow the Visitation Rules Memorandum.

7.2.5. Visitors will not be allowed to bring food or beverages into the visitation area. Visitors are not allowed to bring gifts or personnel items to the confinement facility. All items will be brought to the confinement staff during normal duty hours (Mon-Fri, 0730-1630).

7.2.6. Children under the age of sixteen will not be allowed to visit an inmate without a parent or guardian present. An inmate is not counted as the parent or guardian.

7.2.7. Visitors will only be allowed to see one inmate per day, which will be the inmate they originally requested to see.

7.2.8. If inmates or visitors become loud or boisterous, they will be instructed to correct their conduct. If they fail to comply, the visitation will be terminated and the confinement staff notified.

7.2.9. If the visitation room becomes too crowded, the number of visitors will be reduced (two per inmate), giving priority to family members.

7.2.10. Physical contact during visitation is limited to inmates embracing visitors upon arrival and departure. Any other physical contact during the visit is misbehavior and grounds to terminate the visit.

7.2.11. Visitors are not allowed to enter the visitation area with any hand carried items or garments. The visitors must make arrangements to secure these items. Security Forces monitoring the visitation will not be responsible for the visitors' personal property.

7.2.12. Inmates may refuse a visit at any time. If this occurs, inform the visitor the inmate has refused visitation and document in the blotter.

7.3. Other Inmate Communications

7.3.1. Inmates will not receive incoming calls except from their attorney(s), unit commander, or first sergeant. In addition, inmates will not receive emergency telephone calls until

approved by a member of the confinement staff and verified by the Red Cross that the call involves a death or serious illness within the inmate's immediate family.

7.3.2. Telegrams received after-duty hours, weekends, or holidays will be forwarded to the confinement officer, superintendent, or NCOIC for inmate notification.

7.3.3. All outgoing calls or electronic messages from inmates will require prior approval by the confinement officer, superintendent, or NCOIC. In accordance with AFI 31-105, *The Air Force Corrections System* all outgoing calls are collect to the party called (phone cards are not authorized since they can be used as a form of monetary media).

7.3.4. Collect telephone calls will never be accepted on behalf of an inmate. In the event of an incoming emergency phone call, the operator will be instructed to advise the caller to contact the American Red Cross.

Chapter 8

UNIT RESPONSIBILITIES FOR INMATE TRANSFERS

8.1. Unit Responsibilities for Inmate Transfers

8.1.1. The parent units are responsible for the inmate's orders and transportation arrangements. The unit first sergeant or designee will ensure an AF Form 899/R*equest for Authorization to PCS* (without PCA) is accomplished. The unit will also make travel arrangements through the Travel Agency and ensure the Confinement NCOIC receives a copy of the itinerary as soon as one is available.

8.1.2. Prior to transfer, the Confinement Officer or appointee will conduct a pre-transfer conference with the inmate and the inmate's commander or appointed representative to explain the purpose of the transfer and resolve the disposition of property and funds. The Confinement Officer or appointee schedules the conference just prior to transfer. Adequate time will be provided for the inmate to accomplish any personal actions prior to transfer. The inmate will not be notified of the exact date and time for transfer. The unit will advise the inmate of dependent travel and shipping entitlements. All transfers to a Level 1 RCF or higher will be coordinated through HQ AFSFC/SFC.

8.1.3. The inmate's unit provides escort(s); it is preferred that two escorts conduct an inmate transfer. Vehicle operators do not count as an escort. Unit escorts will hand-carry the inmate's original CTF and release it to the gaining facility.

8.1.4. Prior to transfer, the losing commander provides documents relating to security clearance suspension or withdrawal for inclusion in the CTF.

8.1.5. Prior to transfer (to a Regional Confinement Facility or higher facility), the parent unit commander determines whether or not to retain or administratively separate officers and enlisted inmates who do not have a dismissal or punitive discharge adjudged.

8.1.6. Upon receipt of transfer approval, the escorts will make telephonic contact with the AF liaison or gaining facility staff to obtain information on local travel conditions and to coordinate a pick-up detail or escort accommodations. Verify that all required documents are in the CTF and the inmate has all clothing, health, and comfort items required for the facility. Ensure inmates arrive with documentation, which clearly indicates their legal status and sentence as imposed by a military court (or as modified by subsequent convening authority action). Include copies of AF Form 1359, deferment orders, accurate documentation of pre-trial confinement, documentation relative to any emotional or behavioral problems, and a record of trial (when required by AFMAN 51-203 and when available).

8.1.7. Escorts will not hand-carry the Unit Personnel Records Group (UPRG) to the designated confinement facility. The inmate's FSS forwards the UPRG and a current records review report on individual duty within 15-days after transfer, to AFSFC/SFCP, 1517 Billy Mitchell Blvd, JBSA Lackland TX 78236-0119. After the inmate arrives at the gaining facility, AFSFC/SFCP updates e-ARMS data.

8.1.8. Prior to the transfer, the inmate's MTF will provide the escorts with a complete copy of the Service Treatment Record (STR). The MTF mails the original STR to: 59th Medical

Wing, Wilford Hall Ambulatory Surgical Center, ATTENTION: Outpatient Medical Records Dept, 2200 Bergquist Drive Suite 1, JB San Antonio-Lackland TX 78236-9908.

8.1.9. If an inmate is deemed suicidal by Mental Health personnel, the parent unit of the inmate must provide individual(s) to sit in the common area with inmate (if necessary).

8.1.10. Ensure all additional instructions sent by HQ AFSFC/SFC via Defense Message System (DMS) are completed.

Chapter 9

MILITARY PERSONNEL SECTION (MPS)

9.1. Military Personnel Section

9.1.1. The MPS will not drop inmates from the rolls (PTI 801,804,904) or allow inmates date of separation (DOS) to expire. Update administrative hold in such cases.

9.1.2. All pay actions are the responsibility of the losing base pending convening authority (CA) action/court-martial order published. Inmate will be returned to the unit of assignment if no punitive discharge has been adjudged/CA has not acted and the inmate has reached the minimum release date.

9.1.3. Ensure AF Form 2098, *Duty Status Change* is processed from the losing unit and filed in the member's ARMS. Force Management Operations (FMO) will ensure a CMS case is created for the Total Force Service Center (TFSC) to update member Duty Status and Lost time.

9.1.4. For ID card(s) reference AFI 36-3026, *Identification Cards for Members of the Uniformed Service, Their Family Members, and Other Eligible Personne*l.

9.1.4.1. Civilian and Military Confinement. Issuing activity verifies DD Form 1172 and issues ID cards to dependents of members sentenced to civilian or military confinement in 1-year increments, or less, as appropriate. Service representatives retrieve and return ID cards to DMDC for members assigned to DoD Regional Corrections Facilities. Refer to AFI 36-3026, Chapter 25 by contacting Service DEERS Project Office for mailing instructions. Do not terminate DEERS entitlements. Do not terminate dependents in DEERS, even if their sponsors are past their date of separation or expiration of term of service. Issuing activity updates sponsor status in DEERS to reflect prisoner/appellate leave (PR/APL) while in confinement or on appellate leave conditions.

9.1.4.2. Uniformed Service Representatives for Retrieving and Disposing of ID Cards for Members Assigned to DoD Regional Correctional Facilities. For Air Force personnel HQ AFSFC retrieves prisoner’s ID card. HQ AFSFC/SFCI accomplished this for post-trial members.

9.1.5. Upon receipt of court martial order, do not update reduction in grade. This will be accomplished by HQ AFPC/DDDWM. Ensure promotion eligibility (PES) code F is updated. Special Actions will update UIF.

9.1.6. Upon departure of the inmate, FMO will ensure a CMS case is created and submitted to AFPC to return member Present for Duty.

9.1.7. Inmate and dependent orders, reference: AFI 36-3020, *Family Member Travel*.

9.1.8. If the inmate is an officer and selected/eligible for promotion, refer to AFI 36-2504, *Officer Promotion, Continuation and Selective Early Removal in the Reserve of the Air Force*.

9.1.9. Upon receipt of GCMO, eligible inmates can be approved for PCS transfer to HQ AFSFC/SFC. Assignment action number is furnished with instructions. PCS without PCA orders may be amended to transfer to HQ AFSFC.

9.1.10. Ensure all additional instructions sent by HQ AFSFC/SFC via e-mail and Defense Message System (DMS) are completed.

Chapter 10

FINANCE/FSO

10.1. Finance/FSO

10.1.1. Finance will create a folder on the inmate. Label: **NAME/SSAN/GAINING FACILITY**.

10.1.2. Stop BAH the day prior to confinement for pay status inmate.

10.1.3. Obtain T21 printout, ensure member is in confinement status.

10.1.4. Complete a manual pay computation with the T21 printout to ensure inmate is receiving the correct entitlements.

10.1.5. Check indebtedness files (remissions and waivers). If the inmate has any pending debt, pull indebtedness package.

10.1.6. Check dependency determination pending action. Ensure you pull package.

10.1.7. Forward entire folder to HQ AFSFC/SFCI.

10.1.8. Ensure all additional instructions sent by HQ AFSFC/SFC via Case Management System (CMS) are completed.

10.1.9. The inmate’s servicing Financial Services Office maintains pay records unless otherwise directed by HQ AFSFC/SFC. When an inmate goes on excess leave, HQ AFSFC/SFC will become the inmate's FSO.

Chapter 11

MEDICAL GROUP

11.1. Medical Group Support

11.1.1. In accordance with AFI 31-105, paragraph 3.1, it is required that inmates receive a physical examination by medical personnel within 24-hours after entry into confinement or next duty day when processing on weekends or holidays. The examination at a minimum includes a medical and mental health (behavioral) records review and a physical examination. The medical officer will test for communicable diseases including HIV, Hepatitis B, and Tuberculosis (TB), and conduct urinalysis testing for illegal drug and narcotic use. Female inmates will be given a pregnancy test, with results annotated in the medical records. If an inmate is confined for a "Qualifying Military Offense" (QMO), the inmate will have blood drawn for a DNA test which will be forwarded to US Army Criminal Investigation Lab. The Confinement NCOIC will provide a test kit for this lab work. The Family Practice Clinic will ensure a walk-in status is available to all inmates, whether pre-trial or post-trial. Medical staff will test/evaluate an inmate or detainee that is HIV positive monthly. If the confinement facility is housing an HIV positive inmate or detainee with inmates or detainees that are HIV negative, they too will be tested monthly.

11.1.2. In accordance with AFI 31-105, paragraph 3.1., medical staff members will evaluate each inmate as soon as possible within 24-hours of entering administrative or disciplinary segregation, and will visit at least once every 72-hours thereafter in order to evaluate inmate's health and sanitary conditions. For after-normal duty hour confinement orders, the Confinement staff will contact the on-call medical member for an immediate mental health evaluation if deemed necessary in conjunction with administrative or disciplinary segregation. This specific evaluation will be conducted inside the Tyndall Confinement Facility.

11.1.3. Medical records will be released to the individual and or confinement officer or designee upon receipt of official orders for transfer to a DoD confinement facility other than Tyndall. Upon notification of transfer, the dental clinic will mail inmates dental records to the gaining facility.

11.2. Hospitalized Inmates

11.2.1. The NCOIC will ensure all inmate medical matters are coordinated through 325th Medical Group (MDG).

11.2.2. The TCF staff will provide the hospital staff a brief history of the inmate's conduct and custody grade.

11.2.3. If local, the inmates owning unit will provide an escort detail and/or guard personnel when required, consistent with the custody grade of the inmate and TCF security requirements IAW with AFI 31-105.

11.3. Non-Hospitalized Inmates

11.3.1. Inmates requiring routine, outpatient medical attention will be escorted to the 325 MDG for appointments.

11.3.2. Maximum custody inmates will be escorted to the clinic in handcuffs with a belly band and shackles. Physical restraints will be removed in an exam room only if it is necessary for medical staff member to provide medical services.

11.3.3. Medium and Minimum custody inmates will be escorted to the clinic without the use of restraints. At the inmate's request and the medical staff's concurrence, escorts may stand outside the exam room during the exam.

Chapter 12

RELEASE FROM CONFINEMENT

12.1. Release from Confinement

12.1.1. Inmate release is a two-step process. It begins with a pre-release conference and ends with an actual release. Prior to the pre-release conference, the Confinement Staff will acquire professional assistance for the inmate through the Transition Assistance Program (TAP). The installation CSF coordinates the release of inmates with the installation commander and the unit commander when the inmates complete their sentences to confinement, or are approved by the Air Force Clemency and Parole Board (AFC & PB) for release on parole. The Convening Authority directs inmates to be placed on excess leave upon completion of confinement (AFI 51-201, *Administration of Military Justice*, paragraph 9.3. and 9.12.) Parent unit will make all appointments necessary for a timely release from confinement.

12.1.2. The confinement staff, in the presence of the inmate's unit commander or designated representative, conducts a pre-release conference with the inmate 3 calendar days before release. Use DD Form 2718, *Inmate Release Order*, to authorize release from confinement. The confinement officer will release pre-trial inmates upon order of an authorized official (e.g., confining official).

12.1.3. The parent unit is responsible for submitting the proper documentation to the FSO to place member on excess leave. Timely coordination with the confinement facility, unit commander and the FSO ensures prompt release from confinement and the member will no longer be entitled to receive pay and allowances.

Chapter 13

DISCHARGE PROCEEDURES

13.1. Discharge Procedures

13.1.1. A discharge or dismissal will not be executed until appellate review is completed and discharge or dismissal has been ordered executed (Final Order). An accused awaiting appellate review of an unsuspended punitive discharge who has already completed the period of confinement, may be involuntarily placed on excess leave by direction of the convening authority IAW Article 76a, UCMJ, and AFI 51-201, paragraph 9.12. When legal reviews are completed, members will be discharged and AF Form 100, *Request and Authorization for Separation* and DD Form 214, *Certificate of Release or Discharge from Active Duty* will be executed and copies furnished to the member.

13.1.2. If released on parole or excess leave pending completion of appellate review, the inmate's unit ensures inmates and dependent(s) are issued armed forces identification card(s) with an expiration date of one year from date of release.

DEREK C. FRANCE, Colonel, USAF
Commander

*	Eyeglasses (military issue)	1	of 1			Batteries	1 Pack	of 1	

2. Missing items are the responsibility of the inmate's unit to acquire and deliver within 24 hours of processing into confinement. To prevent the introduction of any contraband, **all personal hygiene items must be in their original unopened container** to be accepted by the confinement staff.

Attachment 3

UNIT RESPONSIBILITY MEMO FOR CONFINED PERSONS

Figure 3.1. Unit Responsibility Memo for Confined Persons.

DEPARTMENT OF THE AIR FORCE
325TH FIGHTER WING (ACC)
TYNDALL AIR FORCE BASE FLORIDA

MEMORANDUM FOR ___(Unit Name)_____ CC

FROM: 325 SFS/S3C

SUBJECT: Unit Responsibilities for Confined Persons

1. Parent unit commanders are responsible for their personnel regardless of location, until formal release/transfer of the confined person is complete. While not all-inclusive, normal responsibilities include: providing escorts (legal/medical appointments, transfers, out-processing, etc.); assisting confined member's family with dependent care matters; visiting confined members at least weekly; making telephonic contact at least monthly when geographically separated due to transfer/housing at an off-base facility; obtaining orders and names of escort officials if transfer is required; handling of all personal items when inmate is transfer or has too many in his locker; ensuring travel funds for escorts and inmates are provided by the parent unit fund cite (IAW AFI 65-601, Volume 1, para 10.2.1.l.); and ensuring the inmate has required clothing (IAW AFI 31-105). **Note: Transfers to another facility will require parent units to hand carry inmates CTF to gaining facility. At no time will the inmate be allowed to access the CTF.**

2. The parent unit will complete an AF Form 2098, *Duty Status Change*, to update the inmate's duty status code and process the form through the local Military Personnel Flight (MPF) and Accounting and Finance Office (AFO). Change the duty status to reflect "16" for pre-trial and "17" for post-trial confinement, as appropriate.

3. At a minimum, all inmates reporting for in-processing will have the following basic uniform items: one complete service dress, to include one pair of low quarter shoes (pre-trial only); one complete ABU set, to include one pair of boots; two sets of the AF PTU; and appropriate belt, undergarments, headgear, and socks. Parent units will provide any additional missing items IAW TAFBI 31-203 no later than the next duty day or prior to transfer.

4. Health and comfort items are purchased using parent unit O&M funds when an inmate is in "non-pay" status. Inmates remaining in "pay" status will personally purchase their items using their established PDF account. Typical charges include barber/beautician services with the

AAFES Base Exchange or other contract services. Parent units will use O&M funds to pay for similar services for those inmates in "non-pay" status.

5. Parent unit will provide, as escorts, only same-gender military member E-5 and above. For officer inmates/detainees the escorts must be at least an E-7 if the escorts are enlisted, and if the escorts are an officer the member must be at least an O-3. Escorts will receive a formal briefing on their responsibilities from a member of the confinement staff prior to assumption of escort duties. Unit commanders or appointees will ensure personnel assigned escort duties do not have any disciplinary actions on their records. Personnel with active unfavorable information file (UIF), civilian felony conviction, courts-martial conviction, non-judicial punishment, pending investigations, criminal history or history of substance abuse will not be tasked to escort or supervise inmates. In addition, parent units must be careful not to assign escort duties to any person who may sympathize with the inmate (i.e. peer who previously worked with the inmate, superior identified for personal visitation).

6. A signed letter, by the unit commander must be forwarded **within 72 hours** of confinement identifying the following:

Unit members (E-7 or above) who may visit the inmate on a routine basis
Unit members (E-5 or above) authorized to perform escort duties

Should the inmate require hospitalization, the parent unit will detail escorts to maintain comparable levels of custody grade and security requirements for the duration of the admittance. If the inmate is determined suicidal by 325 MDG Behavioral Science personnel, the parent unit will provide individual(s) to sit in the common area with the inmate and perform welfare checks.

7. In accordance with existing USAF policy, all inmates will conduct physical conditioning a minimum of three days per normal work week, between 0730 and 1630 hours. A signed letter, by the unit commander, must be forwarded within 5 duty days following sentencing, identifying the following:

Unit members (E-5 or above) authorized to escort for physical conditioning

If parent units cannot fulfill this requirement due to unforeseen circumstances, the confinement NCOIC will be notified via e-mail or telephone NLT 24 hours before the appointment.

8. Parent unit commanders or appointees are required to disseminate a base-wide e-mail to all commanders, chiefs, and first sergeants relaying the following information:

"If your unit has a need for someone to assist with details or manual labor, we have an inmate volunteering for sign-out to perform these <u>mission-essential</u> tasks. If any unit needing assistance, must have trained escorts. Please contact the 325 SFS Confinement NCOIC, SSgt Wilkins, at extension 283-9965."

9. Please address any questions concerning this memorandum to the undersigned at DSN 523-9965 or 850-890-1496.

Note: Inmates parent unit is responsible for disposing of unauthorized personal property when inmate is in processing or if same is received in the mail. Also, if an inmate is transferred or has too much property to be held at our facility the parent unit must make all arrangement for the handling all items.
