This instruction implements Air Force Policy Directive 36-1, *Appropriated Funds Civilian Management and Administration*. It explains how to initiate and electronically process personnel and position actions and provides guidance for supervisors of non-US citizen civilian employees. It applies to United States (US) Forces activities in Germany for which the US Air Forces in Europe act as executive agent for Local National (LN) civilian employment matters and who are serviced by the Foreign Forces Payroll Office (FFPO), Kaiserslautern. It does not apply to the Air National Guard (ANG) or Air Force Reserve Command (AFRC) units. Ensure that all records created as a result of processes prescribed in this publication are maintained IAW Air Force Manual (AFMAN) 33-363, *Management of Records*, and disposed of IAW Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS). Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through the appropriate functional chain of command. This publication may not be supplemented or further implemented/extended. Submit requests for waivers through the chain of command to the Publication OPR for non-tiered compliance items.

SUMMARY OF CHANGES

Explains, updates, and implements revised provisions on the initiation of personnel and position actions; personnel and position actions requested by supervisors; personnel actions requested by employees; and the process of requesting a personnel or position action. **Attachment 2** lists all Requests for Personnel Action (RPAs) by Nature of Action (NOA) family, **Attachment 3** provides detailed instructions on how to complete and process RPAs in the Defense Civilian Personnel Data System (DCPDS) and **Attachment 4** contains provisions for serviced organizations on how to submit RPAs in case there is temporarily no access to DCPDS.

1. Initiation of Actions. 2
2. Position Actions Requested By Supervisors: 3
3. Personnel Actions Requested by Supervisors: 4
4. Request for Personnel Action (RPA): 4
5. Effective Date of Actions: 5

Attachment 4— EMERGENCY PROCEDURES IN CASE OF COMPUTER FAILURE OR INABILITY FOR ELECTRONIC SUBMISSION OF AN RPA 23

1. Initiation of Actions. Actions will be initiated by:

1.1. Supervisor. Supervisory responsibilities encompass requesting personnel and position actions, as well as reporting changes in employee's personal or employment data. When an action is required or planned, the supervisor consults with the servicing Civilian Personnel Section (CPS) if help is needed on technical aspects of the action, ensures that coordination and approvals are obtained prior to submitting a request, and transmits an electronic request in DCPDS asking the CPS to take action.

1.2. CPS processes individual personnel and position actions only upon receipt of an electronic request in DCPDS from the supervisor unless an action must be taken under law or by other authority, or the decision to take an action is not within the supervisor's purview, e.g., a labor court decision orders the restoration of an employee to duty. In other instances, such as realignments or salary increases due to tariff negotiations, the CPS processes pertinent mass requests in the system.

1.3. Employees: Personnel actions addressed in this paragraph may be requested by employees. Requests may be in writing or requested electronically, and may be subject to

giving advanced notice IAW governing collective tariff provisions or directives issued by HQ USAFE. The following type of personnel action requests can be requested by an employee:

1.3.1. Change to Lower Grade.

1.3.2. Utilization of Quarters. These actions include assignment, change, and termination of US Government quarters authorized for employees subject to the Collective Tariff Agreement (CTA II), Appendix H or Z.

1.3.3. Parental Leave. This type of special leave is governed by the Federal Child Care Allowance and Parental Leave Act (*Bundeselterngeld- u. Elternzeitgesetz*), places an employee on leave without pay and reduces the annual leave entitlements by 1/12 for each full calendar month of parental leave taken. Supervisors must verify employee's eligibility with the CPS before approving.

1.3.4. Work Hour Changes.

1.3.5. Termination of Employment. Termination actions include resignation, optional retirement, or resignation to accept employment with another US Forces agency not serviced by an Air Force CPS. These are all voluntary actions. Therefore, supervisors or management officials must not ask or advise an employee to resign nor deny the right to resign or to terminate employment. If the supervisor is aware of reasons for a resignation which differ from those given by the employee, he/she may enter an appropriate statement on the electronic RPA, Part D. Oral resignations provided by employees may be accepted on an exceptional basis only, but must be confirmed by the supervisor or operating official. If an employee resigns orally, the official receiving the oral resignation enters an appropriate statement or explanation on the RPA, Part D, stating the reasons the employee gave (or a statement that no reasons were given) and the dates, names of any witnesses, and their statements. Refer to USAFEI 36-723, *Implementation of Collective Tariff Agreement (CTA II) and Overtariff Conditions for Labor in the Federal Republic of Germany* for more guidance about notice periods and waivers of those.

2. Position Actions Requested By Supervisors: Increases or decreases in the number of authorized positions, realignment of duties and responsibilities, functional transfers, reorganizations, and temporary additional workloads usually require position actions be taken. The following terms and basic criteria apply:

2.1. Establish. A position must be established before an employee or applicant can be assigned or hired to fill it. Validation of the need, such as the Unit Manning Document (UMD) or approved changes thereto, is required before the position can be set up. A position is established and may be filled when the validated workload requirement has been documented, the duties and responsibilities are described, certified, and classified, and a classification action has been completed by the servicing CPS.

2.2. Review. If the duties and responsibilities are to be changed from those described in the current (standard) Core Personnel Description (CPD), the CPS will be asked to review or audit the position.

2.3. Abolish. A position is to be abolished when no longer needed or authorized on the UMD. Requests to cancel filled positions must be routed to the CPS as far in advance of the proposed effective date as possible to permit timely action to place the employee or initiate Reduction in Force (RIF) action.

2.4. Record Changes. Any changes in position sensitivity, payroll numbers and accounting classification codes which do not cause other position changes must be reported to the CPS by an RPA, a pertinent memorandum, or a governing list.

3. Personnel Actions Requested by Supervisors:

3.1. Basic Personnel Actions. Among others, **Attachment 3** addresses the most common personnel actions initiated by supervisors.

3.2. Termination of Temporary Placement Actions. Termination of time-limited placement actions, keyed to an event rather than a specific date, requires prompt notification to the CPS. Typical examples are the return to duty of an employee from sick absence for whom a temporary replacement was hired or the completion of a special project performed by temporary over hires.

3.3. Adverse Actions. Any action by management that reduces an employee in pay plan, grade, or basic pay, or effects an involuntary separation from employment may be subject to legal restrictions or other specific processing procedures. To assure full understanding and compliance with governing laws, publications, and procedures, the supervisor must contact the CPS when considering such an action.

3.4. Assignment of Other Duties. Supervisors may not assign employees higher or lower level duties on a temporary or permanent basis before they have obtained the mandatory Works Council cooperation through the CPS. Temporary assignments to other duties in excess of 30 calendar days are to be treated as personnel actions.

4. Request for Personnel Action (RPA):

4.1. Personnel and position actions are requested by completing electronic RPAs and routing them through DCPDS. Upon approval, the system automatically returns a Notification of Personnel Action (NPA) that is to be signed, distributed and filed by the CPO. The NPA serves as the formal employment contract required IAW CTA II. Detailed completion instructions for RPAs are in **Attachment 3**, while **Attachment 4** contains provisions for supervisors on how to proceed if access to DCPDS is temporarily not available. When changes involve several employees, **paragraph 4.3** below applies.

4.2. A combined request for personnel and position actions such as “Establish and Fill” or “Termination and Abolish” may be routed on one RPA. For all other requested actions except mass actions addressed below, a separate RPA is required.

4.3. The results of sensitivity changes, payroll changes, modifications of accounting classifications, changes in the organizational designation of the unit or activity, and other mass changes that apply to several employees and do not require additional position or personnel changes are processed in DCPDS by the CPS based on the governing legal authority. If the mass action is not automatically initiated by the CPS, a memorandum or pertinent list reflecting the particular change and the names of the affected employees can be provided by the organization.

5. Effective Date of Actions: Unless specifically authorized or required by law, tariff provisions, regulations based on law or tariff agreements, or by a court decision, an action cannot be made effective before the date the appointing authority (commander or staff members of the CPS specified in AFI 36-129, *Civilian Personnel Management and Administration*, determines that all requirements are met and approves the action.

6. Actions Required by Supervisor When Notified of Approval:

6.1. A signed printout of the systematic NPA issued by the CPS is the document the supervisor uses to annotate or update the Supervisor's Employee Brief, to notify the employee of actions taken and to be maintained in the supervisor's folder.

6.2. Employees will be given a copy of the CPD, when an approved position or personnel action resulted in a revised position description. If only minor pen and ink changes are needed, the supervisor will obtain a manually modified CPD copy from the CPS for the employee.

EMERGENCY PROCEDURES IN CASE OF COMPUTER FAILURE OR INABILITY FOR ELECTRONIC SUBMISSION OF AN RPA

A4.1. Only in case of emergency, such as a computer failure or a temporary inability for an electronic submission of an RPA, the required personnel and/or position action can be provided to the servicing CPS via formal letter or an electronically signed e-mail.

A4.2. Depending on the Nature of Action, the letter or e-mail must contain the same information described in **Attachment 2** for the different Nature of Action Codes.

A4.3. Upon receipt, CPS staff will transmit the requested personnel and/or position action into DCPDS.
