45TH SPACE WING INSPECTOR GENERAL

Lt Col M. Leon Killings, 45 SW/IG

COMPLAINTS RESOLUTION PROGRAM:

Experience has shown supervisors and commanders are the people best equipped to resolve your complaints. Therefore, you are encouraged to discuss your problems with your supervisor or commander before coming to the Inspector General (IG). However, if your complaint centers on the chain of command or would otherwise be best handled by an impartial agency, the Department of the Air Force has a well-established complaints program administered by the IG as described in AFI 90-301, *Inspector General Complaints Resolution*. This instruction tells you how to make a complaint. You can get help quickly and fairly when you need someone to address an issue. You can go to an IG at any level. ***No one may deny you access to the IG***, and ***no one may retaliate against you just because you complained to the IG***.

FRAUD, WASTE AND ABUSE PREVENTION AND DETECTION PROGRAM:

Fraud is any intentional deception designed to unlawfully deprive the Department of the Air Force of something of value.
Waste is the extravagant, careless, or needless expenditure of Department of the Air Force funds or the consumption of property.
Abuse is the intentionally wrongful or improper use of Department of the Air Force resources.
Report suspected Fraud, Waste or Abuse to your chain or command or call one of the hotlines below.
