Approval Authority—An individual authorized to commit resources for the Servicing Agency/Supplier or Requesting Agency/Receiver or his or her designated representative.

Base Operating Support—The base operations and maintenance (O&M)-type cost that provide common infrastructure support required by all offices, regardless of mission.

Cost Center Manager—An individual, usually appointed by the commander of a squadron or staff agency, who is responsible for the funds spent within the cost center and for providing estimates and rationale for cost centers for which the individual is responsible. CCM is accountable to the squadron resource advisor.

Department of Defense—The U.S. federal department charged with coordinating and supervising all agencies and functions of the government relating directly to national security and the United States armed forces. The DoD has three main components: the Departments of the Army, Navy and Air Force. Among the many DoD agencies are the Missile Defense Agency, the Defense Advanced Research Projects Agency (DARPA), the Pentagon Force Protection Agency (PFPA), the Defense Intelligence Agency (DIA), the National Geospatial-Intelligence Agency (NGA), and the National Security Agency (NSA). The department also operates several joint service schools, including the National War College.

Facility—A building, structure, or linear structure out to an imaginary line surrounding a facility at a distance of five feet from the foundation that, barring specific direction to the contrary such as a utility privatization agreement, denotes what is included in the basic record for the facility (e.g., landscaping, sidewalks, utility connections). This imaginary line is what is commonly referred to as the “five-foot” rule.

Functional Area—An area of an organization that performs specific duties within a broader operation, such as logistics, civil engineers, operations, etc.

Functional Area Agreement Coordinator—Individuals appointed within the delta to serve as SMEs and/or single points of contact on behalf of an organization or activity to support the development, staffing and maintenance of Support Agreements. FAACs coordinate with the CCM to develop an annual reimbursable estimate by JON, RC/CC and EEIC.

Installation Support Agreement Catalog—A list of the installation's (Servicing Agency/Supplier's) support activities categories of support and the corresponding standard levels of support definitions. Requesting Agency/Receivers' reviews and select support the ISAC (or equivalent documents) and negotiate support requirements not identified in the ISAC or equivalent document.

Inter-Agency Support—The support provided by the Air Force to a non-DoD Federal Agency or federally-recognized Indian tribe and vice versa. Support agreements between ANG and Non-DoD Federal Agencies or federally recognized Indian tribes are considered Inter-Agency. Inter-agency support does not include support provided to or received from foreign governments.

Inter-Service Support (also called Intra-Agency Support)—The support provided by the Air Force to a DoD Component. When ANG is the Receiver on AF Active-Duty base, with AF property and AF appropriations, the relationship is also considered an inter-service support agreement.

Intra-Service Support—The support provided by the Air Force to another Air Force unit to include AFRC. When the ANG is the Supplier on AF Active Duty or ANG property, with 100% AF appropriations (i.e., funds provided by the AF instead of the States), it will be considered an intra-service relationship. ANG to ANG (between different states) support agreements will also be considered intra-service (within the Air Force).

Job Order Number—An eight-digit alpha-numeric code issued by SLD 45 to track reimbursable costs to be billed to Requesting Agency/Receiver activities, range customers, and deployments to SLD 45. JONs are also used by SLD 45 to track selected institutional (non-reimbursable) costs by program.

Major Range and Test Facility Base—The designated core set of DoD Test and Evaluation (T&E) infrastructure and associated workforce that must be preserved as a national asset to provide T&E capabilities to support the DoD acquisition system.

Manpower Annex—A part of the support agreement used to document the manpower impact. The Servicing Agency/Supplier's Manpower and Organization Flight prepares this annex.
