This instruction implements Department of the Air Force Policy Directive (DAFPD) 36-26, *Total Force Development and Management.* It establishes procedures for Air Force (AF) maintenance training and provides a framework for developing training for aircraft, munitions, and missile maintenance. It is applicable to uniformed and civilian personnel in the Regular Air Force, Air Force Reserve (AFR), Air National Guard (ANG), and to contractor personnel when required in accordance with their contract. This instruction does not apply to the United States Space Force. Use this instruction with Department of the Air Force Manual (DAFMAN) 36-2689*, Training Program*. Major Commands (MAJCOM) may supplement this instruction. Supplements must identify required deviations (DEV) (applicability, variance, and/or differences in organizational placement of responsibilities/processes) on the supplement with the abbreviation "(DEV)". Place the "DEV" entry after the paragraph number and directly preceding the affected text (e.g., 2.8.1. (AMC) (DEV) Commanders will...). All supplements will be submitted to AF/A4LM for approval. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using Department of the Air Force (DAF) Form 847, *Recommendation for Change of Publication*; route DAF Form 847 from the field through the appropriate functional chain of command. The authorities to waive wing or unit level requirements in this publication are

identified with a Tier ("T-0, T-1, T-2, and T-3") number following the compliance statement. See DAFMAN 90-161, *Publishing Processes and Procedures*, for a description of the authorities associated with the Tier numbers. Submit requests for waivers through the chain of command to the appropriate Tier waiver approval authority, or alternatively, to the requestor's commander for non-tiered compliance items. Ensure all records generated because of processes prescribed in this publication adhere to AFI 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is in the Air Force Records Information Management System. This Instruction requires the collection and or maintenance of information protected by the Privacy Act of 1974 authorized by Department of Defense Directive (DoDD) 5400.11, *DoD Privacy and Civil Liberties Programs*. The applicable System of Records Notice (SORN) "DoD 0005, Defense Training Records and DoD-0020, *Military Human Resource Records,* is available at **https://dpcld.defense.gov/Privacy/SORNs/**. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force. Compliance with the attachments in this publication is mandatory.

SUMMARY OF CHANGES

This AFI has been significantly changed and must be completely reviewed. Major changes include requirements for the Training Analysis Briefing (TAB), requirements for the Training Performance Metrics (TPM) briefing, updates to Cross-Utilization Training (CUT), maintenance training section scheduling process, duty titles and structure, Maintenance Information Systems (MIS) and AF approved electronic training records (formerly referred to as Training Business Area).

This interim change (IC) updates requirements for the Training Analysis Briefing (TAB), requirements for the Training Performance Metrics (TPM) briefing, updates to Cross-Utilization Training (CUT), maintenance training section scheduling process, duty titles and structure, Maintenance Information Systems (MIS) and AF approved electronic training records (formerly referred to as Training Business Area). Finally, this IC outlines new requirements for MAJCOMs to develop maintenance instructor development and evaluation processes.

(PACAF) This supplement implements and extends the guidance of Air Force Instruction (AFI) 36-2650, *Maintenance Training* and applies to all Pacific Air Forces (PACAF) units and AFRC/ANG (ARC) Classic Associate units. This publication does not apply to the United States Space Force. This publication may be supplemented at any level, but all supplements are required to be sent to the OPR (PACAF/A4M) for coordination prior to certification and approval The authorities to waive wing/unit level requirements in this publication are identified with a Tier (T-0, T-2, T-3) number following the compliance statement. Waivers for T-0, T-1, T-2, or non-tiered compliance items will be sent to HQ PACAF/A4M, **pacaf.a4mv3@us.af.mil.Ensure** all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and are disposed of in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the DAF Form 847, *Recommendation for Change of Product*; route DAF Forms 847 from the field through the

appropriate functional chain of command. This publication requires the collection and/or maintenance of information protected by the Privacy Act of 1974 authorized by Title 10 U.S.C., Sec 9013, Secretary of the Air Force. The applicable System of Records Notices (SORN) SORN F036 AF PC C, *Military Personnel Records System*, is available: **https://dpcld.defense.gov/privacy/SORNS.aspx**. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

SUMMARY OF CHANGES

(PACAF) This publication has been revised and must be completely reviewed. Changes primarily include requirements for the Training Analysis Briefing (TAB), requirements for the Training Performance Metrics (TPM) briefing, updates to Cross-Utilization Training (CUT), maintenance training section scheduling process, duty titles and structure, Maintenance Information Systems (MIS) and AF approved electronic training records (formerly referred to as Training Business Area). Finally, these changes include a significant restructuring of **Chapter 12** to address new testing procedures.

Chapter 1—GENERAL. **8**

1.1. Purpose. 8
1.2. Objective. 8
1.3. Applicability. 8
1.4. Equivalent Commanders. 8
1.5. Terminology 8
1.6. Office of Primary Responsibility. 8
1.7. Air Education and Training Command (AETC) Training Detachment (TD). 8
1.8. MAJCOM Mandatory Course List. 9
1.9. Utilization of Training Courses. 9
1.10. Class Cancellation Policy. 9
1.11. Curriculum Advisory Committee. 9
1.12. Cross-Utilization Training. 10
1.13. Block Training. 10
1.14. Ancillary Training. 10
1.15. Overdue Training. 10
1.16. Air Force Engineering and Technical Services (AFETS) and Contractor Engineering and Technical Services (CETS) (If applicable). 10

1.17. Maintenance Training Section Instructions. 11
1.18. Maintenance Group Training Analysis Briefing (see Chapter 10 for AFR/ANG requirements). 11
1.19. Training Assessment Feedback..... 14

Chapter 2—ROLES AND RESPONSIBILITIES **15**

2.1. General. 15
2.2. Air Force Career Field Manager. 15
2.3. Career Field Administrator. 15
2.4. Training Pipeline Manager. 15
2.5. MAJCOM Maintenance Training Branch/Section. 15
2.6. MAJCOM Command Functional Manager. 16
2.7. Maintenance Group Commander (or equivalent). 17
2.8. Squadron Commander. 18
2.9. Work Center Supervisors. 20
2.10. AF Master Course Table Manager. 20

Chapter 3—MAINTENANCE TRAINING DOCUMENTATION **22**

3.1. Introduction. 22
3.2. Training Documents. 22
3.3. Training Records. 22
3.4. Core Tasks. 23
3.5. Duty Position Qualification Tasks. 23

Chapter 4—MAINTENANCE INFORMATION SYSTEMS AND AF APPROVED ELECTRONIC TRAINING RECORDS **24**

4.1. Introduction. 24
4.2. Purpose. 24
4.3. Integrated Maintenance Data System (IMDS) and FMxC2 Master Course Codes. 24

Chapter 5—MAINTENANCE TRAINING (SEE CHAPTER 10 FOR AFR/ANG REQUIREMENTS). **26**

5.1. General. 26
5.2. Manning. 26
5.3. Training. 26
5.4. Maintenance Training Section Superintendent Responsibilities. 27
5.5. Training Management Element Chief Responsibilities. 28

5.6. Unit Training Managers. 29
5.7. Scheduler Responsibilities. 30
5.8. Development and Instructor Element Chief Responsibilities Note: ..... **Error! Bookmark not defined.**
5.9. Development Responsibilities. Note: 31
5.10. Instructor Responsibilities. 32
5.11. Maintenance Training Section Maintenance Instructors (MI) and Development Functions. 33

Chapter 6—MAINTENANCE TRAINING SCHEDULING FUNCTION **40**

6.1. General (AFR/ANG requirements are identified in Chapter 10). 40
6.2. Maintenance Training Scheduling Process. 40
6.3. Maintaining Scheduling Files. 40
6.4. Monthly Training Scheduling Meeting. 41
6.5. Priority Backlog Management. 42
6.6. Requesting AETC Mobile Training Team (Maintenance Training) and TDY Instructor Assistance. 43
6.7. Obtaining TDY Funding for AETC Field and Mobile Training. 44

Chapter 7—ENROUTE TRAINING **45**

7.1. General (AFR/ANG requirements are identified in Chapter 10). 45
7.1. (PACAF) Note: 45
7.2. Scheduling Enroute Training. 45
7.3. Canceling Enroute Training Request. 47

Chapter 8—MAINTENANCE QUALIFICATION PROGRAM **48**

8.1. General (This chapter is N/A to ANG and Intercontinental Ballistic Missile units). 48
8.2. Phase I, Inprocessing, Maintenance Orientation and Maintenance Refresher. 48
8.3. Phase II, Continuation Training (For AFR/ANG C-40 maintenance organizations only and only as applicable per their agreement with AETC). 48
8.4. Phase III, Special Qualification Training. 52

Chapter 9—SPECIAL PROGRAMS **54**

9.1. Foreign Object Damage (FOD) Prevention Training. 54
9.2. Wing Corrosion Manager. 54
9.3. Other Related Special Programs. 54
9.4. (Added-PACAF) Command Aircraft Systems Training Program. 55

9.5. (Added-PACAF) Automatic Disenrollment. 55

Chapter 10—AFR AND ANG SPECIFIC TRAINING REQUIREMENTS 56

10.1. General. 56

10.2. AFR/ANG UTM Duties and Responsibilities. 56

10.3. Work Center or Section Training Monitors. 58

10.4. Requesting AETC Mobile Training Team (Maintenance Training) and TDY Instructor Assistance. 59

10.5. Enroute Training. 59

10.6. Maintenance Group Training Performance Metrics Briefing. 59

10.7. [AFR Only] 1-Skill Level Guidance. 61

10.8. [ANG Only] Utilization of 1-Skill Level ANG Personnel. 62

10.9. [ANG Only] Formal School Requirements Forecasting and Reporting. 63

10.10. [ANG Only] Use of Automated Training Systems. 64

10.11. [ANG Only] Use of Electronic Exams for Maintenance Certification Testing. 64

10.12. Mission Design Series Conversion Training. 64

Chapter 11—(Added-PACAF) MAINTENANCE TRAINING SECTION SENIOR INSTRUCTOR PROGRAM. 66

11.1. (PACAF) Program overview. 66

Chapter 12—(Added-PACAF) AIRCRAFT MAINTENANCE TESTING. 67

12.1. (Added-PACAF) General Policy. 67

Attachment 6—(Added-PACAF) FORMAT FOR THE PACAF SENIOR INSTRUCTOR NOMINATION PACKAGE 81

Attachment 7—(Added-PACAF) MAINTENANCE E-TESTING POINT OF CONTACT (POC) APPOINTMENT SAMPLE 82

Chapter 1

GENERAL.

1.1. Purpose. AFI 36-2650 establishes guidance and training procedures for personnel assigned to aircraft, munitions, and missile maintenance organizations throughout the AF.

1.2. Objective. Provide initial, upgrade, proficiency, qualification, recurring, and certification training needed by a technician to perform duties in their primary Air Force Specialty Code (AFSC). The overall capability of a maintenance unit depends on the state of training for personnel assigned. Training is essential to improving and sustaining unit capability and is one of the most important responsibilities of commanders and supervisors. Maintenance training carries an equal priority with the operational training mission when it comes to balancing resources for aircraft, support equipment, facilities, tools, funding, personnel, etc. (AFR/ANG requirements are identified in **Chapter 10**).

1.3. Applicability. This instruction is directive in nature and applicable to commanders, supervisors, Unit Training Managers (UTM) and personnel assigned to maintenance groups, maintenance squadrons, maintenance training sections, and other maintenance organizations throughout the Air Force. Performance-based activities (contractors) will be organized in accordance with the contract or management plan. **(T-2) Note:** Certain sections of this AFI are not applicable (N/A) to AFR/ANG, Intercontinental Ballistic Missile, and nuclear units. Refer to MAJCOM supplements and/or instructions for further guidance, where applicable. Specific training requirements for munitions and missile maintenance activities are included in the appropriate Air Force Manuals (AFMANs) 21-202, *Missile Maintenance Management* and 21-204, *Nuclear Weapons Maintenance.*

1.4. Equivalent Commanders. Throughout this instruction, responsibilities for the Maintenance Group Commander are identified. Units not aligned under a maintenance group will assign these responsibilities to the appropriate level commander. **(T-2)**

1.5. Terminology. When using this instruction, the following applies:

1.5.1. **Must and Will** - Indicate a mandatory requirement. **Note:** "Will" is also used to express a declaration of purpose for a future event.

1.5.2. **Should** - Indicates a preferred or recommended method or option.

1.5.3. **May** - Indicates an acceptable or satisfactory method or option.

1.6. Office of Primary Responsibility. The maintenance training section (UTM for AFR/ANG) is the Point of Contact (POC) for maintenance training within the maintenance group in accordance with DAFMAN 36-2689 and this instruction. The UTM or civilian equivalent will serve as OPR for those units without a maintenance training section. **(T-2)** The AFR/ANG UTM or civilian equivalent will serve as OPR for those units without a maintenance training section. **(T-2)** See **Chapter 10** for AFR/ANG UTM duties and responsibilities.

1.7. Air Education and Training Command (AETC) Training Detachment (TD). (N/A to AFR/ANG aircraft maintenance units). The TD is the primary aircraft and/or Intercontinental Ballistic Missile maintenance training agency on base. Suppliers will provide TDs with the same quality and quantity of support as all other Air Force Receivers in accordance with DAFPD 25-2,

Support Agreements, therefore, a support agreement is not necessary unless both the Supplier and Receiver agree to different levels of support. **(T-2)**

1.7.1. Installations with an AETC TD will be utilized as the primary maintenance training resource at all bases with an assigned TD. **(T-2)**

1.7.1.1. The TD will not conduct ancillary training. **(T-2)**

1.7.1.2. Maintenance training sections and TDs will not duplicate training.

1.7.1.3. Maintenance training sections will develop courses and supplement training when the training requirements are beyond the capability and timely response of the TD. **(T-2)**

1.7.2. Student travel program for 982d Training Group (TRG) TD course. Submit travel and per diem cost for student travel to TD courses to 502 Comptroller Squadron, Sheppard Air Force Base (AFB), Texas (TX) for funding approval in accordance with DAFMAN 36-2689. **Note:** If an individual cannot attend the TD course after the name is submitted and a fund cite has been provided, notify the 982d TRG and MAJCOM maintenance training branch as soon as possible.

1.7.2.1. **(Added-PACAF)** Throughout AFI 36-2650 and this supplement, the term MAJCOM maintenance training branch is used and is equivalent to HQ PACAF/A4MM.

1.8. MAJCOM Mandatory Course List. (N/A to AFR/ANG)**.** MAJCOMs will create a master list of all mandatory TD, maintenance training section, and myLearning courses for each Mission Design Series (MDS) aircraft. **(T-1)** MAJCOMs will conduct annual audits to ensure courses have been identified for completion for all applicable AFSCs (see paragraphs **8.3.3 and 8.3.4**). **(T-1)**

1.9. Utilization of Training Courses. Units will utilize AETC TD, maintenance training section and ancillary training courses for upgrade, proficiency, qualification, recurring, and Cross-Utilization Training (CUT) to the fullest extent possible. **(T-2)**

1.10. Class Cancellation Policy. TD classes with enroute, temporary duty, AFR/ANG and/or multi-phased students will not be canceled and will be supported by the host unit, unless approved by the wing commander. (T-3) Host unit personnel will not be removed from TD courses due to appointments, local exercises, or higher headquarters inspections, unless approved by the wing commander. (T-3) The Maintenance Group Commander (or equivalent) may cancel maintenance training section classes during local exercises. The maintenance training operating instruction, developed by the maintenance training section, will outline the cancellation policies for maintenance training classes. (T-2) Local students released from maintenance training section and/or TD courses will report to their respective work centers. (T-2)

1.11. Curriculum Advisory Committee. (N/A for AFR/ANG and Air Force Special Operations Command units)**.** Use the Curriculum Advisory Committee to investigate, analyze, and recommend the most cost effective and efficient method to satisfy training requests. The Curriculum Advisory Committee will be composed of the Maintenance Training Section Development and Instructor Element Chief (chairperson), UTM (as required), TD (as required), subject matter experts, applicable work center supervisors and/or section chiefs, and Maintenance Training Section Superintendent. **(T-2)**

1.11.1. The maintenance training section will conduct a Curriculum Advisory Committee when:

1.11.1.1. Developing a new course. **(T-2)**

1.11.1.2. Deciding which training agency should conduct requested training. **(T-2)**

1.11.1.3. Revising 25% or more of an existing course. **(T-2)**

1.11.2. The maintenance training section can use a Curriculum Advisory Committee to conduct reviews of maintenance training section courses and TD courses when necessary.

1.12. Cross-Utilization Training. CUT provides the unit with internal flexibility by training individuals to perform tasks on aircraft and systems not in their primary AFSC. This training can offset periods of austere or low skill level manning. It also enhances combat capability by developing a pool of qualified personnel to draw upon during surges. Use care not to create a dependency upon CUT trained personnel for every task. CUT should never be a long-term fix or management solution for an AFSC shortfall. Ensure the training records of individuals receiving CUT are appropriately documented. The Unit/CC will develop a plan outlining requirements for members to remain reasonably qualified on completed CUT tasks. **(T-3)** CUT trainees will be, at a minimum, a 3-skill level that has completed all upgrade requirements except minimum time in training. **(T-3)**

1.13. Block Training. Block training is a term used in the maintenance community to describe the type of format used for training. Maintenance should use this format to group training requirements into a single training session. Initial mission orientation and refresher training are the most commonly conducted courses in the block-training format.

1.14. Ancillary Training. Accomplish according to governing directives. Make every effort to consolidate training requirements to reduce the impact on the mission.

1.14.1. **(Added-PACAF)** Ancillary training that is already tracked in an approved Air Force system may be tracked in the Maintenance Information System, but is not a mandatory requirement (Example: Total Force Awareness Training; Chemical, Biological, Radiological, and Nuclear training; Tactical Combat Casualty Care - Hands-On, etc.).

1.15. Overdue Training. Individual recurring qualifications become overdue on the last day of the month in which recertification is due. When an individual is on temporary duty, on leave, or incapacitated, that person needs not be decertified provided the required training and/or evaluations are completed within 30 days of the member's return to duty, not to exceed 2 calendar months from original due date, unless specified by another authoritative reference.

1.16. Air Force Engineering and Technical Services (AFETS) and Contractor Engineering and Technical Services (CETS) (If applicable).

1.16.1. When necessary, use AFETS personnel for specialized systems and equipment training and integrate these personnel within the maintenance training section (UTM for AFR/ANG) instructional effort. **(T-3)**

1.16.2. Courses developed or taught by AFETS will be coordinated through the maintenance training section (UTM for AFR/ANG) to ensure courses meet curriculum standards. **(T-3)**

1.16.3. Coordinate training requests conducted by AFETS/CETS as listed in DAFI 21-101, *Aircraft and Equipment Maintenance Management*.

1.17. Maintenance Training Section Instructions.

1.17.1. Maintenance training sections (UTM for AFR/ANG) will develop and publish a local training instruction or supplement to this AFI and MAJCOM training instructions to specify local policies and procedures to include, as a minimum:

1.17.1.1. A waiver process to approve any deviation to the local instruction. **(T-2)**

1.17.1.2. Testing and certification procedures. **(T-2)**

1.17.1.3. Frequency and distribution of automated training products. **(T-2)**

1.17.1.4. Personnel in and out processing, to include registration in training databases. **(T-2)**

1.17.1.5. Procedures for requesting training. **(T-2)**

1.17.1.6. Additional local procedures. **(T-2)**

1.17.1.7. Class cancellation policy. **(T-2)**

1.17.1.8. Feedback loop to local Quality Assurance. **(T-2)**

1.17.1.9. Work center and/or section training monitor duties and responsibilities, if utilized. **(T-2)**

1.17.2. Ensure the Maintenance Group Commander (or equivalent) signs and approves the instruction.

1.17.3. Review instructions in accordance with DAFMAN 90-161.

1.18. Maintenance Group Training Analysis Briefing (see Chapter 10 for AFR/ANG requirements).

1.18.1. Frequency. Maintenance training sections will provide a quarterly formal TAB to the Maintenance Group Commander (or equivalent). **(T-2)**

1.18.2. The Maintenance Group Commander, Maintenance Group Deputy Commander, or equivalent will chair the quarterly briefing. **(T-2)**

1.18.3. Attendance. As a minimum, the following personnel will attend the quarterly formal TAB:

1.18.3.1. Squadron commanders. **(T-2)**

1.18.3.2. The Maintenance Group Senior Enlisted Leader. **(T-2)**

1.18.3.3. The Maintenance Training Section Superintendent, Development and Instructor Element Chief, Training Management Element Chief, Maintenance Training Section Schedulers, UTMs, and TD. **(T-2)**

1.18.3.4. Maintenance Squadron and Munitions Squadron, Aircraft/Helicopter Maintenance Squadron, Missile Maintenance and Missile Operations Squadron Senior Enlisted Leaders, as applicable to maintenance group organization structure. **(T-2)**

1.18.3.5. The Quality Assurance Officer in Charge and/or superintendent or designated representative. **(T-2)**

1.18.4. Provide an electronic copy of the briefing to each required participant prior to the formal briefing.

1.18.5. Use approved Maintenance Information System (MIS) to help develop the TAB. Only an AF level approved MIS is authorized to be used to automate training as designated in accordance with DAFI 21-101. MAJCOM approved systems may be used to assist with the training process but will not be considered the primary MIS. Integrated Maintenance Data System (IMDS), Field Maintenance Command and Control (FMxC2)/Mobility AF Logistics Command and Control (Mobility AF Log C2), and MIS are synonymous as they apply to this AFI. The generic term MIS allows flexibility to associate with any automated information system currently used in the maintenance community and provides for other emerging systems that fall under the same MIS business rules.

1.18.6. TAB contents may include items identified in DAFMAN 36-2689 (if applicable) and ensure Intercontinental Ballistic Missile maintenance groups can meet the requirements within this guidance.

1.18.6. **(PACAF)** The Maintenance Training Section (MTS) will ensure TAB content includes items identified in DAFMAN 36-2689 (Required if applicable) and ensure Intercontinental Ballistic Missile maintenance groups can meet the requirements within this guidance. **(T-2)** (Added) **Note:** Trainees in excessive training beyond 24 months includes both upgrade trainees and trainees in qualification training.

1.18.6.1. TAB contents may identify trending training deficiencies from the previous TAB, along with the corrective actions taken and measures of success.

1.18.6.2. Primary Air Force Specialty Code breakout for all 2AXXX (or sortie producing AFSCs to include 1DXXX as applicable) in the grades of E-6 or below 3, 5, and 7 level. **Note:** MAJCOM and/or Maintenance Group Commander (MXG/CC) may direct additional AFSCs.

1.18.6.3. 21A/M officer upgrade by Basic, Senior, and Master. **Note:** MAJCOM and/or MXG/CC may direct additional AFSCs.

1.18.6.4. **Deleted.**

1.18.6.5. Maintenance Group (MXG) critical skills will be reported by number required and number qualified. **(T-2)** MAJCOM will set critical task list. **(T-1)** MXG/CC may add local requirements.

1.18.6.5.1. **(Added-PACAF)** "PACAF Critical Skills:

1.18.6.5.1.1. **(Added-PACAF)** Blade Blending (Required if applicable)

1.18.6.5.1.2. **(Added-PACAF)** Engine Run (Required if applicable)

1.18.6.5.1.3. **(Added-PACAF)** Borescope (Required if applicable)

1.18.6.5.1.4. **(Added-PACAF)** Intake/Inlet/Engine Exhaust (Required if applicable)

1.18.6.5.1.5. **(Added-PACAF)** Hot Refuel (Required if applicable)

1.18.6.6. Key Performance Indicators (KPI) - TD Demand Response Rate. Divide the number of quotas allocated (total number of seats supported by the TD) by the number of quotas requested and reflect the rate as a percentage.

1.18.6.7. KPI - TD Utilization Rate. This rate reflects how well the unit utilized the seats that were allocated from TD. Compute it by dividing the number of seats utilized by the number of seats allocated (for the reported quarter) and express the rate as a percentage.

1.18.6.8. KPI -Maintenance Training Demand Response Rate. Divide the number of quotas allocated for Maintenance training section conducted courses by the number requested and reflect the rate as a percentage.

1.18.6.8.1. **(Added-PACAF)** PACAF MTS Demand Response Rate standard is 90 percent or greater.

1.18.6.9. KPI - Maintenance Training Utilization Rate. This rate reflects how well the unit utilized the seats that were allocated from the maintenance training section. Compute it by dividing the number of seats utilized, by the number of seats allocated (for the reported quarter) and express the rate as a percentage. **Note:** Maintenance training sections should report lost training time in accordance with their MAJCOM instruction. Walk-ins are not factored into this rate.

1.18.6.9.1. **(Added-PACAF)** PACAF MTS Utilization Rate standard is 95 percent or greater.

1.18.6.9.2. **(Added-PACAF)** The MTS will report lost training time. **(T-2)** Report lost training time by identifying all Field Training Detachment and Maintenance Training Section scheduled classes that have been canceled. The MTS will provide the following data: **(T-2)**

1.18.6.9.2.1. **(Added-PACAF)** Course Title. **(T-2)**

1.18.6.9.2.2. **(Added-PACAF)** Course Start Date. **(T-2)**

1.18.6.9.2.3. **(Added-PACAF)** Reason Training was Lost. **(T-2)**

1.18.6.10. Field TD and Maintenance Training Section (MTS) backlogs will be broken out by course name, number in training next 90 days, number completed in reported month, overdue, waivers, and the get-well estimated completion date. **(T-2)**

1.18.6.11. Special certification status will be broken out by: Special Certification Roster (SCR) item, required/qualified per unit, total required/qualified for the MXG, and the total number of waivers for each SCR item. **(T-2) Note:** The MAJCOMs determine what SCR items will be tracked. MXG/CCs may add additional requirements.

1.18.6.11. **(PACAF)** At a minimum, PACAF units will track the following critical Special Certification Roster (SCR) items listed in Department of the Air Force Instruction (DAFI) 21-101, *Aircraft and Equipment Maintenance Management*, Table 11.1, on the Maintenance Group (MXG) Status of Training (SOT) briefing: Exceptional Release (ER), Installed Engine Run Certifying Officials, Aircraft Inlet/Intake/Exhaust Certifying Officials, Flexible Borescope Certifying Officials, Engine Blade Blending Certifying Officials, QA Hot Pit Certifying Officials/Augmentees, Uninstalled Engine Run Certifying Officials by Type, Model, Series (TMS), and Aircraft Auxiliary Power Unit (APU) Run

Certifying Officials. **(T-2)** MXG/CC may mandate the tracking of additional local SCR items within their respective SOT briefings based on weapon system requirements and local operational constraints.

1.18.6.12. Aircraft and maintenance training devices (if applicable) utilized for training should detail how many aircraft or maintenance training devices were used for training and by which agencies (e.g., MXG, MTS, Field TD, or AFETS), how many hours utilized, and number of personnel trained. In addition, each task trained should be shown with how many individuals were trained.

1.18.6.13. **Deleted.**

1.18.6.14. **Deleted.**

1.18.6.15. **(Added-PACAF)** KPI – Training Scheduling Effectiveness. Calculate training scheduling effectiveness by dividing the number of originally scheduled personnel, minus deviations, by the total number of scheduled personnel. For example: (100 originally scheduled – 15 deviations)/100 scheduled = 85% training effectiveness rate. Unscheduled actions are considered a deviation. **Note:** N/A for ANG/AFR.

1.18.6.16. **(Added-PACAF)** Overdue Training. Report total overdues by squadron. Report all sortie producing training (Training Detachment, Maintenance Training Section, MAJCOM Mandatory Course List (MMCL), etc.) overdues identified in Maintenance Information System. Just in time deployment training will not count as overdue training, for example, Combat Arms Training, Chemical/Biological Training, etc. Count personnel who go overdue for training (including those on temporary duty, on leave and scheduled) as overdue on the TAB until trained. The PACAF standard for overdue training is 5 percent or less. **Note:** Report the number and percentage of personnel overdue, not the number of training events overdue.

1.19. Training Assessment Feedback. The Maintenance Training Section Superintendent (UTM for AFR/ANG) serves as OPR for local administration for internal and Office of Collateral Responsibility for external feedback.

1.19.1. Establish a feedback loop in the maintenance training operating instruction between the quality assurance program and maintenance training sections (UTM for AFR/ANG) that focuses on training deficiencies.

1.19.2. Ensure training feedback (internal and external) surveys are returned.

Chapter 2

ROLES AND RESPONSIBILITIES

2.1. General. The Maintenance Group Commander (or equivalent) is ultimately responsible for all maintenance training within the group. Unit commanders and supervisors must ensure training programs are effective, efficient, and completed on time to meet mission requirements. **(T-2)**

2.2. Air Force Career Field Manager. The Air Force Deputy Chief of Staff, Directorate of Logistics, Maintenance Division (AF/A4LM) and Air Force Deputy Chief of Staff, Directorate of Logistics, Nuclear Weapons, Missiles & Munitions Division (AF/A4LW) are the POCs on maintenance training matters. The AF Career Field Manager responsibilities are outlined in DAFMAN 36-2689.

2.2.1. The POC for AFR and ANG waivers is their respective Air Force Reserve Command (AFRC)/ANG Functional managers in accordance with DAFMAN 36-2689.

2.2.2. The Crew Chief Career Field Manager and Aircraft Systems Career Field Manager co-chair the Joint Service Aviation Maintenance Technician Certification council and acts as the OPR for the Airframe and Powerplant Certification program in coordination with the Federal Aviation Administration and the Community College of the AF.

2.3. Career Field Administrator. The Career Field Administrator is the functional system administrator for the AF approved MIS. The Career Field Administrator is the AF Career Field Manager or delegated representative for each Career Field Education and Training Plan (CFETP) and AF Job Qualification Standard (JQS) managed in applicable AF approved electronic training record system.

2.3.1. The Career Field Administrator will:

2.3.1.1. Ensure all CFETPs loaded in the system are the most current and accurate versions. **(T-1)**

2.3.1.2. Act as single POC for problems related to functional data records for all career progression documents. The Career Field Administrator will refer all software-related and technical problems to the Air Force Life Cycle Management Center Subject Matter Expert Support (AFLCMC/HIAM) and Air Force Life Cycle Management Legacy Sustainment Division (AFLCMC/HIZG) Field Assistance Service. **(T-1)**

2.3.2. Load and transcribe new CFETP, AF JQS, qualification training packages, and changes as directed by the AF Career Field Manager.

2.3.3. Ensure all applicable CFETPs, AF JQS, or Command JQS are reviewed during Specialty Training Requirements Team/Utilization and Training Workshop or Maintenance Training Advisory Group meetings.

2.4. Training Pipeline Manager. The training pipeline manager's responsibilities are outlined in DAFMAN 36-2689.

2.5. MAJCOM Maintenance Training Branch/Section. The MAJCOM Maintenance Training Branch/Section (or equivalent) is the single POC for maintenance training matters within the command. The MAJCOM Maintenance Training Branch/Section (or equivalent) have the responsibility to:

2.5.1. Provide maintenance training policy and guidance to maintenance training sections and UTMs.

2.5.2. Evaluate and monitor all formal and maintenance training section courses and programs (N/A to AFR/ANG).

2.5.3. Perform staff assistance visits at the group commanders' request or when training indicators warrant.

2.5.4. Validate and coordinate command, *Functional Inspection Guides or Unit Compliance Guides* (N/A to AFR/ANG).

2.5.5. Publish, manage, and interpret command maintenance training instruction.

2.5.6. Publish and maintain the MAJCOM Mandatory Course List (N/A to AFR/ANG).

2.5.7. Schedule and conduct the command maintenance training conference, if applicable.

2.5.8. Augment the MAJCOM inspection team, if applicable.

2.5.9. Chair Site Activation Task Force training working groups. This is a function of the lead MAJCOM for a given weapon system.

2.5.10. Manage command future training requirements.

2.5.11. Manage command interactive multimedia instruction, exportable, and distance learning training.

2.5.12. Manage mission readiness training requirements for maintenance personnel.

2.5.13. Review and evaluate quarterly TAB data from the MXGs or equivalents.

2.5.14. Coordinate with MAJCOM/A1 on training and manning issues.

2.5.15. Coordinate and monitor enroute training, if applicable.

2.5.16. Coordinate annual training requirements.

2.5.17. Attend AF and MAJCOM level conferences and workshops affecting maintenance training.

2.5.18. Coordinate on enlisted specialty training waivers with Air Force and command functional managers.

2.5.19. Be the approval/concurring authority for master course code inputs from within their command.

2.5.20. Coordinate on training requirements submitted for the AF approved electronic training records system via the AF approved electronic training records help desk.

2.6. MAJCOM Command Functional Manager. The MAJCOM Functional Manager establishes upgrade, continuation, and qualification training requirements for their field units and weapons systems for which the MAJCOM is designated as lead. The MAJCOM Functional Manager will:

2.6.1. Support specialty training requirements team/utilization and training workshops with functional and subject matter experts. **(T-1) Note:** As the functional representative for the command, MAJCOM Functional Managers who attend specialty training requirements

team/utilization and training workshops have voting authority and authority to commit MAJCOM resources to support new training requirements.

2.6.2. Coordinate on resources (manpower, equipment, and funding) to support new training requirements. **(T-1)**

2.6.3. Coordinate on enlisted specialty training waivers and provide recommendation to AF Career Field Manager (MAJCOM Functional Manager for AFRC and ANG). **(T-1)**

2.7. Maintenance Group Commander (or equivalent). The Maintenance Group Commander will, as applicable:

2.7.1. Ensure an orientation program is developed and conducted for all personnel newly assigned. As a minimum, topics must include unit mission, Air Force Force Generation vulnerability, tasking plans, supply procedures (emphasis on consumable items with a precious metal or demilitarization code (i.e., XB3, Demil Code B/D/F/P/Q)), foreign object damage program, general flight line, work center safety fatigue management, environmental issues, block training (if applicable), corrosion control, maintenance standardization and evaluation program, and product improvement procedures. **(T-2) Note:** Consumable parts with an Expendability, Recoverability, Reparability, Category (ERRC) of "XB3" that cannot be repaired can be discarded unless designated as having precious metals or requiring demilitarization.

2.7.2. Organize maintenance training sections (if applicable) in accordance with DAFI 21-101 and this instruction. Organize Intercontinental Ballistic Missile Maintenance training sections in accordance with AFMAN 21-202 (N/A to AFR/ANG). **(T-2)**

2.7.3. Ensure maintenance training sections (UTM for AFR/ANG) are the single POC for maintenance training matters affecting the maintenance group. **(T-2)**

2.7.4. Provide facilities to maintenance training sections (UTM for AFR/ANG) in support of maintenance training programs to include sufficient offices, classrooms, equipment, computer support and dedicated hangar space. **(T-2)**

2.7.4.1. Support the MXG's (or equivalent) Extended Reality (XR) program (if applicable), ensuring sufficient funding, facilities, and manning for a fully operational program. **(T-2)**

2.7.5. Ensure each newly assigned AFETS/CETS (as authorized) representative meets and confers with the maintenance training section (UTM AFR/ANG) to discuss their role in maintenance training. **(T-2)**

2.7.6. Provide highly qualified maintenance technicians to maintenance training sections (N/A for AFR/ANG) as assigned or attached instructors based on the training needs of the maintenance community. **(T-2)** Ensure each assigned MDS and aircraft maintenance unit maintenance AFSC has instructor capability.

2.7.7. Ensure aircraft/facilities (e.g., launch facilities/missile alert facilities) are available for training. **(T-2)**

2.7.8. Sign and approve DAF Form 898, *Field Training Requirements Scheduling Document* (may be delegated in writing to the Maintenance Training Section Superintendent) (N/A for AFR/ANG). **(T-2)**

2.7.9. Chair the quarterly TAB. **(T-2)**

2.7.10. Ensure the Maintenance Training Superintendent develops a process to determine correlation between maintenance metrics and the training and development of assigned maintenance group personnel. **(T-2) Note:** Maintenance metrics can be found in ATTP 3-4.21V1, *Aircraft Maintenance*.

2.7.11. Provide maintenance training sections sufficient monetary resources to sustain maintenance training operations and develop staff personnel to satisfy mission requirements. **(T-2)**

2.7.12. Establish metrics to track effective utilization of aircraft removed from operations for maintenance training. **(T-2)**

2.8. Squadron Commander. Squadron commanders will:

2.8.1. Establish and administer unit training programs in accordance with DAFMAN 36-2689 and this instruction. **(T-2)**

2.8.2. Chair a squadron monthly Training Performance Metrics meeting. **(T-2)**

2.8.2.1. Attendance. As a minimum, the following personnel will attend the monthly Squadron Training Performance Metrics meeting:

2.8.2.1.1. Squadron commander, deputy commander, or equivalent. **(T-2)**

2.8.2.1.2. Senior Enlisted Leader. **(T-2)**

2.8.2.1.3. Flight Supervision (as applicable to organization structure). **(T-2)**

2.8.2.1.4. Unit Training Manager. **(T-2)**

2.8.2.1.5. Additional Duty Unit Training Managers (ADUTM) and/or Training Monitors. **(T-2)**

2.8.2.1.6. Section Chief, and work center supervisors. **(T-2)**

2.8.2.2. **Deleted.**

2.8.2.3. **Deleted.**

2.8.2.4. **Deleted.**

2.8.2.5. **Deleted.**

2.8.2.6. **Deleted.**

2.8.2.7. **Deleted.**

2.8.3. Training Performance Metrics briefing contents must include items identified in DAFMAN 36-2689 (required if applicable) and ensure Intercontinental Ballistic Missile maintenance groups can meet the requirements of this guidance. **(T-2)** Training Performance Metrics briefing will include the following (if applicable):

2.8.3.1. Blade Blending (Required if applicable). **(T-2)**

2.8.3.2. Engine Run (Required if applicable). **(T-2)**

2.8.3.3. Borescope (Required if applicable). **(T-2)**

2.8.3.4. Intake/Inlet/Engine Exhaust (Required if applicable). **(T-2)**

2.8.3.5. Hot Refuel (Required if applicable). **(T-2)**

2.8.3.6. TD Demand Response Rate. Divide the number of quotas allocated (total number of seats supported by the TD) by the number requested and reflect the rate as a percentage (N/A to ANG/AFR). **(T-2)**

2.8.3.7. TD Utilization Rate. This rate reflects how well the unit utilized the seats that were allocated from the TD. Compute it by dividing the number of seats utilized by the number of seats allocated (for the reported month) and express the rate as a percentage (N/A to ANG/AFR). **(T-2)**

2.8.3.8. Maintenance Training Demand Response Rate. Divide the number of quotas requested for maintenance training section conducted courses by the number allocated and reflect the rate as a percentage (N/A to ANG/AFR). **(T-2)**

2.8.3.8.1. **(Added-PACAF)** PACAF MTS Demand Response Rate standard is 90% or greater.

2.8.3.9. Maintenance Training Utilization Rate. This rate reflects how well the unit utilized the seats that were allocated from the maintenance training section. Compute it by dividing the number of seats utilized, by the number of seats allocated (for the reported month) and express the rate as a percentage (N/A to ANG/AFR). **(T-2) Note:** maintenance training sections should report lost training time in accordance with their MAJCOM instruction. Walk-ins are not factored into this rate.

2.8.3.9.1. **(Added-PACAF)** PACAF MTS Utilization Rate standard is 95% or greater.

2.8.3.9.2. **(Added-PACAF)** Lost training time will be reported. Report lost training time by identifying all Field Training Detachment and Maintenance Training Section scheduled class that have been cancelled. Provide the following data:

2.8.3.9.2.1. **(Added-PACAF)** Course Title.

2.8.3.9.2.2. **(Added-PACAF)** Course Start Date.

2.8.3.9.2.3. **(Added-PACAF)** Reason training was lost.

2.8.3.10. Training Scheduling Effectiveness. Compute training scheduling effectiveness by dividing the number of originally scheduled personnel, minus deviations, by the total number of scheduled personnel, for example, 100 originally scheduled – 15 deviations, divided by 100 scheduled = 85% training effectiveness rate. Unscheduled actions are considered a deviation (N/A to ANG/AFR).

2.8.3.10.1. **(Added-PACAF)** PACAF Training Scheduling Effectiveness standard is 90% or greater.

2.8.3.11. Upgrade Training Status. Reflect the status of upgrade training in accordance with DAFMAN 36-2689.

2.8.3.12. Overdue Training. Report all training (TD, maintenance training section, ancillary, etc.) overdue. Just in time deployment training will not count as overdue training, for example, Combat Arms Training, Chemical/Biological Training, etc. Count personnel

who go overdue for training (including those on temporary duty, on leave and scheduled) as overdue on the Training Performance Metrics until trained. **(T-2)**

2.8.3.12. **(PACAF)** The PACAF standard for overdue training is 5% or less. **Note:** Report the number and percentage of personnel overdue, not the number of training events overdue.

2.8.3.13. MAJCOM Mandatory Course List Backlog. Provide the total backlogs for each MAJCOM Mandatory Course List course (TD, Interactive Multimedia Instructor, myLearning, Maintenance Qualification Training Program, etc.), scheduled, enrolled, number of courses completed and overdues (N/A to ANG/AFR).

2.8.3.14. Identify and discuss current and future training issues and concerns.

2.8.3.15. Qualification training: Identify the number of personnel in qualification training by unit.

2.8.4. Squadron commanders must ensure adequate funding is programmed and budgeted to meet MAJCOM mandatory course training requirements. **(T-2)**

2.9. Work Center Supervisors. As a minimum, supervisors will, ensure training programs for their organization are established and administered in accordance with DAFMAN 36-2689, DAFI 21-101, AFMAN 21-202, MAJCOM supplements to this instruction, and local training directives, as applicable to maintenance group organizations.

2.9.1. Identify all TD and maintenance training section courses required for duty position qualification and review these requirements when training is updated because of MDS change or conversion. **(T-2)**

2.9.2. Ensure duty related courses that apply to selected personnel within a work center are individually loaded into an automated system, for example, the AF approved electronic training records, IMDS, FMxC2, etc. **(T-2)**

2.9.3. Review and validate training requirements in AF approved MIS at least semi-annually. AFR/ANG will validate training requirements annually. **(T-2)**

2.9.4. Ensure training is identified and scheduled. **(T-2)**

2.9.5. Coordinate all formal training, including scheduling changes, through the UTM. **(T-2)**

2.9.6. Review and ensure all AETC graduate questionnaires and/or maintenance training section graduate questionnaires are completed and returned to the maintenance training section (UTM for AFR/ANG) as specified in the applicable training directive. **(T-2)**

2.10. AF Master Course Table Manager. The Master Course Code Manager is the functional system administrator for the AF Master Course Code Table. The Master Course Table Manager is the representative responsible for adding, changing, and deleting course code data from the Master Course Table. The Master Course Table Manager will:

2.10.1. Ensure that course codes loaded to the Master Course Table are current and accurate on an annual basis for all course codes loaded to the table. **(T-1)**

2.10.2. Maintain all change request documents for historical purposes to maintain table integrity. **(T-1)**

2.10.3. Act as single POC for problems related to functional data/records stored within the MIS. The Master Course Table Manager will refer all other software-related and technical problems to the Combat Support Systems Help Desk. **(T-1)**

2.10.4. Ensure all applicable master course table change requests are reviewed during Specialty Training Requirements Team/Utilization and Training Workshops and the Maintenance Training Advisory Group meeting. **(T-1)**

2.10.5. Ensure no duplication of course codes exist. **(T-1)**

Chapter 3

MAINTENANCE TRAINING DOCUMENTATION

3.1. Introduction. The purpose of this chapter is to provide training documentation and evaluation instructions that are unique to maintenance career fields.

3.2. Training Documents.

3.2.1. Use automated training documentation forms in Air Force and MAJCOM approved MIS.

3.2.2. Use AF Form 2426, *Training Request and Completion,* or equivalent approved electronic form, to request training, record training and certificate of completion (N/A for AFR). The electronic form must be mutually agreed upon by the host wing maintenance training section and TD. The Group Commander (or equivalent) will be the final approval authority for all versions of the AF Form 2426. **(T-2)**

3.2.3. DAF Form 898 is a contract between the host wing and AETC TD. The Group Commander (or equivalent) will sign DAF Form 898 and may delegate action to the Maintenance Training Section Superintendent. **(T-2)** An**y c**hanges will be coordinated through all signatories. **(T-2)**

3.2.4. Maintenance training sections and TDs will use DAF Form 898 (N/A for AFR), or equivalent approved electronic form (Intercontinental Ballistic Missile units see AFMAN 21-202 for scheduling TD journeyman courses) too:

3.2.4.1. Manage, forecast, and request unit TD training requirements. **(T-2)**

3.2.4.2. Identify, prioritize, and request wing TD course requirements. **(T-2)**

3.2.4.3. Schedule TD systems and associate courses. The electronic form must be mutually agreed upon by host wing maintenance training section and TD. **(T-2)**

3.2.5. Upgrade training waivers (AFR/ANG requirements are identified in **Chapter 10**). See comprehensive guidance for training waivers in AF Enlisted Classification Directory and AFMAN 36-2100, *Military Utilization and Classification*.

3.2.6. Maintenance training section coordinates training course control documents dealing with explosive safety annually through the wing weapons safety office.

3.3. Training Records. As a minimum, training records will be kept on all personnel in military grade of E-6 and below for enlisted and O-4 and below for officers, as well as any other personnel in upgrade training or retraining. **(T-1)**

3.3.1. Documentation will be kept on all personnel (including civilians) who perform maintenance on aircraft, missiles, and associated equipment regardless of grade. Tasks to be performed while deployed will be prioritized accordingly. **(T-1)**

3.3.2. MSgts and above need only be certified on the "hands on" tasks they may normally be expected to perform. This does not have to include career field core tasks or local upgrade requirements unless they will be doing these tasks.

3.3.3. AF approved electronic training records will be used to provide a record of qualification. **(T-1)** In the event AF approved electronic training records are not available or are temporarily

unavailable, a hardcopy DAF Form 623, *Individual Training Record Folder,* DAF Form 623A, *On-the-Job Training Record-Continuation Sheet* and the CFETP may be used to record training. Records will be transcribed to AF approved electronic training records within 15 days of restoration of AF approved electronic training records availability. **(T-1)**

3.3.4. There is no special requirement for development of a training record for individuals performing task certification only. Intercontinental Ballistic Missile maintenance organizations will follow training management requirements in AFMAN 21-204. **(T-1)**

3.4. Core Tasks. Core tasks, as identified in the specialty training standard portion of the CFETP, designate minimum on-the-job training requirements for skill-level upgrade in an AFSC. MAJCOM Functional Managers, commanders, and supervisors may designate additional critical tasks as required for upgrade training. When designated, certify these critical tasks using normal core task certification procedures. As a minimum, certification on all AF Career Field Manager-directed core tasks applicable to the specialty must be completed for skill level upgrade. **(T-2)**

3.4.1. **Exemptions:**

3.4.1.1. Core tasks, which are not applicable to base assigned aircraft, missiles, or equipment, are not required for upgrade (units are not required to send personnel temporary duty (TDY) for core task training). The absence of core task training capability will be documented by MXG/CC or equivalent and annotated in the member's training records.

3.4.1.2. Units with more than one MDS, for example, A-10, C-130 aircraft or missile system, upgrade trainees need only complete core tasks on a single MDS. MAJCOM, unit commanders, and or supervisors may require trainees to complete core task training on additional mission design aircraft or missile system, if desired. If some of these core tasks involve training in another unit on base, trainees must still complete all core tasks relevant to at least one mission design aircraft or missile system. **(T-1)** These additional tasks will not be upgrade training requirements for the individual. **(T-1)** All units are bound by the requirements in this instruction and will accommodate core task trainees from other units. **(T-1)**

3.5. Duty Position Qualification Tasks. These are tasks required for an individual to be qualified in their current duty position beyond upgrade training.

Chapter 4

MAINTENANCE INFORMATION SYSTEMS AND AF APPROVED ELECTRONIC TRAINING RECORDS

4.1. Introduction. Systems currently approved for use in training management are MyTraining, IMDS, and FMxC2. MAJCOMs may approve systems to assist with training given they meet the same requirements and are not the sole system of record. MIS use is mandatory when available. Maintenance training sections and/or UTMs are the POCs for functional administration of the MIS training component.

4.2. Purpose. The MIS and AF approved electronic training records provides authorized users with ready access to training related information currently maintained in many different places and not readily accessible to those who need the information.

4.3. Integrated Maintenance Data System (IMDS) and FMxC2 Master Course Codes. The most current master course code listings are available within the respective MIS sub-systems. Specific lists and usage instructions can be found in the applicable MIS and MIS user manuals.

4.3.1. IMDS Master Course Code Configuration Control Board. All requested changes to the IMDS Centralized Database Master Course Table must be approved by the configuration control board prior to submission to the Master Course Code Manager. Configuration Control Board membership includes AF/A4LM chair, MAJCOM maintenance training managers, and Air Force Life Cycle Management Center Database Management Support (AFLCMC/HIA) (advisory/current Master Course Code Manager). The Master Course Table Manager will consolidate all MAJCOM non-critical change requests for presentation to the Configuration Control Board. **(T-2)** The Configuration Control Board will evaluate and approve or disapprove non-critical change requests annually in conjunction with applicable Specialty Training Requirements Team/Utilization and Training Workshop and Maintenance Training Advisory Group. **(T-2)**

4.3.1.1. Master Course Code Approval Process. Course additions, changes, and deletions identified as non-critical but time sensitive or critical: All aircraft related course code changes will go through the aircraft lead MAJCOM for concurrence on how that requirement is to be tracked AF-wide. **(T-2)** Preformatted request letters must be completed for each new request and forwarded by maintenance training sections (UTM for AFR/ANG) to the MAJCOM representative for approval and submission to the Master Course Code Manager. **(T-2)** Immediate change requests of a critical nature may be routed for email approval from the requesting MAJCOM POC, through all other MAJCOM POC to AF/A4LM for immediate approval and processing. If approved, these requests will be sent to the AF Master Course Code Manager for processing and implementation. **(T-2)**

4.3.1.2. Master Course Code Waiver Process. AF/A4LM is the waiver authority for all local course codes to be used for local requirements tracking only. Local requirements tracking: Will be those requirements that only the submitting unit/base ID has as a valid training requirement that must, by directive, be tracked in MIS. **(T-2)** This valid training requirement must not be applicable to any other unit/base/MAJCOM to be exclusively tracked locally. If a valid requirement does apply to any other unit/base/MAJCOM then the requirement, must be submitted as a Master Course Code request for all users to have

access to. Requests for waivers must be submitted through the MAJCOM Training Manager to AF/A4LM with full justification as to why the unit/base ID requires more local course codes than the preset limit of 20 per base established by AF/A4LM. **(T-1)** If disapproved, AF/A4LM will return submission with justification for disapproval.

Chapter 5

MAINTENANCE TRAINING (SEE CHAPTER 10 FOR AFR/ANG REQUIREMENTS).

5.1. General. The maintenance training section is a maintenance group staff agency organized as a centralized aircraft or missile maintenance training function and should be directly subordinate to the Maintenance Group Commander (or equivalent). UTMs should be physically located and conduct their daily duties in the unit(s) they support. All maintenance instructors and UTMs (AFSC 3F2X1) will be assigned to maintenance training sections under the maintenance group for administrative and operational purposes. **(T-3)** The centralization concept provides economy of scale and standardizes maintenance training throughout the maintenance group. UTMs may manage one or more squadrons (if necessary).

5.1.1. Maintenance training sections are responsible for the functional management, utilization, control, and training of assigned 3F2X1 personnel. This structure provides the best possible environment to ensure maintenance training sections can fulfill their responsibilities, support all maintenance group customer needs, and effectively manage, utilize, train and mentor assigned 3F2X1 personnel to be productive and progress within their career field. The overall responsibility for management of maintenance training sections rests with the Maintenance Group Commander (or equivalent) and Maintenance Group Chief. **(T-2)**

5.1.2. Performance-based activities (contractors) will implement the organization required in accordance with the contract or management plan. **(T-3)**

5.1.3. Coordinate with the Plans, Scheduling & Documentation (PS&D) function and the production superintendent or Maintenance Operations Superintendent for selecting training aircraft or facilities. Maintenance training sections will forward training requirements in a monthly format (including configuration and time periods) to Maintenance Operations PS&D by the end of the second week of each month for inclusion in the monthly maintenance schedule. **(T-2)** Training requirements must be updated weekly and forwarded to Maintenance Operations and Aircraft Maintenance Unit PS&D for inclusion in the weekly maintenance plan. Maintenance training sections are responsible for scheduled maintenance training aircraft or facilities (in conjunction with the aircraft or missile maintenance unit) to include maintaining aircraft forms and coordinating on and off-equipment maintenance. **(T-2)**

5.2. Manning.

5.2.1. Supervision. Maintenance Training Section Superintendent will be a 3F271 (or civilian equivalent). **(T-2)**

5.2.2. Training Management Section. The Training Management Element Chief will be an authorized AFSC 3F2X1. **(T-2)** The schedulers and training managers should be filled with an authorized AFSC 3F2X1, depending on organizational structure.

5.2.3. Development and instructor section. The Development and Instructor Element Chief should be the ranking individual assigned to the section. The Development Work Center Supervisor should be a 2XXXX or 3F2X1, while the instructor work center supervisor should be the highest-ranking assigned instructor.

5.3. Training. The Maintenance Training Section Superintendent will ensure flight personnel are adequately trained to perform their duties. **(T-2)** Periodically (recommended at 2-year point) rotate

UTMs (3F2X1) to different duty positions or sections to gain experience. All individuals should attend applicable formal schools and receive training in current and new technologies by other commands, services, and civilian institutions. Maintenance training sections must assist commanders in ensuring adequate funding is programmed and budgeted to meet TDY and training needs and conduct in-house training for assigned personnel on a regular basis. **(T-2)**

5.3.1. **(Added-PACAF)** The Maintenance Training Section will conduct in-house training for assigned Maintenance Training Section personnel at least once per quarter. **(T-2)**

5.4. Maintenance Training Section Superintendent Responsibilities.

5.4.1. Serve as liaison between maintenance units and base training and ensure skill-level upgrade and qualification training programs are conducted in accordance with DAFMAN 36-2689.

5.4.2. For units without a 3F2X1 assigned, commanders will appoint an ADUTM for no less than 12 months' time in position. **(T-2)** Forward a copy of the appointment letter to the Base Training Office (if applicable).

5.4.3. Ensure approved MIS, IMDS/FMxC2, myLearning, Automated Civil Engineer System, etc. are used for scheduling training. MAJCOM approved systems may be used to assist with scheduling process given the training is updated in the approved MIS.

5.4.4. Act as the single POC for all training matters affecting the maintenance community, to include outside agencies, for example, Disaster Preparedness.

5.4.5. Ensure submission of aircraft or facilities and support equipment requirements to PS&D.

5.4.6. Prepare the quarterly Maintenance Group Commander (or equivalent) TAB.

5.4.7. Review and coordinate training requests on the DAF Form 898 and route to the Maintenance Group Commander, or equivalent for signature.

5.4.8. Review MAJCOM formal courses, maintenance training section class packages, and maintenance instructor folders.

5.4.9. Monitor maintenance training section courses taught by AFETS/CETS personnel.

5.4.10. Manage maintenance training section administrative functions.

5.4.11. Identify in writing or electronically a listing of personnel authorized to update applicable MIS.

5.4.12. Interview and select individuals to serve as assigned or attached instructors.

5.4.13. Appoint in writing a Composite Tool Kit Custodian (primary and alternate), if applicable.

5.4.14. Establish procedures for the control and maintenance of aircraft ground trainers when assigned to the maintenance training section.

5.4.15. Ensure local maintenance training operating instructions are developed, as required.

5.4.16. Review Quality Assurance summaries for training deficiencies or trends.

5.4.17. Coordinate on Maintenance Training Plan of Instruction prior to course validation.

5.4.18. Inform MAJCOM of training media production requirements.

5.4.19. Review and coordinate when appropriate on Host Tenant Agreements and Memorandum of Agreements.

5.4.20. Serve as the maintenance training POC for all Site Activation Task Force and weapon modification issues.

5.4.21. Establish a maintenance training customer feedback program to provide continuous, measurable improvements and ensure training needs are being met.

5.4.22. Establish an effective in-house training program.

5.4.23. Ensure a newcomer's orientation program is conducted in accordance with **paragraph 2.7.1**, familiarizing newly assigned personnel with wing maintenance activities. MAJCOMs may determine which organization will conduct this training.

5.4.23.1. **(Added-PACAF)** The Maintenance Training Section will be the organization to conduct the newcomer's orientation program in accordance with **paragraph 2.7.1**. **(T-2)**

5.4.24. Ensure the Squadron Training Performance Metrics briefing is produced and briefed monthly by the UTM in accordance with DAFMAN 36-2689 and this instruction.

5.4.24. **(PACAF)** Ensure monthly Status of Training statistical data is compiled and consolidated into MXG totals and provide to the MAJCOM Maintenance Training Branch by the 20th of each month. **(T-2)**

5.4.25. **(Added-PACAF)** Should attend MXG production meeting at least weekly to identify training trends and/or areas of concern within the training program.

5.4.26. **(Added-PACAF)** Will appoint a primary and alternate E-Testing Point of Contact in writing for their units and send signed copies to HQ PACAF/A4MM Program Managers. **(T-2)** E-Testing POCs must be assigned to the Maintenance Training Section (Reference **Attachment 7**). **(T-2)**

5.5. Training Management Element Chief Responsibilities.

5.5.1. Ensure a training plan is developed for UTMs and scheduling personnel.

5.5.2. Conduct work center visits to ensure UTM is performing duties outlined in DAFMAN 36-2689 and this instruction.

5.5.3. Determine which MIS products the UTMs are required to retain.

5.5.3.1. **(Added-PACAF)** Determine how long each product needs to be retained.

5.5.4. Ensure UTMs conduct Staff Assistance Visit in accordance with DAFMAN 36-2689. Provide information copy of the results to the Maintenance Training Section Superintendent and base training office. **(T-3)**

5.5.5. Ensure the monthly scheduling meeting is conducted in accordance with **paragraph 6.4**.

5.5.6. Develop backup procedures in case of extensive (48 hours or more) MIS down time.

5.5.7. Ensure training completions and task qualifications are properly documented before being entered into the MIS and AF approved electronic training records. The AF Form 2426,

MAJCOM forms, class rosters, test results sheets generated from approved electronic testing programs and emails are acceptable source documents for this purpose.

5.5.8. Emails cannot be used for special certification items unless information is captured on a digitally signed AF Form 2426 or MAJCOM equivalent and sent as an attachment. **(T-3)**

5.5.9. Ensure UTMs receive required training.

5.5.10. Ensure UTMs coordinate training requirements for their designated unit to include AETC or MAJCOM formal courses, TD, maintenance training section, and ancillary training.

5.5.11. Coordinate with the scheduling element on matters affecting students attending courses.

5.5.12. Ensure UTMs manage and retain a copy of training products for his/her unit(s).

5.5.13. Ensure UTMs provide DAF Form 898 inputs for his/her unit(s).

5.5.14. Attend the monthly training scheduling meeting.

5.5.15. Assist UTMs and supervisors in managing the Career Development Course program.

5.5.16. Coordinate requests for training conducted by AFETS and/or CETS with the Non-Commissioned Officer in Charge, Scheduling Element.

5.6. Unit Training Managers. UTMs manage the training program for the commander according to this instruction and DAFMAN 36-2689. The UTM is responsible for updating all training requirements into the MIS as required. Updates do not include events created by the maintenance training section scheduler. The Maintenance Training Section Superintendent may authorize additional-duty training monitors to update work center requirements only when directed in local training directive.

5.6.1. The UTM is responsible for assisting supervisors with skill-level upgrade, qualification, and formal training programs within the maintenance community. The UTM is the POC within the squadron for all training matters. UTMs will:

5.6.1.1. Coordinate with maintenance training sections to obtain training beyond the squadron's capability. **(T-2)**

5.6.1.2. Manage visual information products at the unit level, if applicable. **(T-2)**

5.6.1.3. Assist work center supervisors in preparing training session course outlines for training conducted within the work center. **(T-2)**

5.6.1.4. Forward statistical data to maintenance training section for input into the TAB. **(T-2)**

5.6.1.5. Manage MIS training products, distribute these products in accordance with local guidance, and ensure all products are accurate. **(T-2)**

5.6.1.6. Ensure all work center training requirements have been loaded to MIS. **(T-2)**

5.6.1.7. Provide unit(s) inputs on the DAF Form 898 and attend monthly scheduling meeting **(T-2)**

5.6.1.8. Ensure personnel changes are coordinated, in accordance with local instructions, with the scheduling section to prevent deviations. **(T-2)**

5.6.1.9. Coordinate training no-show notifications through the appropriate work center to the unit commander (as required). **(T-2)**

5.6.1.10. Attend the unit and maintenance training section staff meetings. **(T-2)**

5.6.1.11. Provide the unit commander with a monthly Training Performance Metrics brief and a quarterly TAB pre-brief. **(T-2)**

5.6.1.12. Process personnel in/out during Permanent Change of Assignment, Permanent Change of Station, and TDY. Ensure all applicable systems (MIS, AF electronic training records, myLearning, etc.) are updated. **(T-2)**

5.6.1.13. Forward all training policy correspondence and inquiries from the unit through the Maintenance Training Section Superintendent for review and approval before sending to higher headquarters. **(T-2)**

5.6.1.14. Conduct quarterly training meetings and forward training meeting minutes to the Maintenance Training Section Superintendent, work centers, and the base training office, as applicable. **(T-2)**

5.6.1.15. Update SCR after receiving proper coordination forms from Director of Operations or Maintenance Senior Enlisted Leader. **(T-2)**

5.6.1.16. Review published maintenance training section/TD schedule/allocations and ensure applicable students are scheduled in the MIS by the timeline set by the Training Management Element Chief or maintenance training scheduler.

5.7. Scheduler Responsibilities.

5.7.1. The Scheduler is responsible for scheduling all MAJCOM formal courses, maintenance, ancillary, maintenance training section, and TD training for maintenance personnel. The scheduler will:

5.7.1.1. Manage the MIS training subsystem in accordance with AF Computer Systems Manual and this instruction. **(T-2)**

5.7.1.2. Load, change, or delete local course codes as needed within the MIS. **(T-2)**

5.7.1.3. Conduct and document annual review of local course codes for accuracy and validity. **(T-2)**

5.7.1.4. Coordinate requirements for the operation and maintenance of the training subsystem with analysis section. **(T-2)**

5.7.1.5. Establish recurring product requests with data base management as applicable. The MIS will automate this function. **(T-2)**

5.7.1.6. As applicable, coordinate requests for training beyond the capability of the maintenance training section with:

5.7.1.6.1. MAJCOM

5.7.1.6.2. TD

5.7.1.6.3. Local training providers

5.7.1.7. Publish monthly maintenance training section and/or TD class schedules. Include type of training, date, time (start and end), and location. Provide schedule to Instructor Element Chief to coordinate required equipment.

5.7.1.8. Ensure ancillary training requirements are reviewed for the number of quotas requested and supported.

5.7.1.9. Ensure the monthly scheduling meeting is accomplished in accordance with **paragraph 6.4**.

5.7.1.10. Establish, change, update, close or delete all required classes in MIS (as required).

5.7.1.11. Ensure instructors receive a class roster before class start date.

5.7.1.12. Consolidate unit inputs for the DAF Form 898 and submit the completed scheduling document to the Training Management Element Chief for review.

5.7.1.13. Submit request for TD TDY instructor assistance in accordance with DAFMAN 36-2689 and this instruction.

5.7.1.14. **(Added-PACAF)** Will operate as the POC or provide a POC to inbound mobile training team instructors. **(T-3)** The mobile training team POC will assist with instructor coordination to include: lodging (as needed), transportation (as needed), classroom/equipment availability, and any other concerns to ensure the instructor is prepared to begin class as scheduled. **(T-2)**

5.9. Development Responsibilities. Note: For tenant units, responsibilities may be performed by the host unit and should be defined in the host/tenant support agreement. The Development Work Center develops and manages course control documents along with associated training materials to support maintenance training section courses. The Development Work Center will:

5.9.1. Ensure the Instructional Systems Development process is applied to all training programs. **(T-3)**

5.9.2. Perform a review of course control documents to include attached instructor courses every 24 months. **(T-3)**

5.9.3. Ensure an Instructional Systems Development project plan is used for maintenance training section courses in development or revision. **(T-3)**

5.9.4. Incorporate changes (as they occur) to course control documents that result from TO, or publication updates as identified by the subject matter expert, course administrator, or Curriculum Advisory Committee. **(T-3)**

5.9.5. Submit recommended changes for TD courses to the TD Commander and/or Senior Enlisted Leader. **(T-3)**

5.9.6. Requests will be coordinated through the Maintenance Training Section Superintendent and the Maintenance Group Commander (or equivalent). **(T-3)**

5.9.7. New or revised TD course charts and/or training standards will be coordinated on an AF Form 1768, *Staff Summary Sheet* or electronic staff summary sheet equivalent. **(T-3)**

5.9.8. Coordinate course development with the using work centers, subject matter expert, and other coordinating agencies. **(T-3)**

5.9.8.1. **(Added-PACAF)** Development team should collaborate with lead Maintenance Training Sections within Air Combat Command and Air Mobility Command for Maintenance Training Section course revisions as applicable (i.e., MDS specific courses).

5.9.9. Establish an Instructional Systems Development project status board or automated product to monitor course development, coordination, and status. **(T-3)**

5.9.10. Inform the Maintenance Training Section Superintendent of training requests for interactive multimedia instruction products such as, video and computer-based training. **(T-3)**

5.9.11. Ensure new training courses and video instruction program requirements are prioritized. **(T-3)**

5.9.12. Manage maintenance training section video instruction equipment. **(T-3)**

5.9.13. Maintain a master course control document file for courses taught by the maintenance community. **(T-3)**

5.9.14. Develop and maintain a course catalog. **(T-3)**

5.9.15. Manage maintenance training section testing program. **(T-3)**

5.9.16. Chair each Curriculum Advisory Committee. **(T-3)**

5.9.17. Ensure course validation is completed prior to course implementation. **(T-3)**

5.10. Instructor Responsibilities.

5.10.1. Use approved and current Course Control Documents. **(T-3)**

5.10.2. Provide inputs to training schedules and reports, as required. **(T-3)**

5.10.3. Obtain necessary supplies, tools, equipment, and aircraft for maintenance training section courses. **Note:** This is a joint TD and maintenance training section effort when supporting AETC.

5.10.4. Ensure availability of instructors to the meet maintenance training section class schedule.

5.10.5. Annotate task qualification items identified in the Plan of Instruction on each student's CFETP (AF approved electronic training records if applicable), to include DAF Form 797, *Job Qualification Standard Continuation/Command Job Qualification Standard*, in accordance with DAFMAN 36-2689. **(T-3)**

5.10.6. Ensure maintenance instructors develop personalized lesson plans for each course. **(T-3)**

5.10.7. Record and report lost training time daily to the Development and Instructor Element Chief. **(T-3)**

5.10.8. Monitor student performance and take corrective action as necessary. **(T-3)**

5.10.9. Brief the Development and Instructor Element Chief, the applicable UTM, and the immediate supervisor, as required, whenever student's progression is substandard. **(T-3)**

5.10.10. Ensure instructors administer and control tests. **(T-3)**

5.10.11. Ensure instructors follow the approved Plan of Instruction when teaching. **(T-3)**

5.10.12. Ensure instructors issue training deficiency reports, when required. **(T-3)**

5.10.13. Conduct instructor evaluations. **(T-3)**

5.10.14. Coordinate training no-show notifications through the appropriate work center to the unit commander (as required or if UTM is not available). **(T-3)**

5.10.15. Establish, change, update, close, or delete all required classes in MIS (as required or if scheduler is not available). **(T-3)**

5.11. Maintenance Training Section Maintenance Instructors (MI) and Development Functions.

5.11.1. MIs support maintenance courses and are assigned to the MTS against authorized manpower positions. The MTS may request additional personnel by AFSC to augment instructors.

5.11.1. **(PACAF) Note:** Units not authorized a specific AFSC do not have to submit a waiver request.

5.11.1.1. **(Added-PACAF)** Authorize additional personnel, by AFSC, to teach those courses required by the maintenance community (e.g., avionics, Aerospace Ground Equipment, etc.).

5.11.1.2. **(Added-PACAF)** Use attached maintenance instructors when support does not warrant a full-time instructor. Attached maintenance instructors are assigned to their respective work center and function as a part-time instructor. Attached maintenance instructors must meet instructor qualification requirements IAW **paragraph 5.11.2**. **(T-3)**

5.11.1.2.1. **(Added-PACAF)** Attached maintenance instructors are those that teach courses technical in nature to include, but not limited to, test cell, and crash and recovery.

5.11.1.3. **(Added-PACAF)** Criteria to consider when determining the need for instructors:

5.11.1.3.1. **(Added-PACAF)** Number of instructors required to support Trained Personnel Requirement (TPRs).

5.11.1.3.2. **(Added-PACAF)** Quantity, length, and type of MTS courses.

5.11.1.3.3. **(Added-PACAF)** Instructor utilization.

5.11.1.3.4. **(Added-PACAF)** Instructor retainability (time remaining on station, overseas return date, and expiration of current enlistment).

5.11.2. At a minimum, MAJCOMs will establish the following MI development functions:

5.11.2.1. Minimum instructor requirements.

5.11.2.1.1. **(Added-PACAF)** Have a minimum of 10 months experience on the assigned aircraft/equipment **Note:** Remote locations exempt from this time requirement. **(T-3)**

5.11.2.1.2. **(Added-PACAF)** Be RED-X certified on course objectives requiring production inspections as indicated in DAFI 21-101, *Aircraft and Equipment Maintenance Management* and its PACAF supplement as well as any other applicable tech data. **(T-3)**

5.11.2.1.3. **(Added-PACAF)** Be in the grade of E-4 or higher. **(T-3) Note:** Specific programs may identify additional instructor qualification requirements (e.g., engine run).

5.11.2.1.4. **(Added-PACAF)** At a minimum, instructors will have a 5-skill level in the AFSC for which he/she is selected to instruct. **(T-3)**

5.11.2.1.5. **(Added-PACAF)** Will be qualified on all applicable CFETP tasks as course material requires. **(T-3)**

5.11.2.1.6. **(Added-PACAF)** Completion of the Air Force Training Course.

5.11.2.1.7. **(Added-PACAF)** Complete course qualification process as defined in **paragraph 5.11.2.3**.

5.11.2.1.8. **(Added-PACAF)** Maintenance instructors must attend Facilitator Fundamentals Course (FFC) prior to instructing. **(T-3) Note:** FFC is not required if members have already graduated the Basic Instructor Course (BIC). Remote locations will utilize the Attached Instructor Course taught by Maintenance Training Section and will attend prior to instructing. **(T-3)**

5.11.2.1.9. **(Added-PACAF)** Complete interview with Maintenance Training Section Superintendent and Development and Instructor Element Chief. **(T-3)**

5.11.2.2. Instructor records.

5.11.2.2. **(PACAF) Instructor Records.** The Development and Instructor (D&I) Element Chief will maintain a folder for each assigned and attached maintenance instructor. **(T-2)** As a minimum, the D&I Element Chief will ensure each folder contains the following:

5.11.2.2.1. **(Added-PACAF)** Appointment letter for attached instructor signed by MXG commander (May be delegated to the Maintenance Training Section Superintendent). **(T-2)**

5.11.2.2.2. **(Added-PACAF)** A current list of the instructor's course qualifications. **(T-3)**

5.11.2.2.3. **(Added-PACAF)** Instructor evaluations; see paragraph **5.11.2.3** through **5.11.6**. **(T-3)**

5.11.2.2.4. **(Added-PACAF)** Approved instructor course waiver, as required. **(T-2)**

5.11.2.3. Instructor course qualification and evaluation process.

5.11.2.3. **(PACAF) Instructor Course Qualification and Evaluation Process.** MTS instructors and attached instructors must be qualified to teach their respective courses. **(T-2)** As a minimum, instructors will:

5.11.2.3.1. **(Added-PACAF)** Sit in on the course they will be teaching at least once or until they feel familiar with course content and presentation methods. **(T-3)**

5.11.2.3.1.1. **(Added-PACAF)** Exception for Maintenance Qualification Training Program (MQTP) instructors: Due to the exceptional course length, new instructors equipped with adequate MDS qualifications and experience (Subject Matter Expert (SME)), should not only sit in on the course, but should begin assisted teaching with a qualified instructor no later than halfway through the class. Successful completion of this assisted teaching will meet the requirements of paragraph **5.11.2.3.2** and **5.11.2.3.3**. **(T-3)**

5.11.2.3.2. **(Added-PACAF)** Teach units/blocks of instruction with a qualified instructor sitting in the course. **(T-3)**

5.11.2.3.3. **(Added-PACAF)** Teach the entire course while being observed by a qualified instructor. **(T-3)** The qualified instructor will inform the Development and Instructor Element Chief when the instructor is ready to be evaluated for qualification. **(T-3)**

5.11.2.3.4. **(Added-PACAF)** Teach the entire course a second time with the Development and Instructor Element Chief (or appointed Instructor Evaluator) conducting an instructor evaluation IAW **paragraph 5.11.6**. **(T-3)** If the evaluation is rated "satisfactory" or better, the instructor is qualified to teach. **(T-3)**

5.11.2.3.4.1. **(Added-PACAF)** Exception for Maintenance Qualification Training Program (MQTP) instructors: The instructor will be evaluated on instructing 25% of the course curriculum and all non-classroom requirements (i.e., Lesson plan review and required teaching aids). **(T-3)**

5.11.2.3.4.2. **(Added-PACAF)** Instructors will receive a scheduled academic evaluation annually *(Short-tour assignments are exempt.)*. **(T-3)** Evaluators will document the evaluation using an AETC Form 281A, *Instructor Evaluation*. **(T-3)**

5.11.2.3.4.3. **(Added-PACAF)** Instructors will receive a personnel evaluation (PE) by QA every 12 months. **(T-2)** PEs will take place during quarterly proficiency training IAW **paragraph 5.11.7.2** **(T-3)** If applicable, PEs will evaluate performance tasks, which are taught during classroom instruction. **(T-3)** PE's will not be conducted during classroom instruction. **(T-3)**

5.11.2.4. Instructor self-qualification.

5.11.2.4. **(PACAF) Instructor Self-Qualification.** Due to the non-availability of another qualified instructor, a maintenance instructor may need to self-qualify on a newly developed course. Upon qualification, that instructor will then qualify any remaining instructors as needed IAW **paragraph 5.11.4** **(T-3)** As a minimum, all instructors undergoing self-qualification must complete the following: **(T-3)**

5.11.2.5. Assigned and attached MTS instructor evaluations.

5.11.2.5. **(PACAF) Maintenance Training Section Instructor Evaluations (assigned and attached).**

5.11.2.5.1. **(Added-PACAF)** Instructors will receive an instructor evaluation on AETC Form 281A. **(T-3)**

5.11.2.5.1.1. **(Added-PACAF)** Instructors will be evaluated during their second qualification class for each course they instruct unless otherwise stated in this supplement. **(T-3)**

5.11.2.5.1.2. **(Added-PACAF)** Instructors will be evaluated every 12 months thereafter to ensure sound instructor habits are maintained and lesson plans (LPs) are properly utilized (*Remote assignments are exempt.*) **(T-3)**

5.11.2.5.1.3. **(Added-PACAF)** The instructor evaluation will be conducted by the D&I Element Chief or by one of their appointed Instructor Evaluators.

5.11.2.5.1.3.1. **(Added-PACAF)** Instructor evaluators should reference the PACAF Instructor Evaluation Guide in order to conduct effective evaluations and to properly document the AETC Form 281A. (Reference the HQ PACAF Maintenance Training Branch SharePoint site.)

5.11.2.5.1.4. **(Added-PACAF) Note:** Instructors normally have their own personalization. One may use a joke in the attention step while another might use a personal experience. The LP lays out how an individual instructor will teach the course as it is prescribed by the CC/TS and FFC.

5.11.2.5.1.5. **(Added-PACAF)** Follow-up evaluations are required within 30 days when any block is rated "Needs Improvement" (NI). **(T-3)**

5.11.2.5.1.6. **(Added-PACAF)** "Needs Improvement" (NI) and "Outstanding" (O) ratings require a short justification on the AETC Form 281A. **(T-3)**

5.11.2.6. **(Added-PACAF) Maintenance Instructor Utilization and Proficiency Training Outside the Classroom.**

5.11.2.6.1. **(Added-PACAF)** The Maintenance Training Section must track instructor utilization to include lost training time due to equipment or personnel issues. **(T-3)** Examples of lost training time include but are not limited to: minimums not met causing cancellation, equipment breakage, aircraft non-availability, and short notice instructor non-availability. **Note:** Lost training time only accounts for actual instructor hours. (Ex: 8-hour class equals 8 instructor hours lost, do not multiply by number of students).

5.11.2.6.1.1. **(Added-PACAF)** Instructor utilization is tracked as follows: Total Hours Available equals the maximum number of hours an instructor is available per month (Total hours within all duty days of the month). Hours Logged equals classroom Instruction plus duty related non-classroom plus additional duties. Classroom Instruction equals the total time an instructor is either teaching in or preparing the classroom. Duty Related Non-Classroom equals the time an instructor is updating and reviewing course control documents, training aids, lesson plans, administering tests, evaluating instructors, participating in physical training, back-to-the-flightline training, TDY, Appointments (not deployments nor Professional Military Education (PME)). Additional Duties equals the time an instructor is performing additional duties not related to the Maintenance Training Section:

Honor Guard, SF augmentee, etc.

5.11.2.6.1.2. **(Added-PACAF) Note:** Instructors (except D&I Element Chief) should be spending at least 55 percent of their time in the classroom and duty related non-classroom instruction related tasks.

5.11.2.6.2. **(Added-PACAF)** The D&I Element Chief will establish a proficiency program that ensures maintenance instructors perform at least three days each quarter working in production work centers. **(T-3)** This program will be coordinated with the squadrons to ensure instructors are utilized as planned. The D&I Element Chief will establish POCs at each squadron to assist/work with instructors during these back-to-the-flightline proficiency days. **(T-3) Note:** Some courses are several weeks long and may make it difficult to effectively schedule proficiency days. Maintenance instructors are not expected to stop teaching a class already in progress to meet this requirement, however, they are expected to make up the days upon class graduation. The D&I Element Chief will place a memorandum in the instructor's folder documenting the delay and the scheduled date in which proficiency training will take place. **(T-3) Note:** Short-tour assignments are exempt **paragraph. 5.11.2.6.2**.

5.11.2.7. **(Added-PACAF) Test Development.** The primary purpose of testing is to assess the students' attainment of the behavior specified in the objectives. To ensure tests adequately measure the objective, the performance required in the test must match the performance required in the objective. Test development should happen immediately after objectives have been written. All testing material must be secured when not in use. For additional guidance on test development see DAFH 36-2675, Information *for Designers of Instructional Systems*.

5.11.2.7.1. **(Added-PACAF)** Test Characteristics. When developing tests, course developers must consider several characteristics. These characteristics ensure tests measure what is intended each time they are administered. The characteristics of quality tests are validity, reliability, and usability.

5.11.2.7.2. **(Added-PACAF)** Types of Tests. When developing tests, selected items should be clear and concise. The following are types of tests used:

5.11.2.7.2.1. **(Added-PACAF)** Performance Tests.

5.11.2.7.2.2. **(Added-PACAF)** Written Tests.

5.11.2.7.2.2.1. **(Added-PACAF)** Selection (multiple choice, true/false, matching).

5.11.2.7.2.2.2. **(Added-PACAF)** Supply (fill in the blanks, short essay).

5.11.2.7.3. **(Added-PACAF)** Units will develop a test for each course that requires written measurement. **(T-2)**

5.11.2.7.3.1. **(Added-PACAF)** Units must have a documented back-up plan for administering tests if automated testing becomes unavailable for an extended period. **(T-2)**

5.11.2.7.3.2. **(Added-PACAF)** Units will not send any test to a deployed location. **(T-2)**

5.11.2.7.3.3. **(Added-PACAF)** All tests must have a Test Compromise Statement (Reference **Attachment 5**).

5.11.2.7.4. **(Added-PACAF)** Test booklets may be of local design and as a minimum will include:

5.11.2.7.4.1. **(Added-PACAF)** Cover page.

5.11.2.7.4.2. **(Added-PACAF)** Instruction page.

5.11.2.7.4.3. **(Added-PACAF)** Control number.

5.11.2.7.4.4. **(Added-PACAF)** Date.

5.11.2.7.4.5. **(Added-PACAF)** Test Compromise Statement (Reference **Attachment 5**).

5.11.2.7.5. **(Added-PACAF)** Sequentially number test booklets. Label one copy as the "MASTER" and identify the references used to develop each test question. In addition, include a "MASTER" answer key with the master test. **Note:** Phase I and II Engine Run test will be structured so emergency procedure questions are readily identifiable. For example, Part I - Emergency Procedures; Part II - General Engine Run Procedures. Emergency procedures questions will be in essay format to ensure they are committed to memory in accordance with DAFI 21-101.

5.11.2.8. **(Added-PACAF) Test Analysis.** Analyze all test items for possible problems or negative trends.

5.11.2.8.1. **(Added-PACAF)** For initial test validation, conduct a test analysis after six test administrations or 30 samplings, whichever comes first. Once the test has been validated; analyze test at least every 180 days unless covered by other guidance.

5.11.2.8.2. **(Added-PACAF)** Document analysis in a Memorandum For Record and file (in the master CCD file, if course related) for 12-months or upon completion of next course or test SME review. MFRs will include the following:

5.11.2.8.2.1. **(Added-PACAF)** Identification of “high-missed” test questions. A question will be considered “high-miss” if Added-PACAF percent or more students miss the question.

5.11.2.8.2.2. **(Added-PACAF)** Assessed cause.

5.11.2.8.2.3. **(Added-PACAF)** Corrective actions implemented.

5.11.2.8.2.4. **(Added-PACAF)** Include all MFRs in the SME review.

5.11.2.9. **(Added-PACAF) Management of Unclassified Testing Materials.** Control test materials at all times to prevent compromise. Tests may be administered open or closed-book. However, closed book is required for all courses requiring certification. **(T-2)** Unit procedures are as follows:

5.11.2.9.1. **(Added-PACAF)** Units will ensure all testing materials, to include removable media, are stored in a secure, locked file cabinet or safe, identified on the master test control log, and stored separately from non-testing material. **(T-2)**

5.11.2.9.2. **(Added-PACAF)** Units will use the master test control log to inventory tests quarterly. **(T-2)**

5.11.2.9.3. **(Added-PACAF)** Units will ensure tests are controlled through a sign-out and sign-in log when removed from the testing room. **(T-2)**

5.11.2.9.4. **(Added-PACAF)** Tests for courses used to assess or measure the applicable course objective/material will be reviewed at the same time as their respective CCDs. Units will review tests identified in DAFI 21-101, AFI 36-2650 and PACAF supplements that supports certification once every two years. **(T-2)**

5.11.2.9.4.1. **(Added-PACAF)** Accomplish review on same AF Form 1768 used for the CCD review.

5.11.2.9.4.2. **(Added-PACAF)** Units will identify test separately on the AF Form 1768; test will not be routed out of the Maintenance Training Section during the review. **(T-2)**

5.11.2.9.5. **(Added-PACAF)** If a test compromise is suspected, refer to procedures in **Attachment 5**.

Chapter 6

MAINTENANCE TRAINING SCHEDULING FUNCTION

6.1. General (AFR/ANG requirements are identified in Chapter 10). This chapter identifies guidelines used to schedule maintenance personnel for training in the maintenance group. Individuals assigned to this duty position in the maintenance training section will use these key processes and procedures to ensure scheduling across the maintenance group remains efficient, consistent, and effective. **(T-3)** Intercontinental Ballistic Missile units will manage and schedule training in accordance with appropriate 21-202 and -204 series AFMANs.

6.2. Maintenance Training Scheduling Process.

6.2.1. Distribute quota request forms to UTMs for TD, ancillary, maintenance training section, and AFETS training.

6.2.2. Conduct the monthly scheduling meeting in accordance with **paragraph 6.4**.

6.2.3. Collect, consolidate, and verify unit inputs for the DAF Form 898, ancillary, maintenance training section, and AFETS requests.

6.2.4. Submit consolidated quota requests to appropriate training providers.

6.2.5. Collect class dates from training providers and build classes in the MIS.

6.2.6. Publish weekly maintenance training section and TD class schedules as locally prescribed and monthly maintenance training section and TD class schedules no later than the 25th calendar day of the month (or prior to the date if the date falls on a holiday or weekend).

6.2.7. Provide class rosters to training providers prior to class start date. Collect and update class rosters from local training agencies upon completion of training.

6.2.8. Notify UTMs of class deviations and maintain data for the TAB and Training Performance Metrics briefings.

6.2.9. Open seats will be identified within Field Training Scheduling System (or equivalent) by the 25th calendar day of each month (or prior to the date if the date falls on a holiday or weekend). **(T-2)** Update all training classes in the MIS scheduled by the maintenance training section.

6.2.10. Open seats utilized by host unit(s) will be coordinated through the maintenance training scheduler to the TD or maintenance training section. **(T-2)**

6.2.11. Field TD will notify the host scheduler when open seats are approved locally for non-host students. **(T-2)**

6.3. Maintaining Scheduling Files. As a minimum, maintain the following items for 1 year unless stated otherwise:

6.3.1. Class rosters. **(T-2)**

6.3.2. Messages and email traffic pertaining to training assistance and policy changes. **(T-2)**

6.3.3. Monthly training documentation, for example, forecasts, DAF Form 898, training schedules. **(T-2)**

6.3.4. Deviation letters (e.g., no-show letters, course cancellations). **(T-2)**

6.3.5. Course code documentation (additions, deletions, and changes) until no longer applicable. **(T-2)**

6.3.6. MIS products as dictated by MAJCOM, local requirements and/or until no longer applicable. **(T-2)**

6.3.7. Email and electronic Memorandums for Record are encouraged and acceptable means of communications for deviation letters. **(T-2)**

6.3.8. **(Added-PACAF)** Training Scheduling Meeting Minutes

6.4. Monthly Training Scheduling Meeting.

6.4.1. Conduct the meeting by the 20th calendar day (or prior to the date if the date falls on a holiday or weekend). **(T-3)**

6.4.1.1. Use the meeting to review and project training requirements, schedules, capabilities, and mission impacts, to include TD, maintenance training section, AFETS, and ancillary training issues.

6.4.1.2. Meeting topics will include, but are not limited to the following:

6.4.1.2.1. Reviewing the completed DAF Form 898 scheduling data (class dates and seats available) with emphasis on satisfying priority backlogs. **(T-3)**

6.4.1.2.2. Initiatives to reduce course backlogs and overdues identified in MIS. **(T-3)**

6.4.1.2.3. Impacts on training due to mobility exercises, local deployments, surges, higher headquarters visits, etc. **(T-3)**

6.4.1.2.4. Maintenance training section and TD's ability to satisfy training demands (TDY commitments, conversion support requirements, manning shortfalls, instructor qualifications, etc.). **(T-3)**

6.4.1.2.5. Identification of aircraft and support equipment availability for training. **(T-3)**

6.4.1.2.6. Instructor availability. **(T-3)**

6.4.1.2.7. Enroute student training demands. **(T-3)**

6.4.1.2.8. Reviewing ancillary training, for example, M-16, to include AFSC specific Counter Chemical Warfare Training allocations and changes (if applicable). **(T-3)**

6.4.1.2.9. Publishing and filing meeting minutes and providing copies to the maintenance training section and TD Senior Enlisted Leaders and all attendees.

6.4.2. Attendees will include, but are not limited to the following personnel:

6.4.2.1. Maintenance Training Section Superintendent and Training Management Element Chief. **(T-3)**

6.4.2.2. UTMs. **(T-3)**

6.4.2.3. Instructor or a representative. **(T-3)**

6.4.2.4. TD scheduler. **(T-3)**

6.4.2.5. Development and Instructor Element Chief. **(T-3)**

6.4.3. DAF Form 898 or equivalent approved electronic form. This form provides for the prioritization of MAJCOMS demands to ensure critical TD training requirements are identified and met. All maintenance training sections and TDs supporting field units will use DAF Form 898 for scheduling TD systems and associate courses. **(T-3)** (Intercontinental Ballistic Missile units refer to AFMAN 21-202).

6.5. Priority Backlog Management.

6.5.1. Screen all maintenance training section and TD training backlogs for each course to ensure they are realistic and valid.

6.5.2. Verify the training demand for each course is valid and supportable by the work center.

6.5.3. The Maintenance Training Section schedule will send the completed DAF Form 898 to the TD by the 5th calendar day of each month (or prior to the date if the date falls on a holiday or weekend). TD schedules requested courses (priority courses first) and returns the DAF Form 898 to the maintenance training section by the 10th calendar day of the month (or prior to the date if the date falls on a holiday or weekend). The completed DAF Form 898 will be reviewed in the monthly Scheduling meeting. **(T-2)** Solve priority backlogs with the maintenance training section and TD to the maximum extent possible. Consider the following local alternatives, as a minimum, to aid backlog reductions:

6.5.3.1. Temporarily increasing instructor-student ratios.

6.5.3.2. Adjusting class start dates.

6.5.3.3. Temporarily adjust hours taught each day.

6.5.3.4. Adding shifts based upon instructor and student availability.

6.5.3.5. Obtaining training from another command supported TD (maintenance training section-to-maintenance training section). The following procedures and responsibilities apply when requesting this training:

6.5.3.5.1. The maintenance training section requesting open seats will utilize Field Training Scheduling System. **(T-2)**

6.5.3.5.2. Once training confirmation is received from the Field Training Scheduling System POC, the unit will follow 982d TRG Student Travel Program procedures in DAFMAN 36-2689 for travel orders and funding authorization. **(T-2)**

6.5.3.5.2.1. **(Added-PACAF)** Once training confirmation is received from the Field Training Scheduling System POC, the maintenance training scheduler will submit TDY-To-School Requests to the MAJCOM Maintenance Training Branch with the following required data: **(T-2)**

6.5.3.5.2.1.1. **(Added-PACAF)** MAJCOM.

6.5.3.5.2.1.2. **(Added-PACAF)** A/C “Aircraft”.

6.5.3.5.2.1.3. **(Added-PACAF)** Rank.

6.5.3.5.2.1.4. **(Added-PACAF)** Name. (LAST, FIRST, MI)

6.5.3.5.2.1.5. **(Added-PACAF)** Social Security Number. **Note:** Used to

identify and schedule the appropriate service member for training.

6.5.3.5.2.1.6. **(Added-PACAF)** AFSC.

6.5.3.5.2.1.7. **(Added-PACAF)** Current Base.

6.5.3.5.2.1.8. **(Added-PACAF)** Course Number.

6.5.3.5.2.1.9. **(Added-PACAF)** Class Number from the Field Training Scheduling System.

6.5.3.5.2.1.10. **(Added-PACAF)** Start Date.

6.5.3.5.2.1.11. **(Added-PACAF)** Graduation Date.

6.5.3.5.2.1.12. **(Added-PACAF)** Travel Status.

6.5.3.5.2.1.13. **(Added-PACAF)** Field Training Detachment number from the Field Training Scheduling System.

6.5.3.5.2.1.14. **(Added-PACAF)** Additional remarks (Optional).

6.6. Requesting AETC Mobile Training Team (Maintenance Training) and TDY Instructor Assistance.

6.6.1. Maintenance training section scheduler will submit requests to the applicable MAJCOM maintenance training POC no later than 120 days in advance of requested class start date. **(T-2)** Requests should include the following information:

6.6.1. **(PACAF)** The MTS scheduler will submit, via the PACAF Mobile Training Team request memo (Reference **Attachment 4**), the following information: **(T-2)**

6.6.1.1. Complete course information (Personnel Data System (PDS) code, course title, and course number) the TDY instructor will teach. **Note:** Verify course information in Education and Training Course Announcement.

6.6.1.2. A statement that the capability to instruct this course (course for which instructor is being requested to teach) does/does not exist at the host TD or why host TD instructor is not available if applicable.

6.6.1.3. Name(s) and number of students confirmed for requested training.

6.6.1.3.1. **(Added-PACAF)** The MTS scheduler will also provide the full name, rank and social security number of all students for scheduling purposes. **(T-2)**

6.6.1.4. Statement that adequate training facilities and necessary equipment and technical data to support training are/are not available.

6.6.1.5. A primary and secondary time frame when the training should start.

6.6.2. MAJCOM POC will contact the 982d TRG Weapon System Training Manager, Sheppard AFB, TX. **(T-2)**

6.6.3. The 982d TRG will notify requesting MAJCOM POC of confirmation or alternate dates available. **(T-2)** The TD instructor projected for the TDY will contact maintenance training section and/or TD scheduler to confirm training dates and special equipment requirements. **(T-2)**

6.6.4. The 982d TRG Training Manager should respond to the MAJCOM POC within 10 duty days of request by the MAJCOM POC.

6.6.5. If the request is within 120 days, maintenance training must submit a justification letter signed by the Maintenance Group Commander (or equivalent). **(T-2)**

6.7. Obtaining TDY Funding for AETC Field and Mobile Training. Refer to DAFMAN 36-2689 and DAFMAN 65-605V1, *Budget Guidance and Technical Procedures,* Section 11 for rules that apply to funding TDY travel of students and instructors to AETC TDs or to attend training conducted by AETC mobile training teams (maintenance training).

6.7.1. If AETC funding is not available. The requesting unit should determine if unit funding is available and provide a Line of Accounting, as requested.

Chapter 7

ENROUTE TRAINING

7.1. General (AFR/ANG requirements are identified in Chapter 10). Chapter 7 is N/A to Intercontinental Ballistic Missile units. The enroute training program provides individuals with mission essential training needed to meet the requirements of an assignment to short or long tour locations. Enroute training provides weapon system training to aircraft maintenance personnel assigned to units with equipment or systems unfamiliar to the personnel in transition. Training may be provided enroute during permanent change of station via TD, Maintenance Qualification Program, or flight line training. Enroute training for long tour location is only authorized for tour lengths less than 3 years or if specific courses are not available at that location (short tour locations will receive priority status over long tour assignments). **Note:** In accordance with DAFI 36-2110, *Total Force Assignments*, Table 4.1, enroute training is not authorized during intra-theater assignments.

7.1. (PACAF) Note: Losing PACAF units should support gaining PACAF unit requirements via the TDY-to-School process prior to members' projected departure dates.

7.2. Scheduling Enroute Training. Enroute training will be scheduled based on the gaining organization's need. **(T-2)** All free-flow personnel should receive training on the new system and/or weapons system prior to assuming their duties at the gaining location. This training can be in the form of On-the-Job Training, but if a TD course is available, the member must be scheduled to attend this course as soon after arrival as possible. **(T-2)** Personnel reporting to an Outside the Continental United States (OCONUS) tour with a tour length of less than 3 years will receive this training enroute. **(T-2)** Personnel reporting to an OCONUS long tour (tour lengths 3 years or more) or Continental United States (CONUS) tour will receive this training at the gaining duty location. **(T-2)** In cases where the training is not available at the gaining long tour or CONUS location, personnel should receive training enroute prior to arrival.

7.2.1. Gaining MAJCOM Responsibilities. (**Note:** MAJCOMs can choose to exercise reach-back for training requests to Lead MAJCOM).

7.2.1.1. Coordinates with subordinate units to determine and identify training requirements for inbound personnel.

7.2.1.2. Works with AF Personnel Center to establish Personnel Processing Codes requiring enroute training for all maintenance positions at OCONUS locations for tour lengths less than 3 years.

7.2.1.3. Identifies training requirements for inbound personnel and submits request to 982d TRG no later than 120 days prior to the report no later than date.

7.2.1.4. The 982d TRG should schedule short tour enroute training requests within 30 days after receiving the requests from the MAJCOM POC. Enroute students should be scheduled for classes starting the month prior to students' report no later than date or as close as possible.

7.2.2. Gaining Unit Responsibilities. Identifies to its MAJCOM maintenance training office, training required for each individual gain. Gaining units will make this notification as soon as

possible, but not later than 10 days after notification of the gain. **(T-2)** The gaining unit will not request training outside an individual's primary AFSC. **(T-2)**

7.2.2.1. **(Added-PACAF)** The MTS scheduler will submit requests to the MAJCOM Maintenance Training Branch and include the following required data: **(T-2)**

7.2.2.1.1. **(Added-PACAF)** MAJCOM.

7.2.2.1.2. **(Added-PACAF)** A/C "Aircraft".

7.2.2.1.3. **(Added-PACAF)** Rank.

7.2.2.1.4. **(Added-PACAF)** Name (LAST, FIRST, MI).

7.2.2.1.5. **(Added-PACAF)** Social Security Number. **Note:** Used to identify and schedule the appropriate service member for training.

7.2.2.1.6. **(Added-PACAF)** AFSC.

7.2.2.1.7. **(Added-PACAF)** Current Base.

7.2.2.1.8. **(Added-PACAF)** Gaining Base.

7.2.2.1.9. **(Added-PACAF)** Report Not Later Than Date (RNLTD).

7.2.2.1.10. **(Added-PACAF)** Course Number.

7.2.2.1.11. **(Added-PACAF)** Additional remarks: Use to prioritize requirements for personnel with more than one requirement request (1 indicates highest priority).

7.2.2.2. **(Added-PACAF)** All personnel without identified requirements will be annotated as "enroute training not required" 60 days after notification of gain. **(T-2)**

7.2.3. Factors to consider when scheduling enroute training:

7.2.3.1. The Assignment Gains Roster (or an automated product used to identify inbound personnel) is available from your local Military Personnel Flight or your unit.

7.2.3.2. Initiate training requests at the beginning of the assignment cycle. Training requests initiated within 120 days of Military Personnel Flight return no later than date is considered late.

7.2.3.3. Supervisors will use the following factors as a minimum in determining a person's qualifications:

7.2.3.3.1. Training history, listed by three-digit PDS code. (Translations for PDS codes are listed on Education and Training Course Announcements web page). **(T-2)**

7.2.3.3.2. Member's duty history. **(T-2)**

7.2.3.3.3. Special Experience Identifier. **(T-2)**

7.2.3.4. The Base-level Functional Manager for each career field is responsible to ensure enroute training requirements are sent to the maintenance training section within 10 duty days after notification of gain. Units with Personnel Processing Codes used to identify enroute training needs, must also forward personnel details of gains that do not require enroute training. **(T-2)**

7.2.3.5. The maintenance training section will validate and submit enroute training requirements to the MAJCOM within 5 duty days of Base-Level Functional Manager notification. **(T-2)**

7.3. Canceling Enroute Training Request. When it is determined that an enroute training requirement no longer exists, the gaining maintenance training section will notify the MAJCOM functional training manager and cancel the requirement. **(T-2)**

7.3.1. Any enroute training cancellation request will only be approved by the gaining MAJCOM Functional Manager.

7.3.2. **(Added-PACAF)** PACAF Maintenance Training Sections will notify the MAJCOM Maintenance Training Branch of canceled enroute training requests/assignments. **(T-2)**

Chapter 8

MAINTENANCE QUALIFICATION PROGRAM

8.1. General (This chapter is N/A to ANG and Intercontinental Ballistic Missile units). Qualification training is ongoing, providing adequate skills to accomplish all maintenance tasks required. Each MAJCOM will develop and implement a Maintenance Qualification Program to achieve maintenance qualification training in accordance with DAFMAN 36-2689. **(T-1)** Maintenance Qualification Program training should be conducted in a controlled environment that is not in competition with sortie production. The maintenance training section, TD, and myLearning courses can all be used to satisfy local training requirements. All MAJCOM Maintenance Qualification Programs will incorporate a similar phased training process that meets the intent of processes identified in this chapter. **(T-2) Note:** Specific qualification requirements for munitions, nuclear and missile activities are included in the appropriate 21-202 and -204 series AFMANs and MAJCOM supplements.

8.1.1. **(Added-PACAF)** The Maintenance Training Section will develop and teach courses (to include hands-on courses) when the training capacity does not exist within the units, to enhance TD courses, or to reduce the OJT burden on work centers. **(T-3)**

8.2. Phase I, Inprocessing, Maintenance Orientation and Maintenance Refresher.

8.2.1. Inprocess to base, wing, squadron, and unit training/maintenance training section.

8.2.2. Maintenance Orientation: All personnel performing maintenance on aircraft, missiles, and associated equipment, regardless of grade, will attend orientation within 60 days after arrival (120 days for AFR/ANG personnel). **(T-3)**

8.2.2.1. **(Added-PACAF)** The Maintenance Training Section will serve as the OPR for developing and conducting orientation training (Reference **paragraph 2.7.1** of this instruction). **(T-2)**

8.2.3. Maintenance Refresher: This is an annual training conducted as a follow-up to the maintenance orientation (if applicable). Maintenance Refresher can be conducted in the work centers. Supervisors are required to send an AF Form 2426 or the equivalent to the UTM for updates. The maintenance training section will be available to provide annual refresher training, if needed.

8.2.3.1. **(Added-PACAF)** The Maintenance Training Section will serve as the OPR for developing the maintenance refresher training and make available to work centers if needed. **(T-2)**

8.2.4. **(Added-PACAF) Exception:** Military and civilian personnel, who will not perform aircraft maintenance duties, are not required to attend refresher training (e.g., First Sergeants, administrative career fields, etc.). **(T-3)**

8.3. Phase II, Continuation Training (For AFR/ANG C-40 maintenance organizations only and only as applicable per their agreement with AETC).

8.3.1. Continuation training is a structured training phase that standardizes specific AFSC training requirements. It consists of four sub-phases (Multiphase, MAJCOM mandatory, freeflow, and Maintenance Qualification Training). It is designed to provide task oriented

hands-on training. Phase II enhances and complements initial skills training by providing hands-on weapon system training and experience. It is designed to train personnel to perform maintenance tasks unsupervised and unassisted. Continuation training courses should provide a smooth learning transition while providing a logical building block approach for job qualification.

8.3.2. Phase II training can be used to supplement On-the-Job Training and to provide skill-level upgrade, qualification, CUT, or familiarization training. Phase II students are attached to the maintenance training section and/or TD during training but are officially assigned to their respective gaining organizations. Phase I requirements will not interfere with students attending Phase II training courses. **(T-3)**

8.3.3. Multiphase Students.

8.3.3.1. The term "Multiphase" identifies students who must complete multiple AETC skill-level awarding courses. Students are automatically scheduled for the additional courses by 982d TRG at Sheppard Air Force Base.

8.3.3.2. Students arriving at their end assignment should in-process as much as possible before the class starts. Obtaining a line badge should be the priority.

8.3.3.3. The squadron commander may allow multiphase students to return to the organization following the normal TD training day. Students may be trained on tasks such as posting technical orders, support section functions, and other related items.

8.3.3.4. Senior maintenance personnel will establish procedures to closely monitor these individuals. **(T-2)** Constant supervision will be required since these personnel may not be sufficiently trained or aware of hazards associated with maintenance tasks. **(T-2)**

8.3.4. MAJCOM Mandatory Courses:

8.3.4.1. The MAJCOM Mandatory Course List will be used to determine mandatory aircraft or missile maintenance courses (TD, Interactive Multimedia Instruction, myLearning, Maintenance Qualification Training Program, etc.). **(T-2)** Total Force personnel, who perform aircraft maintenance activities will accomplish MAJCOM Mandatory Course List requirements as published. **(T-2)**

8.3.4.2. The maintenance training section and UTM will ensure personnel are scheduled to attend MAJCOM Mandatory Course List courses within 180 days of assignment to squadron or within 180 days of meeting course directed prerequisites. **(T-2)** If more than one course is required, the individual must begin each subsequent course within 180 days of completion of the previous course. **(T-2) Note:** A member should only be awaiting Field TD for one course at a time unless determined otherwise by the MAJCOM or Maintenance Training Section Superintendent.

8.3.4.3. The MAJCOM Mandatory Course List requirements (TD, Interactive Multimedia Instruction, Maintenance Qualification Training Program etc.) will be identified as a priority course on DAF Form 898 and loaded in the MIS as a work center requirement. **(T-2)**

8.3.5. Freeflow students:

8.3.5.1. Freeflow training is for personnel who are changing MDS or who have not performed maintenance duty on the assigned MDS within the past 3 years.

8.3.5.2. Personnel who are changing from one weapon system to another will attend the appropriate MAJCOM Mandatory Course List and Maintenance Qualification Training courses. **(T-2)**

8.3.5.3. The Maintenance Group Commander (or equivalent) may waive TD freeflow course requirements.

8.3.5.3.1. Requests for waiver will be initiated by the squadron commander and forwarded to the maintenance training section. Maintenance Training Section Superintendent will forward recommendations to the Maintenance Group Commander (or equivalent) for approval or disapproval. **(T-2)** Waiver requests will contain individual's name, grade, primary AFSC, duty position, course to be waived, and a full justification of the request. **(T-2)**

8.3.5.3.2. When a waiver is approved, the maintenance training section scheduler will file a copy of the letter and forward the original to the squadron through the UTM. **(T-2)** The UTM will update the individual's automated training record in IMDS/ FMxC2, using course status code "W". **(T-2)**

8.3.6. Maintenance Qualification Training. Maintenance Qualification Training consists of academic and practical hands-on training courses that compliment AETC TD courses. Maintenance Qualification Training courses should not duplicate any tasks taught by AETC which require the student to perform to a certified level, for example, without error, without assistance, 80-100 percent accuracy.

8.3.6.1. Maintenance Qualification Training students are attached to the maintenance training section for training but are assigned to their gaining organization. **(T-2)** Maintenance Qualification Training students will not be sent to the flightline until they are qualified on required tasks. **(T-2)**

8.3.6.1.1. **(Added-PACAF)** PACAF MQTP Level I, Production Team Maintenance. Production Team Maintenance is for 3-levels that do not have a dedicated Right Time Training course available to attend. Additionally, transition/Enroute trainees may require portions of Production Team Maintenance to become qualified on the assigned weapon system. All entry-level Airmen and personnel in retraining status with flight line AFSCs will complete Production Team Maintenance unless an applicable RTT course is available for their AFSC. **(T-2)** 2A3XX and 2A5XX personnel are not required to attend Level 1 Production Team Maintenance course if they attend a combined Level 1 and Level 2 course or if an applicable Right Time Training course is available. Personnel must attend Production Team Maintenance within 90 days of assignment (N/A for Enroute locations). **(T-2)**

8.3.6.1.1.1. **(Added-PACAF)** The MTS will ensure the following minimum Production Team Maintenance tasks and proficiency levels taught will include: **(T-2)**

8.3.6.1.1.2. **(Added-PACAF)** Use Technical Orders and job guides (3c). **(T-2)**

8.3.6.1.1.3. **(Added-PACAF)** Flight line safety/precautions/security (C). **(T-2)**

8.3.6.1.1.4. **(Added-PACAF)** Introduction to aircraft/airframe familiarization/egress (C). **(T-2)**

8.3.6.1.1.5. **(Added-PACAF)** Inspect and operate portable external electrical power unit (3c). **(T-2)**

8.3.6.1.1.6. **(Added-PACAF)** Inspect/use ground maintenance stands (3c). **(T-2)**

8.3.6.1.1.7. **(Added-PACAF)** Dropped Object Prevention Program (DOPP)/C. **(T-2)**

8.3.6.1.1.8. **(Added-PACAF)** Defensive Systems (DS) familiarization (on applicable aircraft) (C). **(T-2)**

8.3.6.1.1.9. **(Added-PACAF)** Statically ground aircraft, if applicable (3c). **(T-2)**

8.3.6.1.1.10. **(Added-PACAF)** Apply and disconnect external electrical power unit (3c). **(T-2)**

8.3.6.1.1.11. **(Added-PACAF)** Perform wing and tail walker duties (3c). **(T-2)**

8.3.6.1.1.12. **(Added-PACAF)** Perform aircraft jacking (3c). **(T-2)**

8.3.6.1.1.13. **(Added-PACAF)** Perform refuel and defuel team member duties (3c). **(T-2)**

8.3.6.1.1.14. **(Added-PACAF)** Open and close engine cowling (3c). **(T-2)**

8.3.6.1.1.14.1. **(Added-PACAF)** For C-17 aircraft, open and close accessory doors vs engine cowling (3c). **(T-2)**

8.3.6.1.1.15. **(Added-PACAF)** Remove and install aircraft maintenance panels (3c). **(T-2)**

8.3.6.1.1.15.1. **(Added-PACAF)** Select commonly removed panels; avoid removing panels that would cause an aircraft to be Non-Mission Capable (NMC) due to sealant cure times and other unique requirements when possible. **(T-2)**

8.3.6.1.1.16. **(Added-PACAF)** Use aircraft interphone system (3c). **(T-2)**

8.3.6.1.1.17. **(Added-PACAF)** Perform aircraft marshaling procedures (3c). **(T-2)**

8.3.6.1.1.18. **(Added-PACAF)** Team communications (C). **(T-2)**

8.3.6.1.1.18.1. **(Added-PACAF)** Team communication involves the coordination of activities in and around the aircraft among maintenance personnel to ensure the safety of personnel and protection of equipment. Discuss basic steps of team communication such as: inquiry, support, conflict resolution, decision making, and analysis. **(T-2)**

8.3.6.1.1.19. **(Added-PACAF)** Perform aircraft safe for maintenance (3c). **(T-2)**

8.3.6.1.1.20. **(Added-PACAF)** Service engine oil (3c). **(T-2)**

8.3.6.1.2. **(Added-PACAF)** PACAF MQTP Level II, 5-Level Task Training. Level II assists 5-level upgrade training by qualifying students on all 5-level Air Force core

tasks as well as applicable MAJCOM selected non-core tasks. Personnel must attend Level II NLT 180 days after graduation from Level I. **(T-2)** Completion of MQTP Level II is optional for Right Time Training (RTT) graduates. The MTS will evaluate Mission Ready Airman graduates' qualifications during Level II. For graduates of RTT, the MTS will be the focal point of course feedback requested from PACAF/A4MM. **(T-2)**

8.3.6.1.2.1. **(Added-PACAF)** The Maintenance Training Section (MTS) Maintenance Qualification Training Program (MQTP) instructor, with the assistance of the work center supervisor, determines when proficiency advancement is justified based on task qualification. If approved, the Maintenance Training Section Superintendent will provide documentation to the requesting unit as validation of Maintenance Qualification Training Program completion. **(T-2)**

8.3.6.1.2.2. **(Added-PACAF)** When a student is proficiency advanced, annotate the proficiency advancement in the member's AF approved electronic training record via journal entry and update the Maintenance Information System for the applicable Maintenance Qualification Training Program course to include the date of advancement. A waiver is not required to be submitted to PACAF/A4M when a member is proficiency advanced.

8.3.6.1.2.3. **(Added-PACAF)** The MTS Superintendent will be the final approval authority for proficiency advancement. **(T-2)**

8.3.6.1.3. **(Added-PACAF)** PACAF Maintenance Qualification Training Program Level III, Transition Training. Level III is designed to train individuals transitioning to a weapon system they are not qualified on. Individuals must attend within 180 days after being assigned to a new weapon system. **(T-2)** This requirement can be satisfied by attending an AETC Training Detachment transition course. **(T-2)**

8.3.6.2. Students who fail to achieve course objectives may be required to repeat all or part of the course. **(T-2)**

8.4. Phase III, Special Qualification Training.

8.4.1. Special Qualification Training is any training program that does not fall under any other phase of Maintenance Qualification Program. Special Qualification Training should not duplicate AETC training available locally.

8.4.2. Special Qualification Training programs may apply to all personnel in a work center or only to those personnel assigned to a special duty. Examples of Special Qualification Training courses are listed below:

8.4.2.1. Engine Run Training Program.

8.4.2.2. Test Cell Operation.

8.4.2.3. Forms Documentation.

8.4.2.4. Dedicated Crew Chief Program.

8.4.2.5. Crash Recovery Training.

8.4.2.6. Hot Refueling Training.

8.4.2.7. Borescope Training.

8.4.2.8. Chafing Awareness Training Program.

8.4.2.9. MIS Training.

8.4.2.10. Aerospace Ground Equipment Operator Training Program.

8.4.2.11. Engine Blade Blending Training and Certification.

8.4.2.12. MAJCOM Mandatory Courses. (N/A for AFR/ANG)

8.4.2.13. Maintenance Officer Training Program, if taught by the maintenance training section.

8.4.2.14. Cardiopulmonary Resuscitation and Tactical Combat Casualty Care, if taught in the maintenance training section.

8.4.2.15. Corrosion Control and Prevention Training or Command equivalent corrosion identification and awareness program.

Chapter 9

SPECIAL PROGRAMS

9.1. Foreign Object Damage (FOD) Prevention Training.

9.1.1. Wing FOD monitors will assist the maintenance training section with development of local FOD prevention training program. For AFR/ANG, UTM may assist wing FOD monitor with training program development as needed. **(T-3)**

9.1.2. At a minimum, the following items will be covered:

9.1.2.1. Wing procedures unique to the assigned aircraft. Units which have several types of aircraft assigned will have all aircraft incorporated into one wing training program. **(T-2)**

9.1.2.2. Availability and location of FOD bags, receptacles, and other housekeeping equipment. **(T-2)**

9.1.2.3. Lessons learned to include examples of recent mishaps and how they could have been avoided. Signs and symptoms of FOD mishaps with brief engine abnormalities and no accompanying external or cockpit indications. **(T-2)**

9.1.2.4. All personnel (military, civilian, and contractors) working in, on, around, or traveling through areas near aircraft, munitions, Aerospace Ground Equipment, engines, or components will attend initial FOD prevention training. **(T-2)**

9.2. Wing Corrosion Manager.

Wing Corrosion Managers will:

9.2.1. Complete Wing Corrosion Manager training course (Course code J04M210011A on myLearning) within 30 days of being appointed, and within 60 days for Guard and Reserve components. **(T-3)**

9.2.2. Develop location/MDS-specific corrosion control training courses IAW MAJCOM-specific Instruction(s). (T-3)

9.3. Other Related Special Programs.

9.3.1. Guidance on the following programs is maintained in DAFI 21-101:

9.3.2. Aircraft Inlet/Exhaust Certification.

9.3.3. Engine Blade Blending Training and Certification Program.

9.3.4. Engine Run Training and Certification Program.

9.3.5. Flexible Borescope Inspection Training and Certification Program.

9.3.6. Quality Assurance Program.

9.3.7. SCR.

9.3.8. Extended Reality (XR) Program. XR encompasses Augmented Reality (AR), Virtual Reality (VR), Mixed Reality (MR) and other immersive technologies that can be considered light simulators. The MTS (or equivalent organization) is the focal point for the organization's XR program.

9.4. (Added-PACAF) Command Aircraft Systems Training Program.

9.4.1. **(Added-PACAF)** Command Aircraft Systems Training is an aircraft systems-oriented program used to provide aircraft specific familiarization training. Each aircraft system is covered to familiarize students with system operation, controls, component function, operation, and location. Courses are divided into three areas: aircraft general, aircraft systems and power plant, and aircraft avionics. Courses are available for the C-5, C-17, C-130, KC-10 and KC-135 MDS.

9.4.2. **(Added-PACAF)** For units that want to utilize the Command Aircraft Systems Training Program (CAST), the Maintenance Training Section will provide names to the PACAF Command Aircraft Systems Training Manager identifying a primary and alternate Group Command Aircraft Systems Training Manager. **(T-2)**

9.5. (Added-PACAF) Automatic Disenrollment. Students are automatically disenrolled under the following circumstances**:**

9.5.1. **(Added-PACAF)** Failing a section test twice.

9.5.2. **(Added-PACAF)** Failure to complete the course prior to the mandatory completion date.

9.5.3. **(Added-PACAF)** Failure to resume a suspended course within 6 months.

9.5.4. **(Added-PACAF)** Voluntary disenrollment (for job change/PCS).

9.5.5. **(Added-PACAF) Note:** Disenrolled students wait 90 days before re-enrolling.

Chapter 10

AFR AND ANG SPECIFIC TRAINING REQUIREMENTS

10.1. General. The AFR consists of the Air Force Reserve and the Air Force Reserve Command. The ANG consist of the Air National Guard and the National Guard Bureau. AFR/ANG does not utilize the maintenance training section structure due to manning.

10.1.1. The AFR/ANG UTM is the maintenance group point of contact for all training matters. AFR/ANG UTMs (AFSC 3F2X1) will be assigned under Maintenance Operations for administrative purposes and may designate section and/or work center training monitors to assist with day-to-day duties and assistance during unit training activities and monthly drill. **(T-3)**

10.1.2. AFR/ANG UTMs manage the training program for the commander according to this instruction and DAFMAN 36-2689. The UTM is responsible for ensuring timely updates of completed training requirements into the MIS or applicable automated system within 5 duty days of training completion. This guidance is applicable to all personnel working within the maintenance group that perform maintenance on AFR/ANG aircraft regardless of status when assigned to AFR/ANG units, for example, Air Reserve Technician, Active Guard Reserve, ANG Technicians, civilians, and those that meet with intent of **paragraph 1.3** in this instruction).

10.2. AFR/ANG UTM Duties and Responsibilities.

10.2.1. Serve as liaison between maintenance units and wing training/wing force development office and ensure skill-level upgrade and qualification training programs are conducted in accordance with DAFMAN 36-2689. ANG UTMs will also function as the Wing Administrator for AF approved electronic training records. **(T-3)**

10.2.2. Ensures only approved MIS or approved automated training system (IMDS, FMxC2, myLearning, and Automated Civil Engineer System) are used for scheduling training.

10.2.3. Act as the POC for all training matters affecting the maintenance community, to include outside agencies.

10.2.4. Identify in writing a listing of personnel authorized to update IMDS/MIS for training actions.

10.2.5. Review and coordinate when appropriate on Host Tenant Agreements and Memorandum of Agreements.

10.2.6. Serve as the maintenance training POC for all Site Activation Task Force and weapon modification issues.

10.2.7. Serve as primary POC and OPR for AF approved electronic training records functional administration. **(T-3)**

10.2.7.1. AF approved electronic training records users will submit trouble reports or requests for assistance to the UTM/maintenance training office. **(T-3)** The UTM/maintenance training office will evaluate each trouble report, and if unable to resolve, will forward to the applicable AFR/ANG POC. **(T-3)** Trouble reports that are

unable to be resolved by the ANG/AFR POCs will be forwarded to the AF approved electronic training records Field Assistance Service. **(T-3)**

10.2.7.2. AF approved electronic training records administrators will exercise care in assigning user roles. Roles will not be delegated below a member's normal duty position and responsibility (**Exception:** unit/section training monitors) without a waiver from the Maintenance Group Commander (or equivalent). **(T-3)**

10.2.7.3. Individuals with authority to assign AF approved electronic training records user roles will be appointed by the Maintenance Group Commander (or equivalent) in writing. **(T-3)**

10.2.7.4. UTMs will incorporate AF approved electronic training records training (as applicable) for local AF Training Courses when instructing maintenance group personnel. **(T-3)**

10.2.8. If section/work center training monitors are utilized, the UTM will:

10.2.8.1. Ensure training monitors are appointed in writing by unit commander or designated representative. **(T-2)**

10.2.8.2. Provide and document initial and refresher training. **(T-2)**

10.2.9. Ensure a newcomer's orientation program is conducted, familiarizing newly assigned personnel with wing maintenance activities. **(T-2)** Topics should include (but not limited to) unit mission, tasking plans, supply procedures, FOD program, general flight line and work center safety rules, Quality Assurance Programs, and product improvement procedures. Local leadership will determine which organization will conduct this training. **(T-2)**

10.2.9.1. The UTM is responsible for assisting supervisors with skill-level upgrade, qualification, and formal training programs within the maintenance community. The UTM is the POC within the maintenance group for all training matters.

10.2.9.2. UTMs will:

10.2.9.2.1. Coordinate with Wing Training/Wing Force Development to obtain training beyond the squadron's capability. **(T-2)**

10.2.9.2.2. Manage visual information products at the unit level, if applicable. **(T-2)**

10.2.9.2.3. Assist work center supervisors in preparing training session course outlines for training conducted within the work center. **(T-2)**

10.2.9.2.4. Manage MIS training products, make timely distribution of these products, and ensure all products are accurate and current. **(T-2)**

10.2.9.2.5. Ensure all work center training requirements have been loaded to the MIS. **(T-2)**

10.2.9.2.6. Coordinate training no-show notifications through the appropriate work center to the unit commander. **(T-2)**

10.2.9.2.7. Process personnel in/out during Permanent Change of Assignment, Permanent Change of Station, and TDY. Ensure all applicable MIS or automated

training systems, for example, IMDS, AF approved electronic training records, myLearning are updated.

10.2.9.2.8. Update the SCR after receiving proper coordination forms from the appropriate level of authority in accordance with AFI 21-101 Air National Guard Supplement (ANGSUP), *Aircraft and Equipment Maintenance Management*. **(T-2)**

10.2.9.2.9. Conduct monthly Training Performance Metrics briefing with squadron commander. **(T-3)**

10.2.9.2.10. Be responsible for scheduling all AFR formal courses, maintenance, ancillary, and TD training for maintenance personnel. **(T-3)**

10.2.9.2.11. Request add, change, or delete IMDS/ FMxC2 local course codes as needed. **(T-3)**

10.2.9.2.12. Conduct and document annual review of local course codes for accuracy and validity. **(T-3)**

10.2.9.2.13. Coordinate requirements for the operation and maintenance of the training subsystem with Analysis Section. **(T-3)**

10.2.9.2.14. Establish recurring product requests with Database Management as applicable. **(T-3)** The MIS will automate this function.

10.2.9.2.15. Establish, change, update, close or delete all required classes in MIS. **(T-3)**

10.2.9.2.16. Ensure instructors receive a class roster before class start date. **(T-3)**

10.3. Work Center or Section Training Monitors. At the discretion of the unit commander, UTMs, in coordination with work center supervisors, are authorized to appoint a work center or section training monitor to advise and assist supervisors/UTMs in accomplishing training responsibilities.

10.3.1. The appointment of a training monitor will not be construed as relieving the UTM or supervisor of any of their responsibilities outlined in DAFMAN 36-2689 or any other applicable guidance. The UTM remains the OPR and single POC for all training matters within the maintenance group. Similarly, while certain tasks may be delegated to a training monitor, the work center supervisor retains the ultimate responsibility to plan, establish, implement, and oversee an effective training program, and to remain engaged and aware of all training issues within the work center or section.

10.3.2. **[ANG Only]** Work Center Training Monitor Responsibilities. As a minimum, monitors will ensure training programs for their work center are followed and administered in accordance with DAFMAN 36-2689, DAFI 21-101, MAJCOM supplements to this instruction, and local training directives, as applicable to maintenance group organizations. **(T-2)**

10.3.2.1. **[ANG Only]** Assist Work Center Supervisors in identifying all TD and maintenance training section courses required for duty position qualification and review these requirements when training is updated because of MDS change or conversion.

10.3.2.2. **[ANG Only]** Assist Work Center Supervisors by ensuring duty related courses that apply to selected personnel within a work center are individually loaded into an automated system, for example, the AF approved electronic training records, Integrated Maintenance Data System, FMxC2, Air Reserve Component Network (ARCNet).

10.3.2.3. **[ANG Only]** Update training requirements in AF approved MIS as required for work center personnel.

10.3.2.4. **[ANG Only]** Ensure training statuses are identified and scheduled for members within work center on a monthly recurring basis. (**[ANG Only]** must be done prior to Unit Training Assembly).

10.3.2.5. **[ANG Only]** Coordinate all formal training, including scheduling changes, through the UTM.

10.3.2.6. **[ANG Only]** Coordinate with UTM if local courses are required to be scheduled to meet member requirements.

10.4. Requesting AETC Mobile Training Team (Maintenance Training) and TDY Instructor Assistance.

10.4.1. Submit by e-mail from the UTM to the AFRC/ANG maintenance training POC no later than 90 days in advance of requested class start date and include the following information:

10.4.1.1. Complete course title(s) and course number(s) the TDY instructor will teach. **(T-2)**

10.4.1.2. Statement that capability to instruct this course (course for which instructor is being requested to teach) does/does not exist at the host TD or why host TD instructor is not available if applicable. **(T-2)**

10.4.1.3. Number of students confirmed for requested training. **(T-2)**

10.4.1.4. Statement that adequate training facilities and necessary equipment and technical data to support training are/are not available. **(T-2)**

10.4.1.5. A primary and secondary time frame when the training should start. **(T-2)**

10.4.2. AFRC/ANG POC will contact 982d TRG Weapon System Training Manager, Sheppard AFB, TX. **(T-2)**

10.4.3. 982d TRG will notify requesting AFRC/ANG POC of confirmation or denial of request. The TD instructor projected for the TDY will contact the UTM to confirm training dates and special equipment requirements. **(T-2)**

10.4.4. If the request is within 90 days, UTMs must submit a justification letter signed by the Maintenance Group Commander (or equivalent). **(T-2)**

10.5. Enroute Training. If enroute training is required, contact the applicable AFRC/ANG Training Manager.

10.6. Maintenance Group Training Performance Metrics Briefing.

10.6.1. Frequency. The UTM will provide a quarterly formal Training Performance Metrics briefing to the Maintenance Group Commander (or equivalent). **(T-3)**

10.6.2. The Maintenance Group Commander (or equivalent) will chair the quarterly briefing. **(T-3)**

10.6.3. Attendance. As a minimum, the following personnel will attend the quarterly formal Training Performance Metrics briefing:

10.6.3.1. Squadron Commanders (to include the Maintenance Operations Officer in Charge or equivalent). **(T-3)**

10.6.3.2. The Maintenance Group Senior Enlisted Leader. **(T-3)**

10.6.3.3. The Quality Assurance Superintendent or designated representative. **(T-3)**

10.6.3.4. Squadron Senior Enlisted Leaders. **(T-3)**

10.6.3.5. Flight Chiefs. **(T-3)**

10.6.4. The UTM will use approved MIS to help develop the Training Performance Metrics briefing and provide an e-copy of the Training Performance Metrics to invitees prior to formal briefing. **(T-3)**

10.6.5. Training Performance Metrics briefing contents must include items identified in DAFMAN 36-2689 and report number required and/or number qualified. **(T-2)** The Maintenance Group Commander or equivalent will establish the number of required personnel based on the minimum qualified needed to meet mission accomplishment **(T-3):**

10.6.5.1. Blade Blending (if applicable).

10.6.5.2. Engine Run (if applicable).

10.6.5.3. Borescope (if applicable).

10.6.5.4. Intake/Inlet/Engine Exhaust (if applicable).

10.6.5.5. Hot Refuel (if applicable).

10.6.6. Upgrade training status. Reflect the status of upgrade training in accordance with DAFMAN 36-2689 Training Performance Metrics.

10.6.6.1. Number awaiting 3-skill level technical school.

10.6.6.2. Identify by AFSC, course number, date member became 1-skill level (date entered training), date training line number or waiver submitted, projected school date (if known), reason member turned down earlier technical school date (if applicable).

10.6.7. Overdue Training. Report total overdues by squadron. Report all sortie-production training (TD and maintenance training squadron) overdues identified in MIS. Just in time deployment training will not count as overdue (i.e., Chemical, Biological, Radiological, Nuclear). Personnel who are overdue for training, to include those assigned to TDY or on leave, will be counted as overdue on Training Performance Metrics until scheduled training is completed.

10.6.8. Identify and discuss current and future training issues and concerns.

10.6.9. Qualification Training. Identify the number of personnel in qualification training by unit.

10.6.10. **[AFR Only]** Number of personnel utilizing Accelerated Mission Readiness Training and provide the following:

10.6.10.1. Current and Fiscal Year total participation.

10.6.10.2. Current sections utilizing Accelerated Mission Readiness Training and AFSC.

10.6.10.3. Track days as "Current # of days used" of "total # of days of authorized" Accelerated Mission Readiness Training.

10.6.10.4. Track core tasks as "Current # of core tasks complete" of "total # of core tasks required."

10.6.11. Post a copy of the quarterly Training Performance Metrics to the applicable AFRC/ANG maintenance training folder on respective SharePoint™ site.

10.6.12. **[ANG Only]** Provide Mission Essential Skills Training (MEST) program utilization (if applicable).

10.6.12.1. **[ANG Only]** Provide the following: Personnel name, unit, MEST-triggering course, course graduation date, minimum MEST days, maximum MEST days, AROWS approved days, and remaining days.

10.7. [AFR Only] 1-Skill Level Guidance.

10.7.1. Employing 1-levels in any 2A, 2R, or 2W AFSC is optional at the discretion of the Commander. The intent of the 1-skill level guidance is to retain aircraft maintainers by allowing them to participate on tasks limitedly and safely within their assigned AFSC at home station. This means that the section supervisor must evaluate the member and have the resources to absorb the added workload of training the member. Safety is paramount in utilizing 1-skill levels. They are never to be left alone on a job site, work independently, be responsible for work, or be counted towards the employable workforce. This is not meant to be a method to circumvent technical school or allow technicians to work without attending technical school or stay in training indefinitely. This effort requires members, supervisors, and commanders to evaluate and understand the abilities of the individual and the unit to perform maintenance safely.

10.7.2. 1-skill levels must work under a qualified trainer on a limited basis with the following stipulations:

10.7.2.1. 1-skill level member, supervisor, and squadron commander must agree to all terms below in writing.

10.7.2.2. Never works independently or signs off work and is always accompanied by a qualified trainer.

10.7.2.3. All aircraft and personal safety training must be accomplished prior to work start.

10.7.2.4. No live munitions or running aircraft operations will be permitted.

10.7.2.5. All task training will be tracked locally in AF approved electronic training records. **(T-2)**

10.7.2.6. Will not be CUT trained except as identified in **paragraph 10.7.2.12** below. **(T-2)**

10.7.2.7. Will not be qualified on the SCR. **(T-2)**

10.7.2.8. This does not grant any special privileges towards technical school waivers.

10.7.2.9. Cannot be in 1-skill level status and working for greater than a 12-month period without MAJCOM approval.

10.7.2.10. Will be evaluated by Quality Assurance as part of a training-based personnel evaluation with trainer. **(T-2)** Frequency will be determined locally.

10.7.2.11. Non-prior service members are only eligible for this program once they have completed Basic Military Training, are able to receive a line-badge, and meet all the previous stipulations.

10.7.2.12. Prior service AFR, ANG, Regular AF members retraining from one 2A/2W AFSC to another 2A/2W AFSC that hold a valid 3, 5, or 7-skill level must complete all safety requirements of the duty section and then may CUT Train in tasks of another AFSC until either an AFSC waiver is approved, or technical school has been completed.

10.7.2.13. Prior Service Army, Navy, Marine Corp, and Coast Guard may also participate in the 1-skill level policy as prescribed for Non-Prior Service members.

10.8. [ANG Only] Utilization of 1-Skill Level ANG Personnel.

10.8.1. At the discretion of local unit leadership, personnel holding a 1-skill level AFSC in maintenance career fields may be authorized to receive task qualification training/on the job training under strictly controlled and monitored conditions detailed in this chapter. **Note:** It is ultimately the decision of the local commander whether 1-skill level personnel receive task qualification training/on the job training or perform maintenance; this practice is not mandated by this chapter. This guidance is not intended to permit units to circumvent technical school requirements, allow personnel to work without attending technical training indefinitely, or remain in Training Status Code "M" in excess of one year. Local trainers, supervisors, and commanders must carefully evaluate both the abilities and aptitude of the individual to perform maintenance safely and effectively, as well as the needs and capabilities of the unit mission to support task qualification training and/or on the job training. **(T-2)**

10.8.2. Member status (prior service/non prior service).

10.8.2.1. Non-prior service members who hold a 1-skill level Control AFSC may receive and participate in task training/on the job training but are not authorized to have tasks completed ("signed off") in AF approved electronic training records.

10.8.2.2. Prior service members from any United States Air Force component or sister services who hold a 1-skill level Control AFSC are authorized to receive and participate in task training/on the job training, and to have completion dates entered on tasks (to be "signed off") in AF approved electronic training records, provided the following criteria are met:

10.8.2.2.1. Have been previously awarded a 2AXXX or 2WXXX AFSC, OR

10.8.2.2.2. Have been previously awarded an aircraft maintenance Military Occupational Specialty (Army, Marine Corps, Naval, Coast Guard) AND

10.8.2.2.3. Have either a pending technical school request or a pending AFSC classification waiver request.

10.8.3. Regardless of service history, the following criteria apply to all 1-skill level personnel receiving task training:

10.8.3.1. Member, supervisor, and unit commander will evaluate trainee's aptitude and ability and will concur in writing that member is capable of safely participating in task training/on the job training. **(T-2)**

10.8.3.2. Member will accomplish all applicable safety training and be issued any applicable Personal Protective Equipment prior to beginning any task training or performing work. **(T-2)**

10.8.3.3. Member will not work independently and will always be accompanied by trainer or supervisor. **(T-2)**

10.8.3.4. Member will not sign off jobs in aircraft forms or MIS. **(T-2)**

10.8.3.5. Member will not work on or around aircraft with engines running or live munitions. **(T-2)**

10.8.3.6. Member will not participate in or receive CUT. **(T-2)**

10.8.3.7. Member will not be listed on SCR or certified to perform actions listed or tracked on SCR. **(T-2)**

10.8.3.8. Member will not receive training or perform maintenance while TDY or deployed. **(T-2)**

10.8.4. Receiving task qualification training, on the job training, or being utilized to perform aircraft maintenance does not grant an individual any special consideration or advantage regarding approval of a tech school or classification waiver.

10.8.5. Prior service members trained under the conditions in this chapter are authorized to receive personnel evaluations from Quality Assurance inspectors on tasks for which completion dates have been entered ("signed off") in AF approved electronic training records.

10.9. [ANG Only] Formal School Requirements Forecasting and Reporting.

10.9.1. Air National Guard Bureau (NGB) Maintenance Division (NGB/A4MM) formal schools manager conducts an annual "data call" for forecasting formal schools requirements for future fiscal years.

10.9.2. Maintenance Group UTMs will take the following actions (as applicable) upon receiving notification of data call:

10.9.2.1. Coordinate with work center supervisors, element Non-Commissioned Officers in Charge, flight chiefs, commanders, and other members in the chain of command regarding possible separations, expiration term of service, retirements, etc. that are projected to occur within the fiscal years being forecasted. **(T-2)**

10.9.2.2. Ensure wing force development office is included in coordination. **(T-2)**

10.9.2.3. Utilize data collected during above coordination to project formal school allocations required during the fiscal years being forecasted in the data call. **(T-2)**

10.9.2.4. Reply to NGB/A4MM with forecasted numbers of formal school allocations required or other information as requested. **(T-2)**

10.9.2.5. Meet all suspense dates established by NGB/A4MM. **(T-2)**

10.9.3. Units failing to reply to data calls on or before established suspense dates may receive a lower priority for formal school Training Line Number issue than responding units.

10.10. [ANG Only] Use of Automated Training Systems.

10.10.1. Use of ARCNet is mandatory to schedule, track, and deliver ancillary or expeditionary training requirements identified on the ANG Ancillary Training SharePoint™ site.

10.10.2. IMDS or Core Automated Maintenance System for Mobility/ FMxC2 (as applicable) is used for items specifically required to be tracked within an AF approved MIS. Examples may include maintenance actions, SCR course codes, or any other item as directed.

10.10.3. For tracking and scheduling of recurring training items which are not specifically required to be loaded in either ARCNet or the MIS, use of locally created ARCNet courses are highly encouraged. Training in this category may be tracked in either the MIS or ARCNet, at the discretion of local unit leadership. However, due to finite capacity within the MIS and the need to reduce the number of local course listings, avoid the creation of local MIS course codes for recurring training whenever feasible.

10.11. [ANG Only] Use of Electronic Exams for Maintenance Certification Testing.

10.11.1. Use of Aircraft Maintenance Training Enterprise System electronic testing (e-testing) is mandatory.

10.11.2. Test review process:

10.11.2.1. Test questions will be reviewed annually for accuracy and currency with newly revised technical data. **(T-2)**

10.11.2.2. NGB/A4MM Maintenance Training Manager or designated representative will coordinate review of test questions through Combat and/or Mobility AF or MDS Maintenance Training Single POCs and/or ANG field SMEs as determined by NGB/A4MM. **(T-2)**

10.11.3. Authorized test proctors.

10.11.3.1. Personnel authorized to serve as test proctors include UTMs or ADUTMs, or Quality Assurance personnel. **(T-2)**

10.11.3.2. Units will appoint proctors in writing. **(T-2)**

10.12. Mission Design Series Conversion Training.

10.12.1. The MDS conversion training plan is established during the unit Site Activation Task Force.

10.12.2. The maintenance group leadership will develop the conversion training plan. **(T-2)**

10.12.3. The training plan will address the phase-in and phase-out of the two MDS. **(T-2)**

10.12.4. A cadre of maintenance personnel will be identified and trained to receive the initial arrival of aircraft. **(T-2)**

10.12.4.1. The cadre will be trained via TD transition courses. **(T-2)**

10.12.4.2. The TD transition course may be located at home station or at MDS lead command bases.

10.12.4.3. Follow-on proficiency training will be accomplished by sending the cadre to a lead command base for further training. This cadre will also be used as trainers on the new MDS. **(T-2)**

10.12.5. AETC instructors will arrive at the home station after arrival of the new aircraft. The instructors will remain on station for 90 days to train as many personnel as possible. **(T-2)** Any personnel that did not receive training from the AETC instructors will be sent to TD transition courses at a lead MAJCOM base or trained locally by certified trainers. **(T-2)**

10.12.6. If qualification is necessary on both MDS, dual qualification will be documented in AF approved electronic training records until the conversion is complete. **(T-2)**

10.12.6.1. The task qualification phase-in/phase-out process will be used as one new MDS replaces the out-going MDS. **(T-2)**

10.12.6.2. Maintenance group leadership will work to maintain a balanced ratio of technicians to maintain both MDS throughout the conversion. **(T-2)**

Chapter 11 (Added-PACAF)

MAINTENANCE TRAINING SECTION SENIOR INSTRUCTOR PROGRAM.

11.1. (PACAF) Program overview. The D&I Element Chief will manage this program, which is designed to recognize our most experienced and dedicated instructors. **(T-2)** Senior instructor status reflects a level of professionalism and sustained training delivery above PACAF requirements.

11.1.1. **(PACAF)** The MXG/CC will be the approval authority for the Senior Instructor Award. **(T-2)** The Development and Instructor Element Chief will write a short letter of nomination, complete the Senior Instructor nomination package (Reference **Attachment 6**) and submit for approval through the Maintenance Training Section Superintendent to the MXG/CC. **(T-2)**

11.1.2. **(PACAF)** Nomination requirements:

11.1.2.1. **(PACAF)** The nominee will have 2 years instructor experience from the date of course qualification and a minimum of 250 instructional hours as a maintenance instructor or 8 months instructor experience from the date of course qualification and a minimum of 350 instructional hours as a maintenance instructor. **(T-2)**

11.1.2.2. **(PACAF)** Nominees will have an associate degree (awarded in their AFSC) or higher. **(T-2)**

11.1.2.3. **(PACAF)** Nominees must receive an overall "Outstanding" rating on their last three instructor academic evaluations and pass technical evaluations. **(T-2)** The nominee's final instructor evaluations will be completed within 30 days of submittal for Senior Instructor Award. **(T-2)**

11.1.2.4. **(PACAF)** Nominees must have conducted 10 hours toward curriculum development/analysis. **(T-2)**

11.1.3. **(PACAF)** Once approved, the MTS will conduct an appropriate ceremony, including formal presentation of the senior instructor certificate, signed at the group commander level or above, at a minimum. **(T-2)**

Chapter 12 (Added-PACAF)

AIRCRAFT MAINTENANCE TESTING.

12.1. (Added-PACAF) General Policy. This section establishes the policies for knowledge validation testing. The Maintenance Training Section (MTS) will monitor E-Testing needs, problems, or test updates for their units and coordinate with HQ PACAF/A4MM Program Managers to meet those needs.

12.1.1. **(PACAF)** Authorized Testing Methods. Paper-based testing and electronic testing via myLearning are the authorized methods for knowledge validation. **(T-2)**

12.1.2. **(PACAF)** Alternate methods are not authorized unless formally directed by HQ PACAF/A4. **(T-2)**

12.2. (PACAF) Test Control and Security:

12.2.1. **(PACAF)** Test Control Officer (TCO) Appointment. The Maintenance Training Section (MTS) Chief will appoint a primary and at least one alternate TCO in writing. Appointed TCOs must be, at a minimum, a 5-level Non-Commissioned Officer (NCO) or civilian equivalent. A copy of the appointment letter must be maintained on file. **(T-2)**

12.2.2. **(PACAF)** Test Development and Review. All locally developed tests must be reviewed against associated course control documents and technical data every 24 months, or when a major technical order change occurs, to ensure accuracy and relevance. **(T-2)**

12.2.3. **(PACAF)** Physical Test Security. For paper-based testing, all master tests and answer keys must be stored in a locked metal container. A Test Control Log will be used to document the sign-out and sign-in of all testing materials. All printed test materials must be accounted for and destroyed (e.g., by shredding) immediately after the testing session is complete. **(T-2)**

12.2.4. **(PACAF)** Digital Test Security. For any digital testing assets, including question banks for myLearning, the files must be maintained on a network drive with access permissions strictly limited to TCOs and MTS leadership. **(T-2)**

12.3. (PACAF) Test Administration and Proctoring.

12.3.1. **(PACAF)** Test proctors must be assigned to the Maintenance Training Section, be an NCO (E-5 or above) or civilian equivalent, and must have a signed memorandum on file acknowledging their responsibilities. (**T-2)**

12.3.1.1. **(PACAF)** Proctors will **e**nsure testing is conducted in an environment free of distractions. **(T-2)**

12.3.1.2. **(PACAF)** Proctors may not administer any examination for which they are also required to take. Note: This restriction does not apply to Maintenance Training Section instructors. **(T-2)**

12.3.2. **(PACAF)** Proctor Responsibilities. The proctor is responsible for the integrity of the testing session and must perform the following duties: **(T-2)**

12.3.2.1. **(PACAF)** (Added-PACAF) Positively identify all test-takers via government-issued identification. **(T-2)**

12.3.2.2. **(PACAF)** Provide a pre-test briefing covering all testing conditions (e.g., open/closed-book, time limits) and rules of conduct, including the prohibition of personal electronic devices. **(T-2)**

12.3.2.3. **(PACAF)** Ensure a controlled testing environment, free from distractions, with adequate spacing between individuals. Be physically present and actively monitor the entire session. **(T-2)**

12.3.2.4. **(PACAF)** Immediately halt testing and report any suspected test compromise to the TCO. **(T-2)**

12.3.2.5. **(PACAF)** Secure all testing materials upon completion and ensure all results are properly recorded. **(T-2)**

12.3.3. **(PACAF)** Test Format. Unless specifically authorized otherwise, all tests directed by HAF or PACAF guidance will be administered as closed-book examinations. **(T-2)**

12.3.4. **(PACAF)** Test Failure and Retesting. Individuals who fail a test will receive documented feedback before a retest is authorized. A retest will be administered no earlier than 24 hours after the failed attempt. **(T-2)**

ELIZABETH E. ARLEDGE, Major General, USAF
Director of Logistics DCS/Logistics, Engineering & Force Protection

(PACAF)

D. LANDON PHILLIPS, Colonel, USAF
Director of Logistics, Engineering, & Force Protection

Terms

Airman—A military or civilian individual who is a member of the United States Air Force.

Backlog—Number of personnel who have in-processed the unit, awaiting MAJCOM or local Field TD training requirements for a particular course in which the member has met all prerequisite requirements. This includes the following statuses: overdue, unscheduled (awaiting Field TD, awaiting Qualification Training Program), scheduled or incomplete. **Note:** In order to be considered a backlog for a course, the person must be present for duty and must meet all the prerequisites to attend the course.

Block Training—The purpose of block training is to group as many training requirements as possible into a single training session. Initially, the training session should provide information that everyone requires and then taper to the point where only certain categories of personnel remain. Courses taught in block training will include at a minimum: supply procedures, fire extinguisher, forms documentation, Hazardous Communication, corrosion control, FOD, security awareness, egress, and resource protection etc.

Career Field Education and Training Plan (CFETP)—A comprehensive core training document that identifies life-cycle education and training requirements, training support resources and minimum core task requirements for a specialty. The CFETP gives personnel a career progression path and instills a sense of industry in career field training.

Certification—A formal indication of an individual's ability to perform a task to required standards.

Certifier—A person designated, authorized, and empowered by the commander to make a declaration of competency and proficiency on tasks being performed. This declaration of competency is usually annotated in training documents, through the certifier's signature or initials.

Class Packages—Can include items such as a class roster, Quality Assurance evaluations, student critiques, supervisor questionnaires, staff summary sheets, and additional information as provided by an instructor. Class packages are used to look at the training system from within to determine personnel and system effectiveness and quality and provide feedback to the appropriate personnel on course instruction.

Course Control Documents—Specialized publications used to control the quality of training instruction. Course Training Standard, Plan of Instruction, and Course Chart are parts of the course control documents.

Course Validation—A process by which curriculum materials, instructional procedures, training media, and training materials are reviewed for instructional accuracy, adequacy, and suitability for presentation, and training effectiveness. It also assesses the effectiveness of a course as it is being developed and is a quality improvement tool that helps identify problems during development so revisions can be made. Validation should be done as segments, units, or blocks are being developed.

Cross-Utilization Training—Specific functional training provided for Airmen to perform tasks outside of their primary AFSC to enhance mission readiness and increase unit capability.

Curriculum Advisory Committee—The purpose of the Curriculum Advisory Committee is to identify training requirements through coordination with subject matter experts, and investigate, analyze, and recommend the most cost effective and efficient method to satisfy training requests. It's also designed to improve the overall maintenance training programs. The Curriculum Advisory Committee will meet when a requirement to develop a new course is identified or when deciding which training agency is in the best position to conduct requested training. The Curriculum Advisory Committee can also be used to conduct maintenance training section course reviews or to coordinate and review Periodic Course Review.

Deviation—Any changes to a published class roster (no-show, non-utilization, cancellation, or walk-in).

Distance Learning—(DL) Structured learning that does not require the physical presence of the instructor. Includes paper, computer based, interactive, and satellite-delivered material, etc. The DL program administered in aircraft maintenance provides instruction using computer-based training, interactive courseware, video tele-training, videodisk, and other distance learning training media.

Enroute (PCS associated) Training—The training of students undergoing a permanent change of station (PCS) while in TDY status.

Formal Training—Any training conducted by AETC, Air Combat Command, Logistics Readiness Training Center, or Maintenance Qualification Training programs. Formal courses are listed in Education and Training Course Announcement.

Instructor Self-Qualification—Due to the non-availability of a qualified instructor, an MI may need to self-qualify on a newly developed course.

Interactive Multimedia Instruction—A group of computer-based training and training support products. Interactive Multimedia Instruction includes source materials that are commonly used in Interactive Multimedia Instruction products, electronic products used in the delivery of or supporting the delivery of instruction, and software management tools used to support instructional programs.

Initial Skills Training—A formal school course that results in an AFSC 3-skill level award for enlisted or mandatory training for upgrade to qualified officers.

Key Performance Indicators (KPI)—Quantifiable measure used to evaluate the success of an organization, employee, etc. in meeting objectives for performance.

(Added-PACAF) MAJCOM Maintenance Training Branch—The MAJCOM Maintenance Training Branch/Section (or equivalent) is the single POC for maintenance training matters within

the command. **Note:** This term is used throughout AFI 36-2650 and this supplement and is equivalent to the HQ PACAF A4 Maintenance Management Branch (A4MM).

Mission Design Series—Aircraft/weapons system designator, e.g., F-15, C-130, B-1.

Multiphase Student—A student who must complete an AETC resident training and a follow-on formal AFSC awarding course.

No-Show—Any individual scheduled for training and does not attend the training regardless of the reason.

Overdue Training—Any training not completed by the last day of the training month unless designated by other directives.

Recurring Training—Refresher training completed periodically to ensure personnel are qualified.

Special Certification Roster (SCR)—A management tool used to identify and control authorized production inspectors who perform, evaluate, verify, and inspect critical work or task, and technicians authorized to perform specific task.

Subject Matter Expert—A technically competent individual with broad experience in a specific AFSC.

Total Force—Organizations, units, and individuals that comprise the Air Forces' resources for meeting its mission. This includes RegAF, Air National Guard, and Air Force Reserve military personnel, and civilian personnel.

Trainer—A trained and qualified person who teaches airmen to perform specific tasks through OJT methods. In addition, equipment that the trainer used to teach airman specified tasks.

Training Analysis Briefing—MXG or equivalent training brief used to relate training, Quality Assurance, and Production metrics in a consolidated format for the purpose of data driven decisions at the MXG/CC or equivalent level. The TAB is not to be confused with the Training Performance Metrics briefing provided at the squadron level.

Training Detachment—TDs are located at selected MAJCOM bases and give on-site training services by means of permanent or temporarily assigned instructors or mobile training teams. TD conducts field training for aircraft weapon systems assigned to the base on which they are located. TDs use locations such as flightline, maintenance shops, hangars, and classrooms to give instruction. See DAFMAN 36-2689 for additional TD information.

Training Performance Metrics Briefing—Squadron or equivalent briefing used to assess the health of unit training in the areas of upgrade, qualification, continuation, and ancillary training. The Training Performance Metrics briefing is not to be confused with the MXG Training Analysis Briefing.

Unscheduled Action—Any individual attending training that was not scheduled or is not on the class roster.

Work Center Training Requirement—Training that is required for 51 percent or more of personnel assigned to a work center.

MASTER COURSE CODE SUBMISSION FORMAT

Figure A2.1. Master Course Code Submission Format.

Master Course Code Add/Change/Delete Submission Format:

Recommendation: Add, or Delete (for proposed requirements), or Modify (state nature of recommended modification such as reduction in duration, change in frequency or target group)

Course Number: (Identifies Formal, and Correspondence courses)

Course Code: (Identifies Ancillary, and Functional/Specialized courses, required for existing course only, leave blank for a requested addition)

Category: (Formal, Correspondence, Ancillary, Functional/Specialized)

Title: (e.g., Suicide and Violence Prevention)

Objective/Narrative: (e.g., provides education and training to prevent acts of harm to self and others)

Target Group: (e.g., All Air Force military and civilian personnel. Non-Appropriated Funds and contract employees are encouraged but not required.)

Duration: (e.g., Not to exceed 0.5 hours)

Frequency: (e.g., annually)

Tasking Authority: (e.g., AFI 44-154)

OPR: (e.g., AFMOA/SGOC)

Course Manager: (e.g., Lt Col George Nicholas)

Duty Phone: (e.g., DSN 297-4061)

Justification: (Justify the requirement, duration, and frequency).
Master Course Code Table Lead POC: (e.g., ACC, AFMC)

Approval Signatures: Provide the following information for all personnel/positions identified below:

SAMPLE TEST COMPROMISE STATEMENT

A5.1. (PACAF) Test Compromise. Guidelines for test compromise.

A5.2. (PACAF) Warning. The material covered in this test is governed under the guidelines set forth in AFI 36-2650, PACAFSUP, *Maintenance Training.* Compromise of this test material to include unauthorized possession of test materials or discussion of test content is a violation of Air Force and Pacific Air Forces Command instructions and is punishable under the Uniform Code of Military Justice.

A5.3. (PACAF) Example Test Compromise Situations. The following are potential compromise situations that can occur because of actions taken on the part of individuals who develop, handle, administer or participate in the testing program.

A5.3.1. **(PACAF)** Reviewing, accessing, or allowing review of or access to controlled test material by any individual not specifically authorized.

A5.3.2. **(PACAF)** Having an oral or written discussion concerning contents of test material with an unauthorized person.

A5.3.3. **(PACAF)** Bringing any unauthorized material into the testing room.

A5.3.4. **(PACAF)** Unauthorized reproducing, copying or faxing test material.

A5.3.5. **(PACAF)** Removing test material from the examination room without authorization.

A5.3.6. **(PACAF)** Being unable to account for the location of testing materials.

A5.3.7. **(PACAF)** Storing test materials improperly.

A5.3.8. **(PACAF)** Taking or possessing materials without authorization.

A5.4. (PACAF) Actions To Be Taken In The Event Of A Test Compromise.

A5.4.1. **(PACAF)** Suspend all testing of the affected test and gain positive control of all affected tests materials.

A5.4.2. **(PACAF)** The Development section will perform a preliminary assessment and report recommendations to the Maintenance Training Section Superintendent. **(T-2)**

A5.4.3. **(PACAF)** The Maintenance Training Section Superintendent will evaluate the preliminary assessment results and report findings to the Maintenance Group Commander. **(T-2)**

Figure A7.1. (PACAF) Maintenance E-Testing Point Of Contact (POC) Appointment Sample.

MEMORANDUM FOR HQ PACAF/A4MM

FROM: XX MXG/MTS

SUBJECT: Maintenance E-Testing Point of Contact (POC) Appointment

1. The following individuals are appointed/removed as E-Testing POCs for the XX MXG/MTS. IAW AFI36-2650 PACAF Sup paragraph. 5.4.26, the Maintenance Training Section Superintendent or equivalent will appoint a primary and alternate Maintenance E-Testing POC.

Position	Rank:	Name	DSN	Email	Add/Remove
Primary:					
Alternate:					

2. E-Testing POCs are critical to the integrity of our maintenance training program. They function as liaison between unit MTS Chiefs and HQ PACAF/A4MM for all E-Testing matters. POCs will have access to assessments and test results for their unit's personnel. POCs duties include:

   a. Responsibility for the organization's E-Testing program daily operations such as:
      (1) Coordinating test item changes with the HQ PACAF/A4MM E-Testing PM.
      (2) Controlling and securing all test-related materials.
      (3) Inputting new tests, or authoring existing test questions/instructions.
      (4) Appointing and ensuring the training of test proctors assigned within MTS.
      (5) Approving student roles for access to E-Testing.
      (6) Evaluating test question challenges and coordinating corrective actions with test owners.
   b. Monitoring E-Testing program utilization.
   c. Ensuring review of the organization's test items at least every 24 months.
   d. Forwarding program improvement suggestions to HQ PACAF/A4MM E-Testing PM.

3. The appointed POCs acknowledge understanding and agree to adhere to established E-Testing procedures. Failure to abide by established procedures may constitute a violation of Article 92 of the UCMJ, and will be reported to the appropriate commander for investigation and action.

4. This letter supersedes all previous letters, same subject. Direct questions regarding this subject matter to (POC) via DSN at (YOUR DSN) or via email at (YOUR EMAIL).

XXXXXXXXX, MSgt, USAF
Maintenance Training Section
