1.2. Provide a detailed description, proper wear, and authorized use of the AFRS seal.

1.3. Provide a detailed description of the AFRS emblem and its use.

2. Roles and Responsibilities.

2.1. HQ Air Force is the approval authority for the AFRS seal or emblem.

2.2. The AFRS commander is responsible for the design and maintenance of the AFRS seal and emblem. The commander may delegate responsibility to AFRS/CV.

2.3. Facility managers shall ensure units display approved emblems on all facilities **(T-3)**.

2.5. Commanders and supervisors shall ensure the AFRS seal is properly worn on military uniforms and civilian attire **(T-3)**.

3. Description and Significance.

3.1. The AFRS seal symbolizes the mission of AFRS and is used on official documents and records. The AFRS seal was approved by AFHRC/RS on 2 February 1991. It consists of a disc with an encircling band as follows:

3.1.1. The disc contains 13 stars following the contour of the disc representing the 13 original colonies. In the middle of the disc is the Air Force Coat of Arms, which has two parts.

3.1.1.1. The crest is made up of the eagle, wreath, and cloud form. The American bald eagle symbolizes the United States and its airpower and is depicted in its natural colors. The wreath under the eagle is made up of six alternate folds of metal and light blue. This repeats the metal and color used in the shield. The white clouds behind the eagle show the start of a new sky.

3.1.1.2. The shield, directly below the eagle and wreath, is divided horizontally into two parts by a nebular line representing clouds. The top part bears an Air Force yellow thunderbolt with flames in natural color that shows striking power through the use of aerospace. The thunderbolt consists of an Air Force yellow vertical twist with three natural color flames on each end crossing a pair of horizontal wings with eight lightning bolts. The background of the top part is light blue representing the sky. The lower part is white representing metal silver.

3.1.2. The band encircling the entire design is white, edged in Air Force yellow with black lettering. The inscription reads as Air Force on the top part and Recruiting Service on the lower part.

3.1.3. When the seal is reproduced in color, shades must be as indicated at **Attachment 2**.

3.2. The AFRS emblem is displayed on the AFRS flag.

3.3. The emblem is a shield design divided horizontally into two parts by a nebular line representing clouds. The top part bears an Air Force yellow thunderbolt with flames in natural color that shows striking power through the use of aerospace. The thunderbolt consists of an Air Force yellow vertical twist with three natural color flames on each end crossing a pair of horizontal wings with eight lightning bolts. The background of the top part is light blue representing the sky. The lower part is white representing metal silver. Under the shield design is a paper scroll outlined in Air Force yellow with "AIR FORCE RECRUITING SERVICE" inscribed in Ultramarine Blue lettering on the scroll.
