This instruction implements Department of the Air Force Manual (DAFMAN) 23-300, *Materiel management Procedures*, Air Force Materiel Command Instruction 21-100 Volume 1 (AFMCI 21-100V1), *Depot Maintenance Principles*, Air Force Materiel Command Instruction 21-100 Volume 3 (AFMCI 21-100V3), *Depot Maintenance Production Support.* It outlines roles, responsibilities, and procedures for the identification, requisition, control, accumulation, and turn-in of all precious metal (PM) and PM-bearing scrap/waste materiel's generated within Warner Robins Air Logistics Complex (WR- ALC). It applies to the Business Office (WR-ALC/OB), 402d Aircraft Maintenance Group (402 AMXG), 402d Commodities Maintenance Group (402 CMXG), 402d Electronics Maintenance Group (402 EMXG), and 402d Maintenance Support Group (402 MXSG). Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the Department of Air Force (DAF) Form 847, *Recommendation for Change of Product*. This publication may be supplemented at any level, but all direct supplements must be routed to the OPR of this publication for coordination prior to certification and approval. Requests for waivers must come through the chain of command from the commander or civilian director of the maintenance group or staff office seeking relief from compliance. Waiver requests will be submitted using DAF Form 679, *Air Force Publication Compliance Item Waiver Request/Approval*, or via electronic email or memorandum if the form is unavailable. This publication is exempt from tiering pursuant to Department of the Air Force Instruction (DAFI) 90-160 *Publications and Forms Management*, and Department of the Air Force Manual (DAFMAN) 90-161*, Publishing Processes and Procedures*. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management*

and Information Governance Program, and are in accordance with (IAW) the Air Force (AF) Records Information Management System Records Disposition Schedule, located at **https://www.my.af.mil/afrims/afrims/afrims/rims.cfm**. See **Attachment 1** for glossary of references and supporting information.

SUMMARY OF CHANGES

This instruction has been revised to reflect recent changes within the DAFMAN 23-300, AFMCI 21-100V1 and AFMCI 21-100V3. The revisions incorporate general information on the Precious Metal Recovery Program (PMRP). Due to the recovery costs, not all items containing precious metals are economically viable for recovery. Only items with a precious metal indicator code (PMIC) of C, G, P, S, or V and a controlled inventory item code (CIIC)/sensitive item control code of "R" or "J" are considered economically attractive for PM recovery. Group monitors will be the single point of contact between the group and complex manager. The group will manage all information at the squadron monitor level, if applicable. Semi-annual self-inspections will be conducted in the months of July and December of each year instead of summer and winter.

1. General.

1.1. This instruction establishes policies and procedures for the development, standardization, integration, and implementation of the PMRP at WR-ALC.

1.1.1. The Department of Defense PMRP promotes the economic recovery of precious metal (PM) from excess and surplus PM-bearing materiel. The program encompasses silver, gold, and the platinum family metals, including palladium, iridium, rhodium, osmium, and ruthenium.

1.1.2. The PMIC identifies whether an item contains precious metals. It is found within the item record of the national stock number (NSN).

1.1.3. PMIC – Type of Precious Metal.

1.1.3.1. A: Item does not contain precious metal.

1.1.3.2. U: Precious metal type is unknown.

1.1.3.3. V: Precious metal type varies between manufacturers.

1.1.3.4. S: Item contains silver.

1.1.3.5. G: Item contains gold.

1.1.3.6. P: Item contains platinum family metal.

1.1.3.7. : C: Item contains a combination of silver, gold, and/or platinum family metals.

Note: The platinum family includes platinum, palladium, rhodium, iridium, osmium, and ruthenium.

1.1.4. If there is uncertainty whether an item contains sufficient PM to be economically attractive for recovery and it lacks a CIIC of "J" or "R", consult the equipment specialist responsible for the end item in which the materiel is used for further guidance.

1.1.5. All maintenance areas that use NSNs during production work that are coded as containing PM will take action to identify the item being removed and ensure it is placed in PM containers in each building.

1.1.6. Items suspected or known to contain precious metals should be disposed of in designated PMRP containers or delivered to the appropriate PMRP monitor.

2. Responsibilities.

2.1. Complex PMRP Manager: The WR-ALC Commander designated WR-ALC/OB as the OPR for this program. WR-ALC/OB will appoint, in writing, a complex primary/alternate manager for PMRP. The Complex manager will:

2.1.1. Revise this instruction as needed.

2.1.2. Maintain an electronic continuity book accessible to all levels within the Complex. This electronic continuity book will include, at minimum:

2.1.3. Current complex, group PMRP operating instructions and guidance memorandums (GM), as applicable.

2.1.4. Copies of dated appointment letters for group PMRP primary and alternate monitors. Letters will include phone numbers, locations, and, as applicable, type of recovery equipment, type of PM scrap generated, and type of fine PM and high PM content items used.

2.1.5. Conduct and document program annual review of each group's PMRP. Maintain annual review of 2 years in electronic continuity book.

2.1.6. Follow up on all discrepancies to ensure timely corrective actions.

2.1.7. Conduct initial PMRP training for all newly named monitors.

2.1.8. Conduct annual PMRP training for activity monitors to ensure awareness and program participation.

2.1.9. Provide the Robins Air Force Base (RAFB) PMRP Manager with copies of all appointment letters.

2.1.10. Inform the RAFB PMRP manager of any Complex program changes.

2.1.11. Coordinate and disseminate PMRP information to all WR-ALC activities that generate, store, or handle PMs, PM-bearing scrap and waste, and items containing PM.

2.1.12. Participate in PMRP process reviews and inspections.

2.1.13. Act as the point of contact for all Inspector General Defense Audit Service, Government Accountability Office, and Air Force Audit Agency inspections related to PMRP within the Complex.

2.1.14. Validate all precious metals are provided with a high degree of protection and are subject to physical inventory control measures.

2.1.15. Coordinate with WR-ALC Financial Management Office at the beginning of each fiscal year to obtain fund cites for all groups processing PM turn-ins (currently 402 AMXG, 402 CMXG, and 402 EMXG).

2.1.16. Provide the fund cites to the group monitors.

2.2. **Group PMRP Monitors.**

2.2.1. Group commanders/directors will appoint group-level primary and alternate PMRP monitors. New letters will be updated at the beginning of each calendar year.

2.2.2. Squadron commanders/directors may appoint squadron-level PMRP monitors and alternates. Squadron-level monitors and alternates will follow all group-level requirements outlined in this instruction.

2.2.3. Even with appointed squadron-level PMRP monitors, the group-level PMRP monitors remain the single point of contact (POC) between the Group and the Complex PMRP Manager.

2.3. Group (squadron, where applicable) PMRP Monitors will:

2.3.1. Monitors shall maintain continuity records, either through a physical continuity book or an approved Electronic Records Management System, with the Complex manager granted read-only access. All records, regardless of format, will include the contents prescribed in **Attachment 2**.

2.3.2. Develop training for squadron PMRP monitors and shop personnel to raise awareness about the PMRP and the importance of collecting and turning in PM-identified materiel.

2.3.3. Conduct periodic observations of the collection points. Ensure containers are available, secured, and emptied every 180 days, or when at capacity, for turn-in to Defense Logistics Agency (DLA) Disposition Services as PM-bearing scrap.

2.3.4. Execute semi-annual self-assessments during July and December. All findings and deficiencies must be documented utilizing **Attachment 3**.

2.3.5. Include the semi-annual self-inspection report in the group PMRP continuity book.

2.3.6. Publish group instructions and/or guidance memorandums as needed, to address group-specific procedures. Coordinate with and provide copies to the Complex PMRP manager for inclusion in the electronic continuity folder.

2.3.7. Accompany personnel conducting PMRP-related inspections.

2.3.8. Coordinate all correspondence related to PMRP. Provide information copies of all outgoing PMRP-related correspondence to the Complex PMRP Manager.

2.3.9. Maintain a copy of Department of Defense (DD) Form 1348-1A, *Issue Release/Receipt Document*, for all PM turn-ins to DLA Disposition Services with applicable signatures or stamps for a minimum of 2 years.

2.3.10. Stay current on information posted in the PMRP folder on the Complex SharePoint site. **https://usaf.dps.mil/sites/21617/PMRP/SitePages/Home.aspx**.

2.3.11. Review the schedule of items, automated ordering tracking system PM report, and direct materiel orders.

2.3.12. Establish and maintain a log of returns for issued PM items. The log will contain:

2.3.12.1. NSN.

2.3.12.2. Nomenclature.

2.3.12.3. Quantity.

2.3.12.4. Date Issued.

2.3.12.5. Quantity Issued.

2.3.12.6. Date Returned.

2.3.12.7. Printed Name.

2.3.12.8. Signature.

2.3.13. Ensure that the turn-in of recovered PMs (e.g., gold leaf, silver flake, platinum voltage regulator) is performed under the two-person concept. Two individuals will witness the weighing and the entire transaction.

2.3.14. Ensure all PM turn-ins to DLA Disposition Services include, at minimum:

2.3.14.1. Complete document number using:

2.3.14.2. Department of Defense Activity Address Code FB2065.

2.3.14.3. Julian date and serial number.

2.3.14.4. Date of turn-in.

2.3.14.5. PM code.

2.3.14.6. Nomenclature specifying "PM Bearing Scrap".

2.3.14.7. Actual verified weight in pounds.

2.3.14.8. Group fund cites provided by the Complex PMRP Manager.

2.3.15. Accompany all PM-bearing scrap/materiel being transported to DLA Disposition Services for turn-in.

2.3.16. Manage scrap materiel classified as PM IAW this instruction. When materiel is assigned to both a PM and demilitarization (DEMIL) code, the DEMIL disposition procedures outlined in AFMCI 21-100V3_AFSCSUP will take precedence, with the following exception:

2.3.17. Materiel with DEMIL Code A and a CIIC of "J" or "R" will be handled IAW the PMRP requirements in this instruction.

2.3.18. Ensure materiel in stock class containing PM is handled IAW this instruction. For items containing a high content of PMs and assigned a CIIC of "R", maintain an appointment letter on file that identifies the individual(s) authorized to receive and issue materiel.

2.3.19. Conduct a monthly 100% physical inventory of all security code "R" fine PM stored within the group.

2.4. Provide the Complex manager with:

2.4.1. Copies of dated appointment letters for primary and alternate group monitors. In instances, where squadron monitors have been assigned, group monitors will keep a copy of the letters on file in their continuity book. New letters will be updated at the beginning of each calendar year.

2.4.2. A copy of the semi-annual self-inspection report which is to be conducted in June and December.

2.5. Maintenance Acquisition Program Office will:

2.5.1. Address contractor activities involving PM usage and/or recovery to be addressed in the performance work statement.

3. Procedures.

3.1. **Turn-in Procedures.**

3.1.1. Appointment and Personnel:

3.1.1.1. The PMRP monitor will collect PM materiel and complete appropriate paperwork to turn-in materiel to DLA Disposition Services.

3.1.1.2. The PMRP monitor will schedule a turn-in appointment with DLA Disposition Services.

3.1.1.3. The PMRP monitor's supervisor will select a witness to accompany the monitor for turn-in.

3.1.1.4. The PMRP monitor and witness will personally transport all PM-bearing scrap/materiel to DLA Disposition Services facility at the scheduled appointment time.

4. Witnessing and Documentation.

4.1. Weighing: Both the PMRP monitor and witness will be present for the weighing of the precious metal by DLA Disposition Services personnel.

4.2. Turn-in Register: Both the PMRP monitor and witness will sign the DLA Disposition Services turn-in register to acknowledge receipt of the materiel.

4.3. DD Form 1348-1A: Both the PMRP monitor and witness will sign a DD Form 1348-1A (either a physical copy or a printed copy if the Electronic Turn-In Document System (ETIDS) is used).

5. Recordkeeping.

5.1. Group PMRP Monitor Continuity Book**:** The PMRP monitor will retain the original signed DD Form 1348-1A in the group/squadron PMRP monitor book.

6. Controlled Item Inventory Code (CIIC) “J” & “R” Handling Procedures.

6.1. Storage and control.

6.1.1. Issued "J" or "R" CIIC materiel awaiting installation and not in awaiting part must be controlled and secured to prevent pilferage.

6.1.2. The group/squadron PMRP monitor will conduct a monthly 100% physical inventory of all issued "J" and "R" CIIC materiel awaiting installation. The signed inventory will be retained in the storage area for one year.

6.1.3. CIIC “J” and “R” materiel will be issued to the user after verification of work control document. Quantities exceeding those authorized by the work control document will not be issued.

6.1.4. Issuing "J" or "R" CIIC materiel requires signatures from both the issuer and receiver on the DD Form 1348-1A.

7. Silver Recovery.

7.1. Group PMRP monitors will ensure the following procedures are followed for activities using silver solution:

7.1.1. Equipment must be monitored according to the manufacturer’s instructions.

7.1.2. Using organizations must maintain a silver recovery unit solution testing log monthly.

Note: Instances where silver recovery unit solution testing sites are down, the POC will annotate in the monthly log that “system was down”.

7.1.3. Two personnel are required to remove the silver recovery unit from equipment.

7.1.4. Harvested silver must be secured while awaiting proper documentation and turn-in to DLA Disposition Services in accordance with this instruction.

8. Film Scrap or Exposed/Expended X-ray Film Recovery.

8.1. PMRP monitors will ensure the following procedures are followed for activities using film:

8.1.1. The turn-in of exposed/expended film and film scrap to DLA Disposition Services is controlled and documented.

8.1.2. Exposed/expended x-ray film and film scrap must be stored securely.

8.1.3. PMRP monitors will retain copies of the DLA Disposition Services-signed DD Forms 1348-1A in the continuity book/file for 2 years.

DAVID S. MILLER
Brigadier General
Commander

Witness—Individuals that witness the harvesting process and perform other duties outlined herein.

Attachment 2

PMRP CONTINUITY BOOK

A2.1. Tab A: Appointment Letters

A2.1.1. Copy of letter appointing the alternate and primary PMRP complex manager.

A2.1.2. Copy of letter appointing the primary and alternate PMRP group (squadron, if applicable) monitor. The letter will include the following:

A2.1.2.1. Primary Name.

A2.1.2.2. Alternate Name.

A2.1.2.3. Phone Number.

A2.1.2.4. Office Symbol.

A2.1.2.5. Building.

A2.1.2.6. Organization/Shop.

A2.1.2.7. Type of Precious Metals.

A2.2. Tab B: Group Fund Cite Information

A2.3. Tab C: DD Form 1348-1A

A2.3.1. Organizations are responsible for preparing DD Form 1348-1A, when turning in PM or PM bearing materiel to Defense Logistics Agency Distribution (DLAD). ETIDs are highly suggested when turning PM into DLADs.

A2.3.2. DD Form 1348-1A will be: Copy 1 is turned in with the property, copy 2 is retained by the PMRP monitor and filed in Tab “C” and maintained for a period of 2 years.

A2.4. Tab D: Reports/Self-Inspection Checklist

A2.4.1. Copies of completed self-inspection checklist retained for 2 years.

A2.5. Tab E: Training

A2.5.1. Training Guides/Material

A2.6. Tab F: Equipment/Monthly Testing (if applicable)

A2.6.1. List of all types of precious metals recovery equipment assigned.

A2.6.2. Documentation of the monthly testing of the silver recovery unit solution.

A2.7. Tab G: Miscellaneous Information

Attachment 3

PRECIOUS METALS SELF-INSPECTION CHECKLIST

Account: _____	**Inspected By:** _____	**Date:** _____

	Yes or No	**Initials**
Has the commander/director appointed a PMRP primary and alternate monitor and is a current year letter on file? WR-ALCI 23-103, para 2.2.1.		
Does the PMRP monitor maintain a PMRP continuity book? WR-ALCI 23-103, para 2.3.1.		
Does the PMRP monitor develop training for squadron monitors and shop personnel to raise awareness about the PMRP and the importance of collecting and turning in PM-identified materiel? WR-ALCI 21-103, para 2.3.2.		
Does the PMRP monitor ensure containers are available, secured, and emptied every 180 days, or when at capacity? WR-ALCI 23-103, para 2.3.3.		
Does the monitor conduct self-inspections in June and December of each year, noting any deficiencies? Using the checklist provided in WR-ALCI 23-103, Attachment 3 and maintain it for 2 years. WR-ALCI 23-103, para 2.3.4.		
Does the PMRP monitor ensure group instructions and/or guidance memorandums are published as necessary to cover procedures peculiar to the groups (squadron, where applicable)? WR-ALCI 23-103, para 2.3.6.		
Does the PMRP monitor maintain copies of the DD Form 1348-1A with applicable signature or stamp and kept for a minimum of 2 years in proper Tab C in Continuity Book? WR-ALCI 23-103, para 2.3.9.		
Has the PMRP monitor provided the Complex PMRP manager dated appointment letters for the primary and alternate Group PMRP monitors, at the beginning of each year? WR-ALCI 23-103, para 2.4.1.		
Where applicable, is the silver recovery unit solution testing log updated on a monthly basis? WR-ALCI 23-103, para 7.1.3.		
Where applicable, are the exposed/expanded x-ray film and film scrap stored in secure location? WR-ALCI 23-103, para 8.1.3.
