Sign & Coordinate

Wing Safety
Receives AF Form 978
Within 5 Days Post Mishap Date

Command Post: 782-6000
Chief of Safety : 782-5490
Occupational Safety: 782-4557
Flight Safety: 782-4832
Weapons Safety: 782-5433

Mishaps may occur at any time. Usually a mishap will result in personnel injury or damage to equipment/property or both. After a mishap, a thorough investigation is conducted to prevent similar mishaps from recurring. Your responsibility is to help administer this program covered under DAFI 91-204.

In the event of an accident or injury, seek medical attention immediately and/or notify your immediate supervisor, or commander in absence of supervisor. The supervisor or commander then notifies the Command Post/Maintenance Operations Center (as applicable) and the USR. For major accidents that involve loss of life, limb, eyesight, medical transport, or other serious injuries, notify Command post who will then run applicable notification checklists and notify the applicable commanders and wing safety. Supervisors will generate an AF Form 978 within five days, forward to USR, and the USR will route the Form 978 through the unit commander then to wing safety.
