1. PURPOSE. This AFJQS identifies competency requirements for individuals performing duties within an F-35 Traffic Management function. The Special Experience Identifier (SEI) 2BD is awarded upon completion of 5-skill level, certification of all applicable AFJQS F-35 Logistics Readiness Squadron Task List, a minimum of 6 months of Autonomic Logistics Information System (ALIS) experience, and supervisor's recommendation based on demonstrated proficiency across all aspects of this AFJQS. This AFJQS will be available in *MyTraining* and must be used to develop the Master Training Plan (MTP) for F-35 Traffic Management Sections and any Individual Training Plans (ITP). This AFJQS will remain in effect until superseded or rescinded.

JOB QUALIFICATION COMPETENCY MODEL

Competency	Sub-Competency	Sub-Competency Description
F-35 Supply Sustainment	Policy and Procedures	Operations of supply and transportation functions for the F-35 enterprise.
ALIS	ALIS Structure and Capabilities	The fundamentals and usage of the ALIS.
Materiel Demands & Part Receipt	Inbound Receipt Function	Receiving and inducting freight into ALIS.
Transportation	Shipment of F-35 Assets	Transportation of assets via commercial carriers or military air.
Handling of Special F-35 Materiels	Special Handing	Handling requirements for special materiel assets.

2. TASK QUALIFICATION. Personnel will be qualified to the GO/NO-GO standard for all tasks listed in this AFJQS. GO means the individual can perform/identify the task, without assistance, utilizing appropriate instructions, training references, or other procedural guidance. If the required training listed in Part II of this AFJQS is provided, a supervisor/trainer from the 2T0 functionality will complete the trainer's block to document training completion. The behavior match column connects each training requirement to specific behaviors from the job qualification competency model. For ease of use, the required behaviors from the competency models are numbered and included in each section sub-header. This helps to identify how the training received directly contributes to developing the knowledge, skills, and abilities expected within the AFSC.

3. ADDITIONAL DUTY or TASK. If personnel are assigned an additional duty or task not listed in this AFJQS, the supervisor will develop an AF IMT 797, Job Qualification Standard Continuation/Command JQS. The supervisor/trainer will then develop a plan for the UDM to receive training and become duty position qualified.

4. TRAINING DOCUMENTATION AND TRAINER/CERTIFIER IDENTIFICATION. Document training required by this AFJQS in accordance with DAFMAN 36-2689, *Training Program*. All trainers authorized to sign off tasks in Part II of this AFJQS will be identified in the identification block of this AFJQS. Trainer and trainee(s) will use this AFJQS in conjunction with the Airman's respective Air Force Specialty Code (AFSC) Career Field Education and Training Plan (CFETP). Dual documentation is not required if the competency task is already accomplished for the member's primary AFSC. Training is to be conducted by the Airman's supervisor or applicable subject matter expert.

5. This AFJQS has been coordinated with all applicable CFMs. Overall POC for this AFJQS is HAF/A4LR, DSN 224-1278, sudhakar.rengaraj@us.af.mil.

4.1.1.6.	Release shipments in ALIS TR: ALIS SCM User Guide Process Shipments para. 2.9	1				
4.1.2.	**SHIPMENT OF F-35 ASSETS (INTERMEDIATE)** **Required Behaviors:** 1) Explains transfer locations and asset visibility process 2) Demonstrates shipment consolidation process *Criteria: Consistence of application / Sustained application of competency over time in a variety of situations*					
4.1.2.1.	Explain "Transfer Locations" concept IAW prescribed directives TR: SSOP para. 10.2	1				
4.1.2.2.	Explain "Asset Visibility" concept IAW prescribed directives TR: SSOP para. 10.4	1				
4.1.2.3.	Connect "Additional Parts to Handling Unit" (Consolidations) in ALIS TR: ALIS SCM User Guide Process Shipments Chapter 3	2				
4.1.3.	**SHIPMENT OF F-35 ASSETS (ADVANCED)** **Required Behaviors:** 1) Troubleshoots and resolves shipment discrepancies 2) Processes shipments outside of ALIS *Criteria: Consistence of application / Sustained application of competency over time in complex situations*					
4.1.3.1	Research shipments awaiting instructions and labels TR: SSOP para. 1.4, table 1.4-1, 3.1.2, table 3.1-2	1				
4.1.3.2.	Perform shipment reverse transactions (Back-Out) TR: ALIS SCM User Guide Process Shipments Chapter 5	1				
4.1.3.3.	Re-open a shipment and re-request transportation TR: ALIS SCM User Guide Process Shipments Chapter 10	1				
4.1.3.4.	Perform manual transportation request process (Manual Traveler) TR: SSOP para. 9.4 | F-35 Sustainment Supply Manual Traveler Work Instruction (Doc #: 2PGN00088)	2				

5.	**HANDLING OF SPECIAL F-35 MATERIELS**					
5.1.	**SPECIAL HANDLING** **Description:** Handling requirements for special materiel assets. **Supporting Competencies:** Accountability, Communication, Decision Making **References:** F-35 SSOP International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), 49 Code of Federal Regulations (CFR), AFMAN 24-604					
5.1.1.	**SPECIAL HANDLING (BASIC)** **Required Behaviors:** 1) Explains the Electrostatic Discharge-Sensitive (ESDS) materiel handling requirements for shipments *Criteria: Consistence of application / Sustained application of competency over time*					
5.1.1.1.	Identify Electrostatic Discharge-Sensitive (ESDS) materiel handling requirements TR: SSOP para. 11.1	1				
5.1.2.	**SPECIAL HANDLING (INTERMEDIATE)** **Required Behaviors:** 1) Applies materiel handling requirements for Hazardous Materiel (HAZMAT) *Criteria: Consistence of application / Sustained application of competency over time in a variety of situations*					
5.1.2.1.	Package, process and receive hazardous materiel TR: SSOP para. 10.3, 11.5 | International Air Transport Association (IATA), | 49 Code of Federal Regulations (CFR) | AFMAN 24-604	1				
5.1.2.2.	Package, process and receive radioactive materiel TR: SSOP para. 10.3, 11.4 | International Air Transport Association (IATA), | 49 Code of Federal Regulations (CFR) | AFMAN 24-604	1				
5.1.2.3.	Package, process and receive batteries TR: SSOP para. 10.3, 11.6 | International Air Transport Association (IATA), | 49 Code of Federal Regulations (CFR) | AFMAN 24-604	1				
5.1.3.	**SPECIAL HANDLING (ADVANCED)** **Required Behaviors:** 1) Executes shipping and handling requirements for F-35 assets *Criteria: Consistence of application / Sustained application of competency over time in complex situations*					
5.1.3.1.	Package, process and receive wheel and tire assemblies TR: SSOP para. 10.3, 11.8	1				
5.1.3.2.	Package, process and receive modification (MOD) kits TR: SSOP para. 10.3, 11.9	1				
5.1.3.3.	Interpret the CAD/PAD transportation and receiving requirements TR: SSOP Chapter 12	1				
5.1.4.	**SPECIAL HANDLING (EXPERT)** **Required Behaviors:** 1) Monitors directive requirements to ensure personnel are within compliance *Criteria: Consistence of application / Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*					

5.1.4.1.	Oversee compliance of special handling materiel requirements TR: SSOP Chapter 11	1
