MEMORANDUM FOR CFETP 2A5X1 AIRLIFT AND SPECIAL MISSION AIRCRAFT MAINTENANCE

FROM: AF/A4LM Crew Chief CFM
1030 Air Force Pentagon
Washington, DC 20330-1030

SUBJECT: Air Force 2A5X1 Aircraft Maintenance Chemical, Biological, Radiological and Nuclear (CBRN) Air Force Specialty (AFS) Specific Task Qualification Training (TQT)

1. In accordance with Department of the Air Force Instruction 10-2501, *Emergency Management Program*, paragraph 2.12., Career Field Managers will identify wartime tasks to be performed and task-certified while wearing MOPP 4 CBRN individual protective equipment. These wartime training tasks are considered task qualification training and will be identified in the Aircraft Maintenance career field education and training plans (CFETP).

2. TQT is training in which individuals perform wartime mission essential tasks in a simulated wartime environment while wearing MOPP 4 CBRN individual protective equipment. The mandatory TQT tasks for the 2A5X1 Aircraft Maintenance AFS are listed in Attachment 1. These tasks are the minimum TQT requirement for that respective AFS. Commanders may identify more wartime training tasks for each AFS in order to meet their mission need. These tasks will be identified on the work center's 797 and that training will be recorded on the 797 in the Air Force approved electronic training record system (e.g., TBA or myTraining). Members previously certified on tasks in Attachment 1 are not required to be recertified. Any designated TF coded unit or any designated test organization is exempt from this TQT requirement unless deemed necessary by the unit commander.

3. Training managers and/or work center supervisors will use Attachment 1 to create an electronic 797 in the Air Force approved electronic training record system to identify the TQT requirements and document that training in each Airman's training record once the training is completed.

4. If you have any questions, please contact the Crew Chief CFM at the AF/A4LM Workflow at AF.A4LM.Workflow@us.af.mil.

ROBERT W. RAFFERTY II, CMSgt, USAF
Crew Chief Career Field Manager

1. Task Qualification Training Requirements

Attachment 1

TASK QUALIFICATION TRAINING REQUIREMENTS

2A5X1—Airlift and Special Mission Aircraft Maintenance TQT Requirements

A3.1.3.1 Basic post flight/preflight
A3.1.3.2 Thru-flight
A3.1.3.3 Pre-departure launch check
A3.1.5.1 Launch aircraft
A3.1.5.2 Recover aircraft
A3.8.6.1 Perform refuel/defuel supervisor duties
A3.8.6.2 Perform refuel/defuel team member duties

A4.1.2.2. Preflight
A4.1.2.3. Thruflight
A4.1.2.4. Basic postflight
A4.1.2.5. Preflight/Postflight
A4.1.6.1 Launch aircraft
A4.1.6.2 Recover aircraft
A4.8.6.1 Perform team member duties (refuel)
A4.8.6.2 Perform team panel operator duties (refuel)
A4.8.6.3 Perform team supervisor duties (refuel)

A5.1.8.2.1 Preflight
A5.1.8.2.2 Thruflight
A5.1.8.2.3 Combined preflight/basic postflight
A5.1.14.1 Launch aircraft
A5.1.14.2 Recover aircraft
A5.8.7.1 Perform fuel control panel operator duties
A5.8.7.2 Perform team supervisor duties

A6.1.4.1 Preflight
A6.1.4.2 Thru flight
A6.1.4.3 Basic post flight
A6.1.6.1 Launch aircraft
A6.1.6.2 Recover aircraft
A6.8.3.1 Perform preparation (refuel)
A6.8.3.2 Perform panel operator duties (refuel)
A6.8.3.3 Perform supervisor duties (refuel)

A7.1.4.1 Preflight
A7.1.4.2 Thruflight
A7.1.4.3 Post flight/preflight (BPO/Pre)
A7.1.7.1 Launch aircraft
A7.1.7.2 Recover aircraft
A7.8.2.1 Perform team supervisor duties (refuel)
A7.8.2.2 Perform fuel panel operator duties (refuel)
