Pages: 29

This manual implements AFMAN 31-116, Air Force Motor Vehicle Traffic Supervision. All provisions are directive in nature and apply to all organizations and personnel located on or within the jurisdictional limits of Barksdale Air Force Base, Louisiana. Failure to comply with these requirements provides for administrative, judicial, and/or disciplinary action as authorized by federal laws, Uniform Code of Military Justice, Air Force Directives, and the laws of the state of Louisiana. This includes, but is not limited to, granting, suspending, or revoking the privilege to operate a privately owned vehicle; registration of privately owned vehicles; administration of vehicle registration and driver performance records; driver improvement programs; police traffic supervision; and off-installation traffic activities. This publication requires the collection and or maintenance of information protected by the Privacy Act of 1974 authorized by Title 10 United States Code, Section 8013, and Department of Defense Directive 7730.47, Defense Incident-Based Reporting System. The applicable Privacy Act SORN(s) F031 AF SF B, Security Forces Management Information Service, is available at **http://privacy.defense.gov/notices/usaf/**. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFMAN 33-363, Management of Records, and disposed of in accordance with the Air Force Records Disposition Schedule located at **https://www.my.af.mil/afrims/afrims/afrims**. Contact supporting records managers as required. Refer recommended changes and questions about this publication to the Office of

Primary Responsibility using the AF IMT 847, Recommendation for Change of Publication, through the appropriate functional' s chain of command.

SUMMARY OF CHANGES

This document is substantially revised and must be completely reviewed. This manual incorporates extensive changes from AFI 31-204 which it replaces and must be thoroughly reviewed by the reader. Among other things, this manual: incorporates current terminology and standards related to testing for the presence of alcohol and drugs used by the National Highway Traffic Safety Administration; describes the processes to be used in the collection of evidence and action on traffic reports; includes guidance on matters ranging from registration of vehicles to establishment of base traffic management programs; and sets minimum traffic enforcement goals for Defense Force commanders. (BARKSDALE) This supplement must be thoroughly reviewed by all Barksdale Air Force Base personnel. This supplement incorporates minor changes from superseded supplement (i.e. renumbered paragraphs), updated the issuance of suspension/revocation of driving privileges policy, updated the child safety seat guidance, and removed verbiage of motorcycle equipment requirements as requirements are already outlined in AFI 91-207, *The US Air Force Traffic Safety Program.*

Chapter 1

INTRODUCTION

1.1.1. **(Added)** Assimilation of Louisiana State Traffic Laws. In accordance with Department of Defense Directive 5525.4, Enforcement of State Traffic Laws on Department of Defense Installations and 18 U.S.C. § 13, The Assimilative Crimes Act, Barksdale AFB assimilates all applicable state motor vehicle traffic and pedestrian regulations as prescribed in Louisiana Revised Statues (La. R.S.), Titles 14 and 32, and the Louisiana Motor Vehicle Equipment Code (current editions.) All provisions are directive in nature and apply to all organizations and personnel located on or within the jurisdictional limits of Barksdale Air Force Base, Louisiana.

1.2.1. **(Added)** Traffic review and planning is delegated to the Traffic Safety Working Group. The 2d Bomb Wing Traffic Safety Working Group is chaired by the 2 MSG/CD and consists of representatives from the 2d Security Forces Squadron, 2d Civil Engineer Squadron, 2d Logistics Readiness Squadron, 2d Bomb Wing Safety Office, 307th Wing Safety Office, and tenant units who have any traffic-related items to discuss. The Traffic Safety Working Group meets quarterly, or as necessary, to plan, coordinate and implement installation motor vehicle traffic supervision policy, projects and programs.

1.3.1. **(Added)** Delegation of Authority. The 2d Bomb Wing Commander has delegated authority (by official letter) to the 2d Mission Support Group Commander to administer the Barksdale AFB Motor Vehicle Traffic Supervision program.

Chapter 2

DRIVING PRIVILEGES

2.1.1. **(Added)** All drivers operating a motor vehicle on Barksdale AFB must produce, upon request from 2 SFS personnel, all documents required by AFI 31-218(I) and meet all Louisiana insurance and safety inspection requirements, if applicable. This includes proof of valid registration, insurance and driver's license. **Note**: Vehicles registered in states that do not require a paper registration will be processed by verifying registration sticker on windshield.

2.2.2.1. **(Added)** Refusal by vehicle operators to submit to the examination of their vehicle during randomly selected checks at Installation Access Points (Base Gates) may result in denial of base access and/or use of Barksdale AFB roadways and possible disciplinary action. The status of the individual (military, dependent, civilian) will determine what action is taken.

2.3.1. **(Added)** Refusal to take or complete tests to determine the presence of alcohol and/or drugs may result in denial of installation driving privileges or other administrative actions. The status of the individual (military, dependent, civilian) will determine what action is taken. The Model LA-9000 Intoxilyzer, located in the patrolman's office is used to administer chemical test of the breath to persons suspected of intoxicated driving. Authorized Security Forces members certified by the State of Louisiana, Department of Public Safety and Corrections, conduct chemical breath tests.

2.3.2. **(Added)** Locally trained and certified SF members conduct field sobriety tests for probable cause to conduct chemical tests of a suspected intoxicated driver's blood, breath or urine.

2.3.3. **(Added)** The installation commander, or designees (2 Mission Support Group Commander and 2 Mission Support Group Vice Commander), acting in the capacity of the base magistrate, may order the seizure of a military suspect's bodily fluids for evidential purpose. 2d Bomb Wing medical technicians, at the direction of Security Forces personnel, conduct involuntary evidentiary extractions of suspected intoxicated driver's blood. The 2 Bomb Wing Medical Group will ensure the results of blood or urine tests are reported to 2 Security Forces Services Reports and Analysis section and to the individual's unit commander. Unit commanders and staff agency chiefs will forward the appropriate information to the installation Drug and Alcohol Abuse Program Manager.

2.4.1. **(Added)** Unreasonable periods are defined as any vehicle left in public areas for more than 72 hours or unauthorized parking in controlled/restricted areas at any time. Abandoned is defined as any vehicle displaying an unsightly appearance (e.g., flat tires, broken windows, on working blocks, missing parts). In either case, such vehicle is subject to towing.

2.5.1.3.1. **(Added)** Under Article 111, of the UCMJ, a person commits a violation if he/she operates a motor vehicle having a blood alcohol concentration of 0.10g% or higher, or the limit imposed by the law of the state in which the base is located. The Louisiana state law is 0.08g% and the UCMJ stipulates to use the lesser of the two, which is 0.08g%. A person also commits a violation if they operate a motor vehicle while "drunk" or "impaired." "Drunk" or "impaired" means any intoxication which is sufficient to impair the rational and full exercise of mental or physical faculties. The term "drunk" is used in relation to intoxication by alcohol. The term "impaired" is used in relation to intoxication by any substance described in Article 112a of the

UCMJ (i.e., illegal drugs or controlled substances) and any controlled dangerous substance listed in Schedule I, II, III, IV or V as set forth in La. R.S. 40:964.

2.5.1.4. **(Added)** If a person exhibits signs of drunkenness, such as failing a Field Sobriety Test or other behavior that leads the investigating Security Forces member to believe the person is drunk, then a person may be charged under UCMJ Article 111 for Active Duty military or La. R.S. 14:98 for non-active duty military charged as a violation of Title 18, U.S.C. § 13, Assimilative Crimes Act.

2.5.1.5. **(Added)** Whenever a vehicle operator is charged with drunk or impaired driving in accordance with above paragraphs, regardless of the results of a chemical test for the presence of alcohol, the vehicle operator will have his or her installation driving privileges suspended immediately pending investigation and resolution of the intoxicated driving incident.

2.5.1.6. **(Added)** A temporary suspension of on-base driving privileges will be in effect immediately for Active Duty military personnel, family members, retired members of the military services, DoD civilian personnel and others with installation driving privileges, regardless of the geographic location of the intoxicated driving incident. The temporary suspension will be in effect until the driving while intoxicated (DWI) or driving under the influence charge is adjudicated in civilian court, by military courts-martial, non-judicial punishment under Article 15 of the UCMJ or a separate administrative hearing as addressed in AFI 31-218(I).

2.5.1.7. **(Added)** In the event of conviction or finding of guilt, disposition of administrative hearing or acceptance of Article 15 punishment, the suspension will be converted into a 1-year revocation of driving privileges. The period of revocation is computed beginning from the date the original suspension was imposed, exclusive of any period during which full driving privileges may have been restored pending resolution of charges IAW 31-218(I).

2.5.1.8. **(Added)** Underage Driving Under the Influence. Vehicle operators under the age of 21 having a blood alcohol level of 0.02g% to 0.079g% are classified as "Underage Driving Under the Influence" as outlined in La. R.S.14:98.1(A.). A person charged on base for “Underage DUI” will have his or her driving privileges revoked for a period of 1 year.

2.5.1.9. **(Added)** Above paragraph does not apply to a vehicle operator under the age of 21 with a blood alcohol level of 0.08g% or above. Those drivers will be charged with driving while intoxicated in accordance with the appropriate driving while intoxicated statute (Art. 111, UCMJ, or La. R.S. 14:98) and driving privileges will be suspended in accordance with driving while intoxicated statute.

2.5.1.10. **(Added)** Military members or DoD employees arrested off base for drunk or impaired driving incidents must report to the Base Defense Operations Center to be issued a notice of suspension of installation driving privileges. First Sergeants (for enlisted personnel), commanders (for officers), or DAF and APF civilians (for civilians), will ensure personnel are escorted to Base Defense Operations Center for issuance of a suspension letter. DoD Civilians will be released to their supervisors. This action must take place within 24 hours upon return to military control. Military control is defined as “upon release from civil authorities after being arrested, detained or held in custody by civilian authorities.”

2.5.1.11. **(Added)** In the event a vehicle operator refuses to submit to a chemical test of their breath, blood or urine for the presence of alcohol or drugs, the driver’s 1-year revocation is

effective immediately, unless the vehicle operator was already under base suspension/revocation. In this case, the revocation is added onto the existing base suspension/revocation.

2.5.1.12. **(Added)** Assimilated State Law for Drunk or Impaired Driving. Under La. R.S. 14:98(A)(1), a person commits an offense by operating any vehicle or means of conveyance (a) while under the influence of alcoholic beverages; or (b) the operator's blood alcohol level is 0.08g% or more by weight based on grams of alcohol per 100 cubic centimeters of blood; or (c) the operator is under the influence of any controlled dangerous substance listed in Schedule I, II, III, IV, or V as set forth in La. R.S. 40:964.

2.5.1.13. **(Added)** 2 Missions Support Commander (or 2 Missions Support Group Vice Commander in 2 Mission Support Group Commander's absence) is designated as the suspension/revocation authority for all traffic actions and violations. Barksdale's suspension/revocation policies are coordinated annually with the Staff Judge Advocate. Publication of this base supplement ensures the traffic code is made available to general public. **Note:** For instances where the driver and/or passenger has multiple violations (i.e., seatbelt **and** cell phone violation observed at the same time), the driving suspension/revocation days will run consecutively.

2.5.1.14. **(Added)** 2 Mission Support Group Commander has established suspension/revocation guidelines for the following (non-DWI) traffic offenses:

2.5.1.15. **(Added)** Operating a POV/GOV on Barksdale AFB without proper use of seatbelts may result in a 7-day suspension of on-base driving privileges for the first offense. Subsequent violations within a 12-month period may result in 30-day suspensions of on-base driving privileges. If the offender is a passenger, the passenger will receive the suspension and points assessed to their base driving record.

2.5.1.16. **(Added)** Operating a POV on BAFB without a certificate of state vehicle registration or an expired operator's license is prohibited and may result in a 7-day suspension of on-base driving privileges for the first offense. Subsequent violations within a 12-month period may result in 30-day suspensions of on-base driving privileges. If a subject's driving privileges are suspended, he/she may be automatically reinstated at any time during the suspension period by providing proof of compliance with applicable state law to 2 SFS Reports and Analysis section (456-3510/4697).

2.5.1.17. **(Added)** Operating or permitting the operation of a privately owned vehicle on BAFB without proof of insurance or without current insurance may result in a 7-day suspension of on-base driving privileges for the first offense. Subsequent violations within a 12-month period may result in 30-day suspensions of on-base driving privileges. If a subject's driving privileges are suspended, he/she may be automatically reinstated at any time during the suspension period by providing proof of compliance to 2 SFS Reports and Analysis section.

2.5.1.18. **(Added)** Operating a vehicle on Barksdale AFB with a suspended state driver's license or while under base driving suspension could result in a citation and a 2-year base driving revocation. The 2-year revocation will be added to any time remaining on an existing base driving revocation.

2.5.1.19. **(Added)** Operating a motorcycle on Barksdale AFB without required documents will result in a suspension of 7 days, second offense is 30 days, and the third offense will be for a period of 180 days and forwarded to the 2 MSG/CC for a permanent revocation. Violators not

having the required documents can bring proof of these documents to the 2 SFS/S5R, and the suspension will be lifted.

2.5.1.20. **(Added)** Operating a motorcycle on Barksdale AFB without proper protective equipment as prescribed in AFI 91-207 will result in an automatic motorcycle driving suspension of 7 days, second offense is 30 days, and the third offense will be for a period of 180 days and forwarded to the 2 MSG/CC for a permanent revocation. Violators must bring proof that they have the required personal protective equipment to 2 SFS/S5R before they can resume riding following a suspension.

2.5.1.21. **(Added)** Limitations on cellular phones. The use of cellular phones, talking or texting, while operating a motor vehicle on Barksdale AFB is strictly prohibited unless a hands-free device is used. Vehicle operators cited for cell phone violations may receive a 7-day suspension of base driving privileges for the first offense. Subsequent violations within a 12-month period may result in 30-day suspensions of base driving privileges.

2.5.1.22. **(Added)** Detailed suspension/revocation information and instructions for correcting violations and/or appealing suspensions/revocations are contained in a form letter issued with the DD Form 1408 or United States District Court Violation Notice to the violator. Failure to follow instructions outlined in this form letter could result in additional or more severe penalties as determined by the 2 MSG/CC.

2.5.2.2.1. **(Added)** 2 SFS, Reports and Analysis Section, is responsible for administration of reports of moving traffic violations, suspensions and revocations between military and state law enforcement authorities. This section will ensure revocation, suspension and driving records are forwarded to gaining commanders, and appropriate staff action is initiated when receiving similar records from losing commanders of inbound.

2.5.2.2.2. **(Added)** 2 SFS Reports and Analysis will publish a current, weekly listing identifying those individuals whose installation driving privileges have been suspended or revoked. Copies will be provided to Base Defense Operations Center and each installation access point. Driver suspension/revocation letters are issued under 2 MSG/CC authority. All letters are coordinated through Staff Judge Advocate any time changes are required. Letters are prepared as an original and one copy. After acknowledgment by the offender or witnessed refusal on both copies, distribution will be as follows:

2.5.2.2.2.1. **(Added)** Original Suspension/Revocation Letter to 2 SFS Reports and Analysis on the next duty day.

2.5.2.2.2.2. **(Added)** Duplicate Suspension/Revocation Letter. A copy is given to offender.

2.5.2.2.2.3. **(Added)** Military Members. Letters of revocation or suspension for other traffic violations will be initiated by 2 SFS Reports and Analysis section after coordination with the offender's commander. The offender will then receipt for the letter.

2.5.2.2.2.4. **(Added)** Civilians and Military Dependents. Notice of suspension/revocation for civilian and military dependents will be forwarded to the individual, via certified mail, return receipt requested. DoD civilian employees receive notice through their supervisors and acknowledge receipt in writing. All letters of revocation or suspension covered in this paragraph require coordination with Staff Judge Advocate.

2.5.2.2.3. **(Added)** Request for Reinstatement of Driving Privileges. Requests must be submitted in writing within 14 days of the effective date of the revocation letter. Requests after this period are invalid, except if authorized by 2 SFS/CC and 2 BW/JA. The individual requesting reinstatement of privileges will submit the request through his/her First Sergeant and commander with endorsements/comments recommending approval/disapproval. The completed request should be forwarded to 2 SFS Reports and Analysis section, who will coordinate the request with 2 SFS/CC, 2 BW/JA and 2 MSG/CC. The final decision by 2 MSG/CC is returned to 2 SFS Reports and Analysis section for appropriate action. Coordination of requests should be completed within 10 working days from the date of the request.

2.5.2.2.4. **(Added)** 2 MSG/CC will make a determination if driving privileges are to be revoked or suspended following a hearing requested by the offending driver. If no hearing is requested, the determination shall be made following an informal review of evidence. **Note**: If the driver is not notified of the final action within 30 days of the hearing, the suspension must be lifted.

2.5.2.2.5. **(Added)** 2 MSG/CC or his designee will conduct an administrative hearing and act on all matters relating to suspension or revocation of base driving privileges upon request. Unit commanders may request the suspension/revocation of on-base driving privileges of their personnel when conditions warrant such actions. The unit commander will contact 2 SFS Reports and Analysis section, who will prepare the suspension letter as applicable, and route it through 2 SFS/CC, 2 BW/JA and 2 MSG/CC for a decision.

2.5.2.2.6. **(Added)** Administrative Hearings for Intoxicated Driving Incidents. Requested informal administrative hearings for intoxicated driving incidents occurring on and off base are conducted by 2 MSG/CC. 2 MSG/CC will use the "preponderance of the evidence" standard for making factual determinations.

2.6.1. **(Added)** Commanders and staff agency chiefs will refer all military personnel involved in any intoxicated (drug or alcohol) motor vehicle incident to the installation Substance Abuse Office, Drug and Alcohol Control for evaluation. Drivers who are entered into a formally directed substance abuse or driver's training program due to their involvement in an alcohol-related incident must complete the program prior to having their installation driving privileges reinstated.

2.6.2. **(Added)** Documentation. 2 SFS Reports and Analysis section will forward a copy of all incident reports on military personnel and DoD civilian employees apprehended for intoxicated driving on and off base to the installation Substance Abuse Office.

2.6.3. **(Added)** Mandatory Program Entry. Persons whose installation driving privileges are revoked for 1 year or more for intoxication based upon lawful apprehension or suspension upon conviction, non-judicial punishment or civilian administrative action shall complete an alcohol or drug safety action program or equivalent alcohol education course (minimum of 8 hours) conducted by the installation Substance Abuse Office before their installation driving privileges may be reinstated. **Note:** DoD civilian employees may be initially evaluated for alcohol-related incidents and then referred to off-base agencies.

2.6.4. **(Added)** Prior to granting restricted driving privileges, 2 SFS Reports and Analysis section will ensure the person's civilian state or international driving credentials are current and valid. This will primarily be accomplished using the Air Force Law Enforcement Terminal System. Drivers seeking reinstatement must provide current driving credentials.

2.6.5. **(Added)** 2 SFS Reports and Analysis section is responsible for administration of reports of moving traffic violations, suspensions and revocations between military and state law enforcement authorities.

Chapter 3

PRIVATELY OWNED VEHICLE OPERATION REQUIREMENTS

3.1.1. **(Added)** All POVs entering Barksdale AFB must meet all applicable federal, state and local requirements for registration, licensing, insurance and safety standards as outlined in AFI 31-218(I), Motor Vehicle Traffic Supervision, applicable Louisiana Law, and this supplement. Vehicles failing to meet these requirements are subject to denial of access to the installation. Violators may be issued traffic citations or receive other appropriate administrative or disciplinary actions. Every registration plate shall be properly and securely fastened in a horizontal position to the vehicle for which it was obtained, clearly legible and free of debris or other obscuring material. Under the Louisiana Motor Vehicle Equipment Code, any person operating a privately owned vehicle on Barksdale AFB must comply with all provisions of the Louisiana Motor Vehicle Equipment Code as well as AFI 31-218(I) and its prescribed supplements. Vehicles not in compliance with all directives may be cited for defective equipment or denied access to the installation by 2 SFS Installation Access Controllers.

3.1.2. **(Added)** Defective Vehicle Citations. Vehicle operators not in compliance with the requirements of this publication or related assimilated LA Statutes may be cited for operating a defective motor vehicle. Anyone cited will be given 3 days to correct the defect and report to Base Defense Operations Center to have the correction inspected. The inspecting SF member will annotate corrections of defects within the 3 work-day period and the citation will be returned to 2 SFS Reports and Analysis section. Any points normally assessed for the violation will not be assessed if the violation was shown to have been corrected within 3 days. Vehicles cited as being defective, which are obviously unsafe to operate (jagged metal or other protrusions) which create an unreasonable risk of injury to pedestrians or property, will not be operated on base until such defects are corrected.

3.1.3. **(Added)** Tires. All vehicle tires must be of pneumatic design. The tread remaining on the tires must be at least 1/16 of an inch.

3.1.4. **(Added)** No driver shall operate a motor vehicle, or motorcycle, on any surface (paved or unpaved) unless the surface is specifically designated as a street, access road, parking area or motorcycle track.

3.2.1. **(Added)** Traffic Laws Apply to Persons Operating Motorcycles. Every person riding a motorcycle is granted all the rights and is subject to all the rules applicable to the driver of any other vehicle under this supplement, excluding special provisions.

3.2.2. **(Added)** Motorcycle riders shall ride only upon the permanent and regular seat and not carry other persons unless the motorcycle is designed to carry more than one person. A person shall ride upon the motorcycle only while sitting astride the seat facing forward, with one leg on each side of the motorcycle. No person shall operate a motorcycle while carrying any package, bundle or other article that prevents him or her from keeping both hands on the handlebars.

3.2.3. **(Added)** All motorcycles are entitled to full use of a lane. No motor vehicle shall be driven in such a manner to deprive a motorcycle the full use of a lane. The operator of a motorcycle shall not overtake/pass in the same lane occupied by the vehicle being overtaken. No person shall operate a motorcycle between lanes of traffic, between adjacent lines or rows of vehicles. Motorcycles shall not be operated two abreast in a single lane.

3.2.4. **(Added)** A motorized cycle (moped/scooter) is any two- or three-wheeled device having an automatic transmission and a motor with a cylinder capacity of not more than 50 cubic centimeters, which produces less than two gross brake horsepower, and is capable of propelling the device at a maximum speed of not more than 30 miles per hour on level ground. A motorized cycle shall only be operated upon the roadway of the highways of this state by a person 15 years of age or older who possess a valid Louisiana driver's license and shall not be operated upon sidewalks or interstate highways IAW La. R.S. 32:200. Motorized cycles fall under all requirements for motorcycles in this instruction.

3.2.5. **(Added)** Equipment for Motorcycle and ATV Riders. Motorcycles and ATVs driven on base must comply with all safety requirements mandated by the State of Louisiana, AFI 91-207, AFI 31-218(I), and DODI 6055.04.

3.3.1. **(Added)** The AF Form 75 is issued for several categories of base visitors. Persons requiring a pass will be directed to the West Gate and/or East Gate Visitor Center. Visitor passes will not be issued at the North or Bodcau Gate. **Exception:** All commercial and contract vehicles will enter the East Gate and receive a pass if necessary. The pass will remain with the visitor at all times while on the installation. Once the visit has been terminated, the visitor will destroy the AF Form 75.

3.3.2. **(Added)** Civilian News Media. Civilian news media personnel and vehicles will not be issued a visitor/vehicle pass while performing news-gathering activities and under the escort/supervision of a representative from HQ AFGSC, Eighth Air Force, 2d Bomb Wing or 307th Wing Public Affairs offices.

3.6.1. **(Added)** Vehicles registered in states requiring both front and rear license plates will not be operated unless both plates are legally attached as prescribed in this paragraph. When the state of registration requires only one license plate (front or rear), the display of foreign plates, overseas military plates, or registration plates of other US states and territories is prohibited. Only one set of plates for one issued jurisdiction may be mounted at any one time.

3.6.2. **(Added)** The rear license plate will be illuminated on all vehicles manufactured with such illumination.

3.6.3. **(Added)** All POVs operated on Barksdale AFB will meet the minimum requirement for liability insurance in the State of Louisiana. Vehicle operators are required to carry proof of insurance within the vehicle, can be a hard copy insurance document and/or electronic insurance card (E-insurance card) via Smartphone/tablet device. All vehicle operators will have in their possession a current registration and state driver's license, unless state law allows for driver's license extensions for military members. Member is responsible for complying with their state's actual law. Procedures for Administrative/Registration Infractions: Vehicle operators may be cited with a DD Form 1408, Armed Forces Traffic Ticket and a Letter of Suspension/Revocation, signed by the 2 MSG/CC if they are not in possession of a valid driver's license, vehicle registration and current insurance, or if the required items are expired, canceled, suspended, revoked or have never been issued. **Note:** In this supplement, the term "not in possession of the required items" means the person does not have the item(s) physically with them or they have not been issued the item(s) by the appropriate issuing authority. Additionally, vehicles registered in states that do not require a paper registration will be processed by verifying registration sticker on windshield.

3.6.4. **(Added) Exceptions:** The following will not be cited, suspended or revoked: 1) Persons driving rental vehicles (with proper rental vehicle documents) when the vehicle has a registration, inspection or license plate deficiency; 2) vehicles without hard tags awaiting state registration papers and plates (**Note:** The temporary vehicle registration must not have expired); 3) Military members and/or dependents who fail to provide the documentation required in this supplement and have processed into their unit within the last 10 days (SF members may request to see a copy of the person's PCS orders).

3.6.5. **(Added)** Violators must bring proof of such current registration, driver's license or insurance to Bldg. 6000, 2 SFS, Reports and Analysis (2 SFS Reports and Analysis section) during normal business hours (Monday - Friday, 0730-1630). **Note:** When 2 SFS Reports and Analysis section is closed in support of other missions, the dates on the suspension letter will be adjusted to reflect the number of days 2 SFS Reports and Analysis is scheduled to be closed.

3.6.6. **(Added)** Individuals without current insurance will not be allowed to drive on base except to drive their vehicle with SF escort to their on-base quarters after being cited/suspended. Individuals living off-base will be denied access after being cited/suspended. Patrols will escort cited/suspended off-base residents to the nearest base gate. Vehicles will not be left at base gates.

3.6.7. **(Added)** Rental vehicles being used for personal purposes will be allowed access based upon a valid rental agreement, driver's license and proof the vehicle is insured via rental agreement or personally owned vehicle insurance agreement presented by drivers with independent access (owners having a military or dependent ID card, military retirees and their dependents, DoD civilians and other select civilian employees) to the base. Visitors in rental vehicles will require an authorized sponsor and a Visitor's Pass.

Chapter 4

TRAFFIC PLANNING AND CODES

4.1.1.1.1. **(Added)** Child Safety Seats. IAW LA R.S. 32:295, every driver in this state who transports a child or children under the age of thirteen years in a motor vehicle which is equipped with safety belts shall have the child properly secured as follows:

4.1.1.1.1.1. A child who is younger than one year of age or weighs less than twenty pounds shall be restrained in a rear-facing child safety seat.

4.1.1.1.1.2. A child who is at least one year of age but younger than four years of age or who weighs at least twenty pounds but less than forty pounds shall be restrained in a forward-facing child safety seat.

4.1.1.1.1.3. A child who is at least four years of age but younger than six years of age or who weighs at least forty pounds but not more than sixty pounds shall be restrained in a child booster seat. The requirements of this paragraph shall not apply in any seating position where there is only a lap belt available and the child weighs more than forty pounds.

4.1.1.1.1.4. A child who is at least six years of age or weighs more than sixty pounds shall be restrained with the motor vehicle's safety belt adjusted and fastened around the child's body or in an appropriately fitting child booster seat in accordance with the instructions of the manufacturer of the safety belt or child booster seat.

4.1.1.2.1. **(Added)** Vehicle Safety Belts (to include all GOV vehicles, gators, mules, etc.). The term safety belts, as used herein, include both lap belts and shoulder harnesses or the combination of both and child safety seats or other restraints. Safety restraints installed by the manufacturer must be kept serviceable. When installed, all belts and restraints must be used. All such safety belts must be of a type and installed in a manner that has been approved by Federal Motor Vehicle Safety Standards. Vehicles manufactured after 1966 must have seat belts in the front. The vehicle operator shall be responsible for informing passengers of the safety belt requirement.

4.1.2.1. **(Added)** Radar Detection Devices. The use of radar or laser detection devices to indicate the presence of speed-recording instruments or to transmit simulated erroneous speeds is prohibited.

4.1.2.2. **(Added)** Barksdale Traffic Control Devices. The driver of any vehicle shall obey the instructions of official traffic control devices placed in accordance with the provisions of this supplement, unless otherwise directed by Security Forces.

4.1.2.3. **(Added)** No provisions of this supplement, for which official traffic control devices are required, shall be enforced against an alleged violator if, at the time and place of the alleged violation, an official device is not in proper position and sufficiently visible to be seen by an ordinarily observant and reasonable person.

4.1.2.4. **(Added)** Official traffic control devices may be erected directing specified traffic to use a designated lane or designate those lanes to be used by traffic moving in a particular direction, regardless of the center of the roadway, and drivers of vehicles shall obey the direction of those

devices. Traffic control devices may be installed prohibiting changing of lanes on sections of roadways. Vehicle operators shall obey direction of those devices.

4.1.2.5. **(Added)** Whenever official traffic control devices are placed in position, conforming to the requirements of this supplement, such devices shall be presumed to have been so placed by an official act or direction of lawful authority, unless contrary evidence exists.

4.1.2.6. **(Added)** No person shall place, maintain or display upon or in view of any roadway or parking lot any unauthorized sign, signal, marking or device which purports to be an imitation of an official traffic control device or signal.

4.1.2.7. **(Added)** No person shall, without lawful authority, attempt to alter, deface, injure, knock down or remove any official traffic control device, sign, signal or any inscription, shield or insignia.

4.1.2.8. **(Added)** One-Way Roadways. The installation traffic engineer and traffic committee may designate any roadway or specific lanes upon which vehicular traffic shall proceed in one direction at all times as one-way. Official traffic control devices shall indicate such roadways.

4.1.2.9. **(Added)** U-Turns. Negotiating U-turns is prohibited on all roadways unless directed to do so by Security Forces personnel.

4.1.2.10. **(Added)** Stop Signs. Drivers approaching a stop sign shall come to a complete stop at the marked stop line. At intersections where no stop line is in place, drivers will stop before entering the crosswalk on the near side of the intersection, or, if none, then at the point nearest the intersecting roadway before entering the intersection. After having stopped, proceed when clear.

4.1.2.11. **(Added)** Yield Signs. The driver of a vehicle approaching a yield sign shall slow down to a speed reasonable for the existing conditions, and if required for safety, stop at a clearly marked stop line. If no stop line is present, before entering the crosswalk at the near side of the intersection, or if no crosswalk is present, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

4.1.2.12. **(Added)** Having slowed or stopped in this manner, the driver shall yield the right of way to any pedestrian legally crossing the roadway on which he is driving, and to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard.

4.1.2.13. **(Added)** The driver of a vehicle about to enter a street from an alley, building, private road, driveway or parking lot shall stop and yield the right-of-way to all vehicles approaching on the primary roadway to be entered, regardless of signage.

4.1.2.14. **(Added)** The driver of a vehicle emerging from a driveway or building shall stop such vehicle immediately prior to driving on a sidewalk area extending across such driveway or building entrance. In the event there is no sidewalk area, the vehicle shall stop at the point nearest the street to be entered where the driver has a view of approaching traffic.

4.1.2.15. **(Added)** Alert (Klaxon) Lights: Alert lights on Barksdale AFB are used to signify an emergency response by alert aircrew to their assigned aircraft; therefore, alert lights are considered a traffic control device. Whenever alert lights are flashing, all non-emergency traffic (traveling from all directions) shall pull over and come to a complete stop until the alert lights stop flashing.

4.1.2.16. **(Added)** Vehicle headlights shall be used not later than 1/2 hour before official sunset and may be extinguished not earlier than 1/2 hour after sunrise.

4.1.2.17. **(Added)** Parking/clearance or auxiliary lights shall not be used instead of headlights, except when approaching the installation gates. Operators are forewarned it is unlawful to operate a vehicle at night without headlights while on base.

4.1.2.18. **(Added)** Vehicle headlights shall be used during periods of reduced visibility (rain, fog or smoke) or instances which may necessitate the continuous use of windshield wipers.

4.1.2.19. **(Added)** Upon the approach of an oncoming vehicle at night, an operator will dim high beams or auxiliary lights in sufficient time to prevent interference with the vision or vehicle control of the approaching driver. Distance should be within 500 feet approaching or 200 feet following another vehicle.

4.1.2.20. **(Added)** Emergency Vehicles. Marked Security Forces vehicles, ambulances, fire trucks, select staff cars and other vehicles operated by Security Forces or AFOSI agents utilizing emergency lights are considered to be authorized emergency vehicles. Civilian police, ambulance and fire vehicles are also recognized as emergency vehicles when on base and responding to an emergency.

4.1.2.21. **(Added)** Every authorized emergency vehicle operated on Barksdale AFB will be equipped with not less than one rotating/flashing emergency light. Ambulance, fire department, command and Security Forces vehicles should be equipped with red or blue emergency lights. Additionally, authorized emergency vehicles will be equipped with a siren, whistle or bell in addition to other authorized equipment or distinctive markings.

4.1.2.22. **(Added)** Security Forces and AFOSI agents operating unmarked vehicles require only an emergency light and an identifying marker, i.e., visor pull-down, magnetic signs, etc. Security Forces Investigators may use a marked patrol vehicle or an unmarked vehicle while wearing civilian clothes when necessary to perform official duties.

4.1.2.23. **(Added)** The driver of an authorized emergency vehicle, when responding to an enforcement call, may exercise the privileges set forth in this section, but is subject to the conditions herein stated. The driver of an authorized emergency vehicle, when responding to actual emergencies/calls, which involve imminent loss of life, serious injury or which may pose a serious threat to the security of base resources may:

4.1.2.23.1. **(Added)** Proceed past a red light, stop signal or stop sign only after slowing down to ensure it is safe to continue.

4.1.2.23.2. **(Added)** Not exceed the speed limit without due regard to existing road conditions and hazards, and not endanger life or property.

4.1.2.23.3. **(Added)** Disregard instructions regarding direction of travel and turning. This exception for the driver of an authorized emergency vehicle should apply only when the driver of such vehicle is using visual and audible signal.

4.1.2.23.4. **(Added)** NOT assume right-of-way based solely on the fact that emergency equipment (audio and visual signal) is in operation.

4.1.2.23.5. **(Added)** Not exceed posted speed limits or disregard traffic control devices when responding to a drill or exercise. Use of visual signals (light bars) is optional in these instances

and should only be used as necessary to complete the mission. Use of lights during exercises should be carefully controlled by the dispatching agency.

4.1.2.23.6. **(Added)** Use audible signals (sirens or horns) only in an actual response to a situation. Operators will be carefully screened to ensure only qualified personnel are permitted to operate emergency vehicles. All such operators should receive periodic safety briefings from their supervisors.

4.1.2.23.7. **(Added)** Not rely on the foregoing provisions to relieve the operator of an emergency vehicle from the duty to drive with due regard for the safety of all persons, nor shall the operator of an emergency vehicle rely on the foregoing provisions to protect him/her from the consequences of their disregard for the safety of others.

4.1.2.24. **(Added)** Fleeing or Attempting to Elude Security Forces. It is unlawful for the driver of a motor vehicle to willfully fail to bring the vehicle to a stop or otherwise attempt to elude a pursuing Security Forces vehicle that is displaying visual or audible signals.

4.1.2.25. **(Added)** Yielding to Emergency Responses. Upon immediate approach of an authorized emergency vehicle making use of an audible or visual signal, the driver of every vehicle shall yield the right-of-way and shall immediately drive to a position parallel, and as close as possible to the right hand edge or curb of the roadway, clear of any intersection and shall stop and remain in such position until the authorized emergency has passed, except when otherwise directed by Security Forces personnel.

4.1.2.26. **(Added)** Vehicle operators (other than for official business) shall not follow any emergency vehicles during response closer than 500 feet, or drive into or park a vehicle within a 300-foot radius where fire apparatus has stopped in response to a fire alarm.

4.1.2.27. **(Added)** Crosswalks will be placed at key locations on base roadways at the direction of the Traffic Safety Working Group.

4.1.2.28. **(Added)** Right of Way at Crosswalks. When traffic control devices are not in place or not in operation, the driver of a vehicle shall yield the right-of-way to pedestrians. No pedestrian shall suddenly leave the curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield. Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross a roadway, the driver of any vehicle approaching from the rear shall not overtake and pass such stopped vehicle. Both lanes of traffic must stop on one-way roadways.

4.1.2.29. **(Added)** Crossing at Other Than Crosswalks. Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

4.1.2.30. **(Added)** Drivers Responsibility to Exercise Due Caution and Care. Notwithstanding other provisions of this supplement, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon the roadway. Furthermore, drivers shall give warning by sounding the horn when necessary, and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person upon the roadway.

4.1.2.31. **(Added)** Pedestrians Upon Roadways. Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along or upon an adjacent roadway. Where sidewalks are

not provided, any pedestrian walking along and upon a roadway shall, when practicable, walk only on the left side of the road at its shoulder and facing traffic.

4.1.2.32. **(Added)** Pedestrians Upon Sidewalks. The driver of a vehicle emerging from or entering an alley, building, private road, driveway or parking lot shall yield the right of way to any pedestrian approaching on any sidewalk extending across such alley, building entrance, road or driveway.

4.1.2.33. **(Added)** Joggers and Runners. Except when otherwise directed during authorized sanctioned meets and sporting events, joggers and runners will comply with all rules pertaining to other pedestrians. Joggers and other runners will run facing traffic lanes to the greatest extent possible. Light colored/reflective clothing will be worn at night. The wearing of headsets while jogging in any area on base is prohibited with the exception of jogging tracks or lanes. Individuals are not authorized to jog, run or walk on base roadways between the hours of 0700 – 0800, 1100 – 1300 and 1600 – 1700. **Exception:** Persons may jog, run or walk on roadways in the housing areas, regardless of the time; however, persons are encouraged to use sidewalks and pathways when available. Squadron runs or any type of formation runs on the roadways of Barksdale AFB must be approved by 2 MSG/CC. However, it is highly encouraged squadrons use designated running paths.

4.1.2.34. **(Added)** Limitations on Backing. Vehicle operators shall not back a vehicle unless such movement can be made safely without interfering with other traffic, parked vehicles, buildings and/or fixtures.

4.1.2.35. **(Added)** Vehicle operators will back at a reasonable speed, so as not to endanger lives and property. GOVs will be backed using a spotter, when available.

4.1.2.36. **(Added)** Overcrowded or Overloaded Vehicles. No person shall drive a vehicle when it is overloaded, or when there is such a number of passengers in the front seat as to obstruct the driver's front or side view of the vehicle, or interfere with control of the vehicle driving mechanisms.

4.1.2.37. **(Added)** No passenger in a vehicle shall ride in any position that obstructs the driver’s view or interferes with the control of the vehicle.

4.1.2.38. **(Added)** Government Vehicles. No military or DoD civilian employee will be allowed to ride in the box/bed of a utility vehicle not intended for occupants, unless military necessity dictates otherwise. All cab positions with seat belts will be occupied before anyone is placed in the box/bed of the vehicle. The vehicle operator will ensure all occupants are properly seated and restraints are utilized, if available, prior to placing the vehicle in motion. The vehicle operator is always responsible for all aspects and safe conduct of the vehicle.

4.1.2.39. **(Added)** No driver will permit any passenger to ride on the side rails of trucks or any special purpose vehicle except on a permanently installed passenger seat. If necessary to ride in the box/bed of a privately owned or government truck, occupants will sit only on the floor (not on the wheel well) with their backs against the cab or the sides of bed (not against the tail gate) and will remain seated at all times while the vehicle is in motion. Personnel will not be permitted to ride in the utility bed of a vehicle with unsecured cargo that could cause insecure footing or injury due to movement. With the exception of emergency response personnel, all seats will be filled in the cab of the truck before allowing personnel to sit in the truck bed. No person under the age of 12 shall be permitted to ride in the open bed of a truck.

4.1.2.40. **(Added)** Careless Operation. Careless operation may be charged under La. R.S. 32:58 as a violation of UCMJ Article 134(3) or Title 18, U.S.C. § 13, Assimilative Crimes Act. Any person operating a motor vehicle on the public roads of this state shall drive in a careful and prudent manner, so as not to endanger the life, limb or property of any person. Failure to drive in such a manner shall constitute careless operation. **Note:** La. R.S. 32:58 describes a standard of care. Careless operation occurs whenever a driver fails to exercise the same ordinary care that a reasonably prudent driver would exercise under similar circumstances.

4.1.2.41. **(Added)** Reckless Driving. Any Active Duty member who operates a vehicle in a reckless or wanton manner may be charged under UCMJ Article 111. Civilians may be charged under La. R.S. 32:414.2

4.1.2.41.1. **(Added)** Driving is "reckless" when it exhibits a disregard of foreseeable consequences to others from the act or omission involved. Reckless driving may be determined from a combination of factors. These factors can include: excessive speed, erratic operation, traffic violations or omission of acts that risk causing serious injury, death or property damage. **Note:** Reckless driving is more egregious than careless driving.

4.1.2.41.2. **(Added)** Driving is wanton when it exhibits a disregard of probable consequences to others from the act of omission involved. "Wanton" includes "reckless" but describes a more aggravated offense. Driving that willfully endangers the rights or safety of others is also charged as wanton driving.

4.1.2.42. **(Added)** Projections on Vehicles. Vehicles carrying objects that project more than 4 feet from the rear of such vehicles during the period when lights are required shall carry a red light at or near the rear of the projecting object. At other times a red flag or cloth, not less than 12 inches square, shall be displayed at the end of the projection. In either case, the marker must be visible for at least 500 feet.

4.1.2.43. **(Added)** Modification of exhaust systems. No person shall modify the exhaust system of a motor vehicle in a manner which will amplify or increase the noise emitted by the motor of such vehicle, above that emitted by the muffler originally installed on the vehicle, and the original muffler shall comply with all of the requirements of La. R.S. 32:352.

4.1.2.44. **(Added)** Towing Vehicles. When one POV is towed by another, a towing bar, heavy chain or a commercially manufactured tow rope must be used. Vehicles will be separated by not more than 15 feet. While in motion, a white, red or orange flag will be affixed to the towline in such a manner that it is clearly visible to other users of the roadway.

4.1.2.45. **(Added)** Non-Motorized Transportation Devices. Operators of these devices, including but not limited to skateboards, kick-scooters, roller-blades and roller-skates, are prohibited on installation roadways except for incidental road access associated with pedestrians and will comply with all pedestrian-related traffic laws. Operators of these devices, unless determined to be a hazard to pedestrians, will use designated pedestrian walkways and paths. Commanders may authorize the use of certain types of these devices in the traffic environment, by inclusion into the traffic safety code. An approved helmet is required to be worn on AF installations. Additions to minimum required PPE (such as knee pads, wrist guards, elbow pads, etc.) will be determined by commander endorsed RM evaluation and included in the installation traffic safety code.

4.1.3.1. **(Added)** Operation of Go-Carts. Go-carts will not be operated on the streets of Barksdale AFB unless licensed as a motor vehicle.

4.1.3.2. **(Added)** Operation of Golf Carts. Unlicensed golf carts may only be operated on the roadways when going directly across Barksdale Boulevard West or East to each half of the golf course. Golf carts will follow most direct route and operators will obey all applicable traffic laws set forth in this supplement. **Exception:** Golf carts used in support of mission-related activities will be used and driven as the mission dictates.

4.1.3.3. **(Added)** Operation of Privately Owned All-Terrain Vehicles (ATV). Privately Owned ATVs will not be operated on the streets of the base unless properly licensed as a motor vehicle or motorcycle. No tracks, trails or recreational areas exist on Barksdale AFB for the operation of Privately Owned ATVs. ATV use for hunting will be coordinated through 2 Civil Engineering Squadron/Natural Resources (456-3353), all other recreational ATV use is strictly prohibited.

4.1.3.4. **(Added)** Operation of Low-Speed Vehicles (LSV), Government Owned Recreational Motor Vehicles (RMV) and Government Owned All-Terrain Vehicles. In order to meet federal and state laws, members must possess a valid state and government issued driver's license to operate these vehicles. All organizations utilizing these types of vehicles will have mandatory training and ensure documentation. A vehicle-specific lesson plan must be developed describing the proper handling and maintenance of that vehicle. LSV/RMVs will only be driven in areas with posted speed limits not to exceed more than 35 MPH, unless crossing over an intersection. ATVs will not be operated on paved roadways unless crossing an intersection or when properly licensed as a motor vehicle or motorcycle.

4.1.3.5. **(Added)** Operation of Bicycles and Play Vehicles. Every person riding a bicycle upon any roadway on Barksdale AFB shall be granted all the rights and be subject to all the rules applicable to the driver of a motor vehicle. A person riding a bicycle shall not ride other than upon or astride an attached regular seat. No bicycle shall be used to carry more persons at one time than the number for which it was designed and equipped. Bicycles are prohibited on sidewalks. **Exception**: Children in the housing area with training wheels on their bicycles may ride on sidewalks.

4.1.3.6. **(Added)** Clinging to Vehicles. Persons riding a bicycle, skateboard, coaster, roller skates, sled or toy vehicle shall not hold on to any moving vehicle.

4.1.3.7. **(Added)** Riding on Roadways and Bicycle Paths. Bicycle operators shall ride as near to the right of roadways as practical, exercising due care when passing a standing vehicle or one proceeding in the same direction. Bicycle riders shall ride in single file or in an offset echelon not to exceed two bicycles wide. Bicycle riders shall yield the right of way to joggers/runners and to pedestrians in marked pedestrian crossings or clearly defined intersections. **Exception:** Bicycle riders are not authorized on Range Road from the end of Lindbergh to Crawfish Bridge; riders must use bike/jog path. The riding of roller skates, roller blades, scooters, skateboards and toy vehicles is prohibited on any street or roadway except in base housing areas. The wearing of a helmet is required when operating any of the above mentioned items.

4.1.3.8. **(Added)** Recreational Equipment. Persons riding bicycles on Barksdale AFB shall wear bicycle helmets approved by American National Standards Institute or the Snell Memorial Foundation.

4.1.3.9. **(Added)** Workers operating bicycles in areas that require the use of hard hats for protection from falling and flying objects are allowed to use those helmets instead of approved bicycle helmets. **Exception:** Workers operating bicycles in industrial/flightline areas designated no-hat areas need not wear the bicycle helmet; operators of three-wheeled bicycles are not required to wear the bicycle helmet.

4.1.3.10. **(Added)** Bicycles operated during hours of darkness or reduced visibility will be equipped with an operating white light on the front visible from a distance of at least 500 feet to the front**,** a white reflector on each side facing outward at a right angle to the bicycle frame visible from a distance of 300 feet, and a red reflector on the rear visible from all directions within 300 feet to the rear when directly in front of low headlamp beams on a motor vehicle. A lamp specifically designed for a bicycle emitting a light visible from a distance of 300 feet to the rear may be used in addition to the red reflector.

4.1.3.11. **(Added)** All bicycle riders on streets or roadways will wear a highly visible outer garment containing retro-reflective material during hours of darkness or reduced visibility. The outer upper garment will be clearly visible and not covered.

4.1.3.12. **(Added)** Wearing of a headset or earphones while operating a bicycle is prohibited.

4.1.3.13. **(Added)** PEAKS PIKE: This recreational path parallels Range Rd beginning at the intersection of Range Rd and Lindbergh Rd and extends into east side housing. Motorized vehicles, i.e., ATVs, motorcycles, golf carts and lawn mowers are not authorized on this path. This path will be for walking, jogging, roller-blading and recreational biking only. Recreational bicyclists shall use extreme caution when passing other recreational users on this path. Speed bicyclists must use this path in lieu of Range Rd from Barksdale Global Power Museum to the bridge prior to Crawfish Rd. Speed bicyclists must utilize designated roadways in all other areas.

4.2.1.1. **(Added)** A minor vehicle accident is any accident in which there are no fatalities/injuries and vehicle/property damage is $10,000 or less. A major vehicle accident is any accident involving a fatality, injury, property damage exceeding $10,000, an accident that is difficult to explain, an accident resulting from another serious crime, i.e., DWI, DUI, or an accident that renders a vehicle in-operative/unmovable.

4.2.1.2. **(Added)** Security Forces, Wing Safety, Fire Department, Civil Engineers and Alert Photographer will respond to complete all on base major traffic accident investigations as needed. Security Forces and Alert Photographer will respond to any minor vehicle accident involving damage to government property. Security Forces personnel may respond as available to all other minor traffic accidents.

4.2.1.3. **(Added)** The driver of a vehicle in an accident resulting in the injury or death of any person, or damage to a vehicle which is driven or attended by another person shall give his or her name, rank, address, driver's license number, the registration number of the vehicle being driven, his/her insurance company name and policy number and the insurance company phone number to the person struck or the driver or occupant of the vehicle with which it collided, or Security Forces personnel, and may render assistance to any person injured in the accident until released by medical personnel.

4.2.1.4. **(Added)** The driver of a government vehicle involved in an off-base accident will immediately report the incident to Base Defense Operations Center, local civil law enforcement agency and to his/her unit's vehicle control officer per applicable guidance.

4.2.1.5. **(Added)** A vehicle involved in any major accident will not be moved until Security Forces personnel give permission. Prior to the arrival of SF patrols, personnel at a major accident scene must take reasonable steps to stop or divert traffic so as to avoid further accidents.

4.2.1.6. **(Added)** POVs may be driven from the scene of minor accidents if the owner/operator does not need SF response. The operator of a vehicle involved in a minor accident resulting only in damage to private property (not to include an unattended vehicle) and where the vehicle can normally and safely be driven away from the scene, shall notify Base Defense Operations Center immediately.

4.2.1.7. **(Added)** Duty Upon Striking Unattended Vehicle. The driver of a vehicle that collides with an unattended vehicle will immediately stop and notify Base Defense Operations Center at 456-2551. In areas where there are no telephones, a note will be left on the unattended vehicle notifying the operator or owner of the accident, the identity of the person leaving the note, and instructions to call Base Defense Operations Center. The driver will then proceed directly to Base Defense Operations Center.

4.3.1.1. **(Added)** Vehicle accident reports are filed at 2 SFS Reports and Analysis section, Bldg. 6000, 1200 Range Road, Duty Phone 456-4270. Allow 7–10 duty days for processing or requesting a copy of accident reports and other information pertaining to vehicle accidents. Unit commanders will ensure their personnel retrieve copies of civilian accident reports when a GOV is involved in an accident off-base.

4.4.1.1. **(Added)** AFGSC Reserved Parking Policy. The following leadership positions are authorized reserved parking for privately owned vehicles (POVs) at their primary work location with approval from the Base Traffic Safety Working Group:

4.4.1.1.1. **(Added)** All General Officers, Senior Executive Service civilians and other General/Flag Officer equivalent civilian personnel.

4.4.1.1.2. **(Added)** MAJCOM/NAF Leadership.

4.4.1.1.3. **(Added)** Commander, Vice Commander, Executive Officers and Command Chief Master Sergeant.

4.4.1.1.4. **(Added)** Director of Staff and Staff Agency Directors (or Chiefs.)

4.4.1.1.5. **(Added)** Directorate Directors, Deputy Directors and Executive Officer.

4.4.1.1.6. **(Added)** Division Chiefs.

4.4.1.1.7. **(Added)** 25% of funded Chief Master Sergeant positions.

4.4.1.1.8. **(Added)** Wing/Base Leadership.

4.4.1.1.9. **(Added)** Wing Commander, Vice Wing Commander, Executive Officer, Command Chief Master Sergeant.

4.4.1.1.10. **(Added)** Wing Director of Staff.

4.4.1.1.11. **(Added)** Group Commander, Deputy Group Commander and Group Superintendent.

4.4.1.1.12. **(Added)** Squadron Commander, Deputy Squadron Commander (or Director of Operations), Squadron Superintendent and Squadron First Sergeant (AFSC 8F000 *only.)*

4.4.1.1.13. **(Added)** Other AF or DoD organizations.

4.4.1.1.14. **(Added)** Reserved parking shall follow the same guidelines as paragraphs 2.a to 2.c for equivalent level AF or DoD organizations.

4.4.1.1.15. **(Added)** Other organizations, as a minimum, are authorized:

4.4.1.1.16. **(Added)** Commander (Chief/Director/etc.) if Maj (O-4)/GS-13 or higher.

4.4.1.1.17. **(Added)** Senior Enlisted Manager if CMSgt (E-9.)

4.4.1.1.18. **(Added)** First Sergeant if AFSC 8F000 (or other service equivalent), not additional duty or appointed.

4.4.1.1.19. **(Added)** Other authorized reserved parking.

4.4.1.1.20. **(Added)** Government Owned Vehicles (GOVs). Location of GOV reserved parking should be balanced between unit mission requirements and facility occupants/visitors access to the facility. GOV parking shall be for any GOV. **Exception:** If the GOV is assigned to an individual that is authorized POV reserved parking, then the GOV reserved parking may be designated as such.

4.4.1.1.21. **(Added)** Handicap Parking. Handicap parking shall be in accordance the Uniform Federal Accessibility standards as mandated in the Architectural Barriers Act guidelines.

4.4.1.1.22. **(Added)** Visitor Parking. Visitor parking should be limited to facilities with a customer service function and may impose a time restriction (i.e. 15 minutes, 1 hour, etc.). Installations will need to balance the requirement for visitor parking with the parking requirements of the facility as whole, but as a general rule no more than 10% of the available spaces should be set aside as visitor parking.

4.4.1.1.23. **(Added)** Car Pools. Installations should provide preferred parking for carpools or vanpools for 5% of the total parking spaces serving the building occupants.

4.4.1.1.24. **(Added)** Motorcycles. The installation commander may designate reserved parking for motorcycles.

4.4.1.1.25. **(Added)** Clubs and Business Facilities. Clubs and business facilities (such as AAFES, Commissary or Credit Unions) may designate reserved parking for GO/SES, Col/GS-15, CMSgt, Award Winners and expectant mothers. Installations will need to balance the requirement for reserved parking with the parking requirements of the facility as whole, but as a general rule no more than 10% of the available spaces should be set aside as reserved parking.

4.4.1.1.26. **(Added)** Distinguished Visitors. Distinguished Visitors parking are temporary only and shall only be used when required.

4.4.1.1.27. **(Added)** Long Term Parking. Located on Dunn Blvd. across from Fire Station 2 and 2 Civil Engineering Squadron Readiness complex.

4.4.1.1.28. **(Added)** Entry-controlled Parking. Entry-controlled parking areas shall follow this policy.

4.4.1.1.29. **(Added)** Medical Facility. Provide accessible parking facilities for medical facilities as required by paragraphs F208.2.1, F208.2.2, F209.3, and complying with Section 502 and 503 of the UFC 4-510-01.

4.4.1.1.30. **(Added)** Non-authorized reserved parking. Below are examples of reserved parking that is not authorized:

4.4.1.1.31. **(Added)** Flight/section chiefs.

4.4.1.1.32. **(Added)** Permanent DV parking.

4.4.1.1.33. **(Added)** Unit/function only parking - i.e. "Bowling Alley Only", "Civil Engineering Squadron Only."

4.4.1.1.34. **(Added)** Reserved Parking Sign Appearance. Installation commanders are responsible for a consistent signage standard that follows the guidance set forth in UFC 3-120-01, Air Force Sign Standard and meets the unique requirements of each base's geographical location, and historical guidelines. Installations will decide the best location to display reserved parking. Reserved parking can display office symbols or a number system; names of individuals are not allowed.

4.4.1.1.35. **(Added)** Authorized Parking. All authorized parking on Barksdale will be identified with white marking stripes or brackets. Any vehicle parked shall be within the lines/brackets painted for that purpose. Parking in unmarked areas is unauthorized and subject to citation. Vehicles will not park in areas designated for motorcycles. Motorcycles will be parked in designated motorcycle parking areas where available. Where no designated motorcycle parking is available, motorcycles shall be allowed to use full parking spaces as would a normal full-sized vehicle.

4.4.1.1.36. **(Added)** Parking Policies. Penalties for multiple parking violations are as follows: Three (3) parking citations within 90 days results in a 3-month suspension of on-base driving privileges; four (4) parking citations within 120 days results in a 4-month suspension; five (5) parking citations within 180 days results in a 6-month suspension.

4.4.1.1.37. **(Added)** Seeded Area. No person shall operate or park a vehicle on any seeded area unless specifically directed by Security Forces personnel or traffic control devices.

4.4.1.1.38. **(Added)** Housing. Parking of vehicles on roadways and streets within the housing area is permitted except when otherwise posted. Parking in front of base quarters is authorized for family members and/or guests of housing residents. Housing residents are permitted to park against the flow of traffic provided vehicle is not obstructing traffic flow. **Exception:** Parking on one side of roadway only on Levitow St in Heritage Heights. No vehicle shall park in housing to gain access to business areas adjacent to housing.

4.4.1.1.39. **(Added)** Facing Traffic Flow. No person shall stop, stand, or park a vehicle facing the flow of traffic. Vehicles parked at an angle within parking lots will not be parked facing the flow of traffic. **Exception:** Emergency Response Vehicles may be backed into parking slots to expedite dispatch, and housing residents may park as outlined above in Para 4.8.1.1.4.

4.4.1.1.40. **(Added)** Driveways and Sidewalks. When parked in a driveway, no vehicle shall block any portion of a sidewalk. **Exception:** Heritage Heights and Liberty Heights housing residents may park private vehicle(s) in their assigned driveway. Vehicle(s) will not be cited if blocking a portion of the sidewalk if the vehicles do not obstruct traffic flow.

4.4.1.1.41. **(Added)** Recreational and Special Purpose Vehicles. Recreational and special purpose vehicles to include race/stock cars will not be parked on any street unless the vehicle is attached to a towing vehicle. These vehicles may be parked in either the quarters' driveway or the base recreational vehicle storage lot.

4.4.1.1.42. **(Added)** Curb Parking. Vehicles stopped or parked on a roadway where there is an adjacent curb shall not be farther than 12 inches from the curb.

4.4.1.1.43. **(Added)** Roadway Shoulders. Unless otherwise exempted in this supplement, no vehicle will be parked on the shoulder of any roadway.

4.4.1.1.44. **(Added)** Private Trailers. Private trailers will not be parked in parking lots designed for mass vehicle parking unless authorized by Security Forces personnel or for the purpose of loading or unloading equipment.

4.4.1.1.45. **(Added)** Prescribed Distances. No vehicle will be parked closer than 15 feet in any direction to a fire hydrant. Parking is prohibited within 25 feet of any intersection (roadway or parking lot).

4.4.1.1.46. **(Added)** Buildings. No vehicle will be parked at any building, in front of overhead doors, or in any other area which would block or delay emergency response equipment.

4.4.1.1.47. **(Added)** Fuel Servicing Vehicles. Fuel servicing vehicles must be parked at least 25 feet apart to provide access for fire control purposes. Fuel servicing vehicles will not be parked within 100 feet of any structure or aircraft, except for refueling purposes.

4.4.1.1.48. **(Added)** Unregistered Vehicles. Persons who occupy base housing may park their unregistered vehicles in their respective driveways. Vehicles will not present an unsightly appearance, e.g., have flat tires, be on blocks, and have missing fenders, doors, windows, or other major components. It is the responsibility of the base housing office to notify residents of this provision.

4.4.1.1.49. **(Added)** Reserved Parking. The base Traffic Safety Working Group (TSWG) is the focal point for base parking plans. Submit all reserved or special parking authorization requests in writing through 2 Civil Engineering Squadron/CEOE, 2 BW/SEG and 2 SFS/S3P for coordination. All agencies then forward through TSWG to 2 MSG/CC for approval.

4.4.1.1.50. **(Added)** Two-wheeled Vehicles. Space will be provided for the preferential parking of these vehicles with special considerations for the safety and security of the vehicles. Where standard parking spaces are used, they will be marked IAW the system for other reserved spaces and the designation "Motorcycle Parking."

4.4.1.1.51. **(Added)** Vehicle Maintenance. Major maintenance, such as engine overhaul, is prohibited in the housing area and dormitory parking lots. This does not preclude emergency repairs such as changing a flat tire. Operators of vehicles abandoned or left inoperative in any location other than a designated area shall immediately notify Security Forces and will arrange to have the vehicle removed as soon as possible. Vehicles may be removed IAW para 6.2.3.

4.4.1.1.52. **(Added)** Unattended Motor Vehicle. It is unlawful for any person driving or in control of a motor vehicle to permit the vehicle to stand unattended on a roadway, in a parking lot, or driveway without first stopping the engine and removing the key. When standing upon any grade, turn the front wheels to the curb or side of the roadway. **Exception:** Remote start

vehicles can be started while unattended in a parking space, home curbside parking or driveway; however, vehicle must be locked and promptly attended.

4.4.1.1.53. **(Added)** Do not leave a motor vehicle unattended in a restricted or controlled area so that its presence is a safety hazard or has an adverse impact on mission activities.

4.4.1.1.54. **(Added)** Do not leave an abandoned or disabled motor vehicle on the klaxon route, or in an area likely to cause traffic accidents. **Note:** 2 LRS will tow vehicles covered in this paragraph to the nearest safe location.

4.4.1.1.55. **(Added)** Do not leave a motor vehicle within 15 feet of a fire hydrant or an entrance/exit driveway to fire, ambulance, crash or security forces facility.

4.4.3.3. **(Added)** Unit commanders or civilian equivalents may assign one primary and alternate E-5/civilian equivalent or above as "Parking Warden".

4.4.3.4. **(Added)** Wardens will be trained by 2 SFS/S3P Police Services after the appointment letter has been submitted. Wardens cannot submit tickets without this training. Monitors are only allowed to police their assigned areas (specify assigned area in appointment letter.

4.4.3.5. **(Added)** Warden will turn all completed parking tickets in to S3P/Police Services for verification and accuracy.

4.5.1. **(Added)** Memorandum of Understandings are established to allow the exchange of information between 2 SFS and local law enforcement agencies. This Memorandum of Understanding is filed and maintained by 2 SFS/S5X, Plans & Programs.

Chapter 5

DRIVING RECORDS AND THE TRAFFIC POINT SYSTEM

Table 5.1. 1. (Added) Point Assessment for Moving Violations.

Violation	Points Assessed
(Added) Gate runner; failure to follow directions of an access controller.	3
(Added) Failure to use a hands free device.	3
(Added) All other moving violations.	3

5.2.2.1. **(Added)** Barksdale's Speed Guidance. No person shall operate a vehicle at speeds greater than reasonable and prudent under existing conditions and having due regard for the actual and potential hazards which exists. In every event, speed shall be controlled as necessary to avoid colliding with any person, vehicle or other conveyance entering the street. Where no special hazards exists requiring lower speeds, no vehicle shall exceed the following speed limits:

5.2.2.1.1. **(Added)** Twenty-five (25) miles per hour on base, unless otherwise posted.

5.2.2.1.2. **(Added)** Fifteen (15) miles per hour on all streets within the base housing areas.

5.2.2.1.3. **(Added)** Ten (10) miles per hour when backing and inside any parking lots unless otherwise posted.

5.2.2.2. **(Added)** Exhibition of Speed. No person shall drive a vehicle in such a manner in which exhibition of speed or acceleration causes the vehicle to break traction, squawk or squeal tires. Additionally, no person shall move a vehicle that has stopped, is standing or parked unless such movement can be made with reasonable safety without breaking traction.

5.2.2.3. **(Added)** Open Container Violations. Operators and passengers of motor vehicles are prohibited from having open containers of alcoholic beverages in their ready possession. "Open container" means any bottle, can or other receptacle containing any alcoholic beverage that has been opened, or the seal broken, or the contents of which have been partially removed. "Ready possession" means in the passenger compartment of the vehicle or accessible to the driver or passenger(s) from the passenger compartment. Open alcoholic beverage containers found in the ready possession of an operator in a motor vehicle will be seized and a traffic ticket issued to the operator of the motor vehicle. If an open alcoholic beverage container is in the ready possession of a passenger of a motor vehicle, it will be seized and that passenger will also be issued a traffic ticket. These citations will be considered a non-moving violation. A DD Form 1408, Armed Forces Traffic Ticket, will be issued for open container violations.

5.2.2.4. **(Added)** Unless otherwise mandated in AFI 31-116 Table 5.1, anyone on Barksdale AFB who accumulates 12 traffic points on his/her driving record within 1 year will receive a minimum 1-year driving revocation. The violator must be notified in writing of the revocation. **Note:** 2 SFS/S5R, Reports and Analysis section will provide the letter.

5.2.2.5. **(Added)** Advisory letters are sent through the unit commander or supervisor of any person who has acquired six traffic points within a six-month period. **Note**: 2 SFS/S5R, Reports and Analysis section will provide the letter.

5.3.1. **(Added)** Civilian visitors with no military affiliation will be informed at the time they are cited that they will receive additional correspondence concerning the citation via US mail. The citing SF member must ensure the citation reflects a complete mailing address for the violator, including zip code. Sponsor's name, rank and organization must be reflected on tickets issued to dependents and visiting civilians.

5.3.2. **(Added)** The white and yellow copy will be processed and filed in the Reports and Analysis office. Reports and Analysis will send the total points the violator has to the First Sergeant.

5.3.3. **(Added)** Persons cited on DD Form 1408 who believe they have a basis for appeal may do so in writing within 5 duty days to the Defense Force Commander through Reports and Analysis. The violator's letter must be endorsed by the First Sergeant and commander. The purpose of this endorsement is to ensure commander-level involvement. The commander must add comments supporting the violator's guilt or innocence. Reports and Analysis will prepare the appeal package, which will include OF Form 41, a staff summary sheet, violator's rebuttal letter, the violator's First Sergeant and commander's endorsements copy of the ticket, and print out of individual's history file. The completed package is routed through the Superintendent Plans and Programs, Air Provost (AP), Defense Force Commander Secretary, Defense Force Commander, Staff Judge Advocate and 2 MSG/CC for final decision. Once a decision has been made, Reports and Analysis will notify the violator of the final outcome of his/her ticket rebuttal.

5.3.4. **(Added)** The Defense Force Commander and the Patrolman who issued the citation are the only personnel authorized to void traffic citations (DD Form 1408 only) deemed to lack legal validity or written in error. A voided citation will not be appended to the individual's driving record. The concerned party will be notified by 2 SFS Reports and Analysis section of the decision to void the citation.

5.3.5. **(Added)** 2 SFS Reports and Analysis section will ensure driving records of military members and family members are transferred to gaining commanders of the military members. 2 SFS/SFAI will provide PCS orders of military members to Reports and Analysis section to assist in the procedure.

Chapter 6

IMPOUNDING PRIVATELY OWNED VEHICLES

6.2.1. **(Added)** 2 SFS Investigations section is responsible for the impoundment of motor vehicles and other such items to be stored in a designated area, and will control entry to the area.

6.2.2. **(Added)** Towing of vehicles. Vehicles may be towed by a private tow company or 2d Logistics Readiness Squadron. The vehicle may be towed to the nearest safe location.

6.2.3. **(Added)** Security Forces members may cite a "suspected abandoned" vehicle with a DD Form 1408, Armed Forces Traffic Ticket, allowing 72 hours for the owner/operator to take corrective actions. When the owner/operator has not taken corrective actions or had the vehicle removed, SF members will implement procedures for impoundment as outlined in AFI 31-218(I).

6.2.4. **(Added)** Vehicles may be towed by a private towing service, at the request of Security Forces, at the owner's expense.

6.2.5. **(Added)** SF patrolman, SF Investigator or on duty SF flight leadership must coordinate with 2 SFS Analysis and Reports for proper report number(s) needed to complete DD Form(s) 2506/2507 as needed during impoundment procedures.

6.2.6. **(Added)** When requested by civil authorities to impound an on-base vehicle for reasons not related to military issues, the request will be staffed through the Staff Judge Advocate and 2 SFS/CC. Upon approval, 2 SFS Investigations section will impound the vehicle for not more than 30 days unless a written waiver is obtained from 2 MSG/CC or his designee.

6.3.1. **(Added)** Once an impounded vehicle becomes the lawful possession of the Air Force, 2 SFS/S2 Investigations section will release the vehicle to the contracted towing company. The disposition of the towed vehicle shall comply with the requirements of La. R.S 32:384.

6.3.2. **(Added)** Any vehicle operator on the installation or attempting to enter the installation and involved in a criminal activity is subject to prosecution. 2 SFS/CC, Operations Officer or Superintendent will be contacted to determine if seizure and/impoundment is warranted.

TY W. NEUMAN, Colonel, USAF
Commander, 2d Bomb Wing
