SUMMARY OF CHANGES

This supplement updates organizations, office symbols and renames numerous paragraphs titles and adds responsibilities for the 2nd Bomb Wing and its units. This publication establishes the requirements in the event of a single or mass casualty to Barksdale AFB and the surrounding community. It adds unit responsibility to those units that are not addressed in the DAFI 36-3002, *Casualty Services*.

1.3.8. Unit Commander and ARC Equivalent Responsibilities. Will:

1.3.8.6. (Added) Includes Unit Commander/Director and Geographically Separated Unit (GSU) Commanders.

1.3.8.7. (Added) Must ensure the 2nd Bomb Wing Command Post (2 BW/CP) is notified of all casualties including Very Seriously Ill or Injured (VSI) and Seriously Ill or Injured (SI) occurring within their unit.

1.3.8.8. (Added) Will ensure no unauthorized notification to the next of kin (NOK) is made by unit members and co-workers and provide all available information to the Casualty Assistance Representative (CAR). Under no circumstances will unit commanders make casualty notifications without prior guidance and instruction from the HQ AFPC Casualty Services Branch via the Casualty Assistance Office. Commanders and unit leadership should brief their personnel on the proper channels of notification in the event they become aware of an active-duty casualty/fatality. If available, the Commander will perform casualty notification for members assigned to their unit. If unavailable, the Commander will assign an appropriate O-4 or above to complete the casualty notification.

1.3.8.9. (Added) Some of our casualty notifications will be the result of active-duty deaths of members not assigned to Barksdale AFB units. In order to rapidly and effectively execute these notifications, each unit will maintain an on-call list of eligible Notification Officers. This does not replace the Commander's obligation to conduct his/her own unit's notifications in active-duty deaths. When a notification team requirement is communicated, the CAR will select the most appropriate on-call Officer and proceed to assemble the notification team for dispatch.

1.3.8.10. (Added) Instead of the above on-call list, GSUs will submit AF Form 1075, *Casualty Personnel Roster,* in accordance with DAFI 36-3002, *Casualty Services,* para 3.4.2.1., to indicate all officers performing casualty duties.

1.3.8.11. (Added) Will ensure unit personnel complete their Record of Emergency Data (RED) upon arrival of first duty station and ensure unit personnel verify and resubmit/confirm RED annually or as life event changes occur (e.g. marriages, divorces, births, deaths, address changes, etc.).

1.3.8.12. (Added) Will complete Casualty Notification Officer (CNO) training in accordance with DAFI 36-3002, *Casualty Services*.

1.3.13. Individual Member's Responsibilities.

1.3.13.1. (Added) Effective casualty services require timely reporting. If you are unable to reach the CAR, contact the Command Post at (318) 456-2151. When available, the following information should be provided: name, grade, and DoD identification number of the casualty; date, time, and location where casualty occurred; circumstances involving incident; source of information (eyewitnesses, family members, friends, etc.); name, location, and a way of contacting the person making the report.

1.3.13.2. (Added) All newly assigned personnel are required annually to update their virtual RED on the virtual Military Personnel Flight website. Personnel are also encouraged to update their virtual RED upon life event changes (e.g. marriages, divorces, births, deaths, address changes, etc.). Those that do not have system access are required to complete a hard copy DD Form 93, *Record of Emergency Data,* and provide it to the Customer Service Section of the Military Personnel Section.
