MEMORANDUM FOR DISTRIBUTION FLDCOMs/C-FLDCOMs/MAJCOMs/FOAs/DRUs

SUBJECT: Space Force Guidance Memorandum to SPFI36-2903, *Dress and Personal Appearance of Military Personnel*

By Order of the Secretary of the Air Force, this Guidance Memorandum immediately implements changes to SPFI 36-2903*, Dress and Personal Appearance of Military Personnel*. Compliance with this memorandum is mandatory. To the extent its directions are inconsistent with other USSF publications, the information herein prevails, in accordance with Department of the Air Force Instruction (DAFI) 90-160, *Publications and Forms Management*.

This guidance applies exclusively to United States Space Force (USSF) personnel. All other standards outlined in SPFI 36-2903 remain in effect, as noted in the introductory paragraph. This update provides detailed instructions on USSF service dress uniform requirements, adds illustrations, establishes a mandatory wear date for physical training gear, clarifies policies for Boonie Cap wear and female hair standards, incorporates updates to the semi-formal uniform, mission tabs, and badges, and adds policy guidance on the use of artificial-intelligence-enabled glasses, headgear, and rank insignia. It also introduces changes to Space Force Honor Guard uniform items. Although this update addresses USSF service dress requirements, a mandatory wear date for that uniform has not yet been established.

Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System.

This memorandum becomes void after one year has elapsed from the date of this memorandum, or upon publication of an interim change (IC) or rewrite of the affected publication, whichever is earlier**.**

Failure to obey provisions within this publication may constitute a violation of Article 92(1), Uniform Code of Military Justice (UCMJ).

When to Wear the Space Force Uniform.

(Added) 1.2.10. Effective 15 January 2026, all personnel transferring into the United States Space Force (USSF) from other military services are required to purchase the USSF service dress uniform upon arrival at their new duty location if they do not already have the modified United States Air Force (USAF) service dress uniform. This replaces the previous requirement to obtain the modified USAF service dress uniform. Compliance with this directive is contingent upon the availability of the USSF uniform at the member's local Military Clothing Sales (MCS) location.

Acquiring Uniform Items.

(Added) 1.5.4. A mandatory wear date for the USSF service dress uniform will be established once the uniform is widely available to all Guardians and full sustainment levels are achieved. Guardians will be provided a minimum of 12 months' advance notice prior to the mandatory wear date to ensure adequate time for procurement and transition. Until that date is reached, purchase and wear of the USSF service dress uniform will remain optional. In the interim, Guardians are authorized to continue wearing the modified USAF service dress uniform.

Roles and Responsibilities.

(Changed) **2.8. Enterprise Integration (SF/DSI). OPR for uniform development, design, and wear testing.**

Grooming and Appearance Standards

Hair of short to mid-lengths must present a symmetric (around the axis of the head) or tapered appearance when viewed from all angles. Hair will end above the bottom edge of collar and will not extend below an invisible line drawn parallel to the ground, both front to back and side-to-side unless pulled back and secured or worn in an authorized ponytail or equivalent or long braid(s). When hair is pulled back and secured behind the head (will not be gathered at the crown or worn on the top of the head), the total width of the gathered hair will not extend beyond the width of the head. Hair will not exceed 6-inches in bulk or volume and must allow for proper wear of headgear. For mid-to-long hair one or two braids or a single ponytail or equivalent may be worn down the member's back with length not extending below a horizontal line running between the top of each sleeve inseam at the under arm through the shoulder blades. The braid(s), ponytail or equivalent shall extend down the member's back and cannot be worn over the shoulder or pulled in front of the body. Bangs, or side-swiped hair, may touch eyebrows but will not touch or cover eyes. Hair may cover one or both ears. When in doubt, assess the correct length of hair with the Guardian standing in the position of attention. See Figure 3.8., Figure

3.10, Figure 3.11, and Figure 3.15. for examples of female hair standards. Exception: While wearing the PTG, long hair will be secured but may have loose ends and may extend below a horizontal line running between the top of each sleeve inseam at the under arm through the shoulder blades.

GENERAL INFORMATION

1.1. Basic Philosophy.

1.1.1. The Space Force philosophy is maintaining a professional military appearance through a standardized and distinctive uniform; pride in personal appearance, and maintaining a standard of neatness, cleanliness, safety, uniformity, and military image. These five elements of the Space Force uniform philosophy, the views of Guardians, the American public, international partners, and adversaries are also key considerations influencing the Dress and Appearance standards and policy.

1.1.2. Pride in a Guardian's personal appearance and uniform greatly enhances the professionalism and esprit-de-corps essential to an effective military force. Guardians must maintain high standards, to include in wear of their uniform and personal appearance. The image of a disciplined and committed Guardian instills confidence in a Guardian's military readiness, lethality, and warfighting prowess.

1.1.3. Guardians are expected to exercise good judgment and demonstrate leadership by maintaining a professional appearance at all times. Adherence to these standards contributes to a positive and productive work environment. Any dress or personal appearance standards not specifically authorized in this publication are prohibited. Leaders are expected to set the example and uphold these standards, providing guidance and mentorship to their teams.

1.1.4. Guardians have a responsibility to keep their uniform clean, pressed (see **Chapter 5** for Operational Camouflage Pattern (OCP) Uniforms) and in good repair. Members are responsible for knowing authorized uniform combinations and the correct placement of ribbons, insignia, badges, and all other items outlined in this instruction.

1.1.5. Commanders do not have the authority to waive dress, grooming, and appearance standards, except as identified within this instruction.

1.1.6. It is every Guardian's responsibility, regardless of position or rank, to adhere to and enforce the dress and appearance standards prescribed in this instruction. Failure to obey the mandatory provisions in this instruction constitutes a violation of Article 92(1), UCMJ—failure to obey lawful general order or regulation. Violations may also result in administrative disciplinary action without regard to otherwise applicable criminal or civil sanctions for violations of related laws.

1.2. When to Wear the Space Force Uniform.

1.2.1. Except when authorized to wear civilian clothes, Guardians will wear the appropriate Space Force uniform while performing military duties. Name tapes/tags will reflect the member's legal last name as spelled on the military identification card and may include diacritical accents and hyphens. If a diacritical accent is used, all letters will be the same height (e.g., PEÑA SANCHEZ, LEWIS-MILES, or MÜLLER).

1.2.2. Guardians assigned to non-Space Force organizations will wear the Space Force equivalent of the uniform prescribed. For example, if the non-Space Force organization prescribes a utility uniform as the uniform of the day, assigned Guardians will wear the OCP uniform.

1.2.3. Guardians attending a military event, either social or official, must wear the appropriate uniform or civilian attire as directed by this instruction or directed by the commander.

1.2.4. Optional uniform items may be worn at the discretion of a Guardian, within the parameters of approved wear, unless uniformity is required, as set forth in **paragraph 2.14.5** of this instruction. Commanders will not direct the wear of optional items unless they are provided at no cost to Guardians.

1.2.5. While attending a course of military instruction conducted by the Army, Navy, Air Force, Space Force, or Marine Corps, a civilian, in accordance with Title 10 Unites States Code Section 772, *When wearing by persons not on active duty authorized,* may wear the Space Force uniform equivalent to the uniform prescribed by that armed force if the wear of such uniform is authorized by the Secretary of the Air Force (SecAF) or sister service equivalent. If worn, civilians will conform to the same standards of appearance, practices, and conduct in uniform prescribed for military members.

1.2.6. An instructor or member of the organized cadet corps of a university or college, public high school, or an educational institution with a course of military instruction may wear a Space Force uniform with distinctive insignia prescribed by the SecAF. The uniform will not include rank insignia the same as, or similar to, those prescribed for officers in the Space Force or other military services.

1.2.7. Temporary or Frocked Rank. Under normal circumstances, early pinning (commonly referred to as frocking) is not authorized. However, when it is essential to effectively perform duties in the higher grade –exceptions may be approved

1.2.7.1. Chief Master Sergeant frocking is done in accordance with SPFI 36-2502, *Enlisted Guardian Promotion and Demotion Programs.*

1.2.7.2. Commissioned Officers frocking is done in accordance with DAFI 36-2501, *Officer Promotions and Selective Continuation.*

1.2.8. Authorized headgear will be worn while outdoors unless in an area designated as a "no hat" area by the Installation Commander. **Note**: All DAF Child and Youth Program facilities, including Child Development Centers, School Age Care facilities, and Youth Development Center areas are designated as "no-hat, no-salute" areas.

1.2.9. While portraying a member of the Space Force, an actor in a theatrical or motion-picture production may wear the uniform of the Space Force if the portrayal does not tend to discredit the Armed Forces. Refer to 10 USC § 772.

1.3. Optional Uniform Wear.

1.3.1. Travel. When traveling in an official or unofficial capacity on commercial air, in Continental United States (to include Alaska and Hawaii), the service dress uniform (Class A), blues uniform (Class B), or OCP uniform may be worn, as appropriate.

1.3.1.1. When traveling in an official capacity on commercial air overseas, Guardians should consult the Department of Defense Foreign Clearance Guide before traveling in uniform.

1.3.1.2. If departing from and arriving at a military airfield via government aircraft or contracted United States government commercial flights, any authorized uniform is permitted, with the exception of the Physical Training Gear (PTG).

1.3.1.3. Those choosing to wear civilian clothing in lieu of a uniform during official travel will ensure it is neat, clean, and appropriate for the mode of travel and destination. Examples of inappropriate clothing include ripped, torn, frayed, or patched clothing, tank tops, extremely short shorts/skirts, undergarments worn as outer garments, bathing suits, and any garments which are revealing or contain obscene, profane, or lewd words or drawings.

1.3.2. OCPs or any combination of the service dress uniform is authorized while attending off duty education conducted off a military installation.

1.3.3. OCPs or any combination of the service dress uniform is authorized while on leave status.

1.3.4. Guardians not on sustained duty may wear the appropriate uniform to military ceremonies, social functions, and informal gatherings that are military in nature. They may also wear their uniform when traveling as a passenger on a military aircraft.

1.4. When Uniform is Not Authorized for Wear.

1.4.1. Meetings or gatherings of, or sponsored by, an organization, association, movement, or group that the Attorney General of the United States has named as totalitarian, fascist, communist or subversive or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny others their rights under The Constitution of the United States, or as seeking to alter the form of Government of the United States by unconstitutional means.

1.4.2. When participating in activities such as unofficial public speeches, interviews, picket lines, marches, rallies, or any public demonstration, which may imply Space Force sanction of the cause for which the demonstration or activity is conducted.

1.4.3. Public meetings, demonstrations, marches, rallies, or interviews if the purpose may be to advocate, express or approve opposition to the Armed Forces of the United States or discredit the Armed Forces.

1.4.4. Guardians will not wear the uniform upon discharge for bad conduct, undesirability, unsuitability, inaptitude, or other than honorable conditions.

Chapter 3

GROOMING AND APPEARANCE STANDARDS

3.1. Personal Grooming Standards. This chapter outlines personal grooming standards while wearing any Space Force uniform or civilian clothing in an official capacity. Commander's discretion will be used to determine if individual's personal grooming is within standards of this instruction. The personal grooming standards listed are minimum standards that represent common appearance matters and are not all-inclusive. Supervisors have the responsibility to determine compliance with this SPFI and to take corrective action for violations to ensure compliance and promote good order and discipline.

3.1.1. Hair. Will maintain a neat and orderly appearance. Hair will be styled in a way that does not exceed the established length and bulk standards and will not interfere with the proper wear and fit of headgear, helmet, or chemical mask. All hairstyles must conform to safety requirements and uniform standards. Will *not* contain excessive amounts of grooming aids (e.g., gel, mousse, pomade, or moisturizer), appear lopsided, touch either eyebrow (**Exception**: female bangs), or end below an imaginary line across the forehead at the top of the eyebrows that is parallel to the ground. If applied, any hair color treatment must result in natural hair colors, present a natural appearance and be complementary to facial hair e.g., eyebrows, lashes, beards (if authorized for medical or religious reasons), etc. Examples of natural hair colors are brown, blonde, brunette, natural red, gray, or black. All Guardians are authorized to wear natural color hair regardless of their natural born hair color, but when highlighted or frosted, the colors must blend naturally. **Example:** Hair colors may be displayed as a "salt-and-pepper" look as this presents a naturally blended hair color and is, therefore, authorized.

3.1.1.1. Wigs/Hairpieces/Extensions. Are authorized and will meet the same standards required for natural hair, be of good quality, fit properly, and comply with safety, functionality, and professional military standards. If synthetic hair or extensions are added to hair, they will be natural hair colors, and must blend with Guardian's hair, as to not create an unnatural appearance (**Note:** Extensions are prohibited for males). Wigs/Hairpieces/Extensions will *not* be used to cover unauthorized hair styles. Synthetic hair or other materials are *not* authorized when prohibited by safety and mission requirements. Commanders may authorize Guardians to wear plain caps while indoors due to a medical condition (e.g., Alopecia, radiation, and/or chemotherapy), such caps must be of a single color, without ornamentation, frills/ruffles, or include excess fabric that extends down the back. Appropriate headgear is still required while outdoors. **Note:** Head scarves are not authorized.

3.1.1.2. Unauthorized Hair Colors. Hair will not be burgundy, purple, orange, fluorescent, or neon (not all inclusive). Ombre (a gradual lightening or darkening along the lengths of the hair) or black hair with blonde highlights and blonde hair with black are unnatural in appearance and not authorized for wear. Other unauthorized examples include instances where hair and facial hair drastically contrast.

3.1.1.3. Unauthorized Styles: Mohawk, mullet, or etched design. Other cultural or societal trends that reasonably appear unnatural or that display vastly different shades of natural colors, regardless of the universally applied name. Males only: locs, coils, braids, twists, designs, and/or hair extensions are not authorized; see **Figure 3.1** for examples. Females

only: Partially shaved sides and/or back of the head with long hair on the top (requiring the wear of a ponytail, bun, or braid) is prohibited. See **Figure 3.2** for examples of unauthorized hairstyles.

Figure 3.1. Male – Unauthorized Hair Examples.

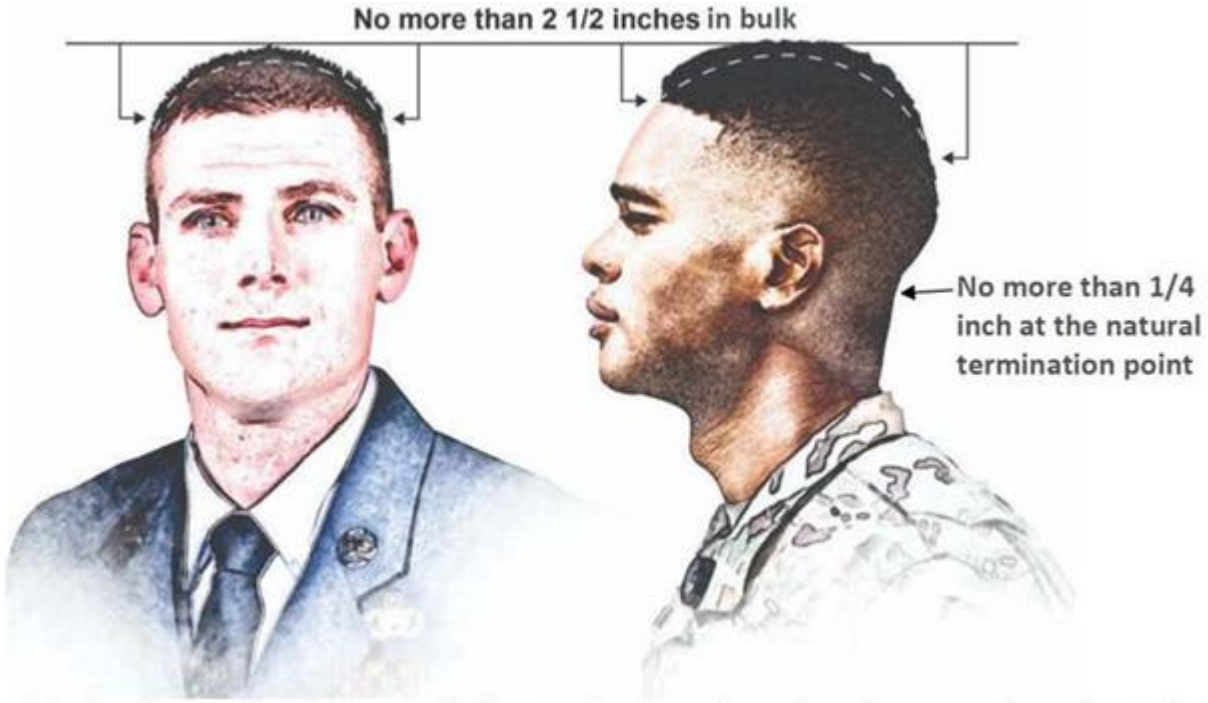

Figure 3.2. Female – Unauthorized Hair Examples.

3.1.2. Hair **(Male)**. Tapered appearance on both sides and the back of the head, both with and without headgear so that when viewed from any angle the member's hair conforms to the shape of the head, curving inward to the natural termination point without eccentric directional flow, twists, or spiking. A block-cut is permitted with tapered appearance. Hair will not exceed 2 ½ inches in bulk, regardless of length and 1/4-inch at natural termination point; allowing only closely cut or shaved hair on the back of the neck to touch the collar (see **Figure 3.3**.). Hair will not protrude under the front band of headgear. Cleanly shaven heads, military high-and-tight, or flattop cuts are authorized. Guardians may have one (cut, clipped, or shaved) front to back, straight-line part, not slanted or curved, on either side of their head, above the temple. Part will not exceed 4-inches length or 1/4-inch width (See **Figure 3.5**.). See **Figure 3.4** for examples of appropriate sideburns, mustache, and male hair standards.

Figure 3.3. How to Measure Hair Bulk.

Bulk is the distance that the mass of hair protrudes from the scalp. It is measured starting at the scalp and outward at a 90 degree angle.

Figure 3.4. Male Hair Standards Example.

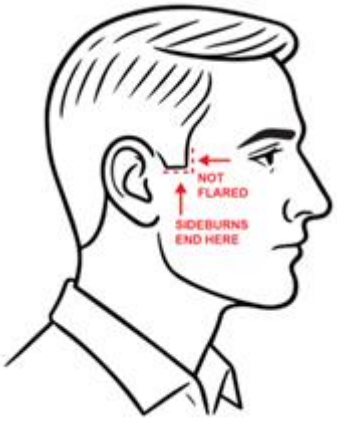

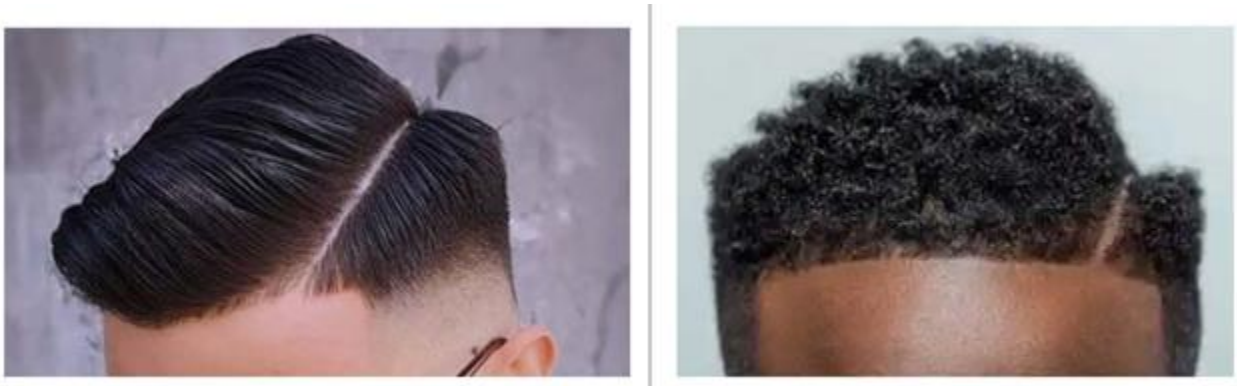

Figure 3.5. Cut, Clipped, or Shaved Part.

Part will not exceed 4 inches in length or 1/4 inch in width.

3.1.2.1. Sideburns. If worn, sideburns will be straight and even width (not flared) and will be above the ear opening. Sideburns will end in a clean-shaven horizontal line. See **Figure 3.4**.

3.1.2.2. Mustaches. Male members may have mustaches. No portion of the mustache will extend below the upper lip line, and it must not extend past the corners of the mouth or into a respirator seal zone. Mustaches must be neatly trimmed and match the natural hair color of the Guardian's head. Mustache handlebars, twists, and curls are prohibited. See **Figure 3.6**.

Figure 3.6. Mustache.

3.1.2.3. Beards. Guardians must maintain a clean-shaven face. Beards are prohibited unless a Guardian has an approved medical profile recommended by a medical official and approved by the appropriate unit commander or has received a religious accommodation waiver from the designated authority. When granted a shaving profile, members will keep all facial hair trimmed to a uniform length not to exceed 1/4-inch. Individuals with a shaving profile may shave or trim their facial hair to present a neat, clean, professional

military image (**Figure 3.7**.). Members may not overly shave, shape, or taper beard to achieve different styles of beard (e.g., goatees, faded beards, etc. are not authorized). Beards must present a natural appearance to the Guardian's hair color of the head and may not be bleached or dyed. Beard wear authorized for religious reasons is governed by **Chapter 10** of this instruction.

Figure 3.7. Shaving Waiver Example.

Facial Hair neatly trimmed to present neat, clean, professional image.

3.1.3. Hair **Female (Male with approved unshorn hair for religious accommodations).** No minimum hair length, to a maximum bulk of 4-inches from scalp and allows proper wear of headgear. Hair of short to mid-lengths must present a symmetric (around the axis of the head) or tapered appearance when viewed from all angles. Hair will end above the bottom edge of collar and will not extend below an invisible line drawn parallel to the ground, both front to back and side to side unless pulled back and secured or worn in an authorized ponytail or equivalent or long braid(s). When hair is pulled back and secured behind the head (will not be gathered at the crown or worn on the top of the head), radius will not exceed 6-inches to the left or right from the point where the hair is gathered for a total of 12-inches in width, 6-inches in bulk and must allow for proper wear of headgear. For mid to long length hair one or two braids or a single ponytail or equivalent may be worn down the member's back with length not extending below a horizontal line running between the top of each sleeve inseam at the under arm through the shoulder blades. The braid(s), ponytail or equivalent shall extend down the member's back and cannot be worn over the shoulder or pulled in front of the body. Bangs, or side-swiped hair, may touch eyebrows but will not touch or cover eyes. Hair may cover one or both ears. When in doubt, assess the correct length of hair with the Guardian standing in the position of attention. See **Figure 3.8**., **Figure 3.10**, and **Figure 3.11** for examples of female hair standards. **Exception**: While wearing the PTG, long hair will be secured but may have loose ends and may extend below a horizontal line running between the top of each sleeve inseam at the under arm through the shoulder blades.

Figure 3.8. Female Hair Examples.

3.1.3.1. Pinned-up hair should be styled in a manner that prevents loose ends from extending upward on the head and may not start at the crown of the head or be worn on the top of the head. When hair is in a bun, the bun must be a single bun without loose ends and must allow for the proper fit and wear of headgear while in uniform, whether or not headgear is being worn at the time.

3.1.3.2. Hair accessories. If worn, hair accessories (e.g., fabric scrunches, hairpins, combs, clips, headbands, elastic bands, barrettes, etc.) must be black or match hair color. Invisible hairnets and hairnets that match hair color are authorized. Headbands or fabric scrunches will not exceed 2-inches in width. Ornaments are *not* authorized (i.e., ribbons, beads, jeweled pins). See **Figure 3.9**. Hairnets may be worn as required for health or safety reasons. They must be made of natural or synthetic materials and be a solid color that matches or closely resembles the member's hair color. The hairnet must be designed to support and control hair, with sufficient elasticity and grip to prevent hair from coming loose. The hairnet must be free from metal fasteners and have a simple design without excessive ornamentation or embellishments. Hairnets are only authorized when performing related duties as determined by applicable commander.

Figure 3.9. Female Hair Accessories.

3.1.3.3. Locs, braids, twists, micro-braids, French braids, Dutch braids, and cornrows are authorized for females. A braid or twist is two or more portions of interwoven hair. If adding additional hair, it must be a natural-looking color, matching the individual's hair color. Multiple locs, braids, twists or cornrows may come together down the back in one or two braids, or a single ponytail as described in **paragraph 3.1.3**. Locs, braids, and twists shall maintain a uniform dimension and be tightly interwoven, with a single loc, braid or twist diameter not exceeding 1/2 inch. Natural spacing between each loc, braid, or twist

shall be maintained not to exceed 1/4 inch of separation for scalp visibility to achieve a full and professional appearance.

3.1.3.4. A braid/twist must continue to the end of the hair without design and following the contour of the head and may be worn loose or in a secured style within hair standards in **paragraph 3.1.3** above. ***Exception***: Micro-braids or twists are not required to continue to the end of the hair. See **Figure 3.10** for examples of braids, twists, micro-braids.

Figure 3.10. Authorized Female Hair Styles Examples of Locs, Braids, and Cornrows.

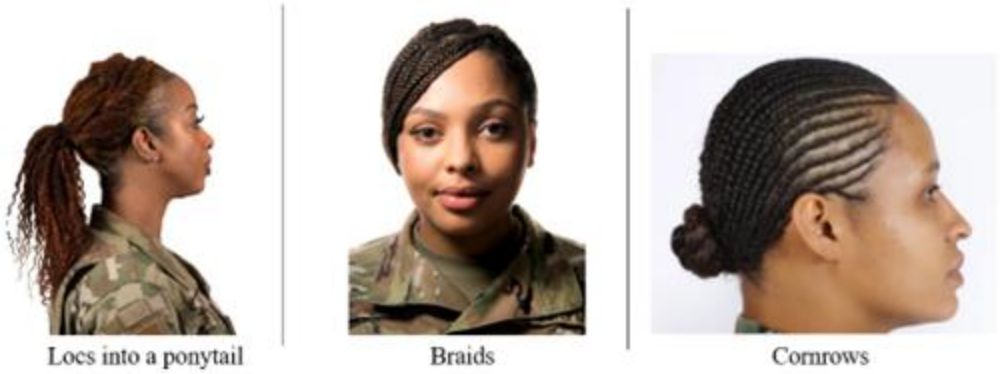

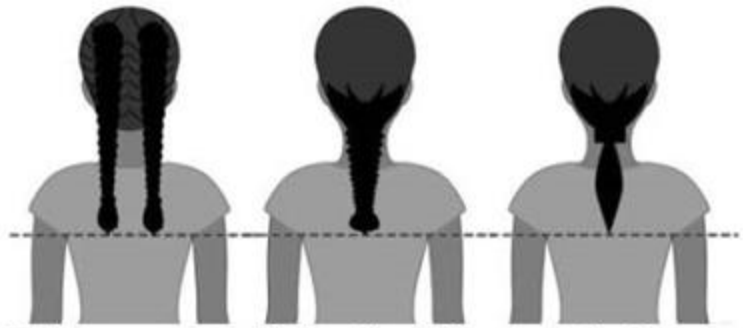

Figure 3.11. Ponytail/Braid Length.

Hair may not extend below line below a running between the top of each sleeve inseam at the under arm through the shoulder blades.

3.1.4. Fingernails. Fingernails must not exceed 1/4-inch in length beyond the tip of the finger and must be clean and well groomed. Fingernails must not interfere with the performance of assigned duties or hinder proper fit of prescribed safety equipment or uniform items. Females may wear nail polish in a single, muted color that does not compromise the uniform's appearance. The following colors are prohibited: gold, silver, black, and fluorescent colors. Nail polish colors should be understated and to not draw attention away from the uniform. Designs, two-tone, or multi-tone colors are not authorized; **Exception:** white-tip French manicures, American Manicures, and natural ombre styles are authorized. **Figure 3.12** provides examples of authorized and unauthorized nail colors**.**

3.1.4.1. Colored or clear nail (shiny) polish is not authorized for males. Males are only authorized to wear clear matte polish as a protective coat for the purpose of maintaining nail health.

Figure 3.12. Authorized and Unauthorized Nail Polish Colors (Not All-Inclusive).

3.1.5. Cosmetics. Male Guardians are not authorized to wear cosmetics. Inconspicuous concealer is authorized only to cover scars and blemishes. If the concealer is noticeable, it is conspicuous and not authorized. Female Guardians may wear cosmetics that are subtle and understated, such as neutral colors and natural tones; cosmetics should be applied in a manner that is restrained and not excessive. Eyelash extensions, if worn, will be the female Guardian's natural eyelash color, will not exceed 14 millimeters in total length or touch the member's eyebrow, and must present a natural appearance. Eyelash extensions will not hinder wear of protective eye wear or any type of headgear. Lipstick, if worn by female Guardians, will be a natural to moderate red shade, including pink, beige, and blush tones which do not draw attention away from the uniform. Eyeliner, if worn by female Guardians, cannot extend past the corners of eye opening (i.e., winged liner not authorized).

Figure 3.13. Authorized and Unauthorized Eyelash Extension Examples.

OCPs are not authorized for wear off base at restaurants where most diners wear business attire or at establishments that operate primarily to serve alcoholic beverages. Light ironing of the OCP is authorized, but starch or hot pressing or heavy ironing is not as it will accelerate the overall wear of the fabric. **(T-1)** OCPs and items designed and approved by The Institute of Heraldry (TIOH) for the OCPs purchased by Air Force personnel through the Army Air Force Exchange Service (AAFES), Military Clothing Sales Stores (MCSS), or issued through Individual Equipment Elements or contract equivalent, are certified as fully compliant with all specifications. No other suppliers are approved for organizational/unit purchases, or any appropriated, or overseas contingency operation funds expenditures. The non-fire-retardant and Improved Hot Weather Combat Uniform are the only OCP uniforms authorized to be worn by all Guardians. (**Exception**: Guardians in occupations that have Occupational Safety and Health Administration (OSHA) requirements for wear of the 100% cotton Fire-Retardant OCP (e.g. deployed Guardians operating in outside the wire mission sets) are authorized to wear this distinctive uniform equipment item).

5.1.1. OCP Coat (Blouse). The coat is worn outside the trousers. The coat will not extend below the top of the cargo pocket on the trousers and will not be higher than the bottom of the opening of the side (hip) pocket on the trousers. **(T-1)** Guardians may roll up sleeves on the OCP coat; however, the cuffs will remain visible, and the sleeve will rest at, or within 1-inch of, the forearm when the arm is bent at a 90-degree angle. When sleeves are not rolled up, cuffs may remain visible or be folded inward once, no further than the width of the cuff. Commanders may prohibit rolling of sleeves and folding of cuffs. Patches or badges will not be affixed to the front pockets. **(T-1)** Alterations that affect the functionality of the uniform are not authorized, (e.g., sewing down collars, or pockets). The OCP coat may be removed in the immediate work area as determined appropriate by local leadership.

5.1.2. Accoutrements. Guardians will wear a basic configuration consisting of name and Space Force tapes, American Flag made of Polyvinyl Chloride (PVC) or cloth, and grade insignia.
