Chapter 1

INTRODUCTION

1.1. Introduction. This OI establishes operational functions and procedures for the AFPC Operations Center (OC), and the AFPC Personnel Readiness Cell (PRC). The PRC function is incorporated into the OC in the event of hostile action or natural disaster or as directed by the AFPC Commander (AFPC/CC) or AFPC OC DIR for the purpose of total force accountability. It coordinates the actions required for total force personnel issues spanning the operational continuum in the event of hostile action or natural disaster as well as or in support of exercises. The OC is also the focal point for actions concerning AFPC's three mission essential functions when directed by the HQ AFPC/CC during the above-mentioned events (hostile actions, natural disasters, exercises):

1.1.1. Warfighter sourcing. The process of matching an identified requirement with an asset.

1.1.2. Casualty Management. The process of casualty reporting, notification, and assistance as it relates to the function of the OC. The remainder of the Casualty mission will remain under the direction of Directorate of Military and Family Care (AFPC/DPF).

1.1.3. Accountability. The process of assessing, managing, and monitoring the recovery and reconstitution of personnel and their families, to include case management duties related to Air Force Personnel Accountability and Assessment System "Needs Assessment Survey".
