Terms

Casualty—Any person who is lost to the organization by having been declared dead, duty status–whereabouts unknown (DUSTWUN), missing, ill, or injured.

Casualty Assistance Representative (CAR)—The person at the Air Force installation responsible for reporting deaths and assisting survivors.

Casualty Augmentation Support Team (CAST)—A group of individuals trained in casualty reporting, notification, and assistance procedures that help the CAR and other casualty personnel. The size of the team is at the FSS commander's discretion and depends on the size and mission of the installation it serves.

Casualty Status—Used to classify a casualty for reporting purpose. There are six casualty statuses: deceased, DUSTWUN, missing, very seriously ill or injured (VSI), seriously ill or injured (SI), or not seriously ill or injured (NSI).

Casualty Type—Used to identify a casualty for reporting purposes as either a hostile casualty or a non-hostile casualty.

Civilian Employee—A civilian employee hired in the US and assigned overseas. The Air Force pays civilian employees from Department of the Air Force or DoD appropriated or non-appropriated funds. A civilian employee must be either a US citizen or a permanent resident alien not a foreign national.

Date of Death—Either the date a person died as determined by actual knowledge of the death, a date the Air Force determines based on conclusive evidence, or the date the Air Force declares a person dead based on a presumptive finding of death. Laws on brain death differ among states and countries. The Air Force determines the date of death based on local law and on when doctors declare a person brain dead or remove life support systems.

Deceased—A casualty status applicable to a person who is either known to have died, determined to have died on the basis of conclusive evidence, or declared to be dead on the basis of a presumptive finding of death. The recovery of remains is not a prerequisite to determining or declaring a person deceased.

Duty Status—Status in which a member serves, under Title 10, U.S.C. or Title 32, U.S.C. at the time the member becomes a casualty. Used to determine eligibility for survivor benefits and entitlements.

Duty Status-Whereabouts Unknown (DUSTWUN)—A transitory status, applicable only to military personnel, that is used when the responsible commander suspects the member may be a casualty whose absence is involuntary, but does not feel sufficient evidence currently exists to make a definite determination of missing or deceased.

Family Assistance Representative (FAR)—A military volunteer, appointed by the commander, to assist the surviving NOK with the array of support agencies involved in providing assistance following the death of a member. The FAR acts as the official link between the NOK and the Air Force until an accident investigation board is complete or the NOK no longer wants unsolicited contact.

Immediate Family—The member's spouse, children, parents, and siblings.

Mortuary Affairs Officer—Plans and executes all mortuary affairs programs. Provides guidance to facilitate the conduct of all mortuary programs and to maintain data (as required) pertaining to the search for, recovery, identified, preparation, and disposition of remains of persons for whom the services are responsible by status and Executive Order. Serves as the central clearing point for all mortuary affairs and monitors the deceased and missing personal effects program. Provides training to the Family Liaison Officer (FLO) and Summary Court Officer on duties and responsibilities.

Next of Kin (NOK)—The person most closely related to the casualty is considered primary NOK for disposition of remains, personal effects, and the release of records to secondary NOK and third parties. The un-remarried surviving spouse is primary NOK. The term surviving spouse does not include one who obtained a divorce from the decedent (at any time).

Non-duty Status ANG or USAFR Member—An Air National guard or United States Air Force Reserve member who is NOT serving on active duty, active duty for training, or inactive duty for training.

Notification—When a service member dies on active duty, all NOK and other persons listed on the service member's RED, DD Form 93, Record of Emergency Data, and Form SGLV-8286, Service members' Group Life Insurance Election and Certification, are notified of the death in person by a uniformed Air Force Field Grade Officer.

Not Seriously Ill or Injured (NSI)—The casualty status of a person whose illness or injury requires medical attention may or may not require hospitalization, and medical authority classifies as less severe than SI.

Person Authorized Direct Disposition (PADD)—In accordance with Federal law the PADD is the person designated by the member on the DD Form 93 or RED, or the person authorized to direct disposition of the decedents remains.

Seriously Ill or Injured (SI)—The casualty status of a person whose illness or injury requires medical attention, and medical authority declares that death is possible, but not likely within 72 hours, and/or the severity is such that it is a permanent and life-altering.

Summary Courts Officer (SCO)—A commissioned officer appointed by the installation commander to handle the personal property and effects of deceased active duty personnel.

Unit Commander—The commander of a member's home installation, the installation where the member is assigned or attached for duty.

Very Seriously Ill or Injured (VSI)—The casualty status of a person whose illness or injury is such that medical authority declares it more likely than not that death will occur within 72 hours.

Record of Emergency Data (RED)—The RED serves as the official document required by law (Title 10, U.S.C., Sections 1475 – 1480 and 2271; and Title 44, U.S.C., Section 3101) to designate beneficiaries for Death Gratuity Pay and unpaid pay and allowances in the event the service member dies. It also includes the names and addresses of persons to be notified in case of emergency or death along with the name of the person who makes the decision of the disposition of the service members remains.
