Pages: 15

---

This supplement implements and extends the guidance of Air Force Instruction (AFI) 11-202V2, *Aircrew Standardization/Evaluation Program***.** This supplement applies to all aircrew members assigned or attached to the 100th Operations Group for flying. Submit recommended improvements to this supplement to 100 Operations Group (100 OG/OGV) on an AF Form 847, *Recommendation for Change of Publication***.** Unless otherwise specified in this supplement, 100 ARW/CC has delegated the waiver authority to the 100 OG/CC for provisions in this supplement. This supplement does not apply to USAF Reserve or Air National Guard Crews. The Privacy Act of 1974 applies to certain information gathered pursuant to this instruction. The Privacy Act System Number F011 AF XOA, Aviation Resource Management Systems (ARMS) covers required information. The Paperwork Reduction Act of 1974 as amended in 1996 affects this instruction. Ensure that all records created as a result of processes prescribed in this publication are maintained In Accordance With (IAW) Air Force Manual (AFMAN) 33-363, *Management of Records*, and disposed of IAW with the Air Force Records Information Management System (AFRIMS) located at **https://www.my.af.mil/gcss-af61a/afrims/afrims/**. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847,*Recommendation for Change of Publication*; route AF Form 847s from the field through the appropriate functional's chain of command.

***SUMMARY OF CHANGES***

This supplement has been reworded and renumbered to comply with AFI 11-202 VOLUME 2 USAFE-AFAFRICA SUP. Based on significant changes to the AFI 11-202V2_USAFE-AFAFRICA SUP, this supplement has extensive changes and requires a complete review. Additionally, AFI 11-202V2_USAFE-AFAFRICA SUP directs units, in multiple instances, to define procedures in a local supplement and/or stand-alone guidance. If not addressed in this supplement extensive guidance can be found in the locally generated Process Guides.

1.3.3. Unless otherwise specified, 100 OG/CC is the waiver authority for this supplement.

1.3.3.1. **(Added)** All waivers/approvals requiring 100 OG/CC approval will be processed through the 100 OG/OGV (Stan/Eval) office. If time permits, format the waiver using the AF Form 679. The requester will draft, electronically sign, and email the AF Form 679 to 100 OG/OGV organization inbox (**100OG.OGV@us.af.mil**). 100 OG/OGV will concur/non-concur, and electronically sign the AF Form 679. The 100 OG/CC (or designated representative) will approve/disapprove, electronically sign the AF Form 679, and forward to the requester and 100 OG/OGV. Approval/disapproval AF Form 679s will be maintained electronically by 100 OG/OGV. If time does not permit drafting an AF Form 679, then the requester should send a detailed email message to the 100 OG/OGV Stan/Eval inbox or telephone the 100 OG/OGV office, in that order. A follow-up AF Form 679 or email will be required for any verbally approved waivers.

3.2.1.6.1. **(Added)** 100 OG procedures for the use of Graduate Training Integration Management System (GTIMS), or other approved electronic Stan/Eval software, are contained in this supplement.

3.2.2.2.1. **(Added)** Squadron Stan/Eval personnel will utilize a locally produced AF Form 8, *Certificate of Aircrew Qualification,* checklist to review Forms 8. Additionally, the Chief of Squadron Stan/Eval will be the authority responsible for ensuring all Forms 8 are reviewed prior to signature. All Forms 8 other than Q1 will be reviewed by 100 OG/OGV and annotated in Section VIII of the Form 8.

3.2.2.3.1. **(Added)** All FEFs will be maintained by the Squadron.

3.2.2.5.2.4.1.1. **(Added)** Trend data will be collected on a semi-annual basis. A positive trend is indicated when more than 20 percent of the individuals (minimum sample size of 5) graded in the same area receive a commendable. Similarly, a negative trend is indicated when more than 20 percent of the individuals (minimum sample size of 5) graded in the same area receive a grade of Q- or U.

3.2.2.5.2.4.1.2. **(Added)** A Weak Area of Interest is indicated when 11-20 percent of individuals (minimum sample size of 5) graded in the same area receive a grade of Q- or U.

3.2.2.5.2.4.1.3. **(Added)** A negative written examination trend is indicated when the same test question is missed by more than 25 percent of the examinees (minimum sample size of 5). If the sample size is less than 10, 100 OG/OGV will determine if a question constitutes a trend. All others will be reported as a trend.

3.2.2.16. **(Added)** Provide oversight of mission planning/briefing rooms ensuring Squadron Stan/Eval complies with major command (MAJCOM) directives. Mission planning/briefing room requirements are as directed in Attachment 8 **(Added).**

3.3.2.11. **(Added)** Publish the Letter of Certification/Xs as required to indicate special qualifications and certifications as directed in Attachment 9 **(Added).**

3.3.2.12. **(Added)** Route the AF Form 8, to obtain all required signatures.

3.3.2.13. **(Added)** Provide mission planning/briefing room materials to meet the requirements outlined in Attachment 8 **(Added).**

3.3.2.14. **(Added)** Provide SEB inputs to OGV according to Attachment 2.

3.3.2.15. **(Added)** Track and schedule flight evaluations for all assigned and attached aircrew members. Squadron Stan/Eval will coordinate with the Squadron Flight Scheduling office to select an appropriate mission and ensure sufficient time is available to complete the evaluation.

4.2.2.2. **(Added)** The Squadron Letter of X's will serve as the designation of squadron flight examiners.

4.2.2.3. **(Added)** Unit Standardization/Evaluation Flight Examiner (SEFE) Upgrade Procedures. Before performing duties as a SEFE, candidates will complete SEFE training and certification IAW Squadron Stan/Eval locally maintained process guide.

4.2.2.4. **(Added)** Unit Standardization/Evaluation Flight Examiner (SEFE) Removal Procedures. Squadron Stan/Eval will have a locally managed process guide for SEFE removal.

4.3.5.1. **(Added)** SEFE's will reference the Squadron Stan/Eval managed process guide as an additional means of ensuring all evaluation criteria have been met. Attachment 10 **(Added)** is provided as an example guide. Debriefs for the examinee will be performed in a timely manner. For less than Q-1 performance, SEFE's will debrief the examinee's commander (and supervisor if applicable).

4.4.1.1. **(Added)** Senior Flight Examiner Upgrade Procedures. Before performing duties as a Senior Flight Examiner, candidates will complete flight examiner training and certification IAW Squadron Stan/Eval locally maintained process guide.

5.2.3.3. **(Added)** Conduct of mission evaluations:

5.2.3.3.1. **(Added)** FE Responsibilities. Before beginning the evaluation, evaluators should review what items are required for completion of the evaluation. Use the Squadron Stan/Eval locally maintained process guide to ensure all applicable items are accomplished. Evaluators will utilize AFI 11-2KC-135V2 and the local unit supplement to verify accomplishment of all checkride requisites.

5.2.3.3.2. **(Added)** Pilot SEFEs should not be scheduled as primary crewmembers during in-flight evaluations. Evaluators may occupy one of the pilot seats during events requiring instructor pilot supervision (i.e., touch and go landings, air refueling, etc). During initial qualification, re-qualification, and operational mission evaluations, an additional qualified instructor pilot should be scheduled for the flight in order to occupy one of the pilot seats and supervise the examinee.

5.2.3.3.3. **(Added)** For scheduled cargo evaluations, Boom SEFEs may be scheduled as a primary crew member when manning does not permit sufficient crewmembers to facilitate MSN (Cargo) evaluations.

5.2.6.3.4. **(Added)** OGV will provide oversight of the N/N evaluation program and CCV will administer the program.

5.2.6.3.4.1. **(Added)** All N/N evaluations shall be conducted IAW the pyramid evaluation system outlined in Table 2.1 **(Added-USAFE-AFAFRICA).**

5.2.6.3.4.2. **(Added)** The N/N program goal is to evaluate, at a minimum, 10% of all Squadron-assigned and attached personnel in each crew position (pilot & boom operator). N/N evaluation types may include QUAL, INST, MSN, or SPOT. N/N goals for each calendar year will be established by taking 10% of the total qualified aircrew members in each crew position on 1 January and rounding down to the nearest whole number that is greater than or equal to 1. Squadron Stan/Eval will ensure these annual goals are met unless waived by the OG/CC.

5.2.6.3.4.2.1. **(Added)** If a N/N SPOT evaluation notification is given to a member, the member should be given the opportunity to re-align their annual checkride, as appropriate (QUAL, INSTM, MSN). The member must notify the evaluator prior to mission step time if re-alignment is desired. If desired by the member to re-align, all requirements for the annual checkride must be met IAW AFMAN/AFI 11-2MDS Vol 2 and this regulation.

5.2.6.3.4.2.2. **(Added)** Squadron SEFE's must coordinate with Squadron Stan/Eval and obtain approval from the SQ/CC prior to administering any N/N evaluation. OGV may also administer N/N evaluations and should coordinate with the SQ/CC. These evaluations may count towards meeting Squadron annual N/N requirements.

5.2.6.3.4.3. **(Added)** Provided paragraph 5.2.6.3.2 and all go/no-go requirements are met, flight examiners designated on the Letter of Xs are authorized to add themselves to the crew as a write-in change to the flight orders for the purpose of conducting N/N evaluations on 100 ARW flights.

5.2.6.3.4.4. **(Added)** N/N Flight Evaluations. Crewmembers should have one month since their last evaluation before completing a N/N evaluation. Squadron Stan/Eval should target aircrew members who are outside their six-month eligibility zone, and will not complete a N/N evaluation in a member's sixth month of eligibility. N/N evaluations should not be accomplished on any individual more than once per calendar year.

5.3.3.3.1.1. **(Added)** Publications Check. The requisite publications check will normally be completed in conjunction with the aircrew member's flight evaluation.

5.5.4.1.1. **(Added)** SQ/CCs may develop requisite testing policies.

6.3.4. **(Added)** Local Testing Procedures. All testing will be accomplished on GTIMS (or other approved Stan/Eval software) in the OGV approved Testing Room. Exceptions to using the OGV approved Testing Room will only be granted by Chief of OGV/CCV or their designated representative. Testing hours will be established by the Chief of Squadron Stan/Eval in coordination with OGV.

6.3.4.1. **(Added)** Testing Monitors. The Chief of Squadron Stan/Eval will appoint testing monitors for testing hours. If an examinee would like a test question reviewed, the testing monitor will submit the question and reasoning for review to OGV IAW paragraph 6.6.1.1. **(Added)**. OGV SEFEs may also perform the role of testing monitor.

6.3.4.2. **(Added)** Testing Conduct. When taking a closed-book exam, the examinee will not leave before completing the test. If the individual must leave, the test becomes invalid and a

different version of the test will be administered. Open-book tests may be taken over more than one sitting.

6.4.2.2.1. **(Added)** OGV will post a current copy of the AMC and local MQFs in e-pubs (located on the EFB and local share drive).

6.6.1.1. **(Added)** Squadron Stan/Eval will compile and forward exam correction recommendations to OGV within the same month of receiving the correction request. In the correction recommendation, the exam name, exam date, question number, and discrepancy will be included. OGV will use this report to review prepared exams and master question files (MQFs) for accuracy.

6.6.1.2. **(Added)** OGV is responsible for constructing and updating all exams, to include instrument exam creation and quality control. Exam updates should be based on correction recommendations, trends, annual revisions, or as directed by publication changes.

6.6.6. **(Added)** All checkride requisite exams will be "unique" tests generated in GTIMS (or other approved Stan/Eval software). All periodic exams should be a "prepared" exam in GTIMS (or other approved Stan/Eval software).

6.7.1. **(Added)** Tests and Test Bank Security. All evaluators and testing monitors are responsible for the security of testing materials, exams, and question banks. Restrict access to tests, answer keys, computer disks, and test banks by keeping them locked in a secure area. Access to electronic test banks within GTIMS (or other approved Stan/Eval software) will be restricted as much as the application allows to prevent unauthorized access.

6.8.4. **(Added)** Requisite exams and Boldface/CAPS will be supervised by a testing monitor and should be graded, scored, and logged immediately upon completion by GTIMS (or other approved Stan/Eval software). If a Boldface/CAPS exam is completed via paper, the test must be graded immediately upon completion by an approved testing monitor.

6.9.5. **(Added)** Failed examinations will be tracked via GTIMS (or other approved Stan/Eval software). Squadron Stan/Eval will notify the Squadron Flight Scheduling office immediately to ensure the member is removed from the flying schedule or placed on supervised status in accordance with this AFI. In addition, Squadron Stan/Eval will send an email notification to OGV, the member's supervisor, commander, Director of Operations, or their designated representatives.

6.10.2. **(Added)** At a minimum, periodic testing will be accomplished annually. Aircrew members who do not accomplish a periodic exam by the end of a testing period should be grounded until successful completion. At the end of each testing period, Squadron Stan/Eval will report incomplete or failed exams to the SQ/CC, or designated representative.

6.10.3. **(Added)** Periodic testing will be accomplished in GTIMS (or other Stan/Eval approved software) to the maximum extent possible. The minimum passing grade for periodic tests will be 85 percent. Aircrew members who fail the periodic exam may retest without restrictions.

6.10.4. **(Added)** Boldface will be accomplished on a monthly basis prior to the first flight of the month, unless otherwise specified by 100 OG/OGV. Members failing boldface/CAPS tests are grounded, and will be notified immediately by GTIMS upon completion of the test. Members will retake the test until receiving a score of 100%. The requirements in paragraph 6.9.2 do not

apply to monthly boldface exam failures. Members may immediately retake the monthly boldface exam after a failure.

7.3.6.2.2.1. **(Added)** For Operational Mission Evaluations (OMEs), enter the date of the last flight accomplished.

Table 7.1. Note 7 **(Added)** The Chief of Squadron Stan/Eval may sign as Reviewing Officer in instances where the DO would sign.

7.3.11.3.3.2. **(Added)** In absence of AFMAN/AFI 11-2MDS Vol 2 guidance, include the following:

7.3.11.3.3.2.1. **(Added)** If AAR was completed during the evaluation, provide the AAR area, type of receiver, and number of receivers refueled.

7.3.11.3.3.2.2. **(Added)** If an EPE was conducted, provide a brief description of the emergency scenario.

7.3.11.6.1. **(Added)** All Forms 8 other than those graded Q1 will be reviewed by 100 OG/OGV. OGV reviews will be annotated as "OGV _____" under the Additional Reviews heading in Section VIII of the Form 8. Once the Form 8 is ready for signatures, Squadron Stan/Eval will notify OGV. OGV will review the document, initial in the space, and forward the Form 8 for signatures.

7.3.12.1.1. **(Added)** SEFEs will post suitable temporary evaluation documentation to the FEF no later than COB the duty day following the completion of the last flight phase requisite.

7.3.12.6.1. **(Added)** The temporary evaluation documentation will be an AF Form 3862, draft Form 8, or 100 OG Checkride Notetaker. This form of documentation must be signed, dated, and list the type of evaluation that was conducted. See paragraph 7.3.12.2 for further guidance concerning temporary evaluation documentation.

7.4.7.6.1. **(Added)** In accordance with paragraph 3.2.2.2.1 **(Added)**, if required, OGV will review the Form 8 and provide initials in Section VIII Additional Comments prior to the flight examiner signature.

7.7.1.1.1. **(Added)** While FEFs may not contain additional documents, the following items will be installed locally for organization and document protection purposes: (1) an AF Form 614, Charge out Record, will be the first (highest) item the right side of the folder, (2) a plastic transparency sheet will be placed above the most recent AF Form 942, Record of Evaluation, and the most recent Form 8 (or associated MFR), and (3) a divider sheet will be placed above of the last Form 8 filed before the member arrived at Mildenhall. The design of the transparencies and dividing sheet is at the discretion of Squadron Stan/Eval.

7.7.4.3.1. **(Added)** Crew position will be included on the FEF label.

7.7.5.1.1.1. **(Added)** All FEFs will be maintained by CCV. All FEFs will receive an initial review. Squadron Stan/Eval is responsible for maintaining a checklist to assist in the review process.

7.8.7.1. **(Added)** Unit AF Form 4348 procedures, 100 OG will use the Letter of Certifications IAW paragraph 7.8.1.6.1 **(Added USAFE-AFAFRICA)**. See Attachment 9 **(Added)** for Letter of Certifications local guidance.

9.1.1.5. **(Added)** OGV will produce and maintain the master FCIF library on either a locally generated standalone document or through GTIMS (or other Stan/Eval approved software).

9.1.1.5.1. **(Added)** Classified entries will be cross-referenced to the Classified FCIF Volume I binder stored in 100 OSS/IN. This binder will only be maintained if classified entries exist.

9.1.2.1.1.1. **(Added)** OGV will produce and maintain Volume I on either a locally generated standalone document or through GTIMS (or other Stan/Eval approved software). See OGV standalone document for e-library policy and procedures.

9.1.2.1.2.6. **(Added)** OGV will produce and maintain a separate rescinded FCIFs index on either a locally generated standalone document or through GTIMS (or other Stan/Eval approved software).

9.1.2.1.3.1. **(Added)** Part C, Squadron Read File. OGV will produce and maintain a single numerical index on either a locally generated standalone document or through GTIMS (or other Stan/Eval approved software).

9.1.2.7. **(Added)** The 100 OG FCIF library is maintained electronically.

9.1.2.7.1. **(Added)** OGV is responsible for maintaining the e-pubs library. This includes managing the Local EGUN folder on the AMC e-pubs sharepoint site. When changes to publications occur, OGV will update the AMC sharepoint site, publish a new version of e-pubs on the stand-alone computers and local share-drive, and notify crew members an FCIF has been released as soon as possible.

9.1.2.7.2. **(Added)** For guidance on additional flight dispatch items (i.e. mission kits, additional Squadron Stan/Eval managed checklists, flight laptops, etc.) refer to Squadron OI or locally generated process guide.

9.1.2.7.3. **(Added)** OGV will review all publication changes and interim safety or operational supplements before distribution.

9.1.2.7.4. **(Added)** Publications/Tech Order/EFB Currency. All required hard copy and electronic publications, FLIP, and EFB requirements must be current and reflect the latest changes posted by OGV.

9.4.7. **(Added)** Flight Authorization Approving Officials (FAAOs) and Squadron Aviation Resource Management (SARM) will verify go/no-go status when flight authorizations are signed. If a discrepancy is noted in GTIMS at the time the flight orders are signed (i.e. an event that is overdue but has been waived or previously logged), the flight authorization official will make written authorization and provide specific justification to the aircraft commander. Prior to the flight, aircraft commanders will use GTIMS to verify the items listed in paragraph 9.4.1. through paragraph 9.4.5 and will follow the most current version of the Aircraft Commander Go/No-Go checklist that is published in dispatch. If a no-go indication exists, the aircraft commander will not allow the affected crewmember(s) to fly until clarification is made with the FAAO. If GTIMS is not available, aircraft commanders will utilize the most current version of the Aircraft Commander Go/No-Go Checklist (GTIMS Unavailable) and use available ARMS/Go/No-Go products as a means of verification.

9.4.8. **(Added)** IAW paragraph 6.10.4 **(Added)**, aircrew members will complete and log monthly boldface exams in GTIMS or via paper copy. If off-station TDY, crew members will complete boldface exams electronically upon return and prior to their first flight from Mildenhall

that month. If boldface is completed via paper, the boldface will be graded by an aircraft commander or instructor. If monthly Boldface exams are failed, crew members are required to retake the Boldface exam until reaching a passing score of 100%. The requirements in paragraph 6.9.2 do not apply to monthly boldface exam failures. Members may immediately retake the monthly boldface exam after a failure.

9.4.9. **(Added)** Operational Risk Management (ORM). Aircrew will complete the Aviation Operational Risk Management (AvORM) worksheet prior to flight, including the factors affecting individual readiness to fly. Inform the appropriate approval authority, as applicable, for ORM scores that are moderate or greater.

9.4.10. **(Added)** Pre-Mission Paperwork. Once the crew has completed their mission planning, the aircraft commander will file a signed copy of the flight plan (if applicable), flight authorizations, Form-F, completed AvORM worksheet (unless completed via the online MAF Mission Aviation ORM Worksheet), equipment hand receipts, and passenger manifest (if applicable) in dispatch.

9.5.3.3. **(Added)** Supplementary evaluations will be accomplished on programs specified by the 100 OG/CC during semi-annually scheduled SEBs or at the commanders discretion. Evaluation results will be staffed through 100 OG/OGV and provided for review by 100 OG/CC.

9.5.6. **(Added)** An annual review of the Go/No-Go process will be performed by Squadron Stan/Eval with oversight from OGV to ensure compliance with this supplement.

CHRISTOPHER R. AMRHEIN, Brig Gen, USAF
Commander, 100th Air Refueling Wing

## GLOSSARY OF REFERENCES AND SUPPORTING INFORMATION

***References***

AFI 11-202V2_USAFE-AFAFRICASUP, *Aircrew Standardization and Evaluation Program*, 10 Jun 2019

***Abbreviations and Acronyms***

**(Added) 100 ARW**—100th Air Refueling Wing

**(Added) 100 OG/OGV**—100th Operations Group Stan/Eval

**(Added) EFB**—Electronic Flight Bag

**(Added) FAAO**—Flight Authorization Approving Official

**(Added) GTIMS**—Graduate Training Integration Management System

**(Added) SARM**—Squadron Aviation Resource Management

## Attachment 7 (Added)

## SPOT FLIGHT EXAMINER OBJECTIVITY EVALUATION GUIDANCE

A7.2.1.2.1. **(Added)** The evaluator failing the evaluation will meet with the SQ/CC (SQ/CC designated evaluators) or the OG/CC (OG/CC designated evaluators) before additional training or recheck will occur. The associated commander may choose to not re-certify the evaluator. If the evaluator will be re-certified, the evaluator must accomplish, at a minimum, all assigned additional training, and receive an overall grade of Q on a subsequent objectivity evaluation.

## Attachment 8 (Added)

## BRIEFING FACILITIES GUIDANCE

**A8.1. (Added)** Squadron Stan/Eval will ensure all required briefing items are available in the locations listed in Table A8.1.

**A8.2. (Added)** Currency and correctness will be maintained as follows:

A8.2.1. **(Added)** OGV will maintain the 100 OG e-pubs and publish updates to the 100 OG In-Flight Guide.

A8.2.2. **(Added)** OGV will provide all FLIP items via electronic means, such as AERO data or e-pubs, on the electronic flight bag (EFB).

A8.2.3. **(Added)** Squadron Stan/Eval will maintain all items in the mission planning area and briefing rooms, including the Supplemental Briefing Materials Binders, briefing/bulletin boards, desktop computers, and associated items and equipment.

A8.2.4. **(Added)** Squadron Stan/Eval will maintain a Supplemental Briefing Materials Binder in each briefing room containing all current SIIs (separated by issuing authority) and a current copy of the 100 OG Single Ship and Formation Briefing Guides.

A8.2.5. **(Added)** All aircrew will have an EFB present and in compliance with EFB program guidance during aircrew briefings. The Aircraft commander will ensure all crewmembers have current FLIP on their EFB.

**A8.3. (Added)** OGV and Squadron Stan/Eval will notify all flyers of any changes to briefing materials for which they are responsible by sending an email to the 100 OG Flyers distribution list. Changes announced in an FCIF or read file and changes associated with regular 28-day FLIP cycles do not need to be announced by email. All assigned and attached aircrew members are responsible for ensuring their official email address is associated with the 100 OG Flyers email distribution list.

## Attachment 9 (Added)

## LETTER OF CERTIFICATION GUIDANCE

**A9.1. (Added)** Squadron Stan/Eval will provide overall management of the Letter of Xs (Letter of Certification) program.

A9.1.1. **(Added)** The Letter of Xs will be final when the SQ/CC signs it in GTIMS (or other Stan/Eval approved software). If the SQ/CC is not available to sign, the SQ/DO may sign the Letter of Xs.

A9.1.2. **(Added)** The final Letter of Xs will be posted in two places: (1) Go/No-Go binder in dispatch room (master copy) and (2) GTIMS (or other Stan/Eval approved software).

**A9.2. (Added)** Squadron Stan/Eval will create a new Letter of Xs to incorporate all changes each month. This process will not delay the go/no-go process for certifications or qualifications accomplished after the current Letter of Xs was published. Pen and ink updates to the master copy of the Letter of Xs for certifications and qualifications dated after the most current Letter of Xs will provide valid go/no-go justification if the update is signed by the SQ/CC, SQ/DO, SQ/ADO, or the Chief of Squadron Stan/Eval.

**A9.3. (Added)** For commander-directed decertifications, place a line through the certification text using the strikethrough function of the spreadsheet application (i.e., ~~FPQ~~) and state "Commander decertified" in the notes/comments column along with an additional explanation as needed.

**Attachment 10 (Added)**

**EXAMPLE SEFE FLIGHT EVALUATION CHECKLIST**

Prior to Mission Brief
_____If N/N, coordinate with the 351 ARS/CC and the examinee's Sq/CC or supervisor (as applicable) as to when notification of the N/N evaluation will occur. (351 ARS/CC approval is required if CCV is administering the evaluation.)
_____Confirm mission briefing time.
_____Determine profile with examinee (to include instructor briefing topic, if examinee desires).
_____Review status of requisites (n/a for N/N).
_____Check schedule to confirm not primary crewmember (INIT and RQ evaluations must have an instructor in the seat).
_____Prepare note-taking materials. Use the 100 OG checkride notetaker, if desired.

_____If N/N, ensure you offer and ensure the examinee accepts, if desired, the opportunity to update his/her checkride expiration date BEFORE the start of the mission briefing.

Prior To Flight
_____If N/N, ensure you meet all go/no-go requirements and write your name onto the flight orders.
_____Brief mission requirements, FE action/position during the evaluation, conduct during emergencies, oxygen/interphone use, etc. (briefing guide included in 100 OG notetaker).
_____Confirm go/no-go items.

During Flight
_____Document the examinee’s performance in sufficient detail to accurately reconstruct the flight for grading and debrief purposes.

After Flight
_____Verbally evaluate remaining requisites (hazardous cargo, overrun, etc.)
_____Ensure all requisites are completed IAW 11-2KC-135V2.
_____Perform publications check if not previously accomplished.
_____Schedule/conduct EPE if not previously accomplished.
_____Schedule debrief with examinee.
_____Notify the appropriate squadron CC/DO (or other designated squadron representatives) and supervisor of the time and location of the debriefing.
_____Notify ARS/CC/DO (100 OSS/CC/DO as applicable), 100 OG/OGV and the individual’s supervisor of overall grade less than Q-1.

Complete Required Paperwork
_____Ensure sufficient temporary documentation is filed in the FEF no later than COB the duty day after the last flight phase requisite.
_____Complete Form 1522.
_____Turn in Form 3862 and required EPE documentation or current notetaker coversheet to

CCV no later than COB the duty day following the last flight phase requisite.

_____With SELO assistance, ensure draft Form 8 is created and information entered into approved Stan/Eval software no later than seven days after the last flight phase event.
_____Be available to sign additional drafts of the Form 8 or communicate conflicts to CCV.
