IAW Defense Information Service Agency (DISA)
Security Technical Information Guides (STIG)

The Maxwell Network Control Center (NCC) will ensure physical security prevents unauthorized access to equipment, facilities, material, and data; and to safeguard them against espionage, sabotage, damage, and theft. The NCC will ensure physical security of all local AF-GIG infrastructure components regardless of their location.

Communications Room doors

MUST be locked

at all times.

No storage permitted.

Report unsecure rooms to the Maxwell Communications Focal Point / 953-1000

MAXWELLAFBVA 33-102, Per DISA STIG, 2 February 2015
