This publication implements DAFI 21-101, *Aircraft and Equipment Maintenance Management*, **Chapter 8** and applicable command and local supplements. It provides guidance and procedures on tools, equipment, and electronic devices that must be controlled to prevent and eliminate foreign object damage (FOD) to aircraft, engines, and support equipment, and to reduce costs through strict, effective control and accountability of assets. To ensure standardization among maintenance units, commanders and key leaders are responsible for executing an effective tool program. MAJCOMs will identify small unique unit tool and equipment management requirements in a supplement, addendum or deviation as described in the purpose statement of this AFI. It applies to individuals at all levels including the Air Force Reserve and Air National Guard (ANG) who are assigned to and or operating within McConnell Air Force Base (AFB). This publication may be supplemented at any level, but all supplements must be routed to the Office of Primary Responsibility (OPR) listed above for coordination prior to certification and approval. Refer recommended changes and questions about this publication to the OPR listed above using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through the appropriate chain of command. Requests for waivers must be submitted to the OPR listed above for consideration and approval. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force AFI33-322, *records Management and Information Governance Program*, and disposed of in accordance with Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS) at **https://www.my.af.mil/afrims/afrims/afrims/rims.cfm**. The use of the name or mark of any

specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

SUMMARY OF CHANGES

This document has been substantially revised and must be completely reviewed. **1. DEFINITIONS:**

1. CONTROLLED AREAS: AIRCRAFT PARKING AREAS, RUNWAYS, TAXIWAYS AND MAINTENANCE AREAS.
