**(Added-AFNWC)** This publication supplements the guidance of DODI5000.89_DAFI99-103_AFMCSUP, *Capabilities-Based Test and Evaluation.* This publication applies to all Air Force Nuclear Weapons Center (AFNWC) units. This publication does not apply to the Air National Guard or the Air Force Reserve Command except for units under AFMC Operational Control. AFNWC units geographically separated from Kirtland Air Force Base shall comply with this supplement in addition to local guidance at their host base set forth in their Memorandum of Agreement (MOA) or Memorandum of Understanding (MOU). In the event of a conflict between this supplement and local MOA/MOU guidance, a proposed solution shall be negotiated at the unit working level. The proposed solution shall be coordinated with the AFNWC Center Test Authority (CTA) and at an appropriate level with the Host Unit. The agreement, deviation, or waiver for the agreed upon solution shall be approved by the AFNWC Commander (CC) and the Host Unit CC or their delegated authority. This supplement may be supplemented at any level, but all supplements must be routed to the AFNWC CTA for coordination prior to certification and approval. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through appropriate functional's chain of command. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and disposed of IAW Air Force Records Information Management System Records Disposition Schedule.

***SUMMARY OF CHANGES***

**(Added-AFNWC)** This document has had several changes made to it. This rewrite comprises mainly of a change to Technical Review Board (TRB) Chair qualifications, a specific requirement for tests using a Program Management Office (PMO) Alt LDTO to have the Test and Evaluation Master Plan (TEMP) signed by the CTA, and various administrative updates.

2.17. e.(1). **(Added-AFNWC)** The Portfolio Acquisition Executive or Milestone Decision Authority (within the AFNWC) may delegate the Mission-Oriented Test Readiness Certification Official duties to the CTA for ACAT III Programs that are both not on the OSD oversight list and have a MAJCOM-assigned OTO.

2.18. f.(4). **(Added-AFNWC)** If at any time during the execution of a test program under the purview of an Alternate LDTO, the safety and/or technical risk rises above Low for a specific test event or the test program, coordinate for the designation of a LDTO from the approved AFMC LDTO candidate list.

2.18. f.(5). **(Added-AFNWC)** If testing is determined to be Low safety and technical risk for a program utilizing an Alternate LDTO, appoint a Test Execution Authority (TEA) at no lower than the Materiel Leader, Division Chief, or Squadron Commander-equivalent to approve testing for each test event. See DAFI91-202_AFMCSUP, *The Department of the Air Force (DAF) Mishap Prevention Program*. The final acceptance of test technical risk resides with the test sponsor.

2.18. i.(2). **(Added-AFNWC)** Test activities and resources required to accomplish Nuclear Certification activities will be documented in the specific program's TEMP or Test and Evaluation Strategy.

2.18. n.(1). **(Added-AFNWC)** Ensure the Nuclear Certification Requirements Plan is aligned.

2.18. n.(2). **(Added-AFNWC)** Ensure test requirements needed to obtain Mission Worthiness certification are aligned. Coordinate with AFNWC, Nuclear Command, Control and Communications Integration Directorate (NC) to determine if any test requirements apply.

2.18. jj. **(Added-AFNWC)** Coordinate with the CTA for comment on all T&E related documentation for all programs using a LDTO from the AFMC-approved LDTO candidate list, to include TEMPs, Integrated Test Team Charters, Nuclear Certification Requirements Plans, and Mission-Oriented Test Readiness Certifications prior to the start of Operational Test and Evaluation.

2.18. kk. **(Added-AFNWC)** Coordinate with the CTA office for approval of all TEMPs, test plans and test reports for programs utilizing an Alternate Lead Developmental Test and Evaluation Organization (Alt LDTO).

2.18. ll. **(Added-AFNWC)** Ensure all items requiring nuclear certification are certified IAW AFI 63-125, *Nuclear Certification Program*. If assistance is needed, contact the Nuclear Technology and Integration Directorate (NT).

2.20. s. **(Added-AFNWC)** If at any time during the execution of a test program under the purview of an Alternate LDTO, the safety and/or technical risk rises above Low for a specific test event or the test program, the Test Manager will immediately engage with the CTA. The CTA will coordinate with AFNWC Safety (SE) to determine the best path forward to mitigate the risk.

2.22. ff. **(Added-AFNWC)** A representative for Nuclear Certification Testing shall be included on the Integrated Test Team when Nuclear Certification is required.

2.22. gg. **(Added-AFNWC)** A representative for Mission Worthiness certification requirements (AFNWC/NC) shall be included on the Integrated Test Team, if applicable.

2.24. c.(1). **(Added-AFNWC)** The CTA will have a representative on all Integrated Test Teams.

2.24. d.(1). **(Added-AFNWC)** For programs utilizing an Alternate LDTO, the CTA will approve candidates to chair TRBs and Safety Review Board (SRBs) in coordination with AFNWC/SE (**Paragraph 2.26**) via memorandum at the start of the calendar year.

2.24. l. **(Added-AFNWC)** Assist in developing Nuclear Weapon Subsystem Test plans and TEMPs for each nuclear weapon and weapon delivery system assigned to the AF IAW DoDM5030.55_AFMAN63-103, *DoD Procedures for Joint DoD-Department of Energy/National Nuclear Security Administration (DOE/NNSA) Nuclear Weapon Life-Cycle Activities*.

2.24. m. **(Added-AFNWC)** Approve and sign all TEMPs, test plans and subsequent test reports for programs using an Alternate LDTO.

2.24. n. **(Added-AFNWC)** For programs utilizing an Alternate LDTO, participate in Test Readiness Review (TRRs) as a voting "go/no-go" member.

2.25. **(Added-AFNWC) Execution Directors.** This section applies to Directors for the following AFNWC Directorates: Nuclear Command, Control & Communication Directorate (NC), Air Delivered Capabilities Directorate (ND), Nuclear Technology and Integration Directorate (NT), and the ICBM Systems Directorate (NI). Each Director will:

2.25. a. **(Added-AFNWC)** For programs utilizing an Alternate LDTO, nominate potential TRB and SRB chairs to the AFNWC CTA and AFNWC/SE (respectively) for approval on an annual basis each January by memo, or when changes in appointments occur. TRB Chair candidates must be independent government employees and possess the technical qualifications to perform these duties. TRB Chair candidates should be Acquisition Professional Development Program (APDP) "Practitioner" certified in Test and Evaluation (T&E) or Engineering and Technical Management (ETM) if the person also has T&E experience. See **paragraph 3.12**b.(2).(a). **(Added-AFNWC).** SRB Chair qualifications can be found in DAFI 91-202_AFMCSUP.

2.25. b. **(Added-AFNWC)** For programs utilizing an Alternate LDTO, in addition to the CTA, approve test plans. This authority may be delegated to an O-6/GS-15 equivalent level with test experience within the directorate or to the designated Test Execution Authority (TEA).

2.26. **(Added-AFNWC) AFNWC/SE** . For programs utilizing an Alternate LDTO, AFNWC/SE will, in conjunction with the CTA, approve candidates to chair SRBs to ensure thorough assessment of test plans for safe conduct and assign SRB members as appropriate. For additional Safety Office responsibilities, refer to DAFI 91-202, *The Department ofthe Air Force (DAF) Mishap Prevention Program*, and its AFMC Supplement.

3.12. b.(2). **(Added-AFNWC)** For programs utilizing an Alternate LDTO, the TRB chair will produce a document (e-mail, form, memo, or report) identifying the board members and detailing the technical risks associated with the test event. The document will include the original risk level, details on potential mitigation measures, and the risk level after potential mitigation measures. Supporting information can be included as an attachment to the document. The TRB document will be used to inform the TRR and the AFNWC CTA of technical risks associated with the test

event. Refer to AFI 63-101_20-101, *Integrated Life Cycle Management*, for guidance on completing this risk matrix. For programs with a formally assigned LDTO from the AFMC-approved list, TRB processes and scope established by the LDTO should be utilized.

3.12. b.(2).(a). **(Added-AFNWC)** For programs utilizing an Alternate LDTO, the TRB chair must meet the requirements in **Table 4**. The CTA is the waiver authority.

**Table 4. (Added-AFNWC) Alternate LDTO TRB Chair Requirements**

| Requirements | | | |
|---|---|---|---|
| **Instruction Review** | **TRB Experience** | **Training** | **Validation** |
| Read DAFI 91-202_AFMCSUP (Chap 16)<br><br>Read DODI5000.89_DAFI99-103_AFMCSUP (2.20.i. and 3.12)<br><br>Read DODI5000.89_DAFI 99-103_AFMCSUP_AFNWCSU (3.12.b.(2).) | (Before chairing ground TRB) Attend two ground TRBs<br><br>(Before chairing flight TRBs) Attend two flight TRBs<br><br>Chair one TRB under mentorship of qualified TRB Chair | APDP T&E or ETM Practitioner Certification<br><br>Minimum of two years of T&E experience if ETM certified | Nomination memo (Directorate level)<br><br>CTA approval letter |

3.12. c.(1). **(Added-AFNWC)** For programs utilizing an Alternate LDTO, the SRB chair will produce a document (E-mail, form, memo, or report) detailing the test hazards associated with the test event. The document will include at a minimum, SRB date, test plan identification, list of SRB members and attendees, action items or items to be noted or document (if applicable), overall test safety risk determination, and the determination of risk acceptance authority and approval recommendations. The SRB document will be used to inform the TRR and the AFNWC CTA of safety risks associated with the test event. Refer to DAFI 91-202_AFMCSUP, for additional guidance on completing the test's SRB process. For programs with a formally assigned LDTO from the AFMC-approved list, SRB processes and scope established by the LDTO should be utilized.

5.3. a.(2). **(Added-AFNWC)** A TRR, chaired by the Chief Developmental Tester/Test Manager, shall be conducted prior to the test event (recommended no less than seven days) and should be attended by the TRB Chair, SRB Chair, Test Director, LDTO Representative, and any organization or group that is providing an essential asset, range, people, equipment, etc. for the successful execution of the test. If the TRR Chair approves, the TRR may be completed remotely or electronically without needing a meeting. The TRR may be held over multiple meetings for complex test events to address risks to resource deployment, support unit commitments, and any other areas before final test execution approval. For programs utilizing an Alternate LDTO, the CTA will be a voting "go/no-go" member at TRRs.

5.3. a.(2).(a). **(Added-AFNWC)** TRR Package. For any test events having an AFNWC-level TRR board vote, the TRR package will be reviewed by the CTA. For test events having an Alternate LDTO designation, the completed TRR package will be filed with the CTA. The following will be considered the minimum content for a TRR Package:

5.3. a.(2).(a).1. **(Added-AFNWC)** An approved and signed test plan.

5.3. a.(2).(a).2. **(Added-AFNWC)** A Safety Release from the PM, if applicable

5.3. a.(2).(a).3. **(Added-AFNWC)** An approved and signed TRB document.

5.3. a.(2).(a).4. **(Added-AFNWC)** An approved and signed SRB document.

5.3. a.(2).(a).5. **(Added-AFNWC)** Go/No Go Criteria and status of each.

5.3. a.(2).(a) 6. **(Added-AFNWC)** Approval to proceed from the TEA.

5.3. a.(2).(b). **(Added-AFNWC)** While no specific format is required, a TRR Briefing Template and checklist can be downloaded from the AFNWC/EZT SharePoint site: **https://usaf.dps.mil/sites/AFNWC/EN/EZT/SitePages/Templates.aspx**
