Air Force Job Qualification Standard
1C8X3-205K
30 September 2026

AN/TRN-41 TACTICAL AIR NAVIGATION (TACAN)
(Radar, Airfield, and Weather Systems Journeyman)

ACCESSIBILITY: Publications are available on E-Publishing.

RELEASABILITY: Access to this publication is restricted: this publication may not be released to foreign nationals.

---

1. **PURPOSE.** The purpose of this Air Force Job Qualification Standard (AFJQS) is to standardize on-the-job training (OJT) tasks and fulfill the requirement of an approved training program for the purposes of qualification on titled equipment or position. This AFJQS is intended to be used by field training personnel to plan, conduct and document training completion.

2. **TASK QUALIFICATION.** All personnel will be qualified to the GO/NO GO standard for each task listed in this AFJQS. GO means the individual can perform the task without assistance utilizing appropriate instructions or other procedural guidance. A "✓" indication in the Critical Task column on the AF797 of this AFJQS denotes a task that, when not executed in alignment with prescribed technical standards, has the potential to impede the full mission capability of the equipment or compromise the safety of personnel and/or equipment. Tasks from this AFJQS that are loaded to the work center's Master Training Plan (MTP) require 100% task coverage within the work center. All assigned personnel must accurately perform each assigned task unassisted, according to this AFJQS, before completing training.

3. **TRAINING DOCUMENTATION.** Document training required by this AFJQS in accordance with DAFMAN 36-2689, *Training Program*. There are no tasks requiring third-party certification. The trainer and trainees will use this AFJQS in conjunction with the 1C8X3 Career Field Education and Training Plan (CFETP). Training is to be conducted by the Airman's supervisor or applicable subject matter expert and documented in the training tracking system of record, TBA 2.0 as of the publishing of this AFJQS.

4. **PACKAGE INFORMATION.** This AFJQS supersedes all previous versions and should be reviewed in its entirety. This package was produced using subject matter expertise from personnel qualified to perform the duties being trained. Subject matter expertise was provided by TSgt Morgan Giacomelli, ACC 53 CAOS, and SSgt Declan Reeves, USAFE 1 CBCS. Submit recommended improvements or corrections to the RAWS Training Development Flight at 334TRS.RAWS.UpgradeTraining@us.af.mil or DSN: (312) 597-7297.

5. This AFJQS has been coordinated with all applicable stakeholders. The overall point of contact (POC) for this AFJQS is HAF/A34A, DSN 312-222-7919, AF.A3OJD.1C8CFM-RAWS@us.af.mil.

HARLEY T. BRYDON, CMSgt, USAF
Career Field Manager, 1C8
