---

This publication supplements Department of Defense (DoD) and Air Force guidance by providing policies and procedures for the Air National Guard base level responsibilities of the base workday program. This instruction applies to all ANG Comptroller Flights, and any other accounting and finance offices which support payments and funds accountability. Maintain and dispose of all records created as a result of prescribed processes in accordance with Air Form Manual (AFMAN) 37-139, Records Disposition Schedule and DoD 7000.14-R Financial Management Regulation (FMR) Volume 1 Chapter 9; Financial Records Retention. Ensure all records generated as a result of processes prescribed in this publication adhere to AFI 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the DAF Form 847, *Recommendation for Change of Publication*; route DAF Forms 847 from the field through the appropriate functional chain of command. The authorities to waive wing, unit, delta or garrison level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. Submit requests for waivers through the chain of command to the appropriate Tier waiver approval authority, or alternately, to the publication OPR for non-

tiered compliance items. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Department of the Air Force.

***SUMMARY OF CHANGES***

This document has been revised and should be completely reviewed. Changes include office symbol updates, form requirement updates, and regulation and references changes.

# Chapter 1

# PROGRAM OVERVIEW

**1.1. Overview.** The authorization and limitations for Air National Guard (ANG) use of the Defense MilPay Office (WebDMO) and the Air National Guard Reserve Order Writing System (AROWS) have been coordinated and approved through the Air Force Accounting Office (SAF/FMFF) and the Defense Finance and Accounting Service (DFAS).

**1.2 Applicability.** The provisions of this instruction are mandatory for members of the ANG. Deviations are not authorized without approval from the National Guard Bureau Financial Management Directorate (NGB/FM). 1.1.1.

## Chapter 2
## ROLES AND RESPONSIBILITIES

**2.1. The Adjutant General will:**

2.1.1. Exercise oversight for the State workday and financial management (FM) program.

2.1.2. Ensure the financial policies and procedures are in accordance with all applicable policies and directives.

**2.2. The United States Property and Fiscal Officer (USPF&O) will:**

2.2.1. Advise the Adjutant General of the status of the workday/funding programs under their control.

2.2.2. Review the workday program allocation and program execution at each base under their control to ensure compliance with current policies and directives. A monthly review of the base workday summary reports is recommended.

**2.3. The Wing/Base Commander will:**

2.3.1. Manage the base level ANG workday program.

2.3.2. Ensure the Base Financial Manager/Comptroller are designated alternates are appointed on a DD Form 577, Appointment/Termination Record, or appointment letter.

**2.4. The Base Financial Manager/Comptroller (Assistant USP&FO for Fiscal) will:**

2.4.1. Implement the base level workday/funding program.

2.4.2. Sub-allocate workdays/funding to the units.

2.4.3. Transfer workdays/funding between units.

2.4.4. Schedule, review, and distribute workday management products.

2.4.5. Request re-phasing of workdays/funding through NGB/FM and/or Air National Guard Readiness Center Directorate Resource Advisors/Program Managers.

2.4.6. Provide the Wing/Base Commander and USPF&O monthly copies of workday/funding reports.

2.4.7. Serve as the base focal point for all workday/funding requests and inquiries to/from NGB/FM.

2.4.8. Monitor data systems used to support the workday/funding accounting and military pay programs.

2.4.9. Monitor workday/funding usage and availability ensuring quarterly allocations are not exceeded.

2.4.10. Brief the base Financial Management Board (FMB) on workday/funding status and trends that may affect the workday resource program.

2.4.11. Ensure technician time and attendance records are audited to detect and correct instances of dual compensation.

2.4.12. Ensure excessive system access is audited once a month and separation of duties internal control is maintained.

**2.5. The Unit Commander will:**

2.5.1. Serve as the Responsibility Center Manager (RCM) and is normally the Group or Squadron Commander. The RCM is responsible for planning, directing, and coordinating the activities of their organization (IAW ANGI 65-601, Air National Guard (ANG) Resource Management Policies and Responsibilities for Commanders).

2.5.2. Appoint Resource Advisor(s) (RA) to manage the unit's workday/funding programs. Ensure each RA completes training prior to appointment and send copies of appointment training certification to the Comptroller.

2.5.3. Monitor member's duty performance to ensure compliance with ANGI 36- 2001, Management of Training and Operational Support within the Air National Guard.

2.5.4. Review unit level workday/funding resource products to ensure appropriate use of workdays/funding.

**2.6. The Unit Resource Advisor (formerly known as the Unit Workday Control Officer) will:**

2.6.1. Be appointed in writing by the unit commander. These appointment letters are subject to Comptroller concurrence and validation of completed of training.

2.6.2. Verify the availability of unit workdays/funding prior to approving requests for orders.

2.6.3. Monitor unit workday balances.

2.6.4. Request re-phasing or additional unit workdays/funding through the Comptroller.

2.6.5. Provides unit workday status to Comptroller upon request.

2.6.6. Review unit workday management products and initiate necessary changes or corrections.

# Chapter 3
# GENERAL GUIDANCE AND PROCEDURES

## 3.1. Signatures and Certification.

3.1.1. Signature Acceptance. All financial documents must be signed using a DoD Public Key Infrastructure (PKI) CAC certificate utilizing one of the Air Force approved digital signature applications or manually signed with a written "pen and ink" signature as proper methods of authentication as defined in AFI 33-321, Authentication of Air Force Records.

3.1.1.1. Wet Signature Acceptance. Wet (pen and ink) signatures are acceptable on any printed document.

3.1.1.1.1. Documents may be submitted with wet signatures or digital signatures.

3.1.1.1.1.1. It is not permissible to have a mix of wet and digital signatures on any document.

3.1.1.1.2. All documents must be legible.

3.1.1.1.3. Documents may be prepared in ink or using a computer.

3.1.1.1.4. Corrections may be made with "pen and ink". Draw a single line through the incorrect entry and initial; do not obliterate the original entry.

3.1.1.1.5. White out or corrective tape will not be used.

3.1.1.2. Electronic Signature Acceptance. Electronic signatures are acceptable on any digitally signed document.

3.1.1.2.1. Financial documents with the typed work "//SIGNED//" will not be accepted as a valid certified or approved document.

3.1.1.2.2. Digitally signed documents that are printed may not be used for official records.

3.1.2. Electronic Pay Certification. Members are not required to provide hard copy documentation (i.e. wet signed) to FM for payment if the electronic signatures are maintained within a system and the documents are initiated, approved, and certified for payment within said system (i.e. AROWS, ATAAPS, DTS, etc.).

3.1.3. Preparation, Approval, and Funds Certification of Financial Documents. Members are not required to provide hard copy documentation (i.e. wet signed) to FM for payment if the electronic signatures are maintained within a system and the documents are initiated, approved, and certified for payment within said system (i.e. AROWS, ATAAPS, DTS, etc.).

3.1.3.1. Maintaining separation of duties ensures no one individual has control over the entire process and is of the utmost importance in preventing mismanagement of funds.

3.1.3.2. To ensure effective internal controls, three different individuals are required to prepare, approve, and certify financial documents regardless of the automated system in which they are prepared.

3.1.3.3. Separation of duties may be waived in contingency operations in order to balance mission accomplishment with acceptable risk. The waiver applies only when an approved automated system cannot be utilized and thus these documents must be prepared manually. In these circumstances, the following statements must be printed on the form depending on which condition applies:

3.1.3.3.1. "This document was created manually while in a contingency operation due to the lack of an approved automated system."

3.1.3.3.2. "There are not enough personnel at the deployed site for three different individuals to prepare, approve, and certify this document."

3.1.4. The preparer of workday/funding documents may be a military member, government employee, or a government contractor. However, the approver and funds' certifier must be a properly appointed/authorized military member or government employee.

3.1.5. Control tasks such as review, audit, and reconcile may not be performed by the same individual responsible for recording or reporting the transaction. Individuals authorized to perform an audit role in any automated workday/funding management system may not also possess the ability to input transactions into the same system (e.g. WebDMO). Individuals must not possess the ability to enter and audit the same transactions.

**3.2. Workday Management.**

3.2.1 General. Military pay personnel processes pay and entitlement transactions for ANG personnel. Workday commitments and obligations are updated when transactions are created and deleted. Workday status reports are generated each time a payroll is created. The resulting payroll files are electronically transmitted to DFAS.

3.2.1.2. The Comptroller enters the base workday allocations for Annual Training (AT), Special Training (ST), Full Time National Guard Duty (FTNGD), Formal Schools, Additional Flying Training Period (AFTP), Regularly Scheduled Drills (RSD), Readiness Management Period (RMP), and Additional Training Period (ATP), Equivalent Training (ET) and Funeral Honors Duty (FHD) workdays/funding into AROWS based on workday documents and instructions issued by ANGRC.

3.2.1.3. Workday accounting reports are generated and used by the Comptroller, Resource Advisors, and ANGRC to manage the workday program.

3.2.2. Authority to Expend Workdays. NGB/FM controls ANG workdays/funding through the use of annual workday programs and quarterly allocations. Units receive allocations for AT, ST, School, RSD, ATP, and RMP workdays/funding. Other workdays/funding (i.e. AFTPs, BMT, etc.) are regulated by statute or are specifically approved by and distributed through NGB/FM.

3.2.2.1. Annual workday allocations are communicated to units in the form of workday documents through the FM Checkbook application. Annual funding allocations are communicated to units in the form of funding documents issued to the USP&FO through Automated Funds Management (AFM) system. The USP&FO certifies the documents and forwards them to the Assistant USP&FO for Air (Fiscal). Changes to the annual allocations will be coordinated between the USP&FO and Comptroller.

3.2.3. Workday Accounting Stages.

3.2.3.1. Allocated. Workdays/funding are issued to the base for specific functions. The allocations are the limit beyond which the base will not commit or obligate.

3.2.3.2. Committed. Workdays/funding scheduled for dates after the current calendar day. A published special order must exist to support active duty records.

3.2.3.3. Obligated. Workdays/funding scheduled or performed on or before the present calendar day. A published special order must exist to support active duty records.

3.2.4. Military Payroll Process.

3.2.4.1. Financial transactions for inactive duty documents certified in AROWS are compiled into a batch file. Military pay personnel export the batch file from AROWS into WebDMO. The payroll file is electronically submitted to DFAS for payment.

3.2.4.2. Financial transactions for active duty documents certified in AROWS will route to the Military Pay Specialist inbox for review and final approval. Approved orders are exported to WebDMO. The payroll file is electronically submitted to DFAS for payment.

# Chapter 4
# INACTIVE DUTY PORCEDURES

## 4.1. Document Processing Procedures.

4.1.1. Effective 1 October 2015, AROWS was directed as the system used to create/update/delete inactive duty pay transactions in the Defense Joint Military Pay System – Reserve Component (DJMS-RC).

4.1.2. Authorization and Certification. USP&FOs and Assistant USP&FOs (i.e. appointed Comptrollers) will provide DD Form 577s appointing DAOs whose duties include authorization of attendance and certification of RSD attendance rosters and Individual Inactive Duty Performance.

4.1.3. Allocation. NGB/FM will allocate RSD, ATP, AFTP, RMP Inactive Duty Days by Wing via FM Checkbook.

## 4.2. Inactive Duty Processing Rules and Responsibilities.

4.2.1. Budget Analyst. Loads Pay and Allowance Days for all Inactive Duty, individual and group into AROWS once a workday documents is received. RSD, AFTP, ATP, and RMP Days are allocated by Wing from NGB/FM via FM Checkbook application.

4.2.2. ID Administrator (“Document Preparer”). Creates and disseminates RSD Roster in AROWS. Inputs RSD Attendance into AROWS. Creates, modifies, and cancels individual Inactive Duty Authorization Requests in AROWS.

4.2.3. Unit Commander (Hard Holds). Reviews and approves the Inactive Duty requests for specific situations to include, but not limited to, RD and ET IAW ANGI 36-2001 Management of Training and Operational Support within the Air National Guard.

4.2.4. ID Attendance Certifier (“Appointed Attendance Certifying DAO”). Reviews RSD Roster and Individual Inactive Duty Certification for accuracy prior to the document being forwarded to the ID Certifier.

4.2.5. ID Certifier (“Appointed Certifying Official”). Appointed individual must ensure they fully understand their responsibility in performing their specific duties as a Certifying Official and be aware of the consequences and the potential pecuniary liability implications for their actions. Approves RSD Attendance Roster and Individual Inactive Duty Certification for payment.

4.2.6. Member (Web Profile) [DD Form 2875 not required]. Creates, modifies, and cancels individual Inactive Duty Authorization and Certification requests.

4.2.7. Supervisor (“Authorizing Official”). Approves Individual Inactive Duty authorizations.

4.2.8. HARM Approver. Reviews/approves Inactive Duty Certifications for AFTP, RSD (Flying Status), and ET (Flying Status).

4.2.9. Military Pay Specialist. Inputs the approved Wing RSD Schedule at the beginning of each FY. Export batch files into WebDMO and electronically sends to DFAS for payment.

Reviews Inactive Duty Conflict Report for cancelations or modifications to Inactive Duty transactions.

4.2.10. The AF Form 1444, Certification of the Air Reserve Pay and Allowance System (ARPAS) Input Transactions. Will be used to document the certification and transmission of military pay for each payroll file.

4.2.11. Inactive Duty Certification for Debt Collection Actions. Run WebDMO import. Manually process changes to pay transactions identified via the Inactive Duty Conflict Report that did not flow to DJMS. Debts resulting from cancelations or modifications of Individual Inactive Duty periods are automatically established through the WebDMO Export. Any debts resulting from the modification of a previously certified Inactive Duty Group roster (Inactive Duty Group rosters cannot be canceled) populate on the "Inactive Duty Group Certified Modification Report". This report is then used to manually establish debts or make payments using WebDMO.

**4.3. Forms.**

4.3.1. ANG Form 105S, Individual Inactive Duty Authorization/Certification. This form may be used to authorize and certify all types of inactive duty except RSD. A maximum of two (2) periods per day can be reported for two days per form. A workday utilization code (WUC) is required. Data elements and fields will not be altered, although the comptroller may establish local procedures for the "Local Use" data field. The Military Pay Specialist exports all available transactions to WebDMO. Attendance of the member may be verified by the DAO and the document certified ready for payment by the unit Certifying Official. In the event AROWS is non-operational, a paper version of the ANG Form 105S may be used to manually input into WebDMO. However, once AROWS is back on-line, the duty must be input into AROWS to track duty performance limitations.

4.3.2. ANG Form 633, Regular Scheduled Drill Roster. The RSD Attendance Roster is the primary document used to record attendance at scheduled RSDs. MilPDS is the source of member assignment data used to prepare the attendance roster. AROWS will populate the attendance roster based on PAS Code assignments with each member scheduled for duty. Members may not be added to or deleted from this system generated roster. To report duty performance for members assigned, but not appearing on the preprinted attendance roster, the unit must prepare an Individual Inactive Duty Authorization/Certification using the appropriate code. Changes to the attendance roster (i.e. changing attendance code) will be requested in writing to the unit commander or designated representatives. Approved changes to the attendance roster will be provided to the ID Administrator for input into AROWS. A paper version of the ANG Form 633 may be used to manually input into WebDMO in the event AROWS is non-operational for an extended period of time. However, once AROWS is back on-line, the duty must be input into AROWS to track duty performance limitations.

## Chapter 5

## ACTIVE DUTY PROCEDURES

**5.1. Authorization and Certification.** IAW AFI33-328 Administrative Orders, Air National Guard Supplement, AROWS must be used for all computer generated Active Duty Orders. Active duty orders are electronically certified by the member and their supervisor (SOD Attendance Certifier) for the duty performed. When a member submits a statement of duty for payment, it must agree with the active duty order. If a signed statement of duty is received by the supervisor and needs an amendment, it should be returned to the member and amended by the order specialist. Once the amendment is published, the member must electronically certify the statement of duty for the order with the amended dates.

**5.2. Military Pay Processes Based on the Five Categories Below.**

5.2.1. Short Tours. Less than thirty (30) days in length. Military pay processes the active duty tour for payment (C01 transaction) when the duty is completed and the certified statement of duty is received electronically. The certification for payment will not process in WebDMO prior to the last day of the tour (exception, see **para 5.2.4**, pre-certified tours).

5.2.2. Long Tours. Thirty (30) days or more in length. Certification of the statement of duty on a long tour is available on the first day of the order. Once processed by Military Pay, the member is paid at mid-month on the 15th and end of the month on the 30th or 31st. The attendance certifying official certifies the "reported for duty" portion of the statement of duty and submits it to Military Pay for processing. Once Military Pay approves the order, the system creates a long tour pay transaction (A24 transaction) to send to DFAS on or after the first day of the tour to start payment.

5.2.2.1. CONUS long tours over 180 days in length may be processed in DJMS-AC as prescribed by AFMAN 65-116.

5.2.3. Basic Military Training (BMT)/Initial Technical Training School Tours/Initial Active Duty Training (IADT) for non-prior service members. A IADT tour is only performed by a non-prior service member. Workdays/funding are centrally managed by NGB/A1 and not accounted for at base level. The complete tour, including the initial skill training is accounted for under the BMT military personnel accounting project (522). The guidance for long tours applies with the following exceptions:

5.2.3.1. Tour start and completion do not require a certified statement of duty. Submit the active duty transaction (A24) directly into WebDMO before the "E01" transaction is processed by active duty. The "E01" can be viewed in processed transactions. Verify completion of training when member returns from BMT/Technical Training.

5.2.3.2. BMT leave days are not deducted from base workday allocations since the workdays/funding are not managed at base level.

5.2.4. Pre-certified tours. The pre-certified tour will be at least twelve (12) days long and have at least ten (10) members participating as a unit. Waivers to the minimum number of members may be requested from NGB/FMF. Changes for "highest paid date" may be requested through NGB/FMF. The highest date paid for the end-of-month "code three" run cannot be charged.

5.2.4.1. To prevent overpayment or unauthorized payment of pre-certified tours, the following procedures are required:

5.2.4.1.1. Military Pay will produce the Annual Training Roster in multiple copies. The Military Pay Office will retain one copy and provide at least two to the certifying officials.

5.2.4.1.2. On the first day of the tour, the appointed Attendance Certifying DAO verifies attendance by calling roll. The certifying official will line through the names of the members not present and have the appropriate orders revoked.

5.2.4.1.3. Any members present, but not on the Annual Training Roster, will be added to the end of the roster.

5.2.4.1.4. Hand carry, e-mail, or fax one copy of the roster, revoked orders, and copies of orders for military members added to the roster to the Military Pay Office by the established deadline for submission.

5.2.4.1.5. During the tour, the appointed Attendance Certifying DAO will update the roster for any members who do not complete the scheduled tour and obtain amended orders.

5.2.4.1.6. On the last day of the tour, the appointed Attendance Certifying DAO official will again verify attendance by calling roll. They will annotate the roster for members not present at the end of the tour. The roster, with amended orders, will be submitted to the Military Pay Office by the established deadline. Military Pay will make the appropriate collections.

5.2.4.1.7. The certifying official may elect to have the member sign in and sign out on the Annual Training Roster if a roll call is not feasible.

5.2.5. AGR Duty (6 months or longer). Members performing AGR tours longer than six months will be transferred into Defense Joint Military Pay System- Active Component (DJMS-AC).

5.2.5.1. The DJMS-RC record will be suspended using the A24K transaction for the period of the AGR tour to prevent dual compensation and maintain members' RC-MMPA.

5.2.5.2. AGR Workdays/funding are centrally managed and not accounted for at the state and ANG levels.

**5.3. Military Personnel Appropriation (MPA) Tours.** Short or long MPA tours are AF Mandays and are normally paid through DJMS-RC.

5.3.1. Leave days are not deducted from base workday allocations since the workdays/funding are not managed at the base level.

5.3.2. All amendments to orders should be coordinated through the authorizing headquarters.

**5.4. Overseas/Outside the Continental United States (OCONUS) Permanent Change of Station (PCS) Processing.** OCONUS long tours orders over 30 days in length "may be", while tours over 180 days "will be", processed in DJMS-AC in order to establish overseas entitlements correctly. OCONUS short tour orders less than 30 days in length will be processed in DJMS-RC.

5.4.1. Existing Orders (DJMS-RC). To the greatest extent possible, orders greater than 6 months in duration should be transitioned to DJMS-AC. (NOTE: This transition may cause a disruption of the member's pay).

5.4.2. The payment of Move in Housing Allowance (MIHA) is not possible in DJMS-RC. A Case Management System (CMS) case must be established for the payment of this entitlement. (NOTE: It may take 2-4 months for this entitlement to be paid by DFAS).

5.4.3. The simultaneous payment of Basic Allowance for Housing (BAH) and Overseas Housing Allowance (OHA) is not possible in DJMS-RC. A CMS case must be established for the payment of this entitlement every month. (NOTE: It may take 2-4 months for this entitlement to be paid by DFAS).

5.4.4. If a member is already on orders AND their entitlements are incorrect, amendments will need to be issued to update entitlements.

5.4.5. The member's home unit Comptroller Flight is responsible for any military pay and travel pay inputs, inquiries, updates, and corrections; PCS travel vouchers and amendments (if applicable), verification of DJMS-RC pay record suspension (if applicable); and appropriate civilian leave status (if applicable).

**5.5. Defense Military Pay Office (WebDMO) Processing.**

5.5.1. Manual processing of "Mileage Only" claims will be completed via WebDMO.

5.5.2. Active duty military pay will be processed via WebDMO.

## Chapter 6

## REPORTS AND MANAGEMENT PRODUCTS

**6.1. General.** Reports and management listings are available in AROWS to assist commanders, comptrollers, and the payroll office in managing the workday program and payment to unit members.

6.1.1. The AROWS SharePoint website, https://usaf.dps.mil/teams/ANG-AROWS-Program/default.aspxhas, has AROWS Job Aids that can be referred to for reports by user roles, category, and report descriptions.

**6.2. Military Pay Products.** Daily payroll processing is recommended to provide timely payment to the ANG member and reduce the effect of possible data loss. Military Pay must audit the daily payroll transaction list to ensure all transactions are supported by proper documentation.

DUKE A. PIRAK, Major General, USAF
Acting Director, Air National Guard

***Office Symbols***
**AF/RE**—Air Force Reserve
**SAF/AA**—The Administrative Assistant to the Secretary of the Air Force
**SAF/FMFF**—Air Force Accounting Office

***Terms***
**Accountable Forms—**Forms that the Air Force stringently controls and which cannot be released to unauthorized personnel, since their misuse could jeopardize DOD security or result in fraudulent financial gain or claims against the government.

**Administrative Change—**Change that does not affect the subject matter content, authority, purpose, application, and/or implementation of the publication (e.g., changing the POC name, office symbol(s), fixing misspellings, etc.)

**Approval Authority—**Senior leader responsible for contributing to and implementing policies and guidance/procedures pertaining to his/her functional area(s) (e.g., heads of functional two-letter offices).

**Authentication—**Required element to verify approval of the publication; the approval official applies his/her signature block to authenticate the publication. The signature block includes the official's name, rank, and title (not signature).
