SUMMARY OF CHANGES

Major changes to this document include changes from the Headquarter Air Force reorganization, new Defense Department Directives and Instructions, and updated roles and responsibilities.

1. Mission. As codified in Title 10, United States Code (U.S.C.) §9014 and §9016, the Secretary of the Air Force (SecAF) is a part of the Office of the Secretary of the Air Force (known as the Secretariat) and functions under the authority, direction, and control of the SecAF. Pursuant to Title 10 United States Code Sections (U.S.C. §§) 9013-9016, the SecAF may establish offices and officials within the Secretariat to assist the Secretary in carrying out their responsibilities. Consistent with 10 U.S.C. §9014, and as documented by this Headquarters Department of the Air Force Mission Directive (HQDAFMD), the Office of the Assistant Secretary of the Air Force for Acquisition, Technology and Logistics (SAF/AQ) is established as part of the Secretariat. As documented by paragraph 3.5.2 of HQDAFMD 1-1, *Headquarters Department of the Air Force,* and this Headquarters Department of the Air Force Mission Directive (HQDAFMD), SecAF assigns SAF/AQ the duties, authorities, and responsibilities for this role which is established as part of the Secretariat. The SAF/AQ has overall responsibility for acquisition of non-space systems and programs, including product support, for the Department of the Air Force (DAF); serves as a Service Acquisition Executive (SAE) for the

DAF; and serves as the single DAF Senior Procurement Executive (SPE)[1]. The SecAF retains ultimate responsibility for all policies related to the DAF. Within their areas of responsibility, SAF/AQ develops and approves policies and programs, issues official guidance via official Departmental level publications, and oversees the implementation and execution of those policies and programs.

2. Organizational Relationships. Subject only to the authority, direction, and control of the Secretary of Defense, the SecAF is responsible for, and has all legal authority necessary to conduct, the affairs of the DAF. The Secretariat, Air Staff and Space Staff offices perform their DAF functions subject to the authority, direction, and control of the SecAF.

2.1. The SAF/AQ reports to the SecAF , serves as an agent of the Secretary within assigned policy and program domains; provides guidance, direction, and oversight for all matters pertaining to the formulation, review, and execution of plans, policies, programs, and budgets within his or her area of responsibility. The SAF/AQ is accountable to the Secretary for results achieved within the policy and program domains assigned by this Directive.

2.2. The SAF/AQ works in cooperation with the Assistant Secretary of the Air Force for Space Acquisition and Integration (SAF/SQ), to oversee the acquisitions and systems and programs for the DAF. Generally speaking, SAF/AQ is responsible for all non-space systems and programs acquisitions and contracts and SAF/SQ covers space systems and program acquisition and contracts as detailed in HAFMD 1-17, Assistant Secretary of the Air Force (Space Acquisition and Integration). See Attachment 3 for Standard Operating Procedures between SAF/AQ and SAF/SQ.

2.3. The SAF/AQ and the Office of the SAF/AQ are part of the Secretariat and, as such, work in cooperation with other DAF officials and their respective offices, which are responsible, pursuant to 10 U.S.C., Chapters 903, 905, and 908, §§ 9013-9024, §§ 9031-9038, §§ 9081-9084 for assisting the SecAF, the Chief of Staff of the Air Force (CSAF), and the Chief of Space Operations (CSO) in carrying out their responsibilities.

2.4. Program Acquisition Executives (PAEs) or Program Executive Officers (PEOs) providing executive management of non-space systems and programs to support the acquisition mission report directly to the SAF/AQ in his or her capacity as the SAE. The PAEs or PEOs are not part of the HAF but reside in various Air Force organizations with the exception of organizations included in Attachment 3.

3. Responsibilities. SAF/AQ is responsible for non-space systems and programs. In some instances, noted within this HAFMD and HAFMD 1-17, SAF/AQ is designated as the DAF lead for supporting some activities common to both space and non-space acquisition.

3.1. SAF/AQ serves as the designated authority responsible for establishing and overseeing the policies and procedures governing the DAF Acquisition Demonstration Project (AcqDemo). Acting under the authority of the SecAF, SAF/AQ ensures that AcqDemo policies align with statutory and regulatory requirements, provides official guidance for implementation across the Department, and serves as the final approval authority for all AcqDemo-related policies and procedural matters.

3.2. In direct collaboration with Deputy Chief of Staff for Logistics, Engineering, and Force Protection (AF/A4), Space Force, Chief Operations Officer (SF/COO), Assistant Secretary of the

[1] In accordance with Title 10 United States Code (U.S.C.) §9014 (c)(6), notwithstanding Section 1702 of title 41 USC, the SecAF has assigned to the Assistant Secretary of the Air Force for Space Acquisition and Integration (SAF/SQ) Senior Procurement Executive duties and authorities for space systems and programs, as addressed in HAFMD 1-17.

Air Force for Energy, Installations and Environment (SAF/IE) and SAF/SQ, the SAF/AQ serves as the DAF lead for oversight of and policy related to the architecture, design, development, delivery, and life cycle sustainment of weapon and IT systems and appropriate support equipment that enhance warfighter mission capabilities and minimize environment, safety, and occupational health risks. In direct collaboration with SAF/IE, establish a climate throughout the acquisition workforce to support community partnerships goals and develop and disseminate guidance to assist with partnership development, specifically leveraging Intergovernmental Support Agreements (IGSAs) IAW 10 U.S.C. §2679.
3.3. Serves as the DAF lead for basic research, applied research, and advanced technology development for non-space systems and programs, including the DAF portion of joint programs.
3.4. Provides the overall supervision in accordance to 10 U.S.C.§9016 of development planning, prototyping, experimentation, and acquisition efforts for non-space systems.
3.5. Provides technology integration in collaboration with SAF/SQ into DAF requirements and pre-acquisition program planning.
3.6. Serves as DAF lead for policy related to systems engineering, resiliency, and integration across the life cycle (development and sustainment) to ensure operational safety, suitability, and supportability.
3.7. In coordination with stakeholders across the DAF, provides architecture oversight (except as delegated to SAF/SQ by statue), analysis, policy and guidance to ensure program compliance with the Modular Open Systems Approach (MOSA) framework and principles of digital engineering that use standards for developing, maintaining, and implementing sound, adaptable, interoperable, and accelerated system architectures as further explained in A2.2.7.
3.8. Serves as DAF lead for policy related to the Industrial Preparedness program.
3.9. Serves as DAF lead for policy related to technology and program protection.
3.10. Serves as DAF lead for policy related to Manufacturing Technology program.
3.11. As the single DAF SPE, appoints DAF Heads of Contracting Activity (HCAs) except for space systems and programs addressed in HAFMD 1-17, and is responsible for contracting activities to include: entering into, approving, terminating, and taking all other appropriate actions with respect to contracts and other instruments to obtain supplies and services (to include grants, non-international cooperative agreements, and other transactions), and issuing, modifying, or rescinding contracting regulations under the Federal Acquisition Regulation (FAR), the Defense Federal Acquisition Regulation Supplement (DFARS). Note that the SecAF assigned the SAF/SQ duties and authorities of the SPE that pertain to space systems and programs, as addressed in HAFMD 1-17.
3.12. Leads the DAF Competition Advocate Program, including justification and approval (J&A) documents for non-space systems and programs and competition goals and plans to increase competition and eliminate barriers. The authority to designate the DAF Competition Advocate may not be redelegated.
3.13. Represents the DAF as a member of the Department of Defense (DoD) Operational Contract Support (OCS) Commercial Support Operations Board (CSOB), in partnership with AF/A4. Pursuant to Standard Operating Procedures within HAFMD 1-38 and Department of Defense Directive (DoDD) 3020.49, and Department of Defense Instruction (DoDI) 3020.41 sharing oversight authority and responsibility with AF/A4 in other OCS-related boards, working groups, and efforts for the purpose of developing, integrating, and institutionalizing Vendor Threat Mitigation (VTM), Private Security Contractors (PSC) and OCS principles into policy, procedures, training, education, and capabilities across the DAF except as delegated in HAFMD

1-17. SAF/AQ, serving as the DAF co-lead with AF/A4, will seek space-focused input and coordination.
3.14. In direct collaboration with Assistant Secretary of the Air Force for Financial Management and Comptroller (SAF/FM), provides management of the funds allocated for research and acquisition programs within the research, development, test, and evaluation (RDT&E) appropriation and those portions of the aircraft, missile, ammunition, and other procurement appropriations falling under the purview of SAF/AQ.
3.15. Addresses product support matters as further explained in paragraph A2.2.7
3.16. Addresses Science and Technology (S&T) matters further explained in paragraph A2.2.7.
3.17. Provides acquisition and technology workforce development and resource management.
3.18. Ensures that prospective contractors' equal employment opportunity programs comply with public law.
3.19. Provides input and assistance on foreign military sales, and international armaments cooperation to applicable organizations and programs.
3.20. Provides technical and support data required by planning, programming, and budgeting activities, congressional questions, and long-range plans and policy formulation implementation.
3.21. Manages appropriate system program elements.
3.22. Delivers inherently secure systems for non-space systems and programs.
3.23. Directs multi-command, cross-program assessments of requirements to evaluate and recommend system solutions that contribute to DAF, DoD, and national defense strategy. Requirements are developed in collaboration with DAF stakeholders and the CSAF and CSO performing their acquisition related functions as articulated in 10 U.S.C. 3104.
3.24. Provides direct supervision of DAF PAEs and PEOs , except for space systems and programs, regarding program and acquisition decisions.
3.25. Directs research, development, production, and product support of weapons, weapon systems, business systems, weapon systems support, and military materiel, except as delegated to SAF/SQ. Directs development of programs to meet defined operational needs and requirements for systems and subsystems necessary to perform military tasks.
3.26. In coordination with the DAF Chief Information Officer (SAF/CN), establishes and executes processes for non-space systems and programs that are compliant with SAF/CN-led enterprise guidance for satisfying the Clinger-Cohen Act.
3.27. In direct collaboration with Director of Test and Evaluation (AF/TE) and United States Space Force (USSF) Test and Evaluation (SF/TE), determines the adequacy of test & evaluation (T&E) resources that are required to support weapon system and space system development, to include early involvement of tester with the science & technology (S&T) community to resolve developmental and operational test programmatic issues.
3.28. In direct collaboration with Director for Studies and Analysis (SAF/SA), develops guidance and standards for modeling and simulation to accelerate digital engineering implementation.
3.29. Performs the responsibilities delegated from the SecAF in Attachment 1 as DoD Executive Agent for Anti-Tamper and DAF Office of Primary Responsibility for Anti-Tamper.
3.30. In direct collaboration with Director, HAF AF Small Business Programs (SAF/SB), supports the attainment of DoD small business goals and establishing a climate throughout the acquisition workforce to provide opportunities for small business participation in DAF procurements.
3.31. Supports VTM processes, including review of VTM assessments, implementation of risk

management actions, and execution of authorities pursuant to Section 841 of the FY15 NDAA, as amended by Section 823 of the FY24 NDAA.

4. Delegations of Authority/Assignments of Responsibility. Attachment 1 lists delegated authorities and assigned responsibilities to the SAF/AQ. The authorities delegated/ responsibilities assigned to the SAF/AQ by this HQDAFMD may generally be redelegated, unless redelegation is expressly prohibited by the attached delegation or superseding law, regulation, or DoD issuance. While the SAF/AQ may redelegate authorities to other DAF officials, he or she will ultimately be responsible to the SecAF for all matters listed in Paragraph 1 of this publication. Any redelegation of authority/assignment of responsibility made shall not be effective unless it is in writing. Any person redelegating authority in accordance with this HQ DAF Mission Directive may further restrict or condition the authority responsibility being redelegated/re-assigned.

5. Notifications to Congress. No redelegation of authority/assignment of responsibility under this HQ DAF Mission Directive below the level of a Deputy Assistant Secretary or three-letter/digit office shall include authority to provide notifications or reports to Congress.

6. Continuation of Prior Re-Delegations of Authority/Assignments of Responsibility. Re-delegations of authority/assignments of responsibility made prior to the date of issuance of this HQ DAF Mission Directive remain effective insofar as such re-delegations are not inconsistent with the terms of this HQ DAF Mission Directive unless superseded by a new re-delegation or assignment of responsibility.

TROY E MEINK
Secretary of the Air Force

DELEGATIONS OF SECRETARY OF THE AIR FORCE AUTHORITY/ASSIGNMENTS OF RESPONSIBILITY

TO THE

ASSISTANT SECRETARY OF THE AIR FORCE (ACQUISITION)

A1.1. Authority relating for the Science, Mathematics, and Research for Transformation (SMART) Defense Education Program, as delegated to the SecAF pursuant to DoDI 1025.09, *Science, Mathematics, and Research for Transformation Defense Education Program.*

A1.2. Authority relating to DoD Science, Technology, Engineering, and Mathematics (STEM) education programs pursuant to DoDI 1025.11, *DoD Science, Technology, Engineering, and Mathematics (STEM) Education Programs and Activities*.

A1.3. Authority relating to the Committee on Foreign Investments in the United States, as delegated to the SecAF pursuant to DoDI 2000.25, *DoD Procedures for Reviewing and Monitoring Transactions Filed with the Committee on Foreign Investment in the United States.*

A1.4. Authority relating to signing end use certificates on foreign defense items, as delegated to the SecAF pursuant to DoDI 2040.03, *End Use Certificates (EUC)*.

A1.5. Authority relating to Non-Lethal Weapon policy, as delegated to the SecAF pursuant to DoDD 3000.03E, *DoD Executive Agent for Non-Lethal Weapons (NLW), and NLW Policy*.

A1.6. Authority relating to vender threat mitigation, as delegated to the SecAF pursuant to DoDD 3000.16, *Vendor Threat Mitigation*.

A1.7. Authority relating to vendor threat mitigation, as delegated to the SecAF pursuant to DoWI 3000.19, *General Procedures for Vendor Threat Mitigation.*

A1.8. Authority relating to activities of contractor personnel authorized to accompany the U.S. Armed Forces, as delegated to the SecAF pursuant to DoDI 3020.41, *Operational Contract Support (OCS)*.

A1.9. Authority relating to program management of contingency acquisition planning, as delegated to the SecAF pursuant to DoDD 3020.49, *Program Management for the Planning and Execution of Operational Contract Support.*

A1.10. Authority relating to participation in the Technical Cooperation Program, as delegated to the SecAF pursuant to DoDI 3100.08, *The Technical Cooperation Program (TTCP)*.

A1.11. Authority relating to ensure there will be no nuclear weapon incidents, unauthorized detonation, or degradation of weapon effectiveness during the activities set forth in its stockpile-to-target sequence, as delegated to the SecAF pursuant to DoDI 3150.02, *DoD Nuclear Weapon System Surety Program*.

A1.12. Authority relating to the implementation of the Scientific and Technical Information Program, as delegated to the SecAF pursuant to DoDI 3200.12, *DoD Scientific and Technical Information Program (STIP)*.

A1.13. Authority and responsibilities relating to the procedures for a human effects characterization process in support of the development of non-lethal weapons, non-lethal weapons technologies, and non-lethal weapons systems, as delegated by the SecAF pursuant to DoDI 3200.19, *Non-Lethal Weapons (NLW) Human Effects Characterization*.

A1.14. Authority and responsibilities relating to the integrity of scientific and engineering activities that the Air Force conducts, and engineering information it uses, as delegated by the SecAF pursuant to DoDI 3200.20, *Scientific and Engineering Integrity.*

A1.15. Authority relating to the management of DoD research and development laboratories, as delegated to the SecAF pursuant to DoDI 3201.01, *Management of DoD Research and Development (R&D) Laboratories*.

A1.16. Authority relating to the implementation of in-house laboratory independent research and independent exploratory development programs, as delegated to the SecAF pursuant to DoDI 3201.04, *In-House Laboratory Independent Research (ILIR) Program*.

A1.17. Authority relating to the oversight of independent research and development, as delegated to the SecAF pursuant to DoDI 3204.01, *DoD Policy for Oversight of Independent Research and Development (IR&D).*

A1.18. Authority relating to DoD policy on administrative support of basic research, as delegated to the SecAF pursuant to DoDI 3201.05, *Management of Science and Technology Reinvention Laboratory Personnel Demonstration Projects* and DoDI 3210.01, *Administration and Support of Basic Research by the Department of Defense*.

A1.19. Authority relating to the Defense Grant and Agreement Regulatory System, as delegated to the SecAF pursuant to DoDD 3210.06, *Defense Grant and Agreement Regulatory System (DGARS)*.

A1.20. Authority relating to the prevention of research misconduct, as delegated to the SecAF pursuant to DoDI 3210.07, *Research Integrity and Misconduct*.

A1.21. Authority relating to human research protection, as delegated to the SecAF pursuant to DoDI 3216.02, *Protection of Human Subjects and Adherence to Ethical Standards in DoD-Conducted and-Supported Research.*

A1.22. Authority relating to procedures for procurements using Nonappropriated Fund (NAF), as delegated to the SecAF pursuant to DoDI 4105.67, *Nonappropriated Fund (NAF) Procurement Policy and Procedure*.

A1.23. Authority relating to sustainable procurement, as delegated to the SecAF pursuant to DoDI 4105.72, *Procurement of Sustainable Goods and Services.*

A1.24. Authority relating to implementation of a Defense Standardization Program, as delegated to the SecAF pursuant to DoDI 4120.24, *Defense Standardization Program*.

A1.25. Authority relating to supply chain management, as delegated to the SecAF pursuant to DoDI 4140.01, *DoD Supply Chain Materiel Management Policy*.

A1.26. Authority relating to operational requirements, demand and supply planning, materiel sourcing, maintenance, and delivery operations, as delegated to the SecAF pursuant to DoDM 4140.01 volumes 1-5, DoD Supply Chain Materiel Management Procedures.

A1.27. Authority relating to supply chain materiel management, as delegated to the SecAF pursuant to DoDI 4140.62, *Material Potentially Presenting An Explosive Hazard (MPPEH).*

A1.28. Authority relating to clothing and textiles acquisition, as delegated to the SecAF pursuant to DoDI 4140.63, *Management of DoD Clothing and Textiles (Class II).*

A1.29. Authority relating to engineering authority, as delegated to the SecAF pursuant to DoDI 4140.69, *Engineering Support Instructions for Items Supplied by Defense Logistics Agency (DLA).*

A1.30. Authority relating to supply chain materiel management, as delegated to the SecAF pursuant to DoDI 4140.71, *Management of DoD Construction and Barrier Material.*

A1.31. Authority relating to the maintenance of military materiel, organic maintenance for inherently Governmental and core capability requirements, limitations on the performance of depot-level maintenance of materiel, and public-private partnerships, as delegated to the SecAF pursuant to DoDD 4151.18, *Maintenance of Military Materiel*.

A1.32. Authority relating to the depot maintenance core capability determination process as delegated to the SecAF pursuant to DoDI 4151.20, *Depot Maintenance Core Capabilities Determination Process*.

A1.33. Authority relating to depot-level maintenance using public private partnerships as delegated to the SecAF pursuant to DoDI 4151.21, *Public-Private Partnerships for Product Support*.

A1.34. Authority relating to depot source of repair (DSOR), as delegated to the SecAF pursuant to DoDI 4151.24, *Depot Source of Repair Assignment Determination Process.*

A1.35. Authority relating to DoD inter-service depot maintenance, as delegated to the SecAF pursuant to DoDI 4151.26, *DoD Inter-Service Depot Maintenance.*

A1.36. Authority relating to demilitarization, as delegated to the SecAF pursuant to DoDM 4160.28, Volume 2, *Defense Demilitarization: Program Administration.*

A1.37. Authority relating to Manufacturing Technology Program activities, as delegated to the SecAF pursuant to DoDD 4200.15, *Manufacturing Technology (ManTech) Program.*

A1.38. Authority relating to the effective administration of the DoD Value Engineering Program, as delegated to the SecAF pursuant to DoDI 4245.14, *DoD Value Engineering (VE) Program.*

A1.39. Authority relating to the policy and procedures for diminishing manufacturing sources and material shortages (DMSMS) management, as delegated to the SecAF pursuant to DoDI 4245.15, *Diminishing Manufacturing Sources and Material Shortages Management*.

A1.40. Authority relating to governing the acquisition and management of industrial resources, as delegated to the SecAF pursuant to DoDD 4275.5, *Acquisition and Management of Industrial Resources*.

A1.41. Authority relating to Defense Production Act programs, as delegated to the SecAF pursuant to DoDD 4400.01, *Defense Production Act Programs*.

A1.42. Authority relating to the management of acquisition programs, as delegated to the SecAF pursuant to DoDD 5000.01, *The Defense Acquisition System*.

A1.43. Authority relating to defense acquisition programs, as delegated to the SecAF pursuant to DoDI 5000.02, *Operation of the Adaptive Acquisition Framework*.

A1.44. Authority relating to the management and operation of the defense acquisition regulation system, as delegated to the SecAF pursuant to DoDI 5000.35, *Defense Acquisition Regulations (DAR) System*.

A1.45. Authority relating to establishing official policy and assigns responsibilities for the DoD's oversight of the Government-Industry Data Exchange Program (GIDEP), as delegated to the SecAF pursuant to DoDI 5200.49, *Oversight of the Collection and Exchange of Information Using the Government-Industry Data Exchange Program*.

A1.46. Authority relating to the Defense Acquisition University, as delegated to the SecAF pursuant to DoDI 5000.57, *Defense Acquisition University*.

A1.47. Authority relating to assessing defense industrial capabilities, as delegated to the SecAF pursuant to DoDI 5000.60, *Defense Industrial Base Assessments*.

A1.48. Authority relating to impact assessments in the case of mergers or acquisitions involving major suppliers, as delegated to the SecAF pursuant to DoDD 5000.62, *Review of Mergers,*

Acquisitions, Joint Ventures, Investments, and Strategic Alliances of Major Defense Suppliers on National Security and Public Interest.

A1.49. Authority relating to the operation of the Defense Acquisition, Technology, and Logistics Workforce Education, Training, and Career Development Program, as delegated to the SecAF pursuant to DoDI 5000.66, *Defense Acquisition Workforce Education, Training, Experience, and Career Development Program.*

A1.50. Authority relating to mitigation of corrosion, as delegated to the SecAF pursuant to DoDI 5000.67, *Prevention and Mitigation of Corrosion on DoD Military Equipment and Infrastructure.*

A1.51. Authority relating to weapon and laser system safety, as delegated to the SecAF pursuant to DoDI 5000.69, *DoD Joint Services Weapon and Laser System Safety Review Processes*.

A1.52. Authority and responsibilities related to the fulfillment of combatant commander urgent operational needs, as delegated to the SecAF pursuant to DoDD 5000.71, *Rapid Fulfillment of Combatant Commander Urgent Operational Needs and Other Quick Action Requirements*.

A1.53. Authority relating to the implementation of standards for the certification of contracting officers' representatives, as delegated to the SecAF pursuant to DoDI 5000.72, *DoD Standard for Contracting Officers Representative (COR) Certification*.

A1.54. Authority relating to defense acquisition of contracted services, as delegated to the SecAF pursuant to DoDI 5000.74, *Defense Acquisition of Services*.

A1.55. Authority relating to Business Systems Requirements and Acquisitions, as delegated to the SecAF pursuant to DoDI 5000.75, *Business Systems Requirements and Acquisitions.*

A1.56. Authority relating to the adherence to Federally Funded Research and Development Center Program policy and guidance as delegated to the SecAF pursuant to DoDI 5000.77, *DoD Federally Funded Research and Development Center (FFRDC) Program*.

A1.57. Authority relating to supplier and product performance information, as delegated to the SecAF pursuant to DoDI 5000.79, *Defense-Wide Sharing and Use of Supplier and Product Performance Information (PI).*

A1.58. Authority relating to Middle Tier of Acquisition (MTA) as delegated to the SecAF pursuant to DoDI 5000.80, *Operation of the Middle Tier of Acquisition (MTA)*.

A1.59. Authority relating to acquisition programs to fulfill urgent operational needs and quick reaction capabilities, as delegated to the SecAF pursuant to DoDI 5000.81, *Urgent Capability Acquisition.*

A1.60. Authority relating to acquisition policy and procedures for all programs containing Information Technology (IT), as delegated to the SecAF pursuant to DoDI 5000.82,

Requirements for the Acquisition of Digital Capabilities.

A1.61. Authority relating to technology and program protection, as delegated to the SecAF pursuant to DoDI 5000.83, *Technology and Program Protection to Maintain Technological Advantage*.

A1.62. Authority relating to the analysis of alternatives (AoAs) for major defense acquisition programs (MDAPs), as delegated to the SecAF pursuant to DoDI 5000.84, *Analysis of Alternatives.*

A1.63. Authority relating to policy and procedures that guide the acquisition of major capability acquisition programs, as delegated to the SecAF pursuant to DoDI 5000.85, *Major Capability Acquisition*.

A1.64. Authority relating to the integration of intelligence in the acquisition life cycle, as assigned to the SecAF pursuant to DoDI 5000.86, *Acquisition Intelligence*.

A1.65. Authority relating to software acquisition pathways, as delegated to the SecAF pursuant to DoDI 5000.87, *Operation of the Software Acquisition Pathway*.

A1.66. Authority relating to the engineering of defense systems, as delegated to the SecAF pursuant to DoDI 5000.88, *Engineering of Defense Systems*.

A1.67. Authority relating to cybersecurity oversight on Adaptive Acquisition Framework (AAF) programs, as delegated to the SecAF pursuant to DoDI 5000.90, *Cybersecurity for Acquisition Decision Authorities and Program Managers*.

A1.68. Authority relating to policy and procedures for product support management to establish product support factors in the requirements development and acquisitions process, as delegated to the SecAF pursuant to DoDI 5000.91, *Product Support Management for the Adaptive Acquisition Framework.*

A1.69. Authority relating to policy and procedures for the sustainment of materiel readiness across the life cycle of DoD systems, as delegated to the SecAF pursuant to DoDI 5000.92, *Innovation and Technology to Sustain Materiel Readiness.*

A1.70. Authority relating to policy and procedures for the implementation and use of additive manufacturing, as delegated to the SecAF pursuant to DoDI 5000.93, *Use of Additive Manufacturing in DoD*.

A1.71. Authority relating to the use of robotic systems, as delegated to the SecAF pursuant to DoDI 5000.94, *Use of Robotic Systems for Manufacturing and Sustainment in the DoD.*

A1.72. Authority relating to Human systems integration (HSI) in the Defense Acquisition System, as delegated to the SecAF pursuant to DoDI 5000.95, *Human Systems Integration in Defense Acquisition*.

A1.73. Authority relating to digital engineering, as delegated to the SecAF pursuant to DoDI 5000.97, *Digital Engineering.*

A1.74. Authority relating to uniform procedures for acquiring, delivering, managing, and licensing contractor-prepared technical data and associated intellectual property rights across the defense lifecycle, as delegated to the SecAF pursuant to DoDM 5010.12, *Acquisition and Management of Contractor-Prepared Data*.

A1.75. Authority relating to policy and procedures for the acquisition, licensing, and management of intellectual property, as delegated to the SecAF pursuant to DoDI 5010.44, *Intellectual Property (IP) Acquisition and Licensing.*

A1.76. Authority relating to the development, implementation, and operation of an airworthiness assurance system, as delegated to the SecAF pursuant to DoDD 5030.61, *DoD Airworthiness Policy.*

A1.77. Authority relating to the Defense Contract Management Agency, as delegated to the SecAF pursuant to DoDD 5105.64, *Defense Contract Management Agency (DCMA)*.

A1.78. Authority relating to the Defense Technical Information Center, as delegated to the SecAF pursuant to DoDD 5105.73, *Defense Technical Information Center (DTIC).*

A1.79. Authority relating to responsibilities and functions of the Director, Strategic Capabilities Office, as delegated to the SecAF pursuant to DoDD 5105.86, *Director, Strategic Capabilities Office (SCO)*.

A1.80. Authority relating to the management, planning and execution of the Ballistic Missile Defense Systems elements, as delegated to the SecAF pursuant to DoDD 5134.09, *Missile Defense Agency (MDA).*

A1.81. Authority relating to the Defense Advanced Research Projects Agency, as delegated to the SecAF pursuant to DoDD 5134.10, *Defense Advanced Research Projects Agency (DARPA)*.

A1.82. Authority relating to logistics and materiel readiness policy, as delegated to the SecAF pursuant to DoDD 5134.12, *Assistant Secretary of Defense for Logistics and Materiel Readiness (ASD(L&MR))*.

A1.83. Authority relating to the position of Deputy Under Secretary of Defense for Acquisition and Technology, as delegated to the SecAF pursuant to DoDD 5134.13, *Deputy Under Secretary of Defense for Acquisition and Technology (DUSD(A&T))*.

A1.84. Authority relating to the office of the Under Secretary of Defense for Acquisition and Sustainment, as delegated to the SecAF pursuant to DoDD 5135.02, *Under Secretary of Defense for Acquisition and Sustainment (USD(A&S))*.

A1.85. Authority relating to the position of Assistant Secretary of Defense Research and Engineering, as delegated to the SecAF pursuant to DoDD 5137.02, *Under Secretary for Defense Research and Engineering (USD(R&E))*.

A1.86. Authority relating to policies and responsibilities for the identification and protection of critical program information (CPI), as delegated to the SecAF pursuant to DoDI 5200.39, *Critical Program Information (CPI) Identification and Protection Within Research, Development, Test, and Evaluation (RDT&E)*.

A1.87. Authority relating to policies and responsibilities for the identification and protection of critical mission functions and components to minimize information and communication (ICT) supply chain and engineering risks to the DoD's warfighting capabilities, business, and enterprise information systems to maintain a technological advantage, as delegated to the SecAF pursuant to DoDI 5200.44, *Protection of Mission Critical Functions to Achieve Trusted Systems and Networks (TSN)*.

A1.88. Authority relating to policies and responsibilities for anti-tamper protection of critical program information to include Executive Agent and DAF responsibilities, as delegated to the SecAF pursuant to DoDD 5200.47E, *Anti-Tamper (AT).*

A1.89. Authority relating to responsibilities to evaluate beneficial ownership and mitigate Foreign Ownership, Control, or Influence (FOCI) risks for covered contractors, as delegated to the SecAF pursuant to DoDI 5205.87, *Mitigating Risks Related to Foreign Ownership, Control, or Influence for Covered DoD Contractors and Subcontractors*.

A1.90. Authority relating to policies and procedures for marking technical documents, as delegated to the SecAF pursuant to DoDI 5230.24, *Distribution Statements on Technical Document*s.

A1.91. Authority relating to the dissemination and withholding of technical data, as delegated to the SecAF pursuant to DoDD 5230.25, *Withholding of Unclassified Technical Data from Public Disclosure*.

A1.92. Authority relating to the consideration of national security in the dissemination of scientific and technical information at conferences and meetings, as delegated to the SecAF pursuant to DoDI 5230.27, *Presentation of DoD-Related Scientific and Technical Papers at Meetings*.

A1.93. Authority relating to the implementation of DoD domestic Technology Transfer activities, as delegated to the SecAF pursuant to DoDI 5535.08, *DoD Technology Transfer Program*.

A1.94. Authority related to the implementation of transferring DoD technology to federal, state, and local responders, as delegated to the SecAF pursuant to DoDI 5535.10, *Coordination of DoD Efforts to Identify, Evaluate, and Transfer DoD Technology Items, Equipment, and Services to Federal, State, and Local First Responders.*

A1.95. Authority related to the implementation of the availability of DoD information to non-DoD persons and entities, as delegated to the SecAF pursuant to DoDI 5535.11, *Availability of Samples, Drawings, Information, Equipment, Materials, and Certain Services to Non-DoD Persons and Entities.*

A1.96. Authority relating to the implementation of leases and demonstration of DoD equipment, as delegated to the SecAF pursuant to DoDI 7230.08, *Leases and Demonstrations of DoD Equipment.*

A1.97. Authority and responsibilities relating to post contract audit follow-up, including resolution and disposition actions, as delegated to the SecAF pursuant to DoDI 7640.02, *Policy for Follow-Up on Contract Audit Reports*.

A1.98. Authority relating to data and information sharing, as delegated to the SecAF pursuant to DoDI 8320.02, *Sharing Data, Information, and Information Technology (IT) Services in the Department of Defense.*

A1.99. Authority relating to implementation of unique identification (UID) standards for a net-centric DoD, as delegated to the SecAF pursuant to DoDI 8320.03, *Unique Identification (UID) Standards for Supporting the DoD Information Enterprise.*

A1.100. Authority relating to item unique identification (IUID) standards for tangible personal property, as delegated to the SecAF pursuant to DoDI 8320.04, *Item Unique Identification (IUID) Standards for Tangible Personal Property*.

A1.101. Authority relating to organization unique identification, as delegated to the SecAF pursuant to DoDI 8320.06, *Organization Unique Identification (OUID) Standards for Unique Identification of External Department of Defense Business Partners*.

A1.102. Authority and responsibility to designate for the DAF and for each procuring activity of the DAF one officer or employee ((other than the SPE) designated pursuant to section 1702(c) of Title 41, United States Code) to serve as the advocate for competition under and fulfill responsibilities, as delegated to the SecAF pursuant to Title 41 U.S.C. Section 1705.

A1.103. Authority relating to quality assurance, as delegated to the SecAF pursuant to Defense Federal Acquisition Regulation Supplement (DFARS) 246.102 (1), *Quality Assurance Policy*.

A1.104. Authority relating to ensuring compliance with the limitation on the performance of depot-level maintenance of materiel, as delegated to the SecAF pursuant to Title 10 U.S.C. Section 2466.

A1.105. Authority relating to minimum capital investment for certain depots, as delegated to the SecAF pursuant to Title 10 U.S.C. Section 2476.

A1.106. Authority relating to the lease of non-excess real property as it pertains to industrial property, as delegated to the SecAF pursuant to Title 10 U.S.C. Section 2667.

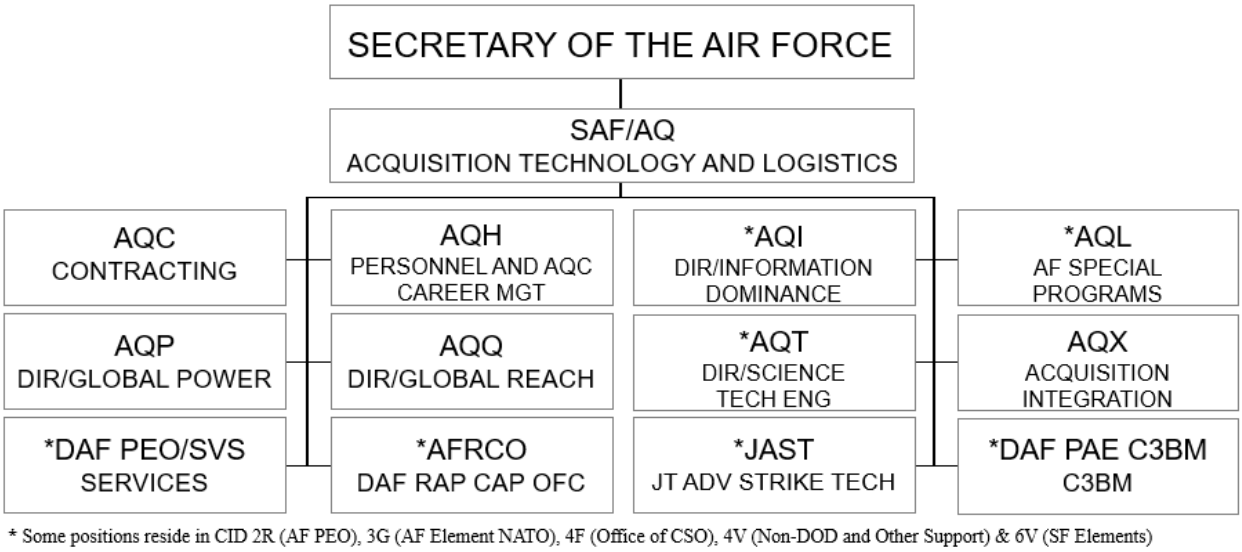

A1.107. Authority relating to ensuring requirements for MOSA weapon systems development and related matters, as delegated to the SecAF pursuant to Title 10 U.S.C. Section 4401.

A1.108. Authority relating to equipping and maintaining the Air Force, as delegated to the SecAF pursuant Title 10 U.S.C. Section 9013.

A1.109. Authority relating to the implementation of the Small Business Innovation Research (SBIR) and the Small Business Technology Transfer (STTR) programs for non-space systems and programs, including product support, as delegated to the SecAF pursuant to 15 U.S.C. 638.

ATTACHMENT 2

THE ASSISTANT SECRETARY OF THE AIR FORCE
(ACQUISITION)
(SAF/AQ)

* Some positions reside in CID 2R (AF PEO), 3G (AF Element NATO), 4F (Office of CSO), 4V (Non-DOD and Other Support) & 6V (SF Elements)

A2.1. SAF/AQ is responsible for supervision of the Air Force acquisition system, including product support, and serves as the Senior Procurement Executive; the Service Acquisition Executive (SAE); and a member of the Air Force Council, Air Force Space Board, and the Special Programs Oversight Committee. The office of SAF/AQ ensures the SecAF, the Air Force Chief of Staff (CSAF), and the Defense Acquisition Executive (DAE) receive the support they require on acquisition matters, including product support. SAF/AQ provides the leadership, direction, policy, and resources to enable the integrated life cycle management of systems, supplies, and services to accomplish the Air Force mission. The office of SAF/AQ is responsible for acquisition related investments, provides system life cycle oversight, and facilitates integrated product life cycle support to ensure operational effectiveness and suitability. SAF/AQ is responsible for the acquisition of nuclear weapons delivery systems and specific non-nuclear component/subsystems for which the Air Force has life cycle management responsibility. General responsibilities include direction, guidance, and supervision over all matters pertaining to the formulation, review, approval, and execution of acquisition plans, policies, and programs.

A2.2. Three-letter subordinate offices include:

A2.2.1. Executive Action Group (SAF/AQE). Functions as SAF/AQ Executive's Action Group including SAF/AQ operations support functions. Provides executive support and independent

recommendations on key acquisition issues that cut across all SAF/AQ organizations for direct use by the assistant secretary and military deputy. Advises on policy for the assistant secretary on all matters related to direction and management for the Air Force research and development, test, production, and modernization programs. Reviews SAF/AQ correspondence for content. Prepares positions and presentations for the assistant secretary and the military deputy in dealing with Congress, senior DoD executives, senior Air Force leadership, and corporate chief executive officers. Serves as the SAF/AQ focal point for congressional interface activities for the SAE and weapon system acquisition programs. Produces written testimony for the SAF/AQ, and is responsible for all hearing preparation materials. Serves as the SAF/AQ-focal point for Director, Budget and Appropriations Liaison (SAF/FMBL), SAF/LL, and the Air Force posture team. Serves as the SAF/AQ focal point for all four-star-level meetings. Serves as the SAF/AQ focal point for all media inquiries, serving as the primary interface with the Air Force Director of Public Affairs (SAF/PA). Provides security, Common Access Cards/badges, computer/network, records management, and postal support to SAF/AQ.

A2.2.2. Director for the Air Force Scientific Advisory Board (SAF/AQB). Provides direct support to the Air Force Scientific Advisory Board (SAB), an independent Federal Advisory Committee (FAC) that advises on matters of science and technology relating to the Air Force mission. Serves as or ensures provision of a Designated Federal Officer for all Air Force SAB activities in accordance with FAC laws and regulations and OSD and Air Force policies and instructions. Principle HAF office for interactions between the SAB and Congress, SecAF, CSAF, other HAF offices, MAJCOMs, laboratories, acquisition program offices, DoD, other government agencies, industry, and academia. Facilitates all Air Force SAB activities including, but not limited to, logistics and travel; report and outbrief preparation, editing, publishing and distribution; planning and execution of quarterly board and information gathering meetings; and new member study topic solicitation and staffing. Coordinates all direction from SecAF, SAF/AA, and SAF/AQ to the SAB.

A2.2.3. The Deputy Assistant Secretary for Contracting (SAF/AQC**)**. The senior contracting and business advisor to SAF/AQ with authority to: (1) enter into, approve, terminate, and take all other appropriate actions with respect to contracts and agreements, and (2) issue, modify, or rescind contracting regulations under the system of the Federal Acquisition Regulations and the Defense Federal Acquisition Regulation Supplement (DFARS). Ensures policy, processes, training, and information technology for Air Force military and civilian contracting personnel worldwide, to include the readiness of Air Force contingency contracting officers. Serves as the functional manager and Development Team Chair who appoints the career field manager for the development of all contracting personnel. Serves as the Competition Advocate for the Air Force. Identifies Air Force Procuring Activities and Competition Advocates for each of the Activities. Conducts specialized training in source selection, pricing, protests, market research and other contract-related functions. Supports the conduct of Multi-Functional Independent Review Teams and Peer Reviews. Develops, integrates, promulgates, and assesses all Air Force contracting policy providing tools and training to support its implementation. Issues the Air Force Federal Acquisition Regulation Supplement (AFFARS). Represents the Air Force to the DAR Council. Interfaces with senior leaders in Air Force, DoD, the Government Accountability Office (GAO), the Air Force Audit Agency (AFAA), the DoD Inspector General, other federal agencies, and the defense industry to develop, present, and defend Air Force positions on acquisition matters. Provides information, assistance, and business advice for programs at product centers, logistic centers, MAJCOMs, and operational contracting squadrons. This

includes, but is not limited to: support of active source selections; acquisition strategy panels; portfolio reviews; acquisition teams for major systems, logistics and operational acquisitions; acquisition plans; justification for other than full and open competition; business clearance; privatization and community partnership; and approval of other contract-related documentation. Provides government purchase card program management and assistance with central contractor registration. Serves as the focal point for all legacy and future information technology (IT) procurement and business systems and their interfaces to other Air Force systems ensuring end-to-end auditability. Assists in the deployment and provides support for DoD and Air Force business systems, the acquisition domain, and the Functional Requirements Board. Directs electronic commerce, improved customer-focused service delivery and enterprise architecture for procurement. Represents the Air Force as Strategic Sourcing Accountable Official to the Office of Federal Procurement Policy and supports implementation of Air Force commodity councils.

A2.2.4. Deputy Assistant Secretary for Logistics and Product Support (SAF/AQD). Responsible for enterprise oversight of product support, supply chain management, maintenance of military materiel, and all product support functions required to field and maintain the readiness and operational capability of weapon systems. Develops and implements policy for product support, supply chain management (excluding distribution and transportation), maintenance of military materiel, and to that end, serves as the primary interface with Congress, OSD, and the military services. Provides programs with oversight, guidance, and assistance relative to product support during the development of programmatic documentation and the execution of program reviews throughout the life cycle. Responsible for enterprise oversight of all matters pertaining to Air Force depots throughout the life cycle. Serves as the Air Force lead for designating Centers of Industrial and Technical Excellence, and provides oversight for the development of public-private partnerships related to depot operations. Ensures compliance with Title 10 U.S.C. §2464, core logistics capability requirements. Ensures compliance with Title 10 U.S.C. §2466, the limitation on the performance of depot-level maintenance of materiel. Ensures compliance with Title 10 U.S.C. §2476, minimum capital investment for certain depots. Represents Air Force product support enterprise equities in governance forums, to include the Enterprise Logistics Governance, Centralized Asset Management-Executive Council, Maintenance Executive Steering Committee and the Supply Chain Executive Steering Committee.

A2.2.5. Director for Acquisition Career Management (SAF/AQH). Serves as the Director, Acquisition Personnel and Career Management—the Air Force focal point for integrated management of the acquisition workforce across all functional areas. Develops, reviews, and coordinates policy and strategic plans for the Air Force acquisition workforce. Responsible for leading the Air Force Acquisition Professional Development Program (APDP), including implementing programs and policies mandated by the Defense Acquisition Workforce Improvement Act (DAWIA), Title 10 U.S.C. Chapter 87, and DoD directives. Supports Air Force functional managers and career field managers by providing force development policies, management tools, performance measures, and execution strategies. Responsible for personnel data management systems and tools required to manage the acquisition workforce and ensure accurate identification of acquisition position coding requirements. Manages the Air Force acquisition training office. Manages Air Force funding to achieve strategic objectives for the workforce in support of acquisition excellence, including the APDP budget, the Air Force share of the Defense Acquisition Workforce Development Fund, and funding provided by Defense Acquisition University (DAU) for certification, assignment-specific training, and continuous learning. Serves as the Air Force Liaison to OSD and the DAU President, on behalf of the SAE

and functional managers. Manages the Air Force acquisition awards program. Serves as the career field manager for scientists, developmental engineers, and acquisition program managers. In coordination with Air Force functional managers, AF/A1, Air Force Personnel Center (AFPC), and MAJCOMs, manages the development of high potential acquisition professionals to achieve orderly succession planning. Manages the Acquisition Personnel Demonstration Project (Acq Demo). Responsible for management of SAF/AQ-assigned personnel, including liaison with AFPC and the Air Force District of Washington (AFDW) staff who conduct personnel-related actions in support of SAF/AQ. Manages the civilian and military appraisal systems, the military officer management level review promotion processes, and all the enlisted and officer promotion board results. Assists SAF/AQ directorates with fill actions for civilian and military positions in coordination with AFDW and AFPC. Manages the SAF/AQ unit awards program and oversees military fitness testing. Performs oversight of SAF/AQ manpower (organic and contractor) and the Air Force's use of Federally Funded Research and Development Centers. Coordinates facility support to SAF/AQ.

A2.2.6. Director for Information Dominance Programs (SAF/AQI). Directs, plans, and programs for development, procurement, and product support of information dominance programs. Serves as the focal point within the HAF for information dominance matters associated with integrated product life cycle management and facilitates information dominance stakeholder collaboration in addressing lifecycle issues. The portfolio includes current and future: air and ground based command and control (C2), including nuclear C2; Defense Business Systems, Enterprise Information Technology; Cyberspace Weapon Systems; manned and unmanned intelligence, surveillance, and reconnaissance (ISR); counter-C2 electronic warfare, air traffic control and landing systems; and networks and datalinks systems from concept and technology development through production, deployment, and sustainment. For nuclear C2, the Directorate coordinates with SAF/AQP on the information technology development efforts associated with the nuclear C2 mission. The portfolio also includes oversight of Combat Identification (CID) programs including the CID Friendly Force Tracking Executive Steering Committee chaired by the J6. Provides key support to steering committees and boards of directors for several NATO programs to include: NATO Airborne Early Warning and Control; Air Command and Control System; and Alliance Ground Surveillance. Serves as the DoD Executive Agent for the Common Data Link. Participates in the defense planning, programming, budgeting and execution (PPBE) process. Focal point for information dominance program information requests from members of Congress, personal, and professional staff members in both Congress and the White House, and other sources. Identifies information dominance congressional requirements in defense committee reports, conference reports, and appropriation and authorization Bills and tracks progress toward meeting requirements and timelines. Works in conjunction with OSD, Joint Staff, Defense Agencies, Combatant Commands, other Services, capability developers, and Air Force MAJCOMs (as applicable), to support information dominance programs from inception through disposal, with a focus on modification and modernization efforts.

A2.2.7. Director for Special Programs (SAF/AQL). Serves as the principal acquisition advisor to the SecAF, CSAF, Under Secretary of the Air Force (USecAF), and SAF/AQ on all matters involving special access programs (SAP), and liaises with other military Services, defense agencies, and federal departments to ensure cross-fertilization of advanced technologies and concepts to explore the potential for joint cooperation activities. Serves as the Chairman, Special Programs Review Group and Executive Secretary, Special Programs Oversight Committee; directly responsible to the SecAF as chair with oversight responsibility for all Air Force SAPs.

Serves as the DoD Executive Agent for the Anti-Tamper Program. Executes original classification authority for designated SAPs. Serves as the primary interface with Congress for all Air Force SAPs. Plans, programs, directs, and accomplishes research, development, test, and evaluation (RDT&E) for promising advanced air, space, and cyber capabilities. Analyzes proposed technical approaches to satisfy operational needs of the combat and mobility forces. Develops and produces advanced aerospace systems and subsystems for the combat and mobility forces. Provides acquisition technical support for developing advanced aerospace systems and subsystems throughout all phases of the life cycle. In coordination with SAF/AQR, directs SAP advanced technology development programs and monitors new technologies, which may satisfy operational requirements or capitalize on technological opportunities. Reviews and coordinates on system requirements proposed by implementing and operating commands, field operating agencies (FOA), and direct reporting units for advanced technologies or sensitive intelligence. Represents SAF/AQ at special topics sessions of the Air Force requirements oversight council (AFROC). Serves as the Air Force representative to the tri-Service low observable/counter-low observable committee and the tri-Service defensive systems committee. Provides programmatic support to SAF/IA international projects and facilitates SAF/IA participation in the tri-Service executive committee.

A2.2.8. Director for Global Power Programs (SAF/AQP). Directs, plans, and programs for development, procurement, and product support of global power programs; serves as the focal point within the HAF for global power matters associated with integrated product life cycle management; and facilitates global power stakeholder collaboration in addressing lifecycle issues. This includes fighters, bombers, intercontinental ballistic missiles, nuclear and conventional air-to-ground weapons, air-to-air weapons, weapons integration, advanced targeting pods, electronic warfare systems, nuclear command and control, engine component improvements, aircrew life support, agile combat support, and chemical/biological defense programs. Advises on all conventional and nuclear weapon delivery platform acquisition program issues from program initiation through sustainment. Manages, monitors, and provides direction to field commands regarding global power programs. Monitors force composition and quality for global power programs. Participates in the PPBE process. Acts as principal capability area point of contact to SAF/LL and SAF/FMBL for Global Power programs. Monitors emerging and advanced technologies for potential application to Air Force missions through coordination with other U.S. Services, non-DoD government agencies, and appropriate NATO offices. Primary interface with NATO regarding U.S. and allied weapons issues and maintains liaison with the SAE on NATO Air Weapons. Acts as the Air Force lead agent for insensitive munitions. Serves as the focal point for global power programs acquisition information requests from members of Congress, personal and professional staff members in Congress, the White House, and other sources. Identifies global power congressional requirements in defense committee reports, conference reports, and appropriation and authorization Bills and tracks progress toward meeting requirements and timelines.

A2.2.9. Director for Global Reach Programs (SAF/AQQ). Directs, plans, and programs for development, procurement, and product support of global reach programs; serves as the focal point within the HAF for global reach matters associated with integrated product life cycle management; and facilitates global reach stakeholder collaboration in addressing lifecycle issues. This includes: airlift; tanker; special operations; combat search and rescue; trainers (to include distributed mission operations); special mission aircraft (VIP special airlift missions); mobility support systems; large aircraft defensive systems; and civil airspace access and navigation safety.

Provides key support to the NATO Air Force Armaments Group (NAFAG) board of advisors (BoA) and the United States representative to Air Capability Group 5 (Global Mobility) and several sub-groups to include: Joint Precision Air Drop Capability Working Group; Special Operations Capability Working Group; and the Joint Precision Approach and Landing Systems Working Group. Works in conjunction with United States Transportation Command (USTRANSCOM), United States Special Operations Command (USSOCOM), developing commands, and MAJCOMs (as applicable) to support global reach programs from inception through disposal, with a focus on modification and modernization efforts. Serves as the focal point for global reach acquisition information requests from members of Congress, personal and professional staff members in Congress, the White House, and other sources. Identifies global reach congressional requirements in defense committee reports, conference reports, and appropriation and authorization Bills and tracks progress toward meeting requirements and timelines.

A2.2.10. Deputy Assistant Secretary of the Air Force for Science, Technology and Engineering (SAF/AQR). Serves as the Air Force S&T Executive, Air Force Acquisition Chief Engineer and Technical Authority, the Air Force Corrosion Control and Prevention Executive, Air Force Standardization Executive, and functional manager for the scientist and engineer (S&E) career field. Develops and implements plans, policies, and procedures for Air Force S&T, laboratory management, technology transition (to include Joint Capability Technology Demonstrations), Technology Cooperation Program, technology transfer, development planning (DP), and experimentation. Establishes engineering policy and guidance for Air Force systems, subsystems, and end-items. Leads the Systems Security Engineering activities that include the identification and protection of critical program information (CPI) and functions, elimination or mitigation of cyber vulnerabilities, and program protection planning. Establishes policy and guidance for the development, implementation, and operation of the Air Force airworthiness assurance system. Advocates for S&T, DP, prototyping and experimentation, technology transition, technology transfer, and S&T intelligence; defends these areas in the corporate Air Force PPBE process; and serves as the primary interface with Congress, OSD, and other government agencies for these non-SAP investments. Provides oversight of the scientific and technical information program, to include distribution controls. Develops the Air Force S&T strategy in consultation with AF/ST; oversees S&T 6.1 through 6.3 program elements as well as assigned 6.4 program elements, and ensures technology development supports warfighter needs. Serves as Air Force lead for Manufacturing Technology (ManTech), Manufacturing and Quality policy, Small Business Innovation Research, Small Business Technology Transfer, the Defense Advanced Research Projects Agency, the Independent Research and Development programs, and In-House Laboratory Independent Research. In coordination with SAF/AQL, integrates SAP RDT&E and non-SAP RDT&E, S&T planning activities and strategy, directs advanced technology development programs and monitors new technologies. Serves as principal advisor for S&T matters and provides policy and advice on the above topics to SAF/AQ, USecAF, SecAF, Vice Chief of Staff of the Air Force, CSAF, and OSD. Participates in international S&T planning activities with SAF/IA. Provides systems engineering oversight and support for program development, documentation, and reviews prior to and throughout the acquisition lifecycle. Focal point for SAE environment, safety, and occupational health high risk acceptance. Air Force acquisition lead for Non-Lethal Weapons Human Effects Characterization, as well as weapons and laser system safety. AF lead for scientific and engineering integrity and prevention of research misconduct. Provides technical advice to the SAE for pre-acquisition

investment decisions and acquisition program technical and engineering integration program risk. Responsible for managing Air Force S&E career field development teams and the science, technology, engineering, and mathematics (STEM) initiatives. In collaboration with AF/A1, AF/ST, and other functionals, assesses the health and well-being of the Air Force STEM workforce.

A2.2.11. Director for Space Programs (SAF/AQS). Directs, plans, and programs for development, procurement, and product support of space programs; serves as the focal point within the HAF for space matters associated with integrated product life cycle management and facilitates space stakeholder collaboration in addressing lifecycle issues. This includes communication, navigation, launch vehicles, environmental monitoring, surveillance and warning, infrastructure, interagency Global Positioning System coordination, interagency launch coordination, Navigation Warfare, command and control, space test, and space control. Serves as the SAF/AQ focal point for orbital debris, national space policy, and national security space issues. Chairs the annual DoD Space Experiment Review Board. Provides programmatic support to the SAF/IA international space projects. Serves as USecAF representative on Defense Space Council +1 and as the SAF/AQ representative on the Air Force Space Board. Participates in the PPBE process. Works in conjunction with United States Strategic Command, developing commands, and MAJCOMs (as applicable) to support space programs from inception through appropriate major milestones. Serves as the focal point for space acquisition information requests from members of Congress, personal and professional staff members in Congress, the White House, and other sources. Identifies congressional space requirements in defense committee reports, conference reports, and appropriation and authorization Bills and tracks progress toward meeting requirements and timelines. Acts as a principal capability area point of contact to SAF/LL and SAF/FMBL for Space programs.

A2.2.12. Deputy Assistant Secretary of the Air Force for Acquisition Integration (SAF/AQX). Develops and implements plans, policies, and procedures related to Air Force acquisition management, reporting, structure, and execution. SAE functional manager for all Air Force acquisition program management personnel. Establishes integrated life cycle acquisition policy and guidance for Air Force systems, subsystems, end-items, and services. Integrates cyber and acquisition security activities into acquisition policy and guidance. Advises Air Force Major Defense Acquisition Programs/Major Automated Information Systems going through the Air Force and DoD Acquisition Oversight Process. Secretariat for all Air Force acquisition oversight meetings including Acquisition Strategy Panels, Air Force Review Boards, and Configuration Steering Boards. SAF/AQ representative to the Air Force Requirements Oversight Council and Air Force Requirements Review Group providing acquisition insight and expertise in support of the development of operational capability requirements. Air Force focal point for overseeing Defense Acquisition Executive Summary's, Selected Acquisition Reports, and Major Automated Information System Annual Reports. Serves as the Chief Process Officer designing, approving, maintaining, standardizing, and analyzing Air Force acquisition enterprise processes. Conducts performance assessments of the Air Force acquisition enterprise, establishing, analyzing, and maintaining Air Force acquisition enterprise metrics for the SAE. Leads SAF/AQ's strategic management efforts, lessons learned processes, enterprise-wide continuous process improvement program, value engineering, and implements acquisition change management. Serves as component Value Engineering Senior Management Official. Serves as the acquisition domain functional chief information officer developing and maintaining the enterprise architecture, data strategy, and business information technology plans. Manages SAF/AQ portfolio of business

systems that support acquisition within the Air Force. Responsible to assess corporate business health and maintain insight to company's capacity, leadership, motivation, organizational structure, and key operations for the Air Force. Provides oversight and advocacy for the Air Force industrial preparedness program, including industrial base preparedness investments, studies and assessments, Air Force industrial facilities, and the Air Force implementation of the Defense Production Act. Develops and provides the Air Force recommendation for the disposition of cases under consideration by the Committee on Foreign Investment in the U.S. (CFIUS). SAF/AQ Voting Member for the Operating Budget Review Committee, the Program and Budget Review Group, the Program and Budget Review Board. Provides funds execution and management oversight of the SAF/AQ operating budget to include the SAF/AQ TDY and supply accounts. SAF/AQ representative for HAF program budget reviews. Performs program authorization for acquisition programs, coordinates on PEO or MAJCOM-recommended below threshold reprogramming actions for alignment with Air Force Top Down priorities and execution. Manages and tracks budget rephasing and unfunded requirements during execution year; oversees resulting requests for issuance of budget authority or notifications/requests to Congress by SAF/FMB. SAF/AQ representative for the Air Force corporate process; serves as voting member on the Air Force group and board, and RDT&E panel chair (responsible for a portfolio of program elements that includes S&T and T&E). Provides independent analysis of cost, schedule, and technical program execution to SAF/AQ leadership. Lead SAF/AQ organization for program budget and investment reviews. Air Force lead for spring execution reviews with SAF/FMB support. Supports investment budget reviews led by SAF/FMB. Develops and implements policy covering acquisition program reporting and review, program integration, and should-cost initiative generation in accordance with Air Force, DoD, and congressional direction. Single HAF POC for overseeing the acquisition activities associated with responding to Warfighter Urgent Needs (Joint Urgent Operational Needs, Joint Emergent Operational Needs, Urgent Operational Needs). Program advisor and OSD interface for determining program structure, establishing a program baseline, and predicting breaches. Responsible for the development and implementation of earned value management (EVM) policy and coordination with OSD on EVM issues.

ATTACHMENT 3

STANDARD OPERATING PROCEDURES BETWEEN THE ASSISTANT SECRETARY OF THE AIR FORCE FOR ACQUISITION, TECHNOLOGY, AND LOGISTICS (SAF/AQ) AND THE ASSISTANT SECRETARY OF THE AIR FORCE FOR SPACE ACQUISITION AND INTEGRATION (SAF/SQ)

A3.1. Overview. SAF/AQ and SAF/SQ have established these standard operating procedures (SOPs) pursuant to HOI 90-1, para 2.2.5. They include procedures for individuals assigned to SAF/SQ and SAF/AQ to fulfill their respective missions, roles, and responsibilities. They do not enact or change two-letter delegations of authority or organizational relationships as reflected in these HAFMDs. These procedures are intended to facilitate routine staff actions/functions and reduce duplication of effort between SAF/AQ and SAF/SQ to increase efficiency and effectiveness. The SecAF, SAF/AQ, or SAF/SQ may deem review and revision of these SOPs as necessary.

A3.2. Standard Operating Procedures (SOPs):

A3.2.1. General SOP Provisions. These provisions apply broadly to SAF/AQ and SAF/SQ offices.

A3.2.1.1. Federal and DoD Acquisition Policy. SAF/AQ is DAF lead for coordinating changes to higher echelon acquisition policy. Per various provisions in HQDAFMD 1-10 and HAFMD 1-17, when tasked by OSD to coordinate on a new/revised DoD acquisition-related issuance or change to the FAR/DFARS, SAF/AQ will ensure SAF/SQ is included as a required coordinator via the standard HAF coordination process (use 3-letter level if applicable) or as otherwise appropriate. In such cases, the SAF/SQ OPR will task subordinate space acquisition activities for input, if applicable, and provide a consolidated space input to SAF/AQ. SAF/SQ may also provide SAF/AQ with recommended changes to applicable DoD issuances (including those submitted by subordinate space acquisition activities) at any time.

A3.2.1.2. DAF Acquisition Policy. SAF/AQ is DAF lead for acquisition policy. Per various provisions in HQDAFMD 1-10 and HAFMD 1-17, when SAF/AQ initiates acquisition-related policy or process changes impacting the DAF (including DAFFARS, PDs, instructions, etc.), they will include SAF/SQ in the drafting process and as a required coordinator via the standard HAF coordination process, as appropriate. In such cases, the SAF/SQ OPR will task subordinate space acquisition activities for input and provide a consolidated space input to SAF/AQ. For acquisition-related DAFPDs for which SAF/AQ is the certifying official, SAF/SQ will be listed as the Sister Service Senior Coordinator (SSSC), in their as Space SAE, on the accompanying DAF Form 673. For acquisition related DAFPDs for which SAF/SQ is the certifying official, SAF/AQ will be listed as the SSSC, in their role as the SAE for non-space systems and programs, on the accompanying DAF Form 673. SAF/SQ may also provide SAF/AQ with recommended changes to applicable DAF publications (including those submitted by subordinate space acquisition activities) at any time.

A3.2.1.3. Coordination and Staffing. The primary method for formal coordination between SAF/AQ and SAF/SQ offices will be tasking via the DAF tasking process (i.e., ETMS2). Tasking via email may only be used for time-constrained coordination, if necessary. Collaboration via ad-hoc meetings and direct liaison among action officers of both organizations will also be used, as necessary. For actions requiring 2-letter approval, the initiating office will

coordinate with the 2-letter's Executive Action Group, which will facilitate final staffing with the applicable front office. SAF/AQ and SAF/SQ will formally coordinate with each other on multi-domain and/or cross-cutting DAF activities. For acquisition actions that impact both space and non-space systems and programs, SAF/AQ and SAF/SQ will jointly sign/approve applicable documentation.

A3.2.1.4. Contracting. (OPRs: SAF/AQC and SAF/SQX)

A3.2.1.5. HCA Designation. Per HAFMD 1-17, para 3.5.1, SAF/SQ has designated specific positions at SSC, SDA, and SpRCO as HCAs for their respective space systems and programs. SAF/SQ has designated AF RCO Director of Contracting as HCA for space systems and programs contracts at AF RCO. SAF/SQ has designated SAF/AQC as HCA for DAF space systems and programs contracts not executed by SSC, SDA, Space Rapid Capabilities Office (SpRCO), or AF RCO. Contact SAF/SQX for copies of applicable HCA designation memos.

A3.2.1.6. Contract Execution. Per HQDAFMD 1-10, para 3.11 and HAFMD 1-17, para 3.5.2, DAF-level contracting actions that affect both space and non-space contracts that require execution of SPE authority will be jointly signed/approved by SAF/AQ and SAF/SQ. SAF/AQC and SAF/SQX will staff applicable product(s) for coordination within their respective chains of authority.

A3.2.1.7. Contracting Regulations and Policy. For policy addressed in HQDAFMD 1-10, para 3.11 and HAFMD 1-17, para 3.5.3., follow guidance in para A3.2.1.1. (DoD issuances).

A3.2.1.8. (DAF policy documents) within this SOP. Consistent with HQDAFMD 1-10, para A2.2.1, SAF/AQC is the DAF representative to the DAR Council and will solicit input from SAF/SQX when preparing for council meetings or engagements.

A3.2.1.9. Head of Agency and SPE Approvals. Per HAFMD 1-17, para 3.5.4., acquisition and contracting actions that must be approved by SAF/SQ will be prepared by the applicable HCA and provided to SAF/SQX. SAF/SQX will obtain additional HAF level coordination, if required (e.g., SAF/AQC, Acquisition, Technology, and Logistics Division (SAF/GCQ, etc.), then route to SAF/SQ for approval. SAF/SQX may request SAF/AQC coordination for technical clarification or subject matter expertise. SAF/SQX will notify SAF/AQC of programmatic or contractor issues that may have impact across the DAF or may require enterprise-wide resolution.

A3.2.1.10. Interfacing with Senior Leaders in DAF, DoD, and External Agencies/Entities. Per HQDAFMD 1-10, para A2.2.1. and HAFMD 1-17, para 3.5.5., SAF/SQ will develop, present, and advocate for USSF positions on contracting matters for space systems and programs. SAF/SQ will ensure USSF positions do not conflict with approved DAF-wide positions during such interactions. Additionally, SAF/AQ will solicit input from and coordinate new/updated DAF positions with SAF/SQ prior to such external engagements.

A3.2.1.11. Competition and Commercial Advocates. Per HAFMD 1-17, para 3.5.6., SAF/SQ has delegated to space systems and programs HCAs the authority to designate procuring activities and appoint procuring activity Competition and Commercial Advocates. SAF/SQX will ensure HCAs provide notification of such designations to the DAF Competition Advocate General (SAF/AQC), per applicable HCA designation letters. SAF/AQC will coordinate with SAF/SQX to obtain space-focused input for DAF competition goals, plans to eliminate barriers, and the annual competition report.

A3.2.1.12. Contracting Overhead Functions. For contracting overhead activities listed in HAFMD 1-17, para 3.5.7, SAF/AQC will provide direct support to and solicit input from SAF/SQX while managing these activities for the DAF. For standard/routine information reporting, USSF HCAs may continue to provide information directly to SAF/AQC according to existing processes, with courtesy copies to SAF/SQX where feasible.

A3.2.1.13. Services Acquisitions. In support of HAFMD 1-17, para 2.5., DAF PEO/Services (formerly AFPEO/CM) will help facilitate SSC PAEs or PEOs, SDA PAE or PEO, AF RCO and SpRCO PAE or PEO in providing annual updates on their services requirements (i.e., Services Requirements Review (SRR)) to the Space SAE. The SRR provides an effective overview of the management, performance, and governance of services acquisitions within each PAE or PEO portfolio. DAFPEO/Services will provide the template for the SRR. The SRR, together with other reviews led by DAFPEO/Services, satisfies the requirements of DoDI 5000.74, para 4.6 for Independent Management Reviews.

A3.2.2. Logistics and Product Support. (OPRs: SAF/AQT and SAF/SQS)

A3.2.2.1. Scope. Consistent with HQDAFMD 1-10, para A2.2.7 and HAFMD 1-17, para A2.2.4, this section includes product support, supply chain materiel management, maintenance of military materiel, and all product support functions required to field and maintain the readiness and operational capability of weapon systems, except as delegated to SAF/SQ.

A3.2.2.2. Policy. For policy addressed in HQDAFMD 1-10, section 3, as well as HAFMD 1-17, para 3.3.1, follow guidance in para A3.2.1.1. (DoD issuances) and/or para A3.2.1.2 (DAF policy documents) within this SOP. [NOTE: HAFMD 1-17, para 3.3.1. will be amended in the next revision as follows: “Provides input to SAF/AQ (DAF lead), in collaboration with SF/COO, on policy for the design. Reference to policy was mistakenly omitted from the document.

A3.2.2.3. Products and Processes. SAF/AQT oversees policy and performs daily management of broad DAF-level logistics and product support activities. SAF/SQS serves as the SAF/SQ OPR for situational awareness and required follow-up actions in the areas discussed below. SAF/SQS will coordinate with SAF/AQT and other HAF offices, if necessary for SME support, prior to staffing logistics and product support related actions to SAF/SQ for decision/approval.

A3.2.2.3.1. Sustainment Reviews. SAF/SQS will support SAF/AQT in organizing and scheduling sustainment reviews for covered space systems and programs required by 10 USC § 4323, within five years of IOC, then at five-year intervals thereafter. Content support will be provided by SAF/AQT, as required. SAF/AQT will coordinate the required report to Congress with SAF/SQ.

A3.2.2.3.2. Life Cycle Sustainment Plans (LCSPs). SAF/SQS, in coordination with SAF/AQT and the applicable program office, will facilitate staffing applicable space systems and programs LCSPs to SAF/SQ for signature and approval.

A3.2.2.3.3. Product Support Business Case Analysis (PS-BCA). SAF/SQS is the approval authority for space systems and programs PS-BCAs and revalidations. SAF/AQT will advise SAF/SQS on the PS-BCA process, as required. This provision will remain in effect until DAFI 63-101/20-101, paras 7.6.5. and 7.6.6., are corrected.

A3.2.2.3.4. Independent Logistics Assessments (ILAs). ILAs are approved as part of the LCSP. Space PAEs or PEOs for MDAPs work with FLDCOM S4s to assess the adequacy of sustainment planning for space systems and programs in SSC’s portfolio. SAF/SQS, in

coordination with SAF/AQT, will participate in this process as an advisor to the PAEs or PEOs.

A3.2.2.3.5. Integrated Acquisition Portfolio Review (IAPR) for Sustainment. SAF/AQT is DAF OPR for this review, which feeds OSD's Sustainment Deputy's Management Action Groups (DMAGs). SAF/SQ participation is required for OSD-directed reporting on space force systems. SAF/SQS will serve as SQ OPR for tasks related to space program reporting and will coordinate as necessary with SF, FLDCOM S4s, AFCAA, and other stakeholders. Tasks may include advising OSD regarding space system inclusion on the reporting list, establishing data connections to share metrics with OSD's analytic platform, and accomplishing quarterly reporting for required systems.

A3.2.2.3.6. Life Cycle Logistics (LCL) Functional Area Leader (FAL). SAF/AQT is responsible for oversight and guidance of LCL and product support manager (PSM) acquisition specific training and experience. SAF/AQT will advise the Director, Acquisition Career Management (DACM) and SAEs on acquisition workforce management issues and assist in execution of acquisition workforce responsibilities in the LCL function, consistent with FAL responsibilities detailed in DAFI 63-101/20-101. Per DAFI 36-2670, Total Force Development, AF/A4 is the functional authority for Officer Career Fields 21A, 21M, and 21R and the Logistics Civilian Career Field. Acquisition is considered a cross-functional authority and SAF/AQT has a responsibility to provide the functional authority strategic oversight and force development advocacy related to the requirements of the LCL workforce. SAF/AQT will execute these cross-functional authorities for the USAF and USSF LCL community as outlined in DAFI 36-2670. SAF/AQT will solicit space-focused input from SAF/SQS.

A3.2.2.3.7. Weapon System Sustainment (WSS). Per HQDAFMD 1-10, para A2.2.4 and HAFMD 1-17, paras 3.14 and A2.2.4, as well as external agreement with SF/S4, the SAF/SQ Military Deputy and SAF/SQS will represent space acquisition interests at applicable levels of the USSF WSS governance structure and collaborate with SAF/AQT when required for SME support.

A3.2.2.3.8. Sustainment Technology Executive (STE). Per DoDI 5000.92, para 2.5.c, SAF/AQT serves as the DAF STE. SAF/SQS will collaborate with SAF/AQT on applicable STE issues, as required.

A3.2.3. Acquisition Personnel and Career Management. (OPRs: SAF/AQH, SAF/SQR, and/or SAF/SQX)

A3.2.3.1. Process Changes. Per HQDAFMD 1-10, paras 3.16. and A2.2.2, and HAFMD 1-17, paras 3.7 and A2.2.3, when SAF/AQH initiates changes to acquisition personnel and career management processes, they will solicit input from SAF/SQR before proceeding. SAF/SQR may propose changes to SAF/AQH (including those submitted by subordinate space acquisition activities) at any time.

A3.2.3.2. Policy. For policy addressed in HQDAFMD 1-10, para A2.2.2 and HAFMD 1-17, para A2.2.3, follow guidance in para A3.2.1.1 (DoD issuances) and/or para A3.2.1.2 (DAF policy documents) within this SOP.

A3.2.3.3. Career Field Management. SAF/AQH functions as the Career Field Management team on behalf of the SAF/AQ and SAF/SQ Military Deputies, in the Deputies' role as Functional Authority for Force Modernization officers in the 62E Developmental Engineer and 63A Acquisition Manager career fields. SAF/AQH will serve as the primary advocate for the career

field, addressing issues and coordinating functional concerns across various staffs. SAF/AQH will function as the liaison among SAF/AQ, SAF/SQ, AF/A1, SF/S1, Officer Assignment Teams (OATs) at the Air Force Personnel Center (AFPC), and OATs at the USSF Enterprise Talent Management Office (ETMO). SAF/SQR will provide career management feedback or issues to SAF/AQH.

A3.2.3.4. Key Leadership Position (KLP) Designation Process. Per HQDAFMD 1-10, para A2.2.2 and HAFMD 1-17, para A2.2.3, SAF/AQH will provide specific support to SAF/SQ for key leadership position policy and management, which includes managing the KLP designation process, as well as maintaining and distributing (on an as needed basis) the approved list of KLPs, which includes information on incumbents, waivers, and tenure. Per HAFMD 1-17, para A1.25, SAF/SQ will retain authority for decisions and/or approvals regarding space acquisition workforce education, training, experience, and career development for DAF space acquisition personnel and positions (e.g., designation of KLPs, establishment of AWF command positions, and assignment of PAEs or PEOs). SAF/AQH, in coordination with SAF/SQR, will perform the following on behalf of SAF/SQ for KLP selection.

A3.2.3.4.1. Coordinate with the hiring organization to identify a civilian or military member for the KLP, then review the member's Acquisition Career Management System (ACMS) Single Unit Retrieval Format (SURF), resume, and/or certifications to determine if the requirements of DoDI 5000.66, para 4.2 have been met. If requirements are met, a DD Form 2889, Critical Acquisition Position Service Agreement (i.e., civilian tenure agreement) or Active Duty Service Commitment (ADSC) is required, along with an appointment letter. If requirements are not met, a DD Form 2905, Acquisition, Technology, and Logistics Workforce Position Requirements or Tenure Waiver, is required before proceeding.

A3.2.3.4.2. For PAEs or PEOs, DPAEs or DPEOs, PMs, or DPMs, the appointment letter and any position waivers require applicable SAE approval. Otherwise, the hiring authority retains final approval authority and no further staffing to SAF/AQH is required. The hiring organization sends all documents to SAF/AQH to review, track, and route. SAF/AQH will perform any additional HAF level coordination, if required. SAF/AQH will staff the package to SAF/AQE or SAF/SQE for SAE review/signature. SAF/AQH retains final copies of completed appointments, waivers, and tenure agreements.

A3.2.3.5. Per HQDAFMD 1-10, para A2.2.2 and HAFMD 1-17, para A2.2.3, SAF/SQR will provide input to SAF/AQH (DACM) in the following areas: SAF/SQ retains approval authority for space-specific acquisition workforce decisions, SAF/AQH manages DAF –level DACM execution responsibilities in alignment with DoDI 5000.66 and DAF policy. This includes systems, funding, and data tools used to implement acquisition career field management activities across DAF. SAF/SQ retains decision/approval authority over executing such policy and activities for the space acquisition workforce.

A3.2.4. Special Programs. (OPRs: SAF/AQL and SAF/SQX) Per HAFMD 1-17, para A2.2.5.3, SAF/SQX will provide space focused input for the Anti-Tamper (AT) Program to SAF/AQL (as the DoD ATEA) and the Low Observable and Counter Low Observable (LO/CLO) Tri-Service Committee (SAF/AQL) via the standard HAF coordination process, as appropriate. For context, Authority to Proceed (ATP) information is also provided to the Air Force Test Center Director of Operations (as the DAF AT OPR).

A3.2.5. Science, Technology, and Engineering. (OPRs: SAF/AQT and SAF/SQT)

A3.2.5.1. Overview. SAF/SQ's office of the Director, Science, Technology, and Engineering (SAF/SQT) was established after HAFMD 1-17 was published, per SAF/AAR-approved OCR dated 15 Aug 23. As a result, all science, technology, and engineering oversight responsibilities previously assigned to SAF/SQA are now assigned to SAF/SQT. SAF/SQ's office of the Director, Architecture, Science, and Technology (SAF/SQA) is now known as the office of the Director, Space System of Systems Engineering. This provision will remain in effect until HAFMD1-17 is revised to reflect the change.

A3.2.5.2. DAF Technology Executive Officer (TEO) Oversight. Per SAF/AQ and SAF/SQ memo, *Designation of Department of the Air Force* (DAF) *Technology Executive Officer* (TEO), dated 20 Apr 23, and HAFMD 1-17, paras 2.6 and 3.13 (DAF TEO), SAF/AQT facilitates SAF/AQ's oversight and direction for non-space related S&T activities and SAF/SQT facilitates SAF/SQ's oversight and direction for space-related S&T activities. For oversight and direction for multi-domain and cross-cutting S&T activities, SAF/SQT will coordinate with SAF/AQT. SAF/SQ will issue independent guidance to the TEO on various space related S&T topics, including annual POM guidance to USSF acquisition organization input sources. SAF/SQT will collaborate with SAF/AQT to facilitate staffing of dual-signed (SAF/AQ and SAF/SQ) guidance to the TEO, as needed.

A3.2.5.3. Systems Engineering and Manufacturing Technology Policy. For policy addressed in HQDAFMD 1-10, paras 3.6 and 3.9, and HAFMD 1-17, paras 3.2.6 and 3.2.7 (systems engineering and ManTech policy), follow guidance in para A3.2.1.1 (DoD issuances) and/or para A3.2.1.2 (DAF policy documents) within this SOP. SAF/SQA manages Space System of Systems Engineering for SAF/SQ.

A3.2.5.4. Science, Technology, and Engineering. Per HQDAFMD 1-10, para A2.2.7 and HAFMD 1-17, para A2.2.1.2.2 (Science, Technology, and Engineering), SAF/AQT oversees DAF ST&E policy and will follow guidance in para A3.2.1.2 (DAF policy documents) within this SOP. SAF/AQT manages daily execution of S&T activities for non-space systems and programs and SAF/SQT manages daily execution of S&T activities for space systems and programs. SAF/SQT will provide space-focused input to SAF/AQT for DAF processes managed by SAF/AQT (e.g., Critical Programs and Technologies List (CPTL), Cyber Resiliency of Weapons Systems (CROWS), etc). SAF/SQT will coordinate with SAF/AQT, if necessary for SME support, prior to staffing actions to SAF/SQ for decision/approval. SAF/AQT will continue to perform the following functions on behalf of SAF/AQ and SAF/SQ: Air Force Departmental Standardization Office (DEPSO); Corrosion Control Prevention Executive (CCPE); and Developmental Special Experiences (DSE).

A3.2.5.5. DAF Scientific Advisory Board (SAB). Per HQDAFMD 1-10, para A2.2.7 and HAFMD 1-17, para A2.2.1.2.2 (SAB), SAF/SQT will facilitate SAF/SQ input to the DAF SAB, in coordination with SAF/AQT, to include study topics and S&T reviews.

A3.2.5.6. Program Protection Plans (PPPs). SAF/SQT, in coordination with SAF/AQT and the applicable program office, will facilitate staffing of space systems and programs PPPs to SAF/SQ for signature and approval.

A3.2.6. Acquisition Policy and Program Integration. (OPRs: SAF/AQX and SAF/SQX)

A3.2.6.1. DoD and DAF Acquisition Policy. For DoD acquisition policy, follow guidance in para A3.2.1.1 within this SOP. For DAF acquisition policy, follow guidance in para A3.2.1.2

within this SOP.

A3.2.6.2. Acquisition Reporting, Data Strategy, and IT. Per HQDAFMD 1-10, para A2.2.8 and HAFMD 1-17, para A2.2.5.1.2, SAF/SQX will collaborate with SAF/AQX on oversight of acquisition reporting and related data strategy. This includes the timing and format of inputs for Selected Acquisition Reports, Defense Acquisition Executive Summary Reports, and Congressional reports (e.g., Air Force and Space Force Accelerated Acquisition Report, more commonly referred to as the Middle Tier of Acquisition Report). SAF/SQX will also provide input to SAF/AQX on redesigns of acquisition data collection and reporting processes (e.g., implementation of the new Program Data Alignment Application (PDAA) upgrade to the Project Management Resource Tools (PMRT)).

A3.3.6.3. J-Book Publication. Per HAFMD 1-17, para A2.2.5.1.2., SAF/SQX will coordinate with SAF/SQS, SAF/SQT, and Program Element Monitors (PEMs) to ensure accurate representation of program details that are aggregated in the annual Justification Books. SAF/SQX provides completed J-Book input to SAF/AQX for consolidation and submission to OSD.

A3.2.6.4. Industrial Preparedness. Per HQDAFMD 1-10, paras 3.8. and A2.2.8., and HAFMD 1-17, paras 3.4.1. and A2.2.5.1.2., SAF/SQA will provide input to SAF/AQX on the DAF Industrial Preparedness Program, to include information regarding investments, studies, assessments, space industrial facilities, and implementation of the Defense Production Act. In situations requiring a DAF decision/approval regarding assessing defense industrial capabilities, SAF/AQX will prepare and staff the decision document for SAF/AQ approval, following coordination with SAF/SQ when space systems and programs are addressed.

A3.2.6.5. CFIUS. Per HQDAFMD 1-10, para A2.2.8. and HAFMD 1-17, para A2.2.5.1.2.2., SAF/SQA will receive notification of CFIUS cases for space systems and programs from SAF/AQX and review them on behalf of SAF/SQ. CFIUS cases are administratively coordinated via official email (encrypted) to ensure confidentiality of the foreign investment. The SAF/SQA POC will coordinate across SQ for inputs and equities concerning details of the case. The POC collects inputs and develops a consolidated SAF/SQ answer that is coordinated through SQX before returning the response to SAF/AQX.

A3.2.6.6. Policy and Program Integration Overhead Functions. Per HQDAFMD 1-10, para A2.2.8 and HAFMD 1-17, para A2.2.5.2.2., SAF/AQX oversees DAF acquisition policy , and SAF/SQX manages daily execution for space related policy and program integration overhead activities. SAF/SQA will coordinate with SAF/AQX and other HAF offices, if necessary for SME support, prior to staffing policy and integration related actions to SAF/SQ for decision/approval.

A3.2.7. Revisions to SOPs. These SOPs may be reviewed and revised as deemed necessary by the Secretary of the Air Force, SAF/AQ, or SAF/SQ. OPRs will follow revision procedures in HOI 90-1.

A3.2.8. Process and Strategic Change Management. Per HQDAFMD 1-10, para. A2.2.8. and HAFMD 1-17, para. A2.2.5.2.2., SAF/AQX (through the DAF Master Chief Process Officer) has the responsibility to design, approve, maintain, standardize, and analyze DAF acquisition enterprise processes and SAF/SQX supports this work. SAF/AQX (through the Master Process Officer) leads strategic management efforts, lessons learned processes, enterprise-wide continuous process improvement program, value engineering, and implements acquisition change management and SAF/SQX supports this work with relevant inputs.

Abbreviations and Acronyms

AAF—Adaptive Acquisition Framework
ACAT—Acquisition Category
AcqDemo—Acquisition Demonstration Project
AFAA—Air Force Audit Agency
AFPC—Air Force Personnel Center
AF/TE—Director of Test and Evaluation
AoA—Analysis of Alternatives
APDP—Acquisition Professional Development Program
BCAT—Business Category
C2—Command and Control
CBM—Condition Based Maintenance
CCPE—Corrosion Control Prevention Executive
CID—Combat Identification
CFIUS—Committee on Foreign Investment in the U.S.
CPI—Critical Program Information
CSO—Chief of Space Operations
CSAF—Chief of Staff of the Air Force
CUI—Controlled Unclassified Information
DAE—Defense Acquisition Executive
DAF—Department of the Air Force
DAFFARS—Department of the Air Force Federal Acquisition Regulation Supplement
DAR—Defense Acquisition Regulations
DARPA—Defense Advanced Research Projects Agency
DAWIA—Defense Acquisition Workforce Improvement Act
DCMA—Defense Contract Management Agency
DEPSO—Departmental Standardization Office
DFARS—Defense Federal Acquisition Regulation Supplement
DGARS—Defense Grant and Agreement Regulatory System
DLA—Defense Logistics Agency
DMAG—Deputy's Management Action Groups
DMSMS—Diminishing Manufacturing Sources and Material Shortages
DoD—Department of Defense
DoDD—Department of Defense Directive
DoDI—Department of Defense Instruction
DP—Development Planning
DSOR—Depot Source of Repair
DTIC—Defense Technical Information Center
ETMO—Enterprise Talent Management Office
EUC—End Use Certificates
EVM—Earned Value Management
FAC—Federal Advisory Committee
FAR—Federal Acquisition Regulation
FFRDC—Federally Funded Research and Development Center
FLDCOM—Field Command

FOA—Field Operating Agency
GAO—Government Accountability Office
HAF—Headquarters Air Force
HAFMD—Headquarters Air Force Mission Directive
HCA—Head of Contracting Activity
HSI—Human Systems Integration
HQDAFMD—Headquarters Department of the Air Force Mission Directive
IAPR—Integrated Acquisition Portfolio Review
ILA—Independent Logistics Assessment
IR&D—Independent Research and Development
ISR—Intelligence, Surveillance, and Reconnaissance
IT—Information Technology
IUID—Item Unique Identification
J&A—Justification and Approval
KLP—Key Leadership Position
LCL—Life Cycle Logistics
LCSP—Life Cycle Sustainment Plan
M&S—Modeling and Simulation
MAJCOM—Major Command
ManTech—Manufacturing Technology
MDA—Missile Defense Agency
MDAP—Major Defense Acquisition Program
MOSA—Modular Open Systems Approach
MPPEH—Material Potentially Presenting an Explosive Hazard
MTA—Middle Tier of Acquisition
NAF—Nonappropriated Fund
NAFAGNATO—Air Force Armaments Group
NLW—Non-Lethal Weapons
OCS—Operational Contract Support
OPR—Office of Primary Responsibility
OUID—Organization Unique Identification
PAE—Program Acquisition Executive
PEO—Program Executive Officer
PMRT—Project Management Resource Tools
PPP—Program Protection Plan
PS-BCA—Product Support Business Case Analysis
PSC—Private Security Contractors (PSC)
PSM—Product Support Manager
RDT&E—Research, Development, Test, and Evaluation
S&E—Scientist and Engineer
S&T—Science and Technology
SAB—Scientific Advisory Board
SAE—Service Acquisition Executive
SAP—Special Access Program
SBIR—Small Business Innovation Research
SecAF—Secretary of the Air Force

SIM—Serialized Item Management
SOP—Standard Operating Procedures
SPE—Senior Procurement Executive
SPPBE—Strategy, Planning, Programming, Budgeting and Execution
SRR—Services Requirements Review
STE—Sustainment Technology Executive
STEM—Science, Technology, Engineering, and Mathematics
STIP—Scientific and Technical Information Program
STTR—Small Business Technology Transfer
T&E—Test & Evaluation
TEMP—Test and Evaluation Master Plan
TEO—Technology Executive Officer
UID—Unique Identification
U.S.C.—United States Code
USecAF—Under Secretary of the Air Force
VE—Value Engineering
VTM—Vendor Threat Mitigation
WAU—Warfighting Acquisition University
WRM—War Reserve Materiel
WSS—Weapon System Sustainment

Office Symbols
