Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the DAF Form 847, *Recommendation for Change of Publication*; route DAF Forms 847 from the field through the appropriate functional chain of command. This Department of the Air Force Instruction (DAFI) may be supplemented at any level, but all supplements that directly implement this publication must be routed to SAF/AAIP the Air Force Departmental Publishing Office (AFDPO) for coordination prior to certification and approval. The authorities to waive wing, unit, or delta level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following

the compliance statement. Submit requests for waivers through the chain of command to the appropriate tier waiver approval authority or alternately to the publication OPR for non-tired compliance items. See DAF Manual (DAFMAN) 90-161, *Publishing Processes and Procedures*, for a description of the authorities associated with the tier numbers. Include a copy of any waivers or exceptions issued regarding the publications and forms management requirements found in this publication when submitting products to AFDPO for publishing.

End Strength—The count of DAF military and civilian positions the DAF needs to have funded in each year of the Future Years Defense Program (FYDP) to accomplish all approved missions. End strength provides the basis for funded man-years within the personnel system, and provides the target for personnel plans, programs, and budgets. End strength is a resource provided to support approved force structure, programs, or missions. End strength changes do not drive force structure or mission changes; they are tied to programmatic increases and decreases in force structure or mission. Operating Budget Review Committee (OBRC)—The OBRC assists the Air Force Board and Air Force Council in evaluating the program budgeting and execution of the operation and maintenance (O&M) appropriation.

POM Preparation Instructions (PPI)—The annual PPI provides the technical guidance required to ensure all POM submissions have the proper format and content to facilitate timely and efficient presentation to the AFCS.

POM—A biannual memorandum submitted to the Secretary of Defense (SECDEF) from each military department and defense agency. It proposes total program requirements for the next five years. It includes rationale for planned changes from the approved future years' defense program baseline within the fiscal guidance issued by the SECDEF.

Statutory Authority—Authority derived from statute. For example, The DoD Inspector General derives his authority from The Inspector General Act of 1978, 5 United States Code Appendix 3.

Subordinate Unified Command—A command established by commanders of unified commands, when so authorized by the Secretary of Defense through the Chairman of the Joint Chiefs of Staff, to conduct operations on a continuing basis in accordance with the criteria set forth for unified commands.
