AIRCREW FLIGHT EQUIPMENT SPECIALTY AFSC 1P0X1
CAREER FIELD EDUCATION AND TRAINING PLAN

PART 1

Preface

1. This Career Field Education and Training Plan (CFETP) is a comprehensive education and training document that identifies life-cycle education/training requirements, training support resources, and minimum core task requirements for the 1P0X1, Aircrew Flight Equipment (AFE) Specialty. The CFETP provides personnel with a clear career path to success and instills rigor and consistency in all aspects of career field education and training. **Note**: Civilians occupying associated positions use Part II to support duty position training. This CFETP was developed in accordance with (IAW) the requirements in DAFMAN 36-2689, *Training Program.* The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the AF. To read, review, or print a copy of the current CFETP, go to the AF Publications website at: http://www.e-publishing.af.mil/

NOTE: In addition to the requirements identified in DAFMAN 36-2689, AFE SNCOs (to include CMSgt) at the wing-level or below, who perform equipment inspection duties, including quality control, quality assurance, or in-process inspections will maintain on-the-job training (OJT) records.

2. SUMMARY OF CHANGES. This document includes major changes throughout the CFETP and should be reviewed in its entirety. The biggest changes are the application of the Occupational Competency Model (OCM), in lieu of task performance, to validate technician understanding and capability to accomplish the mission. Ultimately, AFE technicians will be trained by focusing on being capable and competent versus individual tasks. During initial skills training, instruction will be aligned with scenario-based curriculum and aims to mirror shop operations to provide an environment that students will experience at their first duty station. As technicians progress through training, every course and curriculum available will be tailored towards the OCM. The list of equipment in Attachments 2-5 contains the minimum requirements to achieve the 5-skill level, in addition to the requirements for duty position competencies by Mission Design Series (MDS) assignment. Similar equipment types have been consolidated for the purpose of task completion.

3. The 1P0X1 CFETP consists of two main parts; supervisors use both parts to plan, manage, and control training.

3.1. Part 1 provides information necessary for overall management of the specialty. Section A explains how individuals will use the plan; Section B identifies career field progression information, duties and responsibilities, training strategies, and career field path; Section C is the Training Course Index which outlines available courses for AFE personnel; Section D outlines AFE University and how it functions; Section E indicates resource constraints (funds, manpower, equipment, facilities, etc).

3.2. Part 2 is used at the unit level for supervisors and trainers to identify, plan, and conduct

training. Section A identifies the Specialty Training Standard and includes duties, tasks, Technical References to support training, AETC conducted training, wartime course and core task and correspondence course requirements. Section B identifies available support materials.

4. Use of the CFETP ensures individuals in this specialty receive effective and efficient training at the appropriate points in their career. This plan enables us to train today's work force for tomorrow's jobs.

Section 1A – General Information

1. **Purpose.** This CFETP provides the information necessary for Air Force Career Field Managers (CFMs), Major Command Functional Managers, commanders, training managers, supervisors and trainers to plan, develop, manage, and conduct an effective and efficient career field training program. The plan outlines the training individuals in this Air Force Specialty should receive in order to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, and competency training. Initial skills training is the Air Force Specialty specific training an individual receives upon entry into the Air Force or upon retraining into this specialty for award of the 3-skill level. Normally, this training is conducted by AETC at one of the technical training centers. Upgrade training identifies the mandatory courses, task qualification requirements, and learning module completion requirements to award the 3-, 5-, 7-, and 9-skill levels. This CFETP (Specialty Training Standards - STS) uses the Occupational Competency Model defined in Attachment 1. The Career Field Education and Training Plan has several purposes:

1.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field training program.

1.2. Identifies behaviors, tasks and knowledge training requirements for each skill level and recommends education and training throughout each phase of an individual's career.

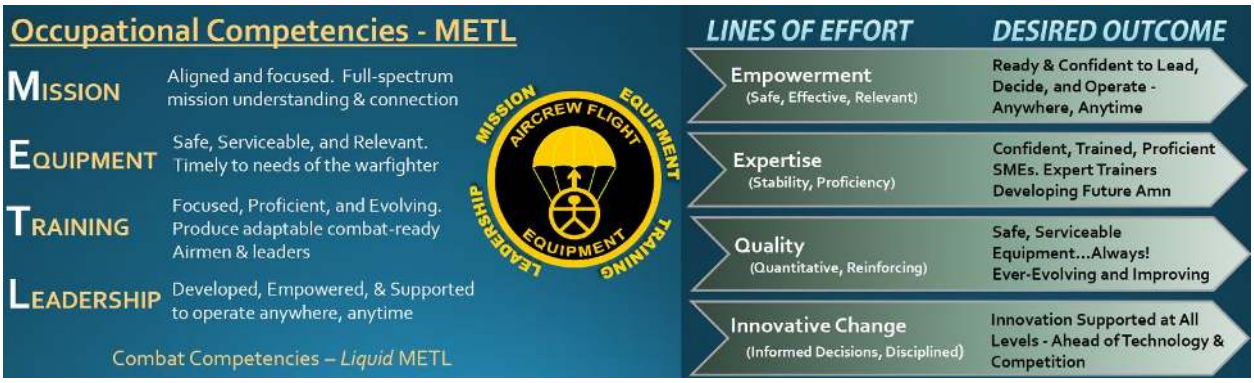

1.3. Lists of training courses that are available identifies sources of training, and the training delivery method.

1.4. Identifies major resource constraints which impact full implementation of the career field training process.

2. Uses. The CFETP is used by Major Command Functional Managers, supervisors, and technicians at all levels to ensure comprehensive and cohesive training programs are available.

2.1. The AFE vision and strategy implements the Occupational Competencies and Lines of Effort, which are designed to produce the desired outcomes outlined below. Refer to the HAF AFE SharePoint for the complete AFE Strategic Plan.

Figure 1.1 AFE Occupational Competencies (METL)

2.2. AETC training personnel develop or revise formal resident, nonresident, field and exportable training based upon requirements established by the users and documented in **Part II** of the CFETP. They also work with the AFE Career Field Manager to develop acquisition strategies for obtaining resources needed to provide identified training.

2.3. AFE Superintendents (AFES) and NCOICs ensure their training programs complement the CFETP mandatory initial, upgrade, and occupational competency requirements.

2.4. Each technician completes the mandatory training requirements specified in the CFETP. The list of courses in **Part II** is used as a reference to support training.

3.Coordination and Approval. The AFE Career Field Manager is the approval authority for the 1P0X1 CFETP. Also, the AFE Career Field Manager will initiate an annual review of this document to ensure currency and accuracy. Major Command representatives and AETC training personnel will identify and coordinate on the career field training requirements.

SECTION 1B – Career Progression and Information

1.1P0 Air Force Specialty. Refer to Department of the Air Force Enlisted Classification Directory (DAFECD) which can be found on the MyFSS Website: **https://myfss.us.af.mil/USAFCommunity/s/knowledge-detail?pid=kA0t0000000wlDpCAI**

2.Training Decisions. A significant change has shifted focus from task-based training to one centered on outcomes-based learning. Behavior outcomes are learning goals that typically consist of a multitude of tasks. These behavior outcomes are actions and performances that reflect the learner's competence in using content, information, ideas, and tools successfully. Focusing on learning behavior outcomes allows the 1P0X1 community to incorporate foundational competencies and underlying characteristics (values, traits, attitudes) into learning. The intent of the learning outcomes is to establish behaviors critical to developing competency in mission, equipment, training, and leadership. Training will be codified by using the behavioral statement coding system for the STS: P (performance), K (knowledge), and pk (performance-knowledge).

3.Skill and Career Progression. Adequate training and timely progression from the apprentice to the superintendent level play an important role in the Air Force's ability to accomplish the mission. It is essential that everyone involved in training do their part to plan, manage, and

conduct an effective training program.

3.1. Apprentice (3) Level. Following Basic Military Training, initial skills training is provided in a 3-level (apprentice) resident course taught at the 82d Training Group, 361st Training Squadron, Sheppard Air Force Base, Texas. Training requirements are identified in Section A of the CFETP (STS). Upon completion of the initial-skills course, graduates are awarded the 3-skill level (AFSC 1P031A/B). The course provides a foundation for additional training at the graduates' first duty assignment where trainees work with a trainer to increase knowledge and skills. Trainees utilize online learning modules for competency training, and other exportable courses to progress in their career field.

3.1.1. Initial Skills Training (IST). The Apprentice Course at Sheppard AFB consists of Ejection (A-Shred) or Non-ejection (B-Shred) specific training. The Ejection course is mandatory for personnel assigned to AFSC 1P0X1A. The non-ejection course is mandatory for personnel assigned to AFSC 1P0X1B.

3.1.1.1. Ejection Course (1P0X1A). This AFSC awarding course provides foundational training in career progression, aircrew support, and expected behaviors and standards for all 1P0X1 personnel. Additional topics include introduction to automated data systems, communications security, deficiency reporting, condition tags, and technical order systems, missions, equipment and operations related to ejection MDS platforms. Upon course completion, the basic Operations Support occupational badge is authorized for wear.

3.1.1.2. Non-Ejection Course (1P0X1B). This AFSC awarding course provides foundational training in career progression, aircrew support, and expected behaviors and standards for all 1P0X1 personnel. Additional topics include introduction to automated data systems, communications security, deficiency reporting, condition tags, and technical order systems, missions, equipment and operations related to non-ejection MDS platforms. Upon course completion, the basic Operations Support occupational badge is authorized for wear.

3.1.1.3. Wartime Initial Skills Training. When directed in a wartime environment, the Ejection Course (1P0X1A) and the Non-Ejection Course (1P0X1B) will revert to the 1P0X1 Wartime Course Requirements outlined in the Memo signed by the CFM. All students will complete the revised course curriculum and be awarded the 3-Level IST for the 1P0X1 AFSC.

3.2. Journeyman (5) Level. To be awarded the 5-skill level, upgrade training includes competency and knowledge training. Once upgraded to the 5-skill level, trainees enter qualification and work center training to broaden their experience base by increasing their knowledge and skills in troubleshooting and solving more complex problems.

3.2.1. 5- Level Upgrade Requirements. Award of the 5-level requires completion of the 1P051A/B online learning modules, a minimum of 12-month time in training (including retraining), and completion of all core and duty position competencies on their primary MDS, weapon system (WS), or mission. All qualifications for AFSC 1P031A/B apply to AFSC 1P051A/B. Additional qualifications are outlined in the official specialty description in DAFECD, paragraph 3. Recommend additional courses as desired per Section D – Training Course Index.

3.2.1.1. Online Learning Module Training. The 5-level learning modules offered through AFCDA are required. Trainees will be enrolled in the AFE Journeyman online learning module within 30 days of their first duty assignment (up to 90 Days for ARC).

3.2.1.2. On the Job (OJT) Training. Hands-on, "over-the-shoulder" training or evaluation conducted to certify personnel in both upgrade and duty qualification. All tasks listed equipment lists in Part II of the CFETP (Attachments 3-5) will be trained via OJT.

3.3. Craftsman (7) Level. To be awarded the 7-skill level, an individual must successfully complete all required 7-level training identified in the CFETP, meet 7-skill level minimum upgrade requirements in DAFMAN 36-2689, complete the AFE 7-level Course, complete the 1P071A/B online learning modules, and be recommended by the AFE Superintendent. Upon skill level award, the senior Operations Support badge (star) may be worn.

3.3.1. AFE 7-Level Course: This course develops future NCOs who will be capable of leading shops, small teams, and can perform autonomously in any environment. This course is required for award of the 7-skill level. Students must be selected for the rank of SSgt prior to attending.

3.3.2. Online Learning Module Training. For the award of AFSC 1P071A/B, the 7-level learning modules offered through AFCDA are required.

3.4. Superintendent (9) Level. AFE Superintendents are SNCOs that have completed their 9-Level upgrade requirements.

3.4.1. 9-Level Upgrade Requirements. To be awarded award the 9-skill level, individuals must hold the rank of SMSgt and complete the AFE 9-level course.

3.4.2. AFE 9-Level Course: This course is intended to introduce and develop future SNCOs capable of leading shops, large teams, and performing autonomously in any environment, to include the tactical, operational and strategic-levels. Students will attend within 12 months from being selected for the rank of MSgt. Upon course completion and promotion to MSgt, the Master Operations Support badge (star and wreath) is authorized for wear.

3.5. Supplemental Courses: Ejection and Non-Ejection. These supplemental versions of the Ejection and Non-ejection initial skill courses exist to provide training to AFE technicians upon notification of assignment to alternate weapon systems. This provides a baseline for specific skills and establishes a foundation; however, this course does not certify an individual on any equipment.

3.5.1. Inactive Ready Reserve (IRR). In the event of IRR activation, OJT is the default training requirement and the 1P0X1 career field does not require IST prior to assignment. The CFM is the approval authority for any formal retraining requirements for personnel activated under the IRR.

4. Community College of the Air Force (CCAF). Enrollment in the CCAF occurs upon completion of BMT, which provides the opportunity to obtain an Associate of Applied Sciences Degree. In addition to its associate degree program, CCAF offers the following:

4.1. Occupational Instructor Certification. Upon completion of instructor qualification training, consisting of the instructor methods course and supervised practice teaching, CCAF instructors who possess an associate degree or higher may be nominated by their school commander and commandant for certification as an occupational instructor.

4.2. CCAF Degree Requirements. Prior to completing an associate degree, the 5 level must be awarded, and the following requirements must be met: Note: Refer to the CCAF General Catalog for a listing of all degree requirements as they are subject to change and some AFSCs may fall under additional degree programs.

Technical Education	24
Leadership, Management, and Military Studies	6
General Education	15
*Written Communication (English Composition)	3
*Oral Communication (Speech)	3
*Mathematics	3
*Social Science	3
*Humanities	3
Program Elective	15
Total Semester Hours:	60

4.2.1. Technical Education (24 Semester Hours): A minimum of 12 semester hours of Technical Core subjects and courses must be applied, and the remaining semester hours applied from Technical Core or Technical Elective subjects and courses.

4.2.2. Leadership, Management, and Military Studies (6 Semester Hours): Professional military education and/or civilian management courses.

4.2.3. General Education (15 Semester Hours): Applicable courses must meet the criteria for application of courses to the General Education Requirements and agree with the definitions of applicable General Education subject/courses provided in the CCAF general catalog.

4.2.4. Program Elective (15 Semester Hours): Satisfied with applicable Technical Education; Leadership, Management, and Military Studies; or General Education subjects and courses, including natural science courses meeting General Education Requirements application criteria. Six semester hours of CCAF degree applicable technical credit otherwise not applicable to this program may be applied. See the CCAF general catalog for details regarding the degree for this specialty.

4.3. AETC Instructor Requirements: The faculty member must satisfy degree requirements to fulfill the teaching discipline qualification, either by completion of classes to satisfy the degree from CCAF or a degree from an outside institution. Once a degree is conferred, all faculty must send transcripts to CCAF/DESS. This requirement will not be considered fulfilled until the conferred degree is reflected within Faculty Qualification Tracking Tool (FQTT). **NOTE:** To ensure multiple transcripts do not get ordered please wait until the faculty member's school has listed the conferral date before requesting transcripts be sent to CCAF.

5.Enlisted Career Field Path: See Airman, NCO and SNCO Tier graphics below. More current information may be posted on MyVector at**:** https://myvector.us.af.mil/myvector

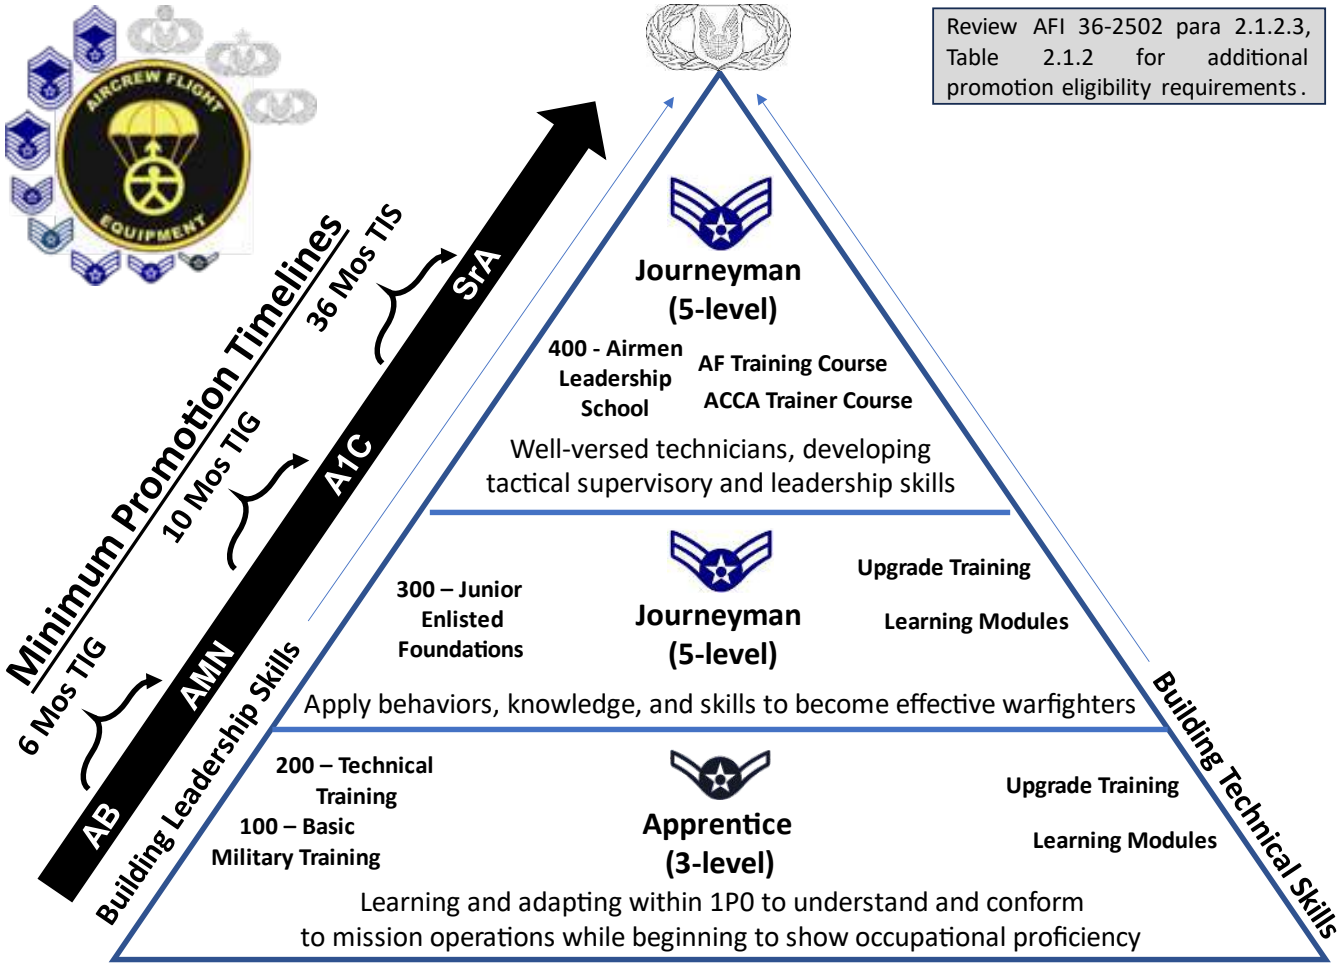

Figure 8.2 NCO Tier

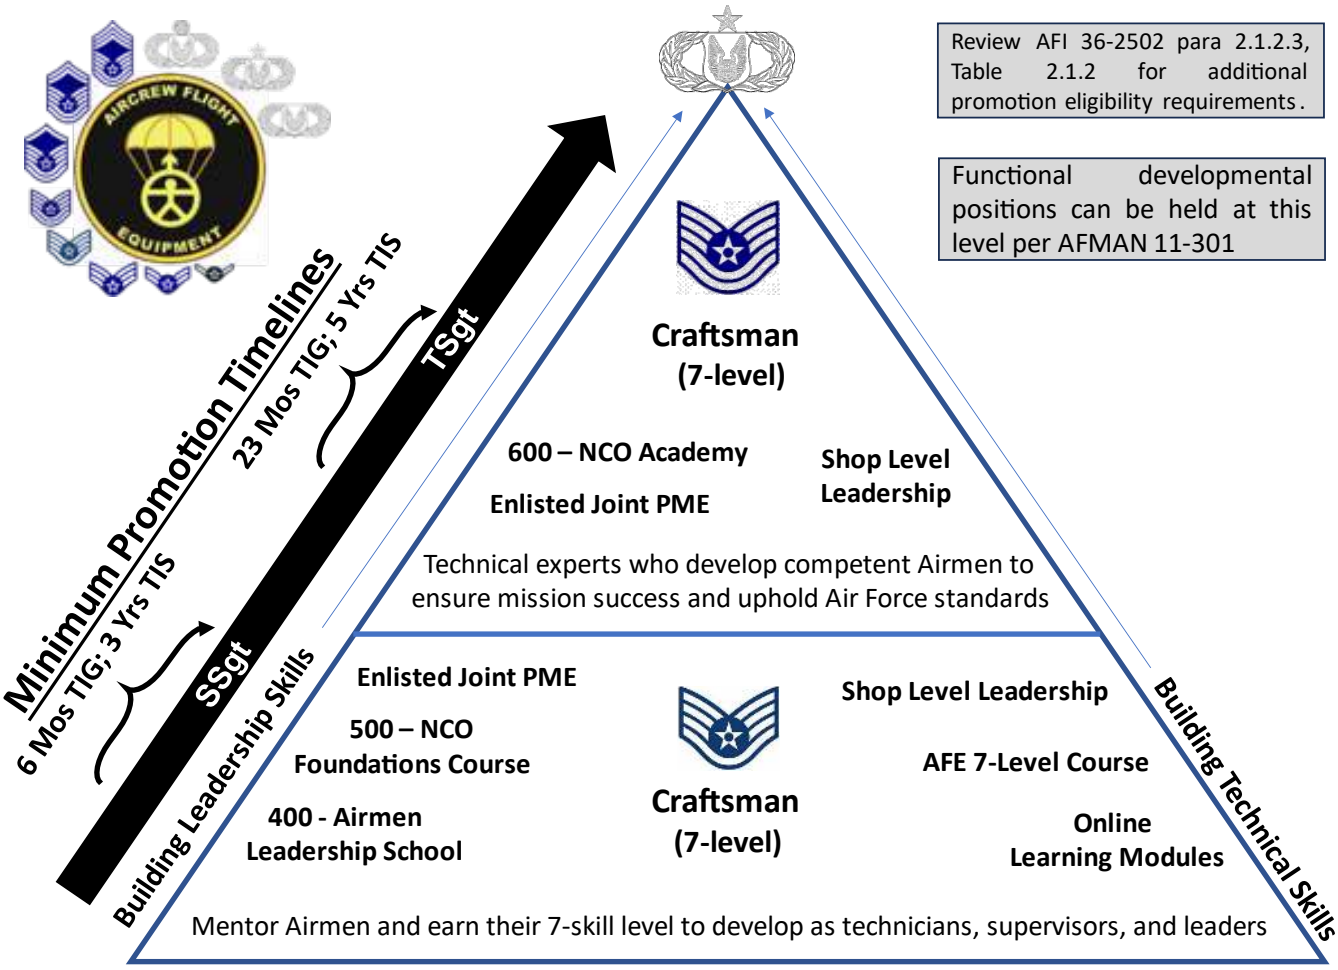

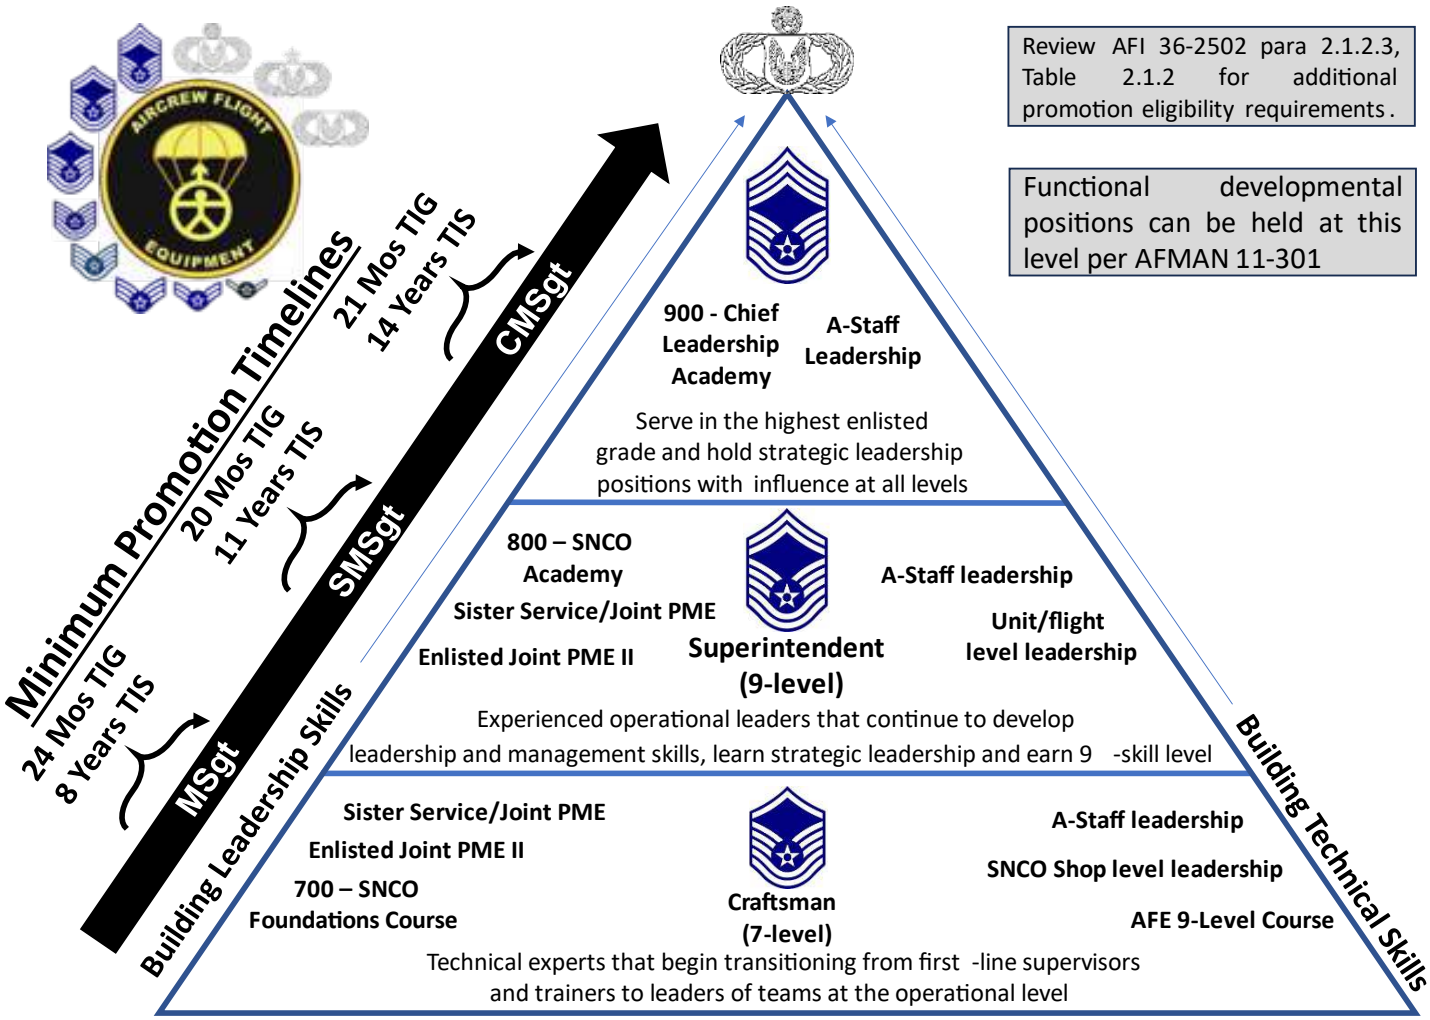

Figure 8.3 SNCO Tier

Section 1C – Training Course Index

6.Purpose. This section of the CFETP identifies training courses available for the 1P0X1 AFE Specialty. To provide the greatest opportunity for proficiency, advancement and future career opportunities all courses are highly desired based on mission set. This index lists AF resident, AU/A4L, and exportable courses used to support training for this specialty. Refer to the Education & Training Course Announcements (ETCA) website for information on AETC formal courses. For further information on the following courses, contact the OPR at: 361 TRS/TRR, 501 Missile Road, Sheppard AFB, TX 76311-2264, DSN 736-3545 or 736-3539.

Table 8.1 Training Course Index

COURSE NUMBER	COURSE TITLE	Location	Skill Level
J3ABR1P031A 048B	Aircrew Flight Equipment Apprentice (Ejection)	Sheppard AFB In Residence	1*
J3ABR1P031B 048B	Aircrew Flight Equipment Apprentice (Non-Ejection)	Sheppard AFB In Residence	1*
J3AZR1P0X1A 048A	Aircrew Flight Equipment Supplemental (Ejection)	Sheppard AFB In Residence	1*
J3AZR1P0X1B 048A	Aircrew Flight Equipment Supplemental (Non-Ejection)	Sheppard AFB In Residence	1*
1P051A M-02	Aircrew Flight Equipment Journeyman (Ejection) [1]	MyLearning Learning Modules	3*
1P051B M-02	Aircrew Flight Equipment Journeyman (Non-Ejection) [1]	MyLearning Learning Modules	3*
CDC Z1P071 Edit Code 03	Aircrew Flight Equipment Craftsman [1]	MyLearning Learning Modules	5*
J3ACR1P071 048A	Aircrew Flight Equipment 7-Level Course	Sheppard AFB In Residence	5*
J3AZR1P091 048A	Aircrew Flight Equipment 9-Level Course	Sheppard AFB In Residence	7*
3J5ACC1P0X1 008	Aircrew Flight Equipment Quality Assurance Course (AFEQAC) [2]	Dyess AFB In Residence	5
J3AZRTXXXX 0P1A	Principles of Instruction (POI) [3]	Various In Residence	5
J3AIRTXXXX 0B4A	Basic Instructor Course (BIC) [3]	Sheppard AFB In Residence	5
C-602-2029	Advanced Sewing Machine Repair Course	NAS Pensacola In Residence	1
J2AZP1P051 028A	F-35 USAF Pilot Flight Equipment 1P0X1 Course	Eglin AFB In Residence	3
L9AZA1XXXX 0A1A	Airborne Parachutist Course	Fort Benning In Residence	3
L9AZA1P051 00BA	Parachute Rigger Course (PRC) Phase 1 [4]	Fort Greg-Adams In Residence	3
L9AZA1P051 00AA	Parachute Rigger Course (PRC) Phase 2 & 3 [4]	Fort Greg-Adams In Residence	3

L5AQA1XXXX 0F1A	Military Freefall Parachutist	Yuma Proving Ground In Residence	3
Civilian Rigger	FAA Senior Parachute Rigger Course	Local	N/A
Civilian Rigger	FAA Master Parachute Rigger Course	Local	N/A
MCADRE002	Contingency Wartime Planning Course [5]	Maxwell AFB In Residence	5
S-O-B/A-APH-I	Initial Physiological Hypoxia Training	Various In Residence	5
3J5ACC1P0X1 004	Life Sciences Equipment Investigation [6]	Dyess AFB In Residence	5
3J5ACC1P0X1 005	Aircrew Contamination Control Area Course (ACCA) [7]	Dyess AFB In Residence	5
3J5ACC3S200 000	ACC Classroom Instructor Course [5]	Dyess AFB In Residence	5
ANGC IC	ANG Instructor Certification Program [5]	McGhee Tyson In Residence	5
L5AZ1A251 0F5A	Airdrop Load Inspector Certification	Fort Greg-Adams In Residence	5
AFSOC Specific Courses			
SOE 3220	Joint Fundamentals Course	Distance Learning (JSOU)	5
SOE 3420	Enterprise Management Course	Distance Learning (JSOU)	7
SOE 4600	Joint Special Operations Forces Senior Enlisted Academy	MacDill AFB In Residence	9

All courses in the minimum skill level column marked with * are required for applicable upgrade.
Note 1: Access to most courses can be found in MyLearning at:
https://lms-jets.cce.af.mil/moodle/
Note 2: Course is intended for NCO/SNCOs, civilian or contractor equivalent executing AFE QA functions.
Note 3: Course is desired for those members being certified as an Aircrew Flight Equipment Continuation Training Instructor (AFECTI). The instructor courses are suitable substitutes.
Note 4: Only mandatory for AFE Riggers supporting premeditated/cargo parachute operations.
Note 5: Highly encouraged for UTC pilot managers.
Note 6: Course is mandatory for at least one member in a unit to provide interim Safety Investigation Board support as needed.
Note 7: Course is mandatory for at least one member in a unit that executes ACCA operations. Members attending Toxic Trip events will receive ACCA course credit.

Section 1D – Aircrew Flight Equipment University

11. The Aircrew Flight Equipment University (AFEU). The mission of AFEU is the development, cultivation, and advancement of a single vision, executed across a spectrum of formats, platforms, and organizations best benefiting the Air Force and the AFE career field. Through consistent training, communication, and mentorship by an elected Board of Trustees (BoT), the AFEU's priorities are to identify training improvement areas and establish innovative solutions to provide safe and serviceable equipment.

11.1. Organization. AFEU is organized as a collection of "campuses" advised and overseen by a BoT operating on behalf of the 1P0 Career Field Manager (CFM) and the Airman Education and Training Command (AETC) MAJCOM Functional Manager (MFM).

11.2. Further details and training modules details are available here https://usaf.dps.mil/sites/AETC-AFE/AFE-U/SitePages/Home.aspx

Section 1E – Resource Constraints

12. Purpose. This section identifies known resource constraints that preclude optimal or desired training from being developed or conducted, including information such as cost and manpower. Narrative explanations of each resource constraint and an impact statement describing what effect each constraint has on training are included. Also included in this section are actions required, office of primary responsibility, and target completion dates. Resource constraints will be, as a minimum, reviewed and updated annually.

13. 1P0 Technical Schoolhouse Resource Constraints. The HAF AFE CFM will be notified of all resource constraints. Identified constraints will be documented as a memorandum for record and posted at: https://usaf.dps.mil/sites/1P0X1SchoolHouse/SitePages/Home.aspx and should follow the requirements as outlined in DAFMAN 36-2689.

PART 2
Section 2A – Specialty Training Standard

1. Implementation. This STS will be used for technical training provided by Air Education and Training Command. This document is the foundation for technician development in areas related to competency models, upgrade training, equipment inspection, grade and skill-level progression, and AFE program management. The intent of competency-based modeling (CBM) is to ensure AFE technicians gain pertinent knowledge, skills and abilities (KSAs) to effectively and safely perform assigned duties. This approach is a departure from traditional time-based training models and focuses on demonstrating proficiency in specified objectives as described in the Occupational Competency Model (Attachment 1).

1.1. Qualitative Requirements. The STS contains the behavioral statement coding key used to indicate the level of training and competence provided by resident training and career learning modules.

Behavioral Statement STS Coding System	
Code	**Definition**
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze or evaluate the subject.
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the filed requirements for speed and accuracy.
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles and operational theory for the task.
-	No training provided in the formal course or DL course.
X	Training is required but not provided due to limitations in resources.

1.2. Field Level Execution. Training will focus on technicians demonstrating competency in the listed observable behaviors in the STS. Once an observable behavior is demonstrated consistently, the trainer will document completion of that training item in the STS or equipment table. STS 7-Level behaviors instructed in the AFE 7-level course will be validated and documented by the supervisor upon return to home station and before AFES recommendation for upgrade.

1.2.1. Minimum Equipment Qualification List. Equipment training will be accomplished based on 1P0X1A, 1P0X1B, and 1P0X1B Premeditated Parachute equipment tables in Attachments 3-6. Items marked with "#" symbols are 5-skill level requirements. Training will focus on technicians demonstrating competency in the listed observable behaviors in the STS Equipment Maintenance (Basic) section (2.1.1.1. through 2.1.1.9.) for each item. Once the applicable equipment maintenance observable behaviors are demonstrated consistently, the technician can be signed off.

1.2.2. Equipment Qualification List Categories. When an Equipment Category (ex.: PROTECTIVE HELMETS) has several systems listed, but is missing a system the workcenter

possesses, qualification will be annotated in the general category row. For general equipment categories, the specific equipment type trained and qualified should be documented in a journal entry. No other tracking is intended or implied.

1.2.3. The equipment lists may sometimes group multiple "like" equipment items (e.g. MBU-12 & 20/P are both Helmeted Oxygen Masks). When this occurs, the technicians will be competent on all workcenter items in that equipment category before task completion. The specific equipment type(s) trained and qualified should be documented in a journal entry. No other tracking is intended or implied.

1.3. Work center supervisors should tailor records to meet the unit's needs as long as the intent of the applicable forms and training program is not compromised. Keep at least one copy of the entire CFETP (Part I and II and Section E) in the work center for general access and development of MTP/MTL. Individual AF Form 623 individual training records for all AFE personnel will be maintained.

2. Job Qualification Standard. The STS becomes a job qualification standard (JQS) for upgrade training when placed in the **Individual Training Record** and used according to DAFMAN 36-2689. Continual progression of knowledge and performance is necessary for mastery of the Aircrew Flight Equipment specialty. Training will continually evolve through basic, intermediate, advanced and expert competency levels. This program builds upon and enhances subject knowledge, performance training or performance knowledge behaviors.

3. Documentation. Document completion of training IAW DAFMAN 36-2689, Training Program, and AFMAN 11-301V1. Records will be tailored to reflect only the unit's Master Task List items.

4. Converting from Legacy Documents to CFETP (aka transcription). All AFJQSs and previous CFETPs has been replaced by this CFETP; therefore, conversion of all training records to this CFETP STS is mandatory. Use this CFETP STS (or unit-specific STS) to capture qualification history.

5. Recommendations for In-Residence Courses at 361 TRS. Report unsatisfactory performance of individual course graduates to the 361 TRS Training Manager at 361 TRS/TRR, 501 Missile Road, Sheppard AFB TX, 76311- 2264, DSN 736-3545 or 676-3539. Reference specific STS paragraphs. A customer service information line has been installed for the supervisor's convenience to identify graduates who may have received over or under training on course content listed in this training standard. For a quick response to problems, call our customer service information line, DSN 736-5236 any time, day or night or e- mail them at 82TRGCSIL@us.af.mil.

Section 2B – Support Material

6. Support material is anything designed to enhance the learning process at any level of training. Refer to AF Education and Training Course Announcements (ETCA) for information on AETC formal courses. https://usaf.dps.mil/teams/app10-etca/SitePages/home.aspx?isdlg=1

BY ORDER OF THE SECRETARY OF THE AIR FORCE

TRAVOLIS A. SIMMONS, BRIGADIER GENERAL, USAF
DIRECTOR OF TRAINING AND READINESS

Attachment 1
OCCUPATIONAL COMPETENCY MODEL

A1. Competencies. The Air Force defines competencies as a combination of knowledge, skills, abilities, and other characteristics that manifest in observable and measurable patterns of behaviors required for mission success. The Aircrew Flight Equipment community has rebuilt the entire training platform by using competencies to identify the behaviors that are needed to be successful on the job. This has been accomplished by identifying and integrating the 1P0X1, Aircrew Flight Equipment occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides all Airmen with transparent and unbiased pathways towards their own successful development.

A1.1. Airmen's Foundational Competencies. The foundational competencies are a set of accepted and valued competencies, which enable success across a wide array of DAF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation. The foundational competencies are grouped into different categories of Developing Self, Developing Others, Developing Ideas, and Developing Organization. Airmen can go to MyVector (accessible via AF Portal) to complete a self-assessment, which will have them evaluate themselves on the 23 Airmen's foundational competencies or a 360-degree assessment, where subordinates, peers, and leaders can also provide feedback. The assessment tools will provide Airmen with immediate feedback on personal strengths and areas for improvement. Additionally, a personal improvement plan with targeted resources (videos, reading content, developmental opportunities) are provided for continued self-development.

Figure A1.1. Airmen's Foundational Competencies.

A1.2. Occupational Competencies. Occupational competencies are a set of competencies required of all Airmen within a specific workforce category. These competencies provide a framework that describes the knowledge, skills, abilities, and other characteristics needed to perform that function's mission successfully.

A1.2.1. Occupational Competency Model. A career field's competencies can be viewed in a competency model, which is an organized collection of competencies pertinent to the career field. The occupational competency model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the 1P0X1 community.

The occupational competency modeling process follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, upgrade training, formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives.

A1.2.2. Career fields work with trained competency experts to identify and develop their competency model, which consists of the competencies, sub-competencies, and definitions. Occupational competency models will be different for each career field. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery competencies required for Airmen to succeed in their career field. The supporting competencies listed in Figure 1 are annotated in the competency rubrics found in section A1.5, which connect the AF Core Competencies with the AFE Occupational Competencies of Mission, Equipment, Training, & Leadership.

Table A1.1. 1P0X1, Aircrew Flight Equipment, Occupational Competency Model

Competency	Sub-Competency	Description
Mission	Mission Readiness	Prepare, equip, and mobilize personnel and resources to support operations worldwide
	Resource Management	Acquire, sustain, and utilize resources to include finances, materiel, personnel, and equipment to achieve organizational objectives
	Safety	Hazard identification, risk management and mishap prevention to ensure safe and effective equipment
Equipment	Equipment Maintenance	Inspect, troubleshoot, and maintain serviceable equipment to support the mission
	Technical Orders	Mandatory guidance and procedures for operating and maintaining equipment
Training	Technician Development	Develop skills, knowledge, and behaviors necessary to fulfill AFE requirements
	Aircrew Instruction	Deliver training to aircrew members, ensuring comprehension and retention of critical information related to AFE
Leadership	Leadership Development	The art and science of leading, mentoring, coaching and directing personnel in the accomplishment of mission objectives
	Personnel Management	Develop and employ personnel to accomplish the mission
	Program Management	Utilizing the knowledge, skills, tools and techniques required to manage programs IAW applicable policies

A1.2.3. Occupational Competency Rubric. After a model is developed, a team of subject matter experts begin building competency rubrics, which consists of the competency, a description of the competency, proficiency levels, and measurable and observable behaviors. The competency rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional developmental expectations, and the criteria for success. Figure 3 provides an

example of a competency rubric for 1P0X1 career field.

Table A1.2. Example Occupational Competency Rubric

Competency	Proficiency Levels	Observable Behaviors
Mission	***Expert*** Reach of Influence: MAJCOM AF-Level Industry	Generates taskings to meet regional needs Validates LOGDET data to ensure mission needs are met Develops Mission Essential Tasks to align career-field with mission objectives Directs Visits to assess unit's mission readiness
Sub-Competency	***Advanced***	Assists Wing Inspection Team to assess capabilities
Mission Readiness	Reach of Influence: Wing Squadron	Reports readiness to communicate LIMFACs and capabilities to higher level Provides personnel and equipment for deployment taskings
Description	***Intermediate***	Familiarizes subordinates with OPLANs, DOC statements, and responsibilities to clarify mission and purpose
Prepare, equip, and mobilize personnel and resources to support operations worldwide.	Reach of Influence: Flight	Identifies equipment necessities and updates LOGDET to reflect new or modified mission requirements Collaborates with MAJCOM to align equipment components with regional requirements
	Basic	Inspects, inventories, and prepares UTCs to meet LOGDET requirements
	Reach of Influence: Individuals	Orders supplies and equipment to maintain serviceability for generation, sustainment and redeployment phases Completes ancillary and skill-level training to fulfill deployment requirements Participates in exercises and reviews reports to enhance preparedness

A1.2.4. To better understand how to read and utilize the competency rubric, a breakdown of each component is explained below:

Figure A1.2. Occupational Competency Rubric Section 1.

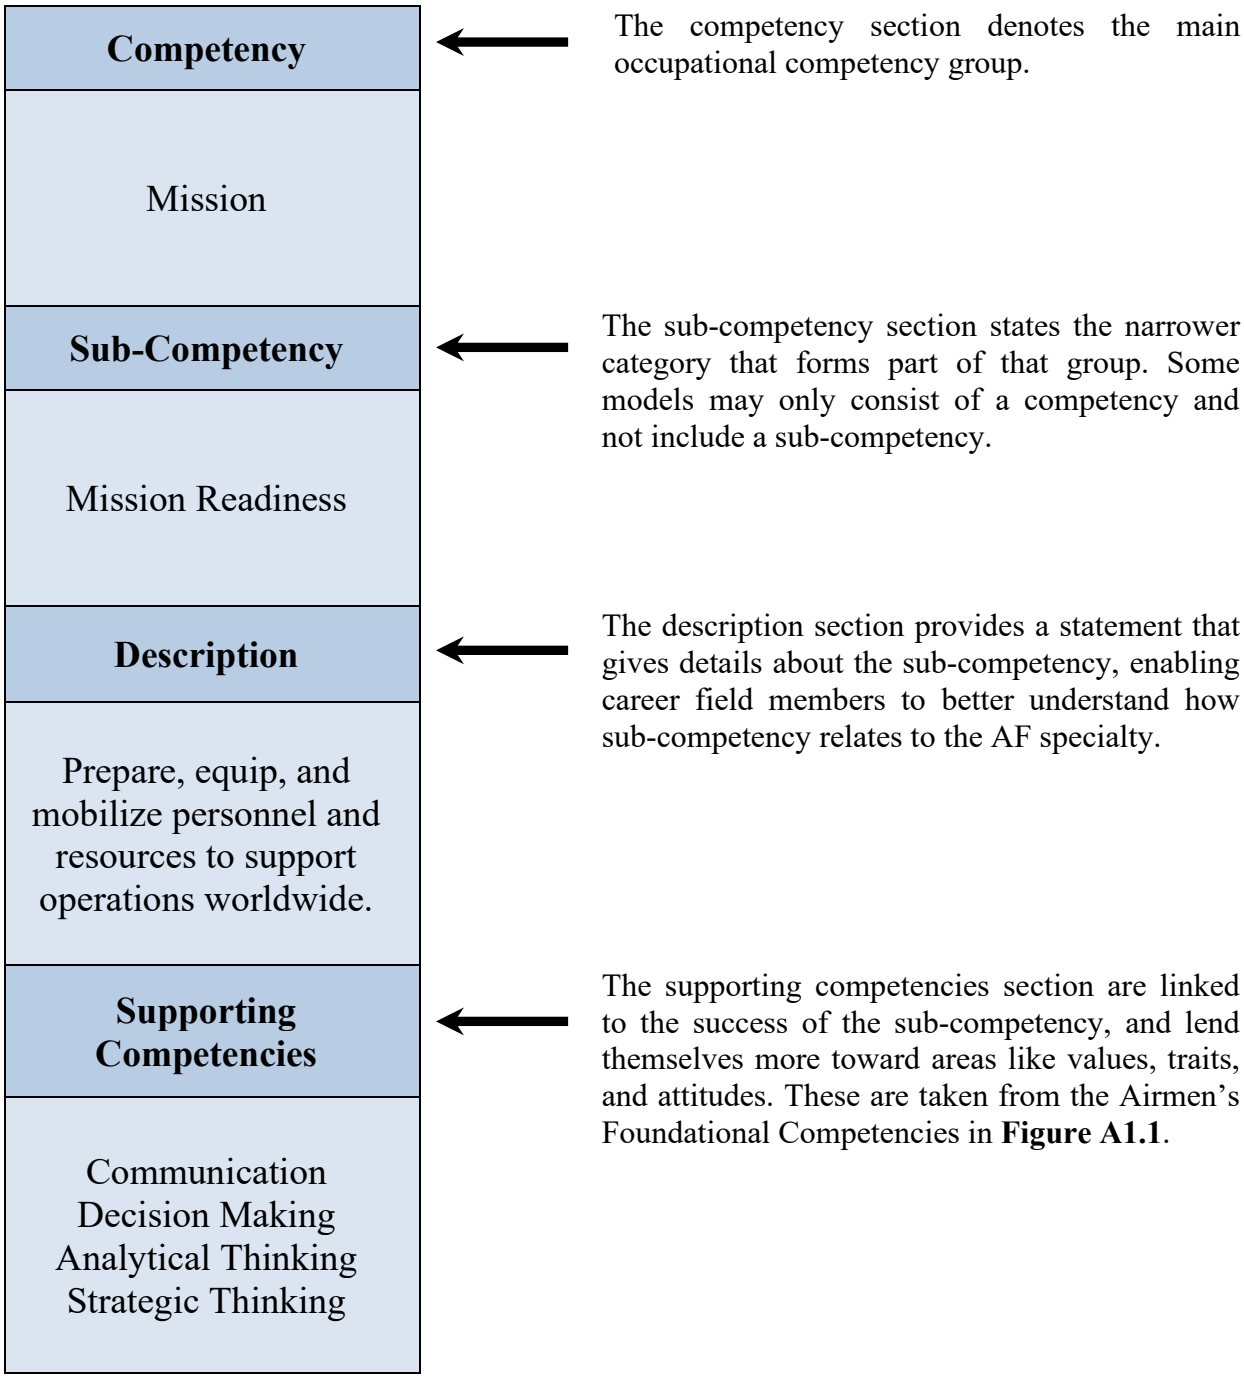

Figure A1.3. Occupational Competency Rubric Section 2.

Proficiency Levels	
Basic **Reach of Influence:** Individuals	The proficiency levels are broken into four categories: *Basic, Intermediate, Advanced, and Expert*. Under each proficiency level are predetermined criteria selected by a group of SMEs from your career field and validated by the career field. The criteria were used as the basis to develop the observable behaviors. These criteria provide concrete parameters for the behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert.
Intermediate **Reach of Influence:** Flight	Some of the criteria (e.g. depth of knowledge, consistency of application/complexity) allows an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to a variety of situations.
Advanced **Reach of Influence:** Wing Squadron	While other criteria (e.g. scope, impact, and reach of influence) requires more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving through the proficiency levels may be difficult to do in certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e. at HHQ, Wing, or an organization with far reaching capabilities).
Expert **Reach of Influence:** MAJCOM AF-Level Industry	

Figure A1.4. Occupational Competency Rubric Section 3

Observable Behaviors
1. Fulfills taskings to meet AOR (Area of Responsibility) needs 2. Assesses units' ability to meet mission requirements
1. Assists Wing Inspection Team to assess capabilities 2. Reports capabilities to higher level 3. Identifies requirements for deployment tasking
1. Familiarizes subordinates with OPLANs, Deployed Operational Capabilities statements, and responsibilities to clarify mission and purpose 2. Monitors equipment LOGDET (Logistics Detail) necessities to reflect new or modified mission requirements
1. Inspects, inventories, and prepares UTCs to meet LOGDET requirements 2. Orders supplies and equipment to maintain serviceability for generation, sustainment and redeployment phases 3. Identifies training to fulfill deployment requirements

The observable behaviors are statements of what can be observed from an individual manifesting the competency at the respective competency level.

They provide objective evidence that the individual possesses the competency level, and shows what effective performance looks like.

The behaviors are written to be specific enough so they can be observable and lend themselves towards measurement.

A1.3. Another key component within the rubric is the supporting competencies section at the bottom left-hand corner. These are the top four supporting competencies that can help members excel and be successful in that sub-competency. Some of these supporting competencies are tied directly to the Airmen's Foundational Competencies, while others may be unique to the career field. Having these supporting competencies identified and linked to a career field's competency model can cultivate those underlying characteristics needed to succeed on the job. Leaders, supervisors, trainers, instructors, or mentors can now set members up for greater success by building these supporting competencies and placing Airmen in situations where they can apply those strategies. All of these elements come together to ensure we can develop Airmen who are better prepared, present and future mission focused, and ready to succeed in any situation. Additionally, AFH 36-2643, *Air Force Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

A1.4. Competency Development. The intent of moving towards a competency-based system is to sharpen tactical expertise, operational competence, strategic vision, and joint proficiency to lead and execute the full spectrum of USAF missions. This occurs not in a classroom but on the job by combining education, training, and experiences to provide Airmen with a better developmental pathway as they move along their careers. Airmen are still required to complete specific training courses, core tasks, and other training requirements to attain a 3-, 5-, and 7-skill levels. Competency development allows Airmen to move beyond the minimum career field requirements and begin addressing developmental gaps and strengthening their capabilities. The information included within the competency model will allow members within the Aircrew Flight Equipment community to manage their professional growth and development by identifying their strengths and weaknesses against clear and objective behaviors within the competency model.

A1.5. Below are the competency rubrics for the 1P0X1 Aircrew Flight Equipment, career field.

Table A1.3. Mission Readiness OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Mission	***Basic*** Reach of Influence: Individuals	1. Inspects, inventories, and prepares UTCs to meet LOGDET requirements 2. Orders supplies and equipment to maintain serviceability for generation, sustainment and redeployment phases 3. Identifies training to fulfill deployment requirements
Sub-Competency	***Intermediate***	1. Familiarizes subordinates with OPLANs, Deployed Operational Capabilities statements, and responsibilities to clarify mission and purpose 2. Monitors equipment LOGDET (Logistics Detail) necessities to reflect new or modified mission requirements
Mission Readiness	Reach of Influence: Flight	
Description	***Advanced***	
Prepare, equip, and mobilize personnel and resources to support operations worldwide.	Reach of Influence: Wing Squadron	1. Assists Wing Inspection Team to assess capabilities 2. Reports capabilities to higher level 3. Identifies requirements for deployment taskings
Supporting Competencies	***Expert***	
Analytical Thinking Communication Decision Making Strategic Thinking	Reach of Influence: MAJCOM AF-Level Industry	1. Fulfills taskings to meet Area of Responsibility (AOR needs 2. Assesses unit's ability to meet mission requirements

Table A1.4. Resource Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Mission	***Basic*** Reach of Influence: Individuals	1. Identifies and procures resource needs to execute mission requirements 2. Follows established procedures for storing and maintaining equipment
Sub-Competency Resource Management	***Intermediate*** Reach of Influence: Flight	1. Manages budget for personnel, inventory, facilities, and logistical support to prevent mission degradation 2. Prepares CPFH, O&M, TDY, AFCEC/CBRN, and medical logistics budgetary needs for aircrew/aircraft mission support
Description Prepare, equip, and mobilize personnel and resources to support operations worldwide.	***Advanced*** Reach of Influence: Wing/Squadron	1. Collaborates with other units and MAJCOMs to gain/validate resources and support operational needs for mission requirements 2. Justifies resource needs (e.g., material, assets, budget, modification proposals, equipment upgrades) to execute mission requirements
Supporting Competencies Accountability Analytical Thinking Decision Making Resource Management	***Expert*** Reach of Influence: MAJCOM AF-Level Industry	1. Provides strategic direction in functional areas to appropriate funding for all resource needs 2. Directs Planning, Programing, Budgeting & Execution process (PPB&E) to fund career field requirements 3. Authors doctrine and policy for future concepts, long-term planning, and sustainment

Table A1.5. Safety OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Mission	***Basic*** Consistency of Application: Sustained application of competency over time	1. Recognizes and reacts to applicable time-sensitive incidents and preventative measures for potential incidents to ensure safety 2. Follows all safety rules/procedures to avoid known workplace hazards 3. Employs situational awareness of developing threats
Sub-Competency Safety	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety situations	1. Assesses risk management based on safety reports analyses and known hazards to maintain a safe environment 2. Promoted a culture of safety with inspection compliance for prevention of unnecessary risks
Description The process of hazard identification, risk management and mishap prevention to ensure safe and effective flight equipment	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Collaborates with investigation board members to ensure compliance 2. Produces risk assessment/safety analysis for MAJCOM level changes
Supporting Competencies Accountability Communication Decision Making Leadership	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency	1. Directs mishap analysis for prevention and potential modifications to equipment or procedures 2. Implements AFSAS results to drive tech order changes and MAJCOM directives

Table A1.6. Equipment Maintenance OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Equipment	***Basic*** Reach of Influence: Workcenter	1. Maintains and updates equipment IAW applicable guidance and electronic databases to provide safe and serviceable AFE 2. Utilizes applicable tools to ensure serviceable equipment 3. Demonstrates fundamental problem-solving skills to address quality issues
Sub-Competency	***Intermediate***	1. Identifies the purpose, process, and importance of quality control to generate actionable data 2. Coordinates with internal and external agencies to ensure mission generation 3. Communicates trends for leadership awareness
Equipment Maintenance	Reach of Influence: Flight	
Description	***Advanced***	
Inspect, troubleshoot, and maintain serviceable equipment to support mission design series.	Reach of Influence: Squadron Wing	1. Manages electronic database for equipment tracking 2. Submits process improvements for MAJCOM decision making
Supporting Competencies	***Expert***	1. Conceptualizes new equipment implementation/modification changes for sustainment LIMFACS 2. Generates procedure changes from mishaps to prevent future instances 3. Forecasts career-field requirements using electronic database data to project acquisition and sustainment needs
Accountability Analytical Thinking Decision Making Precision	Reach of Influence: MAJCOM AF-Level Industry	

Table A1.7. Technician Development OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Training	***Basic*** Reach of Influence: Individuals	1. Provides feedback on training techniques for improvement 2. Communicates individual training needs to maintain qualifications and task proficiency 3. Reviews and documents training records to ensure task qualification
Sub-Competency Technician Development	***Intermediate*** Reach of Influence: Shop Section Workcenter	1. Provides analysis of performance gaps to direct training 2. Schedules training to fulfill mission taskings and develop mission ready Airmen 3. Establishes and documents workcenter training requirements to meet mission objectives 4. Demonstrates task proficiency and evaluates the ability of others to accomplish training objectives
Description Development of the skills, knowledge, and behaviors to fulfill AFE requirements.	***Advanced*** Reach of Influence: Flight Squadron Wing	1. Evaluates training program proficiency to determine mission effectiveness 2. Mitigates shortfalls to enhance technician education and training program
Supporting Competencies Accountability Communication Developing People Leadership	***Expert*** Reach of Influence: MAJCOM AF-Level Industry	1. Develops and implements training strategy to align with evolving mission 2. Forecasts career field requirements to ensure training resources are available

Table A1.8. Aircrew Instruction OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Training	***Basic*** Reach of Influence: Individual	1. Assists operators and flyers to ensure students meet training objectives 2. Utilizes varied instructional methods and techniques to perform effective instruction
Sub-Competency Aircrew Instruction	***Intermediate*** Reach of Influence: Flight	1. Familiarizes student progress to meet learning objectives 2. Pursues educational development opportunities to enhance practical knowledge
Description The ability to deliver training to aircrew members, ensuring comprehension and retention of critical information related to AFE.	***Advanced*** Reach of Influence: Squadron Wing	1. Manages certifications to ensure instructional methodology is utilized 2. Revises curriculum to ensure alignment with evolving changes IAW higher level guidance
Supporting Competencies Communication Developing People Leadership Relationship Building	***Expert*** Reach of Influence - MAJCOM/AF Level/Industry	1. Develops curriculum to ensure standardized delivery of education 2. Establishes guidance for implementation of AFECTI program requirements

Table A1.9. Leadership Development OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Leadership	***Basic*** Consistency of Application: Sustained application of competency over time	1. Maintains personal accountability to execute all duties, instructions, and responsibilities 2. Encourages peer accountability and feedback for self-improvement 3. 3. Contributes to a professional climate and culture by supporting leaders' decisions 4. 4. Identifies and elevates issues through appropriate chain of command
Sub-Competency Leadership Development	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Communicates leadership intent down to the lowest level 2. Fosters a professional climate by supporting and mentoring personnel 3. Leads personnel or teams within a unit by providing the appropriate feedback and development opportunities for subordinates
Description The art and science of leading, mentoring, coaching and directing personnel in the accomplishment of mission objectives.	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Translates intent into actionable objectives to build trust and understanding across the organization 2. Serves as the conduit between upper echelon and Airmen 3. Advances organizational climate to optimize effectiveness
Supporting Competencies Communication Develops People Leadership Relationship Building	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency	1. Develops strategic vision to posture the force for future mission success 2. Establishes doctrine to develop leadership opportunities for all members across the enterprise

Table A1.10. Personnel Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Leadership	***Basic*** Reach of Influence: Individual	1. Manages and delegates tasks to accomplish desired actions or outcomes 2. Coordinates schedules to maintain accountability and accomplish duties 3. Documents personnel behavior to optimize performance
Sub-Competency Personnel Management	***Intermediate*** Reach of Influence: Workcenter	1. Identifies manning constraints to solve work center deficiencies 2. Manages teams assigned to projects/programs by communicating desired actions or goals
Description Develop and employ personnel to accomplish the mission.	***Advanced*** Reach of Influence: Squadron Flight Wing	1. Manages manpower for mission accomplishment 2. Ensures personnel fill approved roles to enhance development and mission objectives 3. Evaluates and nominates candidates for recognition
Supporting Competencies Accountability Communication Decision Making Develops People	***Expert*** Reach of Influence: MAJCOM AF-Level	1. Manages manpower across the enterprise to optimize career field utilization 2. Conducts enlisted development panels to vector key leadership positions

Table A1.5. Program Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Leadership	***Basic*** Reach of Influence: Work center	1. - Follows established procedures, policies, and guidance to execute program functions 2. - Identifies deficiencies affecting overall health of organization in order to improve techniques, tactics, and procedures 3. - Networks with outside organizations to maintain program proficiency
Sub-Competency Program Management	***Intermediate*** Reach of Influence: Flight	1. Implements program policy and guidance to ensure alignment with mission requirements 2. Assesses and documents program shortfalls during self assessment analysis to determine the overall health of the organization
Description Utilizing the knowledge, skills, tools and techniques required to manage programs IAW applicable policies.	***Advanced*** Reach of Influence: Squadron Wing	1. Creates/employs CPI to align current efforts with future strategic requirements 2. Analyzes strategic intent and advocates for program requirements to achieve mission objectives
Supporting Competencies Accountability Analytical Thinking Communication Information Seeking	***Expert*** Reach of Influence: MAJCOM AF-Level	1. Drives procedural changes to strategize MDS priorities for next generation warfighting capabilities 2. Directs career field lines of effort (e.g., APWG, AFEEC, APEC) to support DAF objectives 3. Analyzes and interprets HHQ-level program requirements to assess the impact on the mission and ensure regulatory compliance

Attachment 2

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
1. MISSION								
1.1. MISSION READINESS Prepare, equip, and mobilize personnel and resources to support operations worldwide. **Supporting Airmen's Foundational Competencies:** *Analytical Thinking, Communication, Decision Making, Strategic Thinking*								
1.1.1. Mission Readiness (Basic) **Observable Behaviors:** 1. Inspects, inventories, and prepares UTCs to meet LOGDET requirements 2. Orders supplies and equipment to maintain serviceability for generation, sustainment and redeployment phases 3. Identifies training to fulfill deployment requirements **Criteria:** *Reach of Influence: Individuals*								
1.1.1.1. Validate equipment quantities	1				pk			
1.1.1.2. Identify equipment in ready state	1			P				
1.1.1.3. Submit supply requisitions to prepare for deployments	2	5	*		pk		P	
1.1.1.4. Forecast supplies for UTC sustainment	2	5	*		pk		P	
1.1.1.5. Interprets all assigned mobility and operational skills requirements	3				K			
1.1.1.6. Participate in readiness exercises as required	3					pk		
1.1.1.7. Review feedback from exercise report outcomes	3					K		
1.1.2. Mission Readiness (Intermediate) **Observable Behaviors:** 1. Familiarizes subordinates with OPLANs, Unit Summary Statements, and responsibilities to clarify mission and purpose 2. Monitors equipment LOGDET (Logistics Detail) necessities to reflect new or modified mission requirements **Criteria:** *Reach of Influence: Flight*								
1.1.2.1. Interpret and communicate OPLANs and Unit Summary Statements	1						pk	P
1.1.2.2. Coordinate briefs with internal and external agencies	1						P	
1.1.2.3. Tailor LOGDET to meet mission requirements	2						P	
1.1.2.4. Provide SME input during biennial UTC reviews	2						pk	P

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
1.1.3. Mission Readiness (Advanced) **Observable Behaviors:** 1. Assists Wing Inspection Team to assess capabilities 2. Reports capabilities to higher level 3. Identifies requirements for deployment tasking **Criteria:** *Reach of Influence: Squadron/Wing*								
1.1.3.1. Review and provide injects into Master Scenario of Events Listing (MSEL)	1					pk		
1.1.3.2. Evaluate AFE operations during wing exercises/inspections	1					pk		
1.1.3.3. Report Defense Readiness Reporting System	2						pk	P
1.1.3.4. Deliberate and Crisis Action Planning and Execution Segments (DCAPES) UTA Reporting	2						pk	P
1.1.3.5. Identify LIMFACs and Generate COAs	2				pk		P	
1.1.3.6. Assess and validate personnel training and readiness	3						P	
1.1.3.7. Verify/adjust organization's equipment authorizations against LOGDET (i.e., AF601 Authorization Change Request)	3		*		pk		P	
1.1.4. Mission Readiness (Expert) **Observable Behaviors:** 1. Fulfills taskings to meet Area of Responsibility (AOR) needs 2. Assesses units' ability to meet mission requirements **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*								
1.1.4.1. Confirm manning and equipment requirements	1						pk	P
1.1.4.2. Direct assigned taskings	1						pk	P
1.1.4.3. Finalize LOGDET	2						pk	
1.1.4.4. Manage Self-Assessment Checklist (MICT)	2							pk
1.2. RESOURCE MANAGEMENT Acquire, sustain, and utilize resources to include finances, materials, personnel, and equipment to achieve organizational objectives. **Supporting Airmen's Foundational Competencies:** *Resource Management, Accountability, Decision Making, Analytical Thinking*								
1.2.1. Resource Management (Basic) **Observable Behaviors:** 1. Identifies and procures resource needs to execute mission requirements 2. Follows established procedures for storing and maintaining equipment **Criteria:** *Reach of Influence: Individuals*								
1.2.1.1. Account for and replenish required supplies	1			P				
1.2.1.2. Utilize technical data to identify resource needs	1			P				
1.2.1.3. Utilize tech data and applicable guidance	2	5	*	P				
1.2.1.4. Adhere to equipment condition storage guidance	2			P				

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
1.2.2. Resource Management (Intermediate) **Observable Behaviors:** 1. Manages budget for personnel, inventory, facilities, and logistical support to prevent mission degradation 2. Prepares CPFH, O&M, TDY, AFCEC/CBRN, and medical logistics budgetary needs for aircrew/aircraft mission support **Criteria:** *Reach of Influence: Unit/Groups*								
1.2.2.1. Accomplish annual budget review/plan	1						P	
1.2.2.2. Forecast annual expenses	1						P	
1.2.2.3. Validate personnel/professional development costs	2					K		
1.2.2.4. Prepare budget for equipment sustainment	2				pk		P	
1.2.3. Resource Management (Advanced) **Observable Behaviors:** 1. Collaborates with other units and MAJCOMs to gain/validate resources and support operational needs for mission requirements 2. Justifies resource needs (e.g., facility, material, assets, budget, modification proposals, equipment upgrades) to execute mission requirements **Criteria:** *Reach of Influence: Wing*								
1.2.3.1. Procure resources and logistical support	1						pk	P
1.2.3.2. Execute equipment redistribution	1				K			
1.2.3.3. Forecast budget for future mission authorizations	2						pk	P
1.2.3.4. Validate equipment authorizations	2						pk	P
1.2.3.5. Validate facility requirements	2							
1.2.4. Resource Management (Expert) **Observable Behaviors:** 1. Provides strategic direction in functional areas to appropriate funding for all resource needs 2. Directs Planning, Programing, Budgeting & Execution process (PPB&E) to fund career field requirements 3. Authors doctrine and policy for future concepts, long-term planning, and sustainment **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*								
1.2.4.1. Coordinate across MAJCOMs to provide strategic funding allocations	1							pk
1.2.4.2. Evaluate equipment funding priorities based on program advancement	1							
1.2.4.3. Determine priority of distribution during equipment modernization fielding	2							
1.2.4.4. Familiarize with strategic planning conferences (AFEEC, APWG, SATAF, etc.)	2							
1.2.4.5. Coordinate with System Program Office (SPO) for resource requirements	3							
1.2.4.6. Analyze/Identify institutional shortfalls	3							

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
1.3. SAFETY The process of hazard identification, risk management and mishap prevention to ensure safe and effective flight equipment. **Supporting Airmen's Foundational Competencies:** *Communication, Accountability, Leadership, Decision Making*								
1.3.1. Safety (Basic) **Observable Behaviors:** 1. Recognizes and reacts to applicable time-sensitive incidents and preventative measures for potential incidents to ensure safety 2. Follows all safety rules/procedures to avoid known workplace hazards 3. Employs situational awareness for developing threats **Criteria:** *Consistency of Application: Sustained application of competency over time*								
1.3.1.1. Identify and report potential safety hazards	1	5	*	P				
1.3.1.2. Utilize emergency checklists and procedures	1			P				
1.3.1.3. Identify and use personal protective equipment (PPE)	2	5	*	P				
1.3.1.4. Comply with storage and handling guidance	2	5	*	pk				
1.3.1.5. Adhere to Job Safety Training Online/Guide practices	2	5	*	P				
1.3.1.6. Identify changes in operational conditions that may impact the mission	3							
1.3.1.7. Alert leadership to potential threats or concerns	3			P				
1.3.2. Safety (Intermediate) **Observable Behaviors:** 1. Assesses risk management based on safety reports analyses and known hazards to maintain a safe environment 2. Promotes a culture of safety through inspection safety regulation compliance for prevention of unnecessary risks **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*								
1.3.2.1. Analyze safety reports to identify trends and patterns	1				pk		P	
1.3.2.2. Evaluate risk levels of known hazards	1				pk		P	
1.3.2.3. Establish a culture of safety and risk management	2							
1.3.2.4. Identify and address inspection safety regulation noncompliance	2				pk		P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
1.3.3. Safety (Advanced) **Observable Behaviors:** 1. Collaborates with outside agencies regarding aircraft/safety mishaps 2. Produces risk assessment/safety analysis for MAJCOM level changes **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*								
1.3.3.1. Monitors/analyzes investigation board findings for mishaps	1				pk			
1.3.3.2. Evaluate safety trend patterns of mishap causes and contributing factors	1				pk		P	
1.3.3.3. Evaluate and recommends mitigation strategies for identified safety risks	2				pk		P	
1.3.3.4. Collaborate with MAJCOM	2							
1.3.4. Safety (Expert) **Observable Behaviors:** 1. Directs mishap analysis for prevention and potential modifications to equipment or procedures 2. Implements AFSAS results to drive tech order changes and MAJCOM directives **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach the competency*								
1.3.4.1. Identify root causes of incidents	1					K		
1.3.4.2. Evaluate effectiveness of current procedures	1							
1.3.4.3. Direct technical data/equipment modifications	2					pk		P
1.3.4.4. Monitor compliance of directed changes	2				pk			

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
2. EQUIPMENT								
2.1. EQUIPMENT MAINTENANCE Inspect, troubleshoot, and maintain serviceable equipment to support mission design series. **Supporting Airmen's Foundational Competencies:** *Accountability, Precision, Analytical Thinking, Decision Making*								
2.1.1. Equipment Maintenance (Basic) **Observable Behaviors:** 1. Maintains and updates equipment IAW applicable guidance and electronic databases to provide safe and serviceable AFE 2. Utilizes applicable tools to ensure serviceable equipment 3. Demonstrates fundamental problem-solving skills to address quality issues **Criteria:** *Consistency of Application:* Establishes complete, consistently applied inspection/maintenance flow process and habit pattern in the workcenter.								
2.1.1.1. Identify theory of operation	1	5	*	K				
2.1.1.2. Identify various equipment types per MDS/mission	1	5	*		pk			
2.1.1.3. Navigate electronic databases to determine equipment serviceability, inventory locations, and inspection requirements	1	5	*	P				
2.1.1.4. Navigate applicable technical guidance	1	5	*	P				
2.1.1.5. Verify the serviceability of tools and test equipment	2	5	*	P				
2.1.1.6. Demonstrate proper inspection/maintenance/fitting procedures	2	5	*	P				
2.1.1.7. Demonstrate proper procedures for repairs	3	5	*	P				
2.1.1.8. Document inspection/maintenance in applicable database	1	5	*	P				
2.1.1.9. Identify/document corrective actions	3							
2.1.2. Equipment Maintenance (Intermediate) **Observable Behaviors:** 1. Identifies the purpose, process, and importance of quality control to generate actionable data 2. Collaborates with internal and external agencies to ensure mission generation 3. Communicates trends for leadership awareness **Criteria:** *Consistency of Application:* Establishes complete, consistently applied inspection/maintenance flow process and habit pattern in the flight.								
2.1.2.1. Perform steps in the quality control process	1			P				
2.1.2.2. Perform Quality Control Inspections	1				pk			
2.1.2.3. Coordinate with MX	2					pk	P	
2.1.2.4. Ensures serviceability of equipment provided by outside agencies	2							
2.1.2.5. Analyze the significance of trends	3				pk		P	
2.1.2.6. Recommend corrective actions based on trend analysis	3				pk		P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
2.1.3. Equipment Maintenance (Advanced) **Observable Behaviors:** 1. Manages electronic database for equipment tracking 2. Submits process improvements for MAJCOM decision making **Criteria:** *Consistency of Application at the squadron/wing.*								
2.1.3.1. Collaborates on electronic database updates/changes (Bugs, SCRs, etc.)	1						P	
2.1.3.2. Communicates with applicable organizations	1							
2.1.3.3. Submit engineer request (e.g., Form 107/ETAR etc.)	2				pk		P	
2.1.3.4. Submit product quality deficiency report (PQDR)	2				pk		P	
2.1.3.5. Submits/recommends change requests to technical guidance	2				pk			
2.1.4. Equipment Maintenance (Expert) **Observable Behaviors:** 1. Conceptualizes new equipment implementation/modification changes for sustainment LIMFACS 2. Generates procedure changes from mishaps to prevent future instances 3. Forecasts career-field requirements using electronic database data to project acquisition and sustainment needs **Criteria:** *Consistency of Application at MAJCOM/AF-Level/Industry.*								
2.1.4.1. Initiate new equipment testing process/requests	1						pk	P
2.1.4.2. Oversee implementation of new equipment/modification	1						pk	P
2.1.4.3. Analyze and implement procedure changes	2						pk	P
2.1.4.4. Validate TO change requests	2							
2.1.4.5. Develop and refine acquisition and sustainment projections	3						pk	P
2.1.4.6. Assess electronic database for accurate and reliable data	3				pk		P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
3. TRAINING								
3.1. TECHNICIAN DEVELOPMENT Development of the skills, knowledge, and behaviors to fulfill AFE requirements. **Supporting Airmen's Foundational Competencies:** *Developing People, Communication, Leadership, Accountability*								
3.1.1. Technician Development (Basic) **Observable Behaviors:** 1. Provides feedback on training techniques for improvements 2. Communicates individual training needs to maintain qualifications and task proficiency 3. Reviews and documents training records to ensure task qualification **Criteria:** *Reach of Influence: Individual*								
3.1.1.1. Reinforce theory of operation concepts	1							
3.1.1.2. Conduct feedback on progress	1				pk		P	
3.1.1.3. Communicate training shortfalls	1				pk		P	
3.1.1.4. Articulate knowledge gaps and weaknesses	2				pk		P	
3.1.1.5. Identify MDS/Mission required tasks	2	5	*		pk		P	
3.1.1.6. Ensure personal training records reflect accomplished training	3	5	*	P				
3.1.1.7. Execute training to meet milestone requirements	3							
3.1.2. Technician Development (Intermediate) **Observable Behaviors:** 1. Provides analysis of performance gaps to direct required training 2. Schedules training to fulfill mission taskings and develop mission ready Airmen 3. Establishes and documents workcenter training requirements to meet mission objectives 4. Demonstrates task proficiency and evaluates the ability of others to accomplish training objectives **Criteria:** *Reach of Influence: Shop/Section/Workcenter*								
3.1.2.1. Review members training records to determine training needs	1				pk		P	
3.1.2.2. Provide job performance feedback	1					pk	P	
3.1.2.3. Coordinate formal training requests	2						pk	
3.1.2.4. Coordinate with SMEs to conduct training sessions	2						pk	
3.1.2.5. Ensure applicable training tasks are assigned to appropriate skill level	3						pk	
3.1.2.6. Enforce documentation standards	3							
3.1.2.7. Conduct job performance evaluations	4						pk	
3.1.2.8. Execute rotation plan to meet technician development	4							

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
3.1.3. Technician Development (Advanced) **Observable Behaviors:** 1. Evaluates training program proficiency to determine mission effectiveness 2. Mitigates shortfalls to enhance technician education and training program **Criteria:** *Reach of Influence: Flight/Squadron/Wing (Base wide AFE program)*								
3.1.3.1. Identify negative trends and root cause of training deficiencies	1					pk	P	
3.1.3.2. Establish training requirements for assigned MDS/mission	1						pk	P
3.1.3.3. Employ quality assurance/actions	1					pk	P	
3.1.3.4. Provide process improvement recommendations	2							
3.1.3.5. Coordinate with outside agencies for program review/inspection	2							
3.1.4. Technician Development (Expert) **Observable Behaviors:** 1. Develops and implements training strategy to align with evolving mission 2. Forecasts career field requirements to ensure training resources are available **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*								
3.1.4.1. Review task criticality, frequency, and difficulty	1							
3.1.4.2. Establish positional level tasks	1							
3.1.4.3. Coordinate with TRQI managers and pipeline managers to forecast course seat requirements	2							pk
3.1.4.4. Coordinate with subordinate units to fill course quotas/allocate seats appropriately	2							pk

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
3.2. AIRCREW INSTRUCTION The ability to deliver training to aircrew members, ensuring comprehension and retention of critical information related to AFE. **Supporting AF Foundational Competencies:** Communication, Develops People, Relationship Building, Leadership								
3.2.1. Aircrew Instruction (Basic) **Observable Behaviors:** 1. Assists operators and flyers to ensure students meet training objectives 2. Utilizes varied instructional methods and techniques to perform effective instruction **Criteria:** *Reach of Influence: Individual*								
3.2.1.1. Present learning objectives and show knowledge on equipment	1							
3.2.1.2. Demonstrate proper use of all equipment	1							
3.2.1.3. Advise on safe-to-fly options	2				pk			
3.2.1.4. Familiarize aircrew on fitment options	2				pk			
3.2.2. Aircrew Instruction (Intermediate) **Observable Behaviors:** 1. Familiarizes student to meet learning objectives 2. Pursues educational development opportunities to enhance practical knowledge **Criteria:** *Reach of Influence: Flight*								
3.2.2.1. Apply instructional methods to meet lesson objectives	1							
3.2.2.2. Use interactive instructional resources	1							
3.2.2.3. Recognizes and addresses areas where students need additional support	1							
3.2.2.4. Attend training and conferences to enhance knowledge	2							
3.2.2.5. Pursue certifications and credentials to enhance expertise	2							
3.2.3. Aircrew Instruction (Advanced) **Observable Behaviors** 1. Manages certifications to ensure instructional methodology is utilized 2. Revises curriculum to ensure alignment with evolving changes IAW higher level guidance **Criteria:** *Reach of Influence - Wing/Squadron*								
3.2.3.1. Conduct and document instructor evaluations (e.g., AETC 281, AETC 620, etc.)	1							
3.2.3.2. Oversee certification processes to ensure quality and consistency	1							
3.2.3.3. Establish certification requirements	1							
3.2.3.4. Tailor slides provided by HAF to match MDS	2						pk	
3.2.3.5. Review slides for accuracy	2						pk	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
3.2.4. Aircrew Instruction (Expert) **Observable Behaviors:** 1. Develops curriculum to ensure standardized delivery of information 2. Establishes guidance for implementation of AFECTI program requirements **Criteria:** *Reach of Influence - MAJCOM/AF Level/Industry*								
3.2.4.1. Develop training materials for all MDS	1							
3.2.4.2. Request enterprise feedback	1							
3.2.4.3. Collaborate across MAJCOMs for new requirements	2							
3.2.4.4. Coordinate working groups	2							
4. LEADERSHIP								
4.1. LEADERSHIP DEVELOPMENT Description: The art and science of leading, mentoring, coaching and directing personnel in the accomplishment of mission objectives. **Supporting AF Foundational Competencies:** *Communication, Develops People, Accountability, Leadership*								
4.1.1. Leadership Development (Basic) **Observable Behaviors:** 1. Maintains personal accountability to execute all duties, instructions, and responsibilities 2. Encourages peer accountability and feedback for self-improvement 3. Contributes to a professional climate and culture by supporting leaders' decisions 4. Identifies and elevates issues through appropriate chain of command **Criteria:** *Consistency of Application: Sustained application of competency over time*								
4.1.1.1. Apply Airmen skillset as outlined in the enlisted force structure	1			K			K	K
4.1.1.2. Demonstrate functional area knowledge	1			P				
4.1.1.3. Utilize all forms of feedback to enhance skill sets	1			P				
4.1.1.4. Leverage peer to peer opportunities	2			P				
4.1.1.5. Mentor peers on development	2			P				
4.1.1.6. Build network and partnerships to improve team effectiveness	3							
4.1.1.7. Identify leadership and followership responsibilities	3			P				
4.1.1.8. Take initiative within sphere of influence	4			pk				
4.1.1.9. Seek direction, guidance, and clarity on followership and leadership responsibilities	4			pk				

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
4.1.2. Leadership Development (Intermediate) **Observable Behaviors:** 1. Communicates leadership intent down to the lowest level 2. Fosters a professional climate by supporting and mentoring personnel 3. Leads personnel or teams within a unit by providing the appropriate feedback and development opportunities for subordinates **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*								
4.1.2.1. Foster commitment through clear communication of leadership vision	1						pk	
4.1.2.2. Incorporate leadership vision into tasks and mission execution	1						pk	
4.1.2.3. Proactively engage with team members to foster professional relationships	2			P				
4.1.2.4. Promote empowerment to communicate interpersonal issues	2			pk				
4.1.2.5. Provide direction, guidance, and clarity on team member responsibilities	3	5	*	P	pk			
4.1.2.6. Advocate for personnel development opportunities (e.g., training opportunities, education, deployments)	3						pk	
4.1.3. Leadership Development (Advanced) **Observable Behaviors:** 1. Translates intent into actionable objectives to build trust and understanding across the organization 2. Serves as the conduit between upper echelon and Airmen 3. Advances organizational climate to optimize effectiveness **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*								
4.1.3.1. Make and support difficult or unpopular decisions	1				pk		P	
4.1.3.2. Develop guidance to support future mission requirements and vision	1					pk	P	
4.1.3.3. Communicate rationale behind operational decision making	2						P	
4.1.3.4. Forecast impending changes and appropriately prepare team	2	5	*		pk		P	
4.1.3.5. Encourage critical thinking and developmental opportunities	3				pk		P	
4.1.3.6. Drive process improvement concepts & innovation	3				pk		P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
4.1.4. Leadership Development (Expert) **Observable Behaviors:** 1. Develops strategic vision to posture the force for future mission success 2. Establishes doctrine to develop leadership opportunities for all members across the enterprise **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency*								
4.1.4.1. Apply adaptive critical thinking skills	1							P
4.1.4.2. Build partnerships to strengthen career field	1							P
4.1.4.3. Communicate and align strategic vision	1							P
4.1.4.4. Develop and/or disseminate best practices across career field	2							P
4.1.4.5. Conduct data analysis to direct change in policy and doctrine	2							P
4.2. PERSONNEL MANAGEMENT Develop and employ personnel to accomplish the mission. **Supporting AF Foundational Competencies:** *Accountability, Communication, Develops People, Decision Making*								
4.2.1. Personnel Management (Basic) **Observable Behaviors:** 1. Manages and delegates tasks to accomplish desired actions or outcomes 2. Coordinates schedules to maintain accountability and accomplish duties 3. Documents personnel behavior to optimize performance **Criteria:** *Reach of Influence: Individual*								
4.2.1.1. Determine daily workload	1	5	*	P				
4.2.1.2. Coordinate with peers to execute tasks/inspections	1			P				
4.2.1.3. Monitor flying/ops schedules	2	5	*	P				
4.2.1.4. Manage personal obligations	2			P				
4.2.1.5. Use performance evaluations to document and assess personnel performance	3				pk		P	
4.2.1.6. Provide actionable feedback to enhance job performance and development	3				pk		P	
4.2.1.7. Correct negative behaviors through appropriate administrative actions	3				pk		P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
4.2.2. Personnel Management (Intermediate) **Observable Behaviors:** 1. Identifies manning constraints to solve work center deficiencies 2. Manages teams assigned to projects/programs by communicating desired actions or goals **Criteria:** *Reach of Influence: Shop/Section/Workcenter*								
4.2.2.1. Communicate manning status to higher level leadership	1						P	P
4.2.2.2. Implement manning plan to cover mission requirements	1						P	P
4.2.2.3. Assign tasks to members to meet mission requirements	2	5	*		pk			P
4.2.2.4. Establish guidelines for daily operations and projects	2	5	*		pk			P
4.2.3. Personnel Management (Advanced) **Observable Behaviors:** 1. Manages manpower for mission accomplishment 2. Ensures personnel fill approved roles to enhance development and mission objectives 3. Evaluates and nominates candidates for recognition **Criteria:** *Reach of Influence: Flight (Base AFE Program)*								
4.2.3.1. Validate manning authorizations	1						pk	P
4.2.3.2. Liaise with MAJCOM to adjust manning levels	1						pk	
4.2.3.3. Appoint duty positions based on requirements	2						pk	P
4.2.3.4. Create development plan that enhances professional growth	2							P
4.2.3.5. Uphold awards processes IAW local guidance	3							
4.2.3.6. Facilitate constructive feedback for performance	3							
4.2.4. Personnel Management (Expert) **Observable Behaviors:** 1. Manages manpower across the enterprise to optimize career field utilization 2. Conducts enlisted development panels to vector key leadership positions **Criteria:** *Reach of Influence: MAJCOM/AF-Level*								
4.2.4.1. Coordinate manpower studies	1							pk
4.2.4.2. Liaise with AFPC	1							pk
4.2.4.3. Conduct vector review for position alignment	2						k	pk
4.2.4.4. Provide feedback to applicants	2							pk

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
4.3. PROGRAM MANAGEMENT Utilizing the knowledge, skills, tools and techniques required to manage programs IAW applicable policies. **Supporting AF Foundational Competencies:** *Communication, Accountability, Analytical Thinking, Information Seeking*								
4.3.1. Program Management (Basic) **Observable Behaviors:** 1. Follows established procedures, policies, and guidance to execute program functions 2. Identifies deficiencies affecting overall health of organization in order to improve techniques, tactics, and procedures 3. Networks with internal and external organizations to maintain program proficiency **Criteria:** *Reach of Influence: Work center*								
4.3.1.1. Fulfill program roles and responsibilities	1	**5**	*	P	pk			
4.3.1.2. Forecast required inspections within programs	1				pk			
4.3.1.3. Report program issues and concerns	2							
4.3.1.4. Participate in continuous process improvement (CPI)	2							
4.3.1.5. Streamline processes with organizations	3							
4.3.1.6. Identify relevant organizations	3							
4.3.2. Program Management (Intermediate) **Observable Behaviors:** 1. Implements program policy and guidance to ensure alignment with mission requirements 2. Assesses and documents program shortfalls during self-assessment analysis to determine the overall health of the organization **Criteria:** *Reach of Influence: Flight*								
4.3.2.1. Monitor and track program status	1				pk			
4.3.2.2. Verify program roles and responsibilities are assigned	1						P	
4.3.2.3. Conduct internal assessment to identify program shortfalls	2						P	
4.3.2.4. Develop corrective action plans	2						P	
4.3.2.5. Track and monitor corrective actions plans	2						P	

Competencies & Behaviors	Tasks			Proficiency Codes				
	Behavior	Core	Deployment *	3-lvl Course	5-lvl LM	7-lvl LM	7-lvl Course	9-lvl Course
4.3.3. Program Management (Advanced) **Observable Behaviors:** 1. Creates/employs CPI to align current efforts with future strategic requirements 2. Analyzes strategic intent and advocates for program requirements to achieve mission objectives **Criteria:** *Reach of Influence: Squadron/Wing*								
4.3.3.1. Collaborate with MAJCOM to project future program requirements	1							pk
4.3.3.2. Validate programs and processes to ensure compliance/cohesion with joint partners, TFI and HHQ	1						pk	
4.3.3.3. Author and publish local program guidance/directives	2					pk		P
4.3.3.4. Establish objectives and milestones to direct program priorities	2					pk		P
4.3.4. Program Management (Expert) **Observable Behaviors:** 1. Drives procedural changes to strategize for next generation warfighting capabilities 2. Directs career field lines of effort (e.g., APWG, AFEEC, APEC) to support DAF objectives 3. Analyzes and interprets HHQ-level program requirements to assess the impact on the mission and ensure regulatory compliance **Criteria:** *Reach of Influence: MAJCOM/AF-Level*								
4.3.4.1. Author program guidance and intent	1							pk
4.3.4.2. Disseminate guidance across the enterprise	1							pk
4.3.4.3. Establish pathways to program/process improvements	2							
4.3.4.4. Monitor and track program status across the enterprise	2							
4.3.4.5. Conduct HHQ inspections to assess unit health and develop corrective action plans for all deficiency levels within MGAs	3							P
4.3.4.6. Establish/validate inspection criteria to enable reliable assessment capabilities	3							

Attachment 3 1P0X1A CFETP Equipment List

Minimum Equipment Qualification List Equipment marked with # that are not maintained by the unit are not required for 5 level upgrade.	A-10	F-15	F-16	F-22	F-35	T-6	T-38	B-1	B-2	B-21	B-52	U-2

Door Bundle	#					
Precision Airdrop Military/COTS						

Note: Utilize OCM Specialty Training Standard 2.1.1. “Equipment Maintenance – Basic” to train and assess member prior to “sign-off” on a given equipment item.

Attachment 6 ABBREVIATIONS/TERMS

Air Force Job Qualification Standard (AFJQS). A comprehensive task list that describes a particular job type or duty position. Supervisors use this to document task qualifications. The tasks on AFJQS are common to all persons serving in the described duty position.

Air Force Specialty (AFS). A group of positions with the same title and code that require common qualifications.

Career Field Manager (CFM). The Air Force focal point for the designated career field within a functional community. Serves as the primary advocate for the career field, addressing issues and coordinating functional concerns across various staffs. Responsible for career field policy and guidance.

Career Field Education and Training Plan (CFETP). A comprehensive, multipurpose document covering the entire spectrum of education and training for a career field. It outlines a logical growth plan that includes training resources and is designed to make career field training identifiable, to eliminate duplication, and to ensure this training is budget defensible.

Core Task. A task Career Field Managers (CFMs) identify as a minimum qualification requirement within an Air Force specialty regardless of duty position.

Department of the Air Force Enlisted Classification Directory (DAFECD). These directories contain the official specialty descriptions for all military classification codes and identifiers which are used to identify each Air Force job (valid requirement) and describe the minimum mandatory qualifications of personnel to fill these jobs. These standards are used to procure, classify, and employ personnel; to develop career programs for initial training, retraining, and skill upgrade; and to structure unit manpower document (UMD) positions. The DAFECD can be found on the MyFSS site at https://myfss.us.af.mil/USAFCommunity/s/knowledge-detail?pid=kA0t0000000wlDpCAI

Duty Position Tasks. Tasks assigned to an individual to be qualified for the position currently held. These include as a minimum, all core tasks that correspond to the duty position as directed by the CFETP, and tasks assigned by the AFE Superintendent (AFES)/supervisor.

Enlisted Specialty Training (EST). A mix of formal training (technical school) and informal training (on- the-job) to qualify and upgrade Airmen in each skill level of a specialty.

Exportable Training. Additional training via computer (i.e. online learning modules), paper text, interactive video, or other necessary means to supplement training.

Functional Manager (FM). Senior leaders, designated by the appropriate functional authority (FA), who provide day-to-day management responsibility over specific functional communities at the MAJCOM, FOA, DRU, or ARC level. FMs are responsible for ensuring their specialties are equipped, developed, and sustained to meet the functional community's mission as well as encourage force development opportunities in order to meet future needs of the total Air Force mission.

Guardian Angel (GA). Weapon system encompassing survival, evasion, resistance, escape (SERE), combat rescue officer (CRO) & pararescue (PJ) personnel.

Initial Skills Training (IST). A formal resident course resulting in the award of a 3-skill level AFSC.

Knowledge Training. Training used to provide a base of knowledge for task performance. Learning gained through knowledge rather than hands-on experience. The Occupational Competency Model uses code K for tasks that do not require any performance of the task. Example: being able to explain theory of operation for a piece of equipment.

Master Task List (MTL). A comprehensive list (100%) of all tasks performed within a work center and consisting of the current CFETP or AFJQS and locally developed AF 797.

Master Training Plan (MTP). Employs a strategy for ensuring the completion of all work center job requirements by using a MTL and provides milestones for task, career development course completion, and prioritizes deployment/UTC, home station training tasks, upgrade, and qualification tasks.

Occupational Analysis Report (OAR). A detailed report showing the results of an occupational survey of tasks performed within a particular AFS.

On-the-Job Training (OJT). Hands-on, "over-the-shoulder" training conducted to certify personnel in both upgrade (skill level award) and job qualification.

Specialty Training Requirements Team (STRT). Career Field Manager's use this forum and quality control tool to determine and manage career field education and training requirements.

Specialty Training Standard (STS). An Air Force publication that describes an Air Force Specialty in terms of tasks and knowledge an airman may be expected to perform or to know on the job. It serves as a contract between Air Education and Training Command and the functional user to show which of the overall training requirements for an Air Force Specialty are taught in formal schools, career development courses, and exportable courses.

Task Qualification Training (TQT). These tasks are CBRN Qualification Tasks IAW DAFI 10-2503. These tasks will be accomplished in MOPP 4 and are annotated in training records.

Trainer. A trained and qualified person who teaches personnel to perform specific tasks through OJT methods. Also, equipment that the trainer uses to teach personnel specified tasks.

Training by Other Government Agencies (Type 5). This training includes training conducted by the Army, Navy, Air Force agency or unit other than AETC, and other government agencies inside or outside of the Department of Defense (DoD).

Training Setting. The type of forum in which training is provided (formal resident school, on-the-job, field training, mobile training team, self-study, etc.).

Upgrade Training (UGT). A mixture of mandatory courses, competency training, and Learning Modules required for award of the 3-, 5-,7-, and 9-skill level.

Utilization and Training Workshop (U&TW). A forum, co-chaired by the AFCFM, Training Pipeline Manager, MAJCOM AFS Code (AFSC) functional managers, Subject Matter Experts (SMEs), and AETC training personnel that determines career ladder training requirements.
