CAREER FIELD EDUCATION AND TRAINING PLAN

ACCESSIBILITY: Publications and Forms are available on the e-Publishing website at: www.e-publishing.af.mil for downloading or ordering.
RELEASABILITY: There are no releasability restrictions on this publication.

Summary of Changes

This document has been revised to clarify policy and simplify language. The updated 1W Career Field Education and Training Plan clarifies that all core tasks require certification and adds official definitions for training terms; certification, core task, certifier, qualification, and training record. Additionally, this revision incorporates the Specialty Training Standard proficiency code key as a new attachment and provides an updated list of authorized duty titles along with revised administrative guidance.

WEATHER SPECIALTY

AFSC 1W0X1

CAREER FIELD EDUCATION AND TRAINING PLAN

Part I

Preface

1. This CFETP is a comprehensive, multipurpose document encapsulating the entire spectrum of training for enlisted weather personnel. It outlines a logical growth plan that includes training support, resources, and minimum qualification requirements for a successful career path in the weather career field. These minimum qualification requirements also inform unit commander assessment of the mission readiness of assigned forces as reported in the Defense Readiness Reporting System (DRRS). The CFETP is the responsibility of the Enlisted Weather Career Field Manager as appointed and under the guidance/approval of the Weather Functional Manager (HQ AF/A34 Director of Training and Force Management). Functional managers, commanders, supervisors, and trainers use the CFETP to plan, manage, and control training within the career field. This document applies to Active Duty, Guard, and Reserve component personnel holding a 1W0X1 Primary AFSC. Note: IAW DAFMAN 36-2689, *Training Program*, civilians occupying associated positions use Part II to support qualification training. This CFETP implements DAFMAN 36-2689, *Training Program*.

2. **SUMMARY OF CHANGES:** This document reflects substantial revisions to the CFETP and requires comprehensive review. A key modification is the adoption of the Occupational Competency Model (OCM) for evaluating trainee proficiency, shifting the focus from task-based performance to demonstrable understanding and capability in mission accomplishment. Initial skills training will emphasize scenario-based learning, simulating operational environments to prepare personnel for real-world applications. Subsequent training, including all courses and curricula, will be aligned with the OCM to ensure competency-driven development.

3. The 1W0X1 CFETP consists of two parts; supervisors use both parts to plan, manage, and control training.

3.1. Part I provides information necessary for the overall management of the 1W0X1 specialty. Section A, General Information, explains the uses of the CFETP. Section B, Career Progression and Skill Level Training Requirements, explains career progression information, requirements, for each skill level with specialty qualifications (knowledge, education, training, and experience), duty titles, and career path(s). Section C contains information on how to request the Course Objective List (COL) for AETC technical training courses and identifies training courses index supervisors can use to determine resources available to support training. Sections D, E, and F cover support material, resource constraint procedures, and CBRN training requirements.

3.2. Part II includes the specialty training standard (STS) and includes the OCM 1W Rubrics, a thorough explanation of the OCM sub-competencies and how to utilize the rubrics through observable behavior. At the unit level, supervisors and trainers use Part II to identify, plan, and conduct training commensurate with the goals of this plan.

4. Using the guidance provided in the CFETP ensures individuals receive effective and efficient training at the appropriate point in their careers. It identifies potential career path opportunities based on the enlisted training path and includes career progression spanning all MAJCOMs. This plan enables the weather career field to train today's force to be ready for current and future missions.

Section A - General Information

1. Purpose. This CFETP provides the information necessary for Career Field Managers (CFM), Major Command Functional Managers (MFM), commanders, training managers, supervisors and trainers to plan, develop, manage, and conduct an effective and efficient career field training program. The plan outlines the training individuals in this Air Force Specialty should receive in order to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, and competency training. Initial skills training is the Air Force Specialty specific training an individual receives upon entry into the Air Force or upon retraining into this specialty for award of the 3-skill level. Normally, this training is conducted by AETC at one of the technical training centers. Upgrade training identifies the mandatory courses, task qualification requirements, and learning module completion requirements to award the 3-, 5-, 7- and 9-skill levels. This CFETP uses the OCM defined in Attachment 1 and the STS in Attachment 2. The Career Field Education and Training Plan has several purposes:

1.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field training program.

1.2. Identifies behaviors, tasks, and knowledge training requirements for each skill level and recommends education and training throughout each phase of an individual's career.

1.3. Lists training courses that are available, identifies sources of training, and the training delivery methods.

1.4. Identifies major resource constraints which impact full implementation of the career field training process.

2. Uses. AETC training personnel develop and/or revise formal resident, non-resident, field, and exportable training based on requirements documented in Part II of this CFETP. They work with the Career Field Manager (CFM) to develop acquisition strategies for obtaining resources needed to provide identified training. Requirements are established by results of utilization and training workshop (U&TW) or specialty training requirement team (STRT) of the career field and are recommended to the CFM for implementation.

2.1. MFMs ensure their training programs meet the intent and standards of the CFETP's mandatory initial, upgrade, and proficiency requirements. Resident training, on-the-job training (OJT), contract training, or exportable courses can satisfy identified requirements. MAJCOMs may direct unique training to support mission requirements.

2.2. Every individual completes the mandatory training requirements specified in this plan based on skill level. Use the list of courses in Part I, Section C as a reference to support training.

3. Training Documentation. Training documentation validates the status of training and task qualification required for all garrison and deployed locations. Documentation helps leaders assess mission capabilities and readiness, ensuring operational requirements are met with fully qualified

Airmen. Unit Training Managers, Additional Duty Unit Training Managers, and supervisors will create and maintain training records for all weather personnel, E-8 and below, who operate in a duty position that requires task qualification. Training Business Area (TBA) 2.0 is the mandated system for training documentation. Transcribe records within 120 calendar days (240 calendar days for ARC) of CFETP revision date or from date revision is posted to automated training records system.

3.1. DELETED.

3.1.1. DELETED.

3.1.2. DELETED.

3.1.3. DELETED.

3.1.4. DELETED.

3.1.5. DELETED.

3.1.6. DELETED.

3.1.7. DELETED.

3.1.8. DELETED.

4. Training Decisions. A significant paradigm shift has transitioned the training approach from task-based instruction to outcome-based learning. Behavioral outcomes, comprising a constellation of integrated tasks, define the learning objectives. These outcomes represent demonstrable actions and performances that indicate a learner's competence in applying content, information, ideas, and tools effectively. By focusing on behavioral outcomes, the 1W0Xl community can integrate foundational competencies and underlying characteristics (values, traits, attitudes) into the learning process. The overarching intent of these learning outcomes is to cultivate behaviors essential for competency development in mission execution, training delivery, and leadership. Standardized coding for the Specialty STS will be implemented using the behavioral statement coding system: P (performance), K (knowledge), and pk (performance-knowledge).

4.1. The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of training requirements for the 1W AFS. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training. A U&TW and/or STRT, usually held at Keesler AFB, MS, shapes the decisions contained within this CFETP.

5. Coordination and Approval. The CFM is responsible for the CFETP on behalf of the approval authority. The CFM will conduct an annual review of this document to ensure the currency and accuracy IAW DAFMAN 36-2689. MFMs will identify career field training requirements and coordinate resolution with the CFM. The CFM and MFMs will use the list of courses in Part I to eliminate duplicate training.

Section B - Career Progression and Skill Level Training Requirements

6. 1W0 Specialty Summary. Refer to the Department of the Air Force Enlisted Classification Directory (DAFECD) which can be found here:
https://myfss.us.af.mil/USAFCommunity/s/knowledge-detail?pid=kA0t0000000wlDfCAI

7. Purpose. Continuous training and timely progression from the apprentice level through the Senior Enlisted Leader level are essential to the Air Force's ability to accomplish its mission. All personnel involved in training are responsible for planning, managing, and executing an effective training program. This section describes how enlisted weather personnel progressively assume increased responsibilities, receive training at appropriate career milestones, and advance through each skill level. It also establishes the specialty qualification requirements for entry, award, and retention of each skill level.

8. Skill Level Requirements. Minimum standards for skill level upgrade are prescribed in DAFMAN 36-2689. There is no minimum time-in-training requirement for upgrade to the 5- or 7-skill level; time-in-training requirements are determined by the CFM and maintained in the 1W CFETP. Specific training requirements for weather personnel are identified in this CFETP. Waiver authority for mandatory requirements resides with the CFM.

8.1. **Apprentice, 3-Skill Level**. Individuals are awarded a 3-skill level upon completion of the Meteorological and Oceanographic (METOC) Operations Course, at Keesler AFB, MS. Apprentices work directly with supervisors and qualified trainers to enhance task skills and knowledge. Trainers and supervisors use standardized training plans and qualification training (consisting of the STS and local Master Task List) to systematically train newly assigned apprentices. The primary task of apprentices is to complete all upgrade training requirements and execute all core tasks to become certified to work at a 5-skill level. All ARC (ANG and AFRC) 1W031 personnel must complete ANGWRTC 010 (Weather Applications Course) immediately following Initial Skills Course (ISC) for qualification and upgrade training before awarding of the 5-skill level.

Table 8.1

EDUCATION	For entry into this specialty, completion of high school with courses in general science or physics is desirable.
TRAINING	For award of AFSC 1W031, completion of METOC Operations Course E8ABR1W031 0A1F is mandatory.
EXPERIENCE	There is no experience necessary for entry into AFSC 1W031.
TRAINING RESOURCES	The ISC, METOC Operations Course, will provide the required knowledge and qualifications.
IMPLEMENTATION	Upon graduation from Basic Military Training, completion of the METOC Operations Course is mandatory. This course satisfies the knowledge and training resource requirements for award of the 3-skill level.

8.2. **Journeyman, 5-Skill Level.** Journeymen perform a wide range of duties depending on the unit of assignment. Journeymen eventually serve as trainers and supervisors in addition to performing the technical tasks of the career field. Journeymen exploit training opportunities and continue to refine their technical skills. They participate in continuation training programs to broaden their technical expertise.

Table 8.2

EDUCATION	No formal education requirements for upgrade to 1W051.
TRAINING	For award of AFSC 1W051, completion of 5-level Weather

	Journeyman Course E6ANW1W051 00AA and certification of all 5-level core tasks in STS is mandatory. Qualification training and OJT will provide training and qualification of the STS core tasks. The Weather Journeyman Course builds on the foundational knowledge gained from ISC and provides more in-depth knowledge.
EXPERIENCE	Qualification in and possession of AFSC 1W031. Also, experience in collecting and analyzing atmospheric data, performing meteorological watch, preparing forecast products, and issuing weather watches, warnings, and advisories.
IMPLEMENTATION	Entry into 5-skill level UGT is initiated as of date arrived station after the individual has completed 3-level basic skills training (ARC: upon return from technical training). Upon entry into UGT, personnel will undergo OJT to become certified in all 5-skill level core tasks reflected in the STS. Additionally, qualification training is initiated anytime an individual is assigned duties they are not qualified to perform.

8.3. **Craftsman, 7-Skill Level.** Craftsmen gain increasing supervisory and management responsibilities while performing the career field's most technical tasks worldwide and at any organizational level, including MAJCOM and higher headquarters staff positions. They assume a vital mentorship responsibility, providing a clear vision of career choices and progression to enlisted weather personnel through technical leadership to ensure subordinates meet Air Force Standards. Craftsmen schedule personnel for routine duties, severe weather duties, mission standby, and training. They increase technical expertise through job experience, formal courses, OJT, and online training. Craftsmen complete formal continuation training courses as needed to perform their duties.

Table 8.3

EDUCATION	No formal education requirements for upgrade to 1W071.
TRAINING	For award of AFSC 1W071, completion of 7-level Weather Craftsman Course E6ANW1W071 00AA and certification of all 7-level core tasks in STS is mandatory. Qualification training and OJT will provide training and qualification of the STS core tasks.
EXPERIENCE	Qualification in and possession of AFSC 1W051. Also, experience in managing weather integration into operations, determining observation criteria, preparing special support requests, scheduling personnel, providing technical leadership, and directing training and orientation of new personnel.
IMPLEMENTATION	Personnel selected for promotion to SSgt will enter 7-skill level upgrade training the first day of the promotion cycle (1 September each year) except for retrainees and Stripes for Exceptional Performers (STEP) promotees. Retrainees,

	SSgt and above, are entered into 7-skill level UGT upon award of the 5-skill level. Enter STEP promotees and ARC personnel into 7-skill level UGT upon the date of promotion to SSgt. Personnel selected for "out-of-cycle" promotion to SSgt will enter 7-level upgrade training the first day of the following month that AFPC announces the promotions.

8.4. **Superintendent, 9-Skill Level**. Upon promotion to SMSgt, individuals are eligible for the upgrade to the 9-skill level and may fill a Superintendent or Senior Enlisted Leader (SEL) position. Superintendents or SELs are responsible for providing leadership, managing their teams, and offering technical oversight. They focus on enhancing their unit's capabilities by applying their core competencies and supervising junior personnel. A key part of their role is managing all available resources, including personnel, facilities, and budgets—and adapting operations to meet the demands of the mission. Superintendents have a vital responsibility to mentor their subordinates. They not only develop leadership skills in others but also train them in the art of mentorship, providing a clear vision for career progression. At higher headquarters, they take on broader program management duties to ensure future Air Force and DoD requirements are met.

Table 8.4

EDUCATION	Airmen eligible for promotion to SMSgt must have a conferred (awarded) associate or higher-level degree from a nationally or regionally accredited institution on or before the promotion eligibility cutoff date. Note: This paragraph does not apply to the ARC.
TRAINING	There is no training requirement for upgrade to 1W091
EXPERIENCE	Qualification in and possession of AFSC 1W071. Also, experience in tailoring unit capabilities, managing weather resources to meet mission requirements, coordinating with MAJCOM and Air Staff, and exploiting the enterprise level capabilities of the Weather career field to advance operational and strategic goals of the AF.
IMPLEMENTATION	Personnel promoted to SMSgt are awarded AFSC 1W091

8.5. **Weather Chief Master Sergeant, 1W000**. As the highest enlisted leaders in their field, they are experts in managing all aspects of weather operations, including personnel, resources, and training, to meet mission requirements. Their primary duties involve leading the enlisted force, developing policies, and managing programs to ensure weather operations are effective now and in the future. CMSgts also serve as key advisors to senior officers on the best ways to utilize enlisted personnel. A significant part of their role is dedicated to mentorship, where they guide subordinates, develop their leadership skills, and provide a clear vision for career progression. To maintain their expertise, they attend the Chief Master Sergeant Leadership Course and continuously seek development opportunities while also ensuring their entire organization meets its training and readiness goals.

8.6. **Occupational Badge**. When worn, the badge reflects the degree of experience and training in the career field. The following guidance will be followed by enlisted personnel: Wear the basic

badge after completing technical school; wear the senior badge after award of the 7-skill level; and wear the master badge as a Master Sergeant or above with 5 years in the specialty from award of the 7-skill level.

8.7. **Task Decertification.** Supervisors will decertify members on individual tasks they fail to perform to the required standard. Upon decertification, the supervisor will document this action and provide immediate remedial training and counseling focused on correcting the specific deficiency. The goal is to quickly and efficiently return the member to a qualified status on the task.

8.8. **AFSC Disqualification**. If remedial training proves unsuccessful and the member consistently fails to maintain proficiency across the scope of their duties, the supervisor must elevate the issue through the chain of command to initiate AFSC disqualification. It is critical that units contact their MFM for guidance early in this process. Reference MyFSS for Program Service Delivery Guide – Classification Enlisted Air Force Specialty Code Disqualification https://myfss.us.af.mil/USAFCommunity/s/knowledge-detail?pid=kA0t0000000wlDfCAI

9. Community College of the Air Force. This program provides the opportunity to earn an Associate Degree in Meteorology. CCAF automatically enrolls BMT graduates entering the weather career field in this program. Refer to the CCAF Student Handbook and Guidance at https://www.airuniversity.af.edu/Barnes/CCAF for the latest information on requirements. In addition to its Associate Degree program, CCAF offers the following:

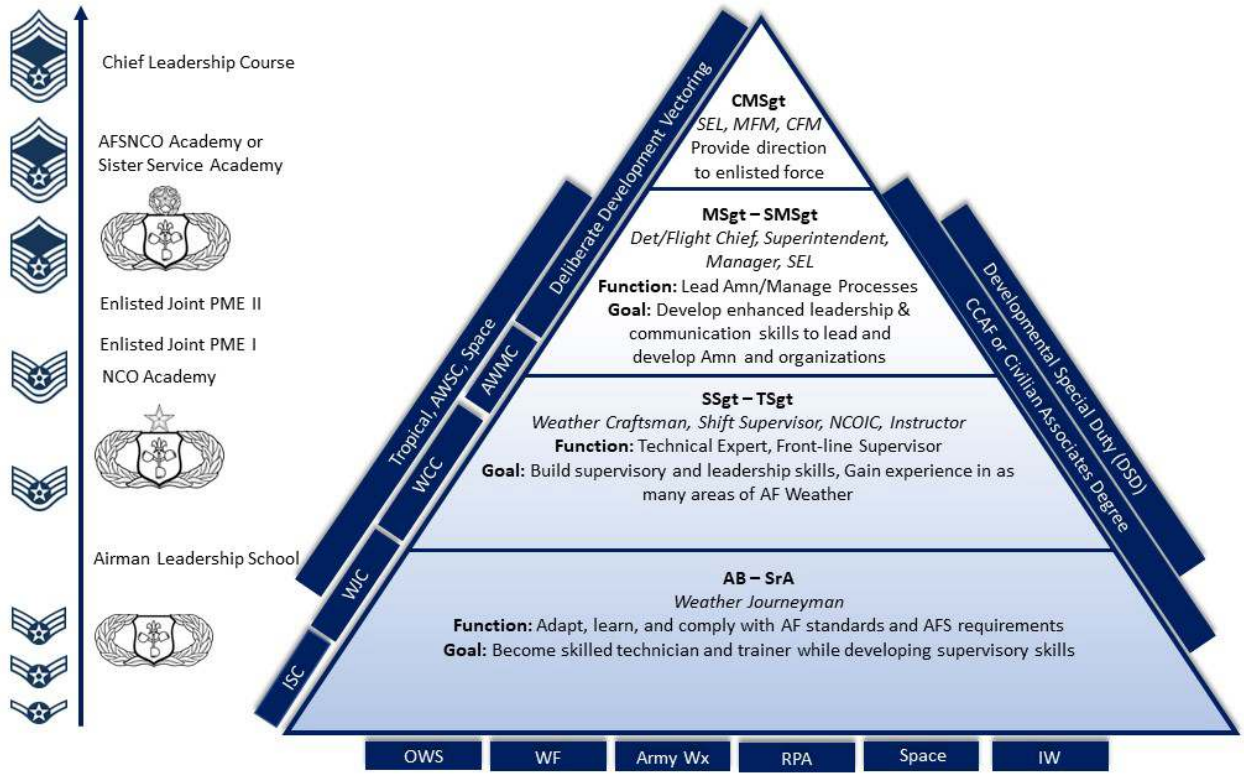

9.1. CCAF Instructor Certification (CIC). For qualified instructors who teach CCAF collegiate-level credit-awarding courses at a CCAF-affiliated school. The CIC program consists of three specific levels of achievement. Once an instructor leaves CCAF instructor duty, they are no longer eligible for the CIC. To obtain more information, refer to the CCAF Campus Affiliations Policies and Procedures Guidelines.

9.2. Degree Requirements. The Meteorology degree program (8FYY) applies to the 1W0XX AFSCs. The ISC graduate should contact the local education office for the latest information on semester hours earned for completing the Weather Forecaster Apprentice Course.

9.3. AETC Instructors. Individuals desiring to become an AETC Instructor should actively pursue an associate degree. A degreed faculty is necessary to maintain accreditation through the Southern Association of Colleges and Schools.

10. Enlisted Weather Career Path. The Weather career field has a diverse range of supported mission sets which can take enlisted Airmen down various career paths. Thus, career progression will look different for each Airman. Figure 10.1 provides a general framework on timelines of PME and weather-specific training that Airmen should expect during certain phases of their career. Current information may be posted on MyVector at**:** https://myvector.us.af.mil/myvector

Figure 10.1

10.1. Deliberate development of the enlisted force is realized through the guidance, direction, and execution of the 1W Functional Advisory Council (FAC) and Enlisted Development Team (EDT). Through the FAC and EDT, 1W career field leadership executes progression and succession planning to ensure sufficient personnel and skill sets are available to accomplish the mission. Progression planning is designed to technically develop Airmen in the grades of E-1 through E-6. Succession planning will take place at grades E-7 and E-8 with the goal to develop 1W SNCOs with the requisite training, education, and experience needed to fill Key Development Positions (KDP) and Key Leadership Positions (KLP) within the career field.

10.2. Deliberate Development Boards (DDB) are executed by the EDT to evaluate SNCO records and assign vectors to provide a pool of highly qualified personnel for future assignment into KDPs and KLPs across the 1W enterprise. For a detailed explanation of the FAC, EDT, and DDB processes, reference the 1W Enlisted Development Team Charter, which can be found through Weather Squadron or MAJCOM Functional chains.

10.3. Advanced Weather Management Course Parts 1-3 (E6AAW1W071 0A1A, E6AAL1W071 0A2A, E3AAR1W071 0A3A) are mandatory for TSgt(s) and MSgt(s) assigned to and/or projected to assume Flight or Detachment leadership positions.

11. Specialized Enlisted Weather Duty Titles. Functional duty titles are based on skill level and awarded when members complete the required training and possess the appropriate rank. Table 11.1 provides a reference list of specialized duty titles for use when specific rank and organizational criteria

are met. For all other personnel, the titles of Weather Apprentice, Journeyman, Craftsman, or Superintendent should be utilized according to their appropriate skill level. Units that choose to deviate from Table 11.1 should first consult with the appropriate MAJCOM functional managers. For additional guidance on duty titles, refer to The Enlisted Force Structure.

Table 11.1 Specialized Duty Titles

Unit	E9	E8	E7
Air Staff	1W CFM	Deputy, 1W CFM	Manager, (Program)
MAJCOM	1W MFM	AFPC Functional Manager Manager, (Branch or Program)	Manager, (Program)
NAF or Equivalent		Manager, (Program)	Manager, (Program)
Wing / Group	Senior Enlisted Leader	Superintendent, (Function)	Superintendent, (Function)
Squadron	Senior Enlisted Leader	Senior Enlisted Leader Operations Superintendent	Operations Superintendent Manager, (Program) NCOIC, Standards/Assessment Section Chief
Det	Chief, ANG (Function)	Senior Enlisted Leader Det Superintendent (ANG) Instructor, Supervisor (ANG)	Det Senior Enlisted Leader Section Chief NCOIC (Function)
Flight	Chief, ANG (Function) SEL, OWF (AFRC)	Flight Chief Flight Superintendent (ANG/AFRC) Flight Manager (ANG/AFRC)	AOC/Flight Chief Shift Supervisor Element Chief (AFRC)
AETC Training Squadron		Career Field Training Manager Senior Enlisted Leader Flight Chief	Instructor Weather Instructor Supervisor Curriculum Development Manager
Unit	**E6**	**E5**	**E4**
Wing, Group Squadron	NCOIC, (Function)	NCOIC, (Function)	
Det/Flight	NCOIC, (Function) Shift Supervisor	NCOIC, (Function) Shift Supervisor	
AETC Training Squadron	Instructor Weather Instructor Supervisor Wx Curriculum Developer	Instructor Weather	

Section C – Course Objective List and Training Course Index

12. Purpose. This section of the CFETP identifies training courses available for the AFS. A detailed listing of AETC technical training course objectives may be obtained by written request to the 335 TRS/TRR at Keesler AFB MS. Refer to the Education and Training Course Catalog (ETCA) at https://usaf.dps.mil/teams/app10-etca for courses.

Table 12.1 Formal Training Courses

COURSE NUMBER	TITLE	LOCATION	REMARKS
E8ABR1W031 0A1F	Meteorological and Oceanographic (METOC) Operations Course	Keesler AFB MS	1W0X1 AFSC Awarding 3-lvl course
E6AAW1W071 0A1A	Advanced Weather Management Course Part 1	Managed at Keesler AFB, MS	Not required for ANG Virtual
E6AAL1W071 0A2A	Advanced Weather Management Course Part 2	Managed at Keesler AFB, MS	Not required for ANG TDY-in-place
E3AAR1W071 0A3A[1]	Advanced Weather Management Course Part 3	Keesler AFB, MS	Not required for ANG In-residence See note 1
L5AZA1XXXX 0A1A	U.S. Army Basic Airborne Course	Ft Benning, GA	J1W0X1
SV88AL[2]	Evasion and Conduct After Capture (ECAC)	Joint Base San Antonio-Lackland, TX	See note 2
SV97A	Advanced SERE Skills Training	Fairchild AFB, WA	
SV87A	Arctic Survival Training	Eielson AFB, AK	
E5OSA15W3 0A1A [3]	Army Weather Support Course	Ft Huachuca, AZ	See note 3
E6AAL1W071 0S1A	Space Weather Support Course Part 1	Managed at Keesler AFB, MS	Virtual
E3AAR1W071 0S2A	Space Weather Support Course Part 2	Keesler AFB, MS	In-residence

12.2 Exportable Courses

COURSE NUMBER	TITLE	LOCATION	REMARKS
E6OZW15W3 0A1A	Tropical Weather Analysis and Forecasting (Distance Learning Course)	Managed at Keesler AFB, MS	Virtual

12.3 AETC and Air University Courses

COURSE NUMBER	TITLE	LOCATION	REMARKS
E6ANW1W051 00AA	Weather Journeyman Course (WJC)	Unit/On-site Managed at Keesler AFB, MS	Managed on current Enterprise Blended Learning System (EBLS)
E6ANW1W071 00AA	Weather Craftsman Course (WCC)	Unit/On-site Managed at Keesler AFB, MS	Managed on current Enterprise Blended Learning System (EBLS)

12.4 MAJCOM/Specialized Unit Unique Requirements

COURSE NUMBER	TITLE	LOCATION	REMARKS
ANGWRTC-010 [4]	ANG Weather Applications Course	Camp Blanding, FL	ARC (AFRC and ANG) Fulfills requirements for WJC See note 4
ANGWRTC-011 [5]	ANG Weather Manager Course	Camp Blanding, FL	Fulfills the ANG requirement for WCC See note 5
L5AZA1XXXX 0A0A	Airborne Jumpmaster	Fort Benning, GA	
L5AZA1XXXX 0F1A	Military Freefall Parachutist	Yuma, AZ	
NSSI-ITS-DL	Introduction to Space - DL https://nssi.spaceforce.mil	Online	
MSPACE 100DL	Space 100 https://nssi.spaceforce.mil	Online and In-residence	Locations alternate

JAOC2C	Joint Air Operations Command and Control Course	Hurlburt Field, FL	
AOCIQTCOD 001	AOC Initial Qualification Training, Combat Operations Division Course	Hurlburt Field, FL	
AF C2WAC	C2 Warrior Advanced Course	Hurlburt Field, FL	

Notes:

1. **Advanced Weather Management Course (AWMC)**: A formal blended learning course for operational weather leadership supporting Air Force, Army, and Space Force units that includes a self-paced learning section, interactive learning, and culminates with an in-residence capstone. This course is mandatory for TSgt(s) and MSgt(s) assigned to and/or projected to assume Flight Chief or Detachment Chief leadership positions.

2. **Evasion and Conduct After Capture (ECAC):** Trains personnel in tactics, techniques, procedures (TTP), and equipment that enhances evasion, resistance, and escape prospects, in any hostile environment. This course is mandatory for all Airmen, regardless of rank, projected for their first Army support assignment and is a one-time requirement. J1W0X1 personnel are required to attend Initial Level-B SERE, ECAC also satisfies this requirement.

3. **Army Weather Support Course (AWSC)**: The Army Weather Support Course (AWSC), conducted at Fort Huachuca, AZ, is a mandatory requirement for weather officers and enlisted (E8 and below) projected for their first Army weather support assignment or reassignment after a six-year lapse from last course attendance or last Army weather support assignment (T-2). All National Guard weather personnel, regardless of rank, projected for their first Army weather support assignment or reassignment after a six-year lapse from last course attendance or last Army weather support assignment will attend the current version of the AWSC. AWSC is designed to immerse the Staff Weather Officer (SWO) into the Army environment, ensuring their seamless integration with Army staff. The curriculum provides a general understanding of Army culture and the Military Decision Making Process (MDMP), focusing on interservice collaboration and the integration of weather's impact on multi-domain operations within the Army's intelligence architecture. This course prepares weather Airmen by building a foundational skillset for direct integration with their supported Army staff, built on common dynamics and processes, preparing them for expanded roles on any number of service or joint planning and operations staffs.

4. **ANG Weather Applications Course**: The ANG Weather Applications Course (WAC) is mandatory for: (A) All ARC (ANG & AFRC) 1W031 personnel immediately following the graduation of Meteorological and Oceanographic (METOC) Operations Course (E8ABR1W031 0A1F) ISC and concurrently completing the Weather Journeyman Course (E6ANW1W051 00A); (B) All ANG weather 1W0X1 awarded personnel who have not been assigned to a Weather Flight/Detachment while serving on active duty i.e., USAF Airmen

assigned to an OWS only; (C) Navy or Marine Corps weather personnel gained into the ANG program. This course prepares the trainee to perform operational mission scale weather tasks preparing and delivering pertinent weather information to the combatant commander. Course material includes weather observing, briefing techniques, mission execution forecast process, weather flight operations, and practical weather skills training. Students are trained to use current weather weapon systems and communications.

5. **ANG Weather Manager Course**: Provides a forum for weather managers to receive and share the tools and knowledge necessary for the effective management of ANG weather assets. This course overviews the duties and responsibilities of commanders, officers, and senior NCOs in all areas of weather team management. Areas of discussion include Command and Leadership, Inspection Process, Operations, Mobilization/Mobility, Training, Financial Management, Information Management, Supply and Equipment Management, Communications/Computer Systems, Air Force/Army structure, and additional duties.

Section D - Support Materials

13. Support material is anything designed to enhance the learning process at any level of training. Refer to ETCA for information on AETC formal courses. https://usaf.dps.mil/teams/app10-etca/SitePages/home.aspx?isdlg=1

13.1 Soldiers Manual of Common Tasks (SMCT) Warrior Skills Level 1. The SMCT is an Army manual containing the warrior skills that all Soldiers must be able to perform, and information on how to perform and evaluate the tasks. The SMCT is a tool that can be used by supervisors and commanders performing Army support to maintain proficiency in the common Soldier skills.

Section E – Resource Constraints

14. If a unit identifies resource constraint that will prevent their ability to comply with the training requirements established by this CFETP, they should work through their training managers and MFMs to process a waiver request IAW DAFMAN 36-2689.

14.1 At locations where Mission Oriented Protective Posture (MOPP) Gear is limited, units are only required to qualify on CBRN tasks prior to mobilization to a location with these requirements outlined on their reporting instructions.

Section F – CBRN Task Qualification Training (TQT) Requirements

15. CFMs will identify AFSC-specific tasks/competencies requiring CBRN defense TQT in the CFETP. Unit commanders will ensure Airmen are trained on the ability to execute CBRN wartime tasks identified in the applicable CFETP and STS IAW DAFI 10-2503, *Chemical, Biological, Radiological, or Nuclear (CBRN) Defense Program.*

15.1. Airmen will complete TQT while wearing MOPP-4 Chemical Warfare Defense Equipment during their pre-deployment prepare phase based on force readiness reporting requirements and mission requirements; or at a minimum of every 18 months. Commanders and Unit Training Managers may identify additional TQT tasks based on their unit's mission, the individual's assigned UTC, and MAJCOM-specific or locally directed requirements. Work centers that identify additional TQT tasks are required to document additional tasks in the member's training records. Additional tasks can be annotated in the 1098 or TBA My Journal sections of the member's

training record. See DAFI 10-2501 for exemptions to this training requirement.

15.2 Unit commanders that are required to document training status in DRRS will document the status of TQT using the Chemical Biological Defense Readiness Training (CBDRT) reporting tool in accordance with DAFI 10-2503.

Part II

Specialty Training Standard (STS)

1. Implementation. This STS will be used for technical training provided by Air Education and Training Command. This document is the foundation for technician development in areas related to competency models, upgrade training, grade and skill-level progression. The intent of competency-based modeling (CBM) is to ensure that weather personnel gain pertinent knowledge, skills and abilities (KSAs) to effectively perform assigned duties. This approach is a departure from traditional time-based training models and focuses on demonstrating proficiency in specified objectives as described in the Occupational Competency Model (Attachment 1).

1.1. **Qualitative Requirements.** The STS contains the behavioral statement coding key used to indicate the level of training and competence provided by resident training and career learning modules.

Behavioral Statement STS Coding System	
Code	**Definition**
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze or evaluate the subject.
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the filed requirements for speed and accuracy.
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles and operational theory for the task.
-	No training provided in the formal course or DL course.
X	Training is required but not provided due to limitations in resources.

1.2. **Field Level Execution.** Training will focus on demonstrating competency on the listed observable behaviors and learning outcomes/tasks in the STS. Once a learning outcome/task is demonstrated consistently, the trainer will document completion of that training item in the members training records. Learning outcomes/tasks are trained and qualified to the go/no-go level. Go means the individual can perform the task without assistance and meet local demands for accuracy, timeliness, and correct use of procedures.

1.3. This STS provides documentation for OJT. Record completion of consistently demonstrated learning outcomes/tasks. Use automated training management system, TBA2.0, to document technician qualifications and core task certifications. Learning outcome/task documentation requires the following column designators: training start, training complete, trainee initials, and trainer initials. To document certification of a core task requires the following column designators: training start, training complete, trainee initials, trainer initials, and certifier initials.

1.4. Work center supervisors should tailor records to meet the unit's needs as long as the intent of the applicable forms and training program is not compromised. Keep at least one copy of the entire CFETP (Part I and II) in the work center for general access and development of Master Training

Plan/Master Training List (MTP/MTL).

2. Job Qualification Standard. The STS becomes a job qualification standard (JQS) for upgrade training when placed in the **Individual Training Record** and used according to DAFMAN 36-2689. Continual progression of knowledge and performance is necessary for mastery of the Air Force Weather specialty. Training will continually evolve through basic, intermediate, advanced and expert competency levels. This program builds upon and enhances subject knowledge, performance training or performance knowledge behaviors. A MAJCOM or Army Support JQS may be used in addition to the CFETP Part II upon coordination/approval with the CFM.

3. Documentation. Document completion of training IAW DAFMAN 36-2689, Training Program. Records will be tailored to reflect only the unit's Master Task List items.

4. Converting from Legacy Documents to CFETP (aka transcription). All AFJQSs and previous CFETPs have been replaced by this CFETP; therefore, conversion of all training records to this CFETP STS is mandatory. Use this CFETP STS (or unit-specific STS) to capture qualification history.

5. Recommending Changes or Improvements. Recommendations, comments, and improvements are invited concerning the quality of AETC Training. A Customer Service Information Line (CSIL) has been installed for the supervisors' convenience. For a quick response to concerns call our CSIL at DSN 312-597-4566, or fax us at DSN 312-597-3790 or e-mail us at 81trg.tget@us.af.mil. Reference this CFETP/STS and identify the specific area of concern (paragraph, training standard element, etc.)

BY ORDER OF THE SECRETARY OF THE AIR FORCE

JOSHUA KOSLOV, COLONEL USAF
DIRECTOR NON-KINETIC OPERATIONS

Attachment 1
OCCUPATIONAL COMPETENCY MODEL

A1. Competencies. The Air Force defines competencies as a combination of knowledge, skills, abilities, and other characteristics that manifest in observable and measurable patterns of behaviors required for mission success. The Weather community has rebuilt the entire training platform by using competencies to identify the behaviors that are needed to be successful on the job. This has been accomplished by identifying and integrating the 1W0X1, Weather occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides all Airmen with transparent and unbiased pathways towards their own successful development.

Figure A1.1. Airmen's Foundational Competencies.

A1.1. Airmen's Foundational Competencies. The foundational competencies are a set of accepted and valued competencies, which enable success across a wide array of DAF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation. The foundational competencies are grouped into different categories of Developing Self, Developing Others, Developing Ideas, and Developing Organization. Airmen can go to MyVector (accessible via AF Portal) to complete a self-assessment, which will have them evaluate themselves on the 23 Airmen's foundational competencies or a 360-degree assessment, where subordinates, peers, and leaders can also provide feedback. The assessment tools will provide Airmen with immediate feedback on personal strengths and areas for improvement. Additionally, a personal improvement plan with targeted resources (videos, reading content, developmental opportunities) are provided for continued self-development.

A1.2. Occupational Competencies. Occupational competencies are a set of competencies required of all Airmen within a specific workforce category. These competencies provide a framework that describes the knowledge, skills, abilities, and other characteristics needed to perform that function's mission successfully.

A1.2.1. Occupational Competency Model. A career field's competencies can be viewed in a competency model, which is an organized collection of competencies pertinent to the career field. The occupational competency model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the 1W0X1 community. The occupational competency modeling process follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, upgrade training,

formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives.

A1.2.2. Career fields work with trained competency experts to identify and develop their competency model, which consists of the competencies, sub-competencies, and definitions. Occupational competency models will be different for each career field. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery competencies required for Airmen to succeed in their career field. The supporting competencies listed in Figure A1.1 are annotated in the competency rubrics found in section A1.5, which connect the AF Core Competencies with the Weather Occupational Competencies of Tradecraft, Employment, Management and Development.

Table A1.1. 1W0X1, Weather, Occupational Competency Model

Competency	Sub-Competency	Description
Tradecraft	Analysis	The systematic process of interrogating meteorological, environmental, and oceanographic data to produce tailored information that optimizes decision advantage.
	Process Management	Systematic approach used to engineer, sustain, and improve processes and procedures.
Employment	Communication	The exchange of information across various enclaves and echelons.
	Planning	The process for orderly and coordinated problem solving to enhance decision advantage.
Management	Personnel Management	The process of planning, scheduling and allocating Airmen to align with mission requirements.
	Resource Management	Developing, procuring, allocating, and accounting for funding & assets.
	Program Management	The continuous improvement, sustainment, and compliance of a program.
Development	Training	The process of providing the knowledge, skills, abilities, and other characteristics to develop mission ready Airmen.
	Professional Development	A deliberate approach to develop personnel to achieve career success.

A1.2.3. Occupational Competency Rubric. After a model is developed, a team of subject matter experts (SME) begin building competency rubrics, which consists of the competency, a description of the competency, proficiency levels, and measurable and observable behaviors. The competency rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional developmental expectations, and the criteria for success. Table A1.2 provides an example of a competency rubric for 1W0X1 career field.

Table A1.2. Example Occupational Competency Rubric

Competency	Proficiency Levels	Observable Behaviors
Tradecraft	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Guides teams in the development and refinement of techniques to improve quality of mission execution - Interprets, employes and applies performance indicators to improve tradecraft techniques and methodologies
Sub-Competency Analysis and Application	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Modifies sophisticated analyses techniques to support a range of requirements - Leverages subject matter expertise to extrapolate analytical assessments in uncertain environments - Integrates advanced weather information to assist leaders in making informed decision with weather data - Integrates meteorological, environmental, and oceanographic information to assist leaders decision advantage
Description The systematic process of interrogating meteorological, environmental, and oceanographic data to produce tailored information that optimizes decision advantage.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Retrieves data in contested environments to establish situational awareness - Maximizes analysis acumen by using pattern recognition - Generates weather information tailored to meet mission requirements
Supporting Competencies Analytical Thinking Communication Decision Making Information Seeking	***Basic*** Consistency of Application: Sustained application of competency over time	- Utilizes tools to collect relevant atmospheric data (equipment, software) - Retrieves and tailors data in non-contested environments to establish situational awareness and the generation of weather information - Interprets meteorological, environmental, and oceanographic data for use in mission execution - Applies established techniques to develop and present a weather forecast

A1.2.4. To better understand how to read and utilize the competency rubric, a breakdown of each component is explained below:

Figure A1.2. Occupational Competency Rubric Section 1.

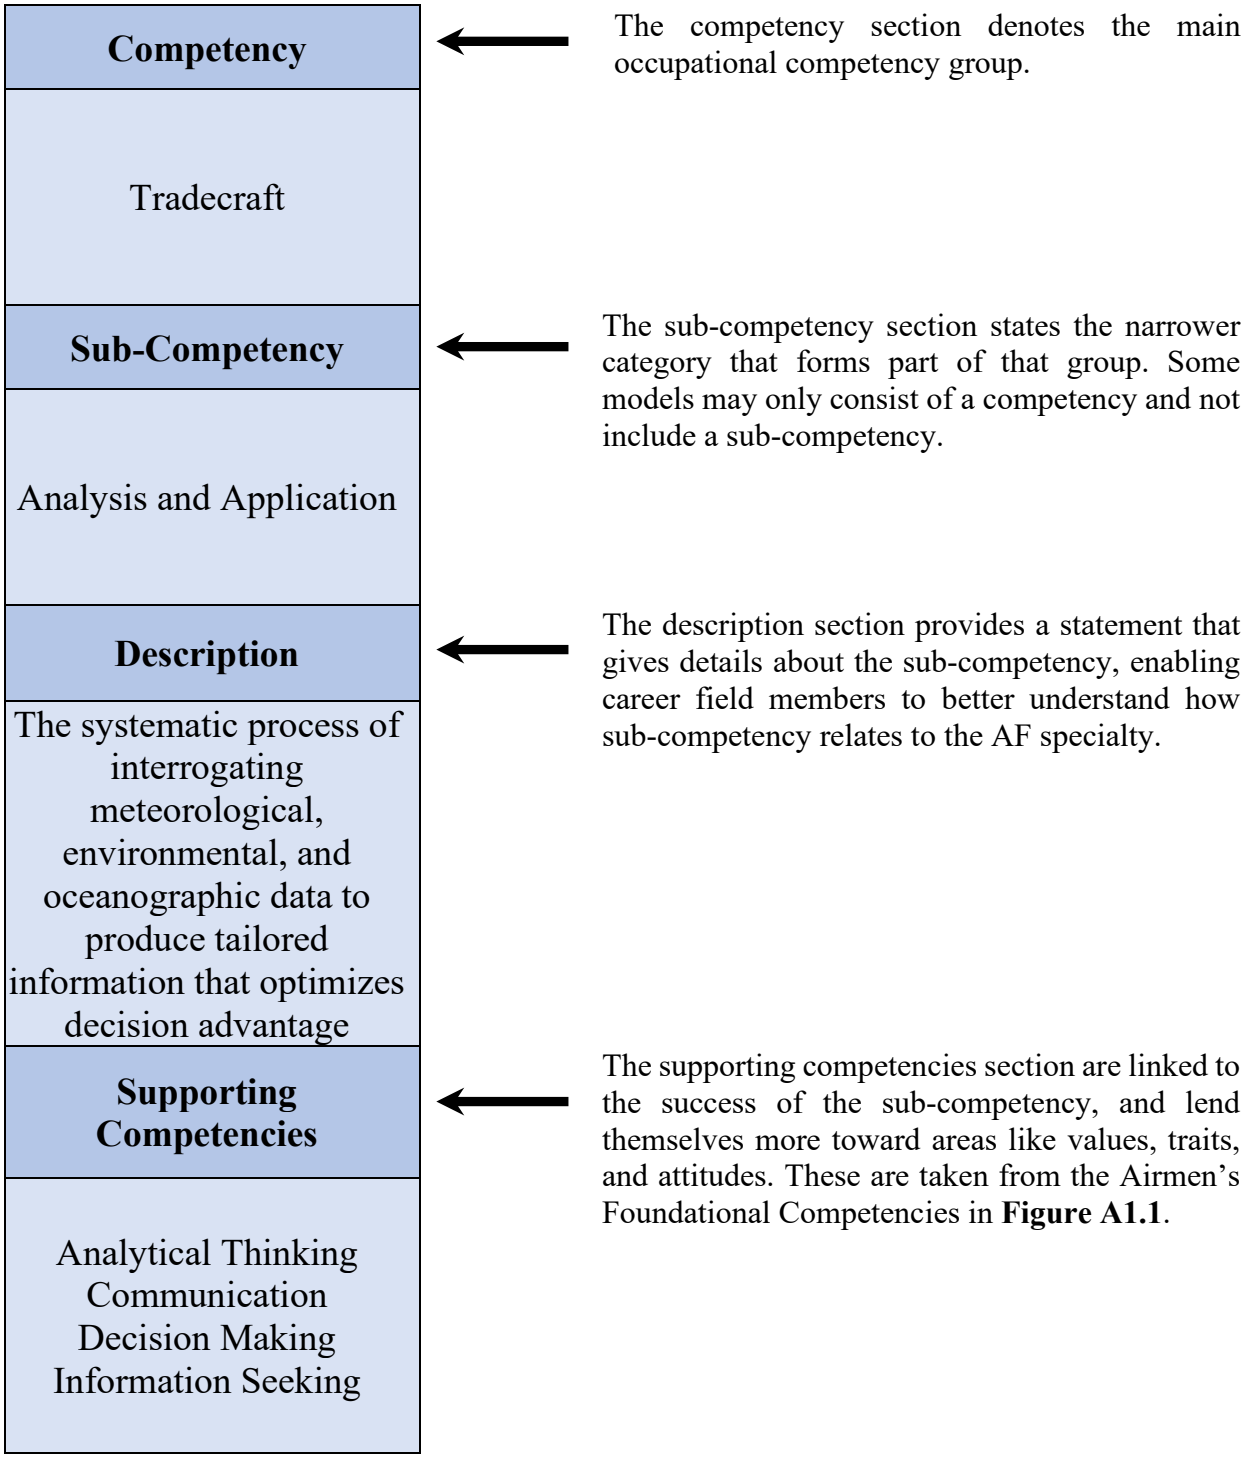

Figure A1.3. Occupational Competency Rubric Section 2.

Proficiency Levels	
Basic **Reach of Influence:** Individuals	The proficiency levels are broken into four categories: *Basic, Intermediate, Advanced, and Expert*. Under each proficiency level are predetermined criteria selected by a group of SMEs from your career field and validated by the career field. The criteria were used as the basis to develop the observable behaviors. These criteria provide concrete parameters for the behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert. Some of the criteria (e.g. depth of knowledge, consistency of application/complexity) allow an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to a variety of situations. While other criteria (e.g. scope, impact, and reach of influence) require more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving through the proficiency levels may be difficult to do in certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e. at HHQ, Wing, or an organization with far reaching capabilities).
Intermediate **Reach of Influence:** Flight	
Advanced **Reach of Influence:** Wing Squadron	
Expert **Reach of Influence:** MAJCOM AF-Level Industry	

Figure A1.4. Occupational Competency Rubric Section 3.

Observable Behaviors
- Guides teams in the development and refinement of techniques to improve quality of mission execution - Interprets, employs and applies performance indicators to improve tradecraft techniques and methodologies
- Leverages subject matter expertise to extrapolate analytical assessments in uncertain environments - Integrates advanced weather information to assist leaders in making informed decisions with weather data
- Maximizes analysis acumen by using pattern recognition - Generates weather information tailored to meet mission requirements
- Interprets meteorological, environmental, and oceanographic data for use in mission execution - Applies established techniques to develop and present a weather forecast

The observable behaviors are statements of what can be observed from an individual manifesting the competency at the respective competency level.

They provide objective evidence that the individual possesses the competency level, and shows what effective performance looks like.

The behaviors are written to be specific enough so they can be observable and lend themselves towards measurement.

A1.3. Another key component within the rubric is the supporting competencies section at the bottom left-hand corner. These are the top four supporting competencies that can help members excel and be successful in that sub-competency. Some of these supporting competencies are tied directly to the Airmen's Foundational Competencies, while others may be unique to the career field. Having these supporting competencies identified and linked to a career field's competency model can cultivate those underlying characteristics needed to succeed on the job. Leaders, supervisors, trainers, instructors, or mentors can now set members up for greater success by building these supporting competencies and placing Airmen in situations where they can apply those strategies. These elements come together to ensure we can develop Airmen who are better prepared, present and future mission focused, and ready to succeed in any situation. Additionally, DAFMAN 36-2643, *Coaching and Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

A1.4. Competency Development. The intent of moving towards a competency-based system is to sharpen tactical expertise, operational competence, strategic vision, and joint proficiency to lead and execute the full spectrum of USAF missions. This occurs not in a classroom but on the job by combining education, training, and experiences to provide Airmen with a better developmental pathway as they move along their careers. Airmen are still required to complete specific training courses, core tasks, and other training requirements to attain a 3-, 5-, and 7-skill levels. Competency development allows Airmen to move beyond the minimum career field requirements and begin addressing developmental gaps and strengthening their capabilities. The information included within the competency model will allow members within the weather community to manage their professional growth and development by identifying their strengths and weaknesses against clear and objective behaviors within the competency model.

A1.5. Below are the competency rubrics for the 1W0X1 Weather, career field.

Table A1.3. Analysis and Application OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Tradecraft	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Guides teams in the development and refinement of techniques to improve quality of mission execution - Interprets, employes and applies performance indicators to improve tradecraft techniques and methodologies
Sub-Competency	***Advanced***	- Modifies sophisticated analyses techniques to support a range of requirements - Leverages subject matter expertise to extrapolate analytical assessments in uncertain environments - Integrates advanced weather information to assist leaders in making informed decisions with weather data - Integrates meteorological, environmental, and oceanographic information to assist leaders' decision advantage
Analysis and Application	Consistency of Application: Sustained application of competency over time in complex situations	
Description	***Intermediate***	- Retrieves data in contested environments to establish situational awareness - Maximizes analysis acumen by using pattern recognition - Generates weather information tailored to meet mission requirements
The systematic process of interrogating meteorological, environmental, and oceanographic data to produce tailored information that optimizes decision advantage.	Consistency of Application: Sustained application of competency over time in a variety of situations	
Supporting Competencies	***Basic***	- 21- Retrieves and tailors data in non-contested environments to establish situational awareness and the generation of weather information - Interprets meteorological, environmental, and oceanographic data for use in mission execution - Applies established techniques to develop and present a weather forecast
Analytical Thinking Communication Decision Making Information Seeking	Consistency of Application: Sustained application of competency over time	

Table A1.4. Process Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Tradecraft	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Anticipates and integrates strategic guidance and commander's intent into processes to educate the force - Generates processes that address multi-dimensional situations across the force to meet priorities
Sub-Competency Process Management	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Applies strategic guidance and tailors processes to meet commander's intent and specific operational requirements - Facilitates unity of effort through a broader network to integrate weather - Ensures organizations are in compliance to facilitate effective processes
Description Systematic approach used to engineer, sustain, and improve processes and procedures.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Identifies situations benefiting from established processes to increase unit efficiency - Modifies checklists and processes to enhance unit capabilities - Re-enforces compliance with established processes and checklists to sustain mission effectiveness - Responds to emerging situations that deviate from standard processes in order to meet time sensitive requirements
Supporting Competencies Analytical Thinking Accountability Communication Organizational Awareness	***Basic*** Consistency of Application: Sustained application of competency over time	- Follows established checklists in order to complete mission activities - Identifies and communicates gaps or in-efficiencies in standard practices to improve unit processes

Table A1.5. Personnel Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Reach of Influence: MAJCOM/AF-Level/Industry	- Vectors personnel for career broadening opportunities and assignments to support mission requirements and personnel development - Establishes and/or disseminates career field guidance for sustainment and evolving strategic requirements - Programs for and prioritizes manpower to support National Security priorities
Sub-Competency Personnel Management	***Advanced*** Reach of Influence: Wing/Institutional	- Identifies long-term manning gaps and initiates and/or recommends COAs to inform decision makers - Oversees placement of personnel with specialized education, experience backgrounds, or identifiers to maximize utilization and retention of top-talent
Description The process of planning, scheduling and allocating Airman to align with mission requirements.	***Intermediate*** Reach of Influence: Unit/Groups	- Identifies near-term manning gaps and recommends COAs to decision makers - Assigns placement of personnel and defines roles and responsibilities to ensure mission accomplishment - Requests total force billets to support execution of the mission
Supporting Competencies Accountability Communication Develops People Leadership	***Basic*** Reach of Influence: Individual/ Work center	- Performs workplace duties and follows schedules to complete the mission - Maintains accountability to successfully execute duties, instructions, and responsibilities - Utilizes resources to maintain personal and professional readiness

Table A1.6. Resource Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Reach of Influence: MAJCOM/AF-Level/Industry	- Steers policy for long-range planning efforts and future concepts - Influences senior leaders to sustain resources or address gaps revealed by national strategy - Manages career field within allocated resources to meet mission demands
Sub-Competency	***Advanced***	- Secures funding to sustain efforts and eliminate resource gaps - Prioritizes and distributes resources for multiple projects or work centers - Manages resources to meet capability
Resource Management	Reach of Influence: Squadron/Group/Wing	
Description	***Intermediate***	- Advocates for resources to address or prevent mission degradation - Manages work center resources for mission execution - Identifies gaps to enhance mission effectiveness
Developing, procuring, allocating, and accounting for funding & assets.	Reach of Influence: Work center/Specific Projects	
Supporting Competencies	***Basic***	- Identifies resource needed to execute mission requirements - Utilizes and operates resources appropriately to accomplish assigned duties
Accountability Communication Organizational Awareness Resource Management	Reach of Influence: Individuals	

Table A1.7. Program Management OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Solves program limitations and directs revisions for organizational success - Creates and disseminates program guidance to meet organizational needs - Leads the integration of programs to achieve organizational goals
Sub-Competency	***Advanced***	- Analyzes policy to apply program guidance and directives - Collaborates with other program managers to achieve organizational objectives - Develops courses of action to resolve discrepancies
Program Management	Depth of Knowledge: New practices of all workplace elements	
Description	***Intermediate***	- Analyzes resource needs to meet program requirements - Monitors trends and documents lessons learned to improve effectiveness - Implements courses of action to resolve challenges or discrepancies
The continuous improvement, sustainment, and compliance of a program.	Depth of Knowledge: Established practices of all workplace elements	
Supporting Competencies	***Basic***	- Executes program roles and responsibilities while adhering to regulations - Collaborates with program owner to address shortfalls
Accountability Analytical Thinking Communication Initiative	Depth of Knowledge: Established practice with some workplace elements	

Table A1.8. Training OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Development	***Expert*** Reach of Influence: MAJCOM/AF-Level/Industry	- Develops training strategy to align tradecraft with strategic priorities and requirements - Represents Air Force equities on joint and service training working groups to determine training needs
Sub-Competency	***Advanced***	- Manages training program by leveraging traditional and/or non-traditional training to build mission capabilities - Analyzes shortfalls to advocate for training resources - Establishes developmental criteria and training requirements to meet operational objectives
Training	Reach of Influence: Squadron/Group/Wing	
Description	***Intermediate***	- Identifies and leverages training resources to ensure Airmen have sufficient knowledge and skills - Implements and assesses training by using best practices to achieve objectives
The process of providing the knowledge, skills, abilities, and other characteristics to develop mission ready Airman.	Reach of Influence: Work centers	
Supporting Competencies	***Basic***	- Shares knowledge to elevate quality in work center - Coordinates with supervisors to accomplish specific tasks, training, and goals - Maintains accountability of training and documentation to ensure progression
Communication Develops People Information Seeking Initiative	Reach of Influence: Individuals	

Table A1.9. Professional Development OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Development	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Identifies, advises, and facilitates developmental opportunities to optimize career progression - Implements force development strategies to cultivate the force and enable decision advantage - Incorporates team development strategies to enhance culture and climate
Sub-Competency	***Advanced***	- Mentors and prepares personnel for future development based on individual goals - Advocates for opportunities and employs resources for personnel development - Identifies, prioritizes, and incorporates methods of development to mentor others and enhance organizational performance
Professional Development	Consistency of Application: Sustained application of competency over time in complex situations	
Description	***Intermediate***	- Evaluates team members and provides constructive feedback to improve work center performance - Assigns roles of personnel to guide subordinates' professional development (primary duties, additional duties, exercises, deployments)
An deliberate approach to develop personnel to achieve career success.	Consistency of Application: Sustained application of competency over time in a variety of situations	
Supporting Competencies	***Basic***	- Accepts and utilizes feedback/counseling to promote personal growth - Maintains accountability and encourages peer accountability to execute all duties, instructions, and responsibilities - Makes decisions within scope of responsibility and elevates issues by utilizing the chain of command - Volunteers for/or recommends personnel for professional development opportunities
Communication Develops People Leadership Relationship Building	Consistency of Application: Sustained application of competency over time	

Table A1.10. Communication OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Development	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Develops communication strategies to produce desired effect across diverse audiences - Develops messages to senior leadership and other external organizations to convey mission constraints and requirements - Coaches, mentors, and guides others to develop advanced strategic communication techniques
Sub-Competency	***Advanced***	- Instructs and evaluates others on effective communication techniques to improve capabilities, develop professionals, and guide teams - Communicates information, concepts, or ideas in a confident and deliberate manner to guide tasking or requirements - Translates commander's intent and communicates direction to drive efforts toward a common goal - Manages and reconciles conflicts, facilitating the integration of ideas towards shared objectives
Communication	Consistency of Application: Sustained application of competency over time in complex situations	
Description	***Intermediate***	- Organizes information from multiple sources to produce clear and logical outcomes to influence decisions - Articulates accurate and succinct tailored information to inform decision makers
The exchange of information across various enclaves and echelons.	Consistency of Application: Sustained application of competency over time in a variety of situations	
Supporting Competencies	***Basic***	- Utilizes appropriate communication tools to convey and receive relevant information - Delivers information to satisfy requirements - Recognizes social cues and non-verbal communication to adjust message delivery and improve receipt
Communication Influence Organizational Awareness Relationship Building	Consistency of Application: Sustained application of competency over time	

Table A1.11. Planning OCM Rubric

Competency	Proficiency Levels	Observable Behaviors
Employment	***Expert*** Scope: Integration with AF-level/within industry	- Ensures departmental and joint policy incorporates the Meteorological, Environmental, Oceanography function to institutionalize integration with planning activities - Coordinates Meteorological, Environmental, Oceanography abilities with other Air Force Specialties (AFSs), services, multi-national partners, and agencies to enhance development of the threat environment - Drives implementation of industry leading standards across the force to improve weather capability integration into planning activities at all echelons
Sub-Competency	***Advanced***	- Integrates Meteorological, Environmental, Oceanography information and capabilities into planning activities at the Major Command or Geographic Combatant Command echelons to enhance development of the threat environment - Advises subordinate organizations of operational intent to facilitate integration at the tactical planning level
Planning	Scope: Integration with organizational strategies	
Description	***Intermediate***	- Participates in supported unit(s) planning activities on a regular basis to integrate Meteorological, Environmental, Oceanography information into decisions - Contributes to collaborative efforts within relevant organizations to provide value to decision processes - Fosters relationships in order to facilitate inclusion of weather personnel into planning activities - Provides tailored support to planning activities in order to create options for specific warfighting functions and enhance decision advantage
The process for orderly and coordinated problem solving to enhance decision advantage.	Scope: Integration with concerned areas	
Supporting Competencies	***Basic***	- Applies supported unit(s) objectives in order to provide tailored support - Attends unit planning activities on a regular basis to develop relationships
Analytical Thinking Communication Decision Making Strategic Thinking	Scope: Specific Area	

Attachment 2

STS Proficiency Code Key

Behavioral Statement and STS Coding System	
Code	**Definition**
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze or evaluate the subject.
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the field requirements for speed and accuracy**.**
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles, and operational theory for the task.
-	No training provided in the formal course or DL course.
X	Training is required but not provided due to limitations in resources.
^	Indicates core task, with numbers 5 or 7, and is a requirement for 5-skill level or 7-skill level upgrades, respectively and requires certification by a Task Certifier/Certifier.
~	CBRN TQT requirement.

NOTES:

- Supervisors and trainers may serve interchangeably (a supervisor can be a trainer, and a trainer can be a supervisor).

- A certifier cannot conduct a certification for any task on which they personally trained the member.

- The STS behavioral statement coding (K, P, pk) indicates the level of training and competence provided by resident training and career learning modules.

Attachment 3

1W0X1 OCM SPECIALTY TRAINING STANDARD

Tasks, Knowledge and Technical References	Behavior Match	Core Task 5,7/Certify^	CBRN	Training Start	Training Complete	Trainee Initials	Trainer Initials	Certifier Initials	3-lvl	5-lvl	7-lvl
1. TRADECRAFT											
1.1. ANALYSIS APPLICATION Description: The systematic process of interrogating meteorological, environmental, and oceanographic data to produce tailored information that optimizes decision advantage. **Supporting Competencies:** *Analytical Thinking, Communication, Decision Making, Information Seeking* **TR: AFH 15-101, AFTTP 3-4.15, DAFI 15-129, AFMAN 15-111, AFMAN 15-124, AFI 15-157**											
1.1.1. Analysis Application (Basic) **Required Behaviors:** 1. Utilizes tools to collect trusted atmospheric data (equipment, software) 2. Interprets meteorological, environmental, and oceanographic data for use in mission execution 3. Applies established techniques to develop and present a METOC forecast **Criteria:** *Consistency of Application: Sustained application of competency over time*											
1.1.1.1. Identify and navigate DoD and non-DoD METOC sources	1	**5^**							**P**		
1.1.1.2. Extract sensed data: RADAR, METSAT, fixed/tactical sensor	1	**5^**							**P**		
1.1.1.3. Extract and analyze model data	1	**5^**							**P**		
1.1.1.4. Verify data accuracy across systems	1	**5^**							**P**		
1.1.1.5. Operate manual sensing equipment	1	**5^**	~								
1.1.1.6. Encode/Decode meteorological data	1	**5^**							**P**		

1.1.1.7. Identify/leverage mission-focused and planning information	2	**5^**								**pk**	
1.1.1.8. Identify mission partner requirements	2										
1.1.1.9. Interpret sensed data: RADAR, METSAT, fixed/tactical sensor	2	**5^**							**P**		
1.1.1.10. Interpret model data	2	**5^**							**P**		
1.1.1.11. Apply meteorological reasoning to describe state of atmosphere	3	**5^**							**P**		
1.1.1.12. Follow established procedures to provide METOC capability	3	**5^**									
1.1.2. Analysis Application (Intermediate) **Required Behaviors:** 1. Retrieves and utilizes data in contested environments to establish situational awareness 2. Maximizes analysis acumen by using meteorological pattern recognition 3. Generates METOC information tailored to meet mission requirements **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*											
1.1.2.1. Leverage established systems/processes to extract data (WxStream Helios, single station)	1	**5^**	~								
1.1.2.2. Describe and implement PACE (Primary, Alternate, Contingency, Emergency) plan	1	**5^**									
1.1.2.3. Compare current conditions with climatological data to identify trends, relationships, and anomalies	2	**5^**							**P**		
1.1.2.4. Develop guidance for pattern recognition strategies	2	**5^**									
1.1.2.5. Apply environmental data to meet mission requirements (Climo, etc.)	3	**5^**									
1.1.2.6. Integrate analysis and forecasts into mission	3	**5^**									

1.1.3. Analysis Application (Advanced) **Required Behaviors:** 1. Modifies sophisticated analysis techniques to support a range of requirements 2. Leverages subject matter expertise to extrapolate analytical assessments in uncertain environments 3. Integrates meteorological, environmental, and oceanographic information to assist leaders decision advantage **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*											
1.1.3.1. Develop local rules of thumb	1	**7^**									**pk**
1.1.3.2. Identify need for change to METOC techniques	1	**7^**									**K**
1.1.3.3. Modify local procedures to adapt to operational requirements	1										
1.1.3.4. Leverage lessons learned and best practices to integrate into mission requirements	2										
1.1.3.5. Identify and utilize METOC and non-METOC SME information	2	**7^**									**pk**
1.1.3.6. Mitigate potential misinformation (incomplete analysis, erroneous data, disinformation)	2	**7^**								**P**	
1.1.3.7. Identify adversarial impacts and behaviors	2	**7^**								**K**	
1.1.3.8. Integrate METOC impacts in execution and planning cycles	3	**7^**								**P**	
1.1.3.9. Recommend changes to sensing strategy	3	**7^**									**P**
1.1.3.10. Incorporate commander's intent	3	**5^**									
1.1.4. Analysis Application (Expert) **Required Behaviors:** 1. Guides teams in the development and refinement of techniques to improve quality of mission execution 2. Interprets, employs and applies performance indicators to improve tradecraft techniques and methodologies **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*											
1.1.4.1. Assess and influence consistency across joint environment	1									**pk**	

1.1.4.2. Advocate for METOC equities in the Joint Planning Process and Joint Intelligence Preparation of the Operational Environment	1										
1.1.4.3. Integrate functional capabilities with applicable stakeholders	1										
1.1.4.4. Leverage private, government, educational, international resources and organizations to mitigate METOC capability gaps	1										
1.1.4.5. Identify mission interdependencies	1										
1.1.4.6. Collect and evaluate (equipment, personnel, etc.) capability metrics	2										
1.1.4.7. Apply feedback into mission-focused process improvement	2										
1.1.4.8. Develop Tactics Improvement Proposal (TIP) for AFTTP inclusion	2										
1.2. PROCESS MANAGEMENT Description: Systematic approach used to engineer, sustain, and improve processes and procedures. **Supporting Competencies:** *Analytical Thinking, Accountability, Communication, Organizational Awareness* **TR: DAFI 15-129, AFMAN 15-111, AFTTP 3-4.15 AFH 15-158, AFI 38-402, DAFI 90-802**											
1.2.1. Process Management (Basic) **Required Behaviors:** 1. Follows established checklists in order to complete mission activities 2. Identifies and communicates gaps or in-efficiencies in standard practices to improve unit processes **Criteria:** *Consistency of Application: Sustained application of competency over time*											
1.2.1.1. Locate relevant checklists	1										
1.2.1.2. Follow policy and guidance	1	**5^**							**P**		
1.2.1.3. Maintain records in accordance with established guidance	1	**5^**									

1.2.1.4. Identify and report guidance/publication deficiencies	2									**P**	
1.2.1.5. Conduct quality control	2	**5^**									
1.2.1.6. Gather mission-partner feedback	2										
1.2.2. Process Management (Intermediate) **Required Behaviors:** 1. Identifies situations benefiting from established processes to increase unit efficiency 2. Modifies checklists and processes to enhance unit capabilities 3. Re-enforces compliance with established processes and checklists to sustain mission effectiveness 4. Responds to emerging situations that deviate from standard processes in order to meet time sensitive requirements **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*											
1.2.2.1. Incorporate and develop lessons learned	1									**P**	
1.2.2.2. Recommend process improvements	1									**P**	
1.2.2.3. Define organizational structure and command relationships	2	**5^**								**K**	
1.2.2.4. Identify risk acceptance authority	2	**5^**									
1.2.2.5. Prioritize mission partner requirements	2	**5^**									
1.2.2.6. Evaluate members and enforce adherence to local policies, procedures and processes	3	**5^**									
1.2.2.7. Train members on templates and standards	3	**5^**									
1.2.2.8. Identify when deviation from established procedures is required	4										
1.2.3. Process Management (Advanced) **Required Behaviors:** 1. Applies strategic guidance and tailors processes to meet commander's intent and specific operational requirements 2. Facilitates unity of effort through a broader network to integrate METOC support **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*											

1.2.3.1. Apply strategic guidance and establish processes to execute mission focused approach	1										**P**
1.2.3.2. Gather operational/strategic requirements and commander's intent	1	**7^**								**P**	
1.2.3.3. Guide, mentor, develop members through production process	2	**7^**								**pk**	
1.2.3.4. Integrate with outside agencies	2									**P**	
1.2.4. Process Management (Expert) **Required Behaviors:** 1. Anticipates and integrates strategic guidance and commander's intent into processes to educate the force 2. Generates processes that address multi-dimensional situations across the force to meet priorities **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*											
1.2.4.1. Develop the process of sharing best practices with stakeholders	1										**P**
1.2.4.2. Establish and maintain formal relationships between government and non-government organizations	1										
1.2.4.3. Explore and implement innovative processes	2										
1.2.4.4. Request resources for any change in requirements	2										**P**
1.2.4.5. Develop and employ dynamic organizational processes	2										**P**
2. EMPLOYMENT											
2.1. COMMUNICATION Description: The exchange of information across various enclaves and echelons. **Supporting Competencies:** *Communication, Influence, Organizational Awareness, Relationship Building* **TR: DAFI 90-160, DAFMAN 36-2689, AFH 33-337, AFMAN 33-326, DoDM 5105.21, Volume 3, AFI 15-157**											

2.1.1. Communication (Basic) **Required Behaviors:** 1. Utilizes appropriate communication tools to convey and receive relevant information 2. Delivers information to satisfy requirem`ents 3. Recognizes social cues and non-verbal communication to adjust message delivery and improve receipt **Criteria:** *Consistency of Application: Sustained application of competency over time*											
2.1.1.1. Utilize interoperable software and systems to meet mission needs	1	**5^**	~						**P**		
2.1.1.2. Communicate through chain of command	1	**5^**									
2.1.1.3. Identify and apply security classification guidance	1	**5^**									
2.1.1.4. Develop public speaking (enunciation, eliminate distracting habits)	2								**P**		
2.1.1.5. Use appropriate publications for communication methods (Tongue and Quill, etc.,)	2									**pk**	
2.1.1.6. Tailor communication approach to audience	3								**P**		
2.1.1.7. Apply self-awareness to appropriate communication style	3								**P**		
2.1.2. Communication (Intermediate) **Required Behaviors:** 1. Organizes information from multiple sources to produce clear and logical outcomes to influence decisions 2. Articulates accurate and succinct tailored information to inform decision makers **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*											
2.1.2.1. Seek diverse perspectives	1										
2.1.2.2. Incorporate decision maker intent	1								**pk**		
2.1.2.3. Receive and prioritize relevant information and communication	1								**P**		
2.1.2.4. Integrate mission owner priorities into delivery	2								**pk**		

2.1.2.5. Utilize specific language (avoid ambiguity)	2								**P**		
2.1.3. Communication (Advanced) **Required Behaviors:** 1. Instructs and evaluates others on effective communication techniques to improve capabilities, develop professionals, and guide teams 2. Communicates information, concepts, or ideas in a confident and deliberate manner to guide tasking or requirements 3. Translates commander's intent and communicates direction to drive efforts toward a common goal 4. Manages and reconciles conflicts, facilitating the integration of ideas towards shared objectives **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*											
2.1.3.1. Enforce security classification guidance	1	**5^**									
2.1.3.2. Convey mission owner's priorities throughout work center	1									**P**	
2.1.3.3. Assess and advise others on effective communication	1										**P**
2.1.3.4. Tailor communication to appropriate level (strategic, operational, or tactical)	2										
2.1.3.5. Fuse expertise with other stakeholders to provide a holistic viewpoint	2									**P**	
2.1.3.6. Articulate organization's mission in relation to strategic objectives	3									**P**	
2.1.3.7. Determine how information impacts second and third order effects	3									**P**	
2.1.3.8. Develop processes for reviewing, editing, and publishing policies	3										**P**
2.1.3.9. Employ and extrapolate social management techniques (Emotional Intelligence)	4										
2.1.3.10. Assess friction points impacting shared objectives	4										

2.1.4. Communication (Expert) **Required Behaviors:** 1. Develops communication strategies to produce desired effect across diverse audiences 2. Develops messages to senior leadership and other external organizations to convey mission constraints and requirements 3. Coaches, mentors, and guides others to develop strategic communication techniques **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*											
2.1.4.1. Interpret strategic intent and translate to target audience	1										**P**
2.1.4.2. Leverage communication platforms to maximize influence	1										
2.1.4.3. Implement professional acumen with corresponding higher echelon leadership	2										
2.1.4.4. Integrate strategic messaging into communication strategy	2										
2.1.4.5. Coach expert communication skills (written, non-verbal)	3										
2.1.4.6. Provide actionable and qualitative feedback to empower other's communication and develop skills	3										
2.2. PLANNING Description: The process for orderly and coordinated problem solving to enhance decision advantage. **Supporting Competencies:** *Analytical Thinking, Communication, Decision Making, Strategic Thinking* **TR: JP 5-0, AFI 10-401**											
2.2.1. Planning (Basic) **Required Behaviors:** 1. Applies supported unit(s) objectives in order to provide tailored support 2. Attends unit planning activities on a regular basis to develop relationships **Criteria:** *Scope: Specific Area*											
2.2.1.1. Identify environmental impacts to specific mission within a given area	1	**5^**							**P**		

2.2.1.2. Identify mission thresholds/limitations	1	**5^**							**P**		
2.2.1.3. Utilize information systems to assist in mission planning	1										
2.2.1.4. Identify Primary, Alternate, Contingency, Emergency plan	1	**5^**							**K**		
2.2.1.5. Obtain credentials to attend planning activities	2										
2.2.1.6. Identify planning timelines	2	**5^**								**K**	
2.2.1.7. Identify supported organization requirements	2										
2.2.1.8. Collaborate at appropriate planning event	2									**pk**	
2.2.2. Planning (Intermediate) **Required Behaviors:** 1. Participates in aligned mission planning activities on a regular basis to integrate Meteorological, Environmental, Oceanography information into decisions 2. Contributes to collaborative efforts within relevant organizations to provide value to decision processes 3. Fosters relationships in order to facilitate inclusion of METOC personnel into planning activities 4. Provides tailored support to planning activities in order to create options for specific warfighting functions and enhance decision advantage **Criteria:** *Scope: Integration with concerned areas*											
2.2.2.1. Apply aligned requirements and mission thresholds/limitations	1	**5^**									
2.2.2.2. Apply mission support process to planning timelines	1	**5^**									
2.2.2.3. Describe principles of the Joint Planning Process	1									**K**	
2.2.2.4. Determine integration into Primary, Alternate, Contingency, Emergency plan	2	**5^**								**P**	
2.2.2.5. Review applicable tasks and orders (OPLAN, TASKORD, etc.)	2	**5^**									**P**
2.2.2.6. Identify and communicate resource deficiencies	2	**5^**								**pk**	
2.2.2.7. Identify Global Force Management Concepts	2										**K**

2.2.2.8. Determine appropriate support agency for unaligned missions	3									**pk**	
2.2.2.9. Establish operating procedures with supporting functions (S6, CFP, LRS, etc.)	3										
2.2.2.10. Identify organizational alignment to higher echelon priorities (lines of effort, milestones, METLs)	3										
2.2.2.11. Align organization with higher echelon priorities (lines of effort, milestones, METLs)	3										
2.2.2.12. Determine and publish environmental impacts to specific mission within a given area	4										
2.2.2.13. Develop alternate COA recommendations to meet mission objectives	4										
2.2.3. Planning (Advanced) **Required Behaviors:** 1. Integrates Meteorological, Environmental, Oceanography information and capabilities into planning activities at the Major Command or Geographic Combatant Command echelons to enhance development of the threat environment 2. Advises subordinate organizations of operational intent to facilitate integration at the respective planning level **Criteria:** *Scope: Integration with organizational strategies*											
2.2.3.1. Incorporate adversarial thresholds and capabilities	1	**7^**								**P**	
2.2.3.2. Coordinate inter-agency/inter-service support	1	**7^**								**P**	
2.2.3.3. Apply principles of the Joint Planning Process	1										**P**
2.2.3.4. Leverage non-functional SMEs to enhance organizational capabilities	1										
2.2.3.5. Identify resources necessary for changing operational environment	1										
2.2.3.6. Apply Global Force Management Concepts	1	**7^**									**P**

2.2.3.7. Apply Orders Production Process (OPLAN, TASKORD, etc.)	1	**7^**									**P**
2.2.3.8. Develop Primary, Alternate, Contingency, Emergency plan and communicate changes	2	**7^**									**P**
2.2.3.9. Advise on applicable tasks and orders (OPLAN, TASKORD, etc.)	2	**7^**									**P**
2.2.3.10. Compile and communicate changes to appropriate echelons	2										
2.2.3.11. Develop adaptive solutions for changing operational environment	2										
2.2.3.12. Establish execution plan to align resources with solutions	2										
2.2.4. Planning (Expert) **Required Behaviors:** 1. Ensures departmental and joint policy incorporates the Meteorological, Environmental, Oceanography function to institutionalize integration with planning activities 2. Coordinates Meteorological, Environmental, Oceanography abilities with other Air Force Specialties (AFSs), services, multi-national partners, and agencies to enhance development of the threat environment 3. Drives implementation of industry leading standards across the force to improve METOC capability integration into planning activities at all echelons **Criteria:** *Scope: Integration with AF-level/within industry*											
2.2.4.1. Establish memoranda or agreements with DAF, Joint, and/or partner entities	1										
2.2.4.2. Draft and coordinate resource plan for an adaptive solution for a changing operational environment	1										
2.2.4.3. Collaborate with working groups and external partners to develop advanced information systems and sharing capabilities	2										
2.2.4.4. Prioritize risks based on strategic relevance	2										
2.2.4.5. Research industry leading standards to	3										

determine applicability to the enterprise											
2.2.4.6. Research new or developing gaps in operational environment	3										
2.2.4.7. Amend guidance to address shortfalls	3										
2.2.4.8. Institutionalize an adaptive solution for future mission needs	3										
3. MANAGEMENT											
3.1. PERSONNEL MANAGEMENT Description: The process of planning, scheduling, and allocating Airmen to align with mission requirements. **Supporting Competencies:** *Accountability, Communication, Develops People, Leadership* **TR: DAFI 38-101, DAFI 36-2110, AFI 10-401**											
3.1.1. Personnel Management (Basic) **Required Behaviors:** 1. Performs workplace duties and follows schedules to complete the mission 2. Maintains accountability to successfully execute duties, instructions, and responsibilities 3. Utilizes resources to maintain personal and professional readiness **Criteria:** *Reach of Influence: Individual/ Work center* **TR: DAFMAN 15-129, AFTTP 3-4.15**											
3.1.1.1. Identify roles and responsibilities within work center	1										
3.1.1.2. Meet training requirements	1										
3.1.1.3. Interpret and apply schedules to adhere to timelines	1	**5^**							**P**		
3.1.1.4. Use the Career Field Education & Training Plan (CFETP) to understand career progression	2	**5^**								**pk**	
3.1.1.5. Apply critical thinking skills to contribute to challenges and improve processes	2									**P**	
3.1.1.6. Identify individual accountability and its impact to the work center	2										

3.1.1.7. Maintain individual readiness requirements in accordance with guidance	3										
3.1.1.8. Identify assignment process and associated timelines	3										
3.1.1.9. Use personnel systems to pull personal records	3										
3.1.1.10. Interpret and derive pertinent career information from applicable personnel records (SURF, Career Data Brief)	3										
3.1.1.11. Apply resiliency techniques	3										
3.1.2. Personnel Management (Intermediate) **Required Behaviors:** 1. Identifies near-term manning gaps and recommends COAs to decision makers 2. Assigns placement of personnel and defines roles and responsibilities to ensure mission accomplishment 3. Requests total force billets to support execution of the mission **Criteria:** *Reach of Influence: Unit/Groups*											
3.1.2.1. Analyze manpower products (UMD, AFECD, UPMR)	1										**P**
3.1.2.2. Identify near-term manning gaps	1										
3.1.2.3. Develop solutions to manning gaps	1										
3.1.2.4. Provide personnel input to relevant stakeholders	1										
3.1.2.5. Adapt roles as the mission changes	2										
3.1.2.6. Assess and allocate talent within unit to meet mission requirements	2										
3.1.2.7. Define positional roles and responsibilities in unit	2										
3.1.2.8. Manage schedules to meet mission requirements	2										
3.1.2.9. Drive and monitor subordinate readiness requirement completion and	2	**5^**								**pk**	

posture towards force presentation											
3.1.2.10. Apply manning assist process for the unit	3										
3.1.2.11. Apply IMA process for the unit	3										
3.1.2.12. Apply MPA/RPA process for the unit	3										
3.1.2.13. Apply requisition process	3										
3.1.3. Personnel Management (Advanced) **Required Behaviors:** 1. Identifies long-term manning gaps and initiates and/or recommends COAs to inform decision makers 2. Oversees placement of personnel with specialized education, experience backgrounds, or identifiers to maximize utilization and retention of talent **Criteria:** *Reach of Influence: Wing/Institutional*											
3.1.3.1. Identify and prioritize long-term manning gaps	1										
3.1.3.2. Identify and collaborate manpower challenges with the appropriate echelon or agency (MFM, Component, AFPC)	1										
3.1.3.3. Apply shortfall process appropriately	1										
3.1.3.4. Evaluate mission requirements for prioritization	1										
3.1.3.5. Leverage manpower products & processes for future needs (AFECD, UPMR, MCR, OCR)	2	7^									**pk**
3.1.3.6. Analyze second and third order effects based on career progression (Enlisted Forced Distribution Panel, separations)	2										
3.1.3.7. Identify and utilize Airmen's unique experience and background	2										

3.1.4. Personnel Management (Expert)
Required Behaviors:
1. Vectors personnel for career broadening opportunities and assignments to support mission requirements and personnel development
2. Establishes and/or disseminates career field guidance for sustainment and evolving strategic requirements
3. Programs for and prioritizes manpower to support National Security priorities

Criteria: *Reach of Influence: MAJCOM/AF-Level/Industry*

3.1.4.1. Participate in Development Boards and vector for Key Leadership and Key Developmental Positions (KLP/KDPs)	1										
3.1.4.2. Provide input in inter/intra-organizational manning moves	1										
3.1.4.3. Establish and execute strategic communication plan	2										
3.1.4.4. Organize strategic events to develop and disseminate career field guidance	2										
3.1.4.5. Leverage change management to drive evolving strategic requirements	2										
3.1.4.6. Integrate key strategic documents (NDS, Strategic Objectives, etc.) in career field's manning strategy	3										
3.1.4.7. Participate and provide inputs in Joint Manning Boards or other service-level manpower processes	3										

3.2. RESOURCE MANAGEMENT
Description: Developing, procuring, allocating, and accounting for funding & assets.

Supporting Competencies: *Accountability, Communication, Organizational Awareness, Resource Management*

TR: DAFI 38-101, DAFMAN 36-2100, AFH 33-337, DAFI 36-2110, DAFMAN 36-2689, DoD Directive 7045.14

3.2.1. Resource Management (Basic) **Required Behaviors:** 1. Identifies resource needed to execute mission requirements 2. Utilizes and operates resources appropriately to accomplish assigned duties **Criteria:** *Reach of Influence: Individuals*											
3.2.1.1. Outline resourcing requirements based on regulation, policies and intent	1										
3.2.1.2. Identify malfunctioning or unusable equipment and communicate resource needs	1										
3.2.1.3. Articulate justification for resource requests in terms of mission needs	1										
3.2.1.4. Research and prepare purchase requests	1										
3.2.1.5. Communicate requirements or deficiencies in meeting operational needs	1										
3.2.1.6. Apply proper stewardship of resources to prevent damage/fraud, waste and abuse	2										
3.2.1.7. Identify, review, and comply with applicable guidance regarding proper resource utilization	2										
3.2.1.8. Identify specific manpower, materials, and equipment needed to execute tasks	2										
3.2.1.9. Utilize entrusted government resources responsibly	2										
3.2.1.10. Identify different funding lines of accounting (O&M, sustainment, squadron innovation funds)	2										

3.2.2. Resource Management (Intermediate) **Required Behaviors:** 1. Advocates for resources to address or prevent mission degradation 2. Manages work center resources for mission execution 3. Identifies gaps to enhance mission effectiveness **Criteria:** *Reach of Influence: Work center/Specific Projects*											
3.2.2.1. Research new/additional resource options to increase mission capability/effectiveness	1										
3.2.2.2. Coordinate with internal/external organizations to reduce limitations and shortfalls of resources	1										
3.2.2.3. Advocate to leadership to resolve resource shortfalls	1										
3.2.2.4. Justify requirement using evidence-based data	1										
3.2.2.5. Review resources for proper allocation requirements	2										
3.2.2.6. Track inventory of equipment and resources to account for mission needs	2										
3.2.2.7. Acquire resources to complete mission requirements	2										
3.2.2.8. Prioritize organizational needs and execute spending effectively	2										
3.2.2.9. Solicit work center personnel for purchasing needs based on funding sources	2										
3.2.2.10. Coordinate with applicable personnel to ensure that resource projects meet regulatory requirements	2										
3.2.2.11. Guide work center personnel through finance system processes (GPC, GTC, DTS)	2										

3.2.2.12. Evaluate effectiveness of equipment and facilities for mission success and plans improvement projects	3										
3.2.2.13. Coordinate with appropriate entity to track budget cycles to identify resource shortfalls	3										
3.2.2.14. Identify unfunded requirements	3										
3.2.2.15. Develop justification for unfunded requirement	3										
3.2.2.16. Articulate and project future resource requirements with mission justification	3										
3.2.3. Resource Management (Advanced) **Required Behaviors:** 1. Secures funding to sustain efforts and eliminate resource gaps 2. Prioritizes and distributes resources for multiple projects or work centers 3. Manages resources to meet capability **Criteria:** *Reach of Influence: Squadron/Group/Wing*											
3.2.3.1. Forecast organizational resource shortfalls	1										
3.2.3.2. Advocate for HHQ funding to meet training, operational, and developmental objectives	1										
3.2.3.3. Negotiate with internal and external agencies to address funding shortfalls (total force integration, civilian over hires)	2										
3.2.3.4. Advise leadership on accountability and utilization status/shortfalls to highlight resource needs	2										
3.2.3.5. Consolidate and prioritize unfunded requirements	2										

3.2.3.6. Manage resource requirements and coordinate with lead organizations	3										
3.2.3.7. Develop and execute annual spend plan	3										
3.2.3.8. Ensure assigned personnel comply with requirements for managing resources	3										
3.2.3.9. Monitor organization's allocation of resources to meet strategic goals	3										
3.2.4. Resource Management (Expert) **Required Behaviors:** 1. Steers policy for long-range planning efforts and future concepts 2. Influences senior leaders to sustain resources or address gaps revealed by national strategy 3. Manages career field within allocated resources to meet mission demands **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*											
3.2.4.1. Participate in PPB&E steps and processes for equipment, personnel, and software required for mission	1										
3.2.4.2. Establish appropriate policy for utilization of assigned resources	1										
3.2.4.3. Draft and coordinate policy and procedures	1										
3.2.4.4. Collaborate with non-functional organizations to identify resource requirement (A1, A6, IMCOM, manpower study)	2										
3.2.4.5. Build relationships with partners (Joint, Allies, Industry) to address funding disparities to achieve desired outcomes	2										
3.2.4.6. Advocate for continued and sustained resource requirements across the enterprise	2										

3.2.4.7. Solicit and analyze AFS-wide requirements to conduct PPB&E	3										
3.2.4.8. Communicate with career field on funding concerns	3										
3.2.4.9. Explain overarching budget procedures to subordinate units	3										
3.2.4.10. Compare current capability portfolios to projected needs in accordance with national strategy	3										
3.2.4.11. Demonstrate understanding Functional Account Codes (FACs) and Program Element Codes (PECs)	3										
3.3. PROGRAM MANAGEMENT Description: The continuous improvement, sustainment, and compliance of a program. **Supporting Competencies:** *Accountability, Analytical Thinking, Communication, Initiative* **TR: AFI 25-201, DAFI 36-2110, DAFI 38-401, AFH 33-337, DAFMAN 36-2689**											
3.3.1. Program Management (Basic) **Required Behaviors:** 1. Executes program roles and responsibilities while adhering to regulations 2. Collaborates with program owner to addresses shortfalls **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*											
3.3.1.1. Use institutional programs	1	**5^**							**P**		
3.3.1.2. Manage resources to meet operational needs	1	**5^**								**P**	
3.3.1.3. Maintain compliance with applicable guidance	1	**5^**								**P**	
3.3.1.4. Maintain documentation for member roles and responsibilities	1	**5^**								**P**	
3.3.1.5. Use local unit workflows	1	**5^**									
3.3.1.6. Identify limiting factors in program execution	2	**5^**							**K**		

3.3.1.7. Communicate additional resource requirements for program execution	2	**5^**								**P**	
3.3.1.8. Communicate requirements or deficiencies to meet operational needs	2	**5^**								**P**	
3.3.1.9. Communicate program adherence requirements to stakeholders	2	**5^**								**P**	
3.3.2. Program Management (Intermediate) **Required Behaviors:** 1. Analyzes resource needs to meet program requirements 2. Monitors trends and documents lessons learned to improve effectiveness 3. Implements courses of action to resolve challenges or discrepancies **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*											
3.3.2.1. Collect and evaluate data on program performance and effectiveness	1	**5^**								**P**	
3.3.2.2. Analyze norms, goals, and requirements	1	**5^**								**pk**	
3.3.2.3. Establish or maintain process to gather feedback	2										
3.3.2.4. Analyze resource utilization needs to meet requirements	2										
3.3.2.5. Revise existing procedures	3										
3.3.2.6. Collaborate with stakeholders based upon feedback	3										
3.3.2.7. Develop new methodologies and resolutions	3										
3.3.2.8. Integrate resources to meet organizational requirements	3										
3.3.2.9. Upgrade outdated or irrelevant systems and processes	3										

3.3.3. Program Management (Advanced) **Required Behaviors:** 1. Analyzes policy to apply program guidance and directives 2. Collaborates with other program managers to achieve organizational objectives 3. Develops courses of action to resolve discrepancies **Criteria:** *Depth of Knowledge: New practices of all workplace elements*											
3.3.3.1. Ensure guidance adheres to higher level policy	1	**7^**									**P**
3.3.3.2. Establish cross-functional teams to achieve objectives	2										
3.3.3.3. Advocate for resources in relation to program requirements	2										
3.3.3.4. Use lessons learned to develop guidance	3										
3.3.3.5. Implement new organizational strategies	3										
3.3.3.6. Evaluate guidance to eliminate redundancy	3										
3.3.3.7. Evaluate previous trends to develop mitigation strategies	3										
3.3.4. Program Management (Expert) **Required Behaviors:** 1. Solves program limitations and directs revisions for organizational success 2. Creates and disseminates program guidance to meet organizational needs 3. Leads the integration of programs to achieve organizational goals **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*											
3.3.4.1. Evaluate current program's requirements and resources for future allocations	1										
3.3.4.2. Analyze limitations or capabilities to meet resource requirements	1										
3.3.4.3. Request manning and resources for new requirements	1										
3.3.4.4. Establish working group to determine creation of new policy	2										

3.3.4.5. Coordinate documentation for content review and feedback	2										
3.3.4.6. Coordinate documentation for authority concurrence	2										
3.3.4.7. Integrate program in accordance with guidance	3										
3.3.4.8. Align organizational resource requirements with strategic objectives	3										

4. DEVELOPMENT

4.1. TRAINING
Description: The process of providing the knowledge, skills, abilities, and other characteristics to develop mission ready Airmen.

Supporting Competencies: *Communication, Develops People, Information Seeking, Initiative*

TR: DAFI 15-129, DAFI 36-2685, DAFI 36-2670, AFTTP 3-4.15

4.1.1. Training (Basic)
Required Behaviors:
1. Shares knowledge to elevate quality in work center
2. Coordinates with supervisors to accomplish specific tasks, training, and goals
3. Maintains accountability of training and documentation to ensure progression

Criteria: *Reach of Influence: Individuals*

4.1.1.1. Apply feedback for increased proficiency	1	**5^**							**P**		
4.1.1.2. Demonstrate knowledge of career field and institutional progression	2	**5^**							**K**		
4.1.1.3. Plan developmental goals and milestones with supervisory chain	2									**P**	
4.1.1.4. Establish study plan with supervisor to complete training requirements	2									**P**	
4.1.1.5. Identify and utilizes personnel training records	3	**5^**								**P**	

4.1.2. Training (Intermediate)
Required Behaviors:
1. Identifies and leverages training resources to ensure Airmen have sufficient knowledge and skills
2. Implements and assesses training by using best practices to achieve objectives

Criteria: *Reach of Influence: Work centers*

4.1.2.1. Document training to meet functional and institutional requirements	1										
4.1.2.2. Identify and leverage training resources	1	**5^**								**P**	
4.1.2.3. Conduct training tailored to the individual	1										
4.1.2.4. Review and apply relevant best practices to training	2										
4.1.2.5. Evaluate training plan for required changes	2	**7^**									
4.1.3. Training (Advanced) **Required Behaviors:** 1. Manages training program by leveraging traditional and/or non-traditional training to build mission capabilities 2. Analyzes shortfalls to advocate for training resources 3. Establishes criteria and training requirements to meet operational objectives and allow for individual tradecraft progression. **Criteria:** *Reach of Influence: Squadron/Group/Wing*											
4.1.3.1. Develop training program	1	**7^**									**pk**
4.1.3.2. Research and leverage emergent training methods	1										
4.1.3.3. Manage and review training program	1	**7^**									**pk**
4.1.3.4. Analyze and communicate training shortfalls	2										
4.1.3.5. Align training priorities based on evaluation of environmental factors and emerging requirements	2										
4.1.3.6. Develop training and evaluation to maximize technical proficiency and ensure mission readiness	3										
4.1.3.7. Develop training to maximize individual progression	3	**7^**									**pk**
4.1.3.8. Develop training schedule to meet mission requirements	3	**7^**									**pk**

4.1.4. Training (Expert) **Required Behaviors:** 1. Develops training strategy to align tradecraft with strategic priorities and requirements 2. Represents Air Force equities on joint and service training working groups and panels to determine training needs **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*											
4.1.4.1. Coordinate with CFM/MFM/FAMs to identify standardized training documentation for the enterprise	1										
4.1.4.2. Develop and review formal course curriculum to ensure relevancy and accuracy	1										
4.1.4.3. Manage formal training	1										
4.1.4.4. Identify and collaborate with sister-service counterparts to exploit training synergies	2										
4.2. PROFESSIONAL DEVELOPMENT Description: A deliberate approach to develop personnel to achieve career success. **Supporting Competencies:** *Communication, Develops People, Leadership, Relationship Building* **TR: AFDP-1, DAFI 15-129, DAFI 36-2685, DAFI 36-2670, AFTTP 3-4.15, AF Foundational Resources**											
4.2.1. Professional Development (Basic) **Required Behaviors:** 1. Accepts and utilizes feedback/counseling to promote personal growth 2. Maintains accountability and encourages peer accountability to execute all duties, instructions, and responsibilities 3. Makes decisions within scope of responsibility and elevates issues by utilizing the chain of command 4. Volunteers for/or recommends personnel for professional development opportunities **Criteria:** *Consistency of Application: Sustained application of competency over time*											
4.2.1.1. Leverage feedback for self-assessment and improvement	1										
4.2.1.2. Maintain and enforce accountability	2										
4.2.1.3. Recommend process improvement to peers and supervision	3										

4.2.1.4. Describe the unit's mission, vision and priorities and relate it to work center	3										
4.2.1.5. Take initiative and make decisions within scope of responsibility	3										
4.2.1.6. Identify opportunities to fulfill leadership roles	4										
4.2.2. Professional Development (Intermediate) **Required Behaviors:** 1. Evaluates team members and provides constructive feedback to improve work center performance 2. Assigns roles of personnel to guide subordinates' professional development (primary duties, additional duties, exercises, deployments) **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*											
4.2.2.1. Build networks and partnerships to improve team effectiveness	1										
4.2.2.2. Assess talent to improve work center	1										
4.2.2.3. Integrate work center role into the mission	1										
4.2.2.4. Employ talent to guide professional growth	2										
4.2.2.5. Advocate for personnel development opportunities (training, education, primary duties, additional duties, exercises, deployments)	2										
4.2.3. Professional Development (Advanced) **Required Behaviors:** 1. Mentors and prepares personnel for future development based on individual goals 2. Advocates for opportunities and employs resources for personnel development 3. Identifies, prioritizes, and incorporates methods of development to mentor others and enhance organizational performance **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*											
4.2.3.1. Synchronize individual goals with organizational opportunities	1										
4.2.3.2. Identify, advocate, and invest resources for personnel development opportunities	2										

4.2.3.3. Mentor others to maintain objective focus after critical decisions	3										
4.2.3.4. Re-invest developed members skills into organization	3										
4.2.4. Professional Development (Expert) **Required Behaviors:** 1. Identifies, advises, and facilitates developmental opportunities to optimize career progression 2. Implements force development strategies to cultivate the force and enable decision advantage 3. Incorporates team development strategies to enhance culture and climate **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*											
4.2.4.1. Provide input to Career Field Manager regarding career-field developmental opportunities	1										
4.2.4.2. Identify career field development gaps	1										
4.2.4.3. Seek resolution to career field development gaps	1										
4.2.4.4. Build partnerships to strengthen career field	2										
4.2.4.5. Execute force development strategies	2										
4.2.4.6. Execute team development strategies to enhance culture and climate	3										
4.2.4.7. Identify and integrate effective team dynamics and behaviors	3										

Attachment 4 ABBREVIATIONS AND TERMS

Career Field Manager (CFM). A representative appointed by the respective HQ USAF Deputy Chief of Staff or Under Secretariat to ensure the AF trains and utilizes assigned AF specialties to support AF mission requirements. CFM is the Office of Primary Responsibility (OPR); however, works in concert with MAJCOM functional managers (MFMs) as required.

Department Air Force Enlisted Classification Directory (DAFECD). Directory to identify requirements and the personnel qualified to fill those requirements. Provides AFSC qualifications and skill levels, and the minimum requirements necessary to reasonably predict success in the AFS.

Air Force Job Qualification Standard/Command Job Qualification Standard (AFJQS/CJQS). A comprehensive task list describing a particular job type or duty position. Supervisors use this to document task qualification. The AFJQS/CJQS tasks are common to all persons serving in the described duty position.

Air Force Specialty (AFS). A group of positions (with the same title and code) that require common qualifications (DAFMAN 36-2689).

Air Force Specialty Code (AFSC). A combination of numbers and alpha characters to identify an Air Force specialty. Officer Air Force specialty codes consist of four characters; enlisted Air Force specialty codes consist of five characters. Alpha prefixes or suffixes are used with the numerical codes when specific identification of position requirements and individual qualifications is necessary. Refer to DAFMAN 36-2100 *Military Classification, Technical Training, and Retraining*, Table 2.1, and Table 2.2 for the explanation of codes.

Blended Learning Course. Consists of online instruction or facilitation, combined with on-site training.

Certification. The attainment of a "GO" status for a core task as outlined in the applicable Air Force Job Qualification Standard (AFJQS) or Career Field Education and Training Plan (CFETP). A "GO" signifies that an individual can successfully perform the core task to the required standard, without assistance, using only appropriate technical data or procedural guidance. This certification is documented by a designated certifier.

Core Task. Tasks the Career Field Manager identify as minimum qualification requirements for everyone within an AFSC, regardless of duty position. Core tasks may be specified for a particular skill level or in general across the AFSC. Guidance for using core tasks can be found in the applicable CFETP narrative.

Community College of the Air Force (CCAF). An accredited institution where Air Force personnel can earn an associate degree corresponding to their AFS for portions of the military training they receive.

Distance Learning (DL). Structured learning that does not require the physical presence of the instructor (DAFMAN 36-2689).

Enlisted Development Team (EDT). Provides key input on functional progression and succession planning. They execute enlisted vectoring and identify key leadership and developmental positions in their functional communities. The CFM and EDT chair collaborate with AF/A1 and Air Force Personnel Center (AFPC) on enlisted force development and management programs (DAFI 36-2670).

Interactive Courseware (ICW). Consists of online instruction or facilitation.

Joint Weather Workshop (JWW). Forum where multi-service (Air Force, Navy, and Marines) SME's determine career field training requirements and AETC training personnel identify resources to satisfy them. The process focuses on utilization issues and the development of STS line items. This is also used to draft, modify, or

approve a CFETP.

Master Task List (MTL). A comprehensive list (100%) of tasks performed within a work center, consisting of the current CFETP or AFJQS and locally developed AF Forms 797 (as a minimum). Should include tasks required for deployment and/or UTC requirements (DAFMAN 36-2689).

Qualification Training. Performance training designed to qualify an Airman who has transferred from one base or position to another specific position. The supervisor performs an initial evaluation that includes a review of all previously certified tasks checked against the newly assigned position's required tasks. Any tasks not previously completed are now required; this identifies that the member requires qualification training for the newly assigned duty position (DAFMAN 36-2689).

Readiness Training. Readiness training is designed to ensure personnel can provide weather capabilities and unit mission essential tasks in support of their assigned organization's wartime taskings. NOTE: Some wartime task training reliant on outside organizations (weapons qualification at AF installations) may not be available until tasked. Additional mission readiness training may be required for Army weather support personnel.

Specialty Training. The total training process used to qualify Airmen in their assigned specialty.

Specialty Training Requirement Team (STRT)/Utilization and Training Workshop (U&TW). Air Force career field managers use this forum and quality control tool to determine and manage career field education and training requirements (DAFMAN 36-2689).

Specialty Training Standard (STS). An AF publication describing an AFS in terms of tasks and knowledge an Airman may be expected to perform or to know. Also identifies the training provided to achieve a 3-, 5-, or 7-skill level within an AFS. It further serves as a contract between AETC and the functional user to show which of the overall training requirements for an AFSC are taught in formal schools and correspondence courses (DAFMAN 36-2689).

Standard. An exact value, a physical entity, or an abstract concept, the appropriate authority, custom, or common consent sets up and defines to serve as a reference, model, or rule in measuring quantities or qualities, developing practices or procedures, or evaluating results. A fixed quantity or quality (DAFMAN 36-2689).

Subject Matter Expert (SME). SMEs are individuals qualified to perform in a specialty and who possess the knowledge and skills to be considered an expert on a particular subject. In most instances, SMEs are NCOs with extensive training and background in their AFS.

Task Certifier or Certifier. A person whom the commander assigns to evaluate and certify an individual's ability to perform a core task to required standards. Person must be a SSgt-select or higher grade with a 5-skill level or higher or civilian equivalent and have completed the DAF Training Course (DAFMAN 36-2689).

Task Qualification. The attainment of a "GO" status for a specific task as outlined in the applicable Air Force Job Qualification Standard (AFJQS) or Career Field Education and Training Plan (CFETP). A "GO" signifies that an individual can successfully perform the task to the required standard, without assistance, using only appropriate technical data or procedural guidance. This qualification is documented by a designated trainer or supervisor.

Technical Order (TO). The Air Force Technical Order system provides clear and concise instructions for the safe and effective operation and maintenance of centrally acquired and managed Air Force military systems and end items. Equipment acquired from non-centrally managed vendors should also have guidance for the safe and

effective use of the product. These instructions may be used as training resources.

Technical Training. Training in one or more of the tasks in an AFS description conducted in formal schools, field training detachments, and through organized on-the-job training programs. Distinguished from flying, basic military, and professional training. Formal or resident technical training is conducted in an officially designated course in accordance with appropriate course charts, training standards, and training objectives.

Total Force. All collective components (active, reserve, guard, and civilian elements) of the United States Air Force.

Trainer. A qualified person, recommended by the supervisor, who teaches personnel to perform specific tasks through On-the-Job Training (OJT) methods. May also refer to a piece of equipment or mock-up used for training purposes. All trainers must attend formal Air Force Training Course.

Training Record. An official, permanent document (physical or electronic) that tracks a service member's complete history of qualifications, training completed, and job-performance capabilities.

Upgrade Training (UGT). Upgrade training identifies the mandatory courses, task qualification requirements, correspondence course completion, and time requirements for the award of the 3-, 5-, 7-, and 9-skill levels as outlined in the DAFMAN 36-2689 *Training Program* and DAFMAN 36-2100, *Military Classification, Technical Training, and Retraining.*

Unit Type Code (UTC). A unique 5-character alphanumeric code that depicts a capability focused on accomplishing a specific mission.
