Part I

Preface

1. This Career Field Education and Training Plan (CFETP) is a comprehensive education and training document that identifies life-cycle education and training requirements, training support resources, and minimum core task requirements for this specialty. The CFETP will provide personnel a clear career path to success and will instill rigor in all aspects of career field training. **NOTE:** Civilians occupying associated positions will use Part II to support duty position qualification training.

2. The CFETP consists of two parts. Supervisors plan, manage, and control training within the specialty using both parts of the plan.

2.1. Part I provides information necessary for overall management of the specialty.

2.1.1. Section A – General information explains the purpose of the CFETP and how everyone will use the plan.

2.1.2. Section B – Career Progression and Information identifies career field progression information, duties and responsibilities, training strategies, and career field path.

2.1.3. Section C – Skill Level Training Requirements associates each skill level with specialty qualifications (knowledge, education, experience, training, and other).

2.1.4. Section D – Resource Constraints indicates resource constraints (if any). Some examples are funds, manpower, equipment, and/or facilities.

2.1.5. Section E – Transitional Training identifies transition training guide requirements (if any) for SSgt through MSgt.

2.2. Part II is used by supervisors and trainers at the unit level to identify, plan, and conduct training commensurate with the overall goals of this plan.

2.2.1. Section A – Specialty Training Standard identifies the Specialty Training Standard (STS) and includes duties, tasks, technical references (TRs) to support training, Air Education and Training Command (AETC) conducted training, core tasks, and correspondence course requirements.

2.2.2. Section B – Training References contains training references. Section B is part of Section A since there are two Specialty Training Standards.

2.2.3. Section C – Job Qualification Standards contains the Job Qualification Standard (JQS) tables for the SEIs identified.

2.2.4. Section D – Course Objective List contains information about the Course Objective List (COL) and training standards supervisors will use to determine if an Airman has satisfied training requirements.

2.2.5. Section E – Support Material identifies available support materials. An example is a Qualification Training Package (QTP) that may be developed to support proficiency training requirements.

2.2.6. Section F – Training Course Index identifies a training course index supervisors can use to determine resources available to support training. Included in this section are both

mandatory and optional courses.

2.2.7. Section G – MAJCOM Unique Requirements identifies Major Command (MAJCOM) unique training requirements supervisors can use to determine additional training required for the associated qualification needs. Training for Air Reserve Component (ARC) personnel are identified in this section.

2.2.8. Section H – Documentation of Training outlines the format and documentation required to maintain a MyTraining Record.

3. Using guidance provided in the CFETP will ensure individuals in this specialty receive effective and efficient training at the appropriate points in their career. This plan serves as a training tool to enable our Health Services Managers to accomplish current mission requirements in garrison and during contingency operations.

Abbreviations/Terms Explained

Air Education and Training Command (AETC). Conducts basic training for all Air Force (AF) enlisted personnel, produces skilled flying and ground personnel, and trains many of the world's military forces. Along with basic military and technical training, AETC provides other types of training, such as aircrew transitional, special, advanced, lateral, and survival training.

Air Force Career Field Manager (AFCFM). The Air Force focal point for the designated career field within a functional community. Serves as the primary advocate for the career field, addresses issues and coordinates concerns across functional communities. Responsible for developing, updating, and maintaining career field policies and regulations.

Air Force Force Generation (AFFORGEN). Is a predictable, sustainable force generation model focused on the high-end fight with a 1:3 deploy-to-dwell ratio. Under the AFFORGEN model, Airmen will train together before deploying together. AFFORGEN is a transition from crowd-sourced custom packages to standardized Force Elements which enables risk articulation to the Joint Force.

Air Force Job Qualification Standard/Command Job Qualification Standard (AFJQS/CJQS). A comprehensive task list describing a particular job type or duty position. Supervisors use these to document task qualifications. The tasks on AFJQS/CJQS are common to all persons serving in the described duty position.

Air Force Medical Home (AFMH). The Air Force Medical Home (AFMH) model is established in the Family Health, Pediatric and Internal Medicine clinics across the Air Force Medical Service. Delivers highest quality, evidence- based, patient-centered care to enrolled patients through team-oriented processes, good access, high continuity, communications, prevention, education, and coordinated management of disease. This approach is employed to ensure operational readiness and operational health of military members and beneficiaries.

Air Force Specialty (AFS). A group of occupations (with the same title and code) that require common qualifications.

Air Reserve Component (ARC). The Air Reserve Component consists of the Air Force Reserve and Air National Guard services.

Ambulatory Data Module (ADM). Automated information system designed to capture and report patient encounter data at the International Classification of Diseases, Clinical Modification

(ICD-CM) and Current Procedural Terminology (CPT) code detail.

Armed Forces Health Longitudinal Technology Application (AHLTA). AHLTA is a clinical information system that generates, maintains, stores, and provides secure electronic access to patient records. This technology contains enhancements based on user requests and lessons learned, pediatric growth charts and vital signs, obstetrics summary views, coding support, and a workflow of telephone consults. Additionally, AHLTA allows users to manage and configure default templates and problem lists. **NOTE:** The DoD is in the process of modernizing the Electronic Health Record. AHLTA is being phased out in lieu of MHS GENESIS.

Associate, Career Field Manager (ACFM). Serves as the subject matter expert and primary advocate for their assigned functional community. Addresses issues and coordinates functional concerns across Military Treatment Facilities, Major Commands and other support organizations. Establishes training programs, developmental opportunities, and program initiatives for 4A0s in their respective areas of responsibility.

Career Development Course (CDC). These self-study courses help Airmen complete the specialty knowledge portion of the dual-channel concept for the enlisted training program. Airmen must complete career development courses successfully at various stages to advance in their careers. Career development courses are also available on a voluntary basis for career broadening.

Career Field Education and Training Plan (CFETP). A CFETP is a comprehensive core training document identifying Life-cycle education and training requirements, training support resources, and minimum core task requirements. The CFETP aims to give personnel a clear career path and instill career field training to our health services managers.

Certification. A formal indication of an individual's ability to perform a task from the job qualification standards.

Comprehensive Medical Readiness Program (CMRP). Recurring training necessary to maintain skills of a fully qualified individual to adequately perform the mission and related duties required in peacetime and wartime. The CMRP program is outlined in AFI 41-106, *Medical Readiness Program*, Chapter 4.

Computer-Based Training (CBT). Training accomplished via computer.

Core Task. A task AFCFMs identifies as minimum qualification requirements within an Air Force Specialty Code (AFSC), regardless of duty position.

Course Objective List. A publication, derived from initial/advanced skills course training standard, identifying the tasks and knowledge requirements, and respective standards provided to achieve a 3-5-7-skill level in this career field. Supervisors use the course objective list to assist in conducting graduate evaluations in accordance with DAFMAN 36-2689, *Training Program*.

Current Procedural Terminology (CPT) Coding. Standardized numeric codes assigned to every task and service a medical practitioner may provide to a patient including medical, surgical, and diagnostic services. The codes are used by insurers to determine the amount of reimbursement a practitioner will receive by an insurer. The standardization of these codes throughout both governmental and private sector ensures uniformity.

Defense Medical Human Resources System internet (DMHRSi). A web-based human resource management system that provides ready access to essential manpower, personnel, labor

cost assignment, education and training, and readiness information for the Military Health System (MHS), Defense Health Agency and command leadership.

Disability Evaluation System (DES). The DoD program for determining fitness for duty, separation, or retirement of Service members because of disability. The DES process contains the Medical Evaluation Board (MEB), and Physical Evaluation Board (PEB). Service members are processed through the Legacy Disability Evaluation System (LDES) or Integrated Disability Evaluation System (IDES).

Education and Training Course Announcement (ETCA). Contains specific MAJCOM procedures, fund cite instructions, reporting instructions, and listings for formal courses conducted or managed by the MAJCOMs or field operating agencies (FOAs). The ETCA contains courses conducted or administered by the AF and Reserve forces and serves as a reference for the AF, Department of Defense (DoD), other military services, government agencies, and security assistance programs. ETCA can be accessed through the Air Force Portal.

Electronic Health Record (EHR). MHS GENESIS is the Department of Defense's new electronic health record (as of 2023). When fully deployed, MHS GENESIS will provide the DOD's 9.6 million beneficiaries and 205,000 medical providers with a single, integrated health record across the continuum of care – deployed and at home and eventually, through the transition to the Department of Veterans Affairs. MHS GENESIS is replacing the Armed Forces Health Longitudinal Technology Application (AHLTA).

Enlisted Specialty Training. A mix of formal training (technical school) and informal training (on-the job) to qualify and upgrade Airmen in each skill level of a specialty.

Exceptional Family Member Program (EFMP). A process to identify eligible US Air Force (USAF) families with special medical and/or education requirements and helps those families obtain required support services. The process ensures families have access to necessary services upon reassignment, whether CONUS or OCONUS.

Health Informatics. A discipline at the intersection of information science, computer science, and health care. It incorporates resources, devices, and methods required for optimizing the acquisition, storage, retrieval, and use of information in health and biomedicine settings.

Health Insurance Portability and Accountability Act (HIPAA). This is Public Law enacted 21 August 1996. The purpose of the Act is to improve the portability and continuity of health insurance coverage, improve access to long term care services and to simplify the administration of healthcare. A primary component of HIPAA is the protection and privacy of individually identifiable health information. To comply with the HIPAA Privacy Rule, the DoD established regulation, DoD Manual 6025.18, *Implementation of the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule in DoD Health Care Programs*, to implement the requirements throughout the DoD medical health system.

Initial Skills Training. A formal resident course resulting in award of the entry level apprenticeship.

Integrated Disability Evaluation System (IDES). A joint program between the DoD and the Department of Veterans Affairs (VA) designed to ensure seamless transition for DoD wounded, ill or injured personnel regarding care, benefits, and services in the VA system.

International Classification of Disease-Clinical Modification (ICD-CM). Designed for the

classification of morbidity and mortality information for statistical purposes, and for indexing hospital records by disease and operations for data storage and retrieval.

Interactive Courseware. Computer-controlled training designed for student interaction with the learning environment through input devices such as keyboards and light pens. The student's decisions and inputs to the computer determine the level, order, and pace of instructional delivery.

Legacy Disability Evaluation System (LDES). A DES program by which DoD determines whether eligible wounded, ill, or injured service members are fit for continued military service and determines appropriate benefits for service members who are separated or retired for disability.

Major Command (MAJCOM) Functional Manager (MFM). A person appointed by their respective Command Surgeon as the senior representative for an AFS within a specific MAJCOM. Among other responsibilities, the MFMs work with AFCFM to develop, implement, and maintain the CFETP.

Master Task List (MTL). A comprehensive list of all tasks performed within a work center, consisting of items from the current CFETP and AFJQS and locally developed AF Form 797, *Job Qualification Standard Continuation/Command JQS* (as a minimum). This should include completing tasks required for deployment and/or Unit Type Codes (UTC) requirements.

Master Training Plan (MTP). Employs a strategy for ensuring the completion of all work center job requirements by using a MTL and provides milestones for task, CDC completion, and prioritizes deployment/UTC, upgrade, and qualification tasks.

Medical Information Systems (MIS). The functional area which handles computer systems, local area and wireless network connectivity, software and medical application support, network and information system security and information management training within our MTF. Also includes management of video services and telecommunication activities."

Medical Information Technology. The dynamic interaction of information management and technological systems designed to meet the needs of a medical business enterprise.

Medical Education & Training Campus (METC). Is a tri-service campus located on Fort Sam Houston, Texas in the City of San Antonio, TX. METC is a state-of-the-art Department of Defense (DoD) healthcare education campus that trains enlisted medical personnel.

Medical Readiness Decision Support System-Unit Level Tracking and Reporting Application (MRDSS-ULTRA). A computer system used to display the percentages of readiness capability for assigned UTCs; view materiel information; and update readiness personnel, training, and deployment information.

Military Medical Treatment Facility (MTF). A) any fixed facility of the Department of Defense that is outside of a deployed environment and used primarily for health care; and (B) any other location used for purposes of providing health care services as designated by the Secretary of Defense.

MyTraining. A hierarchical web-based system used to monitor enlisted training. The system provides the trainee, supervisor, and functional manager access to virtual training products, such as the CFETP and AFJQS. Additionally, supervisors and the functional managers can create individual training plans and document upgrade training.

No Go. Term used to describe that a trainee has not gained enough skill, knowledge, and experience to perform the task without supervision.

Occupational Survey Report (OSR). A detailed report showing the results of an occupational survey of tasks performed within a particular AFS.

Occupational Analysis (OA). Collecting and analyzing factual data on the tasks and/or knowledge performed by Air Force career fields. This data is used to provide personnel and training decision-makers with factual and objective job information which enables them to justify and/or change personnel utilization policies and programs, refine, and maintain occupational structures, and establish, validate, and adjust testing and training programs.

On-the-Job Training (OJT). Hands-on, over-the-shoulder training conducted to certify personnel in both upgrade (skill level award) and job qualification (duty position certification) training.

Primary Care Management (PCM) Team. The patient treatment concept based on health care teams comprised of providers, nurses, medical technicians, and health services managers assigned to a specific patient population.

Program Objective Memorandum (POM). A part of the programming phase in the Planning, Programming, Budgeting and Execution process. It is created to develop balanced, capability-based programs. The POM is vetted through a budget review and provides adjustments to programs which are approved by AF/SG to the Office of the Secretary of Defense (OSD).

Proficiency Code. An alpha/numeric code assigned to a subject knowledge, task knowledge or task performance level.

Proficiency Training. Additional training, either in-residence, exportable advanced training courses, or OJT, provided to personnel to increase their skills and knowledge beyond the minimum required for upgrade.

Qualification Training (QT). Actual hands-on task performance training designed to qualify an individual in a specific duty position. This portion of the dual channel OJT training program occurs both during and after the upgrade training process. It is designed to provide the performance skills required to do the job.

Resource Constraints. Resource deficiencies, such as money, facilities, time, manpower, and equipment precluding desired training from being delivered.

Skills Training. A formal course resulting in the award of a skill level.

Specialty Training Requirements Team (STRT). Team comprised of AFCFM, MFMs, and Subject Matter Experts (SME) who determine current training requirements to the AETC Training Pipeline Manager and Course Training Manager.

Specialty Training Standard (STS). An Air Force publication describing skills and knowledge Airmen in a particular AFS need on the job. It further serves as a contract between the Air Education and Training Command and the user to show the overall training requirements for an AFSC the formal schools teach.

Total Force. All collective Air Force components (active, reserve, guard, and civilian elements) of the United States Air Force.

Transportation Command (TRANSCOM) Regulating and Command & Control (C2) Evacuation System (TRAC2ES). An automated information system that tracks and coordinates movement of eligible beneficiaries and service members for higher level of care within the military's network of healthcare facilities around the world, during both war and peacetime.

Trainer. A trained and qualified person who teaches Airmen to perform specific tasks through OJT methods. Also, the trainer uses equipment to teach Airmen specified tasks.

Training Platforms (TP). Courses, CBT, and other methods of training for specific job training.

Unit Type Code (UTC). A five-character alpha/numerical code that uniquely identifies each type of unit in the Armed Forces.

Upgrade Training (UGT). Mandatory training leading to attainment of a higher level of job proficiency.

Utilization and Training Workshop (U&TW). A forum of AFSC MAJCOM Functional Managers (MFMs), subject matter experts (SMEs), and AETC training personnel who determine the career ladder training requirements.

Section A – General Information

1. Purpose of the CFETP. This CFETP provides information necessary for the AFCFM, MFMs, commanders, training managers, supervisors, trainers, and certifiers to plan, develop, manage, and conduct an effective career field training program. The plan outlines the training that individuals in the 4A0X1 specialty should receive to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, advanced, and proficiency training.

1.1. Initial Skills Training is the AFS specific training an individual receives upon entry into the Air Force or upon retraining into this specialty for award of the 3-skill level. For this AFSC, training is conducted by the Medical Education and Training Campus (METC) at Fort Sam Houston, TX.

1.2. Upgrade Training identifies the mandatory courses, task qualification requirements, and correspondence course completion requirements for award of the 5, 7 and 9-skill levels.

1.3. Qualification Training is actual hands-on task performance training designed to qualify an Airman in a specific duty position. This training program occurs both during and after the upgrade training process. It is designed to provide the performance skills/knowledge required to do the job.

1.4. Proficiency Training is additional training, either in-residence or online web based advanced training courses, or OJT, provided to personnel to increase their skills and knowledge beyond the minimum requirements for upgrade.

1.5. The CFETP has several purposes:

1.5.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field training program. Also, it helps supervisors identify training at the appropriate point in an individual's career.

1.5.2. Identifies task and knowledge training requirements for each skill level in the specialty

and recommends education/training throughout each phase of an individual's career.

1.5.3. Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

1.5.4. Identifies major resource constraints that impact full implementation of the desired career field training program.

2. Uses of the CFETP. The plan will be used by MFMs and supervisors at all levels to ensure comprehensive and cohesive training programs are available for everyone in the specialty.

2.1. Each Service branch owns its training requirements. Therefore, in joint effort with designated tri-service representatives METC personnel will develop and revise formal training requirements and initial skills training to users. Requirements are documented in Part II of the CFETP. AETC training personnel will develop/revise non-resident, field, and online training.

2.2. MFMs will ensure their training programs complement the CFETP mandatory initial, upgrade, and proficiency requirements. Requirements are satisfied through OJT, resident training, contract training, or online courses. MAJCOM developed training to support functions within this AFSC must be identified for inclusion into this CFETP.

2.3. Unit Training Managers (UTM) and supervisors manage and control progression through the career field by ensuring individuals complete the mandatory training requirements for upgrade specified in this CFETP and supplemented by their MAJCOM. The lists of courses in Part II will be used as a reference to support training.

3. Coordination and Approval. The CFM is appointed to develop, implement, and maintain the CFETP. The CFM coordinates through the Training Pipeline Manager (TPM) before submitting the CFETP or any changes to AF/SG 1/8 for publication. Also, the CFM will initiate an annual review of the CFETP by AETC and SMEs to ensure currency and accuracy. Using the list of courses in Part II, they will eliminate duplicate training. They will submit, through proper channels, initial and subsequent changes to the CFETP. Coordination processes are outlined in DAFMAN 36-2689, *Training Program*, Attachment 4.

Section B – Career Progression and Information.

1. Specialty Description. The following information incorporates the latest changes to the Air Force Enlisted Classification Directory (AFECD) located on the Air Force Portal (Type 'Enlisted Classification Directory' in the search block).

1.1. Duties and Responsibilities:

1.1.1. Clinic Duties (Front Desk Clerk). Greets the patient and verifies appointment, identity, and eligibility. Checks-in patient for scheduled visits. Obtains/verifies Third Party Collection information and Notice of Privacy Practices acknowledgement. Verifies patient secure messaging enrollment. Promotes secure messaging tools to patients. Identifies patients assigned to Personnel Reliability Assurance Program, Presidential Support Duty, and FLY programs. Verifies and updates patient demographics. Determines if the visit is accident or injury-related and documents accordingly. Provides patient with required paperwork and clinic instructions and manages patient flow. Answers telephone calls using proper etiquette. Schedules follow-up appointments as required. Tracks, or assists with tracking, diagnostic results, and routes to appropriate health care provider. Provides hard copy results or enters telephone consult to appropriate staff members. Displays patient appointments. Requests and recharges patient

records. Generates provider rosters. Adds patients to wait list and modifies wait list requests. Completes Individual Medical Readiness (IMR) check, as appropriate. Provides overall customer service. Assists Office Manager and Group Practice Manager (GPM) as needed.

1.1.2. Clinic Duties (Medical Office Manager). Assists the GPM with identifying and managing clinic capacity and demand by utilizing historical workload data. Assists GPM in developing and maintaining provider templates. Inputs appointment templates and schedules into the Electronic Health Record. Supports biometric data analysis/medical informatics, utilizing applicable reports and web-based tools. Coordinates patient referrals with the Referral Management Center (RMC) as required. Obtains referral reports from the RMC and routes to the appropriate health care provider. Contacts and schedules patients requiring preventative health visits in coordination with Health Care Integration (HCI) and clinic team members. Assists clinical staff in maintenance of preventative health databases for clinic populations. Performs end-of-day processing. Coordinates required documentation with appropriate clinical and support functions. Assists the Resource Management Office (RMO) with auditing Third Party Collections and coding activities to ensure maximum reimbursement. May supervise, rate and train front desk personnel, as appropriate.

1.1.3. Informatics. Analyzes, evaluates, advises, and ensures the validity, completeness and accuracy of healthcare data collected by automated systems used by the Military Health System. Additionally, serves as the primary clinic interface for data quality initiatives, clinic audits (records, coding, insurance, etc.) and other administrative processes as related to data integrity, quality, and collection. Performs review and research of DoD, Air Force Medical Service (AFMS) and web-based guidance for data quality and business rule compliance. Assists with quantitative and qualitative analysis, trending, projections, and forecasting on patient demographics, clinical data, and patient/provider utilization data from multiple automated information sources. Assists in analysis/trending, and data validation of business clinical healthcare data for process improvements and DoD workload compliance. As directed, will report data information to MTF leadership, Air Force Medical Agency (AFMED), Defense Health Agency (DHA) or any other Air Force medical supporting agencies, as appropriate.

1.1.4. Medical Information Systems (MIS). Performs and manages medical information technology functions and activities. Requests and documents technical assistance through the Global Service Center (GSC). Executes cyber security principles by protecting systems, networks, and programs from digital attacks. Manages hardware and software activities. Monitors information technology security programs. Performs "touch maintenance" and other customer support activities. Deploys, sustains, troubleshoots, and repairs standard voice, data, video network, radio maintenance, and cryptographic client devices in-garrison and in deployed environments. Sustains and operates systems through current troubleshooting methodologies, repair, and system performance analysis. Oversees service level agreements with communication support agencies. **Note:** Must be 3 level for Shred, return to career field at SMSgt.

1.1.5. Commander Support Staff (CSS). Provides exceptional customer service to Total Force Members and their families. Administers key and essential programs for Unit Commanders, First Sergeants. These programs include but are not limited to personnel action changes, duty status updates, evaluations, decorations, maintain Personnel Information Files (PIF), in-processing, out-processing, Drug Demand Reduction (DDR) program, Government Travel Card (GTC) program, leave program, and the reenlistment/extension program.

1.1.6. Personnel Reliability Assurance Program (PRAP). Provides support to the MTF/CC, MTF/SGP, Administrative Qualification Cell (AQC), and Competent Medical Authority (CMA) in administering the PRAP. Identifies the potential impact of medical conditions in relation to reliability standards and Suitability Factors (SF). Documents SFs within Electronic Health Record and may assist the CMA in making health notifications to the Certifying Official (CO)/unit/CC. Ensures all MTF personnel receive initial and refresher training and is documented. Reconciles the installation's Personnel Reliability Program (PRP) roster with health records maintained within the MTF. **Note:** Member should perform in the position for minimum length of time as outlined in PRAP AFMAN 13-501 unless waived by the Wg/CC.

1.1.7. Medical Readiness. Performs duties as the Unit Deployment Manager. Manages Unit Type Codes (UTCs) and ensures assigned personnel are appropriately trained and equipped, through coordination of deployment activities. Ensures publication and currency of unit plans and provides input to wing plans through the Medical Contingency Response Plan (MCRP), Installation Emergency Management Plan 10-2 Disease Containment Plan, Installation Deployment Plan, etc. Serves as the Medical Readiness Decision Support System Unit Level Tracking and Reporting Application (MRDSS-ULTRA) system administrator and monitors reports. Prepares, briefs, and submits classified readiness reports Conducts, coordinates, schedules, tracks, and documents medical readiness training. Liaises with Medical Logistics on War Reserve Materiel in relation to deployability. Establishes and augments the Medical Control Center. Provides training on managing classified material, utilizing communication devices, logging events, and after-action reports. Supports Installation Medical All Hazards Response (IMAHR) Team Chiefs, UTC Team Chiefs and AFSC Functional Managers with Comprehensive Medical Readiness Programs (CMRP).

1.1.8. Resource Management Office (RMO). Compiles information, financial statements, subsistence accounting, and prepares statistical reports. Performs market analysis and business-case analysis. Oversees Uniform Business Office (UBO) programs to include Third Party Collection (TPC) activities, Medical Affirmative Claims (MAC) and Medical Service Account (MSA) program management. Assists in manpower surveys and developing manpower standards. Analyzes workload and cost data to validate manpower requirements and develops adjustments and projections to support clinical or mission changes. Maintains the Unit Manpower Document (UMD), Unit Personnel Management Roster (UPMR) and ensures accurate requirements, funding, and the correct assignment of personnel. Identifies staffing shortages and coordinates permanent or temporary assignment actions. Collects, maintains, prepares, and analyzes Medical Expense and Performance Reporting Systems (MEPRS) data or comparable workload accounting system. Utilizes timesheet tracking program, DMHRSi. Prepares budget estimates and financial plans. Monitors expenditures and obligations, analyzes financial reports and accounting and workload reporting procedures and conducts internal audits. Collects and compiles Data Quality (DQ) information and reports data via approved platform. Coordinates Memorandums of Understanding (MOU), Memorandums of Agreement (MOA), Support Agreements and Training Affiliations.

1.1.9. Aeromedical Evacuation (AE). May be assigned to En-Route Patient Staging System (ERPSS), Expeditionary Medical Support (EMEDS), Theatre Patient Movement Requirements Center (TPMRC) or AE Squadron. Duties may include AE Support Personnel, Duty Controller, AE Patient Movement Clerk, or AE Patient Movement Controller. Coordinates and prepares patient movement, enplanes/deplanes patient, creates patient manifest, launches, and recovers

missions. Utilizes TRANSCOM Regulating and Command and Control Evacuation System (TRAC2ES) to validate and review patient movement records, patient manifests, in-transit visibility, and patient loads for each mission. Tracks mission number, aircraft assignment, real-time mission tracking via Global Decision Support System (GDSS) and the Single Mobility System (SMS).

1.1.10. TRICARE Operations and Patient Administration (TOPA). Serves as interface between the MTF, TRICARE Regional Office, MAJCOM, Air Force Medical Agency (AFMED), and Defense Health Agency (DHA) for healthcare management. Optimizes healthcare delivery for enrolled beneficiaries and supports MTF operating budget execution. Manages TRICARE Prime patient travel, and referrals. Directs Beneficiary Counseling Assistance Coordinator operations and debt resolutions. Manages Secretarial Designee Program (SECDES). Validates travel entitlements for beneficiaries requiring care from OCONUS/ CONUS MTFs and civilian facilities. Medical liaison for Line of Duty programs. Directs supplemental & emergency medical care programs to ensure access to quality, timely and cost-effective care. Plans, supervises, and leads admissions and disposition (A&D) activities. Maintains, safeguards, transfers, files, retires, and inventories medical records. Prepares Service Treatment Records, manages in/out-processing program. Completes Release of Information (ROI) requests. Research and files documentation in medical records utilizing EHR system. Maintains patient privacy standards by enforcing policies in accordance with HIPAA. Completes Lifetime Pharmacy Encounter (LPE) requests. Administers the organ donor program and the tumor registry program.

1.1.11. Disability Evaluation System (Physical Evaluation Board Liaison Officer [PEBLO]). Serves as liaison between the MTF, Unit Commanders, Service Member, Next of Kin (NOK), Department of Veterans Affairs (VA), Air Force Personnel Center (AFPC), Military Personnel Section (MPS), Office of Disability Counsel (ODC), Recovery Care Coordinator (RCC) and the Military Airman and Family Readiness Center (M&FRC). Provides guidance in accordance with regulations related to Integrated Disability Evaluation System (IDES), Legacy Disability Evaluation System (LDES), Temporary Disability Retired List (TDRL), Permanent Disability Retired List (PDRL) and Limited Assignment System (LAS). Collects and prepares medical records and other related documents required for the Medical Evaluation Board (MEB) and Physical Evaluation Board (PEB). Coordinates Line-of-Duty (LOD) requirements. Advises the service member on pre-separation counseling resources. Monitors patient appointing, Veteran's Tracking Application (VTA), status of case management between the VA and AFPC. Assists in appeals preparation, impartial medical reviews, rebuttals, medical hold, and non-emergent surgery requests. Processes Review-in-Lieu-of (RILO) cases for assignment limitation codes. Attends and tracks cases at the Airman Medical Readiness Optimization (AMRO) Board and Deployment Availability Working Group (DAWG).

1.1.12. Special Needs Technician (SNT). This position may be filled by any enlisted 4XXXX AFS. Initiates basic case management procedures and conducts screening interviews with EFMP families to determine need for enrollment, resources, and services. Ensures completion of appropriate documents to include AF Form 1466D, Dental Health Summary, DD Forms 2792, 2792-1 Exceptional Family Member Medical and Education Summaries, as applicable, and any other pertinent documentation. Coordinates with local Military Personnel Flight to update the Assignment Limitation Code “Q” to the sponsors of newly enrolled families. Utilizes various computer software programs in researching, networking, and/or exchanging information and

establishing case files for EFMP records. Provides formal training to healthcare personnel and providers on EFMP screening and enrollment procedures. Transfers and closes necessary case files as families undergo Permanent Change of Station, separate, or retire from the Air Force (or sister services), or when the special need no longer exists.

2. Enlisted Deliberate Development. Occurs through the guidance, direction, and execution of Functional Advisory Councils (FAC) and Enlisted Development Teams (EDT). Through FACs and EDTs, enlisted career field leadership executes planning and succession planning to ensure Air Force specialties are effectively equipped, developed, and sustained to provide the required capabilities to accomplish the mission. Succession planning is the responsibility of EDTs and entails identifying Key Developmental Positions (KDPs), and Key Leadership Positions (KLPs).

2.1. FACs. Prepare senior leaders with a comprehensive understanding of functional, cross-functional and institutional personnel requirements pertaining to a particular career field and advises on management strategies to sustain and improve capabilities.

2.2. Enlisted Development Team (EDT). Provide vectors based on projected (or anticipated) aggregated requirements by grade, level, and position type. A vector is an EDT's collective recommendation for an experience level, training or education opportunity, or position type for an Airman's next or subsequent assignment. EDTs ensure a career field's senior leadership becomes familiar with Airmen assigned to their functional area and assesses Airmen's qualifications and potential for future opportunities. EDTs must be executed in the most cost-efficient manner possible. This includes taking full advantage of remote capabilities, conducting EDTs in conjunction with other scheduled meetings, and minimizing the need for AFPC support and resources to execute EDTs. The D-Prefix denotes all Key Developmental Positions (KDPs) and Key Leadership Positions (KLPs) that are not Readiness Planner positions. Readiness Planner positions are identified with a R-Prefix., The D and R-Prefixes are located on the Unit Manning Document which indicates a vectored position.

2.3. KDPs. Are used to complement leadership qualifications. These positions are utilized to provide experience necessary for KLPs that may not be gained through the normal assignment system.

2.4. KLPs. Are defined as a unique, "no-fail" position with distinguishing responsibilities and education, training, experience, or performance requirements that cannot be realized through normal progression planning and may not be prevalent in most of the career field. These positions are not to be confused with specially designated functional positions such as Key Nuclear Billets, although those billets may also be defined as KLPs.

2.5. Recommended 4A0X1 Rotation Schedule (exceptions may apply). To ensure appropriate career broadening opportunities, table 2.5 below is a recommended rotation schedule for 4A0s working at an MTF. Deviations may be required to meet the specific mission requirements of each facility.

Work Center	Rank	Recommended Rotation
Aeromedical Evacuation (AE)	AB – SrA	18 Months
	SSgt – TSgt	36 Months
	MSgt – SMSgt	24 Months
Clinic/Ancillary Administrative Support	AB – SrA	24 Months
	SSgt – TSgt	24 Months
Medical Information Systems (MIS)	A1C – MSgt	Indefinite
Informatics/Medical Office Management	SrA – TSgt	24 Months
	MSgt – SMSgt	24 Months
Medical Readiness	SrA – SSgt	24 Months
	TSgt – SMSgt	36 Months
Commander Support Staff	A1C – SrA	24 Months
	SSgt – TSgt	24 Months
Personnel Reliability Assurance Program (PRAP)	AB – SrA	24 Months
	SSgt – TSgt	24 Months
	MSgt – SMSgt	36 Months
Disability Evaluation System (DES)	AB – SrA	24 Months
	SSgt – TSgt	24 Months
	MSgt – SMSgt	24 Months
Resource Management	AB – SrA	24 Months
	SSgt – TSgt	36 Months
	MSgt – SMSgt	48 Months
TRICARE Operations and Patient Administration	AB – SrA	24 Months
	SSgt – TSgt	24 Months
	MSgt – SMSgt	24 Months

Table 2.5, Recommended 4A0X1 Rotation Schedule

3. Skill level and career progression. Adequate training and timely progression from the apprentice through the superintendent skill level play an important role in the AF's ability to accomplish its mission. It is essential everyone involved in training must do their part to plan, manage, and conduct an effective training program. The guidance provided in this part of the CFETP will ensure everyone receives viable training at appropriate points in their career.

3.1. Skill level descriptions.

3.1.1. Apprentice (3-Skill Level).

3.1.1.1. 4A031. Non-prior service and ARC students in this specialty will complete the Health Services Management Apprentice course in-residence at METC for award of the 3-skill level. Waivers for this requirement will be handled on a case-by-case basis by the 4A0X1 Career Field Manager and 4A0X1 ARC representative. The apprentice will enter UGT using CDCs and task qualification training to progress in the career field. Once certified on a task, the apprentice may

perform the task unsupervised. NOTE: Expedited transfers, short notice retrainees and humanitarian assignment members will receive initial skills and upgrade training via OJT and units will contact their respective command 4A0X1 Functional Manager for alternative training plan for these members. However, if seats are available, course attendance is recommended, and is funded by the member's unit.

3.1.1.2. 4A031S. Non-prior service and ARC students in this specialty will complete the Health Services Management Apprentice course in-residence at METC for award of the 3-skill level. Waivers for this requirement will be handled on a case-by-case basis by the 4A0X1 Career Field Manager and 4A0X1 ARC representative. The apprentice will enter UGT using CDCs and task qualification training to progress in the career field. Once certified on a task, the apprentice may perform the task unsupervised. NOTE: Expedited transfers, short notice retrainees and humanitarian assignment members will receive initial skills and upgrade training via OJT and units will contact their respective command 4A0X1 Functional Manager for alternative training plan for these members. However, if seats are available, course attendance is recommended, and is funded by the member's unit. Members will also have 9 months to attain an appropriate level of certification from DoDI 8140.

3.1.2. Journeyman (5-Skill Level).

3.1.2.1. 4A051. Individuals must successfully complete the 5-skill level CDC before being upgraded. Once upgraded, Journeymen may complete the Air Force Training Course and be appointed as a unit trainer. They will also enter continuation training to gain breadth of experience. Journeymen will typically attend Airman Leadership School (ALS) when selected for promotion to Staff Sergeant or as determined by local installation class availability. After ALS, Journeymen can perform duties as supervisors. To enhance their skills, they are encouraged to continue their education toward a Community College of the Air Force (CCAF) degree and complete a specialty certification to enhance their skills and value as a 4A0.

3.1.2.2. 4A051S. Individuals must successfully complete the 5-skill level CDC before being upgraded. Once upgraded, Journeymen may complete the Air Force Training Course and be appointed as a unit trainer. They will also enter continuation training to gain breadth of experience. Journeymen will typically attend Airman Leadership School (ALS) when selected for promotion to Staff Sergeant or as determined by local installation class availability. After ALS, Journeymen can perform duties as supervisors. To enhance their skills, they are encouraged to continue their education toward a Community College of the Air Force (CCAF) degree and complete a specialty certification to enhance their skills and value as a 4A0. Members will also have 9 months to attain an appropriate level of certification from DoDI 8140.

3.1.3. Craftsman (7-Skill Level).

3.1.3.1. 4A071. Members selected for promotion to Staff Sergeant will enter 7-level upgrade training on the first day of the promotion cycle. A craftsman must successfully complete the 7-skill level CDC(s) before upgrade. Once upgraded, a craftsman can expect to fill various supervisory and management positions, such as Non-Commissioned Officer in Charge (NCOIC), Flight Chief, supervisor, Program Manager, and task trainer or certifier. Craftsman typically will attend the Noncommissioned Officer Academy (NCOA) after selection for promotion to Technical Sergeant. Continued academic education through CCAF and higher degree programs is encouraged.

3.1.3.2. 4A071S. Members selected for promotion to Staff Sergeant will enter 7-level upgrade training on the first day of the promotion cycle. A craftsman must successfully complete the 7-skill level CDC(s) before upgrade. Once upgraded, a craftsman can expect to fill various supervisory and management positions, such as Non-Commissioned Officer in Charge (NCOIC), Flight Chief, supervisor, Program Manager, and task trainer or certifier. Craftsman typically will attend the Noncommissioned Officer Academy (NCOA) after selection for promotion to Technical Sergeant. Continued academic education through CCAF and higher degree programs is encouraged. Members will also have 9 months to attain an appropriate level of certification from DoDI 8140.

3.1.4. Superintendent (9-Skill Level). Before attaining the 9-skill level, individuals must be promoted to Senior Master Sergeant. A superintendent can expect to fill positions such as Flight Chief, Senior Enlisted Leader, Functional Manager (FM), and various staff positions. Superintendents typically will attend Senior NCOA after selection for promotion to Senior Master Sergeant. Additional training in the areas of resources, leadership skills, and management should be pursued through continuing education. Completion of higher degree programs is highly recommended.

3.1.5. Chief Enlisted Manager (CEM) 4A000. Awarded after promotion to Chief Master Sergeant. A CEM can expect to fill positions such as Functional Manager at various command levels, Group or Squadron Senior Enlisted Leader. Additional training in the areas of resources, leadership skills, and management should continue. Completion of higher degree programs is highly recommended.

3.2. Proficiency Training. Any additional knowledge and skill requirements, which were not taught through initial skills, supplemental, or upgrade training. The purpose of the continuation-training program is to provide additional training exceeding minimum upgrade training requirements with emphasis on present and future duty positions. MFMs and MTF FM must develop a continuation-training program that ensures individuals receive the necessary training at the appropriate point in their career. The training program will identify both mandatory and optional training requirements. AETC will assist in this continuation training development wherever possible, by providing instructional system design/development expertise and media selection options. MFMs and MTF FMs are highly encouraged to seek out proficiency training opportunities through their respective Associate Career Field Managers.

3.3. Comprehensive Medical Readiness Program (CMRP) is the readiness portion of AFSC-specific sustainment training. Units implement this program IAW AFI 41-106, *Medical Readiness Program*. All CMRP training is tracked in the Medical Readiness Decision Support System (MRDSS). There are four categories of readiness skills training as follows.

3.3.1. Category I, Clinical Currency for Readiness is defined as fundamental clinical skills, usually obtained through medical education and in-garrison care that form a foundation on which to build readiness skills. It applies to all medical personnel with clinical specialties who are required to have clinical skills in a practice environment.

3.3.2. Category II, Readiness Skills Training (RST) is defined as the AFSC-specific skills that allow an Airman to perform the full scope of duties associated with their specialty in a deployed setting. Personnel complete Category II training for their Control AFSC. Category II training checklists for each medical AFSC are posted on the AF Medical Readiness SharePoint site. If you have questions on your AFSC CMRP checklist, contact your Medical Readiness office.

3.3.3. Category III, UTC Readiness Training is defined as training specific to a UTC that enables the UTC to accomplish its mission. Refer to the Category III Guide, posted on the AF Medical Readiness SharePoint site, to determine training requirements and comply with scheduling procedures described therein.

3.3.4. Category IV, IMAHR Team Training is that part of the readiness currency continuum conducted at the unit, that ensures members are proficient with assigned installation medical response equipment and can execute assigned response duties. Training is required for all members assigned to support installation medical response and will be tailored to the mission and unit capabilities. Category IV training requirements are posted on the AF Medical Readiness SharePoint site.

3.4. Special Experience Identifier (SEI). SEIs are established to identify special experience and training not otherwise identified within the Military Personnel Data System (MilPDS). SEIs complement the assignment process, but are not substitutes for AFSCs, CEM codes, prefixes, suffixes, Special Duty Identifiers (SDIs), Reporting Identifiers (RIs), or professional specialty course codes. They are established when identifying training, skills, or experience as critical to the assignment match, or force management needs and no other identification is appropriate or available. SEIs can be used to rapidly identify an already experienced resource to meet unique circumstances, contingency requirements, or management needs. They provide a means to track individuals and identify positions requiring or providing unique experience or training that would otherwise be lost. **NOTE:** SEIs do not automatically imply a member is current on certification requirements for any SEI. SEIs can depict current training experience or training experience captured at some point during their career. Refer to the AF Enlisted Classification Directory, Section III, which can be found on MyFSS for the most up to date SEI requirements. There are additional SEIs listed in the AFECD that any AFSC can obtain.

3.4.1. SEI 096, DoD Financial Management Certification Level 1. Award requires (1) 2 years of DoD FM experience, (2) 46 Continuing Education & Training (CET) credit hours, and (3) must attain 40 CET every two years after achieving certification.

3.4.2. SEI 097, DoD Financial Management Certification Level 2. Award requires (1) 4 years of DoD FM experience, (2) 71 CET credit hours, and (3) must attain 60 CET every two years after achieving certification.

3.4.3. SEI 098, DoD Financial Management Certification Level 3: Award requires (1) 4 years of DoD FM experience, (2) 71 CET credit hours, and (3) must attain 60 CET every two years after achieving certification.

3.4.4. SEI 260, Information Assurance Technical Level 1. Requires (1) assignment to perform information assurance technical support at the computing environment level (example: Client Support Administrator), (2) certification from the Information Assurance Technical Level I Category on the Department of Defense (DoD) Approved Baseline Certifications list, and (3) recommendation of unit commander. There are no minimum grade or skill level requirements to be awarded the SEI. **NOTE:** Remove SEI, if minimum authorized certification is not maintained and released to DoD cyber workforce entities.

3.4.5. SEI 264, Information Assurance Technical Level 2. Requires (1) assignment to perform information assurance technical support at the network environment level (example: Infrastructure Technician), (2) certification from the Information Assurance Technical Level 2 Category on the Department of Defense (DoD) Approved Baseline Certifications lists, and (3)

recommendation from unit commander. There are no minimum grade or skill level requirements to be awarded the SEI. **NOTE:** Remove SEI, if minimum authorized certification is not maintained and released DoD cyber workforce entities.

3.4.6. SEI 325, Medical Readiness (MR). To be awarded the 325 SEI, individuals must successfully complete the Medical Readiness Management Course (MRMC) L3OZJ4XXX 00BA, serve one continuous year and currently serve in the MTF Medical Readiness Office. Members must complete all 325 Job Qualification Standards (JQS) tasks. All requests for award of the 325 SEI must be coordinated via an application (available on the 4A0 Medical Readiness Kx) endorsed by the MTF 4A0X1 Functional Manager, individual's Squadron Commander, MAJCOM SGX, MFM, and final approval will be given by the ACFM-Medical Readiness. (T-2).

3.4.6.1. Award of SEI 325 is NOT automatic. Members must complete an AF Form 2096 to update their personnel record with approved application and MRMC certificate as supporting documents.

3.4.6.2. Unit level medical readiness positions are not authorized the "R" AFSC prefix.

3.4.6.3. After 5 years out of a Medical Readiness position, the SEI 325 must be removed from member's record. Any desire to remove the SEI 325 before 5 years out of a Medical Readiness position must be approved by the ACFM-Medical Readiness.

3.4.6.4. R-Prefix, Medical Readiness Planner. To be awarded, members must serve one continuous year and currently serve in a R-prefix position at a Headquarters or a Medical Readiness Planner Fellowship; complete MRMC, Contingency Wartime Planning Course (CWPC), Joint Medical Planners Course-Basic (JMOC-B), Joint Medical Planners Course-Advanced (JMOC-A), and Joint Medical Planners Tool Course (JMPT); must complete all R-prefix JQS tasks; must complete R-prefix application (available on the 4A0 Medical Readiness Kx) to be submitted through assigned senior SGX officer, MFM, and final approval from the ACFM-Medical Readiness (T-2).

3.4.6.4.1. NOTE: Award of R-Prefix is NOT automatic. Members must complete an AF Form 2096 to update their personnel record with approved application and completed training certificates as supporting documents.

3.4.6.4.2. Headquarters level medical readiness positions are not automatically authorized to be granted a SEI 325 unless the member has served a minimum of one continuous year in an MTF Medical Readiness Flight within five years and has met the requirements identified in paragraph 3.4.6. and must submit an application separate from the R-Prefix.

3.4.6.4.3. Unit level medical readiness positions are not authorized the "R" AFSC prefix.

3.4.6.4.4. After 5 years out of a Medical Readiness Planner position, the R-Prefix may be removed from member's record. Any desire to remove the R-Prefix before 5 years out of a Medical Readiness Planner position must be approved by the ACFM-Medical Readiness.

3.4.7. SEI 386, Instructional Materials Writer/Manager. Requires 6 months of experience in preparation or revision of nonresident training materials and completion of the Technical Writer Nonresident Training Materials course 3AIR75200-015 (PDS code 5AT).

3.4.8. SEI 463, Medical Personnel Reliability Assurance Program (PRAP). Mandatory upon successful completion of the (1) USAF School of Aerospace Medicine (SAM) PRAP Course

B3XZYPRP 0A1A, (2) required functional PRP training via HAF PRAP web site, (3) completion of 4A0X1 CFETP core tasks, (4) 12 months experience working in the PRAP clinic at a Nuclear Capable base, Admin Qualifications Cell, MAJCOM, or HAF level and 24 months experience working in the PRAP clinic at Administrative Qualification bases. (5) Supervisor/SGP recommendation, and (6) Group Commander approval. **NOTE:** Award is NOT automatic. Members must complete a 2096 to update their personnel record. Members must attend PRAP course at least every 5 years to maintain SEI.

3.4.9. SEI 465, Aeromedical Evacuation (AE). Award requires completion of the initial AE Patient Staging Course (AEPSC) in addition to serving one year in an AE position. **NOTE:** Sustainment of SEI 465 will be acquired by obtaining an AEPSC re-cert every five years or through tasking of AE deployment within this timeframe.

4. Training Strategy. The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of training requirements for the Health Services Management career field and the associated systems S-Shred. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training. Training decisions are made during the 4A0X1/S STRT, held at the discretion of the 4A0X1/S CFM.

4.1. 4A0X1/4A0X1S.

4.1.1. 4A031/4A031S, Initial Skills. There were new training requirements added in this CFETP to the 3-skill level course for AFSC 4A0X1. Changes incorporated in the 4A0X1 program included training in such areas as Electronic Health Record System, Continuous Process Improvement Management System, and DHA Ready Reliable Care. These additions support the current and future way ahead for the Air Force Medical Service and delivery of health support to MTFs. Students will continue to interact in scenarios to enhance the realism and application of tasks. Students are awarded the 3- skill level upon completion of the basic course.

4.1.2. 4A051/4A051S, 5-Skill Level. The requirement for award of the 5-skill level was reviewed to ensure critical core tasks align with current and future needs of Air Force Medical Service. Major changes to core requirements include task performance on Electronic Health Record System and Medical Information Systems.

4.1.3. 4A071/4A071S, 7-Skill Level. The requirement for award of the 7-skill level was reviewed to ensure critical core tasks align with current and future needs of Air Force Medical Service.

5. Community College of the Air Force (CCAF)

5.1. CCAF Degree. CCAF is one of several federally chartered degree-granting institutions; however, it is the only 2-year institution exclusively serving military enlisted personnel. The college is regionally accredited through Air University by the Southern Association of Colleges and Schools to award Associate in Applied Science (AAS) degrees designed for specific Air Force occupational specialties and is the largest multi-campus community college in the world. Upon completion of Basic Military Training and assignment to an AF career field, all enlisted personnel are registered in a CCAF degree program and are afforded the opportunity to obtain an AAS degree. To be awarded, degree requirements must be successfully completed before the student separates from the Air Force, retires, or is commissioned as an officer. See the CCAF website for details regarding the AAS degree programs. **Note: 4A0X1S will continue to earn**

the CCAF via the same process and degree as the 4A0X1.

5.2. Degree Requirements. All enlisted Airmen are automatically entered into the CCAF program. Prior to completing an associate degree, the 5-level must be awarded, and the following requirements must be met:

	Semester Hours
Technical Education	24
Leadership, Management, and Military Studies	6
Physical Education	4
General Education	15
Program Elective	15
Total: 64	

5.2.1. Technical Education (24 semester hours). A minimum of 12 semester hours of Technical Core subject or course must be applied, and the remaining semester hours applied from technical core or technical electives subjects or courses. Requests to substitute comparable courses or to exceed specified semester hour values in any subject or course must be approved in advance by Air University. Semester hours for skill level completion are applied as follows: 14 hours for 3-skill level, 8 hours for 5-skill level, and 4 hours for 7-skill level. The 2 remaining semester hours may be rolled over into program electives.

5.2.2. Leadership, Management, and Military Studies (6 semester hours). Professional military education and/or civilian management courses.

5.2.3. General Education (15 semester hours). Applicable courses must meet the criteria for application of courses to the General Education Requirements (GER) and agree with the definitions of applicable General Education subjects/courses as provided in the CCAF General Catalog.

5.2.4. Program Elective (15 semester hours). Program electives are satisfied with applicable Technical Education; Leadership, Management, and Military Studies; or General Education subjects and courses, including natural science courses meeting GER application criteria. Nine semester hours of CCAF degree applicable technical credit otherwise not applicable to this program may be applied. See the CCAF General Catalog for details regarding the AAS degree for this specialty. CLEP and DANTES credits can be applied within the program elective block.

5.2.5. Residency Requirement (16 semester hours): Satisfied by credit earned for coursework completed in an affiliated school or through internship credit awarded for progression in an AF occupation specialty. Enlisted members attending Army, Navy, and/or DOD initial or advanced training do not receive resident credit since these schools are not part of the CCAF system. However, the college awards proficiency credit to AF enlisted members completing these courses. Note: Physical education credit awarded for basic military training is not resident credit.

6. Professional Certifications. Certifications assist the professional development of Airmen by broadening their knowledge and skills. Additionally, specific certifications may be awarded collegiate credit by CCAF and civilian colleges. To learn more about professional certifications and certification programs offered by CCAF, visit the CCAF website. In addition to its associate degree program, CCAF offers the following certification programs and resources:

7. Air Force Credentialing Opportunities On-Line (AF COOL). The AF COOL Program provides a research tool designed to increase an Airman's awareness of national professional credentialing and CCAF education opportunities available for all AF occupational specialties.

AF COOL also provides information on specific occupational specialties, civilian occupational equivalencies, CCAF degree programs, AFSC-related national professional credentials, credentialing agencies, and professional organizations. AF COOL contains a variety of information about credentialing and licensing and can be used to:

- Get background information about civilian licensure and certification in general and specific information on individual credentials including eligibility requirements and resources to prepare for an exam.
- Identify licenses and certifications relevant to an AFSC.
- Learn how to fill gaps between AF training and experience and civilian credentialing requirements.
- Get information on funding opportunities to pay for credentialing exams and associated fees.
- Learn about resources available to Airmen that can help them gain civilian job credentials.

8. Air University Associate to Baccalaureate Cooperative Program (AU ABC Program). Directs Airmen with Associate in Applied Science Degrees from the CCAF to a collection of accredited military friendly colleges and universities to consider when completing a four-year degree. The program maximizes the application of military career education and training and provides a multitude of online academic and support services for the enlisted member.

9. Additional Off-Duty Education. Off-duty education is a personal choice encouraged for all. Individuals desiring to become an AETC Instructor should be actively pursuing an associate degree. A degreed faculty is necessary to maintain accreditation through the Southern Association of Colleges and Schools.

10. Percipio. Percipio is a robust, on-line, self-development tool that is free and available to active duty, guard, and reserve military personnel as well as Department of the Air Force civilian employees 24/7. It contains a large, searchable collection of free on-line courses, books, simulations, and other e-learning resources for your self-development -- whenever and wherever you have the need and time. https://usaf.percipio.com/

11. Certification Opportunities. As of the publication date of this CFETP, the 4A0X1 career field does not have any officially sanctioned certification programs. However, the programs and governing bodies listed below in Table 11 are highly recommended within AFI 41-104, *Professional Board and National Certification Examinations*. The table highlights some of the recommended certifications that would enhance the development and progression of our Health Services Managers. AF COOL provides a one-stop for Airmen to explore credentials recognized by the civilian community that can enhance Airmen's current performance in their job as well help prepare for civilian employment. It is recommended for those interested in a certification program to visit the AFCOOL website and review all available AFSC-related and leadership related credentials. https://afvec.us.af.mil/afvec/Public/COOL/Default.aspx

Certifications	Governing Body
Certified Electronic Health Record Specialist (CEHRS)	National Healthcareer Association (NHA)
Certified Medical Administrative Specialist (CMAS)	American Medical Technologies (AMT)
Certified Billing and Coding Specialist (CBCS)	National Healthcareer Association (NHA)
Certified Coding Associate (CCA)	American Health Information Management Association (AHIMA)
A+ Certification (required for SEI 260)	CompTIA
Security + (required for SEI 264)	CompTIA
Network + (required for SEI 260)	CompTIA
Certified Associate in Project Management (CAPM)	Project Management Institute (PMI)
Project Management Professional (PMP)	Project Management Institute (PMI)
Certified Emergency Manager	International Association of Emergency Managers

Table 11, Recommended Certifications with Governing Bodies

12. Career Field Path. The following medical Enlisted Career Pyramid (Figure 12) pictorially reflects the recommended job and skill progression path. The training and functions are aligned with rank and experience levels normally expected of someone in that period of their career. For instance, special duty assignments are normally not part of an individual's career until they reach the grade of SSgt. We realize there will be exceptions, but you should use this as a guide to help determine training expectations and career planning. Unit Functional Manager, Senior Enlisted Leaders, and supervisors may rotate 3- and 5-skill level personnel through all major career tracks (displayed on the pyramid) to better prepare them for supervisory and management responsibilities of the 7- and 9-skill levels. It is highly recommended at the grade of TSgt and above and for individuals are considered for functional vectors into one or more specialties and serve in positions that align with this specialty. The needs and/or requirements of the MTF/organization will take priority in job placement for 4A0X1 personnel.

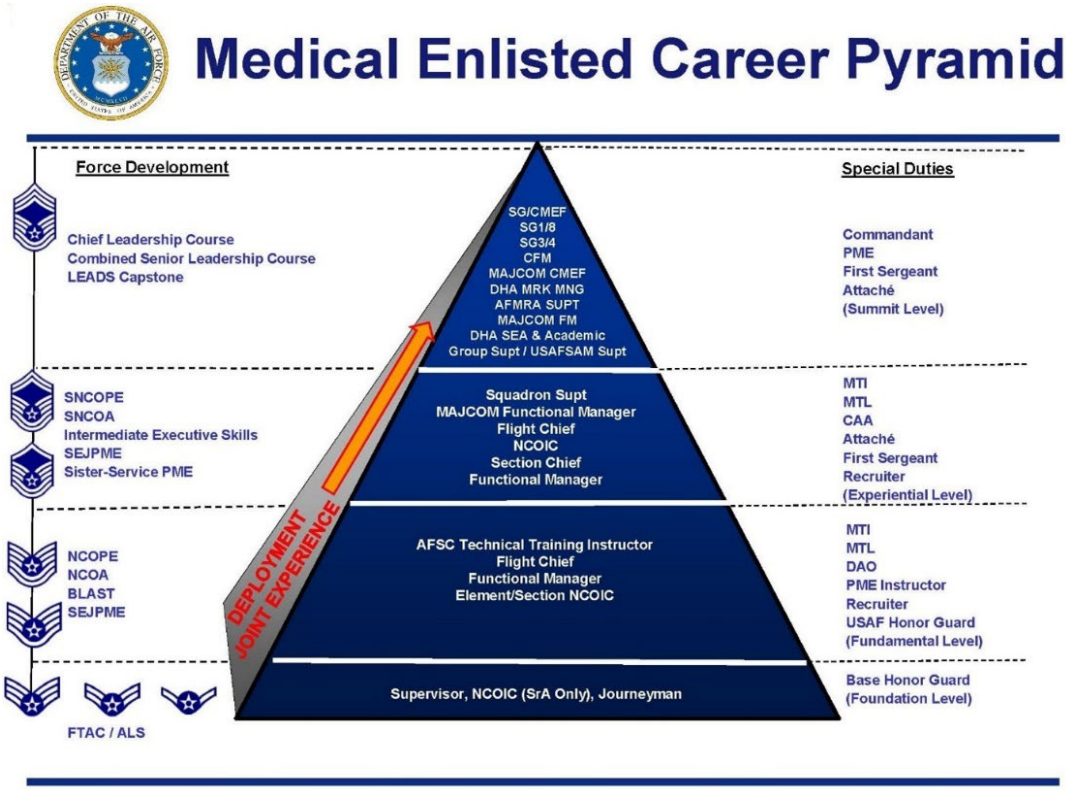

Figure 12. Career Field Path

Section C – Skill Level Training Requirements

1. Purpose. Skill level training requirements in this career field are defined in terms of task and knowledge requirements. This section outlines the specialty qualification requirements for each skill level in broad, general terms and establishes the mandatory requirements for entry, award, and retention of each skill level. The specific task and knowledge training requirements are identified in the STS at Part II, Sections A and B of this CFETP.

2. Specialty Requirements. The various skill levels in this career field are defined in terms of tasks and knowledge proficiency requirements for each skill level. They are stated in broad general terms and establish the standards of performance. Unit work centers must develop a structured training program to ensure the following requirements are met. All specialty requirements are in the AFECD.

2.1. Apprentice Level Training (3-Skill Level):

2.1.1. 4A031/4A031S Specialty Qualification.

2.1.1.1. Knowledge. General clerical procedures; medical terminology, regulations, and directives; medical ethics and health records administration.

2.1.1.2. Education. Completion of high school or General Education Development equivalency is mandatory.

2.1.1.3. Training. For award of AFSC 4A031, completion of the Health Services Management

Apprentice course is mandatory. Waiver of this requirement will be handled on a case-by-case basis by the 4A0X1 CFM.

2.1.1.4. Experience. No prior experience is mandatory for the award of the 3-skill level.

2.1.1.5. Other. For entry into this specialty, prospective members must have the minimum aptitude levels as listed in the Air Force Enlisted Classification Directory for this AFSC, and a physical profile series factor (PULHES) as defined in DAFMAN 48-123, *Medical Examination and Standards*, is mandatory. For award and retention of AFSC 4A031, member must maintain local network access IAW AFI 17-130, *Cybersecurity Program Management* and AFMAN 17-1301, *Computer Security (CompuSec)*.

2.2. Journeyman Level Training.

2.2.1. 4A051/4A051S Specialty Qualifications.

2.2.1.1. Knowledge. The individual must know general administrative procedures, medical terminology, publication management procedures, advanced health records administration, patient movement procedures, cost and budget estimating, and training methods.

2.2.1.2. Education. Courses in health, business administration, and Information Technology are desirable.

2.2.1.3. Training. Completion of the 4A051 Career Development Course (CDC), STS core tasks, and all local tasks assigned for the duty position. Qualification training and OJT will provide training and qualification on the core tasks identified in the STS. The CDC is written to build from the Airmen's current knowledge base and provides more in-depth knowledge to support OJT requirements. There is no minimum time in training required.

2.2.1.4. Experience. Qualification in and possession of AFSC 4A031 is mandatory.

2.2.1.5. Training Sources and Resources. The CDCs for this course are developed by the Air Force Career Development Academy, Keesler AFB, MS and is available through your UTM.

2.2.1.6. Implementation. The member's unit commander or commander's designated representative awards the 5-skill level upon successful completion of the 5-skill level CDC modules, satisfactory performance during OJT and perform identified core tasks in the CFETP. The time in training requirement for award of this skill level has been eliminated.

2.3. Craftsman Level Training.

2.3.1. 4A071/4A071S Specialty Qualifications.

2.3.1.1. Knowledge. Individual must understand medical terminology, policy and directives, office management practices, financial and manpower management, informatics/data analysis, training methods, and TRICARE principles. Additionally, individuals at the Craftsman level should understand the principles of USAF CPI Program.

2.3.1.2. Training. Individuals must complete the 4A071 CDC before being upgraded to the 7-skill level in this specialty. There is no minimum time in training required.

2.3.1.3. Experience. Must successfully complete and perform duty tasks during OJT and successfully perform identified core tasks in the CFETP.

2.3.1.4. Training Sources and Resources. The CDC for this course is developed by the Air Force Career Development Academy, Keesler AFB and is available through your UTM.

2.3.1.5. Implementation. The member's unit commander or commander's designated representative awards the 7-skill level upon successful completion of 7-skill level CDC, satisfactory performance during OJT, and perform identified core tasks in the CFETP. The time in training requirement for award of this skill level has been eliminated.

2.4. Superintendent Level Training.

2.4.1. 4A091 Specialty Qualification:

2.4.1.1 Knowledge. Individuals must know medical service administrative techniques, , medical terminology, medical ethics, resource management, and management and supervision of personnel. Additionally, individuals at the Superintendent level should fully understand and be able to apply the principles of the USAF CPI Program. In addition, senior leaders as this level must know and effectively translate regulations and policies that govern the 4A0X1/S career fields, duties, and programs across the AFMS.

2.4.1.2. Training. Completion of duty position training requirements is mandatory for award of the 9-skill level.

2.4.1.3. Experience. Qualification in and possession of AFSC 4A071 or 4A071S. Also, experience managing a health services management function, associated healthcare-related systems, and personnel.

2.4.1.4. Training Sources/Resources. Qualification training is provided by certified trainers using appropriate local and other training materials. Use of exportable and contract training is encouraged when available.

2.4.1.5. Implementation. 9-skill level will be awarded upon promotion to SMSgt.

2.5. Occupational Badge Wear Requirements: Airmen wear the basic badge after completing technical school, the Senior badge after award of the 7-skill level, and the Master badge as a Master Sergeant or above with 5-years in the specialty from award of the 7-skill level.

Section D – Resource Constraints

There are currently no resource constraints. This area is reserved.

Section E – Transitional Training

There are currently no transitional training requirements. This area is reserved.

Part II.

Section A – Specialty Training Standard (with Section B – Training References).

1. Implementation. The 4A0X1 STS will be used for technical training provided by METC for the 3-skill level Health Services Management Apprentice course.

2. Purpose. As prescribed in DAFMAN 36-2689, this STS lists the following information within each specified column:

2.1. Column 1 (Task, Knowledge, and Training References) identifies the most common tasks, knowledge, and Training References (TR) necessary for airmen to perform duties in the 3-, 5-, and 7-skill levels. Task statements are numbered sequentially (i.e., 1.1., 1.2., 2.1.). For the purposes of this CFETP, the term "technical reference" is synonymous with "training reference".

2.2. Column 2 (Core Tasks) identifies by number 5 or 7 for training requirements. A third-

party certifier is not needed on any task unless there is the "^" symbol also in column 2. The symbol "*" indicates a wartime task.

2.3. Column 3 (Certification for OJT) identifies documentation of training start and completion dates along with trainee/trainer/certifier initials. Use automated training management systems to document technician qualifications, if available. Task certification must show a certification or completed date. (As a minimum, use the following column designators: Training Start, Training Complete, Trainee Initials, Trainer Initials, and Certifier Initials.)

2.4. Column 4 (Proficiency Codes Used to Indicate Training/Information Provided) shows formal training and correspondence course requirements. Shows the proficiency to be demonstrated on the job by the trainee because of the training received from the task and knowledge areas as well as the career knowledge provided by the correspondence course.

2.4.1. In Column 4A, requirements are listed for formal resident 3-skill level training.

2.4.2. In Columns 4B, and 4C, requirements are listed for CDCs for the 5-skill level and 7-skill level respectively. These columns indicate the proficiency level of training provided in a formal course and the CDC. Training for these tasks is achieved through OJT and completion of the appropriate CDC.

3. Qualitative Requirements. Attachment 1 contains the proficiency code key used to indicate the level of training and knowledge provided by resident training and career development courses.

3.1. The STS serves as a JQS for OJT when placed in AF Form 623, *Individual Training Record Folder*, and used according to DAFMAN 36-2689. When used as a JQS, the following requirements apply:

3.1.1. Documentation. Use the TFTR to document all technician qualifications. Document and certify completion of training. As a minimum, complete the following columns in Part 2 of the CFETP: Training start date (day, month, and year), training complete date (day, month, and year), Trainee Initials, Trainer Initials, and Certifier Initials (when required). An AFJQS may be used in lieu of Part II of the CFETP only upon approval of the AFCFM. **NOTE:** The AFCFM may supplement these minimum documentation procedures as needed or deemed necessary for their career field.

3.1.2. Transcribing to new CFETP. Transcribing documentation to a new CFETP is an administrative function, not a re-evaluation of training. Upon publication of a new CFETP, transcribe IAW DAFMAN 36-2689.

3.1.2.1. For tasks previously certified and still required in the current duty position, enter the current date in the completion column, trainee initials in the trainee column, and the current task certifier or supervisor/trainer initials in the trainer column.

3.1.2.2. For tasks previously certified but not required in the current duty position, transcribe only the previous certification dates (no initials). If the task later becomes required in the duty position, recertify using current dates and initials.

3.1.2.3. Annotate the AF Form 623a, (for example, ―I certify the information contained in the CFETP dated XX was transcribed to the CFETP dated XX, and the trainee was given the superseded CFETP. Signed and dated by the supervisor and trainee).

3.1.3. Documenting Career Knowledge. When a CDC is not available, the supervisor identifies STS training references that the trainee requires for career knowledge and ensures, as a minimum, that trainees cover the mandatory items in DAFMAN 36-2689. **NOTE:** Career knowledge must be documented prior to submitting a CDC waiver request.

3.1.4. Decertification. When a supervisor determines an Airman is unqualified on a task previously certified for the duty position, the supervisor deletes certification. Appropriate remarks pertaining to the reason for decertification are entered on the AF Form 623a, *On-The-Job Training Record Continuation Sheet*. Refer to DAFMAN 36-2689. Begin recertification if required.

3.1.5. Performance Standard. Trainees are trained, evaluated, and certified to the go/no-go level. Go means the individual can perform the task without assistance and meets requirements for accuracy, timeliness, and correct use of procedures. Supervisors and MTF FM will manage this process by assessing 4A051/4A051S qualifications.

3.1.5.1. Trainers must be recommended by their supervisors, qualified to perform the task being trained and have completed the AF Training Course.

3.1.5.2. Certifiers must be at least a Staff Sergeant, capable of evaluating the task being certified, be someone other than the trainer, and complete the Air Force Training Course. Possession of at least a 7-skill level is desired, but not required.

3.2. The Training Standard is a guide for development of promotion tests used in the Enlisted Promotion Reference Requirements Catalog (EPRRC) Specialty Knowledge Tests are developed at the USAF Studies and Analysis Squadron by SNCOs with extensive practical experience in their career fields. Questions are based upon study references listed in the Enlisted Promotions References and Requirements Catalog. EPRRC is only applicable to AD forces.

4. Recommendations. Identify inadequacies and recommended changes to this training standard through channels to 59 TRG/TTS, 2931 Harney Fort Sam Houston, TX 78234. For convenience, the Customer Services Information Line (CSIL), DSN 420-1080 (commercial 210-808-1080), has been installed to promptly report your findings. Be sure to reference specific STS paragraphs when forwarding report.

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	**Definition: The individual**
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely Limited)
	2	Can do most parts of the task. Needs only help on hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
**Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship of basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations

* Performance and knowledge tasks with an asterisk (*) in column 2 are trained during war time

** A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks. A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)

^ This mark is used in column 2 to indicate the task must be certified when signed off.

- This mark is used alone instead of a scale value to show that no proficiency training is provided in the course or CDC.

X This mark is used alone in the course columns to show that training is required but not given due to limitations in resources.

NOTE: When column 2, Core tasks, includes the numbers 5 or 7, this task is a requirement for 5-skill level or 7-skill level upgrade respectively

Section B – Training Reference (TR) Source Summary for STS 4A0X1

List of commercial and service publications

Note. Most commercial training references are listed in the following format: Author(s), year of publication, title, edition (if applicable), and publisher. Some non-government publications published by organizations are updated quite often, and these may not include edition numbers, year of publication, or an author. Government publications are listed per that department's naming convention. Later or earlier editions of the same publications are acceptable after evaluation.

Section 1, Health Services Management Specialty
-For All Skill Levels-
Air Force Enlisted Classification Directory (AFECD)
The Enlisted Force Structure

Section 2, The Air Force Medical Service and Defense Health Agency construct
-For All Skill Levels-
AFI 38-101, *Manpower and Organization*
AFI 41-104, *Professional Board and National Certification Examinations*
AFI 44-102, *Medical Care Management*
AFPD 41-1, *Healthcare Programs and Resources*
AFPD 44-1, *Medical Operations*

Section 3, Medical Terminology
-For All Skill Levels-
Vaughn D. The Dean Vaughn Learning System Applied to Medical Terminology 350 Learning Guide. 3rd ed. 2004. Westwood, Mass: Damon Instructional Systems Division.

Section 4, Anatomy and Physiology
-For All Skill Levels-
Vaughn D. The Dean Vaughn Learning System Applied to Medical Terminology 350 Learning Guide. 3rd ed. 2004. Westwood, Mass: Damon Instructional Systems Division.

Section 5, Interpersonal Relations
-For All Skill Levels-
AFH-1, *Airman*

Section 6, Official Communications
-For All Skill Levels-
DAFH 33-337, *The Tongue and Quill*
DAFMAN 33-326, *Preparing Official Communications*

Section 7, Self-Inspection Program
-For All Skill Levels-
AFI 44-119, *Medical Quality Operations*
DAFI 90-302, *The Inspection System of the Department of the Air Force*

Section 8, Privacy Act/Freedom of Information Act (FOIA)
-For All Skill Levels-
AFI 33-332, *Air Force Privacy and Civil Liberties Program*
DoD 5400.11-R, *Department of Defense Privacy Program*

Section 9, Armed Forces Health Longitudinal Technology Application - Theater (AHLTA- T)/(TMIP)
-For All Skill Levels-
AHLTA-T User Manual
TC2 User Manual

Section 10, Population Health
-For All Skill Levels-
AFI 44-173, *Population Health*
AFI 44- 176, *Access to the Care Continuum*

Section 11, Access to Care (ATC), Scheduling and Appointing, and Provider Template
-For All Skill Levels-
AFI 44-176, *Access to the Care Continuum*
AFMAN 41-210, *Tricare Operations and Patient Administration Functions*
AFI 44-171, *AF Medical Home Clinical Operations*
DAFMAN 48-123, *Medical Examinations and Standards*

Section 12, AFMH Clinical Front Desk Receptionist
-For All Skill Levels-
DAFI 44-171, *AF Medical Home Clinical Operations*

Section 13, Health Informatics
-For All Skill Levels-
DoDI 6040.40, *Military Health System Data Quality Management Control Procedures*
DoDI 6040.42, *Management Standards for Medical coding of DoD Health Records*
AFI 44-176, *Access to the Care Continuum*

Section 14, Tricare Health Plan
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations* and Patient Administration Functions
DHAPI 6000.05, *TRICARE Prime Travel Benefit Program (PTB) and Combat- Related Disability Travel (CRDT) Program*
DHAPI 7000.01, *Patient Travel*
Joint Travel Regulation (JTR)
TRICARE Manuals https://manuals.health.mil and https://tricare.mil

Section 15, Beneficiary Counseling Assistance Coordinator (BCAC)
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAPI 6015.02, *Beneficiary Counseling and Assistance Coordinator (BCAC) and Debt Collection Assistance Officer (DCAO)*
TRICARE Manuals https://manuals.health.mil and https://tricare.mil

Section 16, Debt Collection Assistance Officer (DCAO)
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAPI 6015.02, *Beneficiary Counseling and Assistance Coordinator (BCAC) and Debt Collection Assistance Officer (DCAO)*
TRICARE Manuals https://manuals.health.mil and https://tricare.mil

Section 17, Health Plan Analysis
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAAI 5015.01, *Records Management Program*
TRICARE Manuals https://manuals.health.mil and https://tricare.mil

Section 18, Medical Processing
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAPI 6000.12, *TRICARE Medical Plan Enrollment Instructions and Management Responsibilities*
DHAPI 6010.01, *Healthcare Benefit Eligibility Verification and Patient Registration Procedures*
DHAPI 6025.10, *Standard Processes, Guidelines, and Responsibilities of the DoD Patient Bill of Rights and*

Responsibilities in the Military Health System (MHS) Military Medical Treatment Facilities (MTFs)

Section 19, Overall Outpatient Health Records Management and Outpatient Record Duties
-For All Skill Levels-
AFMAN 41-210 *TRICARE Operations and Patient Administration Functions*
DHAAI 5010.01, *Forms Management*
DHAAI 5015.01, *Records Management Program*
DHAPM 6025.02 Volume 1, *DoD Health Record Lifecycle Management: General Principles, Custody and Control, and Inpatient Records*
DHAPM 6025.02 Volume 2*, DoD Health Record Lifecycle Management: Outpatient Record Components and Dental Records*
DHAPI 6040.04, *Guidance for Amendment and Correction of Entries in Garrison Electronic Health Records (EHRs)*
DoDI 6040.45, *DoD Health Record Life Cycle Management*

Section 20, Service Treatment Record (STR)
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DoDI 6040.45, *DoD Health Record Life Cycle Management*

Section 21, Release of Information and Health Insurance Portability and Accountability Act (HIPAA)
-For All Skill Levels-
AFI 33-332, *Air Force Privacy and Civil Liberties Program*
AFMAN 41- 210, *TRICARE Operations and Patient Administration Functions*
DHAPI 5400.01, *Privacy and Civil Liberties Compliance*
DoD 6025.18-R, *DoD Health Information Privacy Regulation*

Section 22, Referral Management
-For All Skill Levels-
AFI 44-176, *Access to the Care Continuum*
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAAI 5015.01, *Records Management Program*

Section 23, Eligibility and Patient Registration
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAPI 6010.01, *Healthcare Benefit Eligibility Verification and Patient Registration Procedures*
DHAPI 6000.12, *TRICARE Medical Plan Enrollment Instructions and Management Responsibilities*

Section 24, Perform Line of Duty (LOD) Determinations Procedures
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DAFI 36-2910, *Line of Duty (LOD) Determination, Medical Continuation (MEDCON) and Incapacitation (INCAP) Pay*

Section 25, Manage Secretarial Designee Program
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHA-AI 6025.01, *Routing of Applications for Health Care Eligibility Under the Secretarial Designee (SECDES) Program and Related Special Authorities*

Section 26, Casualty Reporting and Procedures Relating to Deceased Patients
-For All Skill Levels-
DAFI 36-3002, *Casualty Services*
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*

Section 27, Duties Associated With Inpatient Records
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHA-AI 5010.01, *Forms Management Program*
DHA-AI 5015.01, *Records Management Program*
DHAPM 6025.02 Volume 1, *DoD Health Record Lifecycle Management: General Principles, Custody and Control, and Inpatient Records*
DHAPI 6025.02 Volume 2, *DoD Health Record Lifecycle Management: Outpatient Record Components and Dental Records*
DHAPI 6040.04, *Guidance for Amendment and Correction of Entries in Garrison Electronic Health Records (EHRs)*
DODI 6040.45, *DoD Health Record Life Cycle Management*

Section 28, Admissions Process
-For All Skill Levels-
AFI 44-102, *Medical Care Management*
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*

Section 29, Disposition Process
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*

Section 30, Birth Registrations
-For All Skill Levels-
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DHAAI 6025.11, *Birth Certificate and Birth Reporting Procedures*

Section 31, Aeromedical Evacuation (AE) Patient Movement
-For All Skill Levels-
DAFI 48-107 Volume 1, *En Route Care and Aeromedical Evacuation Medical Operations*

Section 32, Financial Management And Budgeting
-For All Skill Levels-
AFI 41-102, *Air Force Medical Expense and Performance Reporting System (MEPRS) for Fixed Military Medical and Dental Treatment Facilities*
AFI 65-118, *Air Force Purchases Using Military Interdepartmental Purchase Requests (MIPRS)*
AFI 65-601 V2, *Budget Management for Operations*; DAFI 65-601 V1, *Budget Guidance and Procedures*
DAFI 36-129, *Civilian Personnel Management and Administration*
DHAPM 6015.01, *Military Medical Treatment Facility (MTF) Uniform Business Office (UBO) Operations*
DoD 6010.15-M, *Military Treatment Facility Uniform Business Office (UBO) Manua*l
DoD 6010.13M, *Medical Expense and Performance Reporting System for Fixed Military Medical and Dental Treatment Facilities Manual*
DoDI 6040.40, *Military Health System Data Quality Management Control Procedures*
DoD 7000.14 Vols 1 thru 15, *Department of Defense Financial Management Regulation (FMRS)*
DoD 7000.14, *Department of Defense Financial Management Regulation (FMRS)*
DoDD 7045.14, *The Planning, Programming, Budgeting, and Execution (PPBE) Process*
DCFM Financial Management Guide- Annex A
DCFM Financial Management Guide- Annex B
DQ User Guide
EAS User's Manual
CRIS User Manual
DEAMS User Manual
GFEBS User Manual
Cerner Federal Content Catalog (cerner.com)

Section 33, Informatics/Data Quality (DQ)
-For All Skill Levels-
DODI 6040.40, *Military Health System Data Quality Management Control Procedures*

Section 34, Medical Expense And Performance Reporting System (MEPRS)/Expense Assignment System (EAS)
-For All Skill Levels-
AFI 41-102, *Air Force Medical Expense and Performance Reporting System (MEPRS) for Fixed Military Medical and Dental Treatment Facilities*
DoD 6010.13M, *Medical Expense and Performance Reporting System for Fixed Military Medical and Dental Treatment Facilities Manual*
Expense Assignment System User Manual

Section 35, Manpower
-For All Skill Levels-
AFI 10-401, *Air Force Operations Planning and Execution*
AFMAN 36-2100, *Military Utilization and Classification*
AFI 38-101, *Manpower and Organization*
Air Force Medical Service Flight Path
AFPD 38-1, *Manpower and Organization*
DoDD 7045.14, The *Planning, Programming, Budgeting, and Execution (PPBE) Process*

Section 36, Patient Valuables and Weapons
-For All Skill Levels-
DoD 6010.15-M, *Military Treatment Facility Uniform Business Office (UBO) Manual*

Section 37, Support Agreements (MOU/MOA)
-For All Skill Levels-
AFI 25-201, *Intra-Service, Intra-Agency, and Inter-Agency Support Agreement Procedures*

Section 38, Deployment Planning
-For All Skill Levels-
AFI 10-403, *Deployment Planning and Execution*
DAFI 10-401, *Air Force Operations Planning and Execution*

Section 39, Control Center Function
-For All Skill Levels-
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
DAFI 10-2501, *Emergency Management Program*
AFI 41-106, *Medical Readiness Program*
AFMAN 10-206, *Operational Reporting (OPREP)*

Section 40, Oversight of Medical Readiness
-For All Skill Levels-
AFI 10-201, *Force Readiness Reporting*
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
DAFI 10-401, *Air Force Operations Planning and Execution*
AFI 10-403, *Deployment Planning and Execution*
DAFI 10-2501, *Emergency Management Program*
AFI 10-1302, *Air Force Lessons Learned Program*
AFI 10-2519, *Public Health Emergencies and Incidents of Public Health Concern*
AFI 41-106, *Medical Readiness Program*

Section 41, Medical Readiness Training
-For All Skill Levels-
AFI 10-201, *Force Readiness Reporting*
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
DAFI 10-401, *Air Force Operations Planning and Execution*
AFI 41-106, *Medical Readiness Program*

Section 42, Medical Readiness Reporting
-For All Skill Levels-
AFI 10-201, *Force Readiness Reporting*
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
DAFI 10-401, *Air Force Operations Planning and Execution*
AFI 10-403, *Deployment Planning and Execution*
DAFI 10-2501, *Emergency Management Program*
AFI 41-106, *Medical Readiness Program*
AFMAN 10-206, *Operational Reporting (OPREP)*
AFPD 10-2, *Readiness*
CJCSI 3401.02B, *Force Readiness Reporting*
CJCSM 3150.01A, *Joint Risk Analysis Methodology*
DoDI 7730.66, *Guidance for the Defense Readiness Reporting System (DRRS)*

Section 43, Unit Deployment Manager (UDM)
-For All Skill Levels-
AFI 10-201, *Force Readiness Reporting*
AFI 48-133, *Duty Limiting Conditions*
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
AFI 10-403, *Deployment Planning and Execution*
DAFI 10-2501, *Emergency Management Program*
AFI 41- 106, *Medical Readiness Program*
DAFI 10-401, *Air Force Operations Planning and Execution*

Section 44, Medical Emergency Management Oversight
-For All Skill Levels-
29 CFR 1910.120, *Hazardous Waste Operations and Emergency Response*
AFI 10-204, *Air Force Service Exercise Program and Support to Joint and National Exercise Program*
DAFI 10-2501, *Emergency Management Program*
AFI 10-2519, *Public Health Emergencies and Incidents of Public Health Concern*
AFI 41- 106, *Medical Readiness Program*
DAFI 90-302, *The Inspection System of the Department of the Air Force*
AFMAN 41-120, *Medical Resource Management Operations*
AFMAN 41-209, *Medical Logistics Support*
AFPAM 10-219 Volume 1, *Contingency and Disaster Planning*
DoDI 6055.17, *DoD Emergency Management (EM) Program*

Section 45, Commander Support Staff Automated Systems
-For All Skill Levels-
AFPC Secure
MyFSS Training Library
Trax (DTS Training)
USAF Defense Travel System Business Rules

Section 46, Commander Support Staff Human Resources
-For All Skill Levels-
4A0X1 Kx Site
AFI 36-3202, *Certificate of Release or Discharge from Active Duty (DD Form 214/5 Service)*
DAFI 36-3203, *Service Retirements*
Commanders' Support Staff (CSS) Execution, Organization and Responsibilities Personnel Services Delivery (PSD) Guide
DAFI 36-3003, *Military Leave Program*
DAFMAN 36-2102, *Base Level Relocation Procedures*
The Joint Travel Regulations (JTR)

Section 47, Management Functions
-For All Skill Levels-
4A0X1 Kx Site
AFI 33-322, *Records Management and Information Governance Program*
DAFI 90-160, *Publications and Forms Management*
AFMAN 44-198, *Air Force Civilian Drug Demand Reduction Program*
DAFI 36-2406, *Officer and Enlisted Evaluation Systems*
DAFI 36-2501, *Officer Promotions and Selective Continuation*
DAFI 36-2502, *Enlisted Airman Promotion and Demotion Programs*
DAFI 36-2608, *Military Personnel Records System*
DAFI 36-2670, *Total Force Development*
DAFI 36-2803, *Military Decorations and Awards Program*
DAFI 36-2907, *Adverse Administrative Actions*
DAFI 36-3802, *Force Support Readiness Programs*
DAFMAN 36-2806, *Military Awards: Criteria and Procedures*
Commanders' Support Staff (CSS) Execution, Organization and Responsibilities Personnel Services Delivery (PSD) Guide

Section 48, Personnel Reliability Assurance Program (PRAP)
-For All Skill Levels-
AFI 31-117, *Arming and Use of Force by Air Force Personnel*
AFI 41-210, *Tricare Operations and Patient Administration Functions*
DoDI 5210.42, *DoD Nuclear Weapons Personnel Reliability Assurance*
DoDM 5210.42-AFMAN 13-501, *Nuclear Weapons Personnel Reliability Program (PRP)*

Section 49, Presidential Support Duty (PSD)
-For All Skill Levels-
AFI 41-210, *Tricare Operations and Patient Administration Functions*
DoDM 5200.02_ DAFMAN 16-1405, Department of the *Air Force Personnel Security Program*

Section 50, Disability Evaluation System (DES)
-For All Skill Levels-
AFI 36-3212, *Physical Evaluation for Retention, Retirement, and Separation*
AFI 48-133, *Duty Limiting Conditions*
DoDI 1332.18, *Disability Evaluation System*
DoDM 1332.18, Volume 1, *Disability Evaluation System Manual: Processes*
DoDM 1332.18, Volume 3, *Quality Assurance Program*
DAFMAN 48-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions: Pre-Disability Evaluation System and Medical Evaluation Board Processing (MEB)*
DAFMAN 48-123, *Medical Examinations and Standards*

Section 51, Legacy Disability Evaluation System (LDES)
-For All Skill Levels-
AFI 36-3212, *Physical Evaluation for Retention, Retirement, and Separation*
AFI 48-133, *Duty Limiting Conditions*
DoDI 1332.18, *Disability Evaluation System*
DoDM 1332.18, Volume 1, *Disability Evaluation System Manual: Processes*
DoDM 1332.18, Volume 2, *Disability Evaluation System Manual: Quality Assurance Program*
DAFMAN 48-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions: Pre-Disability Evaluation System and Medical Evaluation Board Processing (MEB)*
DAFMAN 48-123, *Medical Examinations and Standards*

Section 52, Initial Review In-Lieu Of (IRILO)
-For All Skill Levels-
AFI 36-3212, *Physical Evaluation for Retention, Retirement, and Separation*
AFI 48-133, *Duty Limiting Conditions*
DAFMAN 48-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions: Pre-Disability Evaluation*

System and Medical Evaluation Board Processing (MEB)
DAFMAN 48-123, *Medical Examinations and Standards*
DoDI 1332.18, *Disability Evaluation System*
DoDM 1332.18, Volume 1, *Disability Evaluation System Manual: Processes*
DoDM 1332.18, Volume 2, *Disability Evaluation System Manual: Quality Assurance Program*

Section 53, Integrated Disability Evaluation System (IDES)
-For All Skill Levels-
AFI 36-3212, *Physical Evaluation for Retention, Retirement, and Separation*
AFI 48-133, *Duty Limiting Conditions*
DAFMAN 48-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions: Pre- Disability Evaluation System and Medical Evaluation Board Processing (MEB)*
DAFMAN 48-123, *Medical Examinations and Standards*
DoDI 1332.18, *Disability Evaluation System*
DoDM 1332.18, Volume 1, *Disability Evaluation System Manual: Processes*
DoDM 1332.18, Volume 2, *Disability Evaluation System Manual: Quality Assurance Program*

Section 54, Wounded Warrior Program
-For All Skill Levels-
DAFI 34-1101, *Warrior & Survivor Care*

Section 55, Wartime Mortuary Affairs
-For All Skill Levels-
AFH 10-247 Volume 4, *Guide to Services Contingency Planning: Mortuary Affairs Search and Recovery*
DAFI 34-160, *Mortuary Affairs Program*
JP 4-06, *Mortuary Affairs*

Section 56, Airman Medical Transition Unit (AMTU)
-For All Skill Levels-
DAFMAN 41-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions, Pre-Disability Evaluation System and Medical Evaluation Board Processing (MEB)*

Section 57, Exceptional Family Member Program (EFMP)
-For All Skill Levels-
AFI 40-701, *Medical Support to Family Member Relocation and Exceptional Family Member Program (EFMP)*
AFMAN 41-210, *TRICARE Operations and Patient Administration Functions*
DAFI 36-2110, *Total Force Assignments*

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	**Definition: The individual**
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely Limited)
	2	Can do most parts of the task. Needs only help on hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
**Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship of basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations

* Performance and knowledge tasks with an asterisk (*) in column 2 are trained during war time

** A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks. A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)

^ This mark is used in column 2 to indicate the task must be certified when signed off.

- This mark is used alone instead of a scale value to show that no proficiency training is provided in the course or CDC.

X This mark is used alone in the course columns to show that training is required but not given due to limitations in resources.

NOTE: When column 2, Core tasks, includes the numbers 5 or 7, this task is a requirement for 5-skill level or 7-skill level upgrade respectively

1. Tasks, Knowledge, and Training References	2. Core Tasks	3. Certification For OJT					4. Proficiency Codes Used To Indicate Training/Information Provided (See Note)

1.4. Manage print servers							-	-	-	**1a**	-	-
1.5. Manage Microsoft Office 365 Suite							-	-	-	**1a**	-	-
1.6. Complete Medical Information Systems - Certification Requirements							-	-	-	**1a**	-	-
1.7. Build/test Ethernet cable							-	-	-	**1a**	-	-
1.8. Review Land Mobile Radio basics	**5**						-	-	-	**1a**	-	-
1.9. Use Software Center							-	-	-	**1a**	-	-
1.10. Review Secure Internet Protocol Router (SIPR) procedures							-	-	-	**1a**	-	-
2. ADVANCED MEDICAL INFORMATION SYSTEMS CONCEPTS **TR:** DHA-PI 8000.01, *Information Technology Infrastructure Service Delivery Management Program*; DoDD 8570.01, *Information Assurance Training, Certification, and Workforce Management*; DoDI 8500.01, *Cybersecurity*; DoDI 8510.01, *Risk Framework for DoD Information Technology*; DoDM 8140.03, *Cyberspace Workforce Qualification and Management Program*												
2.1. Review Virtual Local Area Network (VLAN) Architecture							-	-	-	**3c**	-	-
2.2. Initiate Basic Cyber Response	**5**						-	-	-	**3c**	-	-
2.3 Manage Mobile Devices							-	-	-	**3c**	-	-
2.4. Review Ports, Protocol, and Services Management (PPSM) Changes							-	-	-	**3c**	-	-

1. Tasks, Knowledge, and Training References	2. Core Tasks	3. Certification For OJT					4. Proficiency Codes Used To Indicate Training/Information Provided (See Note)					
		A	B	C	D	E	A 3 Skill Level		B 5 Skill Level		C 7 Skill Level	
		Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.5. Monitor Network Switches							-	-	-	3c	-	-
2.6. Monitor Firewalls							-	-	-	3c	-	-
2.7. Complete Report of Survey (ROS) process							-	-	-	3c	-	-
2.8. Execute Radio Management							-	-	-	3c	-	-
2.9. Execute Telecommunications Electronics Material Protected from Emanating Spurious Transmissions (TEMPEST) Program							-	-	-	3c	-	-
2.10. Review Fiber Optics							-	-	-	3c	-	-
3. WAREHOUSE OPERATIONS/ INVENTORY OPERATIONS **TR:** DHA-PI 8160.01, *Defense Health Program System Inventory Management and Reporting*; DHA PI-8220.01, *Lifecycle Management Services (LCMS) Information Technology (IT) Asset Management*												
3.1. Complete Hardware Inventory Process (DMLSS/ASPR)							-	-	-	3b	-	-
3.2. Manage Imaged Devices												
3.2.1. Configure DHA Imaged Devices							-	-	-	3b	-	-
3.2.2. Configure AFNET Imaged Devices							-	-	-	3b	-	-
3.2.3. Configure Other Imaged Devices							-	-	-	3b	-	-
3.3. Perform Stock Maintenance Leveling							-	-	-	3b	-	-
3.4. Complete DHA Refresh Documentation												
3.4.1. Complete Annual Refresh Document							-	-	-	3b	-	-
3.4.2. Reconcile IT Refresh on Delivery							-	-	-	3b	-	-
3.5. Identify Types of Hardware												
3.5.1. Deploy End User Devices							-	-	-	3b	-	-
3.5.2. Install Digital Monitors							-	-	-	3b	-	-
3.5.3. Manage File Servers							-	-	-	3b	-	-
3.5.4. Configure Printers/Multi-Function Devices							-	-	-	3b	-	-
3.5.5. Install Peripheral Devices							-	-	-	3b	-	-
3.5.6. Manage Portable Hard Drives							-	-	-	3b	-	-
3.6. Verify hardware is authorized for use							-	-	-	3b	-	-

1. Tasks, Knowledge, and Training References	2. Core Tasks	3. Certification For OJT					4. Proficiency Codes Used To Indicate Training/Information Provided (See Note)					
		A	B	C	D	E	A 3 Skill Level		B 5 Skill Level		C 7 Skill Level	
		Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.7. Manage Lifecycle Management							-	-	-	3b	-	-
3.8. Initiate Hard Drive Removal/Destruction Methods							-	-	-	3b	-	-
3.9. Review DLA Disposition Services							-	-	-	3b	-	-
4. CLINICAL APPLICATIONS **TR:** Field Operating Enterprise IMIT Standards r3.0 OCT2021												
4.1. Historical												
4.1.1. Manage Composite Health Care System (CHCS)							-	-	-	2a	-	-
4.1.2. Manage Armed Forces Health Longitudinal Technology Application (AHLTA)							-	-	-	2a	-	-
4.1.3. Manage Essentris							-	-	-	2a	-	-
4.1.4. Manage Health Artifact & Imaging Solutions (HAIMS)							-	-	-	2a	-	-
4.2. Application Virtualization Hosting Environment (AVHE)												
4.2.1. Deploy Virtual Desktop							-	-	-	2a	-	-
4.2.2. Review Applications							-	-	-	2a	-	-
4.3. Military Health System (MHS) GENESIS												
4.3.1. Overview of MHS GENESIS							-	-	-	2c	-	-
4.3.2. Identify 724 Access Downtime Viewer							-	-	-	2c	-	-
4.3.2. Review Cerner Millennium							-	-	-	2c	-	-
4.3.4. Manage Olympus							-	-	-	2c	-	-
4.3.5. Review Defense Healthcare Management System (DHSM) Hardware Standards							-	-	-	2c	-	-
4.3.6. Inpatient MHS GENESIS Application							-	-	-	2c	-	-
4.3.6.1. Authorize Iaccess							-	-	-	2c	-	-
4.3.6.2. Configure Grease boards							-	-	-	2c	-	-
4.3.6.4. Configure Fetalink							-	-	-	2c	-	-
4.4. Review Picture Archive & Communication System (PACS) (Radiology and Dental)										2c		

1. Tasks, Knowledge, and Training References	2. Core Tasks	3. Certification For OJT					4. Proficiency Codes Used To Indicate Training/Information Provided (See Note)

6.4. Manage Information System Security Officer Duties							-	-	-	-	-	3c
6.5. Initiate Scanning							-	-	-	-	-	3c
6.6. Initiate Patching							-	-	-	-	-	3c
6.7. Perform Remediation							-	-	-	-	-	3c
6.8. Perform Reconciliation							-	-	-	-	-	3c
6.9. Review Plan of Action & Milestones							-	-	-	-	-	3c
6.10. Review Threat Response Process							-	-	-	-	-	3c
6.11. Manage Health Information Portability & Accountability Act Security							-	-	-	-	-	3c
6.12. Manage System Center Configuration Manager							-	-	-	-	-	3c

Section B – Technical Reference (TR) Source Summary for STS 4A0X1S

List of commercial and service publications

Note. Most commercial training references are listed in the following format: Author(s), year of publication, title, edition (if applicable), and publisher. Some non-government publications published by organizations are updated quite often, and these may not include edition numbers, year of publication, or an author. Government publications are listed per that department's naming convention. Later or earlier editions of the same publications are acceptable after evaluation.

Section 1, Basic Medical Information Systems Concepts
-For All Skill Levels-
DHA-PI 8000.01, *Information Technology Infrastructure Service Delivery Management Program*
DoDD 8570.01, *Information Assurance Training, Certification, and Workforce Management*
DoDI 8500.01, *Cybersecurity*
DoDI 8510.01, *Risk Framework for DoD Information Technology*
DoDM 8140.03, *Cyberspace Workforce Qualification and Management Program*

Section 2, Advanced Medical Information Systems Concepts
-For All Skill Levels-
DHA-PI 8000.01, *Information Technology Infrastructure Service Delivery Management Program*
DoDD 8570.01, *Information Assurance Training, Certification, and Workforce Management*
DoDI 8500.01, *Cybersecurity*
DoDI 8510.01, *Risk Framework for DoD Information Technology*
DoDM 8140.03, *Cyberspace Workforce Qualification and Management Program*

Section 3, Warehouse Operations/Inventory Operations
-For All Skill Levels-
DHA-PI 8160.01, *Defense Health Program System Inventory Management and Reporting*
DHA PI-8220.01, *Lifecycle Management Services (LCMS) Information Technology (IT) Asset Management*

Section 4, Clinical Applications
-For All Skill Levels-
Field Operating Enterprise IMIT Standards r4.0, OCT2022

Section 5, Help Desk Operations
-For All Skill Levels-
Field Operating Enterprise IMIT Standards r4.0, OCT2022

Section 6, Cyber Operations
-For All Skill Levels-
DHA-PI 8100.01, *Information Security Compliance for Defense Health Agency Financially Auditable Information Systems*
DHA-PI 8140.01, *Acceptable Use of DHA Information Technology*
DoDI 8500.01, *Cybersecurity*
DoDI 8510.01, *Risk Framework for DoD Information Technology*
DoDM 8140.03, *Cyberspace Workforce Qualification and Management Program*

Section C – Job Qualification Standards

These Job Qualification Standards (JQS) lists requirements for specific positions within the 4A0X1 career field. The Following list explains the JQS columns.

Column 1. The tasks, knowledge, and training references (TRs).
Column 2. Date started for training on the task.
Column 3. Date completed for training on the task.
Column 4. The trainee's initials.
Column 5. The trainer's initials.
Column 6. The certifying official's initials.

There are five JQS documents in Section C on the following pages that are relevant to the 4A0X1 career Field:

1. Aeromedical Evacuation (AE) Job Qualification Standard
2. Medical Information Systems (MIS) IAT Level I Job Qualification Standard
3. Medical Information Systems (MIS) IAT Level II Job Qualification Standard
4. Medical Readiness Planner R Prefix Job Qualification Standard
5. Medical Readiness 325 SEI Job Qualification Standard

Computer Based Training (CBT) to complete per JQS:

Medical Information Systems (MIS) IAT Level I

DAF e-Learning CBTs for CompTIA A+ Core 1 220-1101
CompTIA A+ 220-1102: Mobile Devices
CompTIA A+ 220-1102: Networking
CompTIA A+ 220-1102: Hardware
CompTIA A+ 220-1102: Virtualization and Cloud Computing
CompTIA A+ 220-1102: Hardware and Network Troubleshooting

DAF e-Learning CBTs for CompTIA A+ Core 2 220-1102
CompTIA A+ 220-1102: Operating Systems
CompTIA A+ 220-1102: Security
CompTIA A+ 220-1102: Software Troubleshooting
CompTIA A+ 220-1102: Operational Procedures

Medical Information Systems (MIS) IAT Level II

DAF e-Learning CBTs for CompTIA Security+ SY0-601
CompTIA Security+ SY0-601: Attacks, Threats, and Vulnerabilities
CompTIA Security+ SY0-601: Architecture and Design
CompTIA Security+ SY0-601: Implementation
CompTIA Security+ SY0-601: Operations and Incident Response
CompTIA Security+ SY0-601: Governance, Risk, and Compliance

Aeromedical Evacuation (AE) Job Qualification Standard

Aeromedical Evacuation (AE) Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1. Aeromedical Evacuation Requirements					
1.1. Complete the Aeromedical Evacuation and Patient Staging Course within 12 months of AES assignment or prior to deployment					
1.2 TRAC2ES **TR:** JKO TRAC2ES CBT; In residence TRAC2ES. Training at Scott AFB; TRAC2ES Training Site (https://exercise.trac2es.ustranscom.mil); TRAC2ES User guide-3899R2 *NOTE: TRAC2ES. User Guide can be found in the training site under the documents tab*.					
1.2.1. Complete TRAC2ES Training					
2. Patient Movement Process **TR:** DAFI 48-107 *Volume 1, En Route Care and Aeromedical Evacuation Medical Operation*; DAFI 48-107, *Volume 2, En Route Critical Care*; DAFI 48-107, *Volume 3, En Route Care Documentation*; AFMAN 10-2909, *Aeromedical Evacuation (AE) Equipment Standards*; AFMAN 11-2AE Volume 3 ADDENDA-A*, Aeromedical Evacuation Operations Configuration/Mission Planning*; DoD 4500.54-E, *DoD Foreign Clearance Program (FCP);* DoDI 4515.13, *Air Transportation Eligibility*; DoDI 6000.11, *Patient Movement (PM)*; Joint Publication 4-02, Joint Health Services; USTRANSCOM Global Movement Handbook					
2.1. Pre-Mission Preparation (Originating Facility)					
2.1.1. Eligibility for Travel					
2.1.2. Commercial Travel Protocols					
2.1.3. Use AF Form 3836, AE Mission Management Part II					
2.1.4. Reporting Mission Management data to Patient Movement Requirements Center (PMRC)					
2.1.5. TRAC2ES Patient Cite Number					
2.1.6. Coordination with External Agencies (Medical Facilities, Patient Staging Areas, or Liaison Officer)					
2.1.7. Patient Briefing					
2.1.8. AE Preparation Checklist Requirements					
2.1.9. Medical Records and Forms Familiarization					
2.1.9.1. AF Form 3899, Aeromedical Evacuation Patient Record					

2.1.9.2. AF Form 3838, Do Not Resuscitate Order (DNR) Certification for Aeromedical Evacuation					
Aeromedical Evacuation (AE) Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.1.9.3. SF 502, Medical Record Narrative Summary (Clinical Resume)					
2.1.9.4. SF 513, Medical Record – Continuation Sheet					
2.1.9.5. Nursing Input Transfer Summary					
2.1.10. Temporary Duty Travel Orders					
2.1.11. Baggage Requirements					
2.1.11.1. Allowable Weight					
2.1.11.2. AF Form 3851, Patient Baggage Data					
2.1.11.3. DD Form 600, Patient's Baggage Tag					
2.1.11.4. Lost/Unaccompanied Baggage					
2.1.11.5. Shipment of Unaccompanied Baggage					
2.1.12. Patient Command Notification					
2.1.13. Rules for Medical and Non- Medical Attendant to include AE of Unaccompanied Minor					
2.1.14. Inspection of Patients, Attendants and Baggage					
2.1.14.1. Identification/Confiscation of Country/Area of Responsibility-Specific "Unauthorized" Material					
2.1.14.2. AF Form 1297, Temporary Issue Receipt (for Items Confiscated)					
2.1.14.3. Confiscation of Weapons and Ammunition					
2.1.14.4. Anti-Hijacking Statement					
2.1.14.5. Patient and Attendant Meals					
2.1.14.5.1. Meal Orders					
2.1.14.5.2. Special Dietary Requirement					
2.1.14.6. Flight/Patient Tracking using TRAC2ES					
2.1.14.7. AE Crew Briefing					
2.2. Mission Packet Preparation					
2.2.1. AF Form 3860, Aeromedical Patient Record Data					

2.2.2. AF Form 3899, Aeromedical Evacuation Patient Record. Also known as Patient Movement Record (PMR)					
2.2.3. AF Form 3830, Patient Manifest					
Aeromedical Evacuation (AE) Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.2.4. AF Form 3829, Summary of Patients Evacuated by Air					
2.2.5. SF 600, Chronological Record of Medical Care					
2.2.6. Flight and Fleet Kitchen Request					
2.2.7. TRAC2ES Special Diet Roster					
2.2.8. TRAC2ES Patient Special Equipment Roster					
2.2.9. Temporary Duty Travel Orders (Reference 2.1.10)					
2.2.10. Anti-Hijacking Statement (Reference 2.1.14.4)					
2.3. Post-Mission Procedures (Receiving Facility)					
2.3.1. In-Transit Visibility Events					
2.3.2. Following Mission to Completion via TRACE2S/PMRC					
2.3.3. Analysis of Discrepancies					
2.3.4. Anti-Hijacking Procedures (Reference 2.1.14.4)					
2.3.5. Arrangement of Further Medical Care					
2.3.5.1. Ground Transportation					
2.3.5.2. Billeting for Outpatient/Medical Attendant/Non-Medical Attendant					
2.3.6. Death in Flight Procedures					
2.3.7. Remaining Overnight Patient Procedures					
2.3.8. Release of Patients from Aeromedical Evacuation System using AF Form 3841, Certificate of Release					
2.3.9. AF Form 3836, Aeromedical Mission Management - Part II					
2.4. Patient Movement Process					
2.4.1. Initiate Patient Movement Request					
2.4.2. Track Patient Movement Request					
2.4.3. Utilize Up-loadable TRAC2ES Contingency Spreadsheet (TUCS)					
2.4.4. Monitor Missions					

2.4.5. Update In-Transit Visibility					
2.4.6. Generate Reports in TRAC2ES					
2.4.7. Input Facility Updates					
Aeromedical Evacuation (AE) Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
3. Bed Status Report					
3.1. Patient Status Board or use AF Form 3892, Patients Holding for Aeromedical Airlift Movement					
3.2. Patient Information Board					
4. Zulu Time Conversion TR: www.timeanddate.com/worldclock/					
5. Julian Date Calendar Conversion TR: References located on Air Force Portal and AFMS Knowledge Exchange located at https://kx.afms.mil (Search Pages)					
6. Communication TR: DoD Manual 5200.01V1_AFMAN 16-1404V1, *Information Security Program*; AFI 33-332, *Air Force Privacy and Civil Liberties Program*; AFMAN 17-1302-O, *Communications Security (COMSEC) Operations*					
6.1. Communication Security					
6.2. Information Security Protocol Router Network (Secret and Non-Secure Internet Protocol Router Network or the DOTS and SAFE applications)					
6.3. Privacy Act					
7. Customs **TR**: DoD 4500.54-E, *DoD Foreign Clearance Program (FCP)*					
7.1. Role/Responsibility of Border Clearance Agencies					
7.2. Border Clearance Procedures					
8. Flight Line Driving **TR**: AFMAN 24-306, *Operation of Air Force Government Motor Vehicles*; AFTTP 3-4, Airman's Manual					
8.1. Airfield Drivers Course (Via Advanced Distributed Learning Service)					
8.2. International Military Route Signs & Road Signs					
8.3. Vehicle Checks					
9. Patient Load/Unload **TR**: AFMAN 11-2AE Volume 3 ADDENDA-A, *Aeromedical Evacuation Operations Configuration/Mission Planning*					

9.1. Litter Training					
9.2. Aircraft Configuration					
9.3. Patient Loading Procedures					
9.4. Patient Unloading Procedures					
1. Aeromedical Evacuation (AE) Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
10. ASF and ERPSS Configuration					
11. Aircraft Tracking (GDSS and SMS)					
12. Types and Modes of Transport **TR**: DAFI 48-107, *Volume 2, En Route Critical Care*; AFTTP 3-42.5, *Aeromedical Evacuation*; Joint Publication 4-02, Joint Health Services					
12.1. Regulated and Unregulated Transportation Modes (ships, land vehicles, helicopter, rail, civilian or military fixed wing aircraft)					
12.2. Unregulated Movement (utilization of opportune mode of transportation)					
12.3. CASEVAC					
12.4. MEDEVAC (Dust-Off)					

Medical Information Systems (MIS) IAT Level I Job Qualification Standard

Medical Information Systems (MIS) IAT Level I Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1. CompTIA A+ 220-1101 TR: AFMAN 17-1303, Cybersecurity Workforce Improvement Program; DoDD 8140.01, Cyberspace Workforce Management; DoD 8570.01-M, Information Assurance Workforce Improvement Program					
1.1. Complete DAF e-Learning CBTs for CompTIA A+ 220-1101 (See table of CBTs at the beginning of this section)					
2. CompTIA A+ 220-1101 Certification					
2.1. Acquire CompTIA A+ 220-1101 Certification					
2.2. Install Hardware and Display Components (memory, in/output devices, Webcams, microphones)					
2.3. Service End User Devices					
2.4. Install software and determine software update requirements					
2.5. Mobile Device Types (overview of laptops, tablets, and smartphones)					
2.6. Install and configure laptop components (wireless cards, batteries, touchscreens, docking stations, port replicators physical lock/cable)					
2.7. Use laptop features and accessories (dual displays, screen orientation, touchpad)					
2.8. Perform mobile device synchronization (contacts, calendars, email, documents)					
2.9. Configure basic mobile network connectivity and application support (cellular, wired, wireless, hotspot and Bluetooth connections, email, VPN, port, and SSL settings)					
2.10. Compare and contrast TCP and UDP ports, protocols, and their purposes					
2.11. Compare and contrast common networking hardware devices					
2.12. Install and configure a basic wired/wireless network					
2.13. Compare and contrast wireless networking protocols					
2.14. Summarize the properties and purposes of services provided by networked hosts (Web, file, print, DHCP, DNS, mail, proxy, authentication servers)					
2.15. Configure network settings (IP addressing, DNS, DHCP, IPv4, IPv6, subnet mask, default gateway, VLAN, VPN, NAT)					
2.16. Configure Internet connections (LAN, WAN, PAN, MAN, wireless mesh network, cable, DSL, fiber, dial-up/satellite, ISDN)					

Medical Information Systems (MIS) IAT Level I Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.17. Use networking tools (crimper, cable stripper, multi-meter, tone generator & probe, cable tester, loopback plug, punch down tool, Wi-Fi analyzer)					
2.18. Identify basic cable types, features, and their purposes (Ethernet, STP vs. UTP, fiber, coaxial, video, lightening, speed and transmission limitations, thunderbolt, USB, peripheral, hard drive)					
2.19. Identify common connector types (RJ-11, RJ-45, RS-232, BNC, RG-6, RG-59, USB, DB- 9, lightning, SCSI, eSATA, Molex)					
2.20. Install RAM types (SODIMM, SDRAM, DDR2, DDR3, DDR4, single and dual channel, error correcting, parity vs. non-parity)					
2.21. Install and configure storage devices (CD, DVD, Blu-ray, solid-state, magnetic hard drives, 2.5 in. vs. 3.5 in. drives, hybrid, flash, hot swappable drive media, types of RAID)					
2.22. Install and configure motherboards, CPUs, and add-on cards (motherboard form factors and connector types, BIOS/UEFI settings, BIO security, CMOS batteries, CPU features and compatibility, cooling mechanisms, expansion cards)					
2.23. Identify computer peripherals (printers, flatbed and barcode scanners, monitors, optical drives, mice and keyboards, signature pads, projectors, KVM, smart card readers)					
2.24. Power supply types and features (input 115V vs 220V, output 5.5V vs 12V, 24-pin motherboard adapter, wattage rating, number of devices to be powered)					
2.25. Install and configure common devices (thin and thick clients, desktop setting, touchscreen configuration, synchronization)					
2.26. Customize PC configurations (graphic design, audio/video editing, virtualization workstations)					
2.27. Configure small office/home office (SOHO) multifunction devices/printers and settings					
2.28. Identify printer types (laser, imaging process, printer maintenance, inkjet, thermal, impact, virtual and 3D)					
2.29. Compare and contrast cloud computing concepts (infrastructure as a service, software as a service, platform as a service, cloud model types, shared resources, rapid elasticity, on- demand computing, resource pooling)					
2.30. Solve computer problems and service end user devices (resolving and identifying problems, establishing a plan of action, verify functionality, document findings)					

Medical Information Systems (MIS) IAT Level I Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
3. CompTIA A+ 220-1102 Certification					
3.1. Complete DAF e-Learning CBTs for CompTIA A+ 220-1102 (See table of CBTs after this JQS table)					
3.2. Acquire CompTIA A+ 220-1102 certification					
3.3. Compare and contrast common operating system types and their purposes					
3.4. Compare and contrast features of Microsoft Windows versions (disk partitioning, file system types and formatting, alternate third- party drivers, workgroup vs. domain setup)					
3.5. Use Microsoft command line tools (navigating the file system, networking diagnostics, system maintenance, GPO and imaging tools, command line tools)					
3.6. Use Windows administrative tools (computer management utility, performance monitor and task schedule, print management, local security policy, user account management, MSConfig, task manager)					
3.7. Create and manage user accounts.					
3.8. Use Windows control panel utilities (Internet options, display settings, folder options, system settings, Windows firewall, power options)					
3.9. Identify application installation and configuration concepts (installation and deployment methods, firewall settings, Windows IP addressing, printers and shares, remote connections)					
3.10. Summarize security fundamentals (authentication devices, active directory, software-based security, malware, physical destruction, securing mobile devices)					
3.11. Compare and contrast wireless security protocols and authentication methods (social engineering, common threats, users and groups, NTFS vs. share permissions, drive encryption)					
3.12. Troubleshoot software (common security issues, symptoms, and solutions)					
3.13. Operational procedures (password policies, change management, incident response, disaster prevention and recovery, licensing, remote access technologies)					
3.14. Use Windows system utilities (credential manager, programs, and features, HomeGroups, BitLocker, network and sharing center, device manager)					
3.15. Acquire SEI 260					

Medical Information Systems (MIS) IAT Level II Job Qualification Standard

Medical Information Systems (MIS) IAT Level II Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1. CompTIA Security+ SY0-701 **TR**: AFMAN 17-1303, *Cybersecurity Workforce Improvement Program*; DoDD 8140.01, *Cyberspace Workforce Management*; DoD 8570.01-M, *Information Assurance Workforce Improvement Program*					
1.1. Complete DAF e-Learning CBTs for CompTIA Security+ SY0-701 (See table of CBTs at the beginning of this section)					
2. CompTIA Security+ SY0-701 Certification					
2.1 Acquire CompTIA Security+ SY0-701 certification					
2.2. Analyze the present threat landscape (risks and vulnerabilities, threat agents, countermeasures and mitigation, intent, and motivation of threats)					
2.3. Identify types of malware (viruses, worms, Trojans, cryptomalware. Backdoors, keyloggers, spyware)					
2.4. Social engineering and hijacking (phishing, dumpster diving, shoulder surfing, URL hijacking)					
2.5. Compare and contrast types of attacks (DoS, DDoS, man in the middle, zero-day, injection, cryptographic and wireless attacks)					
2.6. Explain penetration testing and vulnerability scanning concepts (active vs. passive reconnaissance, pivot, initial exploitation, persistence, black vs. gray vs. white box testing, identifying vulnerabilities, false positives)					
2.7. Identify the impact of vulnerabilities (race conditions, system vulnerabilities, improper input and error handling, misconfiguration, resource exhaustion)					
2.8. Install and configure network components, both hardware and software-based, to support organizational security (firewalls, VPN concentrators, bridges and switches, routers, Wireless access points, encryption gateways)					
2.9. Use security assessment tools (protocol analyzers, network scanners, password crackers, honeypots)					
2.10. Identify features/service of cryptography (ciphers, keys, encryption, symmetric algorithms, hashing, digital signatures)					

Medical Information Systems (MIS) IAT Level II Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.11. Public Key Infrastructure (PKI) concepts (CA trust models, certificate chaining, pinning, key escrow)					
2.12. Configure wireless security settings (WPA, WPA2, wireless authentication and encryption, Wi-Fi protected setup, captive portals)					
2.13. Use technology output analysis (host intrusion prevention, antivirus, patch management tools, data loss prevention)					
2.14. Deploy mobile devices securely (deployment models, passwords pins and screen locks, remote wipe, push notification service)					
2.15. Implement secure protocols (secure shell (SSH), SSL/TLS, HTTPS, DNSSEC, SRTP, FTPS, S/MIME)					
2.16. Troubleshoot common security issues (permission issues, access violations, certificate issues, personnel issues, baseline deviation, unauthorized software, asset management)					
2.17. Identity concepts and access services (NT LAN manager, Challenge-handshake authentication protocol (CHAP), Kerberos, secure token)					
2.18. Identity and access management controls (mandatory, discretionary, attribute-based, role- based, rule-based, biometrics)					
2.19. Apply account management practices (users, shared, guest, generic, privileged, service accounts, group-based access control and group policy, least privilege, recertification, auditing, review)					
2.20. Control physical security (lighting, controlling access, alarms, secure enclosures, locks, authentication, protected systems)					
2.21. Implement secure network architecture concepts (zones and topologies, segregation, segmentation, isolation, tunneling, VPNs)					
2.22. Secure system and application design and deployment (hardware root of trust, secure boot, EMI, EMP, supply chain, trusted operating system, life cycle models, secure coding)					

Medical Information Systems (MIS) IAT Level II Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.23. Cloud, virtualization, and resiliency concepts (hypervisors, cloud storage models, virtual desktop infrastructure, automation, scripting, RAID, high availability)					
2.24. Policies, plans, and procedures (standard operating procedure, agreements, acceptable use policy, personnel management)					
2.25. Business Impact Analysis (BIA) and risk management (business continuity plan, risk assessment, risk response, change management)					
2.26. Incident response, forensics, and disaster recovery (response plan, forensic investigation procedures, intelligence gathering, backups, security controls, data retention)					
2.27. Acquire SEI 264					

Medical Readiness Planner R Prefix Job Qualification Standard

Medical Readiness Planner R Prefix Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1. OPERATIONS **TR**: DAFIs 10-401, *Air Force Operations Planning and Execution*, AFI 10-402, *Mobilization Planning*, AFI 10-403, *Deployment Planning and Execution*, AFI 41-106, *Medical Readiness Program*					
1.1. Prepare MAJCOM comments for AF/SG Secure VTC (Classified AFMS Council)					
1.2. Demonstrate knowledge of capabilities within your assigned theater and explain how to employ them.					
1.3. Explain/Demonstrate use of Force Flow Worksheet					
1.4. Sourcing Process					
1.4.1. Explain how MRDSS is utilized in sourcing process					
1.4.2. Explain how MilPDS is utilized in sourcing process					
1.5. Medical Deployments					
1.5.1. Understand/describe the AF Force Generation (AFFORGEN) cycle and phases					
1.5.2. MAJCOM Sourcing - Complete process for notifying unit for deployment					
1.5.3. Describe procedures for accomplishing deployments:					
1.5.3.1. Crisis Action Deployments					
1.5.3.2. Emerging Requirements					
1.5.3.3. Sustainment Deployments					
1.5.4. Describe Functional Area Manager (FAM) verification or shortfall actions:					
1.5.4.1. Verify taskings are valid within 6 days upon receipt					
1.5.4.2. Understand/demonstrate the complete reclama process					
1.5.5. Outline the FAM relations with individual units					
1.5.6. Verify unit UTCs in DCAPES are ready for deployment when in “Ready to Certify” phase					
1.5.7. Work with FAMs for appropriate UTC assignment					
1.5.8. Find potential sourcing solution (coordinate with other MAJCOMS if needed)					

Medical Readiness Planner R Prefix Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1.6. ORDERS					
1.6.1. Define and explain how the following are related:					
1.6.1.1. DEPORD, EXORD, OPORD, WARNORD, PLANORD, ALERTORD, PTDO					
1.7. Command Relationships					
1.7.1. Describe/Explain the relationship between the following:					
1.7.1.1. NAF/MAJCOM/Air Component/CCMD/HAF					
1.7.1.2. COCOM, Operational Control (OPCON), Tactical Control (TACON)					
1.8. DCAPES/JOPES:					
1.8.1. Describe the relationship between Joint Operation Planning and Execution System (JOPES) and DCAPES					
1.8.2. Extract Line Level Detail (LLD) on Unit line Numbers (ULN)					
1.8.3. Find and understand Line Remarks					
1.9. Unit Identification Code (UIC) Changes					
1.9.1. Describe the purpose of a UIC change					
1.9.2. Perform a UIC change					
1.10. Reclama/Shortfall					
1.10.1. Describe the difference between a reclama and a shortfall					
1.10.2. Describe how to reclama/shortfall a deployment tasking					
2. PLANS **TR**: AFI 10-204, *Participation in Joint and National Exercises*; DAFI 10-401, *Air Force Operations Planning and Execution*; AFI 10- 403, *Deployment Planning and Execution*; AFI 10-801, *Defense Support of Civil Authorities*; DAFI 10-2501, *Emergency Management Program*; AFI 41- 106, *Medical Readiness Program Management*; AFTTP 3- 42.71, *Expeditionary Medical Support (EMEDS) and Air Force Theater Hospital (AFTH)*					
2.1. Medical Resource Letter (MRL):					
2.1.1. Be familiar with reportable and nonreportable/pseudo UTCs					

Medical Readiness Planner R Prefix Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.1.2. Execute updates/changes within MRL					
2.1.3. Review annual training calendar/schedule for MTFs within the MAJCOM					
2.1.3.1. Utilize MRDSS' Formal Training Management Scheduler					
2.1.4. Update Unit Type Availability (UTA)					
2.1.5. Review procedures for coordinating monitoring and maintaining assigned UTCs					
2.1.6. Review and update MRL for Personnel and Equipment UTCs					
2.1.7. Be familiar with Mission Capability Statement (MISCAP)/TTPs for UTCs listed on the MRL for your MAJCOM					
2.1.8. Demonstrate knowledge of TPFDD at the tactical level at point of execution					
2.2. MAJCOM/Combatant Command (CCMD) Operational Plans (OPLANS)					
2.2.1. Review/understand applicable CCMD Plans and OPLANS					
2.2.2. Review/understand applicable Service Component Plans					
2.2.3. Demonstrate familiarity and understanding of AFMS Force Elements (FEs)					
2.2.3.1. Be familiar with standard UTCs					
2.2.4. Understand the role/mission of the Service Component within the CCMD					
2.2.5. Know/understand the chain of command for the Service Component within the CCMD, and command authority					
2.2.6. Provide input for line remarks based on mission requirements during OPLAN development.					
3. BASE SUPPORT **TR**: AFI 10-201, *Force Readiness Reporting*; AFI 41-106, *Medical Readiness Program*; DAFI 90-302, *The Inspection System of the Department of Air Force*					
3.1. Subordinate Unit Review					
3.1.1. Review Unit Level MRC minutes and provide analysis of proposed corrective actions					

Medical Readiness Planner R Prefix Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
3.1.2. Assist Inspector General (IG) to develop/update inspection criteria					
3.1.3. Review unit level Medical Contingency Response Plans (MCRP) provide input as necessary					
3.2. Designed Operational Capability (DOC) Statements					
3.2.1. Analyze and update a DOC statement					
3.2.2. Describe routing process for approval of DOC statements					
3.3. Force Readiness Reporting:					
3.3.1. UTC Readiness					
3.3.1.1. Understand be able to perform analysis of unit DCAPES reports					
3.3.2. Resource Readiness					
3.3.2.1. Understand and be able to perform analysis of unit AF-IT reports					
3.3.3. Capability Readiness					
3.3.3.1. Understand and be able to perform analysis of unit Mission Essential Task List (METL) and Joint METL (JMETL)					
3.3.3.2. MAJCOM FE Assessment					
3.3.3.2.1. Demonstrate ability to analyze unit DCAPES UTC Assessment and update readiness of a FE in DRRS					
4. TRAINING AND EXERCISES TR: AFI 10-2912, *Aeromedical Evacuation Readiness Programs*; AFI 41-106, *Medical Readiness Program*; AFTTP 3-42.5, *Aeromedical Evacuation (AE);* AFTTP 3-42.57, *EnRoute Patient Staging System*; AFTTP 3-42.71, *Expeditionary Medical Support (EMEDS) and Air Force Theater Hospital (AFTH)*; DAFI 90-302, *The Inspection System of the Department of the Air Force*					

Medical Readiness Planner R Prefix Tasks, Knowledge, and Training References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
4.1. Understand/explain purpose of AFMS Working Group and Readiness Training Working Group					
4.2. Understand/Explain the functions of sourcing and reconstitution of equipment for exercise support					
4.3. Understand/Explain the development process for requesting exercise funds through the AFMS Exercise Working Group					
4.4. Understand/Explain the relationship between the Unit Effectiveness Inspection process					
4.5. Participate in one major exercise as Control Team/Wing Inspection Team and prepare an After Action Report					
4.6. Develop mission essential tasks list (METL) associated with DRRS/MISCAP/TTP guidance to assess units on ability to respond and which JMETLs they associate with					
5. MANPOWER AND EQUIPMENT FORCE PACKAGING SYSTEM (MEFPAK) **TR**: AFI 10-244, *Reporting Status of Air and Space Expeditionary Forces*; DAFI 10-401, *Air Force Operations Planning and Execution*; AFI 10-403, *Deployment Planning and Execution*					
5.1. Explain why/how UTCs are developed IAW DAFI 10-401					
5.2. Explain what/why/how AFTTPs are developed/used for IAW DAFI 90-160					

Medical Readiness 325 SEI Job Qualification Standard

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
1. Medical Readiness Decision Support System (MRDSS) **TR:** AFI 41-106, *Medical Readiness Program*					
1.1. Adding personnel to MRDSS					
1.2. Removing personnel from MRDSS					
1.3. Assigning personnel to a UTC					
1.4. Tasking UTC to deploy					
1.5. Tasking personnel to deploy					
1.6. Updating Deployment Availability (DAV) codes					
1.7. Schedule personnel for training with the Formal Training Management Scheduler (FTMS)					
1.8. Update personnel training record					
1.9. Creating administrative accounts for new Medical Readiness personnel, functional managers, UTC team chiefs, and IMAHR team chiefs					
1.10. Pulling reports					
1.11. Medical Resource Letter (MRL)					
2. Deployment Operations **TR:** DAFI 10-401, *Air Force Operations Planning and Execution*; AFI 10-403, *Deployment Planning and Execution*, AFI 41-106, *Medical Readiness Program*					
2.1. Review Installation Deployment Plan (IDP)					
2.2. Complete Installation Deployment Readiness Center (IDRC) training					
2.3. TPFDD:					
2.3.1. Be familiar with TPFDD column headers					
2.3.2. Know how to identify deployment taskings assigned to your unit					
2.3.3. Identify eligible personnel to fill deployment taskings based on tasking requirements, grade, skill level, UTC assignment, AFFORGEN phase, and availability					
2.3.4. Deployment Tasking Letter					
2.3.5. Know how to task selected personnel in DCAPES					
2.4. Zulu Time Conversion www.timeanddate.com/worldclock/					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.5. Julian Date Calendar Conversion References located on Air Force Portal and AFMS Knowledge Exchange located at https://kx.afms.mil (Search Pages)					
2.6. Single Mobility System (SMS):					
2.6.1. Be familiar with looking up AK coded taskings within 30 days of RLD to identify assigned flight to deployed location					
2.6.2. Know how to locate key for Geographical Locations (GEOLOC)					
2.6.3. Know how to locate key for ILOC					
2.7. AFFORGEN Connect:					
2.7.1. Air Force Reporting Instruction Tool (AFRIT)					
2.7.1.1. Combatant Command (COCOM) Reporting Instructions					
2.7.1.2. Location specific reporting instructions					
2.7.1.3. COCOM General Order #1					
2.7.1.4. COCOM Pre-Deployment out processing checklists					
2.7.1.5. COCOM Medical Staff out processing checklist (if available)					
2.7.2. Commander's Toolkit (CCTK):					
2.7.2.1. Know how to locate unit personnel					
2.7.2.2. Be familiar with Personal Deployment Preparedness Tool (PDPT)					
2.7.2.3. Know how to access/manage personnel Air Force Deployment Folder (AFDF) (electronic)					
2.7.2.4. Know how to submit Individual Deployment Requirements Checklist (eDRC) as UDM					
2.8. Identification Tag (Dog Tag) creation/requirements/format					
2.9. Medical Alert Tags (Red Dog Tags) creation/requirements/format					
2.10. ASIMS:					
2.10.1. Know how to create deployment tasking in ASIMS					
2.10.2. Know how to assign tasked personnel to ASIMS tasking					
2.10.3. Know how to verify/review ASIMS deployer list					
2.11. Waivers:					
2.11.1. Be familiar with medical waiver process					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
2.11.2. Know deployment tasking waiver process (Deploying Personnel Action Request/DPAR)					
2.11.2.1. Know allowable circumstances for delayed reporting					
2.11.2.2. Know allowable circumstances for training waivers					
2.11.2.3. Know allowable circumstances for grade/skill level substitutions					
2.11.2.4. Know allowable circumstances for AFSC substitutions					
2.12. Know allowable circumstances for reclamas					
2.12.1. Severe Mission Impact (SMI)					
2.12.2. Capability Not Available (CNA)					
2.13. Gas Mask Fit Testing					
2.13.1. N95 Mask Fit Testing for Medical Staff					
2.14. Uniform/Equipment Issue:					
2.14.1. Process for deploying with weapons					
2.15 Be familiar with local procedures to perform UIC changes when moving a tasking to another unit within the MDG (i.e. Single MDGs with multiple installations…JBSA, JB Andrews, Nellis AFB, etc.)					
2.16. Critical Care Air Transport Team (CCATT) Deployers:					
2.16.1. Know how to acquire Initial Uniform/Equipment Issue					
2.16.2. Know how to acquire Flyer Cold Weather Gear					
2.16.3. Know to reference TRANSCOM Reporting Instructions in addition to COCOM and location specific reporting instructions					
2.16.4. Be familiar with additional AFDF requirements to track documentation of CCATT training, flight physical, altitude chamber card, etc.					
3. Training **TR:** AFI 10-201, *Force Readiness Reporting;* AFI 10-204, *Air Force Service Exercise Program* and *Support to Joint and National Exercise Program*; AFI 10-401, *Air Force Operations Planning and Execution*; AFI 41-106, *Medical Readiness Program*					
3.1. Local Pre-Deployment Training					
3.2. Ready Airman Training (RAT)					
3.2.1. Ready Training Areas (RTA)					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
3.2.1.1. Category I					
3.2.1.2. Category II					
3.2.1.3. Category III					
3.2.1.3.1. Monitor UTC personnel approaching "Ready to Certify" phase to schedule for training					
3.2.1.3.2. Monitor UTC training expiration dates to ensure personnel will not expire during "Available to Commit" and "Reset"					
3.3. Ready Airman Advanced Training					
3.4. CMRP Training:					
3.4.1. Category I - Clinical Currency					
3.4.2. Category II - Readiness Skills					
3.4.3. Category III - UTC Training					
3.4.4. Category IV - IMAHR					
3.5. Medical Pre-Deployment Staff Training					
3.5.1. Be familiar with which personnel require Life Support training (BLS/ALS/ACLS/PALS)					
3.5.2. HIPAA					
3.5.3. TCCC Tier 2 & Tier 3					
3.6. Medical Readiness Training & Exercise Scheduled (MRTES)					
3.7. Conduct training for Functional Managers					
4. Plans **TR:** DAFI 10-2501, *Emergency Management Program*; AFI 10-2519, *Public Health Emergencies and Incidents of Public Health Concern*; AFI 10-2519, *Public Health Emergencies and Incidents of Public Health Concern*; AFI 41-106, *Medical Readiness Program*; AFI 10-1302, *Air Force Lessons Learned Program*					
4.1. Review/be familiar with local Medical Contingency Response Plan (MCRP) and requirements					
4.1.1. Be familiar with construct of all IMAHR Teams in accordance with local/base capabilities and requirements					
4.1.1.1. Management of Team Chiefs					
4.1.1.2. Know how to draft, submit input, and publish MRTES in coordination with Medical Readiness Training POCs					
4.1.1.3. Know how to fund and procure IMAHR equipment					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
4.1.1.4. Medical Readiness Committee (MRC)					
4.1.1.4.1. Prepare MRC content/slides					
4.1.1.4.2. Document MRC minutes and submit to MAJCOM/SGX					
4.2. Installation Deployment Plan (IDP)					
4.3. Installation Emergency Management Plan (IEMP)					
4.4. Disease Containment Plan (IDP)					
4.5. Base Support Plan					
4.6. Facilitate Medical Readiness Memorandum(s) of Agreement and/or Understanding					
4.7. Base/unit exercise planning					
4.8. Host/participate in real world event/exercise hot washes					
4.9. Prepare After Action Reports (AAR)					
4.10. Conduct training for IMAHR Team Chiefs					
5. UTC Management **TR**: DAFI 10-201, *Force Readiness Reporting*; AFI 10-204, *Air Force Service Exercise Program* and *Support to Joint and National Exercise Program*; DAFI 10-401, *Air Force Operations Planning and Execution*; AFI 10-403, *Deployment Planning and Execution*; DAFI 10-2501, *Emergency Management Program*; AFI 41-106, *Medical Readiness Program*; AFI 48-133, *Duty Limiting Conditions*					
5.1. Know difference between UTC/cycle assignment in MRDSS vs. cycle assignment in MilPDS					
5.2. Be familiar with cycle change approval procedures with MAJCOM/SGX					
5.3. Review AFMS Prioritization & Sequencing Guide (P&S)					
5.4. Assign UTC/cycle for new personnel within 15 days of assignment					
5.5. Monitor UTC vacancies and fill positions in accordance with AFMS priorities and AFFORGEN cycle					
5.6. Monitor personnel with DAV codes and remove personnel as necessary in accordance with regulations					
5.7. Be familiar with Air Force War & Mobilization Plan (WMP) Supplement 1 for allowable AFSC substitutions					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	**2. Date Started**	**3. Date Completed**	**4. Trainee Initials**	**5. Trainer Initials**	**6. Certifying Official Initials**
5.8. Know how to review the Manpower Force Element Listing (MFEL) for UTCs to be aware of UTC personnel requirements and restrictions					
5.9. Be familiar with/know how to locate AFMS TTPs					
6. Force Readiness Reporting **TR**: DoDI 7730.66*, Guidance for the Defense Readiness Reporting System (DRRS)*; CJCSI 3401.02B, *Force Readiness Reporting;* CJCSM 3150.01, *Joint Risk Analysis; AFPD 10-2, Readiness;* AFI 10-401, *Air Force Operations Planning and Execution*; AFI 10-403, *Deployment Planning and Execution;* DAFI 10-2501, *Emergency Management Program;* AFI 10-201, *Force Readiness Reporting*; AFI 10-204, Air *Force Service Exercise Program* and *Support to Joint and National Exercise Program*; AFI 41-106, *Medical Readiness Program*; AFMAN 10-206, *Operational Reporting (OPREP)*					
6.1. DOC Statement					
6.1.1. Know how to review DOC Statement annually and after updates. Communicate errors to MAJCOM/SGX and update POC information					
6.2. UTC Readiness					
6.2.1. Know how to pull applicable MRDSS reports as supporting documentation for DCAPES UTC Assessment					
6.2.2. Be able to analyze MRDSS report data to transcribe to DCAPES UTC Assessment					
6.2.3. Be able to access and input analysis in DCAPES UTC Assessment					
6.2.4. Be able to guide unit commander through DCAPES for final report approval					
6.3. Resource Readiness					
6.3.1. Be able to analyze MRDSS report data to transcribe to AF-IT report					
6.3.2. Be able to access and input analysis in AF-IT report					
6.3.3. Be able to guide unit commander through AF-IT for final report approval					
6.4. Capability Readiness					
6.4.1. Be able to analyze MRDSS report data to transcribe to DRRS Mission Essential Tasks (MET)					
6.4.2. Be able to access and input analysis in DRRS METs					
6.4.3. Be able to guide unit commander through DRRS for final report approval					
6.5. Know how to prepare/explain all classified readiness reports for commander review					

Medical Readiness 325 SEI Tasks, Knowledge, and Technical References (TR)	***2. Date Started***	***3. Date Completed***	***4. Trainee Initials***	***5. Trainer Initials***	***6. Certifying Official Initials***
6.6. Be familiar with local and AF suspenses for monthly report completion					
6.7. **MEDRED-C**					
6.7.1. Know when/how to submit MEDRED-C report					
7. Air Force Force Generation (AFFORGEN)					
7.1. Understand each of the four phases within the two-year AFFORGEN cycle and what pre-deployment requirements are associated with each (Reset, Prepare, Ready to Certify, Available to Commit)					
7.2. Be familiar with assigned unit MRL and which cycles unit personnel are assigned to prepare appropriately for Available to Commit phase					

Section D – Course Objective List

1. Resident Courses. If a written copy of the course objective list is required, contact 382 TRS/TRR, 2931 Harney Road, Fort Sam Houston TX 78234-2532 or call DSN 420-5932. A copy will be sent to you as soon as possible.

2. Measurement. Students are measured in both knowledge and performance elements using a written test and a performance progress check.

3. Standard. The course minimum standard is 70% on written examinations. Standards for performance measurement are indicated in the objective and delineated on the individual progress checklist. Instructor assistance is provided as needed during the progress check and students may be required to repeat all or part of the behavior until satisfactory performance is attained.

4. Proficiency Level. Most course task performance is taught to the 2b proficiency level, which means the student can do most parts of the task but does need assistance on the hardest parts of the task (partially proficient). The student can also determine step-by-step procedures for doing the task.

5. Career Development Courses. CDC information can be obtained from the Air Force Career Development Academy at Keesler AFB, MS.

Section E – Support Material

1. The following list of support materials and training platforms is not all-inclusive; however, it covers the most frequently referenced areas.

1.1. Beneficiary Counseling Assistance Coordinator (BCAC). Personnel assigned as BCACs should use the following TPs to become proficient in the tasks associated with new responsibilities.

1.2. Exceptional Family Member Program (EFMP). The SNIAC website provides the latest information and tools on the SNIAC program. Personnel who perform duties that are part of the overall SNIAC process, e.g., the Family Member Relocation Coordinator, should access this site as well as apply for a password to access the Q- Base online tool. The AFMED/SGH EFMP website has information on the EFMP process.

https://kx2.afms.mil/kj/kx8/efmp/pages/home.aspx

1.3. The Health Benefits Websites. These websites provide the latest information and tools on Health Plan Management. Some information on these websites may be password protected; therefore, personnel may be asked to apply for an account to gain access.

https://health.mil

https://tricare.mil/

https://www.tricare-overseas.com

https://www.milsuite.mil/book/community/spaces/dha-pad

1.4. TRICARE Fundamentals Course. TRICARE Fundamentals Course. The target audiences for this course are BCACs, Debt Collection Assistance Officers (DCAOs), and Contract Representatives who are on their initial TRICARE assignment. Other eligible attendees are Military Family and Readiness Center personnel, Reserve Component Unit Representatives, TRICARE staff, and other personnel who have TRICARE outreach responsibilities, newly assigned TOPA Flight Commander and TOPA Flight Chief. This course is not intended for those

personnel who have attended previously or other similar courses.

1.4.1. Classroom Training. The three-day classroom course provides participants with well-trained instructors and the opportunity to interact with other students who assist TRICARE beneficiaries. The course provides an ideal setting for discussing beneficiary and staff concerns. Registration opens about one month before the scheduled course start date. You may attend a course in any region, but seating is available on a first-come, first-served basis. There are no fees for the course registration or materials. However, funding for travel, lodging, and associated travel fees are the responsibility of the participant's unit/agency.

https://www.health.mil/training-center

1.5. Debt Collections Assistance Officer (DCAO). Personnel assigned as DCAOs should use the following TPs to become proficient in the tasks associated with new responsibilities.

1.6. Health Plan Analyses. Personnel assigned duties within the scope of health plan analyses, use the following TPs to become proficient in the tasks associated with new responsibilities. References: Step-by-Step Guide for Population Health, DoD Population Health Improvement Plan and Guide, and A Guide to Population Health.

1.7. Physical Evaluation Board Liaison Officer (PEBLO). The measurement of the TP is the responsibility of the using MTF. Personnel assigned as a PEBLO should thoroughly review these publications:

AFI 36-3212, *Physical Evaluation for Retention, Retirement, and Separation*

DAFMAN 48-123, *Medical Examinations and Standards*

AFI 48-133, *Duty Limiting Conditions*

DAFMAN 48-108, *Physical Evaluation Board Liaison Officer (PEBLO) Functions: Pre-Disability Evaluation System (DES) and Medical Evaluation Board (MEB) Processing*

DoDI 1332.18, *Disability Evaluation System (DES)*

DoDM 1332.18, Volume 1 *Disability Evaluation System (DES) Manual: Processes*

DoDM 1332.18, Volume 3, *Disability Evaluation System (DES) Manual: Quality Assurance Program (QAP)*

2. PEBLO Training Workshop/Conference. The PEBLO DES workshop is conducted every two years and is sponsored by AFMED/SG3PF, Flight and Operational Medicine. This workshop provides key DES process updates and the opportunity to interact with all DES stakeholders. Subject matter curriculum incorporates fundamental aspects of DoD level DES directives as well as specific service administrative requirements that address appropriate case documentation requirements; necessity for timely case submissions; PEBLO- patient counseling; review-in-lieu of DES guidelines; and other general DES management functions required of PEBLOs.

3. Patient Administration Website. This website provides the latest information and tools for managing related functions. Some information on this website is password protected; therefore, personnel will be required to apply for an account to gain access. The Kx provides the latest information and tools for managing patient admin related functions:

https://kx2.afms.mil/kj/kx2/AFMOAHealthBenefits/Pages/home.aspx

4. Patient Movement Training. All personnel working within a Patient Movement capacity must complete the TRAC2ES Basic Training course. The TRAC2ES Basic course is intended to provide personnel with the skills required to utilize TRAC2ES in support of PM operations. This course provides hands- on instructions over the course of 1.5 days. Instructors will use lectures and provide demonstrations to introduce course materials and allow students to perform each

task. Class sizes vary but can facilitate up to ten students with deployers as priority. TDY costs to attend the course are the responsibility of the member's unit. If a significant number of personnel require training, a unit member can be selected to attend the TRAC2ES Train-the-Trainer course by their leadership. The Train-the- Trainer course is a 4-day course taught by the TRAC2ES Training Manager/Subject Matter Expert. Once the member is upgraded as a trainer, they will return to their unit and train remaining unit personnel on TRAC2ES Basic only. If attending a course is not financially feasible, a secondary option available is to complete the web based TRAC2ES CBT on JKO--Course: DHA-US692 TRAC2ES Overview Course. This CBT fulfills the same requirements as the 1.5-day course.

https://jkodirect.jten.mil

The 4A0X1 Aeromedical Evacuation (AE) JQS in this CFETP was developed to standardize and document minimum administrative duties and task qualifications relevant to the AE process.

5. Air Force Medical Home Operation (AFMHO) Resident. The purpose of this course is to provide initial indoctrination or refresher training in AFMHO IAW AFI 44-171. This is a 4-day course designed for all AFMH members. The course integrates clinical practice and processes with administrative operations concepts and performance outcomes. The course focuses on the knowledge areas necessary to execute full spectrum AFMHO in our increasingly complex healthcare environment. Knowledge of AFMHO is essential to establishing AFMS MTFs as Highly Reliable Organizations (HROs) to provide the safest, most accessible, and highest quality care possible. The DHA Patient Centered Medical Home Advisory Board has endorsed the AFMS training until equivalent DHA training is available.

6. Health Plan Manager Orientation Course. This course provides training for officers going into the position of TOPA. Emphasis is placed on the skills required to prepare the health services administrator to effectively manage TOPA programs to carry out the mission of the MTF. Training is conducted in a workshop environment utilizing data from the student's MTF. All course content is correlated with appropriate standards and AF instructions. 4A0X1 personnel may attend on space available basis.

https://usaf.dps.mil/teams/app10-etca/SitePages/Course.aspx?ao=1&i=3927&isdlg=1

7. CMRP Training. The CMRP training tasks are identified in the CMRP checklist which is the catalyst for training program development.

8. Uniformed Business Office (UBO). Personnel performing UBO functions should refer to the DoD UBO website.

9. Defense Health Agency Publications. Functional references established for use by military healthcare facilities and military medical entities. The digital library for these references are available at:

https://info.health.mil/cos/admin/pubs/SitePages/DHA%20Publications%20System%20Office% 20(PSO).aspx

Section F – Training Course Index

1. Purpose. This section of the CFETP identifies training courses available for the specialty. Refer to the ETCA website for complete information on the courses listed in this section.

1.1. Air Force In-Resident Courses:

Course Number	Course Title	Duration	Location
L5ABJ4A031 01AB PDS Code: IFU	Health Services Management Apprentice	38 days	JBSA Fort Sam Houston, TX
L5AXO4A071 00AB PDS Code: MQ8	Medical Expense and Performance System (MEPRS)	15 days	Various Locations
L3OZR4XXX 08CC PDS Code: OX2	Air Force Medical Home Operations (AFMHO) Resident	4 days	Various Locations
L3OZR41A3 08CA PDS Code: X0H	Health Plan Manager Orientation Course	10 days	JBSA Fort Sam Houston, TX
L2ORP4XXX 00PA PDS Code: 26U	Aeromedical Evacuation and Patient Staging Course (AEPSC)	5 days	JBSA Camp Bullis, TX
L2ORP4XXX 00EA PDS Code: 25C	Expeditionary Medical Support-Health Response Team (EMEDS-HRT)	5 days	JBSA Camp Bullis, TX
L3OZR4XXX 00BA PDS Code: OYH	Medical Readiness Management Course	10 days	JBSA Fort Sam Houston, TX
L5OXO4XXX 08BD PDS Code: 3NT	Joint Medical Operations Course – Basic	5 days	Various Locations
L5OXA44XX 00CB PDS Code: X3T	Joint Medical Operations Course - Regular	5 days	Various Locations
L5OXN4XXX 08AB PDS Code: Q7O	Joint Medical Planner Tool Course (JMPT)	5 days	Various Locations
MCADRE002 PDS Code: 82U	Contingency Wartime Planning Course	10 days	Maxwell AFB, AL
L3OZR41A3 08EA PDS Code: XOJ	Medical Information Services Manager Orientation Course	10 days	JBSA Fort Sam Houston, TX
B3XZYPRP 0A1A PDS Code: 15M	Personnel Reliability Assurance Program (PRAP) Course	4 days	Various Locations

1.2. Courses under Development/Revision. The below table lists course that are being or will be developed with projected new course numbers.

Course Number	Course Title	Duration	Location
L5ABJ4A031 01AC PDS Code: IFU	Health Services Management Apprentice	38 days	JBSA Fort Sam Houston, TX
L3OZR41A3 08CB PDS Code: X0H	Health Plan Manager Orientation Course	10 days	JBSA Fort Sam Houston, TX
L3OZR4XXX 00BB PDS Code: OYH	Medical Readiness Management Course	10 days	JBSA Fort Sam Houston, TX
L3OZR41A3 08EB PDS Code: XOJ	Medical Information Services Manager Orientation Course	10 days	JBSA Fort Sam Houston, TX

Section G – MAJCOM Unique Requirements

1. Air National Guard (ANG). This section applies to all Health Services Management specialty personnel assigned to Air National Guard.

2. Initial Skills Training Waiver. NGB/SG may grant waivers on a case-by-case basis IAW NGB/A1 Classification Waiver Guide. (OPR: NGB/SG, Chief, Medical Enlisted Force (CMEF).

3. Proficiency Training. Proficiency Training (Mission Essential Skills Training (MEST) will be accomplished IAW current Fiscal Year NGB/A1D Workday Guidance.

Section H – Documentation of Training

1. The MyTraining platform serves as the single, automated repository for all medical enlisted specialty training. Consult the most current MyTraining message for detailed instructions regarding automated training documentation requirements.

2. Master Training Plan (MTP). A reference guide developed for each section that includes all facets of training for individuals assigned. It is to be used as a reference source for the type of training and documentation pertaining to each assigned member. The MTP is used to standardize training and provide an overview of the training process for the duty section. The MTP is also used to reduce the amount of paperwork previously required during the training process.

3. The MTP is an overview of training for the duty section. It should include all documents involved in the training process for the duty section. Training will vary from section to section and person to person, but there are certain documents that will be a standard requirement for all MTPs. They are listed below:

3.1. Master Task List (MTL).

3.2. CFETP.

3.3. Locally developed AF Form 797s, *Job Qualification Standard Continuation/Command JQS.*

3.4. Milestones for tasks and CDC completion.

3.5. Unit Specific Orientation Checklist.

3.6. Job descriptions/performance standards.

3.7. QTP required to perform peacetime/wartime duties.
