PROFESSIONAL MILITARY EDUCATION AND DEVELOPMENT ADVISORS
SDI 8T000/8T100/8T200
CAREER FIELD EDUCATION AND TRAINING PLAN

Part I

Preface

1. The success of Enlisted Professional Military Education (EPME) and Enlisted Professional Continuation Education (EPCE) requires vision, preparation, and attention to ensure faculty and support personnel have the right knowledge, skills and abilities to develop and deliver a responsive and relevant continuum of enlisted education to prepare USAF Airmen, Sister Service, and civilians to meet the challenges our Air Force confronts, both at home and abroad. Constrained Air Force resources, expanding mission focus, and ever-changing technologies are impacting the availability and capability of our most valuable resource--people. These factors will continue to exist in the future, making it essential for the EPME enterprise and Development Advisors (DA) to be effectively and efficiently trained to perform duties required in these Special Duty Identifier (SDI) career fields. To meet the challenges of tomorrow, the Air Force must continue to place great emphasis on education.

2. This CFETP is a comprehensive education and training document that identifies life cycle education and training requirements, training support resources, and minimum core task requirements for this specialty. The CFETP provides personnel with a clear career path to success and instills rigor in all aspects of career field training. Note: Civilians occupying associated positions use Part 2 to support duty position qualification training.

2.1. The CFETP consists of two parts; supervisors plan, manage, and control training within the specialty using both parts of the plan.

2.2. Part I provides information necessary for overall management of the specialty. Section A explains how everyone will use the plan; Section B identifies career progression information, duties and responsibilities, competencies, career field path and Community College of the Air Force (CCAF) information; Section C illustrates SDI training requirements; and Section D indicates resource constraints (e.g., funds, manpower, equipment, facilities).

2.3. Part II includes the following: Section A identifies the Specialty Training Standard (STS) and includes duties, tasks, technical references (TR) to support training, Air Education and Training Command (AETC)-conducted training, core task, and correspondence course requirements. Section B and Section C are not used. Section D identifies training courses available to the SDI 8T000/8T100/8T200; Section E identifies MAJCOM unique training requirements supervisors can use to determine additional training required for associated qualification needs. At unit level, supervisors and trainers use Part 2 to identify, plan, and conduct training commensurate with the overall goals of this plan.

3. Using CFETP guidance ensures individuals in this specialty receive effective and efficient training at the appropriate points in their career. This plan enables us to train today's work force for tomorrow's jobs.

ABBREVIATIONS/TERMS EXPLAINED

Accreditation. A non-governmental and voluntary process concerned with improving educational quality and assuring the public that member institutions meet established standards.

Affiliated School. Any school accepted into the CCAF system. An affiliated school's curriculum is worth college credit to its graduates.

Affiliated School Liaison (ASL). An individual assigned to each EPME school responsible for management of EPME electronic faculty folders, reporting faculty credentialing information and any requirements levied on EPME schools by CCAF.

Airmanship 400 (ALS). First level of Air Force EPME.

Airmanship 600 (NCOA). Second level of Air Force EPME.

Airmanship 800 (SNCOA). Third level of Air Force EPME

Airmanship 900 (CLC). Fourth level of EPME.

Air Force Force Generation (AFFORGEN). A model that enables the Air Force to build and sustain readiness for deployments. It consists of a cycle of four phases – Available, Reset, Prepare, and Ready – that span 24 months.

Air Education and Training Command (AETC). Major Command (MAJCOM) responsible for the development and growth of Air Force personnel through selective recruiting, training, and comprehensive education.

Air Force Career Field Manager (AFCFM). An individual assigned to the Air Staff charged with overseeing all training and career field management of an Air Force specialty or group of specialties.

Air Force Specialty Code (AFSC). A combination of numbers and alpha characters used to identify an Air Force Specialty. Enlisted AFSCs consist of five alphanumeric characters.

Air Reserve Component (ARC). The forces of Air National Guard (ANG) and Air Force Reserve Command (AFR).

Air University's Student Information System (SIS). SIS is a web-based Student Management System exclusive to EPME used to support daily operations related to the administration and execution of EPME resident courses. It also serves as a repository of individual student and course data for internal analysis, program management, and internal reporting, review/retrieval in special circumstances such as investigations, and provides graduate record information.

Barnes Center for Enlisted Education (BCEE). Established in 2009, the Barnes Center discharges AU's responsibility for educating enlisted leaders throughout the Air Force.

Barnes Center Operations (A3/5). The organization is responsible for the policy, evaluation, and program standardization of EPME programs throughout the Air Force.

Career Field Education and Training Plan (CFETP). Primary document used to identify life-cycle education and training requirements. It serves as a road map for career progression and outlines requirements that should be satisfied at appropriate points throughout the career path. The CFETP also specifies the mandatory task qualification requirements and/or required learning behaviors and occupational competences for award and maintenance of an AFSC. CFETPs are officially posted at http://www.e-publishing.af.mil/.

Coaching. Relationship where an uncertified or certified professional coach provides technical support focusing on development of mentees based on their identified performance need.

Certification. A formal indication of an individual's ability to perform a task to required standards.

Commandant (CO). An individual who is responsible for all aspects of school operations and provides leadership, guidance and direction to the faculty, support staff, and students.

Community College of the Air Force (CCAF). The CCAF is a multi-campus, federally chartered institution. CCAF awards the associate in applied science degree as part of AU, which is accredited through the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

Competencies. Observable, measurable pattern of knowledge, skills, abilities, behaviors, and other characteristics needed to perform institutional or occupational functions successfully.

Competency Model. A collection of competencies that together define successful performance in a particular work setting. Competency models are the foundation for important human resource functions such as recruitment and hiring, training and development, and retention. Competency models may be developed for specific jobs, job groups, organizations, occupations, or missions. Some competency models include information about the levels of competence, mastery, or proficiency required at different occupational levels.

CCAF Instructor Certification (CIC). A certificate offered by CCAF to its instructors teaching in affiliated schools. The CIC is a professional credential that recognizes the instructor's extensive faculty development training, education, and qualification required to teach a CCAF course and formally acknowledges the instructor's practical teaching experience.

CCAF Policies, Procedures and Guidance (PPG). The document familiarizes affiliated school faculty and staff members with CCAF's academic mission, general organization, and policies and procedures applicable to schools affiliated with the college. It also assists faculty and staff members with understanding how their duties and responsibilities fit within the larger organization-of-context of CCAF and its accreditation as a part of Air University through the accrediting body.

Continuum of Education (CoE). Continuum of Learning consists of three developmental areas: education, training, and experience. The CoE is the education component; the formulation of an educational paradigm that presents a steady and continuous growth of Airmen's cognitive abilities over the span of their careers. It both supports and is supported by training and experience.

Core Task. A task that AFCFMs identify as a minimum qualification requirement within an Air Force specialty or duty position.

Distance Learning (DL). Structured learning that does not require the physical presence of the instructor.

Department of the Air Force Enlisted Classification Directory (DAFECD). Air Force guide establishing the occupational structure of DAF enlisted AFSCs. The directory covers special duty summary, duties and responsibilities, specialty qualifications and utilization for all AFSCs.

Deputy Commandant. Leads faculty development, oversees course curriculum, and manages instructor hiring, training, and qualification at NCOAs and SNCOA.

Development Advisor. The principal advisor to commanders, supervisors and individuals on retention issues, benefits, career progression, retraining, cross training, and special duty opportunities. DAs manage and conduct installation professional development programs and courses.

Developmental Duty (DD). Program that manages enlisted developmental positions with unique leadership roles and responsibilities. Airmen volunteer through MyVector Talent Marketplace (TM) to fill critical positions while providing a developmental career path. This program focuses on nominations for Staff Sergeant through Senior Master Sergeant.

Education. Academic and experiential learning focused on general bodies of knowledge, principles within a given discipline, and habits of the mind. This type of learning is applicable to a broad spectrum of foundational and/or occupational competencies.

Electronic Faculty Folder. An electronic record of the teaching faculty's credentials and qualifications maintained online. The primary source of instructor qualification documentation for EPME instructors, maintained by ASLs and organized IAW EPME Handbook and the CCAF PPG.

Enlisted Heritage Research Institute (EHRI). Used to educate and motivate visitors by researching, preserving, and showcasing to the world our Air Force enlisted history, heritage, and their resulting contributions to air power.

Enlisted Professional Continuation Education (EPCE). Any course that is less than 20 weeks in duration and satisfies mission accomplishment, sustainment, or enhancement as required by law, Air Force governance, specific memorandum of agreement, or position requirement. Professional continuing education should not be confused with initial skills and subsequent advanced training courses that are required to advance in the Air Force Specialty Code skill level.

Enlisted Professional Military Education (EPME). Critical subset of developmental education that: 1) provides the nation with personnel skilled in the employment of air, space, and cyberspace power in the conduct of war, small scale contingencies, deterrence, peacetime operations, and national security; 2) provides Air Force personnel with the skills and knowledge to make sound decisions in progressively more demanding leadership positions within the national security environment; and 3) develops strategic thinkers, planners, and war fighters. In addition, professional military education programs strengthen the ability and skills of Air Force personnel to lead, manage, and supervise.

EPME Course Application Toolkit. A suite of applications developed by HQ BCEE to support dynamic curriculum activities, centralized academy-based tools, and any on-demand software development required to execute the EPME mission.

EPME Instructor Course (EPMEIC). Pre-service education required prior to instructing or developing EPME curriculum. Mandatory for all assigned 8T instructors, curriculum designers, Development

Advisors (DAs) and other selected personnel who have not completed an approved methodology through CCAF.

Experiential Learning. Formal and informal experiences (e.g., field exercises, internships, or simulations), which enhance and expand an individual's competencies. This type of learning activity provides challenging environments, broadens perspectives, encourages reflective thinking, introduces new or enhances existing competencies, and allows for the observation of a learner's real-time actions.

Faculty Development. The deliberate effort to develop faculty to reach their full personal and professional potential in support of the AU mission.

Faculty Qualification Tracking Tool (FQTT). Developed by HQ AETC to track instructor qualifications and fill the capability gap created by decommissioning STARS-FD.

General Education Requirements (GER). Fifteen semester hours (3 each) of communication, written communication, mathematics, social sciences and humanities.

HQ USAF/A1DL. The office symbol for the Chief, Enlisted Developmental Education who is the AFCFM for the 8T000/8T100/8T200 career fields.

Initial Instructor Qualification Training (IIQT). Mandatory training requirements that include pre-service education, teaching internship requirements, core task certification, and oral and written proficiency.

In-Service Training (IST). Ongoing/recurring training for all faculty to enhance instructional or design skills and update their knowledge of new or existing policies and procedures.

Instructional System Administrator (ISA). Designated individual(s) responsible for the daily administration of the Learning Management System/Student Information System and other applicable systems. ISAs at the individual school/academy are the primary interface with the Barnes Center's Technology Integration Section for implementation of instructional technology systems (ITS) in their various forms. In addition, ISAs serve as the primary focal point for problem resolution/escalation with regards to faculty/student usage of course based ITS.

Instructional System Development (ISD). A deliberate, orderly, and flexible process for planning, developing, implementing, evaluating, and managing instructional systems. It ensures students are taught the knowledge, skills, and attitudes essential for successful job performance in a cost-effective manner.

Instructor (Airmanship 400, 600, 800, 900, EPMEIC). A faculty member teaching EPME courses that has met the degree requirements IAW approved AF DD guidance; completed 3 semester hours of CCAF-approved instructor methodology; completed a 12-semester hour CCAF-approved teaching internship course, completed IIQT/LQT, received annual instructor evaluations; and has been subject-matter qualified.

Instructor Candidate (IC). An assigned faculty member prior to EPMEIC completion. Instructor candidates cannot be used for any instructor duties, but they may start core task certification on tasks that do not involve student contact to include lesson plan preparation and subject matter testing.

Instructor Supervisor (IS). Serves as subject matter expert for maintaining proficiency of assigned duties, while maintaining qualifications to perform instructor duties. Performs instructional duties in a flight based on mission needs. Provides instructor training and mentorship on Train-For-Success principles and strategies, to develop instructor core competencies; and ensures adherence to CCAF PPG and EPME Handbook directives. Supports and advocates use of feedback programs. May perform duties as supervisor/reporting official (rater) for other instructors.

Instructor Trainer (IT). Qualified instructors assigned to train new instructors.

Instructor of Technology and Military Science (ITMS) Degree. A CCAF degree for Air Force and other service enlisted personnel who are assigned to CCAF affiliated schools teaching CCAF degree-applicable courses.

Joint Lessons Learned Information System (JLLIS). A knowledge management and continuous improvement program that supports organizational learning from experience gained in operations, training events, exercises, experiments, wargames, and other activities, as well as historical data.

Learning Management System (LMS). Web-based content management system used to support daily operations related to the administration and execution of academic courses. It may also serve as a repository of individual student and course data for internal analysis, program management, and internal reporting, review/retrieval of data used in special circumstances such as investigations and provide graduate record information.

Lesson Qualification Training (LQT). Training designed to qualify individuals on curriculum specific lessons. LQT ensures individuals possess the subject matter expertise and instructional ability required to effectively teach EPME curriculum.

PME Center. A facility where the ALS and NCOA are collocated. The academic programs may be taught either simultaneously by separate instructor cadres, or alternately by dual-qualified instructors. This also includes Inter-American Air Forces Academy (IAAFA) and Inter-Pacific Air Forces Academy (IPAFA).

Pre-service Education. A requirement for all EPME instructors that must be met prior to teaching in an EPME classroom to meet the accreditation criteria set by SACSCOC. This requirement is met through the EPMEIC. Commandants can initiate the EPMEIC waiver process through Barnes Center A3/5, for previously qualified CCAF instructors. Instructors must have completed a CCAF approved methodology, CCAF Internship and time removed from CCAF classroom is less than 5 years.

Professional Development (PD). Within the 8T000/8T100/8T200 career fields, engagement in a set of learning experiences designed to achieve specific goals and long-term objectives. Learning experiences often occur in the workplace, and include coaching, mentoring, job rotation, developmental assignments, on-the-job training, and self-study courses.

Program Management Review (PMR). Periodic evaluation conducted by Barnes Center A3/5 either by virtual PMR or on-site PMR method to evaluate EPME program management effectiveness, assess curriculum effectiveness, provide faculty assistance, and support the ISD process through external evaluation.

Program Requirements Document (PRD). Validates the Department of the Air Force's (DAF) resident officer and enlisted Developmental Education (DE) requirements for the Project Objective Memorandum

(POM) submission for Active Duty, Guard, and Reserve components. It identifies requirements based on succession planning, current DAF inventory, promotion rates, attrition rates, end strength, and policy.

Qualification Training (QT). Hands-on performance training designed to qualify an Airman in a specific position. This training occurs both during and after upgrade training to maintain up-to-date qualifications.

Registrar. Individual responsible for managing class rosters, faculty AUSMS accounts, student registration, student graduation, and AUSMS administrative requirements and reports.

Resource Constraints. Resource deficiencies/limitations, such as money, facilities, time, manpower, and equipment that can impact required training.

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). The regional body for the accreditation of degree-granting higher education institutions that accredits AU, CCAF, and all EPME schools apart from SNCOA and Foundations.

Special Duty Catalog (SPECAT). An assignment guide published by the Air Force Personnel Center (AFPC) listing requirements and application instructions for special duty assignments.

Special Duty Identifier (SDI). Authorizations for enlisted Airmen assigned to and performing an actual group of tasks on a semipermanent or permanent duty basis. These duties are unrelated to any specific career field and do not provide a normal career progression pattern.

Special Training Requirements Team (STRT). Forum to determine education and training requirements by bringing together the expertise to establish the most effective mix of formal and OJT training for each AFS skill level.

Specialty Training Standard (STS). An Air Force publication that describes an Air Force specialty in terms of tasks and knowledge that an Airman in that specialty may be expected to perform or to know on the job. It also identifies the training provided to achieve a 3, 5, or 7- skill level within an enlisted Air Force Specialty. It further serves as a contract between AETC and the functional user to show which of the overall training requirements for an AFSC are taught in formal schools and correspondence courses. The 8T AFSC uses the STS as a tool to establish tasks and knowledge to perform on the job requirements, not to establish 3, 5, or 7-skill level.

Standard. A predetermined quality or quantity, against which performance skills and knowledge are measured. An exact value, a physical entity, or an abstract concept, the appropriate authority, custom, or common consent sets up and defines to serve as a reference, model, or rule in measuring quantities or qualities, developing practices or procedures, or evaluating results. A fixed quantity or quality.

Student Information System (SIS)/Student Management System (SMS). The general terms used to describe a system that provides capabilities for registering students in courses, documenting grade transcripts and results of student tests and other assessment scores, build student schedules, track student attendance, and manage many other student-related data needs. A SIS/SMS should not be confused with a learning management system where course materials, assignments, and assessment tests can be published electronically.

Student Instructor (SI). An instructor teaching CCAF courses who has completed an instructor methodology course but has not completed all requirements to become a qualified instructor.

Superintendent of Operations. Manages student operations at A600, NCOA and A800-900, SNCOA.

Superintendent of Logistics. Performs the resource management function at A600, NCOA and A800-900, SNCOA.

Teaching Internship (Formerly Student Teaching Course or Practicum). The requirements and practical teaching experience new instructors must meet under the supervision of a qualified instructor.

Training/Technical Reference (TR). Any documentation used to support training.

Trainer. A trained and qualified person who teaches personnel to perform specific tasks through on-the-job training (OJT) methods.

Training Setting. The forum in which training is provided (formal resident school, on-the-job, field training, mobile training team, self-study, etc.).

Utilization and Training Workshop (U&TW). A forum of MAJCOM AFSC or SDI functional managers, Subject Matter Experts (SMEs) and AETC training personnel that determines career ladder training requirements.

Section A - General Information

1. Purpose. This CFETP provides the information necessary for CFMs, MFMs, commanders, UTMs, supervisors and trainers to plan, develop, manage, and conduct an effective and efficient career field training program. The plan outlines the training individuals in this Air Force specialty should receive to develop and progress throughout their career. This plan identifies initial skills, qualifications, advanced, and proficiency training to plan, develop, manage, conduct, and evaluate effective EPME & EPCE programs. Initial skills training is the Air Force specialty specific training an individual receives upon entry into this specialty. Qualification training is actual hands-on task performance training designed to qualify a member in a specific duty position. Standardized education and training requirements for all PME Instructor, PME Instructional System Designer, or DA is necessary. This CFETP accurately reflects what is necessary for new or experienced Instructors, Designers, or DAs to prepare for basic duties. This CFETP has several purposes—some are:

1.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field's training program. Also, it is used to help supervisors identify training at the appropriate point in an individual's career.

1.2. Identifies task and knowledge training requirements in the specialty and recommends education and training throughout each phase of an individual's career.

1.3. Identifies the core tasks and knowledge training requirements for instruction, support, and management duties.

1.4. Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

1.5. Identifies opportunities within the EPME and DA career fields and describes the duty requirements for each major position.

1.6. Identifies major resource constraints that impact full implementation of the desired career field training process.

2. Uses. The plan is used by MFMs and supervisors at all levels to ensure comprehensive and cohesive training programs are available for everyone in the specialty.

2.1. AETC training personnel develop or revise formal resident, nonresident, field, and exportable training based upon requirements established by the users and documented in Part 2 of the CFETP. They also work with the CFM to develop acquisition strategies for obtaining resources needed to provide the identified training.

2.2. Managers in all EPME and EPCE programs use this CFETP to develop qualified faculty and DAs who can meet the unique requirements of each teaching, management, or support position. OJT Training, resident training, and contract training or exportable courses can satisfy identified requirements. Ensure MAJCOM-developed training to support this AFSC is identified for inclusion into the plan.

2.3. MAJCOM EPME Functional Managers, commandants, and DAs ensure their training programs complement the mandatory initial facilitator or instructor qualification training and continuing education requirements.

2.4. The BCEE uses this CFETP to program training and education requirements for personnel engaged in

developing, administering and evaluating EPME and DA programs.

2.5. Each individual completes the mandatory training requirements specified in this plan. The list of courses in Part 2 is used as a reference to support training.

3. Coordination and Approval. The CFM is the approval authority. Also, the CFM will initiate an annual review of this document to ensure currency and accuracy.

3.1. Barnes Center A3/5 serves as the Office of Primary Responsibility (OPR) for this CFETP, hosts the 8T000/8T100/8T200 U&TWs as directed by the AFCFM to determine 8T000/8T100/8T200 training requirements and revises/develops an effective CFETP. The BCEE will maintain this CFETP, suggest necessary revisions, and submit new or revised CFETP versions to the AFCFM for action.

Section B – EPME & DA Development and Information

4. Specialty Descriptions.

4.1. **Special Duty Summary for 8T000**. Conducts EPME programs for Airmen, NCOs, and SNCOs; provides management consultant services.

4.2. **Duties and Responsibilities:** Reference most current DAFECD for updated information.

4.2.1 Instructs EPME topics. Provides curriculum delivery using informal lectures, case studies, teaching interviews, guided discussions, and a variety of other teaching methods. Coordinates with and incorporates local subject matter experts and class mentors into class schedules to further learning outcomes. Uses computers, software applications, audiovisual equipment, and multi-media tools in support of educational goals. Manages EPME course and activities. Plans and organizes course requirements for education, facilities, space, equipment, visual aids, and supplies.

4.2.2. Directs student registration, enrollment, and class schedules consistent with learning outcomes, goals and available resources. Monitors and ensures facilities support educational mission.

4.2.3. Directly supervises and guides student progression. Evaluates student performance. Mentors and counsels and advises individuals on academic and nonacademic issues impacting student performance and development.

4.2.4. Completes and maintains instructor qualification training requirements IAW the CCAF PPG, and BCEE policy. Reports faculty credentialing information in FQTT. Conducts curriculum in-service trainings on all curriculum materials. Identifies areas for improvement withing curriculum and provides feedback to BCEE/A7.

4.2.5. Prepares and maintains administrative files and records for students and faculty that are pertinent to EPME matters. Maintains completed school record files for historical review.

4.3. **Special Duty Summary for 8T100.** Develops and evaluates EPME programs for Airmen, NCOs and SNCOs.

4.4. **Duties and Responsibilities:** Reference most current DAFECD for updated information.

4.4.1 Monitors entire education program. Plans and organizes phases of education, student flow, and class schedules consistent with production goals and available resources. Identifies EPME requirements for education, equipment, visual aids and supplies pertaining to curriculum. Conducts needs analysis.

4.4.2. Develops and executes processes for institutional effectiveness. Prepares statistical reports and records about student performance. Monitors and analyzes assessment data to identify and implement improvement plans. Aligns self-assessment data across all BCEE programs, identifies trends, and suggests enhancements.

4.4.3. Reviews files and records provided by schoolhouses and academies pertinent to EPME matters.

4.4.4. Establishes criteria, policies, and procedures for executing and managing Air Force EPME programs to ensure DAF wide standardized program implementation and administration. Trains ASL on management of EPME electronic faculty folders. Advises commandants on all matters pertaining to EPME policy and procedures. Conducts periodic inspection of school activities and assists schools in deficiency corrections

4.4.5. Designs, researches, develops, implements, manages, and distributes quality EPME course. content, instructional methodology, student reading design, and evaluation instruments. Reviews and revises educational materials to ensure currency, relevancy, and accuracy. Seeks and responds to instructor feedback and recommendations on curriculum matters and implements revisions as needed. Evaluates and analyzes the overall effectiveness of EPME courses.

4.4.6. Coordinates and conducts in-service training with commandants and instructors on curriculum. Reviews, maintains, and updates student learning management systems to reflect current curriculum. Advises schoolhouses and academies on all curriculum matters.

4.5. **Special Duty Summary for 8T200.** Manages Enlisted Professional Continuation Education (EPCE), Informed Decision Seminars (IDS), miscellaneous professional enhancement, and First Term Enlisted Course (FTEC) programs. Assists commanders, command chiefs, and supervisors in career counseling. Advises Airmen and Guardians on career progression and planning, and benefits of continued service, entitlements, and conducts advertising and publicity of programs. Executes Foundations Courses (FCs), IDS, FTEC, and individual career counseling

4.6. **Duties and Responsibilities:** Reference most current DAFECD for updated information.

4.6.1. Advises commanders, supervisors, and enlisted personnel on force management programs as well as EPCE and enhancement opportunities.

4.6.2. Facilitates IDS and provides informational guidance on career decisions to ensure Airmen and Guardians are briefed at appropriate intervals. Assists commanders and senior enlisted leaders in the development of front-line supervisors by creating learning opportunities to support desired audience. Advises separating enlisted personnel on Air Force Reserve and Air National Guard program benefits and opportunities. Assists supervisors and commanders in counseling enlisted personnel on reenlistments, separations, special duty opportunities, retraining, entitlements and benefits.

4.6.3. Monitors force management initiatives. Assists the Force Support Squadron in the dissemination of information on personnel programs, new guidance that affects the base populace, advertisement, education, and execution of programs to meet AF objectives.

4.6.4. Works with ARC counterparts and recruiters to advertise benefits and opportunities of AFR and ANG duties. Prepares and distributes opportunities to Airmen contemplating a career decision.

4.6.5. Plans, organizes, and directs FCs. Plans and organizes requirements for facilities, space, equipment, visual aids, and supplies. Plans and organizes phases of education, student flow, and class schedules consistent with production goals and available resources. Instructs or coordinates to obtain subject matter expert instructors/facilitators for FC curriculum. Provides units with a platform to register members.

4.6.6. Provides functional oversight for the FTEC. The DA will perform and/or facilitate all FTEC responsibilities. Plans and organizes requirements for education, facilities, space, equipment, visual aids, and supplies. Plans and organizes phases of education, student flow, and class schedules consistent with production goals and available resources. Provides units with a platform to register members.

4.6.7. Provides management consultant services relating to career opportunities, progression, and planning. Conducts and administers courses, symposiums, workshops, or conferences; interprets organizational surveys; evaluates program management effectiveness and provides feedback.

4.7. **Skills and Career Progression.** The 8T000/8T100 AFSCs utilize a Faculty Development Diagram (Figure 1a) and the 8T200 AFSC utilizes a Development Advisor Growth Diagram (Figure 1b). Execution of the development is flexible to meet organization requirements.

Figure 1a. 8T000 Faculty Development Diagram

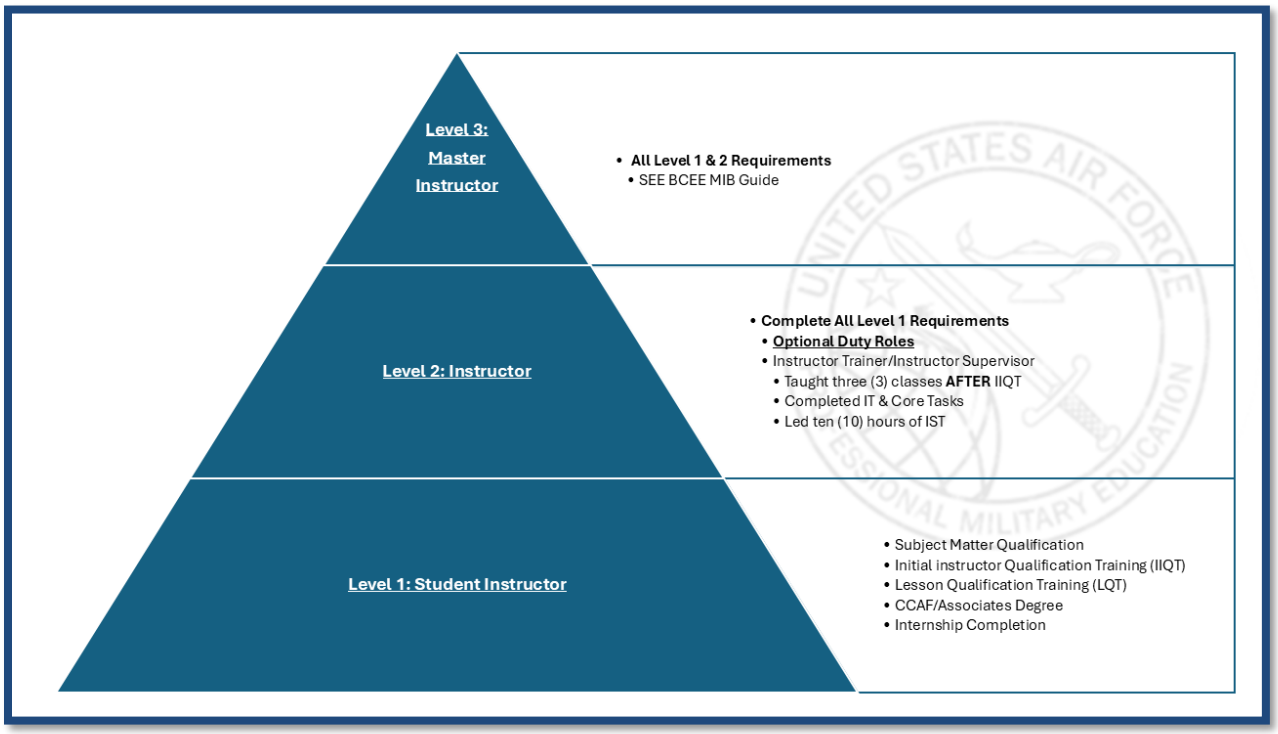

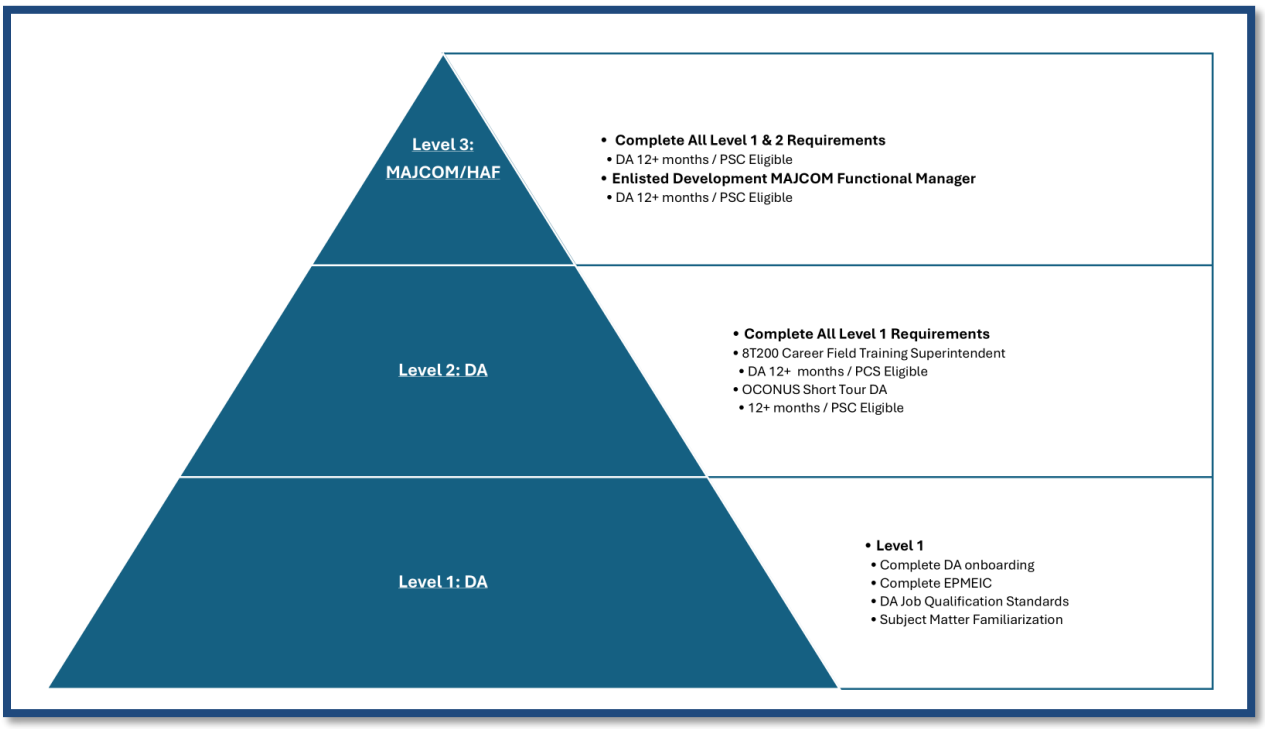

Figure 1b. 8T200 Development Advisor Growth Diagram

4.7.1. This area contains: Student Instructor, Instructor, Master Instructor and Level 1, Level 2, and Level 3 Development Advisor.

4.7.2. Student Instructor. This member has completed EPMEIC or approved CCAF methodology and is assigned to a course at an EPME school. They are a student instructor until they have completed their internship, and all requirements outlined in the CCAF PPG.

4.7.3. Instructor. This position is held by an instructor who has completed all internship requirements to become a fully qualified instructor. This is required to be completed within 12 months of the Date Assigned Instructor Duty (DAID).

4.7.4. Master Instructor. This qualification is held by an instructor who has completed the AETC/BCEE Master Instructor Badge requirements. Reference both the AETC Master Instructor Badge Handbook and the BCEE Master Instructor Badge requirements located on the BCEE SharePoint for further details.

4.7.5. Development Advisor Level 1. This member has completed EPMEIC and associated DA onboarding, subject matter familiarization and job qualifications.

4.7.6. Development Advisor Level 2. This member has completed all Level 1 DA Tasks, has 12+ months as a DA, is PCS eligible, and utilizes their DA experience to serve as the 8T200 Career Field Training Superintendent or OCONUS short tour personnel.

4.7.7. Development Advisor Level 3. This member has completed all Level 1 DA Tasks, has 12+ months as a DA, is PCS eligible and postured to utilize their DA experience at the MAJCOM, or HAF positions.

4.7.8. Authorized Duty Titles. IAW AFH 1 *Air Force Handbook*, Superintendent duty titles may only be held by SNCOs.

4.7.9. ALS is authorized to use Commandant, Instructor Supervisor, and Instructor.

4.7.10. NCOAs and PME Centers are authorized to use Commandant, Deputy Commandant, Superintendent of Operations, Superintendent of Logistics/NCOIC, Superintendent of Faculty Development/NCOIC, Instructor Supervisor, and Instructor.

4.7.11. Authorized SNCOA duty positions. Commandant, Deputy Commandant, Chief of Operations, Chief of Logistics, Superintendent of Faculty Development, Instructor Supervisor, and Instructor.

4.7.12. As assigned, DAs are authorized to use Development Advisor, 8T200 Career Field Training Superintendent, or Deputy 8TX CFM.

4.8. **Support.** This contains non-8T000 personnel assigned to an EPME schoolhouse and BCEE A3/5 faculty that are not assigned to an EPME schoolhouse.

4.9. 8T000/8T100/8T200 positions are controlled special duty tours, temporary in nature, and performed by Airmen for a period of up to 3 years. Based on the needs of the Air Force, extensions may be approved on a case-by-case basis. Duty descriptions, **not the title/position**, may be modified to meet the EPME level, unique local conditions or additional duties. DD qualifications are outlined in the SPECAT.

4.10. Optional Duty Titles: Commandants will not establish additional positions for individuals whose duty is accurately described by one of the duty titles identified in 4.3.2 through 4.3.2.4.

5. Competencies. The Air Force defines competencies as an observable, measurable pattern of knowledge, skills, abilities, behaviors, and other characteristics needed to perform institutional or occupational functions successfully. The Education and Training community has rebuilt the entire training platform by using competencies to identify the behaviors that are needed to be successful on the job. This has been accomplished by identifying and integrating the 8T000/8T100/8T200, PME, occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides all Airmen with transparent pathways towards their own successful development.

5.1. Foundational Competencies. The foundational competencies are a set of accepted and valued competencies, which enable success across a wide array of DAF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation.

5.2. Occupational Competencies. Occupational competencies are a set of competencies required of all Airmen within a specific workforce category. These competencies provide a framework that describe the technical/functional skills, knowledge, abilities, behaviors and other characteristics needed to perform that function's mission successfully.

5.3. Occupational Competency Model. A career field's competencies can be viewed in a competency model, which is an organized collection of competencies pertinent to the career field. The occupational competency model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the Education and Training community. The occupational competency model follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, OJT, formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives.

5.4. Career fields work with trained competency experts to identify and develop their competency model (Figure 2), which consists of competencies, sub-competencies, and sub-competency descriptions. Occupational competency models will be different for each career field. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery competencies required for Airmen to succeed in their career field.

Figure 2. 8T000/8T100/8T200, PME and DA Occupational Competency Model

Competency	Sub-Competency	Sub-Competency Description
ISD	Analysis	The process used to identify educational requirements, standards, conditions, performance measures and other criteria needed.
	Design and Development	The process to determine the instructional strategies and select the instructional methods, media, assessment; and develop instructional materials.
	Program Evaluation	The systematic method of gathering, documenting, analyzing, and interpreting empirical data to refine programs and processes to improve effectiveness and efficiency.
	Learning Technology	Deploying a variety of devices and platforms to facilitate, enhance, educate, and drive classroom focus and engagement.
Professional Foundations	Communication	The ability to articulate information through written and verbal methods to a wide range of audiences to a desired outcome.
	Building Partnerships	Forging purposeful connections through networking and collaboration with stakeholders to amplify readiness, development, and career progression for TF personnel.
	Leadership	The art and science of developing, inspiring and motivating adaptable teams to solve complex, ambiguous problems in academic environments.
	Faculty Management	Implementing comprehensive talent management strategies to continuously elevate and sustain success in learning environments.
Instructional Foundations	Instructional Methodology	Employing deliberate, planned and outcome oriented strategies, structured to facilitate success by adhering to applicable student learning styles.
	Applied Learning and Strategy	Creating a learning environment that champions active participation, collaboration and critical thinking.
	Classroom Assessment and Evaluation	A systematic approach used to gauge the degree of student learning and performance.
Organizational Management	Student Lifecycle Management	Management of student throughput and administration in the learning enterprise.
	Resource Management	Management of resources in support of the learning enterprise.
	Program Management	Management of organizational programs that support the learning enterprise.

5.5. **Occupational Competency Rubric.** After a model is developed, a team of subject matter experts begin building competency rubrics, which consists of the competency, a description of the competency, proficiency levels, and measurable and observable behaviors. The competency rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional developmental expectations, and the criteria for success. Figure 3 provides an example of a competency rubric for 8T000/8T100/8T200 career field.

Figure 3. 8T000/8T100/8T200, PME and DA, Rubric for Communication

Competency	Proficiency Levels	Observable Behaviors
Professional Foundations	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Coaches and mentors others on communication strategies to build synergy among teams - Fosters efficient and effective interactions and decision making to solidify enterprise outcomes - Negotiates best possible outcomes with stakeholders to address concerns
Sub-Competency Communication	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Seeks feedback and provides further information to reduce ambiguity and generate buy-in - Presents complex information articulately to persuade others on contentious issues - Establishes and leverages multiple modes of communication to facilitate transparent and timely information exchange
Description The ability to articulate information through written and verbal methods to a wide range of audiences to a desired outcome.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Delivers well-organized and impactful presentations to convey message - Applies active listening and appropriate questioning techniques to understand stakeholder concerns - Reviews and edits written communication to adhere to standards - Recognizes non-verbal reactions of audience and anticipates concerns to adjust presentations accordingly
Supporting Competencies Develops People Relationship Building Influence Accountability	***Basic*** Consistency of Application: Sustained application of competency over time	- Conveys verbal and written information clearly and concisely to targeted audience - Applies appropriate questioning techniques to gauge and engage audience

5.5.1. To better understand how to read and utilize the competency rubric, a breakdown of each component is explained below in figures 4a, 4b, and 4c.

Figure 4a. Competency Rubric Section 1.

Competency Professional Foundations	←	The competency section states the competency group.
Sub-Competency Communication	←	The sub-competency section states the narrower category that forms part of the competency group. **Note:** Some models may only consist of a competency and not include a sub-competency.
Description The ability to articulate information through written and verbal methods to a wide range of audiences to a desired outcome.	←	The description section provides a statement that gives details about the sub-competency, enabling career field members to better understand how sub-competency relates to the AFS.
Supporting Competencies Develops People Relationship Building Influence Accountability	←	The supporting competencies section are supported-level competencies that are linked to the success of the sub-competency. These competencies lend themselves more toward areas like values, traits, and attitudes. These competencies were included as part of a larger survey that went out to the entire AFS; respondents were asked to rate the top supporting competencies they believe will attribute to higher successful performance within the sub-competency.

Figure 4b. Competency Rubric Section 2.

Proficiency Levels		
Expert **Consistency of Application:** Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	←	The proficiency levels are broken into four parts: basic, intermediate, advanced, and expert. Under each proficiency level are predetermined criteria selected by a group of SMEs from your career field and validated by the career field. The criteria were used as the basis to develop the observable behaviors. These criteria provide concrete parameters for the behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert. Some of the criteria (e.g. depth of knowledge, consistency of application/complexity, and thinking challenge) allows an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to a variety of situations. While other criteria (e.g. scope, impact, and reach of influence) requires more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving through the proficiency levels may be difficult to do in certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e. at HHQ, Wing, or an organization with far reaching capabilities).
Advanced **Consistency of Application:** Sustained application of competency over time in complex situations		
Intermediate **Consistency of Application:** Sustained application of competency over time in a variety of situations		
Basic **Consistency of Application:** Sustained application of competency over time		

Figure 4c. Competency Rubric Section 3

Observable Behaviors	←	The observable behaviors are statements of what can be observed from an individual manifesting the competency at the respective competency level. They provide objective evidence that the individual possesses the competency level, and shows what effective performance looks like. The behaviors are written to be specific enough so they can be observable and lend themselves towards measurement.
- Coaches and mentors others on communication strategies to build synergy among diverse teams - Fosters efficient and effective interactions and decision making to solidify enterprise outcomes - Negotiates best possible outcomes with stakeholders to address concerns		
- Seeks feedback and provides further information to reduce ambiguity and generate buy-in - Presents complex information articulately to persuade others on contentious issues - Establishes and leverages multiple modes of communication to facilitate transparent and timely information exchange		
- Delivers well-organized and impactful presentations to convey message - Applies active listening and appropriate questioning techniques to understand stakeholder concerns - Reviews and edits written communication to adhere to standards - Recognizes non-verbal reactions of audience and anticipates concerns to adjust presentations accordingly		
- Delivers well-organized and impactful presentations to convey message - Applies active listening and appropriate questioning techniques to understand stakeholder concerns		

5.5.2. Another key component within the rubric is the supporting competencies section at the bottom left-hand corner. These are the top four supporting competencies that can help members excel and be successful in that sub-competency. Some of these supporting competencies are tied directly to the Airmen's Foundational Competencies, while others may be unique to the career field. Having these supporting competencies identified and linked to a career field's competency model can cultivate those underlying characteristics needed to succeed on the job. Leaders, supervisors, trainers, instructors, or mentors can now set members up for greater success by building these supporting competencies and placing their Airmen in situations where they can apply those strategies. All these elements come together to ensure we can develop Airmen who are better prepared, present, future mission-focused, and ready to succeed in any situation. Additionally, DAFMAN 36-2643, *Coaching and Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

5.5.3. **Competency Development.** The intent of moving towards a competency-based system is to sharpen our Airmen's tactical expertise, operational competence, strategic vision, and joint proficiency to lead and execute the full spectrum of USAF missions. This occurs not in a classroom but on the job by combining education, training, and experiences to provide Airmen with a better developmental pathway as they move along their careers. Airmen are still required to complete specific training courses, core tasks, and other training requirements. Competency development allows airmen to move beyond the minimum career field requirements and begin addressing developmental gaps and strengthening their capabilities. The competency model provides information that enables Education and Training community members to assess their professional growth and development by comparing their strengths and weaknesses to the clear and objective behaviors outlined in the model.

5.5.4. Below are the competency rubrics for the 8T000/8T100/8T200, PME and DA career fields aligned with the STS.

Competency	Proficiency Levels	Observable Behaviors
ISD	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Establishes processes that ensure alignment between mission, policy, and organizational requirements/priorities to optimize impact of the instructional design - Imparts knowledge on innovative analysis methods that influences the creation of design solutions and strategies
Sub-Competency	***Advanced***	
Analysis	Consistency of Application: Sustained application of competency over time in complex situations	- Analyzes needs assessment findings to advise on potential instructional solutions, estimates, costs, and benefits - Tracks planning and analysis progress for multiple instructional courses/programs
Description	***Intermediate***	
The process used to identify educational requirements, standards, conditions, performance measures, and other criteria needed.	Consistency of Application: Sustained application of competency over time in a variety of situations	- Establishes management plans to include operational goals and outcomes - Conducts needs assessment to identify gaps in learning and determines the need to revise or develop courses/programs - Verifies effectiveness of course/program and determine if it achieves desired goals and outcomes - Monitors the analysis progress for a single instructional lesson/course/program
Supporting Competencies	***Basic***	
Communication Analytical Thinking Strategic Thinking Decision Making	Consistency of Application: Sustained application of competency over time	- Performs analysis to identify the learning requirements to reach determined goals and outcomes - Participates on a team to outline learning requirements for a lesson/course/program

Competency	Proficiency Levels	Observable Behaviors
ISD	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Benchmarks and promotes key practices on the design and development of courses/programs - Provides leadership and guidance to advise others on design and development of instructional systems
Sub-Competency	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Makes necessary adjustments to the design and development process by using current and emerging learning theories - Optimizes program content, methods, and learning activities for the course/program
Design and Development		
Description	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Designs an objective hierarchy for the achievement of program outcomes - Incorporates or modifies media, delivery methodologies, and instructional strategies to optimize learning - Develops authentic measurement for programmatic decision making
The process to determine the instructional strategies and select the instructional methods, media, assessment; and develop instructional materials.		
Supporting Competencies	***Basic*** Consistency of Application: Sustained application of competency over time	- Integrates existing instructional materials, methods, media, and assessment into the design process. - Participates on a team and develops objectives at the appropriate level of learning - Researches content and develops new instructional materials for learning modalities
Creative Thinking Communication Change Management Fosters Innovation		

Competency	Proficiency Levels	Observable Behaviors
ISD	***Expert*** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Researches and integrates new ideas and innovations for the instructional environment - Ensures instructional integrity of development projects through systematic design methods, standards, and outcomes with teams of writers and subject matter experts
Sub-Competency	***Advanced*** Depth of Knowledge: New practices of all workplace elements	- Analyzes evaluation data and makes recommendations to improve validity, effectiveness, and efficiency of instructional systems - Determines the validity and reliability of data collection instruments to codify program procedures - Disseminates and follows-up on findings and recommendations with leadership and stakeholders
Program Evaluation		
Description	***Intermediate*** Depth of Knowledge: Established practices of all workplace elements	- Conducts direct and indirect assessment to produce evaluation reports to support adjustments to the instructional system - Advises on the effectiveness of evaluation instruments to facilitate adaptions within the educational framework
The systematic method of gathering, documenting, analyzing, and interpreting empirical data to refine programs and processes to improve effectiveness and efficiency.		
Supporting Competencies	***Basic*** Depth of Knowledge: Established practices of some workplace elements	- Collects feedback data (direct and/or indirect) that is available for improving course content
Communication Accountability Analytical Thinking Information Seeking		

Competency	Proficiency Levels	Observable Behaviors
ISD	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Provides insights and suggestions for broader digital strategy advancements
Sub-Competency Learning Technology	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Enhances automation capabilities by innovating new processes to optimize learning environments (e.g., Artificial Intelligence/Machine Learning) - Collaborates with developers/IT to improve automation methodologies and technologies
Description Deploying a variety of devices and platforms to facilitate, enhance, educate, and drive classroom focus and engagement.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Applies and incorporates emerging technologies in the learning environment that are sufficient, scalable and sustainable - Researches technologies for use in ways other than designed to resolve various delivery challenges
Supporting Competencies Digital Literacy Fosters Innovation Creative Thinking Communication	***Basic*** Consistency of Application: Sustained application of competency over time	- Promotes and conveys key concepts and principles related to the use of technology - Uses appropriate application of technology to enhance learning outcomes

Competency	Proficiency Levels	Observable Behaviors
Professional Foundations	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Coaches and mentors others on communication strategies to build synergy among teams - Fosters efficient and effective interactions and decision making to solidify enterprise outcomes - Negotiates best possible outcomes with stakeholders to address concerns
Sub-Competency Communication	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	- Seeks feedback and provides further information to reduce ambiguity and generate buy-in - Presents complex information articulately to persuade others on contentious issues - Establishes and leverages multiple modes of communication to facilitate transparent and timely information exchange
Description The ability to articulate information through written and verbal methods to a wide range of audiences to a desired outcome.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	- Delivers well-organized and impactful presentations to convey message - Applies active listening and appropriate questioning techniques to understand stakeholder concerns - Reviews and edits written communication to adhere to standards - Recognizes non-verbal reactions of audience and anticipates concerns to adjust presentations accordingly
Supporting Competencies Develops People Relationship Building Influence Accountability	***Basic*** Consistency of Application: Sustained application of competency over time	- Conveys verbal and written information clearly and concisely to targeted audience - Applies appropriate questioning techniques to gauge and engage audience

Competency	Proficiency Levels	Observable Behaviors
Professional Foundations	***Expert*** Reach of Influence: MAJCOM/AF-Level/Industry	- Drives deliberate involvement that aligns with long-term goals and objectives - Facilitates community partnerships to inspire support
Sub-Competency Building Partnership	***Advanced*** Reach of Influence: Wing/Institutional	- Builds partnerships and identifies champions throughout the enterprise - Executes stakeholder engagement plan to remove barriers and manage expectations
Description Forging purposeful connections through networking and collaboration with stakeholders to amplify readiness, development, and career progression for TF personnel.	***Intermediate*** Reach of Influence: Unit/Groups	- Leverages collaborative practices to enhance professional development - Utilizes effective consulting skills to build alliances
Supporting Competencies Communication Relationship Building Leadership Teamwork	***Basic*** Reach of Influence: Individuals	- Drives collaboration across various agencies to foster a community of expertise - Channels outreach to connect with various mission partners and achieve developmental milestones

Competency	Proficiency Levels	Observable Behaviors
Professional Foundations	***Expert*** Integration with AF-level/within industry	- Rewards inventive thinking and smart risk-taking to drive military improvement - Leverages career experiences to revive warrior eithos and competitive advantage - Build a force accountable to the standards
Sub-Competency Leadership	***Advanced*** Integration with organizational strategies	- Leverages institutional knowledge to employ effective change management strategies - Applies strategic guidance and data analytics to develop COAs for the appropriate level - Promotes military professionalism to reinforce warrior ethos
Description The art and science to develop, inspire and motivate adaptable teams to solve complex, ambiguous problems in academic environments.	***Intermediate*** Integration with concerned areas	- Merges talents to create a cohesive team and shared understanding - Mentors others on professional military attributes and profession of arms - Develops personnel using the foundational competencies for career progression
Supporting Competencies Communication Accountability Develops People Service Mindset	***Basic*** Specific Area	- Applies principles of leadership and decision-making while developing and maintaining positive relationships with team members and key stakeholders - Models professional military attributes to exemplify a profession of arms mindset and culture - Applies critical thinking to navigate problem sets - Expands career field depth of knowledge through continuous research and development of subject matter expertise

Competency	Proficiency Levels	Observable Behaviors
Professional Foundation	***Expert*** Scope: Integration with AF-level/within industry	- Analyzes workforce requirements and develops strategies to address organizational needs - Develops and executes strategic plans for faculty recruitment, retention, and development
Sub-Competency	***Advanced***	- Works with educational institutions and external organizations to provide development opportunities for staff and faculty members - Conducts comprehensive assessments of faculty development plans for effectiveness - Advises senior staff on strategies for faculty and staff development to improve organizational effectiveness
Faculty Management	Scope: Integration with organizational strategies	
Description	***Intermediate***	- Establishes performance standards and analyzes the developmental needs of staff and faculty for optimal organizational outcomes - Synthesizes the work of staff and faculty to ensure proper application of proven methods and techniques - Provides ongoing coaching and mentoring with faculty to facilitate professional growth
Implementing comprehensive talent management strategies to continuously elevate and sustain success in learning environments.	Scope: Integration with concerned areas	
Supporting Competencies	***Basic***	- Communicates departmental and institutional policy in faculty meetings and activities - Monitors staff and faculty performance for adherence to standards
Communication Develops People Leadership Resource Management	Scope: Specific Area	

Competency	Proficiency Levels	Observable Behaviors
Instructional Foundations	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Collaborates with outside agencies to innovate and improve instructional strategies - Teams with student subject matter experts to incorporate and innovate professional military education subject matter - Mentors and trains others on professional military education to ensure institutional standards are met
Sub-Competency	***Advanced***	- Connects professional military education subject matter to real world scenarios and student experiences - Provides connections between topics and objectives to achieve student learning outcomes - Challenges students to expand perspectives and thinking to encourage organizational change
Instructional Methodology	Consistency of Application: Sustained application of competency over time in complex situations	
Description	***Intermediate***	- Modifies instructional techniques to facilitate continuous student learning - Advances student performance by providing consistent constructive feedback - Refines and develops instructional skills through practice, reflection, and seeking feedback
Employing deliberate, planned and outcome oriented strategies, structured to facilitate success by adhering to applicable student learning styles.	Consistency of Application: Sustained application of competency over time in a variety of situations	
Supporting Competencies	***Basic***	- Applies fundamental theories and techniques to achieve successful learning for students - Studies the professional military education body of knowledge in order to develop subject matter expertise - Enhances instruction by implementing personalized lesson plans and strategies
Communication Creative Thinking Information Seeking Develops People	Consistency of Application: Sustained application of competency over time	

Competency	Proficiency Levels	Observable Behaviors
Instructional Foundations	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Advises instructors/facilitators on preparedness and efficiency to execute and maximize scheduling opportunities. - Mentors instructors/facilitators in setting guidelines, being flexible, and performing active listening to maximize student learning.
Sub-Competency	***Advanced***	
Applied Learning and Strategy	Consistency of Application: Sustained application of competency over time in complex situations	- Recognizes opportunities to lesson link organically to tie in course learning objectives - Leverages differences in thought, opinion and perspective within the classroom to enhance student engagement
Description	***Intermediate***	
Creating a learning environment that champions active participation, collaboration and critical thinking.	Consistency of Application: Sustained application of competency over time in a variety situations	- Demonstrates neutrality if conflicts or disagreements occur during classroom discussions - Recognizes and appropriately responds to audience cues to enhance learning - Recognizes the importance of broad perspectives to enrich the learning environment
Supporting Competencies	***Basic***	
Communication Creative Thinking Flexibility Influence	Consistency of Application: Sustained application of competency over time	- Promotes an atmosphere conducive to optimal learning - Encourages active participation of all students to maximize learning success - Guides learners through material

Competency	Proficiency Levels	Observable Behaviors
Instructional Foundations	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Analyzes faculty assessment data and develops strategies to mitigate negative evaluation trends. - Trains new faculty to conduct knowledge and performance evaluations
Sub-Competency	***Advanced***	
Classroom Assessment and Evaluation	Consistency of Application: Sustained application of competency over time in complex situations	- Evaluates the rating tendency of assigned faculty to identify and resolve negative assessment trends - Integrates emerging assessment criteria to improve assessment quality
Description	***Intermediate***	
A systematic approach used to gauge the degree of student learning and performance.	Consistency of Application: Sustained application of competency over time in a variety of situations	- Applies assessment and evaluation techniques and provides feedback for students to meet desired outcomes - Uses informal assessments to ascertain comprehension and bolster student learning
Supporting Competencies	***Basic***	
Communication Develops People Accountability Analytical Thinking	Consistency of Application: Sustained application of competency over time	- Develops student assessment and evaluation skills through training, practice, and review - Seeks feedback to ensure continued development within established assessment and evaluation standards

Competency	Proficiency Levels	Observable Behaviors
Organizational Management	***Expert*** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Analyzes data to project future scheduling requirements - Mediates conflict among students and staff to facilitate cohesiveness
Sub-Competency	***Advanced***	
Student Lifecycle Management	Depth of Knowledge: New practices of all workplace elements	- Modifies established schedules due to emergent events to maintain program efficacy - Advises key stakeholders on potential risks to ensure program requirements are met - Overcomes student conflicts to accommodate unforeseen circumstances
Description	***Intermediate***	
Management of student throughput and administration in the learning enterprise.	Depth of Knowledge: Established practices of all workplace elements	- Assists in establishing realistic goals or milestones to meet members needs - Identifies shortfalls and recommend solutions to enhance throughput - Maintains data integrity when using applicable systems (e.g., LMS, SMS, MILPDS, stars RAW) for records accuracy
Supporting Competencies	***Basic***	
Communication Decision Making Resource Management Flexibility	Depth of Knowledge: Established practice with some workplace elements	- Utilizes applicable systems to meet scheduling requirements - Assesses performance and provides counseling/feedback to address shortfalls - Makes referrals to appropriate agencies to meet student needs

Competency	Proficiency Levels	Observable Behaviors
Organizational Management	***Expert*** Scope: Integration with AF-level/within industry	- Submits inputs for long-range planning efforts and future concepts - Influences senior leaders to obtain and/or sustain resources, address gaps, and identify/mitigate mission risks
Sub-Competency	***Advanced***	
Resource Management	Scope: Integration with organizational strategies	- Establishes collaborative environments to facilitate acquisition of required resources - Creates plans and programs to track resource utilization and prioritize requirements - Reallocates resources based on changes to missions and/or priorities
Description	***Intermediate***	
Management of resources in support of the learning enterprise.	Scope: Integration with concerned areas	- Forecasts resource needs to support various functions of the organization - Utilizes appropriate technology for management and tracking of resources - Identifies resource shortfalls and communicates impacts to force and/or mission
Supporting Competencies	***Basic***	
Strategic Thinking Decision Making Communication Analytical Thinking	Scope: Specific Area	- Manages resources and report expenditures IAW guidance - Identifies resource needs (e.g., material, equipment, time, asset) to execute mission requirements

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Impact on: AF-level practices/within industry	- Informs policy that supports organizational goals, objectives and missions that are consistent with current laws and directives - Creates enterprise-level projects/programs to address strategic requirements
Sub-Competency Program Management	***Advanced*** Impact on: Management decisions	- Analyzes trends and implements courses of action to resolve challenges or discrepancies within a program - Shapes future program requirements and standards in response to evolving mission requirements - Defines and evaluates program policy and guidance to ensure alignment with mission requirements
Description Management of organizational programs that support the learning enterprise.	***Intermediate*** Impact on: Specific workplace projects	- Maintains course/program integrity through established processes (e.g. FQTT, MIB, MICT, Local checklists) - Implements program policy and guidance to ensure alignment with mission requirements
Supporting Competencies Communication Organizational Awareness Strategic Thinking Accountability	***Basic*** Impact on: Specific workplace tasks	- Follows established procedures, policy, and guidance to execute program functions - Informs stakeholders of project status, shortfalls, timeline, and resource requirements to guide decision-making

6. Training Decisions. This CFETP was developed to encapsulate an entire spectrum of training requirements and opportunities for the 8T000/8T100/8T200 career fields, using career field competency training modeling. The CFETP has undergone considerable revisions towards building a competency-based training and development platform for the 8T000/8T100/8T200 career fields. A significant change has been to shift the focus from task-based training to one that is more centered on outcomes-based learning. A task is a unit of work activity or operation which forms a significant part of a duty. These are singular in nature and are usually accomplished in one continuous action, which also can occur independently of other tasks. Conversely, outcomes are learning goals that typically consist of a multitude of tasks. These outcomes are actions and performances that embody and reflect the learner's competence in using content, information, ideas, and tools successfully. Focusing on learning outcomes allow organizations, leaders, supervisors, and trainers to incorporate foundational competencies and underlying characteristics (values, traits, attitudes) into learning, which is necessary for developing Airmen with the competencies needed for future challenges. The following decisions were made with close coordination between HQ AETC, Air University, BCEE, EPMEIC schoolhouse instructors and staff, field SMEs, MAJCOM EPME Functional Managers and the AFCFM. The final training requirements are approved by the AFCFM.

6.1. A planning meeting/STRT was held from 24-28 June 2024 at Maxwell AFB, AL. Members of the planning meeting/STRT sought to develop the learning outcomes. This was accomplished by reverse engineering the behaviors found in the Education and Training occupational competency model and then by asking what does an Airman need to know and do in order to master a specific behavior. The intent of the learning outcomes is to identify all factors needed to succeed in attaining the behavior. During the planning meeting, members decided (approved at STRT portion) to remove the qualitative proficiency code key and use a behavioral statement coding system for the STS. As a result, each line item will consist of a verb and the coding system for formal training will only use P (performance), K (knowledge), and pk (performance-knowledge).

6.2. The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of

training requirements for the 8T000/8T100/8T200 career fields. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and attainable to reduce duplication of training and eliminate a disjointed approach to training. The training decisions were made during the STRT held 24-28 June 2024 at Maxwell AFB, AL and utilizing the ISD process as implemented by the BCEE during training planning and course development.

6.3. Skill Level Training. EPMEIC is the initial skills course. It has been revised by the BCEE to provide training needed to prepare 8T000/8T100/8T200 personnel for education and training related positions.

7. Manpower. Contact the local manpower office for specific organization to verify unique requirements and availability at that organization. (References: 82B1 ALS, 82B2 NCOA, 82B3 AFSNCOA, 45J100 for DA).

8. Community College of the Air Force (CCAF). Enrollment in CCAF occurs upon completion of basic military training. CCAF provides the opportunity to obtain an Associate in Applied Sciences Degree. In addition to the associate degree program, CCAF offers the following:

9. CCAF Degree Requirements. All enlisted Airmen are automatically entered into the CCAF program. Prior to completing an associate degree, the 5-level must be awarded, and the following requirements must be met:

	Semester Hours
Technical Education	24
Leadership, Management, and Military Studies	6
General Education	15
Program Elective	15
Total:	60

9.1. Technical Education (24 Semester Hours): A minimum of nine (9) semester hours of CCAF institutional credit awarded from specialty-related formal training must be applied toward Technical Core subject requirements. Technical Electives may be satisfied with CCAF credit or other sources in-transfer.

9.1.2. Leadership, Management, and Military Studies (6 Semester Hours): Enlisted Professional Military Education (EPME) and/or civilian management courses.

9.1.3. General Education (15 Semester Hours): Applicable courses must meet the criteria for application of courses to the General Education Requirements (GER) and be in agreement with the definitions of applicable General Education subjects/courses as provided in the CCAF General Catalog.

9.1.4. Program Elective (15 Semester Hours): Satisfied with applicable Technical Education; Leadership, Management, and Military Studies; or General Education subjects/courses, including natural science courses meeting GER application criteria. A maximum of nine semester hours of CCAF degree applicable technical credit otherwise not applicable to the program of enrollment may be applied. See the CCAF General Catalog for details regarding the AAS degree for this specialty.

9.2 Professional Certifications. Certifications assist the professional development of our Airmen by broadening their knowledge and skills. Additionally, specific certifications may award collegiate credit by CCAF and civilian colleges, saving time and AF tuition assistance funds. It also helps Airmen to be

better prepared for transition to civilian life. To learn more about professional certifications and certification programs offered by CCAF, visit https://www.airuniversity.af.edu/CCAF/.

9.2.1 CCAF Instructor Certification (CIC) Program. CCAF offers the three-tiered CIC Program for qualified instructors teaching at CCAF affiliated schools who have demonstrated a high level of professional accomplishment. The CIC is a professional credential that recognizes the instructor's extensive faculty development training, education and qualification required to teach a CCAF course and formally acknowledges the instructor's practical teaching experience. Information is in the CCAF PPG.

9.2.2. CCAF Instructional Systems Development (ISD) Certification Program. CCAF offers the ISD Certification Program for qualified curriculum developers and managers who are formally assigned at CCAF affiliated schools to develop and manage CCAF collegiate courses. The ISD Certification is a professional credential that recognizes the curriculum developer's or manager's extensive training, education, qualifications, and experience required to develop and manage CCAF courses. The certification also recognizes the individual's ISD qualifications and experience in planning, developing, implementing, and managing instructional systems.

Section C - 8T000/8T100/8T200 Training Requirements

10. Purpose. To summarize the minimum requirements necessary to prepare individuals for instructor duty**.**

10.1 Special Duty Qualification Requirements.

10.2. Knowledge. Knowledge of the following areas is mandatory: principles, techniques, and methods of instruction; use of visual aids; learning processes; curriculum development; education and training evaluation, and counseling methods and techniques.

10.3. Education. For entry into this SDI, applicants must follow the requirements IAW section 3.2 in the most current DAFECD.

10.4. Training. The following training is mandatory as indicated:

10.4.1. **EPME Instructors**: Completion of a certified resident EPME course is mandatory for the SDI 8T000 duty. The course must be equal to or higher than the course in which the member is assigned duty IAW section 3.3.1 in the most current DAFECD.

10.4.2. **EPME Curriculum Designers**: Completion of a certified resident EPME course is mandatory for the SDI 8T100 duty. The course must be equal to or higher than the course in which the member is assigned duty IAW section 3.3.1 in the most current DAFECD.

10.4.3. **Development Advisors:** Completion of EPMEIC is mandatory within 6 months of assignment to duties. See DAFI 36-2685.

10.4.4. **Barnes Center A7 Management/Support**: Completion of a certified resident EPME course is mandatory. The course must be equal to or higher than the highest course over which member is assigned oversight or curriculum development duties IAW section 3.3.1 in the most current DAFECD.

10.4.5. **Completion of EPMEIC**: Required for those personnel who will instruct, design and develop, or supervise instruction of EPME courses and have not previously attended an approved CCAF methodology. EPMEIC can be waived by school commandant if a candidate has previously completed an approved CCAF methodology. See the EPME Handbook for more information regarding EPMEIC waivers. **EPMEIC attendance is Optional for NCOA and SNCOA Commandants.**

10.4.6. Completion of Initial Instructor Qualification Training (IIQT), Lesson Qualification Training (LQT), and internship IAW EPME Handbook and CCAF PPG. These are required for EPME instructors assigned to teach an EPME course. See both references for specific information to meet requirements.

10.5. Experience. For entry into this SDI, prior qualification in any AFSC at the 5-skill level or higher (3-skill level if no 5-skill level exists) is mandatory.

10.6. Returning CCAF Qualified Instructors. Reference CCAF PPG for requalification guidance.

10.7. Other. For entry into this SDI, applicants must follow the requirements in accordance with the most current DAFECD.

Section D – Resource Constraints

11. Purpose. This section identifies known resource constraints that preclude optimal/desired training from being developed or conducted as needed to effectively conduct EPME and EPCE.

11.1. Manpower. EPME requires a selectively manned, controlled duty assignment in accordance with Air Force DD policies, the DAFECD and the SPECAT guide. Additionally, EPME requires skilled management and support personnel to develop, produce, deliver and administer resident and DL course materials and software. The SDI 8T000 does not delineate between instructors, managers or support personnel in the current DD selection process.

11.2. DAs require selectively manned, controlled duty assignments in accordance with Air Force DD policies, the DAFECD and the SPECAT guide. The current manpower determinate (45J100) does not currently incorporate new requirements published in DAFI 36-2685, *Total Force Enlisted Developmental Education.* Units or MAJCOMs should document risk as appropriate.

11.3. Training. EPME requires mandatory training to gain fully qualified proficiency status. DAs require training.

11.4. Facilities. EPME requires dedicated facilities and support infrastructure to support EPME production requirements. EPCE requires support infrastructure to match EPME production requirements for each DA's installation.

Part II

Section A – Specialty Training Standard

1. Implementation. This STS is for use by personnel in 8T000, 8T100 or 8T200 career fields, and is also mandatory for those performing in instruction, management, or support duties within the EPME enterprise.

2. Purpose. As prescribed in DAFMAN 36-2689, this STS:

2.1. Column 1. Task, knowledge, and Technical References. Lists in column 1 are the most common competencies, learning outcomes, knowledge, and Technical References (TR) necessary for Airmen to perform their duties. Number task statements sequentially (i.e., 1.1, 1.2, 2.1). For the purposes of this CFETP, the term "technical reference" is synonymous with "training reference."

2.2. Column 2.

2.2.1. **Behavior Match.** Connects each training requirement to specific behaviors from the occupational competency model. For ease of use, the relevant competency behaviors from the competency models are numbered and included in each STS section sub-header. This helps to identify how the training received directly contributes to developing the knowledge, skills, and abilities expected within the AFSC.

2.2.2. **Core Tasks.** Identifies any specialty-wide training requirements, and if the task must be certified when signed off.

2.3. Column 3. Certification for OJT. These columns are used to record completion of tasks and knowledge training requirements.

2.4. Column 4. Behavioral statement codes are used to indicate training/information provided. These are the formal training and correspondence course requirements for this specialty. These columns show the learning outcome (by skill level and course) to be demonstrated on the job by the graduate, based on training on the task/subject knowledge listed in the STS.

3. Qualitative Requirements. Before the STS, this table contains the behavioral statement code key used to indicate the training and knowledge provided by resident training, career development courses, and other courses.

4. Documentation. Use the designated training site to document all technician qualifications. Document and certify completion of training. As a minimum, complete the following columns in Part 2 of the CFETP: Training start date (day, month, and year), training complete date (day, month, and year), Trainee Initials, Trainer Initials, and Certifier Initials (when required).

4.1. Transcribing to new CFETP. Transcribing documentation to a new CFETP is an administrative function, not a reevaluation of training. Upon publication of a new CFETP, transcribe in accordance with DAFMAN 36-2689.

4.2. Documenting Career Knowledge. The supervisor identifies STS technical/training references that the trainee requires for career knowledge and ensures, as a minimum, that trainees cover the mandatory items in DAFMAN 36-2689.

4.3. Decertification and Recertification. When a supervisor or Commandant determines an Airman is unqualified on a task previously certified for his or her duty position, the supervisor deletes certification. Appropriate remarks pertaining to the reason for decertification are entered on the AF Form 623a, On-The-Job Training Record Continuation Sheet. Refer to DAFMAN 36-2689. Begin recertification if required.

4.4. Performance Standard. Tasks, on-the-job, are trained and qualified to the "Go" level.

5. Third Party Certification. Core tasks identified in this CFETP do not require third-party certification.

6. Recommendations. Comments and recommendations are invited concerning the CFETP e-mail us at BarnesCenter.AA.DO@us.af.mil. Reference this STS and identify the specific area of concern (paragraph, training standard element, etc.).

BY ORDER OF THE SECRETARY OF THE AIR FORCE OFFICIAL

CAROLINE M. MILLER
Lieutenant General, USAF
DCS, Manpower, Personnel and Services

QUALITATIVE REQUIREMENTS

Behavioral Statement STS Coding System	
Code	**Definition**
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze, or evaluate the subject
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the filed requirements for speed and accuracy.
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles, and operational theory for the task.
-	No training provided in the course or CDC.
X	Training is required but not provided due to limitations in resources.
Each STS element is written as a behavioral statement. The detail of the statement and verb selection reflects the level of training provided by resident training and career development courses.	

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1. INSTRUCTIONAL SYSTEMS DESIGN (ISD)												
1.1. ANALYSIS Description: The process used to identify educational requirements, standards, conditions, performance measures, and other criteria needed. **Supporting Competencies:** Communication, Analytical Thinking, Strategic Thinking, Decision Making												
1.1.1. Analysis (Basic) **Required Behaviors:** 1. Performs analysis to identify the learning requirements to reach determined goals and outcomes 2. Participates on a team to outline learning requirements for a lesson/course/program **Criteria:** *Consistency of Application: Sustained application of competency over time*												
1.1.1.1. Analyze statistical data to determine a need for instruction (e.g. lesson course programs)	1						-	-	-	*	pk	-
1.1.1.2. Assess educational requirements for the target audience and learning environment characteristics	1						-	-	-	*	P	-
1.1.1.3. Identify required learning resources and determine applicability to learning strategies	1						-	-	-	*	K	-
1.1.1.4. Describe the basic types of analyses associated with learning/training (educational requirements, occupational, mission, job, task/competency, etc.)	1						-	-	K	*	K	-
1.1.1.5. Contribute to the development of a cohesive team	2						-	*	-	-	-	-
1.1.1.6. Foster open communication, mutual respect, and collaboration towards shared objectives.	2						-	*	-	-	-	-
1.1.1.7. Assist team to develop specific learning requirements for course/program	2						-	-	-	-	-	-
1.1.2. Analysis (Intermediate) **Required Behavior:** 1. Establish management plans to include operational goals and outcomes 2. Conducts needs assessment to identify gaps in learning and determines the need to revise or develop courses/programs 3. Verify effectiveness of course/program and determine if it achieves desired goals and outcomes 4. Monitors the analysis progress for a single instructional lesson/course/program **Criteria**: *Consistency of Application: Sustained application of competency over time in a variety of situations*												
1.1.2.1. Assess intended learning audience to determine proper learning strategy and learning outcomes alignment	1						-	-	pk	-	-	-
1.1.2.2. Identify and assess varying perceptions of need among stakeholders and the implications of those perceptions	1						-	-	-	*	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1.1.2.3. Conduct a resource analysis to ensure resources are identified for the instructional program	2						-	-	-	-	-	-
1.1.2.4. Implement structured developmental plans to address identified gaps in learning	2						-	-	-	-	-	*
1.1.2.5. Conduct gap-analysis between current and future desired state	2						-	-	-	-	-	*
1.1.2.6. Review lesson assessment and evaluation data to verify course outcomes	3						-	-	-	*	-	-
1.1.2.7. Analyze local capabilities (e.g., learning space, instructional resources, etc.) to determine ability to resolve instructional challenges	3						-	*	-	-	-	*
1.1.2.8. Assess environmental challenges to ensure instructional outcomes are met	3						-	*	-	-	-	-
1.1.2.9. Document progress of analysis	4						-	-	-	-	-	-
1.1.2.10. Develop structured plans to measure progress.	4						-	-	-	-	-	
1.1.3. Analysis (Advanced) **Required Behaviors:** 1. Analyzes needs assessment findings to advise on potential instructional solutions, estimates, costs, and benefits 2. Tracks planning and analysis progress for multiple instructional courses/programs **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*												
1.1.3.1. Synthesize findings to identify and recommend potential solutions to address instructional problems and optimize learning	1						-	-	-	-	-	-
1.1.3.2. Leverage learning analytics to inform and optimize the instructional design process	1						-	-	-	-	-	-
1.1.3.3. Demonstrate the ability to manage current program tracking mechanism and anticipate future limiting factors	2						-	-	-	-	-	-
1.1.3.4. Utilize analytic data to improve future instructional course/program requirements	2						-	-	-	-	-	-
1.1.4. Analysis (Expert) **Required Behaviors:** 1. Establishes processes that ensure alignment between mission, policy, and organizational requirements/priorities to optimize impact of the instructional design 2. Imparts knowledge on innovative analysis methods that influences the creation of design solutions and strategies **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*

							Course	UGT	Course	UGT	Course	UGT
1.1.4.1. Use analytics and systems approach to consider the broader context of system elements (mission, policy, values)	1						-	-	-	-	-	-
1.1.4.2. Collaborate with internal and external stakeholders to ensure development programs evolve with the dynamics of analysis (discovery, interpretation, and communication of meaning)	2						-	-	-	-	-	-
1.1.4.3. Support development of unique levels of analysis expertise by sharing latest trends, tools, and processes	2						-	-	-	-	-	-
1.2. DESIGN & DEVELOPMENT Description: The process to determine the instructional strategies and select the instructional methods, media, assessment; and develop instructional materials. **Supporting Competencies:** *Creative Thinking, Communication, Change Management, Fosters Innovation*												
1.2.1. Design & Development (Basic) **Required Behaviors:** 1. Integrates existing instructional materials, methods, media, and assessment into the design process. 2. Participates on a team to develop objectives at the appropriate level of learning 3. Researches content and develops new instructional materials for learning modalities **Criteria:** *Consistency of Application: Sustained application of competency over time*												
1.2.1.1. Determine available media/technology and select the best fit for instructional methodology	1						-	*	pk	-	K	-
1.2.1.2. Identify appropriate methodologies to achieve learning outcomes	1						pk	-	K	-	K	-
1.2.1.3. Collaborate with the learning design team to build learning programs. (IT, contractors, and SMEs)	2						-	-	-	*	-	*
1.2.1.4. Align objectives with desired learning outcomes	2						-	-	P	-	-	-
1.2.1.5. Utilize reference materials to select appropriate foundational documents for curriculum development	3						-	-	-	*	-	-
1.2.1.6. Identify various learning modalities	3						-	-	K	-	K	-
1.2.2. Design & Development (Intermediate) **Required Behaviors:** 1. Designs an objective hierarchy for the achievement of program outcomes 2. Incorporates or modifies media, delivery methodologies, and instructional strategies to optimize learning 3. Develop authentic measurement for programmatic decision making **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*												
1.2.2.1. Develop a curriculum map aligning assessments, resources, and staff capacity	1						-	-	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1.2.2.2. Develop objectives that align with appropriate taxonomy e.g. Cognitive, psychomotor, affective	1						-	-	P	-	-	-
1.2.2.3. Use an instructional design process based on the nature of the project	3						-	-	P	-	-	-
1.2.2.4. Modify the instructional design process as project parameters change	3						-	-	-	-	-	-
1.2.2.5. Validate program materials support course/program outcomes	3						-	-	-	-	-	-
1.2.2.6. Identify instructional materials/resources to formulate delivery methods based on analysis	3						-	-	K	-	-	-
1.2.2.7. Construct reliable and valid methods of assessing learning and performance outcomes	4						-	-	K	-	-	-
1.2.2.8. Align assessments with objectives and learning outcomes	4						-	-	-	*	P	-
1.2.3. Design & Development (Advanced) **Required Behaviors:** 1. Makes necessary adjustments to the design and development process by using current and emerging learning theories 2. Optimize program content, methods, and learning activities for the course/program **Criteria**: *Consistency of Application: Sustained application of competency over time in complex situations*												
1.2.3.1. Advocate for alternative learning environments (live, virtual, and constructive) as viable learning enhancements	1						K	-	-	-	-	-
1.2.3.2. Research emerging learning theories and technologies to enhance instructional design	1						-	-	-	-	-	-
1.2.3.3. Demonstrates flexibility in modifying course structure and content	1						-	*	-	-	-	-
1.2.3.4. Evaluate learning requirements, audience, and new technologies to determine the most appropriate solution to meet the desired learning outcome	2						K	*	-	-	-	-
1.2.3.5. Communicate effectively and explain rationale for selecting, creating, or modifying instructional design to stakeholders	2						-	-	-	-	-	-
1.2.3.6. Integrates new learning theories on instructional design to enhance learner engagement and retention	2						-	-	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1.2.3.7. Reviews and critiques design proposals to ensure alignment with best practices	2						-	-	-	-	-	-
1.2.4. Design & Development (Expert) **Required Behaviors:** 1. Benchmarks and promotes key practices on the design and development of courses/programs 2. Provides leadership and guidance to advise others on design and development of instructional systems **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*												
1.2.4.1. Ensure instructional integrity of development projects through systematic design methods, standards, and outcomes	1						-	-	-	-	-	-
1.2.4.2. Identify areas for improvement based on emerging industry findings	1						-	-	-	-	-	-
1.2.4.3. Facilitates collaboration amongst stakeholders to ensure cohesive instructional design strategies	1						-	-	-	-	-	-
1.2.4.4. Build strategic roadmaps to forecast strengths, weaknesses, alternative solutions, conclusions, and/or approaches	2						-	-	-	-	-	-
1.2.4.5. Utilize validation studies to guide/drive data-informed decisions	2						-	-	-	-	-	-
1.2.4.6. Reviews and critiques design proposals to ensure alignment with best practices	2						-	-	-	-	-	-
1.3. PROGRAM EVALUATION Description: The systematic method of gathering, documenting, analyzing, and interpreting empirical data to refine programs and processes to improve effectiveness and efficiency. **Supporting Competencies:** *Communication, Accountability, Analytical Thinking, Information Seeking*												
1.3.1. Program Evaluation (Basic) **Required Behaviors:** 1. Collect feedback data (direct and/or indirect) that is available for improving course content **Criteria:** *Depth of Knowledge: Established practices of some workplace elements*												
1.3.1.1. Administer feedback tools to measure objectives for instructional goals	2						-	*	-	-	-	-
1.3.1.2. Identify the feedback data (internal or external) that is available for improving course content	2						K	*	-	*	-	*
1.3.2. Program Evaluation (Intermediate) **Required Behaviors:** 1. Conducts direct and indirect assessment to produce evaluation reports to support adjustments to the instructional system 2. Advises on the effectiveness of evaluation instruments to facilitate adaptations within the educational framework **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*												
1.3.2.1. Develop evaluation plans	1						-	-	-	-	-	-
1.3.2.2. Determine when evaluation plans are conducted	1						-	-	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1.3.2.3. Utilize feedback and evaluation data to produce and disseminate evaluation reports that include adjustment recommendations to learning systems	2						-	-	-	-	-	*
1.3.2.4. Use evaluation feedback to revise courses as necessary	2						-	-	-	*	-	*
1.3.2.5. Modify evaluation process based on stakeholder, organizational or institutional special interest items	2						-	-	-	-	-	*
1.3.3. Program Evaluation (Advanced) **Required Behaviors:** 1. Analyzes evaluation data and makes recommendations to improve validity, effectiveness, and efficiency of instructional systems 2. Determines the validity and reliability of data collection instruments to codify program procedures 3. Disseminates and follows-up on findings and recommendations with leadership and stakeholders **Criteria:** *Depth of Knowledge: New practices of all workplace elements*												
1.3.3.1. Manage internal and external evaluations for efficiency and effectiveness of learning systems	1						-	-	-	-	-	-
1.3.3.2. Lead internal and external evaluation teams to provide feedback on instructional systems	1						-	-	-	-	-	-
1.3.3.3. Develop a management plan for evaluation	1						-	-	-	-	-	-
1.3.3.4. Evaluate underlying assumptions for required modifications to implement and disseminate evaluation plans	1						-	-	-	-	-	-
1.3.3.5. Ensures data collection instruments are used consistently throughout the program to standardize procedures	3						-	-	-	-	-	-
1.3.3.6. Evaluate data collection instruments to ensure they measure what they are intended to	3						-	-	-	-	-	-
1.3.3.7. Monitors and reports on the impact of implemented recommendations, keeping all relevant stakeholders informed.	4						-	-	-	-	-	-
1.3.3.8. Establish appropriate delivery mechanism to effectively communicate findings with stakeholders	4						-	-	-	-	-	-
1.3.3.9. Document the dissemination process to facilitate continuous improvement	4						-	-	-	-	-	-
1.3.4. Program Evaluation (Expert) **Required Behaviors:** 1. Researches and integrates new ideas and innovations for the instructional environment												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
2. Ensures instructional integrity of development projects through systematic design methods, standards, and outcomes with teams of writers and subject matter experts **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*												
1.3.4.1. Build strategic roadmaps using logic and reasoning to forecast strengths, weaknesses, alternative solutions, conclusions, and/or approaches	2						-	-	-	-	-	-
1.3.4.2. Promote appropriate prototypes, tests, and pilots of interventions using proficiency in measurement and testing	2						-	-	-	-	-	-
1.3.4.3. Focus evaluations in terms of cost-benefit or cost effectiveness of instructional design and/or program	3						-	-	-	-	-	-
1.3.4.4. Employ interactive participation measures with program leaders, staff, and organizations for directing, collaborating, or coaching evaluation decisions to meet strategic intent	3						-	-	-	-	-	-
1.4. LEARNING TECHNOLOGY Description: Deploying a variety of devices and platforms to facilitate, enhance, educate, and drive classroom focus and engagement. **Supporting Competencies:** *Digital Literacy, Fosters Innovation, Creative Thinking, Communication*												
1.4.1. Learning Technology (Basic) **Required Behaviors:** 1. Promotes and conveys key concepts and principles related to the use of technology 2. Uses appropriate application of technology to enhance learning outcomes **Criteria:** *Consistency of Application: Sustained application of competency over time*												
1.4.1.1. Demonstrate knowledge of how technology supports learning	1						K	*	-	*	pk	-
1.4.1.2. Demonstrate a clear connection between learning theories and practices in context of using educational technologies	1						K	*	-	*	pk	-
1.4.1.3. Identify available educational technology resources used to execute learning outcomes	2						K	*	-	-	K	-
1.4.1.4. Demonstrates a use of basic software, platforms, and troubleshooting	2						P	*	-	-	P	-
1.4.2. Learning Technology (Intermediate) **Required Behaviors:** 1. Applies and incorporates emerging technologies in the learning environment that are sufficient, scalable and sustainable 2. Researches technologies for use in ways other than designed to resolve various delivery challenges **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
1.4.2.1. Advocates for the appropriate uses of technology in an instructional system	1						-	-	-	-	-	*
1.4.2.2. Apply technology-based methods and strategies to effectively engage the learner	1						P	*	pk	-	-	-
1.4.2.3. Identify viable, cost effective technology options that support learning objectives	1						-	-	-	-	-	*
1.4.2.4. Describe the capabilities of existing and emerging technologies for potential adoption to enhance the impact of instruction	2						-	-	K	-	-	-
1.4.2.5. Research and recommend applications of educational technology	2						-	-	-	-	-	-
1.4.2.6. Select technology that allows for multi-modal learning	2						P	*	-	-	-	-
1.4.2.7. Research new innovation in both learning design and education	2						-	-	-	-	-	-
1.4.2.8. Plan for testing different technology capabilities in different learning modalities	2						-	-	-	-	-	-
1.4.3. Learning Technology (Advanced) **Required Behaviors:** 1. Enhances automation capabilities by innovating new processes to optimize learning environments (e.g., Artificial Intelligence/Machine Learning) 2. Collaborates with developers/IT to improve automation methodologies and technologies **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*												
1.4.3.1. Evaluate the capacity of given learning environments to support emerging technologies	1						-	-	-	-	-	-
1.4.3.2. Leverage industry and academia to recommend application of educational technology appropriate to instructional design projects	1						-	-	-	-	-	-
1.4.3.3. Determines requirements for new technology	2						-	-	-	-	-	-
1.4.3.4. Conducts field tests to assess the benefits and limitations of educational technologies	2						-	-	-	-	-	-
1.4.3.5. Participate in professional development activities to maintain currency in technologies and learning environment	2						-	-	-	-	-	-
1.4.4. Learning Technology (Expert) **Required Behaviors:** 1. Provides insights and suggestions for broader digital strategy advancements **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200

3.1.4.5. Increase and advance curriculum knowledge adapting to current DAF initiatives	3						-	-	-	-	-	-
3.1.4.6. Translates and communicates institutional standards	3						-	-	-	-	-	-
3.2. APPLIED LEARNING AND STRATEGY Description: Creating a learning environment that champions active participation collaboration and critical thinking. **Supporting Competencies:** *Communication, Creative Thinking, Flexibility, Influence*												
3.2.1 Applied Learning and Strategy (Basic) **Required Behaviors:** 1. Promotes an atmosphere conducive to optimal learning 2. Encourages active participation of all students to maximize learning success 3. Guides learners through material **Criteria:** *Consistency of Application: Sustained application of competency over time*												
3.2.1.1. Prepare learning environment and resources	1						-	*	P	-	P	-
3.2.1.2. Create a safe space for learning	1						-	*	-	-	P	-
3.2.1.3. Establish ground rules and expectations	1						pk	*	-	-	P	-
3.2.1.4. Utilize appropriate questioning and engagement techniques	2						P	*	-	-	P	-
3.2.1.5. Guides and facilitates open discussion	2						P	*	-	-	P	-
3.2.1.6. Utilize experiential learning techniques	3						P	*	P	-	P	-
3.2.1.7. Incorporate applicable real world scenarios for student understanding as appropriate	3						P	*	pk	-	P	-
3.2.2 Applied Learning and Strategy (Intermediate) **Required Behaviors:** 1. Demonstrates neutrality if conflicts or disagreements occur during classroom discussions 2. Recognizes and appropriately responds to audience cues to enhance learning 3. Recognize the importance of broad perspectives to enrich the learning environment **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*												
3.2.2.1. Maintains respect and psychological safety	1						-	-	-	-	-	-
3.2.2.2. Mitigate personal cognitive biases	1						-	-	-	-	-	-
3.2.2.3. Maintain institutional credibility	1						-	-	-	-	-	-
3.2.2.4. Resolve problems and conflicts quickly and fairly	1						pk	-	-	-	-	-
3.2.2.5. Manage difficult dialogue and behavior	1						pk	-	-	-	-	-
3.2.2.6. Manage an environment that fosters learning and performance	2						P	*	-	-	-	-
3.2.2.7. Enforce ground rules and expectations	2						-	*	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
3.2.2.8. Conduct informal assessment of classroom learning (e.g., nonverbals)	2						-	*	-	-	-	-
3.2.2.9. Fosters inclusive environment	3						-	*	-	-	-	-
3.2.2.10. Discourage undesirable behavior in appropriate and timely manner	3						-	*	-	-	-	-
3.2.2.11. Employ fundamental theories and techniques for deeper responses	3						P	*	-	-	-	-
3.2.2.12. Demonstrate innovative thinking to incorporate new ideas	3						-	-	-	-	-	-
3.2.2.13. Encourage questioning of assumptions and beliefs by promoting critical thinking	3						-	-	-	-	-	-
3.2.3. Applied Learning and Strategy (Advanced) **Required Behaviors:** 1. Recognize opportunities to lesson link organically to tie in course learning objectives 2. Leverages differences in thought, opinion and perspective within the classroom to enhance student engagement **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*												
3.2.3.1. Identify teachable moments through active listening	1						-	-	-	-	K	-
3.2.3.2. Integrate different career field perspectives to draw on knowledge	1						-	-	-	-	-	*
3.2.3.3. Reenforce lesson concepts across entire course curriculum	1						-	-	-	-	P	-
3.2.3.4. Employ variety of questioning techniques	1						-	-	-	-	P	-
3.2.3.5. Promote collaboration between students	2						-	-	-	-	P	-
3.2.3.6. Facilitate open, respectful, and inclusive discussions	2						-	-	-	-	P	-
3.2.3.7. Redirect disruptive behavior and promote constructive conversations in a timely manner	2						-	-	-	-	-	*
3.2.3.8. Challenge assumptions and establish parameters of immoral, unethical, and illegal perspectives to enhance student engagement	2						-	-	-	-	-	*
3.2.4. Applied Learning and Strategy (Expert) **Required Behaviors:** 1. Advises instructors/facilitators on preparedness and efficiency to execute and maximize scheduling opportunities. 2. Mentors instructors/facilitators in setting guidelines, being flexible, and performing active listening to maximize student learning. **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
3.2.4.1. Demonstrate goal achievement within an adaptive schedule (e.g., IST)	1						-	-	-	-	-	-
3.2.4.2. Prioritize strategic communication (e.g., guest speakers, cadre, senior leaders)	1						-	-	-	-	-	*
3.2.4.3. Prioritize lesson objectives within resource constraints (e.g., schedule, unforeseen circumstances)	1						-	-	-	-	-	*
3.2.4.4. Provide opportunities to create instructor baselines/norming	1						-	-	-	-	-	-
3.2.4.5. Provide clear expectations of classroom management	2						-	-	-	-	P	-
3.2.4.6. Guide instructors to incorporate feedback into their teaching practices	2						-	-	-	-	pk	-
3.2.4.7. Utilize strategic thinking to shift teaching methods/instructor plans exhibiting situational awareness	2						-	-	-	-	-	-
3.2.4.8. Assess cadre to maximize student learning	2						-	-	-	-	-	-
3.3. CLASSROOM ASSESSMENT AND EVALUATION Description: A systematic approach used to gauge the degree of student learning and performance. **Supporting Competencies:** *Communication, Develops People, Accountability, Analytical Thinking*												
3.3.1. Classroom Assessment and Evaluation (Basic) **Required Behaviors:** 1. Develops student assessment and evaluation skills through training, practice, and review 2. Seeks feedback to ensure continued development within established assessment and evaluation standards **Criteria:** *Consistency of Application: Sustained application of competency over time*												
3.3.1.1. Provide appropriate student feedback	1						-	*	-	-	-	-
3.3.1.2. Promote consistency of assessment across instructors/facilitators through norming	1						-	*	-	-	-	-
3.3.1.3. Learn and understand assessment evaluation rubric	1						-	*	k	-	-	-
3.3.1.4. Incorporate SMEs direction into personal/professional development	2						-	-	-	-	-	-
3.3.1.5. Research additional assessment methodologies	2						-	-	pk	-	-	*
3.3.1.6. Implement appropriate assessment techniques	2						pk	-	pk	-	-	*
3.3.2. Classroom Assessment and Evaluation (Intermediate) **Required Behaviors:** 1. Applies assessment and evaluation techniques and provides feedback for students to meet desired outcomes 2. Uses informal assessments to ascertain comprehension and bolster student learning												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
Criteria: *Consistency of Application: Sustained application of competency over time in a variety of situations*												
3.3.2.1. Interpret assessment results for appropriate student feedback	1						-	-	-	-	-	-
3.3.2.2. Adjust evaluation methods to accomplish objectives	1						-	-	-	-	-	-
3.3.2.3. Use a variety of questioning techniques	2						-	*	-	-	-	-
3.3.2.4. Assess student participation for comprehension	2						pk	*	-	-	-	-
3.3.3. Classroom Assessment and Evaluation (Advanced) **Required Behaviors:** 1. Evaluates the rating tendency of assigned faculty to identify and resolve negative assessment trends 2. Integrates emerging assessment criteria to improve assessment quality **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*												
3.3.3.1. Determine cause of outliers in assessment	2						-	-	-	-	-	-
3.3.3.2. Take corrective action for identified trend	2						-	-	-	-	-	*
3.3.3.3. Communicate emerging criteria to instructors	3						-	-	-	-	-	-
3.3.3.4. Apply appropriate training to integrate existing material	3						-	-	-	-	-	-
3.3.3.5. Design measurements for continuous development	3						-	-	-	-	-	-
3.3.3.6. Implement follow-up actions or assessments as appropriate	3						-	-	-	-	-	-
3.3.4. Classroom Assessment and Evaluation (Expert) **Required Behaviors:** 1. Analyzes faculty assessment data and develops strategies to mitigate negative evaluation trends. 2. Trains new faculty to conduct knowledge and performance evaluations **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*												
3.3.4.1. Gather faculty evaluations to identify trends	1						-	-	-	-	-	-
3.3.4.2. Design training to address trends	1						-	-	-	-	-	-
3.3.4.3. Implement corrective actions as appropriate	1						-	-	-	-	-	-
3.3.4.4. Collaborate with OPR/SMEs to align curriculum and assessment	1						-	-	-	-	-	-
3.3.4.5. Train appropriate assessment techniques	3						-	-	-	-	-	-
3.3.4.6. Demonstrate use of formal evaluations	3						-	-	-	-	-	-
4. ORGANIZATIONAL MANAGEMENT												
4.1. STUDENT LIFECYCLE MANAGEMENT Description: Management of student throughput and administration in the learning enterprise. **Supporting Competencies:** *Communication, Decision Making, Resource Management, Flexibility*												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
4.1.1. Student Lifecycle Management (Basic) **Required Behaviors:** 1. Utilizes applicable systems to meet scheduling requirements 2. Assesses performance and provides counseling/feedback to address shortfalls 3. Makes referrals to appropriate agencies to meet student needs **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*												
4.1.1.1. Describe current scheduling procedures	1						-	-	-	-	K	-
4.1.1.2. Identify applicable systems to meet scheduling needs	1						-	-	-	-	K	-
4.1.1.3. Observe student behavior that may hinder performance	2						-	-	-	-	-	-
4.1.1.4. Document and present feedback	2						-	-	-	-	-	-
4.1.1.5. Identify appropriate support agencies	3						-	*	-	-	-	*
4.1.1.6. Relate student needs to applicable resources	3						-	-	-	-	-	*
4.1.1.7. Elevate student needs as required	3						-	*	-	-	-	-
4.1.2. Student Lifecycle Management (Intermediate) **Required Behaviors:** 1. Assists in establishing realistic goals or milestones to meet members needs 2. Identifies shortfalls and recommend solutions to enhance throughput 3. Maintains data integrity when using applicable systems (e.g., LMS, SMS, MILPDS, stars RAW) for records accuracy **Criteria:** *Depth of Knowledge: Established practice of all workplace elements*												
4.1.2.1. Collaborate with members to establish SMART goals	1						-	-	-	-	-	*
4.1.2.2. Advise members of career development paths and opportunities	1						-	-	-	-	-	*
4.1.2.3. Provide course content feedback	2						-	*	-	-	-	*
4.1.2.4. Identify and adhere to logistical guidance required for throughput	2						-	-	-	-	-	*
4.1.2.5. Elevate throughput needs as required	2						-	-	-	-	-	*
4.1.2.6. Maintain proper permissions	3						-	-	-	-	-	*
4.1.2.7. Validate member enrollment and completion	3						-	-	-	-	-	*
4.1.2.8. Maintain the security and privacy of sensitive information	3						-	-	-	-	-	*
4.1.3. Student Lifecycle Management (Advanced) **Required Behaviors:** 1. Modifies established schedules due to emergent events to maintain program efficacy 2. Advises key stakeholders on potential risks to ensure program requirements are met 3. Overcome student conflicts to accommodate unforeseen circumstances **Criteria:** *Depth of Knowledge: New practices of all workplace element*												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
4.1.3.1. Anticipate and address situations that may impact learning and performance to the established schedule	1						-	-	-	-	-	*
4.1.3.2. Communicate schedule changes to all stakeholders	1						-	-	-	-	-	*
4.1.3.3. Employ time management principles	1						-	-	-	-	-	*
4.1.3.4. Elevate limiting factors to include resources	2						-	-	-	-	-	*
4.1.3.5. Manage human resources and utilize formal manning requests as needed	2						-	-	-	-	-	*
4.1.3.6. Prioritize risks by their likelihood and impact on programs, objectives, and requirements.	2						-	-	-	-	-	*
4.1.3.7. Utilize risk assessment tools (e.g., SWOT, risk matrix)	2						-	-	-	-	-	*
4.1.3.8. Utilize root cause analysis	3						-	-	-	-	-	*
4.1.3.9. Implement problem-solving strategies	3						-	-	-	-	-	*
4.1.3.10. Utilize other resources to mediate and address issues	3						-	-	-	-	-	*
4.1.3.11. Provide guidance to students	3						-	-	-	-	-	*
4.1.4. Student Lifecycle Management (Expert) **Required Behaviors:** 1. Analyzes data to anticipate future scheduling requirements 2. Mediates conflict among students and staff to facilitate cohesiveness **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*												
4.1.4.1. Analyze historical class load and review mission requirements	1						-	-	-	-	-	*
4.1.4.2. Maintain awareness of conflicting events (e.g. Family Days, Exercises, Deployments)	1						-	-	-	-	-	*
4.1.4.3. Project future requirements (e.g. promotions, gains, losses, new courses)	1						-	-	-	-	-	*
4.1.4.4. Resolve conflicts and problems in a timely manner	2						-	-	-	-	-	*
4.1.4.5. Employ mediation techniques	2						P	-	-	-	-	*
4.1.4.6. Provide an inclusive and respectful environment where conflict can be addressed	2						-	-	-	-	-	*
4.1.4.7. Utilize team building techniques to mediate conflict	2						-	-	-	-	-	*
4.1.4.8. Navigate conflict styles	2						pk	-	-	-	-	*
4.2. RESOURCE MANAGEMENT												

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
Description: Management of resources in support of the learning enterprise. **Supporting Competencies:** *Strategic Thinking, Decision Making, Communication, Analytical Thinking*												
4.2.1. Resource Management (Basic) **Required Behaviors:** 1. Manage resources and report expenditures IAW guidance 2. Identifies resource needs (e.g., material, equipment, time, asset) to execute mission requirements **Criteria:** *Scope: Specific Area*												
4.2.1.1. Prepare reports that assist leadership in the formulation of decisions regarding sustainment of short- and long-range goals	1						-	-	-	*	-	-
4.2.1.2. Select and manage resources, including working with stakeholders and vendors in support of educational programs	1						-	-	-	*	-	-
4.2.1.3. Use appropriate technology to standardize financial management functions	1						-	-	-	-	-	-
4.2.1.4. Partner with leadership to ensure the right resources are available and obtainable for the classroom	3						-	-	-	-	-	*
4.2.1.5. Contribute to the determination of resources required for assigned education and training programs	3						-	-	-	*	-	*
4.2.1.6. Utilizes resources IAW established guidance and policies	3						-	*	-	*	-	*
4.2.2. Resource Management (Intermediate) **Required Behaviors:** 1. Forecasts resource needs to support various functions of the organization 2. Utilizes appropriate technology for management and tracking of resources 3. Identifies resource shortfalls and communicates impacts to force and/or mission **Criteria:** *Scope: Integration with concerned areas*												
4.2.2.1. Partner with leadership to ensure the right resources are available and obtainable for the organization/program	1						-	-	-	-	-	*
4.2.2.2. Develop annual resource allocation plan	1						-	-	-	-	-	*
4.2.2.3. Use the appropriate IT system within the suite of accounting functions	2						-	-	-	-	-	-
4.2.2.4. Obtain permissions for required systems	2						-	-	-	-	-	-
4.2.2.5. Monitor resource modifications and/or resource shortages and determine impact on the organization	3						-	-	-	-	-	-
4.2.2.6. Conduct resource assessment to identify potential gaps and shortfalls	3						-	-	-	-	-	*

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
4.2.2.7. Inform key stakeholders and elevate concerns on resource related issues	3						-	-	-	-	-	*
4.2.3. Resource Management (Advanced) **Required Behaviors:** 1. Establishes collaborative environments to facilitate acquisition of required resources 2. Creates plans and programs to track resource utilization and prioritize requirements 3. Reallocates resources based on changes to missions and/or priorities **Criteria:** *Scope: Integration with organizational strategies*												
4.2.3.1. Participate in working groups relevant to the allocation/management of resources	1						-	-	-	-	-	-
4.2.3.2. Prioritize funded/unfunded requirements for integration to higher authority budgets	1						-	-	-	-	-	-
4.2.3.3. Review support agreements to ensure a clear understanding of required support and recommend changes as needed	2						-	-	-	-	-	-
4.2.3.4. Contribute to the determination of resources needs and allocation of resources for life-cycle management of assigned programs	2						-	-	-	-	-	-
4.2.3.5. Analyze resource requirements and make suitable recommendations regarding the method of acquisition and sustainability	3						-	-	-	-	-	-
4.2.3.6. Perform data gathering and analysis to ensure resource sustainability	3						-	-	-	-	-	-
4.2.3.7. Determine priorities and redistribute resources as appropriate to meet organizational needs	3						-	-	-	-	-	-
4.2.4. Resource Management (Expert) **Required Behaviors:** 1. Submits inputs for long-range planning efforts and future concepts 2. Influences senior leaders to obtain and/or sustain resources, address gaps, and identify/mitigate mission risks **Criteria:** *Scope: Integration with AF-level/within industry*												
4.2.4.1. Advise and advocate for resources based on future requirements	1						-	-	-	-	-	-
4.2.4.2. Analyze future needs and create a process to track necessary resources	1						-	-	-	-	-	-
4.2.4.3. Recommends changes in resourcing policy and procedures	2						-	-	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
4.2.4.4. Provide guidance to the organization concerning resource issues	2						-	-	-	-	-	-
4.3. PROGRAM MANAGEMENT Description: Management of organizational programs that support the learning enterprise. **Supporting Competencies:** *Communication, Organizational Awareness, Strategic Thinking, Accountability*												
4.3.1. Program Management (Basic) **Required Behaviors:** 1. Follows established procedures, policy, and guidance to execute program functions 2. Informs stakeholders of project status, shortfalls, timeline, and resource requirements to guide decision-making **Criteria:** *Impact on: Specific workplace tasks*												
4.3.1.1. Perform tasks and duties related to the execution of a course/program	1						-	*	-	*	pk	-
4.3.1.2. Perform tasks and duties related to the planning of a course/program	1						-	-	-	*	pk	-
4.3.1.3. Perform tasks and duties involved in monitoring and evaluating a course/program	2						-	-	-	*	pk	-
4.3.1.4. Perform tasks and duties for sustaining and continuously improving a course/program	2						-	-	-	*	pk	-
4.3.1.5. Prepare formal/informal communication for key stakeholders	2						-	-	-	*	-	*
4.3.2. Program Management (Intermediate) **Required Behaviors:** 1. Maintains course/program integrity through established processes (e.g. FQTT, MIB, MICT, Local checklists) 2. Implements program policy and guidance to ensure alignment with mission requirements **Criteria:** *Impact on: Specific workplace projects*												
4.3.2.1. Inspects organizational programs IAW established policy and guidance	1						-	-	-	-	-	-
4.3.2.2. Utilize data to sustain and continuously improve course/program	1						-	-	-	-	-	*
4.3.2.3. Manage the execution of a course/program	2						-	-	-	-	-	*
4.3.2.4. Recommends policy and guidance waivers or changes for evolving requirements	2						-	-	-	-	-	*
4.3.3. Program Management (Advanced) **Required Behaviors:** 1. Analyzes trends and implements courses of action to resolve challenges or discrepancies within a program 2. Shapes future program requirements and standards in response to evolving mission requirements 3. Defines and evaluates program policy and guidance to ensure alignment with mission requirements **Criteria:** *Impact on: Management decisions*												
4.3.3.1. Utilizes program evaluation data to identify needed changes	1						-	-	-	-	-	*
4.3.3.2. Develop organizational policy based on trend analysis	1						-	-	-	-	-	-

Tasks, Knowledge, and Technical References	Behavior Match	Trng Start	Trng Complete	Trainee Initials	Trainer Initials	Certifier Initials	8T000		8T100		8T200	
							Course	UGT	Course	UGT	Course	UGT
4.3.3.3. Align overall program strategy to current and emerging outcomes	2						-	-	-	-	-	*
4.3.3.4. Forecast requirements	2						-	-	-	-	-	*
4.3.3.5. Manage all governance, standards, and documentation for programs	3						-	-	-	-	-	*
4.3.3.6. Implement measures to effectively sustain programs	3						-	-	-	-	-	*
4.3.4. Program Management (Expert) **Required Behaviors:** 1. Informs policy that supports organizational goals, objectives and missions that are consistent with current laws and directives 2. Creates enterprise-level projects/programs to address strategic requirements **Criteria:** *Impact on: AF-level practices/within industry*												
4.3.4.1. Research and advise policy and standards	1						-	-	-	-	-	-
4.3.4.2. Develop policy	1						-	-	-	-	-	-
4.3.4.3. Assess or propose initiatives, considering factors such as cost effectiveness, technical feasibility, organizational acceptance, and policy adherence	2						-	-	-	-	-	-
4.3.4.4. Advocates for and/or directs change to improve program management across the enterprise	2						-	-	-	-	-	-

Section B - Course Objective List

NOTE: Currently, there is no advanced course. This area is reserved.

Section C - Support Material

NOTE: Currently, there are no support material requirements. This area is reserved.

Section D - Training Course Index

1. Purpose. This section of the CFETP identifies training courses available for the 8T000/8T100/8T200 career fields

2. Air Force Resident Courses.

Course Number	Title	Location
01 5 PME 8T000 000	EPME Instructor Course	Maxwell AFB, AL

Section E - MAJCOM Unique Requirements

NOTE: Currently, there are no MAJCOM unique requirements. This area is reserved.
