DEPARTMENT OF THE AIR FORCE
Headquarters US Air Force
Washington, DC 20330-1030

CHANGE 1
CFETP 4Y0X1
10 October 2024

ACCESSIBILITY: Publications and forms are available on the e-Publishing website at www.e-publishing.af.mil for downloading or ordering.

RELEASABILITY: There are no releasability restrictions on this publication.

AFSC 4Y0X1
DENTAL ASSISTANT
CAREER FIELD EDUCATION AND TRAINING PLAN

Summary: These changes are applicable to the electronically published 4Y0X1 CFETP, dated 6 May 2024, and are effective immediately.

1. Remove 4Y0X1 STS pages 17-38 and replace with the attached document. This change adds wartime task requirements to column 2A, updates the training reference bibliography, and corrects administrative errors.

2. Page inserts: 20

3. After necessary action, file this sheet in the back of the CFETP.

BY ORDER OF THE SECRETARY OF THE AIR FORCE

OFFICIAL

JOHN J. DEGOES
Lieutenant General, USAF, MC, FS
Surgeon General

Attachment:
4Y0X1/H CFETP Inserts

7.2.1. 4Y051. Qualification in and possession of AFSC 4Y031. Also, experience in functions such as assisting the dentist in the delivery of patient treatment, exposing dental radiographs/capturing images, performing oral prophylaxis procedures, and maintaining dental equipment.

7.2.2. 4Y071. Qualification in and possession of AFSC 4Y051. Also, experience performing and supervising functions such as assisting the dentist in the delivery of patient treatment, exposing dental radiographs/capturing images, and performing oral prophylaxis procedures and dental administrative duties.

7.2.3. 4Y0X1H. Possession of an active state dental hygienist license. **NOTE:** No additional proficiency training tasks are required for the 4Y0X1H. Maintaining state licensure meets the specialty shred out qualification.

7.2.4. 4Y090. Qualification in and possession of AFSC 4Y071, 4Y071H, or 4Y072 is mandatory. Also, experience is mandatory in functions such as general clinic and/or laboratory procedures, dental practice management, budgeting, and dental administration.

Section D - Resource Constraints

8. Purpose. This section identifies known resource constraints (i.e., cost, manpower, equipment, etc.), which preclude optimal and desired training from being developed or conducted. Narrative explanations of each resource constraint and an impact statement describing what effect each constraint has on training are included. Included in this section are actions required, office of primary responsibility and target completion dates. At a minimum, review and update resource constraints annually.

8.1. Apprentice 3-Skill Level Training. None.

8.2. Journeyman 5-Skill Level Training. None.

8.3. Craftsman 7-Skill Level Training. None.

Section E – Transitional Training Guide

9. Space Reserved. There are currently no transitional training requirements.

CAREER FIELD EDUCATION AND TRAINING PLAN
DENTAL ASSISTANT SPECIALTY
AFSC 4Y0X1/H

Part II

Section A - Specialty Training Standard (STS)

1. Implementation. This STS will be used for technical training provided by the Medical Education and Training Campus (METC) for classes starting as agreed to in the Resource Requirements Analysis (RRA) meeting minutes (Approximately May 2025).

2. Purpose. As prescribed in DAFMAN 36-2689, *Training Program*, this STS:

2.1. Lists in the Column 1 (Task, Knowledge, and Technical Reference) the most common tasks, knowledge, and Technical References (TR) necessary for Airmen to perform duties in the 3-, 5-, and 7-skill level. Number task statements sequentially i.e., 1.1, 1.2, and 2.1.

2.2. Uses the numbers 5 or 7 in column 2A, to identify core tasks required for upgrade to the 5- and 7-skill levels respectively in the dental assistant specialty. Personnel must be trained on appropriate core and duty tasks to complete upgrade training. **NOTE**: Not all tasks require third party certification. The symbol "X" in column 2B identifies critical tasks; these are the only tasks that require third party certification.

2.2.1. Uses the asterisk symbol "*" to indicate a wartime task in column 2A. Wartime tasks are those tasks that must be taught when courses are accelerated in a wartime environment. In response to a wartime environment, only tasks identified in this column will be taught in the Dental Assistant Apprentice Course.

2.3. Provides certification for OJT. Use column 3 to record completion of tasks and knowledge training requirements. Document technician qualifications in the *Individual Training Record* (ITR) using the MyTraining training management system. Task certification must show a certification or completed date. (As a minimum, use the following column designators: Training Complete, Certifier Initials).

2.3.1. Trainers must be recommended by their supervisor, qualified to perform the task being trained, and have completed the AF Training Course (AFTC).

2.3.2. Certifiers must be at least a SSgt (E-5) with a 5-skill level or civilian equivalent, capable of evaluating the task being certified, and have completed the AFTC.

2.4. Shows formal training and correspondence course requirements. Column 4 shows the proficiency to be demonstrated on the job by the graduate as a result of training on the task and knowledge and the career knowledge provided by the correspondence course. For a list of QTP volume numbers and titles, refer to *Section C - Support Materials*. **NOTE:** Training codes in columns 4B and 4C reflected for 5- and 7- skill levels indicate the information provided in the

CDCs. These codes do not reflect the level required to satisfy OJT upgrade requirements.

2.5. Identifies qualification requirements. The proficiency code key is used to indicate the level of training and knowledge provided by resident training and CDCs.

2.6. Is used to document training in the member's MyTraining record. Refer to DAFMAN 36-2689, *Training Program*, Chapter 5 for further guidance on documentation, transcription, decertification, and recertification.

2.7. Is used as a performance standard. Tasks are trained and qualified to the go/no go level. Go means the individual can perform the task without assistance and meet accuracy, timeliness, and correct use of procedures.

2.8. Is a guide for development of promotion tests used in the Weighted Airman Promotion System (WAPS). Specialty Knowledge Tests (SKTs) are developed at the AETC Airman Advancement Division, by SNCOs with extensive practical experience in their career fields. The tests sample knowledge of STS subject matter areas judged by test development team members as most appropriate for promotion to higher grades. Questions are based upon study references listed in the WAPS catalog. Examinee responsibilities are in Chapter 4 of DAFMAN 36-2664, *Personnel Assessment Program.* WAPS is not applicable to the Air National Guard.

3. Recommendations. Report unsatisfactory performance of individual course graduates, inadequacies and recommended changes to this training standard to the 59 TRG/TGE, 2931 Harney Road, Building 903, Fort Sam Houston, TX 78234-7674 or use the Customer Service Information Line, DSN 312-420-1080 (Commercial 210-808-1080) to report your findings. Be sure to reference specific STS paragraphs in the report.

BY ORDER OF THE SECRETARY OF THE AIR FORCE

OFFICIAL

ROBERT I. MILLER
Lieutenant General, USAF, MC, CFS
Surgeon General

Qualitative Requirements
4Y0X1/H STS

This Block Is for Identification Purposes Only		
Name Of Trainee		
Printed Name (Last, First, Middle Initial)	**Initials (Written)**	**SSAN**
Printed Name of Trainer, Certifying Official And Written Initials		
N/I	*N/I*	
N/I	*N/I*	
N/I	*N/I*	
N/I	*N/I*	
N/I	*N/I*	
N/I	*N/I*	

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	**Definition: The individual**
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (extremely limited)
	2	Can do most parts of the task. Needs only help on hardest parts. (partially proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (highly proficient)
Task Knowledge Levels[1]	a	Can name parts, tools, and simple facts about the task. (nomenclature)
	b	Can determine step by step procedures for doing the task. (procedures)
	c	Can identify why and when the task must be done and why each step is needed. (operating principles)
	d	Can predict, isolate, and resolve problems about the task. (advanced theory)
Subject Knowledge Levels[2]	A	Can identify basic facts and terms about the subject. (facts)
	B	Can identify relationship of basic facts and state general principles about the subject. (principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (evaluation)

Explanations

1. A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)
2. A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks.

- This mark is used alone instead of a scale value to show that no proficiency training is provided in the course or CDC.

NOTE: All tasks and knowledge items shown with a proficiency code are trained during wartime.

STS 4Y0X1	2. Core/Critical Tasks		3. Certification for OJT					4. Proficiency Codes and QTP References

Section B - Course Objective List

4. Course Objective List (COL). A publication derived from initial and advanced skills CTS, identifying the tasks and knowledge requirements, and respective standards provided to achieve a 3-, 5-, and 7-skill level in this career field. Supervisors use the COL to assist in conducting graduate evaluations.

4.1. If a written copy of the COL is required, contact the 381 TRS/TRR Training Manager, DSN 420-5684 (Commercial 210-808-5684).

4.2. Career Development Course: CDC information can be obtained from the AF Career Development Academy (AFCDA) at Keesler AFB, MS.

Section C - Support Materials

5. Qualification Training Packages (QTPs).

Course Number	Course Title	Developer
QTP 4Y0X1-1	Basic Skills and Infection Control/Sterilization	381 TRS/TXWAA
QTP 4Y0X1-2	Clinical Skills-Radiology	381 TRS/TXWAA
QTP 4Y0X1-3	Clinical Skills-Chairside Assisting	381 TRS/TXWAA
QTP 4Y0X1-4	Clinical Skills-Preventive Dentistry	381 TRS/TXWAA
QTP 4Y0X1-5	Patient Administration	381 TRS/TXWAA
QTP 4Y0X1-6	Logistics Management	381 TRS/TXWAA
QTP 4Y0X1-7	Budget and Financial Planning	381 TRS/TXWAA

Section D - Training Course Index

6. Purpose. This section of the CFETP identifies training courses available for the specialty:

In-Residence Courses			
Course Number	**Course Title**	**Course Length**	**Training Location**
L5ABJ4Y031 00AB	Dental Assistant Apprentice	48 days ***See Note 1***	Fort Sam Houston, TX
Trained as part of the apprentice course	Expeditionary Medical Readiness Course	2 days	Camp Bullis, TX
L3AZP4Y051 00AC	Oral Hygiene	14 days	Lackland AFB, TX

L1AAC4Y051 00AA	Dental Hygiene	480 days	St. Petersburg College, FL
L5OXO47G4 08AA	Dental Plans and Programs	3 days	San Antonio, TX
L5OZO4703 08AA	Dental Leadership Course	5 days	San Antonio, TX
NOTE 1: Non-prior medical, Dental Assistant Apprentice students, participate in two (2) days of Medical Readiness Training at Camp Bullis prior to beginning AFSC specific training, consisting of 46 days.			
NOTE 2: Refer the website, https://www.aetc.af.mil/News/Force-Development/Learning-Professionals-and-FD-Credentials/Force-Development-Registrar/Education-and-Training-Course-Announcements/ for further information on all AETC courses and symposia.			

6.1. Air University AU/A4L Courses:

Air University AU/A4L Courses			
Course Number	**Course Title**	**Course Length**	**Training Location**
CDC 4Y051	Dental Assistant Journeyman	9 Modules	myLearning
CDC 4Y071	Dental Assistant Craftsman	1 Module	myLearning

Section E - MAJCOM Unique Requirements

7. Space Reserved. There are currently no MAJCOM unique requirements.

Section F - Documenting Training

8. Training Documents

8.1. Work Center Training Plans. The purpose of this section is to provide guidelines and examples of proper documentation for the many electronic forms used in training all enlisted medical personnel. Training documentation helps to assess readiness capability, as well, as individual strengths and weaknesses. It also aids in compliance with all The Joint Commission and other regulatory requirements, as applicable. The enlisted training documentation has migrated from the hard copy to electronic record. Refer to your unit training manager (UTM) for the most current policies and guidance on training documentation.

8.2. MyTraining. MyTraining is an enterprise-wide custom training management system designed to replace prior training records systems. It is the electronic equivalent of the former AF Form 623, *Individual Training Record Folder*, and will be used by career fields within the Air Force Medical Service (AFMS) to document all training actions. MyTraining allows training plans to be established by Career Field/AFSC, duty position/team member, trainee/trainer/certifier, and any group of tasks that require management, tracking, and documentation.

8.2.1. Master Task List (MTL). The MTL is a list containing all the tasks that are to be trained in
