SUMMARY OF CHANGES

This document has been revised and should be reviewed completely. Changes include added guidance to provide the Air Force Safety Center (AFSEC) with sanitized summaries of reports for trend analysis and inclusion in a semiannual report on overall trends. Deleted the requirement for Crossfeed reports, and reduced timeframe for Inspector General augmentee support. Finally, corrected minor typos and updated guidance references.

Chapter 1

NUCLEAR SURETY STAFF ASSISTANCE VISIT PROGRAM

1.1. Overview.

1.1.1. Scope of the Nuclear Surety Staff Assistance Visit Program. The Secretary of the Air Force established the Nuclear Surety Staff Assistance Visit program to assist nuclear tasked units, on a non-attribution basis, to maintain effective nuclear surety programs. The Nuclear Surety Staff Assistance Visit is an opportunity to receive assistance from experienced headquarters personnel who write nuclear surety policy and guidance. It is not an inspection nor is it intended to prepare units to pass Nuclear Surety Inspections. Nuclear Surety Staff Assistance Visits may not give a rating, score, grade, or assessment. However, the Nuclear Surety Staff Assistance Visit team may recommend the Wing Commander conduct a root-cause analysis if significant observations are identified during the visit. The Wing Commander should provide the results of the analysis to the Nuclear Surety Staff Assistance Visit lead division or team chief. The Nuclear Surety Staff Assistance Visit team chief will determine which Major Command (MAJCOM) identified observations require a formal root cause analysis. **(T-1)** Assessment statements will be limited to processes and procedures. **(T-1)** **Attachment 2** outlines typical areas observed during a Nuclear Surety Staff Assistance Visit. Wing Commanders may use the Nuclear Surety Staff Assistance Visit results to strengthen the unit Nuclear Surety Program. The Nuclear Surety Staff Assistance Visit also provides an opportunity for resolution and clarification of issues between the unit and headquarters functional managers. The objective is threefold:

1.1.1.1. Determine if higher headquarters guidance is adequate and clear.

1.1.1.2. Provide feedback to the Wing Commander on whether the unit is properly applying sound procedures to implement Nuclear Surety guidance.

1.1.1.3. Provide situational awareness on command nuclear surety to senior leadership in the form of a Nuclear Surety Staff Assistance Visit executive summary and crossfeed report (described in **paragraph 2.3**.).

1.1.2. Assistance Areas. The Nuclear Surety Staff Assistance Visit team assesses all areas included in Chairman of the Joint Chiefs of Staff Instruction (CJCSI) 3263.05F, *Nuclear Weapons Technical Inspection*, and DAFI 90-302, *The Inspection System of the Department of the Air Force*, as supplemented. Additional areas may be assessed by MAJCOM staffs as time permits or when requested by the MAJCOM Commander or wing leadership. At Joint Bases where USAF is a supported component, installation support is a sister service responsibility and United States Air Force (USAF) may not control elements of the Nuclear Surety program at that installation. Nuclear Surety Staff Assistance Visit team will either include sister service members to evaluate supporting processes and procedures, or forward team observations to the Joint Base chain of command. **(T-0)**

1.2. Roles and Responsibilities.

1.2.1. MAJCOMs. MAJCOM Headquarters will designate a directorate, division, or special staff as the lead to perform Nuclear Surety Staff Assistance Visits. **(T-1)**

1.2.2. Units. Units will provide a unit point of contact to MAJCOM Nuclear Surety Staff Assistance Visit Program Manager. **(T-1)**

1.2.3. The DAF Chief of Safety and Commander, Air Force Safety Center (AF/SE), through the AFSEC Weapons Safety Division (AFSEC/SEW), will examine results of Nuclear Surety Staff Assistance Visits to identify trends affecting nuclear safety and surety across the Air Force. AFSEC/SEW will publish a semiannual trend analysis report, not attributable to specific units, for Nuclear Surety senior leaders, MAJCOMs and/or other stakeholders to identify broad issues or root causes. **(T-1)**

1.3. Process Overview.

1.3.1. For Technical Operations, Nuclear Surety Staff Assistance Visit team members will select maintenance teams for each specific technical operation based on team/crew integrity. **(T-1)**

1.3.2. Team integrity for maintenance teams will be maintained in accordance with Department of the Air Force 21-101, *Aircraft and Equipment Maintenance Management*, and Air Force Manual 21-202, *Missile Maintenance Management* requirements. **(T-1)** To demonstrate their knowledge and proficiency, they may be tasked to perform at least one evaluation of a maintenance operation within their area of responsibility. Loading Standardization Crews and Squadron Lead Crews will be observed by the Nuclear Surety Staff Assistance Visit team. **(T-1)**

1.3.3. For Weapon Security, Nuclear Surety Staff Assistance Visit functional area experts will use performance-based methodology to determine whether a unit meets the Nuclear Weapons Security Standard. **(T-1)** They will observe the integrated execution of security actions and response (performance), and compliance with technical criteria, as applicable. **(T-1)** They will observe execution of applicable plans and tactics, techniques and procedures. **(T-1)** They will assess the effectiveness of active and/or passive defenses, deployed delay and/or denial systems, and other technology. **(T-1)** They will assess the use of available options to deny unauthorized access to nuclear weapons. **(T-1)** If denial is not achieved, the ability to prevent the loss, theft, damage or destruction of nuclear weapons will be assessed by the functional area experts. **(T-1)** Nuclear Surety Staff Assistance Visit functional area members will develop or validate that wing planned exercises are realistic scenarios to determine the wing's ability to meet the Nuclear Weapon Security Standard. **(T-1)** The Nuclear Surety Staff Assistance Visit team will assess the adequacy of and compliance with approved compensatory measures for MAJCOM approved security deviations. **(T-1)**

1.3.4. The Nuclear Surety Staff Assistance Visit team will review nuclear surety training programs and administration to ensure commanders and supervisors at all levels demonstrate effective responsibility, emphasis and focus on nuclear weapons surety per DAFI 91-101. **(T-1)**

1.3.5. The Nuclear Surety Staff Assistance Visit team will review the administrative qualifications, certification, continuing evaluation, removal from Personnel Reliability Assurance Program, Department of Defense Manual 5210.42_Air Force Manual 13-501, *Nuclear Weapons Personnel Reliability Program* duties, return to duty, and training and management processes to assess the overall effectiveness of the unit's implementation of Personnel Reliability Assurance Program. **(T-0)** The Nuclear Surety Staff Assistance Visit

team will focus on Personnel Reliability Assurance Program processes, including scenario-based exercises, formal and informal interviews, and observe day-to-day operations to validate/verify processes employed by the unit. **(T-0)** Ensure that the use or disclosures of protected health information as part of the medical Personnel Reliability Assurance Program Nuclear Surety Staff Assistance Visit process are properly accounted for in accordance with the Health Insurance Portability and Accountability Act. **(T-0)**

1.3.6. Command Post Controller and Communication Security Two Person Code Team Member closed book testing will be administered at bases with a strategic tasking as follows:

1.3.6.1. Nuclear Surety Staff Assistance Teams will test and evaluate eighty percent of available Communication Security Two Person Code Team Members (i.e., not on temporary duty, leave, or just completing a 12-hour Command Post shift). **(T-1)**

1.3.6.2. Command Post will be evaluated with performance evaluations in the same manner as Air Force Manual (AFMAN) 10-207, *Command Posts*, including respective MAJCOM supplements and DAFI 90-302. **(T-1)** Performance evaluations will include a scenario portion and testing portion. **(T-1)** The Command Post Nuclear Surety Staff Assistance Visit team members should conduct as many evaluations as possible so the number of evaluated members of the Command Post can be maximized.

1.3.6.3. Fixed and mobile ground-based nuclear command, control, and communications (NC3) systems maintenance documentation in accordance with technical order 00-33A-1001, intercontinental ballistic missile weapon system NC3 systems, support equipment, and communication system discrepancies in accordance with AFMAN 21-202, and NC3 equipment accountability in accordance with Department of Defense (DoDI) 5000.64_DAFI 23-111, *Accountability and Management of DoD Equipment and Other Accountable Property*, shall be inspected during the Nuclear Surety Staff Assistance Visit process. **(T-1)**

1.3.7. For Regular and Reserve/Guard Associate/Total Force Integration units, the sponsoring unit will have responsibility for the Associate/Total Force Integration unit(s) outlined in this instruction. **(T-1)**

1.3.8. MAJCOMs will determine the composition and qualifications required for the Nuclear Surety Staff Assistance Team. **(T-1)** The composition and qualifications should be based on the scope of the Nuclear Surety Staff Assistance Visit as required by either the MAJCOM or Wing Commander.

1.4. Nuclear Surety Staff Assistance Visit Trip and Event Scheduling.

1.4.1. MAJCOMs will determine when Nuclear Surety Staff Assistance Visits are scheduled. **(T-1)** Wing Commanders may request additional Nuclear Surety Staff Assistance Visits outside the MAJCOM schedule. United States Air Forces in Europe may request deviations to MAJCOM schedules as required to accommodate host nation requirements and the Functional Expert Visit Program.

1.4.1.1. MAJCOMs will send draft Nuclear Surety Staff Assistance Visit schedules to AFSEC/SEW annually no later than 15 March. **(T-1)**

1.4.2. MAJCOMs will provide a notification message to the Numbered Air Force or Center, and unit 60 days prior to the planned visit confirming the Nuclear Surety Staff Assistance Visit.

(T-1) The message will include date(s), lead point of contact, billeting, transportation and work center requirements (A Nuclear Surety Staff Assistance Visit team member should provide an info copy to the installation-owning MAJCOM if the Nuclear Surety Staff Assistance Visit is for a tenant unit). **(T-1)** Units will appoint a Nuclear Surety Staff Assistance Visit point of contact and forward the name to the MAJCOM within one week of receiving the notification message. **(T-1)**

1.4.3. Units should locally coordinate and provide inputs on a proposed Nuclear Surety Staff Assistance Visit sequence of events. Units will send a draft schedule of events to the MAJCOM not less than 40 days prior to the scheduled visit. **(T-1)** MAJCOMs will ensure the proposed schedule of events fulfills the Nuclear Surety Staff Assistance Visit requirements and coordinate the proposed schedule of events within the staff. **(T-1)** Nuclear Surety Staff Assistance Visit team members will coordinate functional area specific scheduling requirements with their unit points of contact. **(T-1)** A confirmed schedule of events will be completed by the unit and submitted to the MAJCOM not less than 14 days prior to the Nuclear Surety Staff Assistance Visit team's arrival. **(T-1)** After the visit and schedule of events is confirmed, any scheduling conflicts must be immediately brought to the attention of the MAJCOM Nuclear Surety Staff Assistance Visit point of contact for resolution. **(T-1)**

1.5. Unit Preparation.

1.5.1. Units will provide current self-assessment checklists as well as copies of the last self-assessment performed in reviewable areas 30 days prior to the arrival of the Nuclear Surety Staff Assistance Visit Team. **(T-1)**

1.5.2. Units will provide a copy of their simulations/deviations to the Nuclear Surety Staff Assistance Visit team not later than 30 days prior to the scheduled visit. **(T-1)** The Nuclear Surety Staff Assistance Visit team chief(s) will approve or disapprove simulations at least seven days before the visit commences. **(T-1)**
