Air Force Job Qualification Standard (AFJQS)
Unit Deployment Manager (UDM)
(8U000)

ACCESSIBILITY: Publications and forms are available on the e-publishing website at www.e-publishing.af.mil for downloading or ordering.

RELEASABILITY: There are no releasability restrictions on this publication.

---

1. PURPOSE. As directed by AFI 10-403, *Deployment Planning and Execution*, this AFJQS identifies the minimum training required to become a UDM (both military and civilian), and also applies to additional duty UDM's, where appropriate. This AFJQS is a stand-alone product and does not require an accompanying Master Training Plan (MTP) and/or Individual Training Plan (ITP). This AFJQS applies to the Total Force and may be supplemented to capture unique requirements not common across the Total Force. This AFJQS will remain in effect until superseded or rescinded.

2. TASK QUALIFICATION. All personnel authorized to sign off tasks (trainee, trainer, and supervisor, as a minimum) in the AFJQS must be listed in the identification block. UDMs will be qualified to the GO/NO GO standard for all tasks listed in this AFJQS. GO means the individual can perform the task without assistance utilizing appropriate instructions or other procedural guidance. If required training listed in Part II of this AFJQS is provided through OJT, in-residence, distance learning (DL), or web-based courses, a supervisor/trainer from that respective functional area (e.g. a supervisor assigned to the Command Post certifying DRRS training) and/or a supervisor/trainer assigned to Plans & Integration will complete the trainer's block to document training completion. Airmen serving as UDMs in special duty 8U000 and those appointed in an additional duty capacity must complete all duty position qualifications within 12 months of initial appointment.

3. ADDITIONAL DUTY or TASK. If a UDM is assigned an additional duty or task not listed in this AFJQS, the supervisor will develop an AF IMT 797, *Job Qualification Standard Continuation/Command JQS.* The supervisor/trainer will then develop a plan for the UDM to receive training and become duty position qualified.

4. RECERTIFYING. For tasks previously certified and required in the current duty position, circle the subparagraph number next to the task statement and enter the current date in the completion column followed by the trainee's initials in the trainee column and the current supervisor's/trainer's initials in the trainer column.

5. TRAINING DOCUMENTATION AND TRAINER/CERTIFIER IDENTIFICATION. Document training required by this AFJQS in accordance with AFI 36-2201, *Air Force Training Program*. For civilians, document civilian training on Supervisor-Employee-Brief-971. All trainers authorized to sign off tasks in Part II of this AFJQS will be identified in the identification block of this AFJQS. There are no tasks requiring third-party certification.

6. This AFJQS was developed by Subject Matter Experts across the Logistics Plans and Unit Deployment Manager Career Fields and has been coordinated with all applicable CFMs and MFMs. The overall POC for this AFJQS is the 2G0X1/8U000 Career Field Manager.

This block is for identification purposes only
