AFMAN 11-202V2, Aircrew Standardization and Evaluation Program, and AETC Supplement are supplemented as follows: This 47th Operations Group (OG) supplement establishes the 47 OG Standardization/Evaluation (Stan/Eval) Program. It applies to commanders, operations supervisors, aircrews assigned or attached to the 47 OG, and any aircrew performing Stan/Eval duties on 47 FTW aircraft. Information contained herein applies to all 47 OG units. For specific guidance on a particular mission design series (MDS), see the appropriate AFMAN 11-2 (MDS), Volume 2. Submit suggested improvements to this instruction to 47 OG/OGV. Request waivers to this instruction through 47 OG/OGV to 47 OG/CC for approval. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) Air Force Instruction 33-322, *Records Management and Information Governance Program*, and disposed of IAW Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS) on the Air Force Portal

SUMMARY OF CHANGES

This document is substantially revised and must be completely reviewed. This revision updates **table 7.1**, clarifies training and certification documentation, and realigns processes to be compliant with AFMAN 11-202V2 AETC SUP 1 September 2022 and AFMAN 11-202V1 AETC SUP 17 July 2024.

3.2.2.5. OGV is responsible for overall trend tracking. CCV is responsible for MDS-specific trend identification. A flying or EPE trend is defined as any item that is Q- or U on three or more of the evaluations on which the maneuver was sampled. A testing trend is any question that is missed more than 20% of the time during a quarter. A single occurrence will not constitute a flight or testing trend regardless of percentage. A 47 OG-wide trend is defined as any MDS-general item that is a trend in two or more MDSs.

3.2.2.7.1. OGV should notify each OG Squadron two weeks prior to the SEB. Squadrons will forward inputs to OGV no later than one week prior to the scheduled SEB.

3.2.2.7.2. SEB minutes will include Contract Simulator Instructor (CSI) SEB inputs as a separate category.

3.2.2.9. OGV will notify the affected squadron(s) via FCIF upon release of a new publication or publication change, will ensure ePubs and EFB library is updated, and will ensure sufficient copies are available at the bookstore if paper copies are required.

3.2.2.12. 47 OSS Airspace is responsible for managing the 47 OG MTR review process. Slow Routes (SR) flown by 47 FTW aircraft will be included in the MTR review process. Report these results to OGV in preparation for the semi-annual SEB.

3.2.2.13. Operations Supervision program procedures are outlined in the AFI 11-418 47 OG Sup.

3.3.2.9. In addition to advising squadron leadership of aircrew progression toward completion of aircrew evaluations and requisites, NLT COB of the end of each calendar month, CCVs will provide OGV a list of evaluations accomplished that month and planned for the next month.

4.2.1. The 47 OG FE Certification Checklist PDF document will be referenced when accomplishing FE Certification. 47 OG/OGV will maintain the most current copy of this checklist on the 47 OG/OGV SharePoint.

4.2.1.2. SQ FEs will meet with the SQ/CC and Chief of OGV. OG FE's will meet with the OG/CC and Chief of OGV.

4.2.2. All Flight Examiners will be designated in the certifications module in G/TIMS.

4.2.2.1. **(Added)** Squadrons will submit the signed AF Form 4324 to their SARM office to update ARTEMIS or equivalent system.

4.2.2.2. **(Added)** Completed FE Certification Checklists will be kept in the FE's training folder maintained by his or her respective flying squadron's DOT.

4.2.2.3. **(Added)** Aircrew will not act as an FE until the G/TIMS generated LoX is validated by the SQ/CC or designated representative.

4.2.2.4. **(Added)** A squadron FE transitioning to become an Operations Group FE does not require an additional FE checklist. For Operations Group FE upgrades, IAW **Table 7.1**, the OG/CC

or OG/CD will sign the certification within the G/TIMS Certification Module. The SQ/CC, or designated representative, will ensure the LoX reflects the new certification.

4.3.5. OGV will maintain an FE Handbook to standardize and provide local guidance for FEs. The FE Handbook will be maintained electronically on the 47 OG/OGV publications library on Box.com.

4.3.8.6. CCV chiefs will normally be the reviewing officer unless they are the FE, examinee or unavailable. SQ/CC or DO will then be the reviewing officer. Squadrons will implement their own policies for unique events where this guidance cannot be met.

4.3.8.6.1. **(Added)** The OGV MDS Branch Chief will review the G/TIMS- generated AF Form 8/8A in G/TIMS as an 'Additional Reviewer' prior to the Form 8/8A being routed for Reviewing Officer and Final Approving Officer signature.

4.3.8.6.2. **(Added)** If an OGV Branch Chief is the FE or the Examinee on the Form 8/8A, then the 'Additional Reviewer' will be the Chief of OGV. If the Chief of OGV is the FE or Examinee, an OG/CD will be the 'Additional Reviewer.'

4.4.2.2. OG/CDs that fly different MDSs from the OG/CC are designated Senior FEs after completing the FE upgrade process outlined in this document.

5.2.6.3.1. The Operations Group and flying squadrons will each administer No-Notice (N/N) checkrides to a minimum of 5% of the crew force (a total of 10% of the total crew force). The Operations Group and flying squadrons will conduct at least one N/N per quarter in each MDS. Should an OG FE be unavailable for an extended amount of time (DNIF, etc.), OGV will coordinate with CCV to accomplish OG N/N requirements (document in the SEB). Squadrons are permitted to use OG FEs to meet their N/N requirements. N/N evaluations will include a representative sample of all instructors (i.e. FAIPs, MWS IPs, active duty, and AFRC). FEs will coordinate with the assigned flying SQ/CC (SQ/DO if SQ/CC is unavailable) before informing examinees of a N/N evaluation. Flying SQ/CCs will ensure on-loan/attached SQ/CCs are informed of their aircrew's evaluation.

5.2.6.3.2. "Normal preparation" may be considered as when the schedule is released for the following day. SQ/CC's and FE's may reduce the preparation period as desired.

5.8.3.2.2. HHQ and MAJCOM requests for evaluation extensions will be submitted via eSSS through OGV to OG/CCE. OG/CCE will normally submit requests via TMT.

6.3.2. Requisite examinations will be administered by CCV in the flying squadrons. CSI testing may be accomplished in the CSI Stan/Eval office. Closed Book Examinations will be directly proctored by a CCV. All testable publications will be available electronically in all testing locations.

6.5.1. End of Course (EOC) exams are not applicable to Pilot Training and are not used to fulfill requisite testing requirements.

6.6.1. **Examination Question Review.** OGV will review G/TIMS requisite examinations annually and maintain an index of tracked examinations with most recent date of review and notable findings. Each OGV MDS section chief will review and/or change all affected aircrew examinations when an applicable publication change is received. The date of publication change, and date of exam review, will be documented in G/TIMS.

6.9.1. CCV will utilize G/TIMS to place aircrew members in a supervisory status upon a failed requisite.

6.9.2. The adequate study period and/or training required prior to reexamination will be determined by the SQ/CC of the flying squadron or the Lead MDS CSI for CSIs.

6.10. **Unit Periodic Examinations.** CCV will generate and administer semiannual examinations to all assigned and attached IPs. This test will consist of a minimum of 25 questions. Aircrew who have not taken the exam by the end of the semi-annual period will not fly until a passing score is obtained. Flying SQ/CCs will be notified of test failures (a score below 85%).

7.3.12.6. For all evaluations, CCV will create a draft AF Form 8/8A upon beginning the eligibility period or prior to beginning the first requisite/event, whichever is sooner. Immediately after debriefing an evaluation, the FE will annotate all required items IAW 11-202 Vol 2, sign the draft AF Form 8/8A, and return it to CCV. CCV will file the draft AF Form 8/8A in the member's FEF.

7.3.12.6.1. **(Added)** CCV and the FE will track all requisite completion via CCV established checklists.

7.3.12.6.2. **(Added)** Once all requisites, evaluation events, and required additional training are complete the FE (or, as a backup, SQ SELO or CCV Chief) will enter the flight evaluation date on an AF 1522, sign the AF 1522, ensure the examinee has signed in the "aircrew signature" section, and then provide the completed AF 1522 to SARM. SARM will update the evaluation task ID completion and expiration date(s) in ARTEMIS based on the date of the completed flight evaluation.

7.3.12.6.3. **(Added)** CCV will create a final AF Form 8/8A for signatures in G/TIMS upon completion of all requisites.

7.3.12.6.4. **(Added)** After the AF Form 8/8A is finalized, it will replace the draft AF Form 8/8A in the FEF.

7.7.1.2. Squadrons will maintain FEFs for all assigned/attached personnel. Hard copy FEFs will be stored in a secure cabinet or drawer accessible only by CCV, squadron FEs, and OGV. Positive control measures, such as a sign-out log, will be in place to track each FEF when signed out/removed.

7.7.3.1.2. File the 47 OG minor discrepancy log behind the AF Forms 942. No other items are authorized in FEF Section I. A master version of the 47 OG minor discrepancy log can be found on the 47 OG/OGV SharePoint.

7.7.5.1. **Initial Review.** The initial review of an FEF will be documented on the 47 OG/OGV Initial Review Cover Sheet and signed/dated by both the SQ SELO and CCV Chief (template located on the 47 OG/OGV SharePoint at **https://usaf.dps.mil/sites/47FTW/OG/47OGV** under the Flight Evaluations section). Cover sheets will be placed in section II of the FEF on top of the aircrew's most recent AF Form 8/8A from his or her previous unit/PIT. Initial reviews conducted prior to the release of this updated supplement may be annotated via an MFR or coversheet IAW previous guidance.

7.7.5.2.3. A separate "Posting Review" entry on the AF Form 942 is not required when an AF Form 8/8A is posted in the FEF. Previous "Posting Review" AF Form 942 entries do not need to be removed.

7.7.5.3.3. Annual reviews of the FEF will be documented on the AF Form 942. A one-line entry will be made on the AF Form 942 with "Annual Review" entered in the "Type of Evaluation" column, and the date the review was completed entered in the "Date Completed" column.

7.7.6.1.1. 47 OG/OGV will be notified when a major discrepancy is identified. Example MFRs to document major discrepancies are located on 47 OG/OGV SharePoint under the Flight Evaluations section.

7.8.1. The primary record of aircrew certification will be the G/TIMS certification module. If an AF Form 4348 is utilized in lieu of the G/TIMS certification module, the AF Form 4348 must be kept in the aircrew member's training folder.

7.8.1.2. Unit Stan/Eval may designate an individual or section to document all initial, downgrade, and re-certifications for assigned/attached aircrew but will not relinquish this responsibility and must provide appropriate oversight.

7.8.4.2.1. Discretionary Decertification is not required when an individual upgrades to a higher certification when the basic certification is not considered obsolete (i.e. NTA IP, IRSU, etc.). If certification involves a certification authority above or below that of the original certification an AF Form 4348 or LoX update is required (reference **Table 7.1**.). Discretionary Decertification is also not required for retirement, separation, or PCS to a non-AETC assignment.

7.8.7. 47 OG units will prioritize the use of G/TIMS for the Aircrew Certifications procedures/ program to comply with AFMAN 11-202V1 AETCSUP and AFMAN 11-202V2 AETCSUP requirements. The G/TIMS Certification Module will be the 'Electronic Equivalent' as defined in the AFMAN 11-202V1 AETCSUP. Some certifications/qualifications may need to be documented in ARTEMIS by filling out an AF Form 4324 and submitting it to SARM. The G/TIMS certification module and the G/TIMS generated LoX is the certification source. SQ DOTs will maintain training documentation (i.e. gradebooks, checklists, program-specific forms, etc.) in the member's training folder.

Table 7.1. (Added) Flying/Ground Certifications.

Units will use the G/TIMS certification module to document all initial, downgrade, and re-certifications for assigned/attached aircrew.			
Certification	**MDS**	**Certification Official[4]**	**G/TIMS Abbreviation**
Mission Ready[1]	All	SQ/CC	MSN READY
Experienced IP[1]	All	SQ/CC	EXP IP
Military Simulator Instructor[1]	All	SQ/CC	MSI
Squadron Flight Examiner[1]	All	SQ/CC	SQ FE
Operations Supervisor[1]	All	SQ/CC	SUP

RSU Controller[1,2]	T-6, T-38	OG/CC[7]	RSU C
RSU Instructor Controller[5]	T-6, T-38	SQ/CC	RSU IC
RSU Controller Evaluator[5]	T-6, T-38	SQ/CC	RSU CE
Stall IP[1]	T-38	SQ/CC	STALL IP
NOTE 1: AF4324 NOTE 2: AETC309			

NOTE 3: Chief 47 OG/FCF signed AF 4297 (T-6), AF 4287 (T-38)
NOTE 4: SQ/CCs may designate other individuals per the AFMAN 11-202V1 AETCSUP 9.1.1.
NOTE 5: SQ/CC must sign an appointment letter prior to certification.
NOTE 6: Supervisor of Flying certification implies the SOF has completed all day and night required training and is certified for day and night duties.
NOTE 7: May be delegated to the OG/CD.

8.4.1. The passing certificate will be provided to the attached SARM. Testing is documented on an AF Form 1522, *ARMS Additional Training Accomplishment Report*, and logged into ARTEMIS under flight surgeon training and events. Attached SARMs will track/notify attached flight surgeons of upcoming testing due dates.

9.1.1.5. The Wing/Unit Release Authority/Office for FCIFs originating from outside the 47FTW is the 47 OG/OGV Chief or a Branch Chief. For unit generated FCIFs, The Wing/Unit Release Authority/Office is the 47 OG/CC or 47 OG/CD. Squadron, Safety, SOF, FCF, and RSU read file items will be maintained and distributed by their respective FCIF Monitor. Primary notification of any FCIF or read file will be through G/TIMS.

9.1.1.8. Initial FCIF review will be accomplished through G/TIMS. The OGV FCIF Program Manager will release an FCIF at the beginning of each calendar year to ensure annual reviews are accomplished.

9.1.1.11. 47 OG/OGV will maintain digital backups to the Box.com publications library. The Chief of OGV will designate a primary and alternate POC for maintaining these backups.

9.1.2.1.3. Part C Read File items are released via G/TIMS. They are considered Go/No-Go items and may or may not be grounding.

9.1.2.9. Volume IV publications include MDS-specific Flight Manuals, checklists, and in-flight guides.

9.2.8. **(Added)** Squadrons will advise OGV of SQ/CC SIIs to aid in standardization and compliance with parent regulations. Squadron SIIs may be published via a squadron Pilot Information File (PIF) or routed to OGV for release via FCIF.

9.4. **Go/No-Go Procedures.** ARTEMIS (or ARTEMIS produced products) will be the primary source to verify aircrew Go/No-Go status. SARM will ensure ARTEMIS products and G/TIMS Go/No-Go Status are accurate and members have completed all items required for flight. Squadron Supervisors (SUPs) will have oversight of these Go/No-Go procedures.

9.4.4. DNIF status will be verified via G/TIMS and ARTEMIS. If G/TIMS or ARTEMIS do not reflect accurate DNIF status, do not step that aircrew until the appropriate medical status is verified.

9.4.5. The SUP is responsible for informing aircrew that are off station if any FCIF is released that could impact the aircrews' subsequent flights.

9.4.6. **(Added)** Database Back-up Operations. Each respective closing SARM will save a digital copy of the G/TIMS "Go/No-Go" & "FCIF Roster" and ARTEMIS Go/No-Go to the appropriate computer hard drive or government approved disk/data locker. Accomplish this once the current day's flying training events have been entered into G/TIMS and updated in ARTEMIS (or equivalent).

9.5. **Supplementary Evaluations** . OGV will conduct formal evaluations of OG and SQ functions (to include CSI) quarterly.

9.5.3. At a minimum, OGV will conduct evaluations IAW the AETC/A3V Big Board (**https://usaf.dps.mil/sites/aetc-hq-a36/A3V/SitePages/SuppEval-BigBoard.aspx**). The 47 OG/CC may direct additional supplementary evaluations. OGV will publish a report of findings to the 47 FTW page of the AETC/A3V SharePoint site and report observations to the 47 FTW/IG.

RICHARD J. GREIG, Colonel, USAF
Commander, 47th Operations Group
