This publication implements Air Force Policy Directive (AFPD) 31-1, *Integrated Defense*, AFI 31-218_IP, *Motor Vehicle Traffic Supervision* and AFMAN 31-116, *Air Force Motor Vehicle Traffic Supervision*. This instruction also assimilates, as applicable, California Vehicle Code (CVC) for enforcement on the federal installation known as Los Angeles Air Force Base (LAAFB), located within the state of California. All provisions are directive in nature and apply to all organizations and personnel located on or within the jurisdictional limits of LAAFB, CA. When a conflict between the CVC and AFPD 31-1, AFI 31-218_IP, AFMAN 31-116 or LAAFB 31-116 exists, the CVC will supersede the listed Air Force Publications. This instruction also complies with the guidance set forth in the LAAFB Integrated Defense Plan (IDP). Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*; route AF Form 847s from the field through the appropriate functional' s chain of command. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) Air Force Manual (AFMAN) 33-363, Management of Records, and disposed of IAW Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS) located at **https://www.my.af.mil/afrims/afrims/afrims.rims.cmf**.

**Authority for maintenance of the system:** "This instruction requires collecting and maintaining information protected by the *Privacy Act of 1974* authorized by 10 U.S.C. 8013, Secretary of the Air Force: Powers and duties; delegation by and DODI 6055.07, *Mishap Notification, Investigation, Reporting, and Record Keeping*; DODI 6055.4, *Department of Defense Traffic Safety Program* and AFIs 31-201, *Security Forces Standards and Procedures*,

31-218_IP, 31-218, *Motor Vehicle Traffic Supervision*, and AFMAN 31-116, *Air Force Motor Vehicle Traffic Supervision*, DoD Directive 7730.47, *Defense Incident Based Reporting System (DIBRS)*; AFI 31-203, *Security Forces Management Information System (SFMIS)*; 18 U.S.C. 922 note, Brady Handgun Violence Prevention Act; 28 U.S.C. 534 note, Uniform Federal Crime Reporting Act; 42 U.S.C. 10601 et seq., Victims' Rights and Restitution Act of 1990; and E.O. 9397 (SSN). The following System of Records Notices apply: F031, AF SP L, Traffic Accidents and Violation Reports; F031 AF SP K, Vehicle Administration Records, F031 AF SP B, Security Forces Management Information System (SFMIS).

***SUMMARY OF CHANGES***

This document has been substantially revised and must be completely reviewed. It has been reorganized IAW the basic instruction for easier readability. This document has been renamed from the 61 ABWI 31-204 to LAAFBI 31-112. This supplement now delegates authority for execution of the motor vehicle traffic supervision instruction to 61 ABG/CC.

## Chapter 1

## MOTOR VEHICLE TRAFFIC SUPERVISION PROGRAM

**1.1. Program Management.** This instruction implements local policy, assigns responsibility, and establishes procedure for motor vehicle traffic supervision on LAAFB. This instruction provides further specific guidance derived from AFI 31-218(I), *Motor Vehicle Traffic Supervision*, AFMAN 31-116, *Air Force Motor Vehicle Traffic Supervision*, AFI 31-101, *Integrated Defense*, AFI 10-245, *Antiterrorism*, AFI 91-207, *The US Air Force Traffic Safety Program* and California Vehicle Code.

**1.2. Responsibilities:** IAW AFMAN 31-116, paragraph 1.2., the 61st Security Forces Commander (61 SFS/CC) is the Installation Commander's principal advisor on issues pertaining to the lawful movement of personnel and traffic. The 61 SFS/CC exercises staff responsibility for directing, regulating and controlling traffic, and enforcing installation rules pertaining to traffic control. The 61 SFS/CC assists traffic engineers by performing traffic control studies to gather information on traffic problems and use patterns. The 61st ABG Commander (61 ABG/CC) is designated by the AFSPC Commander to act on his/her behalf to authorize suspensions and revocations in matters pertaining to traffic management on LAAFB (i.e.: reviewing and providing recommendations on driving suspensions, rebuttals, DD Form 1408 rebuttals, and approving extensions for "Commander's Action" on the DD Form 1408).

1.2.1. Commanders, 2-letter directors and supervisors will ensure their personnel adhere to the provisions of this instruction. Sponsors will ensure their guests comply with this instruction. All persons operating a vehicle on base will be familiar with and comply with this instruction.

**1.3. Delegation of Authority:** The 61 ABG/CC may delegate authority under this instruction to any 61 ABG Squadron Commander or Director. Those selected for delegation as the Installation Traffic Officer (ITO) must not occupy a law enforcement, investigative, or other position which might lead to a conflict of interest or the appearance of such conflict during their administration of the motor vehicle traffic supervision program. Letters of delegation shall be coordinated through SMC/SJA and maintained by 61 SFS Reports and Analysis (61 SFS/S5RA) section.

## Chapter 2

## DRIVING PRIVILEGES

**2.1. Requirements for Driving Privileges:** Driving a government owned vehicle (GOV) or privately owned vehicle (POV) on LAAFB is a privilege granted by the 61 ABG/CC. The 61 ABG/CC or designee may for cause, or any lawful reason, administratively suspend or revoke driving privileges on the installation. The suspension or revocation of installation driving privileges or POV registrations, for lawful reasons unrelated to traffic violations or safe vehicle operation, is not limited or restricted by this instruction. Persons who accept the privilege must:

2.1.1. Lawfully be licensed to operate a motor vehicle in the appropriate classification and not be under suspension or revocation in any other DoD installation or state.

2.1.2. Comply with DoD Regulations, Air Force Instructions and CVCs governing motor vehicle operations on LAAFB.

2.1.3. Possess, while operating a motor vehicle, and produce upon request by 61 SFS and 61 ABG Safety Office (61 ABG/SE), personnel authorized in the performance of official duties, the following:

2.1.3.1. A current and valid state driver's license or a current valid international driver's license with the appropriate classification/endorsement for the vehicle being operated.

2.1.3.2. Proof of current vehicle registration.

2.1.3.2.1. Personnel must have current vehicle registration in order to enter or park on any part of LAAFB. Personnel who are cited for operating a vehicle on LAAFB with registration expired less than 14 days, have 3 duty days (Monday–Friday) to properly register the vehicle and provide proof to 61 SFS/S5R. If proof is not provided, their base driving privileges will be suspended for 60 days. If the registration was expired for over 14 days, base driving privileges will be suspended for 60 days.

2.1.3.3. Proof of current vehicle insurance. Proof of insurance consists of an insurance card, or other documents issued by the insurance company that has a policy number, beginning and expiration dates, and the Vehicle Identification Number (VIN) of the vehicle covered.

2.1.3.3.1. Personnel who are cited for operating a vehicle with no proof of insurance or fail to produce documents that prove otherwise are subject to having their base driving privileges suspended or revoked for up to 90 days.

2.1.3.3.2. Personnel who fail to provide proof of current documents when requested will be denied access to LAAFB.

**2.2. Stopping and Inspecting Personnel or Vehicles.** 61 SFS patrols may stop vehicles on LAAFB based on 61 ABG/CC or designated representative's authority:

2.2.1. IAW LAAFB Integrated Defense Plan, personnel will abide by and submit to Random Installation Entry/Exit Vehicle Checks (RIEVC) at LAAFB or its annexes (Ft MacArthur, Pacific Crest, and Pacific Heights) installation gates. Refusal to permit the inspection may

result in the loss of base driving privileges for one year, barment from the base or other administrative actions.

2.2.2. The 61 ABG/CC or designated representative determines where and when the checks occur and prescribe a formula for checking vehicles. When a vehicle is initially stopped for a check, the 61 SFS member will determine if seat belts are being worn. The 61st SFS member will ensure the operator has in possession a valid driver's license, current registration and proof of valid insurance. If warranted, a citation will be issued for any violations to the above.

2.2.3. If a finding or refusal of a RIEVC takes place, a blotter entry will be made, and if there is evidence of a crime, the violator will be cited for the crime and may be issued a Department of Defense (DoD) Notice to Appear citation unless the violator is an active duty military member. In this case, a Security Force Information System Incident Report will be accomplished along with the issuance of an AF FM 1408 Armed Forces Traffic Citation.

**2.3. Suspension or Revocation of Driving Privileges.** The Installation Traffic Officer may for cause, or any lawful reason, administratively suspend, revoke, restore, grant limited driving privileges or preside over traffic hearings on the installation. The suspension or revocation of installation driving privileges for lawful reasons unrelated to traffic violations or safe vehicle operation, is not limited or restricted by this instruction.

2.3.1. Driving Under the Influence (DUI) Suspensions/Revocations. The Installation Commander, or their designee, must conduct evidence reviews as soon as possible, or within the first normal duty-day following final assembly of evidence. Unit Commanders, following coordination with SMC/JA (SJA), direct drug testing within 24 hours of a suspected alcohol related incident and to refer personnel to treatment programs IAW AFI 44-121, *Alcohol and Drug Abuse Treatment Program*. Notice of one year Suspension/Revocation of Base Driving Privileges letters for DUI will be issued by the patrolmen. This initial letter is a preliminary suspension which will remain in place until the Installation Commander or designee makes a final decision. A separate final notice will be given to the individual when the final decision is made. The individual will be given credit for the months leading up to the final decision.

2.3.1.1. The primary test used on LAAFB for breath alcohol concentration (BrAC) will be a breath test. Law enforcement at LAAFB will use a state certified Intoxilyzer Instrument breath test as the primary method for determining breath alcohol concentration (BrAC) at LAAFB. Only certified police personnel shall administer this test. Other lawful methods of measuring BrAC may be used if determined appropriate by law enforcement personnel.

2.3.1.2. The 61 MDS will be responsible for administering blood alcohol content (BAC) tests to military and civilian personnel. Other lawful methods of measuring BAC may be used if determined appropriate by law enforcement personnel.

2.3.1.3. The use of portable breath testing (PBT) devices is approved in conformity with National Highway Traffic Safety Administration (NHTSA) standards.

2.3.1.4. Operating a motor vehicle with BrAC or BAC of 0.08 percent by volume or higher.

2.3.1.5. Operating a motor vehicle with BrAC or BAC of 0.01 percent by volume or higher if the operator is under 21 years of age.

2.3.1.6. Operating a motor vehicle with a BrAC or BAC below 0.08 percent blood alcohol by volume when an arrest report or other official document reasonably shows an intoxicated driving incident occurred.

2.3.2. Implied Consent to Breath or Blood Test. People who drive on LAAFB or its annexes (Ft MacArthur, Pacific Crest, and Pacific Heights) are deemed to have given consent to evidential tests for alcohol or other drug content of their breath or blood when lawfully stopped, cited or apprehended for any offense allegedly committed while driving or in physical control of a motor vehicle to determine the influence of alcohol or drugs.

2.3.2.1. If the installation commander or designee has determined that an individual refused to submit or complete a lawful test to measure the alcohol content in the breath or blood or detect the presence of any drug after a lawful stop, arrest, inspection or search, the individual shall be issued a mandatory one-year revocation of driving privileges. The one-year revocation will run consecutively with any suspension period resulting from a DUI conviction.

2.3.2.2. When Military refuse to submit to a test to determine BrAC for an on base DUI, 61 SFS personnel will consult with the on call SMC/JA (SJA) and Military Magistrate to request search authority. If authority to search and seize is granted, the offender may be transported to the 61 MDS for blood draw for Blood Alcohol Content (BAC).

2.3.2.2.1. When civilians refuse to submit to a test to determine BrAC for an on base DUI, 61 SFS personnel may issue a DoD Notice to appear citation for CVC 23152 (a). It is important that the arresting officer completely document all observations that indicate intoxication in the incident report, as well as the refusal to submit. A conviction in State Court is highly possible and probable with proper documentation. Under CVC 23157(e), if the person who has been arrested for a violation of Section 23140, 23152, or 231523 refuses or fails to complete a chemical test or tests the peace officer, acting on behalf of the department, shall serve the notice of suspension (admin per se) or revocation of the person's privilege to operate a motor vehicle personally on the arrested person. The notice shall be on a Verbal Notice by Peace Officer, DMV or Court Employee (DMV-310). The officer will also complete an Officer's Statement Form.

2.3.2.3. Report Every Drunk Driver Immediately (REDDI) program. Members of the public can report suspected incident of an alcohol or drug-related driving incident in progress at 310-653-5787. Callers may remain anonymous. Emphasis of the program is to encourage participation, resulting in protection of the public.

2.3.3. Preliminary suspension/revocation letters for other than intoxicated driving offenses.

2.3.3.1. These letters will be prepared and issued by the 61 SFS/S5RA or designated individual authorized by the 61 SFS/CC and are valid until a final determination is made. The Installation Traffic Officer will be delegated by the Installation Commander to review and make final suspension/revocations of all offenses other than intoxicated driving and release findings and recommendations. Before making the final determination, the officer is required to review all reliable and reasonably available

evidence. Failure of the offender to submit a request for an administrative hearing within 14 calendar days from the date of receipt of the preliminary suspension/revocation letter will end in an administrative hearing. Any person whose driving privileges have been revoked or suspended shall surrender their AF Form 2293, *U. S. Air Force Motor Vehicle Operator Identification Card*, to 61 CELS Vehicle Operators section. Personnel may not use a civilian license to drive GOVs off-base when on-base driving privileges have been suspended or revoked.

2.3.3.2. 61 SFS/S5RA will serve the letter by contacting the offender's First Sergeant or unit Commander/Director. If the offender is not affiliated with LAAFB, the letter will be mailed to the offender's home address. The unit Commander/Director or First Sergeant will direct the offender and their supervisor to 61 SFS/S5RA to sign the letter within 3 duty days (unless TDY or in leave status). If a revocation for implied consent is combined with another revocation such as DUI, revocations will run consecutively.

2.3.4. **Appeal Process for Traffic Citations:**

2.3.4.1. The appealing individual will submit a letter endorsed by their Commander/Director to 61 SFS/S5RA, 61 SFS/CC and the Installation Traffic Officer. This letter will include the date, time and location of the violation, as well as the citation number and justification for the appeal. 61 SFS/S5RA will coordinate and add appropriate attachments (i.e., statements from issuing patrol/witnesses). 61 SFS/S5RA and 61 SFS/CC will coordinate and make recommendations to the Installation Traffic Officer. The Installation Traffic Officer will make the final determination and forward the original letters to 61 SFS/S5RA. 61 SFS/S5RA will notify the individual of the final decision in writing

2.3.4.2. For on base offenses, letters of preliminary suspension/revocation are maintained and issued by the on duty Security Forces Flight. All Preliminary Notice of Revocation/Suspension of Base Driving Privileges letters shall remain in effect until a final determination is made by the Installation Traffic Officer. For off-base offenses, violators will report to the 61 SFS/S5RA section to be issued a preliminary suspension/revocation letter no later than three duty days from the incident.

2.3.4.3. All final letters of revocation for DUI or refusal to submit to a chemical test will be initiated by 61 SFS/S5RA.

2.3.4.4. Civilians who have no military affiliation charged with DUI while on LAAFB will be issued a Preliminary Notice of Suspension of Base Driving Privileges letter. The individual may be barred from the installation if deemed appropriate by the 61 ABG/CC.

2.3.4.5. Parking violations. Three parking violations within a 12-month period will result in suspension of driving privileges for 60 days. Each additional violation within this period will result in an additional 60 day suspension.

2.3.4.6. Unauthorized parking in a handicapped slot will result in an initial suspension of driving privileges for 60 days. Subsequent handicapped parking violations will result in the issue of the AF FM 1408 Armed Forces Traffic Ticket or DoD Notice to Appear (for civilians) and/or a 60 day suspension.

**2.4. Reinstatement of Driving Privileges.** Reinstatement of driving privileges on LAAFB shall be automatic once the following criteria have been met.

2.4.1. The applicable revocation period has been completed.

2.4.2. Completion of any reinstatement requirements of the individual's home state and/or the state the individual may have been suspended in have been met.

2.4.3. Completion of any assigned alcohol or drug abuse treatment.

**2.5. Vehicle impoundment.** POV's may be impounded if any of the following circumstances exist:

2.5.1. The vehicle is illegally parked:

2.5.1.1. On a street or is double parked, and interferes with the orderly flow of traffic.

2.5.1.2. On a sidewalk, within an intersection, on a crosswalk, in a fire lane, or is blocking a driveway, so that the vehicle interferes with operations or creates a safety hazard to other roadway users or the general public.

2.5.1.3. When blocking an emergency exit door of any public place.

2.5.1.4. In a tow-away zone that is marked with appropriate signs.

2.5.2. The POV interferes with:

2.5.2.1. Street cleaning operations and attempts to contact the owner have been unsuccessful.

2.5.2.2. Emergency operations during a natural disaster or fire or must be removed from the disaster area during cleanup operations.

2.5.2.3. The POV has been used in a crime or contains evidence of criminal activity.

2.5.2.4. Vehicles utilized in the commission of an offense are subject to being impounded by 61 SFS/S2. Additionally, the 61 ABG/CC, 61 SFS/CC, 61 SFS Operations Officer (61 SFS/S3), 61 SFS/S2 or an investigator on behalf of the Installation Traffic Officer may order the impoundment of a vehicle.

2.5.2.5. The owner or person in charge has been apprehended.

2.5.2.6. The POV is mechanically defective and is a menace to others using the public roadways.

2.5.2.7. The POV is disabled by a traffic incident and the operator is either unavailable or physically incapable of having the vehicle towed to a place of safety for storage or safekeeping.

2.5.2.8. The vehicle has been cited by 61 SFS personnel via DD Form 2504, Abandoned Vehicle Notice, and all attempts to contact the registered owner have failed or 30 days have elapsed since the vehicle was cited.

2.5.2.9. Recreational vehicles, without appropriate memorandum signed by Tierra Vista, Los Angeles Air Force Base Housing Community Office parked within the housing area over 72 hours are subject to impoundment.

**2.6. Extensions of Suspensions and Revocations.**

2.6.1. Any individual discovered driving on LAAFB while their state driver license or installation driving privileges are suspended/revoked will have the original period of suspension/revocation extended by two years, IAW AFI 31-218_IP, paragraph 2-12.a., unless limited driving privileges were granted by 61 ABG/CC. This action does not preclude commanders, directors, managers or supervisors from taking additional administrative action under the UCMJ or other applicable guidance. Contractor or non-base connected personnel in violation of suspension or revocation may receive a barment order under *Title 50, United States Code, Section 797.*

**2.7. Reciprocal State-Military Action.** If a military member, civilian, or contractor employee has their installation driving privileges suspended/revoked by the installation commander or their designated representative, 61 SFS/S5RA will notify the licensing authority of the state where a license is issued as required by AFI 31-218_IP, Paragraph 2-11.c. (2), and AFMAN 31-201v7, Paragraph 1.9.

## Chapter 3

## TRAFFIC PLANNING AND PARKING

### 3.1. Traffic Planning.

3.1.1. Any substantive change made to the existing traffic circulation design must be coordinated through the Traffic Review Board (TRB). The TRB is chaired by the 61 ABG/CC or their designated representative, Base Civil Engineer Logistics (CELS) and consists of, as a minimum, the Base Traffic Engineer, SFS/CC, Chief of Ground Safety, Staff Judge Advocate. The scope of the TRB is intended to meet the requirements of the Traffic Safety Coordination Group, as outlined in AFI 91-207. The 61 ABG Safety Office is the Office of Primary Responsibility for the TRB.

### 3.2. Traffic Law Enforcement Principles.

3.2.1. Speed limitations. The following speed limits apply on base:

3.2.1.1. General. Unless otherwise posted, the base speed limit is 15 miles per hour.

3.2.1.2. Housing areas. Unless otherwise posted, the speed limit for all housing areas is 15 miles per hour.

3.2.1.3. Parking lots. Unless otherwise posted, the speed limit for all parking lots is 10 miles per hour.

3.2.1.4. Troop formations. The speed limit is 10 miles per hour when approaching or passing troop formations.

### 3.3. Installation Traffic Code--Rules of the Road.

3.3.1. This section establishes the uniform rules for governing the supervision and control of traffic on the base. All provisions are applicable on all land areas under the exclusive jurisdiction of the Installation Commander, LAAFB. DoD, California Vehicle Code, USAF directives/instructions, and the United States Code apply to base traffic rules. Violators may be cited and points may be assessed against their driving record. The following additional prohibitions/requirements apply:

3.3.1.1. The use of Lidar detection devices is used by law enforcement patrols on LAAFB. The use of any device(s) capable of transmitting simulated erroneous speed is prohibited on LAAFB. Such devices will be turned off or unplugged while the vehicle is on base.

3.3.1.2. Traffic in the military family housing and temporary lodging facility areas are restricted to residents and their guests only. Through traffic is prohibited. Violators may be cited with a DD Form 1408 or DoD Notice to Appear for Failure to Obey a Traffic Control Device and may have 4 points assessed against their base driving record.

3.3.1.3. State license plates must be clearly visible at all times while on base. Vehicle operators are required to clear obstructions from the license plates before entering LAAFB.

3.3.1.4. The exterior of vehicles traveling on base must be clear of debris that could obstruct or impede the view of the operator or fly from the vehicle and obstruct or impede

the view of other drivers or cause an unsafe condition for other vehicles traveling on the roadway.

3.3.1.5. Children under 8 years of age must be secure in a car seat or booster seat in the back seat. Children under 8 years of age and are 4'9" or taller, may be secured by a safety belt in the back seat while in a vehicle being operated. CVC 27363(a).

3.3.1.6. No person will leave any child younger than 10 years of age unattended in a vehicle without an acceptable sitter (12 years of age or older).

3.3.1.7. Driver Distractions:

3.3.1.7.1. Drivers are strongly discouraged from engaging in any activity (e.g. eating, reading, Global Positioning System (GPS) programming, etc.) not directly related to driving which may result in becoming distracted from the safe operation of the vehicle.

3.3.1.7.2. Vehicle operators on a DoD installation and operators of government motor vehicles, regardless of the location, shall not use cell phones unless the vehicle is safely parked or the operator is using a hands-free device (i.e. single ear, wired earphone, Bluetooth earbud, Bluetooth compatible GPS, on-board (in-dash) Bluetooth connectivity, or similar technology that enables one-touch call answering). Using the speaker phone feature of a cellular telephone is not considered a hands-free device if the phone is being held in the driver's hand. Additionally, even when using a hands-free device, drivers will not manually dial out to place telephone calls while the vehicle is in motion. The use of voice recognition technology to dial and place a call while in motion is authorized and recommended.

3.3.1.7.3. The wearing of any other portable headphones, earphones, or other listening devices while operating a motor vehicle is prohibited. Use of those devices impairs driving and masks or prevents recognition of emergency signals, alarms, announcements, the approach of vehicles, and human speech.

3.3.1.7.4. The use of portable electronic devices (e.g., cell phones, tablets, iPads, etc.) for sending/receiving text messages, web-surfing, and other actions not directly related to the safe operation of the motor vehicle is prohibited.

3.3.1.7.5. Violation of the hands-free and portable electronic device policy is a primary offense, permitting Security Forces to stop a violator solely for this offense.

3.3.1.7.6. SF may use the DD Form 1408 *Armed Forces Traffic Ticket* to cite any violator, regardless of status for violation of the hands-free or portable electronic device policy. Civilians may be issued a DoD Notice to Appear. Violations of this policy fall under the category of "Other moving violations (involving driver behavior only)" listed in AFI 31-218_IP, Table 5-2. Individuals who are in violation and receive a citation will be assessed three points on their base driving record and may have their base driving privileges suspended.

3.3.1.8. Violations of the provisions of this instruction by base connected personnel will be reported to the unit commander, first sergeant, director, manager, or supervisor exercising disciplinary authority over the offender.

**3.4. Operation of Motorcycles, Motorized Mopeds, Motorized Scooters, and All-terrain Vehicles (ATV): NOTE**: All personnel, regardless of status, who violate the standards set forth in this section, may be cited via DD Form 1408 *Armed Forces Traffic Ticket* or Notice to Appear for civilians if a violation of the CVC. All cited violators will be assessed three points against their base driving record.

3.4.1. Air Force military personnel who operate a motorcycle (whether on or off-duty or on or off a DoD installation) are required to complete an approved motorcycle rider safety course.

3.4.1.1. All non-Air Force civilians (i.e…Retirees, contractors and dependents) who operate a motorcycle while on an Air Force installation are highly encouraged, but not required, to attend an approved motorcycle rider safety course.

3.4.2. In addition to complying with all traffic laws, the following requirements and guidance provide additional clarification for wear of personal protective equipment (PPE) by such vehicle operators/passengers, as prescribed in DoDI 6055.04, *DoD Traffic Safety Program*.

3.4.2.1. Helmets. Any person riding motorcycles or ATVs on LAAFB shall wear a helmet that is certified to meet Federal Motor Vehicle Safety Standard No. 218, United Nations Economic Commission for Europe (UNECE) Standard 22-05, British Standard 6658, or Snell Standard M2005. All helmets shall be properly fastened under the chin.

3.4.2.2. Eye Protection. Any person riding motorcycles or ATVs on Los Angeles AFB shall wear eye protection designed to meet or exceed American National Standards Institute Standard (ANSI) Z87.1, or UNECE 22-05, or BS6658 for impact and shatter resistance includes goggles, wraparound glasses, or a full-face shield (properly attached to a helmet). A windshield or fairing does not constitute eye protection.

3.4.2.3. Foot Protection. Any person riding motorcycles or ATVs on Los Angeles AFB shall wear sturdy over-the-ankle footwear that affords protection for the feet and ankles (durable leather or ballistic-type cloth athletic shoes that cover the ankles may be worn). Sandals, low quarters, sneakers, and similar footwear will not be worn.

3.4.2.4. Protective Clothing. Any person riding motorcycles or ATVs on Los Angeles AFB shall wear a long-sleeved shirt or jacket, long trousers, and full-fingered gloves or mittens made from leather or other abrasion-resistant material. Motorcycle jackets and pants constructed of abrasion-resistant materials such as leather, Kevlar®, or Cordura® and containing impact-absorbing padding are strongly encouraged.

3.4.3. Off road vehicle use.

3.4.3.1. Tracked or oversized vehicles will not be operated on base roadways unless specific advance approval is granted by 61 CELS and coordinated through 61 SFS/S3.

3.4.3.2. Seeded or off-road operation. No vehicle (with the exception of emergency response vehicles or those deemed as a matter of military necessity) will be operated or parked on a seeded area or off the roadway unless specifically authorized by posted signs or sanctioned events.

3.4.3.3. Operation of privately owned ATVs is prohibited. Government owned ATVs may be used for official purposes only. No passengers are authorized on an ATV unless it is equipped with multiple seats and intended for more than one rider.

**3.5. Operation of Bicycles:** NOTE: All personnel, regardless of status, who violate the standards set forth in this section, may be cited via DD Form 1408 Armed Forces Traffic Ticket or DoD Notice to Appear. All cited violators will be assessed three points against their base driving record.

3.5.1. Every person operating a bicycle upon a roadway shall ride as near to the right side of the roadway, with the flow of traffic, as practicable, obeying all traffic rules applicable to vehicles and exercising due care when passing a standing vehicle or one proceeding in the same direction.

3.5.2. Persons riding bicycles upon a roadway shall ride in single file, except on paths or parts of roadways set aside for the exclusive use of bicycles.

3.5.3. Every bicycle shall be equipped with an adequate brake when used on a street or highway.

3.5.4. Every bicycle in use from sunset to sunrise, and at any other time when there are unfavorable atmospheric conditions or where there is not sufficient natural light to render discernible persons, shall be equipped with the following:

3.5.4.1. A lamp mounted on the front of either the bicycle or the operator that shall emit a white light visible from a distance of at least 500 feet to the front and 300 feet to the sides. A generator-powered lamp that emits light only when the bicycle is moving may be used to meet this requirement.

3.5.4.2. A red reflector on the rear that shall be visible from all distances from one hundred feet to six hundred feet to the rear when directly in front of lawful lower beams of head lamps on a motor vehicle.

3.5.4.3. A lamp emitting either flashing or steady red light visible from a distance of five hundred feet to the rear shall be used in addition to the red reflector. If the red lamp performs as a reflector in that it is visible as specified in paragraph 3.5.4.2., the red lamp may serve as the reflector and a separate reflector is not required.

3.5.4.4. Bicyclists must wear retro-reflective high visibility outer garments.

3.5.5. Wear of Bicycle Helmets. All persons who ride a bicycle, tricycle, other human powered vehicles, or motorized bicycles, on an AF installation in a traffic environment shall wear a properly fastened and approved (e.g., Consumer Product Safety Commission, ANSI, Snell Memorial Foundation or host nation equivalent) bicycle helmet. Workers operating bicycles in areas that require the use of ANSI-approved helmets (hard hats) for protection from falling and flying objects are allowed to use those helmets instead of approved bicycle helmets.

**3.6. Suspected Abandoned POVs:**

3.6.1. Any person operating a vehicle on LAAFB shall be deemed to have given their consent for the removal and temporary impoundment, at the owner's expense, of their POV. Do not impound a vehicle if reasonable alternatives to impoundment exist. A reasonable

effort to notify the owner of the POV must be made. Personnel must remain observant and look for signs of vehicle abandonment. Notify the Base Defense Operations Center (BDOC) of the location and description of the offending vehicle if it is believed to be abandoned. BDOC will contact a patrol to respond to take corrective actions.

3.6.2. Once a suspected abandoned vehicle has been identified, reasonable attempts shall be made to notify the owner or operator of the vehicle to remove the vehicle. If the owner is known, SFS shall use available means to contact the owner/operator or their organization, spouse or neighbors, in an attempt to contact the owner. If contact is made with the owner, SF will instruct him/her to remove the vehicle.

3.6.3. SF will conspicuously place a DD Form 1408, *Armed Forces Traffic Ticket,* and a DD Form 2504, *Abandoned Vehicle Notice,* (See DODD 5525.4), on POVs considered abandoned and document this action with an entry in the blotter.

3.6.3.1. SF will allow the owner three days from the date the POV is tagged to remove the vehicle. SF will have the vehicle towed if it is not moved within the allotted time. Only approved towing services will be used, and DD Form 2505, *Abandoned Vehicle Removal Authorization,* will be completed IAW DODD 5525.4.

**3.7. Towing POVs:**

3.7.1. Towing of vehicles will be authorized only if one or more of the following criteria are met. The vehicle:

3.7.1.1. Meets criteria established in paragraph 2.3 through 2.3.1.6 of this instruction.

3.7.1.2. Inhibits emergency operations (during natural disaster, fire, increased FPCONs, etc.).

3.7.1.3. Has mechanical defects that create a menace to others.

3.7.1.4. Is disabled by an accident.

3.7.1.5. Is disabled along the alert aircraft route while alert aircraft are on site.

3.7.1.6. Creates a safety hazard.

3.7.1.7. Is left unattended in or adjacent to a restricted, controlled or off limits area.

3.7.2. Towing and storage.

3.7.2.1. If the vehicle must be towed, Security Forces will contact only an approved towing company. SF personnel will complete DD Form 2505, Abandoned Vehicle Removal Authorization IAW DODD 5525.4. If the vehicle must be towed, prior to towing, SF will photograph the vehicle to document pre-existing damage/condition and to provide visual evidence of the offense or condition justifying towing. Further, a CHP 180 form will be completed.

3.7.2.2. The approved towing company will tow and store vehicles suspected of being abandoned.

3.7.2.3. 61 SFS personnel will conduct an inventory of the vehicle and all contents of the vehicle via CHP Form 180. During the inventory, closed containers, such as a suitcase, will not be opened unless necessary to identify the owner or if the contents might present

a danger to the public. If valuable items are found during the inventory, complete an AF Form 52, Evidence Tag.

3.7.2.4. After the vehicle is removed, 61 SFS will complete the DD Form 2506, *Vehicle Impoundment Report* (See DODD 5525.4), as a record of action taken.

3.7.2.5. 61 SFS/S3I will forward a DD Form 2507, *Notice of Vehicle Impoundment* (See DODD 5525.4), by certified mail to the address of the last known owner of the vehicle to advise the owner of the impoundment action and to request information concerning the owner's intentions concerning the vehicle.

3.7.2.6. LAAFB will not be liable for any fees (i.e., towing, storage, damage, or disposal) associated with abandoned vehicles impounded by the towing company.

3.7.2.7. Inoperative vehicles fitting criteria in paragraphs 3.7.1.1. through 3.7.1.8. will be towed at the owner's expense under this instruction and AFI 31-218_IP, *Motor Vehicle Traffic Supervision*.

3.7.2.8. Vehicles which break down on base must be moved completely off the traveled portion of the roadway. A note of explanation must be securely attached to the vehicle in a prominent place identifying the problem, the owner and/or a point of contact, and his/her phone number. The operator of the vehicle must notify SF of the need to leave an inoperative vehicle on base. He/she will make arrangements to remove the vehicle within 24 hours. If the vehicle presents a safety hazard, the individual has not reported to the 61 SFS or the vehicle has not been moved after 3 days from the date the DD Form 2504 was issued, 61 SFS/S2I will implement impoundment actions.

**3.8. Stolen POVs:**

3.8.1. Stolen POVs or vehicles known to be or suspected of being involved in a crime will be kept in Air Force custody when held for evidentiary purposes. All other vehicles will be released to the registered owner or to the law enforcement agency reporting the vehicle stolen, unless held for evidentiary purposes.

3.8.2. At times, civilian law enforcement or civilian government agencies will request the Air Force impound an on-base vehicle for reasons not related to military issues. All such requests will be staffed through the SJA and the 61 SFS/CC. When appropriate, 61 SFS will comply with and support such requests and impound the vehicle until civilian authorities request release, or until the vehicle no longer has evidentiary value, as determined by the requesting agency. 61 SFS/S2I will coordinate with AFOSI, on a case-by-case basis to secure a temporary location to store the impounded vehicle until such time as local authorities take custody of the vehicle or it is released to the registered owner.

**3.9. Pedestrians.**

3.9.1. Pedestrians in marked crosswalks have the right of way. A pedestrian does not have an unrestricted right to walk into oncoming traffic, even in marked crosswalks.

3.9.1.1. When approaching a crosswalk, operators of motor vehicles will yield the right of way to pedestrians already in the crosswalk.

3.9.1.2. No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close as to constitute an immediate hazard.

3.9.2. Walkers, joggers, runners, and skaters on roadways at night or in inclement weather (e.g., fog, rain, etc.), will wear clothing containing retro-reflective properties or retro-reflective accessories visible from the front and back. Personnel will use the extreme left-hand side of any roadway and move against the flow of oncoming traffic. Personnel will not step into any roadway without first looking both ways. Violators may be cited on a DD Form 1408 Armed Forces Traffic Ticket or DoD Notice to Appear for civilians.

3.9.3. Walkers, joggers, runners, and skaters will use the sidewalk when available. Walking, jogging, running, and skating on roadways is permitted only when there is no sidewalk available on either side of the roadway. Violators may be cited on a DD Form 1408 Armed Forces Traffic Ticket or DoD Notice to Appear for civilians.

3.9.4. All skaters will wear an approved helmet which meets ANSI or SNELL Memorial Foundation Guidelines.

3.9.5. Wearing portable headphones, earphones, cellular phones, iPods, or other listening and entertainment devices (other than hearing aids) while walking, jogging, running, bicycling, skating or skateboarding on roadways is prohibited. Use of listening devices impairs recognition of emergency signals, alarms, announcements, approaching vehicles, human speech, and outside noise in general. Violators may be cited on a DD Form 1408 Armed Forces Traffic Ticket.

**3.10. Motor Vehicle Accident Reporting.**

3.10.1. Military members involved in off-base vehicle accidents resulting in injury or damage to military property must report the accident to the BDOC within 48 hours of occurrence.

3.10.1.1. These accidents will be recorded in the blotter to include the case number from the investigating agency. When possible, 61 SFS/S5RA will obtain copies of reports from the investigating agency.

3.10.2. All vehicular accidents occurring on-base must be reported to the BDOC within 48 hours of the accident.

3.10.2.1. Mission permitting, the 61 SFS may respond to the scene of minor vehicle accidents. Operator(s) may be directed to report in person to Bldg 272 for completion of appropriate paperwork.

3.10.2.2. Vehicle operators involved in minor vehicle accidents should exchange information to assist with insurance claims, and are not required to wait until the arrival of SF patrols.

3.10.3. The 61 SFS will respond to all major accidents and complete a major accident investigation (AF Form 1315). A major accident is defined as any accident involving personal injury, death, total property damage to government property or to motor vehicles exceeds $10,000, or POVs are rendered inoperable from the accident.

**3.11. Parking.**

3.11.1. Within 90 days from the date of this instruction, each Real Property Building Manager (RPBM) will submit an updated parking plan for his/her facility to 61 CELS. Prior to making changes to parking, 61 CELS will notify 61 FSS to ensure local bargaining

obligations are satisfied. Any reserved parking not approved within 90 days from the date of this instruction will be invalidated and signs will be removed.

3.11.2. Parking on base is allowed only where indicated by painted parking stalls, signs, metal plates attached to the curb/building or by proper markings. Parking along curbs is not authorized unless marked as stated above. 61 CELS is the only authorized agency to paint parking stalls and/or install signs.

3.11.3. General rules for stopping, standing, or parking. No person shall stop, stand, or park in any of the following places, except when in compliance with the law or directions from a SF member or official traffic control device:

3.11.3.1. On, in front of, or blocking private or public driveways, sidewalks, pedestrian crosswalks, or entrances/exit ways, or so near as to interfere with the obstructed use of the above.

3.11.3.2. In any way that obstructs the visibility of a traffic control device.

3.11.3.3. In fire lanes, whether posted or not (unmarked fire lanes include open areas between buildings and those areas within 20 feet of a building, except when authorized parking is posted). This requirement ensures adequate space is available for mobile fire equipment.

3.11.3.4. Within 10 feet of a fire hydrant.

3.11.3.5. Within 20 feet of a driveway entrance/exit way to any fire, ambulance, crash or explosive ordinance disposal station, or alert crew vehicle. Note: This does not apply to emergency vehicles.

3.11.3.6. Within 25 feet of or in an intersection.

3.11.3.7. Adjacent to any red or yellow painted curb/edge line.

3.11.3.8. In excess of time specified by time limited parking signs.

3.11.3.9. In designated reserved/parking areas.

3.11.3.10. On the side of the street facing oncoming traffic. Vehicles parked at an angle within parking areas will not be parked facing the flow of traffic. Exception: maintenance and emergency vehicles may be temporarily parked in these areas while performing official duties.

3.11.3.11. Vehicles parked in marked places shall be within the lines painted, or if directed to park in an unmarked area by a SF not to extend beyond that area reasonably necessary for the vehicle.

3.11.3.12. With the exception of emergency response vehicles, during a response, persons operating or in charge of a motor vehicle will not leave the vehicle unattended while the engine is running.

3.11.3.13. In any marked (i.e., diagonal stripes painted on the pavement) or posted prohibited parking area/space.

3.11.3.14. On the street side of a vehicle already parked along the curb (double parking).

3.11.3.15. Within 30 feet of flashing beacons, stop, or yield signs or traffic control device.

3.11.3.16. Inside buildings, unless they are specifically designated as parking areas.

3.11.3.17. Within 40 feet of the vehicle service side of a dumpster, or as to obstruct the use of that dumpster, unless parked in a marked designated parking space.

3.11.3.18. On any unpaved, seeded, or unimproved area anywhere on LAAFB, unless such areas have been specifically designated and properly marked for parking. Exception: maintenance and emergency vehicles may be temporarily parked in these areas while performing official duties.

3.11.3.19. Track, race/stock cars, truck type campers, camper shells, utility and special purpose vehicles will not be parked along roadways, curbside, or in non-designated vehicle parking areas or spaces. Such vehicles will only be parked in the RV storage lot or fully inside the garage of base housing.

3.11.3.20. In driveways or parking areas in such a manner that any portion of the vehicle extends onto or blocks a roadway or sidewalk so as to hinder pedestrian or vehicular traffic.

3.11.4. Housing area parking:

3.11.4.1. Vehicles will not be parked in any manner that obstructs driveways, garages, or hinders safe and efficient movement of traffic.

3.11.4.2. Oversized POVs including, but not limited to, motor homes, utility trailers, and camper trucks, are authorized to be kept on base. They will be stored in the RV lots provided by MWR.

3.11.4.3. Vehicle maintenance and repair. Major repairs must be done off base. Minor repairs, such as tire changes or rotation, light bulb replacement, etc., may be conducted at the housing resident's quarters.

3.11.5. Reserved parking.

3.11.5.1. Reserved parking spaces will be approved for all available spaces for a particular facility or parking area, except for handicapped parking, which must comply with uniform federal accessibility standards.

3.11.5.2. Temporary signs/cones may be used to reserve parking slots for visiting dignitaries. These signs/cones may be put in place the night prior to the visit to ensure the space is empty. They will be allowed to remain in place for the duration of the visit and must be removed immediately following the departure of the visiting dignitaries. Temporary signs/cones will not be used for personnel who work within the facility.

3.11.5.3. The following guidelines are set in approving, disapproving, and prioritizing reserved parking requests. Reserved parking is limited to government vehicles, handicapped, visitors, General Officer/SES, MAJCOM/Center two-letter directors, Commanders, First Sergeants, mission (i.e. NAOC), motorcycles and special parking slots for installation award winners (i.e., at the Base Exchange, Commissary, etc.).

3.11.6. Processing reserved parking requests.

3.11.6.1. Requests for reserved parking are coordinated through the RPBM for recommendation by the commander/director. For the purposes of this procedure, the commander/director is the senior official exercising control over facilities occupied by more than one unit. EXCEPTION: business facilities that do not operate in conjunction with a designated squadron (i.e., AAFES & Commissary) will request reserved parking by preparing a package containing a detailed request with adequate maps depicting existing parking configurations and proposed changes. All packages will be coordinated through 61 SFS/S3, who will submit the coordinated package to 61 CELS for final approval.

3.11.6.2. The RPBM must obtain the unit commander/director recommendation on the reserved parking request for their facility prior to completion of AF Form 332. The RPBM for each facility is responsible for maintaining a listing and diagram of reserved parking slots. To propose changes to a facility's reserved parking plan, the unit commander/director is responsible for obtaining the coordination and/or concurrence of all units in the affected facility prior to submitting the parking request to 61 CELS.

3.11.6.3. The RPBM will evaluate each request and complete an AF Form 332, *Base CE Work Request*. The request will indicate the type of work requested, justification with a diagram of the target area and a letter of approval from the approving official. This package is forwarded to 61 CELS/CEOES to assign a CE work order number. 61 CELS/CEOES forwards the AF Form 332 to 61 CELS/CENMP for review. Within 2 weeks, 61 CELS/CENMP will obtain coordination from 61 SFS/S3P. 61 SFS/S3P will reply with a recommendation of approval/disapproval within 2 weeks. If 61 SFS/S3P recommends disapproval, the work will not be completed until resolution is achieved. Upon review and coordination, the AF Form 332 will be forwarded to 61 CELS for approval/disapproval. Approved work orders will be sent to 61 CELS/CEOH for installation. Disapproved requests will be returned to the originator. The requestor may appeal disapproval of the request by forwarding a letter to the 61 CELS outlining why his/her reserved parking request should be reconsidered. The appeal will be reviewed by 61 CELS, who will render a final decision.

3.11.6.4. The RPBM is also responsible for completing a biennial review of the original or updated request. This review shall be documented and kept on file with a legible copy of the current AF Form 332 and the diagram that was approved by 61 CELS.

3.11.6.5. Handicapped Parking. The only vehicles authorized to park in these areas are those displaying official handicapped parking permits, plates or decals. Those utilizing Handicapped spaces must be the owner of the decal or placard or be transporting the handicapped individual. Handicapped parking spaces are not assigned to any particular person or position. Requests to accommodate a specific handicapped person will follow the guidance in paragraph 3.11.6.3. Personnel needing handicapped decals will contact the California Department of Motor Vehicles with a doctor's prescription and complete the application for same day service. The installation honors state issued handicapped decals, placards, signs, etc…from other states.

3.11.6.6. Assigned spaces for handicapped individuals may be granted on a case-by-case, and rare basis. Should special circumstances warrant the assignment of a space to an individual employee at their primary place of employment, a request will be submitted in

accordance with paragraph 3.11.6.3., and following paragraph(s). Handicapped employees requesting an assigned parking space in order to accommodate their disability shall provide the RPBM with a copy of their state issued handicapped parking permit with the person's name and expiration date on the permit. The RPBM will forward the request with written justification for the designation. Such requests will be processed in accordance with paragraph 3.11.6 .3. and the following paragraphs. Spaces assigned under the provisions of this paragraph shall be marked with signage as "ASSIGNED #" reserved spaces and they shall be re-validated annually. These spaces shall not affect the number of handicapped spaces required at a given facility.

3.11.6.7. During increased FPCON measures when facility stand-off criteria is enforced, the RPBM, with approval of the commander/director of each given facility, will relocate their handicapped parking spaces to the nearest available authorized parking spaces. For the purposes of this procedure, the commander/director is the senior official exercising control over facilities occupied by more than one unit. The commander/director will ensure the temporary handicapped spots are conspicuously marked with temporary signage indicating handicapped parking. There may be cases where parking lots/areas overlap. In such cases, the RPBM for each facility will coordinate with overlapping/adjoining facility RPBMs to ensure this temporary relocation meets the needs of the handicapped workforce of each facility. As soon as possible, but no later than the next duty day after stand-off restrictions are terminated, the RPBM will remove the temporary signage.

3.11.6.8. Visitor Parking. A visitor is not assigned or attached to the organization they are visiting; rather they go to a place for purpose of inspection, business, duty or travel. Employees of a specific building will not park in designated visitor parking for that building or nearby buildings if they are not actually visiting. Visitor parking often has imposed time restrictions (i.e., 15 minutes, 2 hours, etc.). Visitor parking for public service facilities should be located as close to the building entrance/exit as possible.

3.11.6.9. General Officer/SES, Colonel/GS/GM-15, and CMSgt parking. These spaces are not assigned to a particular person or position and are utilized on a first-come, first-served basis. Parking within these slots without proper authorization is a violation and the vehicle may be cited by SF or unit parking wardens.

3.11.6.10. Commander Parking. Military or civilian equivalent individuals who hold the position of commander for Center, Wing, Squadron or Detachment are entitled to these reserved spaces. HQ SMC/CC may also designate reserved parking for key members of their immediate staff (e.g., executive officers, Command Chief Master Sergeants, and protocol-sponsored distinguished visitors).

3.11.6.11. Two-Letter Designation. Spaces assigned to military or civilian equivalent individuals who possess a duty symbol consisting of no more than two letters.

3.11.6.12. Motorcycles. Motorcycles are not permitted to park in painted, striped/crosshatched areas. Reserved signs for motorcycle parking will only be installed for a demonstrated need or if the space in question will accommodate motorcycles but not full-sized vehicles. More than one motorcycle may park in a single parking slot. Safe navigation of more than one motorcycle into and out of a single parking slot is the responsibility of the owners/operators.

3.11.6.13. Government Motor Vehicle/GMV Parking. These parking spaces are for official government vehicles or POVs with Official Business parking permits used during official duty only and in direct support of the wing/base mission. Official government vehicle is defined as a vehicle owned or leased by the US Government for the purpose of conducting official business. GMV spaces are not assigned to a particular person or position.

3.11.6.14. Long term parking: To help relieve congestion in base parking areas, a long term parking area has been established on Los Angeles AFB for personnel on deployment, TDY etc…. The long term parking area is located at the parking garage, the top three levels. All personnel departing for longer than 30 days will use the long term parking area, except those personnel who reside in government or leased housing. Those individuals may park their vehicles in legal, parking spaces near their quarters. Base employees will not use other base parking lots (e.g. adjacent to their duty location) for long term parking.

3.11.6.15. Personnel desiring to use the long term parking area will e-mail a copy of approved TDY orders to the LAAFB Parking Manager at **laafb.parking@us.af.mil.** Also in contact information of someone who has access to the vehicle in case of emergencies.

3.11.6.16. 61 ABG Parking Manager will manage and track vehicles in the long term parking lot.

**3.12. Parking Violations:** A DD Form 1408 will be completed for all parking violations (unless the violation is an infraction under the CVC and the violator is a civilian), regardless of the violator's duty status (e.g. military, civilian, etc.). Parking citations will be charged against the party to whom the vehicle is registered, unless credible evidence is received that another individual is responsible for the infraction.

**3.13. Traffic Violation Reports.**

3.13.1. Moving violations. Anyone operating a motor vehicle, including a bicycle, on a public street or highway that violates a provision of this regulation has committed a moving violation. Except as set out herein, DoD Notice to Appear, DD Form 1408, and/or AF Form 3545, *Incident Report*, are authorized methods of documenting and/or enforcing the requirements of this instruction. Personnel from other installations will be identified and their infractions will be forwarded to the appropriate agency for action. 61 SFS/S5RA is responsible for distribution of information concerning infractions.

3.13.1.1. DD Form 1408: Security Forces use the DD Form 1408, *Armed Forces Traffic Ticket*, to cite the following categories of personnel for violations:

3.13.1.2. Active duty military to include the Coast Guard & USPHS.

3.13.1.3. Cadets/Midshipmen of the Military Academies to include the Coast Guard Academy.

3.13.1.4. Reservists on orders or performing inactive duty training, including commuting to and from training.

3.13.1.5. Guardsmen in federal service under Title 10 of the United States Code. Title 10 is reflected on the guardsman's orders.

3.13.1.6. All operators of GMVs, regardless of status, cited for violation of base traffic and parking rules.

3.13.2. All DD Forms 1408 will be forwarded to the 61 SFS/S5RA for appropriate processing actions. Upon completion of processing, the DD Form 1408 will be forwarded to the appropriate commander or supervisor for action.

3.13.2.1. Violation appeal procedures. Any individual receiving a DD Form 1408 who believes he/she has been unfairly or unlawfully cited may contest the validity of the citation.

3.13.2.1.1. The individual who received the DD Form 1408 must initiate a rebuttal to the validity of the 1408 within 5 duty days of receiving the ticket by contacting 61 SFS/S5RA and indicating intent to rebut. Failure to do so will result in the ticket being annotated with "Did Not Rebut" and will be loaded into SFMIS and sent out for action. If the individual contacts 61 SFS/S5RA and initiates rebuttal action within the 5 duty day window, 61 SFS/S5RA will provide detailed instructions on how to conduct the rebuttal. The rebuttal package includes a statement from the patrolman or parking warden who issued the ticket as well as mandatory comments from the violator's commander (or civilian equivalent), 61 SFS/S5RA, and the 61 SFS/CC. The final decision rests with the decision-making authority, as stipulated in paragraph 1.2. The entire package must reach the 61 SFS/CC within 14 calendar days of the date the ticket was written. After the decision-making authority renders his/her decision, 61 SFS/S5RA will notify the violator of the final decision.

3.13.2.1.2. If the rebuttal authority determines the ticket "stands as issued" the ticket will be forwarded to the owning unit commander, or equivalent, for action. 61 SFS/S5RA will set a 60 day suspense for the unit to reply, with a signed copy of the DD Form 1408 template indicating the action taken for the violation. Upon receipt of the response from the unit, 61 SFS/S5RA will close out the "action taken" portion of the incident in SFMIS.

3.13.2.1.3. If the rebuttal authority dismisses the ticket, it will be voided from the recipients SFMIS history and the no further action is required.

## Chapter 4

## DRIVING RECORDS AND THE TRAFFIC POINT SYSTEM

### 4.1. Point System Application.

4.1.1. **Mandatory suspensions and points assessments. In addition to guidance in AFI 31-218_IP, Table 5-1 and 5-2, and AFMAN 31-116, Table 5.1 and 5.2, the following local policy applies:**

**Table 4.1. Mandatory Suspensions and Points Assessments**

| VIOLATION | SUSPENSION |
|---|---|
| Abuse of specialized decals | 30 days |
| Illegal parking resulting in towing of the vehicle (second offense within one year) | 60 days |
| Failure of base connected personnel to show proof of current vehicle insurance while operating a motor vehicle. Note: This can be waived if the violator provides proof of insurance that was in affect at the time of being cited to 61 SFS/S5R within 3 duty days. Individuals may use fax, email, or personal appearance to provide the proof. | 60 days |
| Accumulation of 2 parking tickets in any 6 consecutive months | 30 days |
| Accumulation of 3 parking tickets in any 6 consecutive months | 60 days |
| Accumulation of 4 parking tickets in any 12 consecutive months | 90 days |
| Accumulation of 5 parking tickets in any 12 consecutive months | 120 days |
| Habitual Offenders. Persons receiving a third or subsequent suspension for parking violations in any 12 consecutive months may be identified as a Habitual Offender and have their driving privileges suspended. The 61 ABG/CC will determine the exact length of the suspension period. | Min. 6 months |
| *Violation of the hands-free device or portable electronic device policy while operating a motor vehicle on the installation. EXCEPTION: Bargaining unit employees are assessed 3 points but do not receive a driving suspension. 61 SFS/S5R will verify employee status with 61 FSS/FSMCZ prior to initiating suspension actions. | *3 points will be assessed for each occurrence. Driving privileges will be suspended as follows: First Offense: 7 days Second Offense: 14 days Third and Subsequent Offenses: 30 days (NOTE): Offenses are actively counted for 2 years from the date of each occurrence. |

| | |
|---|---|
| Violation of the Residents and Guests Only rule in the Area A housing area. | 4 points. |
| Accumulation of 12 traffic points within 12 months. | 6 months |
| Accumulation of 18 traffic points within 24 months. | 1 year |
| Preliminary suspension is upon arrest, 1 year is after the Installation cc or delegee makes a determination. | 1 year |
| **Drivers under age 21:** Driving with a BAC or BrAC of .01 or higher but not above the threshold for DUI | 1 year |
| Two or more violations occurring on a single occasion<br>Example: Speeding 1 to 10 MPH over posted limit; assess 3 points. Violation of hands-free device policy; assess 3 points. Total assessment equals 6 points. | Assess points for each individual violation |
| Multiple suspensions and/or revocations imposed under this instruction or AF-level guidance will run consecutively. For example, if a revocation for implied consent is combined with another revocation, such as 1 year for intoxicated driving or 2 years for driving while suspended or revoked, the revocations will run consecutively. | No maximum length established |

DONNA L. TURNER, Colonel, USAF
Commander
