NETWORK INCIDENT REPORTING AID

OPSEC – *DO NOT DISCUSS/TRANSMIT SENSITIVE INFORMATION OVER UNAUTHORIZED SYSTEMS*

CLASSIFIED MESSAGE INCIDENT (CMI) REPORTING PROCEDURES FOR USERS

A ***CMI*** is the introduction of information of a higher classification into a lower classification level device.

STEP 1	***STOP!!!*** **DISCONNECT THE LAN CABLE** of the affected computer system(s) and/or printer(s)
STEP 2	**SECURE** affected system(s) and/or printer(s) in a GSA-approved container, vault, or post a guard with the appropriate clearance.
STEP 3	**REPORT INCIDENT IMMEDIATELY** by telephone or in person to your Security Manager, supervisor, commander, or director. If unavailable, contact your Luke AFB CFP at 856-4400 opt 6. You may ONLY say, "I'd like to report a possible CMI" via non-secure means.

PERSONALLY IDENTIFIABLE INFORMATION (PII) BREACH

IAW AFI 33-332, a PII breach is defined as "the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, or any similar occurrence where (1) a person other than an authorized user accesses or potentially accesses personally identifiable information or (2) an authorized user accesses or potentially accesses personally identifiable information for an other than authorized purpose."

STEP 1	***STOP!!!*** Take actions to mitigate further loss or compromise
STEP 2	**REPORT THE INCIDENT IMMEDIATELY** to your Unit Privacy Act Monitor. If unavailable, contact the Base Privacy Act Manager at 856-8020/56FW.FOIA.PA@US.AF.MIL

COMPUTER VIRUS REPORTING PROCEDURES FOR USERS

STEP 1	***STOP!!! DISCONNECT THE LAN CABLE*** *and* Discontinue Use.
STEP 2	**LEAVE THE SYSTEM POWERED UP.** Personnel **SHOULD NOT** click on any prompts, close any windows, or shut down the system.
STEP 3	If a message appears on the monitor of the affected system **- WRITE IT DOWN!**
STEP 4	**WRITE DOWN ALL ACTIONS** that occurred during the suspected virus attack. (Did the virus come from an e-mail attachment, diskette, etc.?)
STEP 5	**REPORT IT IMMEDIATELY!** Contact your unit appointed Cybersecurity Liaison (CSL). If unavailable, contact the Communications Focal Point at 856-4400 opt. 6

NOTE: When reporting a suspected virus to your CSL, ensure that you:
- Report: Date and Time
- Your name, telephone number, bldg, and organization
- Event Date and Time
- Location of infected system(s)

LUKE AFB NETWORK USERS
QUICK REFERENCE CARD

NETWORK USER "DOs & DON'Ts"

- Be aware of your surroundings & report suspicious any suspicious behavior.
- NEVER leave your computer unattended unlocked. When leaving your computer for short periods of time lock your system by: (Windows Key + L) or removing your CAC. When leaving your computer for extended periods of time restart your computer.
- Be aware of Social Engineering: DO NOT respond to any emails asking for passwords or any information that is sensitive to you or the government regardless of who the user says they are. If you are aware of any type of Social Engineering, immediately contact your Functional System Administrator (FSA), Commander Support Staff (CSS), or Communication Focal Point (CFP).
- Do NOT download or install any unapproved software products.
- Do NOT insert any USB devices, including but not limited to:
    - USB Type-A
    - USB Type-B
    - Mini-USB (Mini-B/Mini-A)
    - Micro-USB (Micro-B/Micro A)
    - Micro-USB 3.0 (Micro-B SuperSpeed)
    - USB Type-C (USB-C)
    - Hybrid & Proprietary USB Cables
- Do NOT fall for any emails that seem suspicious:
    - Do NOT click any links.
    - Do NOT send money to any individuals.
    - Be aware of AI Images.
- How do I know if I have a virus? Common signs of a virus are:
    - Slow Performance.
    - Files Disappearing.
    - Constant Error Messages.
    - Erratic Flashing.
    - Constant E-Mail Error Messages.
- If your cursor is moving without input from you, contact your CSL or CFP (if CSL is not available) immediately.
