56th Fighter Wing Inspector General Complaints Resolution Program

The Inspector General Complaints Resolution Program is prescribed by AFI 90-301. While we encourage everyone to try and resolve issues utilizing their chain of command, we understand this may not always be possible. For this reason, we encourage all members to come talk to us regarding concerns of fraud/waste and abuse (FWA), abuse of authority, or misconduct. No one can prevent you from speaking to the IG, and negative personal actions cannot be made against you for meeting with us.
