OPR: AF/DSKI

Certified by: AF/DSKI (Lt Col John Durkee)

Supersedes: AFI90-1001, 22 June 2020

Pages: 39

This publication implements Air Force Policy Directive (AFPD) 90-10, *Total Force Integration*. It provides guidance and procedures on the approval of Total Force Associations (TFAs) and the development of Total Force Association Proposals (TFAPs). It applies to individuals at all levels including the entire DAF, the United States Air Force (USAF), the United States Space Force (USSF), the Air National Guard (ANG), and the Air Force Reserve (AFR). While recognizing the Civil Air Patrol (CAP) as part of the Total Force when conducting missions for the Air Force as the official Air Force Auxiliary (AFAUX), options for involving the CAP in associations are not included in this instruction. For the purpose of this instruction, the Office of the Director, Air National Guard functions as both a Headquarters Department of Air Force (HQ DAF) 2-letter and a Major Command (MAJCOM) equivalent. Ensure all records generated as a result of processes prescribed in this publication adhere to AFI 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. Refer recommended changes and questions about this publication to the office of primary responsibility (OPR) using the DAF Form 847, *Recommendation for Change of Publication*; route DAF Forms 847 from the field through the appropriate functional chain of command to AF/DSKI at **AF.DS.Total.Force.Integration@us.af.mil**. This publication may be supplemented at any level, but all supplements must be routed to the OPR of this publication for coordination prior to certification and approval. The authorities to waive wing, unit, delta or garrison level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. Submit requests for waivers through the chain of command to the

appropriate Tier waiver approval authority, or alternately, to the publication OPR for non-tiered compliance items.

SUMMARY OF CHANGES

This document has been substantially revised and must be completely reviewed. Major changes include replacing previous manpower constructs with a requirement to define a Total Force Association (TFA) by its shared mission and required force mix. The approval process for new associations has been streamlined, and an expedited process has been introduced to allow for simpler re-issuance of Association Plans (A-Plan) with minor changes at a lower authority level. A firm 5-year timeline for the mandatory reissue of A-Plans has been established, replacing the previous, ambiguous review cycle.

Chapter 1

OVERVIEW

1.1. Background and Scope. Total Force Integration (TFI) is the deliberate combination of Regular Air Force (RegAF), Air National Guard (ANG), and Air Force Reserve (AFR) personnel, processes, and equipment to maximize readiness, lethality, and efficiency. TFI initiatives serve to strengthen DAF organizational structure and meet national security demands in a resource-constrained environment by leveraging the unique strengths of each Total Force (TF) component. This instruction establishes the governance process to design, approve, sustain, and review Total Force Associations (TFA).

1.2. Total Force Associations (TFA). A TFA occurs when two or more Air Force components formally agree via an Association Plan (A-Plan) to share resources to perform a common mission. TFAs consist of a Sponsor Organization (which holds primary responsibility for the mission and resources) and one or more Associate Organizations. The two constructs recognized in this instruction are Classic Associations (RegAF Sponsor) and Active Associations (Air Reserve Component Sponsor) (see **Attachment 1**). All TFAs integrate functional work-centers to train, task, and employ the shared mission in a unified manner by leveraging each other's strengths, resources, and expertise. Other non-TFA resource sharing relationships may exist to meet in-garrison training or specific Combatant Command requirements but are not governed by this instruction.

1.3. Command Relationships. The fundamental boundary of a TFA is that Sponsor and Associate organizations retain Administrative Control (ADCON), or Administrative Authority for the ANG, of their own forces. As defined in this instruction, Operational Direction (OPDIR) is established to ensure unity of effort between the associated units. To ensure clear lines of authority, the association relies on clearly delineated ADCON and OPDIR linkages down to the lowest level of the associated units, depicting a unified partnership of integrated forces.

Chapter 2

ROLES AND RESPONSIBILITIES

2.1. Headquarters Department of the Air Force (HQ DAF) Responsibilities. The HQ DAF is responsible for the duties enumerated in **Chapter 3** related to collaborating and coordinating on Total Force Association Proposals (TFAP). The Air Force (AF) and Secretariat (SAF) coordination process provides TFAPs with clear, accurate, and legal alignment to DAF strategy and policy objectives that build upon the directives implemented in AFPD 90-10, Total Force Integration. The following organizations are involved in the coordination and approval of TFAs.

2.1.1. Chief of Staff of the Air Force (CSAF). The CSAF provides ultimate oversight for TFI for the Air Force. The CSAF grants approval authority to establish TFAs and has delegated approval authority to the Air Force Director of Staff.

2.1.2. Air Force Director of Staff (AF/DS). The AF/DS is the approval authority to establish TFAs, as delegated by the CSAF. The AF/DS is responsible for integrating and synchronizing policies, plans, positions, procedures, and cross-functional issues for the Air Force. The AF/DS ensures establishment of governance mechanisms that provide enhanced integration and resolution of issues pertaining to TFA approval.

2.1.3. Air Force, Total Force Integration Branch (AF/DSKI). AF/DSKI initiates policy refinement, facilitates the TFA lifecycle, and provides TF awareness guidance on behalf of the Air Force Director of Staff. AF/DSKI facilitates TF engagement and coordination among the MAJCOMs and HQ DAF entities. AF/DSKI ensures all TFI initiatives comply with Department of Defense and DAF policy and align with Air Force Strategy. AF/DSKI is the facilitator for reporting on and archiving all TFAPs, as well as overseeing the inspection of all T-0 requirements via the standard Inspector General process.

2.1.4. Assistant Secretary of the Air Force for Energy, Installations, and Environment (SAF/IE). SAF/IE will provide oversight of basing policy and guidance, be the single point of contact for all basing actions, and is the office of primary responsibility for the DAF Strategic Basing Structure in accordance with AFPD10-5, *Basing*.

2.1.5. Deputy Assistant Secretary of the Air Force for Installations (SAF/IEI). SAF/IEI will ensure the DAF Strategic Basing Process is standardized, repeatable, transparent, and deliberate and will provide strategic guidance to ensure the DAF Strategic Basing Process is integrally executed with the requirements of the DAF Environmental Impact Analysis Process (EIAP) and the National Environmental Policy Act (NEPA). SAF/IEI is the lead agent for Base Realignment and Closure (BRAC)-directed TFAs, and holds implementation oversight responsibility, coordinating with AF/DSKI, and partnering MAJCOMs.

2.1.6. Chief, Air Force Reserve (AF/RE). AF/RE will provide guidance and direction on all TFAs and TFAPs under consideration when one of the Partnering MAJCOMs is Air Force Reserve Command (AFRC). AF/RE will oversee all TFAs when AFRC is the Sponsor MAJCOM. Additionally, AF/RE will ensure that planned full-time manpower strength in proposed TFAs adheres to enterprise-wide Air Force Reserve annual end strength directives.

2.1.7. Director, Air National Guard (NGB/CF). NGB/CF will provide guidance and direction on all TFAs and TFAPs under consideration when one of the partnering organizations is the ANG. The National Guard Bureau (NGB) holds the MAJCOM role for the ANG. The NGB is responsible for coordinating with The Adjutant General (TAG). NGB/CF will provide oversight of all TFAs when the NGB is the Sponsor MAJCOM. Additionally, NGB/CF will ensure that planned full-time manpower strength in proposed associations adheres to enterprise-wide Air National Guard annual end strength directives.

2.1.8. Office of the Judge Advocate General (AF/JA). AF/JA will educate, train, and advise MAJCOM Offices of the Judge Advocate General (MAJCOM/JAs) on component roles, responsibilities, expectations, and statutory limitations of Full-time Support (FTS) personnel; advise, engage, and support AF/DSKI on TF-related matters; and provide legal sufficiency review of A-Plans prior to final approval.

2.2. MAJCOM Responsibilities. Each TFA is founded on a partnership between a Sponsor MAJCOM and at least one Associate MAJCOM. A third command may also serve as the Host Base Command for the installation where the TFA resides. This section outlines the specific roles, responsibilities, and management functions of these key command-level entities.

2.2.1. Sponsor MAJCOM. The Sponsor MAJCOM is the lead command responsible for planning, developing and staffing TFAPs. Once established, the Sponsor MAJCOM is responsible for making changes to existing TFAs. Sponsor MAJCOMs will coordinate with Associate MAJCOMs, Host Base Commands, and HQ DAF during the development and staffing process. **(T-1)**

2.2.2. Associate MAJCOM. The Associate MAJCOM supports the Sponsor MAJCOM in planning, developing and staffing TFAPs. Once established, the Associate MAJCOM supports the Sponsor MAJCOM in making changes to existing TFAs.

2.2.3. Host Base Command. The Host Base Command is responsible for supporting the installation on which the TFA resides. **(T-0)** The Host Base Command may be the Sponsor MAJCOM, Associate MAJCOM, a different MAJCOM, or another command owning the host installation when not a MAJCOM. In cases where the Host Base Command is not the Sponsor or Associate MAJCOM, the Host Base Command will coordinate on the A-Plan for base support considerations and other host-tenant responsibilities with the TFA MAJCOMs.

2.2.4. TFA Management. Sponsor and Associate MAJCOMs share the responsibility to ensure the TF construct remains effective, objectively understood, and free from significant concerns. Both MAJCOMs should take an active role in managing their TFAs. Once a TFA is no longer viable, the MAJCOMs may pursue disassociation (IAW **Chapter 4**).

2.2.5. Funding New Construction, Operation and Sustainment of Facilities. The Sponsor MAJCOM is responsible for coordinating funding for new construction and/or renovations required for TFA beddown. The Sponsor MAJCOM will coordinate funding for the operation and sustainment of TFA facilities with the installation host. Funding for EIAP will be accomplished to ensure completion and inform the decision-making process prior to any commitment of resources. The Sponsor MAJCOM will advocate for funding with Air Force Installation Mission Support Center (AFIMSC) or Air Reserve Component (ARC) and ensure compliance with EIAP prior to committing resources to a course of action (COA). The Sponsor MAJCOM in coordination with AFIMSC or ARC, will program for anticipated out-year EIAP

workloads based on input from command proponents IAW Department of Air Force (DAF) National Environmental Policy Act (NEPA) Implementing Procedures. If proponent offices exceed the budget, the proponent must provide the remaining funding. If an Associate Organization requires sole use of space that existing facilities cannot provide, the Associate Organization is responsible for advocating for funding with AFIMSC or ARC for new construction or renovation projects. Note: Sole-use space is authorized based on requirements. Sole-use space is dedicated to one component's use (not primary TFA mission) and managed by agreement between the associated unit and installation host (e.g., ARC-only fitness areas or RegAF-only recreation area).

2.2.6. Air Force Installation and Mission Support Center (AFIMSC). AFIMSC will assist Partnering MAJCOMs and SAF/IE as required to ensure support costs align with TFA program requirements.

2.3. Total Force Association Responsibilities. Sponsor and Associate units will coordinate with the Host Supplier Installation Support Agreement Manager (SAM) to establish a properly formatted and compliant memorandum of understanding (MOU)/memorandum of agreement (MOA) IAW DoDI 4000.19, *Support Agreements* and AFI 25-201, *Intra-Service, Intra-Agency, and Inter-Agency Support Agreements Procedures*. **(T-0)** Sponsor and Associate units will organize as directed in the A-Plan and accompanying MOU/MOA to achieve the intended mission results as articulated in the Decision Support Documents (DSD). **(T-1)** If A-Plan guidance or resourcing is insufficient, unit commanders will notify their respective MAJCOMs of deficiencies. **(T-2)**

2.3.1. Unit Commanders. In a TFA, unit commanders will ensure their members are educated on cross-component issues, roles and responsibilities, expectations, and FTS Duty Limitations of the Active Guard and Reserve (AGR), Air Reserve Technician (ART), and Dual Status Military Technicians (DSMT). **(T-2)**

2.3.2. Total Force Association Compliance. Congress has placed duty limitations on ARC personnel serving in an FTS capacity. For AGRs, personnel are limited to performing the primary duties of "Organizing, Administering, Recruiting, Instructing, and/or Training" (OARIT) the Reserve Components. **(T-0)** For ARTs and DSMTs, personnel are limited to the primary duties of "Organizing, Administering, Instructing, and Training the Selected Reserve and performing Maintenance and Repair of supplies or equipment issued to the Selected Reserve or armed forces" (OAIT-M). **(T-0)** Failure to comply with these duty limitations risks violating the Purpose Statute (31 U.S.C. § 1301). For more information, see AGR, ART, DSMT, FTS, and Purpose Statute references within the Terms section.

2.3.3. ARC Instructor-Student Proportionality. TFAs of training units, including Formal Training Units (FTU), will analyze present and future instructor-student proportionality to ensure OARIT/OAIT-M compliance.

2.3.4. Intelligence Oversight. If the TFA is involved in intelligence collection, analysis, storage, or distribution, identify which organization will be responsible for intelligence oversight compliance of each unit. Describe how each unit will comply with intelligence oversight training requirements IAW DAFI 14-404, *Intelligence Oversight*.

Chapter 3

TFA ESTABLISHMENT AND DISESTABLISHMENT

3.1. TFA Establishment Overview. This chapter outlines the planning and approval requirements to establish and disestablish a TFA. A TFA is typically initiated through one of the two following pathways. Regardless of the initiation pathway, all proposals must be developed, coordinated, and approved in accordance with the procedures established in this chapter. **(T-1)**

3.1.1. Mutual Command Agreement: The standard pathway occurs when partnering MAJCOMs mutually identify a mission requirement and formally agree that a shared force mix and resource-sharing construct will best maximize readiness, lethality, and efficiency.

3.1.2. Directed Mandate: Alternatively, a TFA may be downward-directed by a higher authority. In these cases, the directive to associate is mandated from levels above the partnering commands, and the affected MAJCOMs must initiate the formal planning and execution processes detailed in this instruction to satisfy the requirement.

3.1.3. If the proposed TFA triggers a basing or strategic basing threshold, the MAJCOM proponent, with support of the Host Base Command, will submit a request IAW section 3.2.3.5.

3.2. Total Force Association Proposal (TFAP) Development. A TFAP contains two parts: a DSD and a Partnering MAJCOM-signed A-Plan.

3.2.1. Decision Support Documents. The DSDs will provide the required justification for establishing a TFA and will support the development, review, and approval of A-Plans. The DSD will be derived from a TF analysis method, a Force Mix Analysis between partnering Commands, or another analysis process designated by the MAJCOM.

3.2.2. DSD Development. The Sponsor MAJCOM will lead DSD development in coordination with the Associate MAJCOM(s). **(T-1)** The DSD will result from an analysis process tailored to the size and scope necessary to integrate benefits, cost, and risk into an understandable and defendable recommendation. **(T-1)** When writing DSDs, the MAJCOMs should use AFI 65-501, *Economic Analysis*, and Department of the Air Force Manual (DAFMAN) 65-605, *Volume 1, Budget Guidance and Technical Procedures*, which provide guidance on mixed funding scenarios for sourcing Operations and Maintenance (O&M) appropriations for ARC personnel activities applicable to TFAs. The Sponsor MAJCOM will, in coordination with the Associate MAJCOM, address the following factors at a minimum in the analysis and present them in the DSD: **(T-1)**

3.2.2.1. Mission Requirement and Force Mix. MAJCOMs are required to clearly define the mission requirement addressed by the TFA. Sponsor and Associate MAJCOMs will detail how units are to be employed in executing the mission of the TFA and will identify how the manpower force mix is quantified and established to satisfy the mission requirement. **(T-1)**

3.2.2.2. Objectives, Assumptions, and COAs. The DSD must identify the objectives and assumptions for each COA. For comparative purposes, COA analysis must include the current status quo, a Classic Association, and an Active Association.

3.2.2.3. Costs Associated with each COA. The DSD will address the costs associated with each COA. Examples include (if applicable): manpower, flying hours (initial/instructor qualification and continuation training), formal training, and other O&M costs, EIAP, and other support tail costs. **(T-1)** Within each COA, manpower tables will depict all required personnel, including: RegAF officer, enlisted, civilian, and contractor manpower equivalent, as applicable. **(T-1)** Manpower tables will also include ARTs/DSMTs (officer and enlisted), AGR (officer and enlisted), Traditional Reservists (TRs) (officer and enlisted), and/or Drill Status Guardsmen (DSGs) (officer and enlisted), Title 5 civilians, and the totals for each category, as applicable. **(T-1)** Tables will show the proportional percentages of FTS (AGR and/or ART/DSMT status) and part-time manpower provided. **(T-1)**

3.2.2.4. COA Benefits. The DSD will address the benefits for each COA. **(T-1)** Examples include (if applicable): aircraft utilization (UTE) rate, equipment and facility utilization, experience and skill levels, rotational capacity, surge capability, personnel retention, and dwell time capacity.

3.2.2.5. Risk Analysis. The DSD will address the risks for each COA, including but not limited to funding, manpower, end strength, UTE rate (if applicable), ability or inability to meet taskings, homeland defense considerations, state missions, training capacity, aircrew and maintenance absorption, and political viability. **(T-1)**

3.2.2.6. Recommended COA. The DSD will identify a recommended COA and provide the qualitative and quantitative rationale and reasoning supporting the selection. **(T-1)**

3.2.3. Association Plan. The Sponsor MAJCOM, in coordination with the Associate MAJCOM, will develop the A-Plan. As the foundational strategic agreement establishing the partnership, the Sponsor and Associate MAJCOM A5/8s (or equivalents) are the required signing authorities to execute the A-Plan. **(T-2)**

3.2.3.1. A-Plan Purpose. The A-Plan is a strategic document endorsed by the Partnering MAJCOMs that defines mission scope and objectives, command relationships, resource commitments, and functional integration in the respective TFA. Specific details of a transactional nature that detail day-to-day interactions between associating units will be addressed in separate MOAs and/or MOUs that are written and approved at the appropriate level IAW AFI 25-201, *Intra-Service, Intra-Agency, and Inter-Agency Support Agreements Procedures*, and DoDI 4000.19, *Support Agreements*. **(T-2)**

3.2.3.2. A-Plan Command Relationships. To ensure clear lines of authority, A-Plans and their organizational charts will clearly delineate both ADCON and OPDIR linkages down to the lowest level of the associated units, depicting the partnership's units of integration. **(T-1)**

3.2.3.3. Unique Considerations. Partnering MAJCOMs should identify and analyze unique component considerations early in the planning process, including:

3.2.3.4. Appropriations. All TFAs will comply with the Purpose Statute (31 U.S.C. § 1301), which dictates that appropriations shall be applied only to the objects for which they were made, except as otherwise provided by law. **(T-0)**

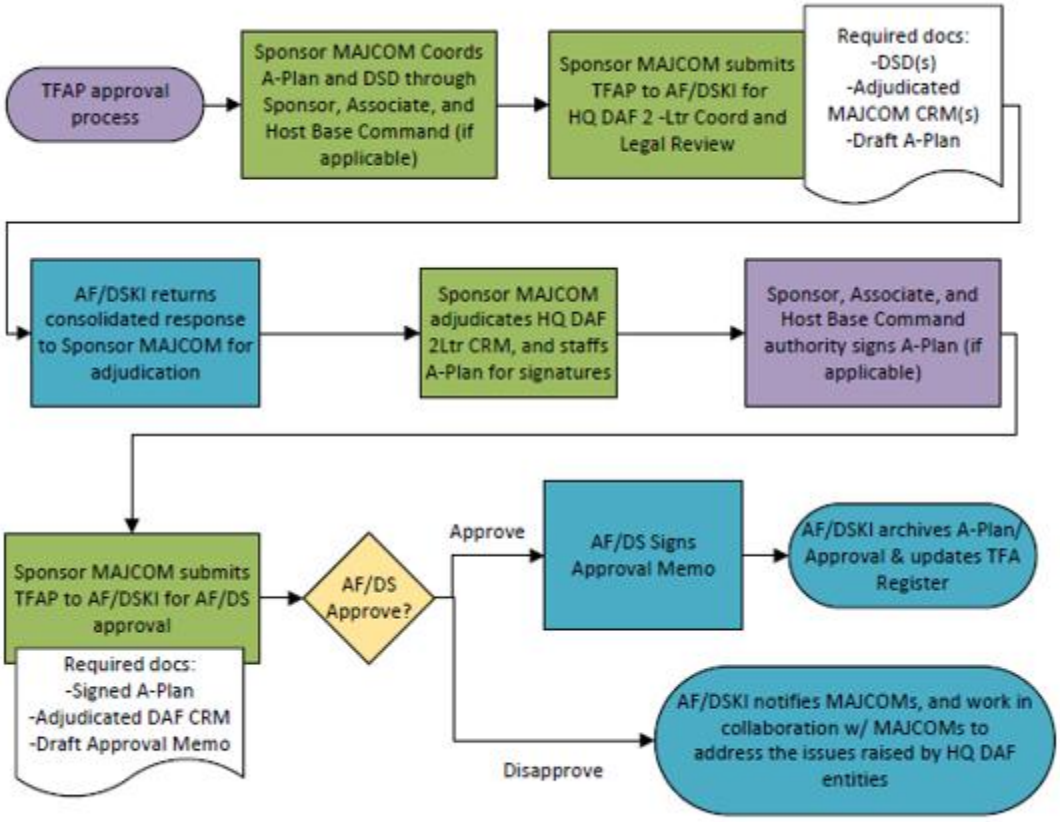

3.2.3.5. Actions that trigger Strategic Basing Process. If the MAJCOM proponent action triggers the Strategic Basing process as defined by DAFI 10-503, Strategic Basing, the MAJCOM proponent will submit a signed memo (general officer/flag officer/senior executive service official) summarizing their evaluation requesting to enter the Strategic Basing Governance process along with an AF-813 with **part 1** signed (per DAFI 10-503) to SAF/IEIB. This process provides the authority to conduct a site survey of the potential host installation to further develop the DSD. A template will be provided upon issuance of the site survey authorization. Once the site survey and EIAP are complete the action will return to the Strategic Basing Governance process for final approval.

3.2.3.6. Actions that do not trigger Strategic Basing Process. For any TFA action not requiring the Strategic Basing process, the associated site survey will be conducted IAW the basing action policies and procedures established by the Host Base Command. **(T-1)**

3.2.3.7. Manpower and Personnel Management. Partnering MAJCOMs will comply with AFI 38-101, Manpower and Organization; DAFI 36-2110, *Total Force Assignments;* Air National Guard Instruction (ANGI) 36-101, *Air National Guard Active Guard and Reserve (AGR) Program*; and ANGI 36-2001, *Management of Training and Operational Support within the Air National Guard*. **(T-1)**

3.3. Total Force Association Proposal (TFAP) Approval. TFAP approval is a collaborative process between Partnering MAJCOMs and HQ DAF. **Figure 3.1** details the TFAP submission process, which includes HQ DAF 2-letter/L2 coordination, HQ DAF legal review and TFA Approval. MAJCOMs will use the A-Plan Template in **Attachment 2** when submitting a TFAP. **(T-1)**

Figure 3.1. TFAP Approval Process.

3.3.1. Legal Considerations. MAJCOMs will coordinate with their respective legal offices throughout the process, from A-Plan development to TFA execution, to ensure compliance with all legal requirements. To expedite processing and avoid delays, MAJCOM legal offices will coordinate with the Headquarters Air Force Operations and International Law Directorate (AF/JAO) throughout the process.

3.3.2. Disapproved TFAPs. AF/DSKI will notify Partnering MAJCOMs if a TFAP is disapproved and work in collaboration with the MAJCOMs to address the issue(s) raised by HQ DAF entities. TFAPs requiring additional HQ DAF adjudication prior to a decision will be presented to a governing body chaired by AF/DS and include representation by HQ DAF and Partnering MAJCOMs to address concerns.

3.3.3. MAJCOM Actions. Following AF/DS TFAP approval, Sponsor MAJCOM will send approval documentation to the Associate MAJCOMs. MAJCOMs will complete the necessary steps to establish the TFA, which may include Military Personnel Data System (MilPDS) and Personnel Accountability Symbol (PAS) code updates, programming actions, establishing necessary MOAs/MOUs, and EIAP actions. **(T-1)**

3.3.4. Funding and Resourcing. An approved TFAP does not constitute a funding guarantee. Newly approved TFAs must compete for resources against other programs and initiatives at both the MAJCOM and HQ DAF levels.

3.4. Disassociation. Prior to any disassociation action, Associated units and Partnering MAJCOMs must review the TFA IAW guidance in **Chapter 4**. Partnering MAJCOMs will send a formal memo recommending disassociation to the AF/DS through AF/DSKI if a review demonstrates the TFA is generating excessive costs, resourcing, or manpower allocations no longer support readiness, or the association is no longer sustainable, working, or supporting current requirements (see template, **Attachment 3**). AF/DSKI will then staff the disassociation memo for 2-letter concurrence and AF/DS decision. If the AF/DS approves the request to disassociate, AF/DSKI will inform partnering MAJCOMs. MAJCOMs will notify all interested parties of their plan to disassociate and the timeline for disassociation.

3.4.1. Programming Actions. MAJCOMs will identify and plan for any budgetary or legislative impacts tied to the disassociation. Transfers of aircraft between the ARC and the RegAF must comply with DoDI 1225.06, *Equipping the Reserve Forces*, and AFI 16-402, *Aerospace Vehicle Programming, Assignment, Distribution, Accounting, and Termination*, and 10 U.S.C. § 9062. **(T-0)**

3.4.2. Disputes. If enduring issues in a TFA cannot be resolved by Partnering MAJCOMs, AF/DSKI will mediate the issue and staff a disassociation memo for AF/DS decision.

3.4.3. Facility Actions with Disassociation. Disassociation will follow DoDI 1225.08, *Reserve Component (RC) Facilities Programs and Unit Stationing*.

3.5. Divestment. If one or more units in an approved TFA divests, AF/A8 or the owning MAJCOM(s) will notify AF/DSKI and the partnering MAJCOM via memo signed by the total force office Division Chief (or equivalent). The memo will include the reason for divestment and date of divestiture. AF/DSKI will archive the memo in the official TFA Repository and the TFA will be removed from the TFA Register. Once removed from the TFA Register, the TFA is formally dissolved.

Chapter 4

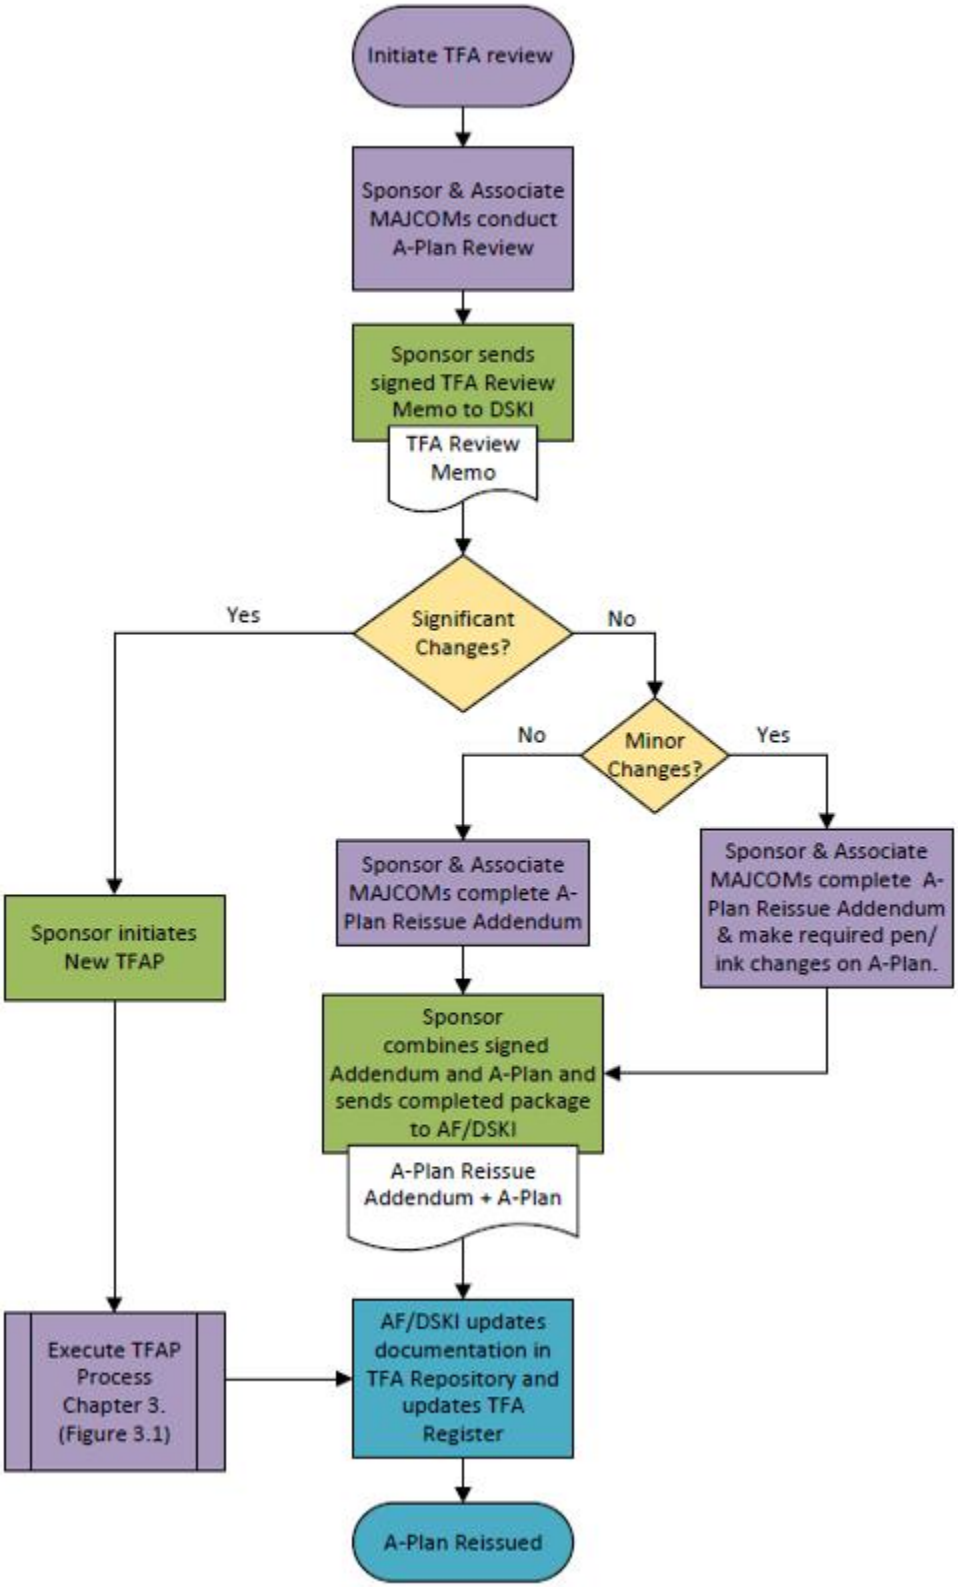

TFA MONITORING, REPORTING, REVIEW, AND REISSUE

4.1. TFA Monitoring. Partnering MAJCOMs will continuously monitor their TFA. **(T-1)** At a minimum, monitoring will include tracking the number and type of TFAs, Mission Design Series (MDS), FTS manning, compliance with OARIT/OAIT-M requirements for ARC FTS personnel (AGR and/or ART/DSMT status), and any special considerations or circumstances for TFAs (e.g., community basing challenges, TFI awareness gaps, identification of best practices, among others). **(T-1)**

4.2. Annual Reporting. Sponsor MAJCOMs will submit a MAJCOM TFA Report on the status of their TFAs to AF/DSKI annually, on the last duty day of October using TFA Report template in **Attachment 4**. **(T-1)** The report will include, at a minimum, certification of the number and type of TFAs, date of previous TFA reviews, A-Plan status, MDS, and any updates to TFAs, including pending divestments or unit conversions. **(T-1)**

4.3. Review and 5-year Reissue. Partnering MAJCOMs will jointly review and submit A-Plans for reissue every 5 years. **(T-1)** Prior to the reissue suspense, partnering MAJCOMs will complete a formal review to evaluate the effectiveness and viability of the TFA. **(T-1)** To document this evaluation, partnering MAJCOMs will jointly execute and submit the TFA Review Memo (**Attachment 5**) to AF/DSKI. **(T-1)** This instruction does not limit or preclude Partnering MAJCOMs from electing to initiate a review or to proceed with a full rewrite of the A-Plan at any time for any reason at their discretion. Follow the process in **Figure 4.1**.

Figure 4.1. TFA Review Process.

4.4. Significant Change Criteria for A-Plan Rewrite. The following criteria define significant changes, which are those that place the viability of the TFA at risk and therefore mandate that Partnering MAJCOMs rewrite the A-Plan and submit it for reissue. If a review determines a TFA meets any of these criteria, Partnering MAJCOMs will submit the rewritten A-Plan for reissue IAW the process outlined in **Chapter 3**, **Figure 3.1**.

4.4.1. A change in the command relationship (to include the organizational chart) that negatively impacts the ability of the Sponsor or Associate unit to accomplish the shared mission.

4.4.2. A change in force employment or posturing (e.g., a shift from steady-state to surge operations).

4.4.3. A change to the Unit Type Code (UTC) construct that negatively impacts the ability to accomplish the shared mission.

4.4.4. A change to the means or methodology used to quantify manpower requirements.

4.4.5. An expansion in the scope of the shared mission, or the introduction of a new requirement.

4.4.6. A determination that one or both organizations have an inability to support the stated shared mission.

4.4.7. A change in location that negatively impacts the ability of the Sponsor or Associate unit to accomplish the shared mission.

4.4.8. A change in the MDS.

4.5. Minor Changes or No Changes. Minor Changes are any changes that do not meet Significant Change Criteria in section 4.4. If TFAs have only minor changes or no changes since the last review, then the Partnering MAJCOM A5/8s will sign the TFA Review Memo (**Attachment 5**), complete the A-Plan Reissue Addendum (**Attachment 6**), attach it to the A-Plan, and submit all documents to AF/DSKI to update the TFA Register.

4.6. A-Plan Reissue. A-Plan reissue must be completed within 5 years of the original approval date. Partnering MAJCOMs are responsible for initiating the review process with sufficient lead time to ensure this deadline is met. To assist in managing these timelines, a template for tracking A-Plan reviews is provided as a tool within this instruction in **Figure 4.2**.

Figure 4.2. Five-Year TFA Review Tracker Template.

ANDREW J. GEBARA, Lt Gen, USAF
Director of Staff, AF

SAF/IEIP—SAF/IE Installation Planning Office

Terms

Active Association (AA)—A type of TFA in which an ARC organization is assigned to the mission, process, or equipment and shares with one or more RegAF organizations. ARC is the Sponsor Organization, and RegAF is the Associate Organization.

Active Guard and Reserve (AGR)—National Guard and Reserve members who are on voluntary active duty providing FTS to National Guard, Reserve and Active Component organizations for the purpose of organizing, administering, recruiting, instructing, or training the reserve components (duties collectively referred to as "OARIT").

Administrative Authority—On behalf of TAG, the Commander of the ANG forces will retain command over all members of the unit in Title 32, United States Code (U.S.C.) status. The Adjutant General of a state exercises Administrative Authority over that state's ANG units.

Administrative Control (ADCON)—The direction or exercise of authority over subordinate or other organizations with respect to administration and support, including organization of Service forces, control of resources and equipment, personnel management, logistics, individual and unit training, readiness, mobilization, demobilization, discipline, and other matters not included in the operational missions of the subordinate or other organizations.

Air Force Auxiliary (AFAUX)—The Title 10 United States Code status of Civil Air Patrol's "Volunteer Airmen" while performing Air Force-assigned missions in support of the Air Force or any other federal agency.

Air Reserve Component (ARC)—The Air Reserve Component of the Air Force consists of the Air National Guard and the Air Force Reserve.

Air Reserve Technician (ART)—The Air Force Reserve uses the term ART for their Military Technicians. As federal civilian employees, Air Reserve Technicians (ARTs) ensure stable, continuous management of the part-time Ready Reserve. As a condition of employment, they must be Ready Reservists, training with the units that employ them. They provide management continuity, equipment maintenance, and training support to help keep their units combat ready. ARTs in various career fields also perform the unit's full-time mission (e.g., base support tail functions). ARTs are limited to the primary duties of "organizing, administering, instructing, and training" the Selected Reserve and performing maintenance and repair of supplies or equipment issued to the Selected Reserve or the armed forces (collectively referred to as "OAIT-M.")

Associate MAJCOM—The Associate MAJCOM supports the Sponsor MAJCOM in planning, developing and staffing TFAPs. Once established, the Associate MAJCOM supports the Sponsor MAJCOM in making changes to existing TFAs.

Associate Organization—The partner unit of a TFA that shares the primary physical resources assigned to the Sponsor Organization. The Associate Organization may provide additional physical resources necessary to support the shared mission. Associate Organizations will vary from full or tailored wings to groups, squadrons, and detachments, depending on the scope of the shared mission. The Associate Organization is subordinate to the Associate MAJCOM.

Association Plan (A-Plan)—A strategic document that formally captures a TFA between a Sponsor MAJCOM and Associate MAJCOM. A-Plans provide a general outline of the association's purpose, background, quantifiable objectives, organizational structure, command relationships, base support, manpower categories and numbers, functional integration, shared resources, budget requirements, and transition plans and milestones.

Business Case Analysis (BCA)—A business decision document that identifies alternatives and presents convincing economic and technical arguments for implementing alternatives to achieve stated organizational objective/imperative(s).

Classic Association (CA)—A type of TFA in which a RegAF organization is assigned to the mission, process, or equipment and shares with one or more ARC organizations. RegAF is the Sponsor Organization, and ARC is the Associate Organization.

Decision Support Document (DSD)—A document that presents alternatives, costs, benefits, and risks of the proposal. This data supports justification of a TFA in conjunction with an A-Plan. DSDs are used to support the development, review, and approval of the A-Plan. The DSD will be derived from a Total Force analysis method, such as a BCA, a Force Mix Analysis between partnering MAJCOMs, or another analysis process designated by the MAJCOM.

Disestablishment—The formal process of dissolving a TFA initiated by any action including MAJCOM request to disassociate, a programmed divestment of sponsor unit, associate unit, or both or directed action.

Drill Status Guardsman (DSG)—Air National Guard members who participate in Regularly Scheduled Drill (RSD), traditionally one weekend per month and a two-week annual training period. Also referred to as a Traditional Guardsman.

Dual Status Military Technician (DSMT)—The National Guard Bureau uses the term Dual Status Military Technician (DSMT). A DSMT is a federal civilian employee, employed under 5 U.S.C. § 3101 or 32 U.S.C. § 709, required to maintain membership in the Selected Reserve, and assigned to a civilian position as a technician in the organizing, administering, instructing, and training (OAIT) of the National Guard or maintenance and repair of supplies issued to the National Guard or the Armed Forces. Technicians are authorized and accounted for as a separate category of civilian employees.

Environmental Impact Analysis Process (EIAP)—Under the EIAP, all alternatives must be evaluated and considered by the decision maker, prior to making any commitment of resources. The EIAP is implemented in the Air Force by 32 CFR Part 989. The EIAP is compiled with either a Categorical Exclusion, an Environmental Assessment, or an Environmental Impact Statement.

Force Mix Analysis (FMA)—Enterprise-level analysis of a mission area to examine mission feasibility across a range of RegAF/ARC force mix options. The analysis is based upon the Associated outputs, costs, benefits and risks.

Full—Time Support (FTS)—ARC personnel serving in FTS positions that are in AGR, ART, or DSMT status. AFR and ANG personnel placed on Active Guard and Reserve AGR orders under 10 U.S.C. § 12310, 32 U.S.C. § 328, or 32 U.S.C. § 502(f)(2) are limited to OARIT for the reserve components as their primary duty. [**Note**: These duty limitations only apply to AGRs and do not apply to ARC members serving on active duty or full-time national guard duty tours for operational support (e.g. “ADOS” or “MPA” tours).] Additionally, under 10 U.S.C. § 10216, or 32 U.S.C. § 709, ARTs and DSMTs are limited to the primary duties of OAIT-M. A member’s “primary duty” is that which takes 51%, or more, of a member’s time that constitutes the primary reason the manpower billet is justified for the unit. Members may fulfill certain other duties on a “non-interference basis.” That is, additional duties that comprise 49%, or less, of a member’s duties. This is an individual requirement that cannot be apportioned or accounted for across the unit or organization.

Functional Integration—The mission alignment of full-time and part-time personnel, training, and/or resources between organizations. Commanders functionally integrate across the Air Force to maintain readiness and efficiently organize, train, and equip forces. Functional integration occurs through command-level MOAs, personnel assignments, aligning collocated organizations, and formalizing TFAs.

Host Base Command—Responsible for supporting the installation on which the TFA resides. The Host Base Command may be the Sponsor MAJCOM, Associate MAJCOM, a different MAJCOM, or other command owning host installation when not a MAJCOM.

Memorandum of Agreement—A document used to memorialize an agreement and execute or deliver support with or without reimbursement between any two or more parties. When a support agreement involves reimbursement, the information specified in the MOA can be used to further detail terms and conditions in the FS Form 7600A.

Memorandum of Understanding—A document used to memorialize a mutual understanding between any two or more parties that does not contain an expectation of payment, and under which the parties do not rely on each other to execute or deliver on any responsibilities.

OAIT-M—Organizing, Administering, Instructing, and Training the Selected Reserve and performing Maintenance and Repair of supplies or equipment issued to the Selected Reserve or armed forces.

OARIT—Organizing, Administering, Recruiting, Instructing, and/or Training for the Reserve Components.

Operational Direction (OPDIR)—OPDIR is an agreement between commanders (codified in MOUs, MOAs or Memorandum for Records) to allow functional leaders from either Sponsor or Associate units to designate objectives, assign tasks, and provide direction necessary to accomplish the shared mission and daily tasks. OPDIR is unique and specific to the TFA framework. Further, OPDIR is intended to ensure unity of effort between Associated units and does not denote command authority of one unit over another. OPDIR is distinct from the command authorities outlined in joint and service doctrine.

Partnering MAJCOMs—Together, the Sponsor and Associate MAJCOMs that maintain ADCON over the associating units.

Proponent—The office, unit, or activity at any level that initiates a Department of the Air Force basing action.

Purpose Statute (31 U.S.C. § 1301)—The Purpose Statute states, "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law." For purposes of this DAFI, the Purpose Statute primarily applies to the use of ARC personnel serving in FTS positions as AGRs and/or ARTs/DSMTs. To avoid Purpose Statute violations, all FTS personnel must individually adhere to duty limitations identified in 10 U.S.C. § 12310, 32 U.S.C. § 328, 32 U.S.C. § 502(f)(2), 32 U.S.C. § 709, and 10 U.S.C. § 10216, as applicable (See FTS definition above). Violations of these requirements may have severe legal consequences.

Sponsor MAJCOM—The sponsor MAJCOM is the lead command responsible for planning, developing and staffing TFAPs

Sponsor Organization—Organization with primary responsibility for mission accomplishment and normally assigned the preponderance of the primary physical resources (e.g., aircraft, weapon system equipment, weapon system support, and production facilities). Sponsor Organization status does not imply ownership of an installation. Sponsor Organizations will vary from full or tailored wings to groups, squadrons, and detachments, depending on the scope of the shared mission. The Sponsor Organization is subordinate to the Sponsor MAJCOM.

Support Agreement—A negotiated arrangement between parties to provide or receive support.

Systems of Measure (SoM)—Quantifiable measurements of the effect of an objective or task that demonstrate when the objective has been achieved. MAJCOMs establish SoMs at their discretion to assess and demonstrate the effectiveness, efficiency, capacity, or capability the association provides to the Total Force.

Total Force Association (TFA)—A TFA occurs when two or more Air Force component organizations agree to share resources to perform a common mission and a TFA Proposal is approved IAW this instruction.

Total Force Association Proposals (TFAPs)—Proposal package consisting of a DSD and an A-Plan. The Sponsor MAJCOM develops a TFAP in coordination with the Associate MAJCOM(s).

Total Force Integration (TFI)—The deliberate combination of personnel, processes, or equipment from two or more components of the Total Force (TF) to gain efficiency and effectiveness in support of the USAF mission.

Traditional Reservist (TR)—A drilling unit member of the Air Force Reserve (Selected Reserve) who must participate in at least 48 scheduled drills or training periods during each year. TRs must also serve on active duty for training of not less than 14 days during each year, or serve on active duty for training not more than 30 days during each year (10 U.S.C. § 10143 and 10 U.S.C. § 10147). TRs can be mobilized (voluntarily or involuntarily) to active duty.

Unit Equipped—A RegAF or ARC formal unit that is authorized Mission-Design Series (MDS) or other mission essential equipment to perform a mission, whether for a combat-coded mission or training mission, such as a Formal Training Unit or other assigned mission. Associations are not formal units and are not considered "unit equipped." The Sponsor Organization is generally considered the "unit equipped" organization that shares its equipment with the Associate Organization. The A-Plan and Memorandum of Agreement (MOA) between the Sponsor Organization and Associate Organization define the procedures for sharing of the equipment and funding responsibilities.

Unity of Effort—Coordination and cooperation toward common objectives, even if the participants are not necessarily part of the same command or organization, which is the product of successful unified action.

A-PLAN TEMPLATE

Figure A2.1. A-Plan for [Classic/Active MDS/Mission Set Association at Base Name, AFB, State.

Prepared by:

Sponsor MAJCOM/Office Symbol, First M. Last, Rank, USAF

Associate MAJCOM/Office Symbol, First M. Last, Rank, USAF

Approved by:

Sponsor MAJCOM/A5/8, First M. Last, Rank, USAF, *(Sign & Date)*

Associate MAJCOM/A5/8, First M. Last, Rank, USAF, *(Sign & Date)*

TAG-[State], First, M. Last, Rank, [State] National Guard *(When applicable), (Sign & Date)*

Signature, Host Base Command/A5/8 (or equivalent), First M. Last, Rank, USAF *(when applicable), (Sign & Date)*

Distribution: Authorized to DoD components only. Refer other requests for this document to Sponsor MAJCOM's address.

Number of Pages: [XX]

Classification/Authority: [Unclassified]

A2.1. Purpose And Background.

A2.1.1. PURPOSE. In accordance with DAFI 90-1001, *Total Force Associations,* this A-Plan establishes the strategic framework for the [Classic/Active] association between the [Sponsor MAJCOM] [Sponsor Organization] and the [Associate MAJCOM] [Associate Organization] at [Installation Name]. The strategic intent of this association is to [State the strategic intent, e.g., generate increased combat readiness, optimize resource utilization, or create a more integrated and lethal force]. The partnering units will achieve this intent by combining resources—including [aircraft, equipment, and/or personnel] to execute the shared mission.

A2.1.2. **Measurable Objectives.** Standard Systems of Measure (SoMs) for this association are identified through coordination with [Sponsor MAJCOM], [Associate MAJCOM], and the associating units. These SoMs determine whether the association is creating the desired effect for key objectives. The listed objectives must be explicitly linked to the justification used for forming and/or continuing the TFA. Note: SoMs consist of established systems of record, such as MilPDS, Defense Readiness Reporting System (DRRS), and Logistics Installation Mission Support-Enterprise View.

A2.1.2.1. **Objective #1:** Outline the association's first objective or the desired effect. These objectives should support the reason(s) both MAJCOMs are associating.

A2.1.2.1.1. Describe how to measure success for Objective #1.

A2.1.2.1.2. Outline and describe additional measures to help determine success for Objective #1.

A2.1.2.2. **Objective #2:** Outline additional association objectives as separate bullets.

A2.1.2.2.1. Describe how to measure success for Objective #2.

A2.1.2.2.2. Outline and describe additional measures to help determine success for Objective #2.

A2.1.3. **Background.**

A2.1.3.1. Founding Directive: This association was directed by [Identify the specific Decision Support Document(s), or other HQ DAF/MAJCOM guidance that initiated the formation of this TFA].

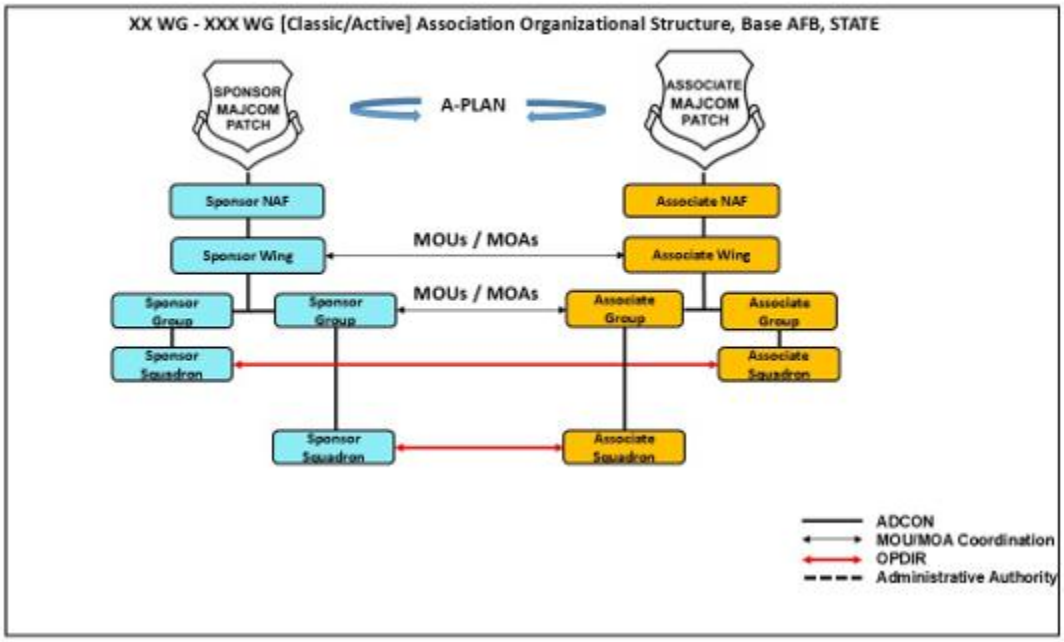

A2.1.3.2. Provide mission description for the units, etc. associating.

A2.1.3.3. Association Rationale: This Total Force Association is a [Classic/Active] construct. This construct was selected because [Provide the strategic rationale for this choice and explain how this specific structure is the most effective way to combine the units' capabilities to meet the shared mission requirement and achieve the stated objectives].

A2.2. Association Details.

A2.2.1. **Organizational Structure.** The organizational structure is a [Wing-to-Wing/Squadron-to-Squadron] integration design and is detailed in **Figure A2.2**. Association Organizational Chart Instruction: *(Insert a complete organizational chart below. The chart must depict the full chain of command from the respective MAJCOMs, through any Numbered Air Forces (NAFs), down to the lowest level of functional integration. Describe in detail the organizational structure in the Command Relationships Section below.)*

Figure A2.2. ## WG/## WG [Classic/Active] Association Organizational Structure.

A2.2.2. **Command Relationships.**

A2.2.2.1. Sponsor Administrative Control (ADCON). *(Outline the Sponsor ADCON relationships.)* The [Sponsor MAJCOM] retains full ADCON over all assigned personnel and resources via the [Sponsor MAJCOM] chain of command.

A2.2.2.2. Associate Administrative Control (ADCON). Outline the Associate ADCON relationships. The [Associate MAJCOM] retains full ADCON over all assigned personnel and resources via the [Associate MAJCOM] chain of command.

A2.2.2.3. Administrative Authority *(ANG Only). (Outline ANG Administrative Authority relationships when NGB is the Sponsor or Associate Organization.)*

A2.2.2.4. Operational Direction (OPDIR). Outline OPDIR among the specific TFA associations (see DAFI 90-1001, Attachment 1, for definition).

A2.2.2.5. **(Outline plan for addressing disciplinary matters within the association.)**

A2.2.3. **Base Support.**

A2.2.3.1. HOST INSTALLATION. The host installation, [Installation Name], falls under the jurisdiction of [Host Base Command Name] *(If applicable).*

A2.2.3.2. COMMUNITY BASING AND SUPPORT. Shortfalls in base or community services that could adversely impact TFA personnel, or their dependents are listed in **Table A2.1** [Each shortfall requires a corresponding mitigation strategy]. Specific execution details may be further addressed in a unit-level MOA/MOU.

Table A2.1. Community Base Services Support Shortfall Mitigation. The following is a list of services not listed on Host Tenant Agreement:

Base Service	Unavailable	Limited	Mitigation Strategy
e.g., Fitness Center	**X**	**X**	e.g., Armed Services YMCA.
e.g., High Cost of Living Expenses: Housing & Utilities			e.g., Update personnel Processing Codes through MAJCOM A1 to enhance awareness for incoming Airmen, direct participation in annual Basic Allowance for Housing data collection.
e.g., Child Development Center			e.g., Apply for Off-base Childcare Waiver/Subsidies through Childcare Aware Organization at https://childcareaware.org/fee-assistancerespite/military-families/
e.g., Medical/Dental			e.g., Med/Dental Records sent to standard location, AF Flight Doc shortage impact and Physical Assessment waivers.
e.g., Base Exchange/Commissary			
e.g., Dining Facility			
e.g., Public Transportation			

A2.2.4. **Manpower Categories and Numbers.** Identify if either component will increase or decrease manpower due to the association. Both components should define how the increases will be distributed between the components and how manpower decreases will be taken (e.g., percentage of contribution to overall mission, one component only).

A2.2.4.1. **Sponsor Manpower Requirements.** Sponsor MAJCOM requirements are captured in **Table A2.2**.

Table A2.2. Sponsor Manpower. RegAF Manpower. If Classic Association i.e., RegAF Sponsor us this Chart, Otherwise Delect Chart.

Unit	PAS Code	Officer	Enlisted	CIV	CTR
## SQ					
## SQ					
Total					
ARC Manpower: *(If Active Association (i.e. ARC Sponsor), use this chart,*					

otherwise delete chart)

Unit	PAS Code	Officer ART or DSMT	Enlisted ART or DSMT	Officer AGR	Enlisted AGR	Officer TR or DSG	Enlisted TR or DSG	CIV	CTR
## SQ									
## SQ									
Total									
Only count ARTs/DSMTs once. Do NOT include them again as TR/DSG billets.									

A2.2.4.2. **Associate Command Manpower Requirements.** Associate MAJCOM manpower requirements are captured in **Table A2.3**. The [## Organization] and [## Organization] MOU provides further details on how Sponsor and Associate UTCs will support deployments and other mission requirements.

Table A2.3. Associate Manpower. ARC Manpower: ***(If Classic Association (i.e. ARC Associate), use this chart, otherwise delete chart.***

Unit	PAS Code	Officer ART or DSMT	Enlisted ART or DSMT	Officer AGR	Enlisted AGR	Officer TR or DSG	Enlisted TR or DSG	CIV	CTR

Only count ARTs/DSMTs once. Do NOT include them again as TR/DSG billets.									
RegAF Manpower: *(If Active Association (i.e. RegAF Associate), use this chart, otherwise delete chart)*									

Unit	PAS Code	Officer	Enlisted	CIV	CTR
## SQ					
## SQ					
Total					

A2.2.4.2.1. **(Outline the number of AGRs, ARTs/DSMTs, and TRs/DSGs. Consider the minimum and expected normal monthly availability of TRs/DSGs.)**

A2.2.4.2.2. Full-Time Support (FTS) personnel must adhere to duty limitations IAW DAFI 90-1001 *Total Force Associations* requirements. FTS will perform duties that involve Organizing, Administering, Recruiting, Instructing, and Training (OARIT) for the ARC or maintaining Federal military supplies or equipment of the armed forces (ARTs/DSMTs only). FTS personnel performing other duties will be resourced appropriately.

A2.2.4.2.3. **Explain the ARC FTS (AGR and/or ART/DSMT personnel requirement.** *If a formal MAJCOM (or above) manpower assessment was accomplished and/or required to validate the total proposed manpower footprint (Sponsor and Associate), indicate date accomplished and overall result (concur, concur w/changes, etc.).)*

A2.2.5. **Functional Integration and Mission Employment.**

A2.2.5.1. **(Explain how this association integrates personnel in each organization in the TFA. Specifically, describe which units will functionally integrate. Also, identify where the positions fall.)**

A2.2.5.2. **(Detail what awareness initiatives and/or programs will be used to educate unit members about cross-component roles and responsibilities and expectations, as well as statutory limitations.)**

A2.2.5.3. **(Provide the estimated ratio of instructors from each component (as applicable)** . *Estimate the ratio of students from each component if ARC members will*

*conduct the formal training of individuals other than ARC personnel (**Note**: For these purposes, training of foreign students or civilians should be attributable to the component requesting the training).)*

A2.2.5.4. **(If the association requires ARC members to support or perform operational activities or federal operations on a routine basis (other than unit mobilization)** *, describe the manner in which they will be utilized and identify the operational chain of command and the ARC organization they will be attached to. Include an explanation as to whether the primary purpose of ARC members' activities is to support or perform federal operations and missions or whether the support/performance is incidental to training.)*

A2.2.5.5. **(In accordance with DAFI 90-1001, paragraph 3.2.2.1., describe how the manpower force mix is quantified to meet the shared mission requirement. Detail how the size of the Associate unit is determined (e.g., by crew ratio [identify the specific ratio], by UTC [identify quantity and type], by Logistics Composite Model (LCOM)** *, or by other mission-validated studies or methodologies). Where a formal manpower study or model exists, reference it explicitly. Where no such study exists, provide a transparent rationale for how manpower requirements were derived to ensure alignment with the initial TFA justification.)*

A2.2.6. **Shared Resource Commitments.**

A2.2.6.1. **(List all resources (e.g., aircraft)** *to be integrated between Sponsor and Associate units and outline how they will be shared during normal, full-time work weeks, and Unit Training Assembly (UTA)/RSD weekends. Further refinement of the commitments will be detailed with associating unit MOAs/MOUs and/or Host Tenant Support Agreement(s).)*

A2.2.6.2. **(If sharing aircraft, describe how integration enables both components to meet their minimum sortie requirements in order to maintain Combat Mission Ready /Basic Mission Capable status IAW MAJCOM Ready Aircrew Program.)**

A2.2.6.3. Required to support the training of Associate personnel, the Associate MAJCOM must ensure they have the necessary resources (supplies, parts, fuel, etc.) to utilize back-shop support. *(Highlight if Sponsor MAJCOM support is required (e.g., personnel).)*

A2.2.6.4. **(If associating personnel will share/use Sponsor facilities and equipment, outline Sponsor's responsibilities for operation and maintenance.)** Associate MAJCOM will validate all space requirements for Associated unit(s) and Associate MAJCOM will fund any sole-use facility work, Comprehensive Interior Design, or furniture costs.

A2.2.7. **Budget/Financial Requirements.** DAFMAN 65-605, *Volume 1 Budget Guidance and Technical Procedures*, provides guidance regarding mixed funding scenarios for sourcing O&M appropriations for certain ARC personnel activities applicable to associations.

A2.2.7.1. **(Outline the process/timelines for partnering units to forecast and request Military Personnel Appropriation (MPA)** *in accordance with DAFI 36-2619.)*

A2.2.7.2. **(Explain specific RegAF and ARC component funding responsibilities with Sponsor MAJCOM and Associate MAJCOM. Estimates should consider things like operations and maintenance costs, government purchase cards, initial beddown expenses, Temporary Duty (TDY)** *travel and per diem, Military Construction projects, and processes to account for additional/unexpected expenditures.)*

A2.2.7.3. **(If the association supports operational activities, federal missions or require the ARC to train other components on a routine basis (e.g., day-to-day, or as a regular part of their military activities – other than unit mobilization)** *, describe the procedures that will be used to account for costs and charge costs to the proper appropriations. This should include, but not be limited to: the number of man-hours ARC members support or perform federal operations or missions (if not done incidental to training or authorized ARC activities); ARC resources (e.g., flying hours, materials) expended in support of federal operations and missions (if not done incidental to training or authorized ARC activities); incremental increase in ARC resources expended (man-hours and other costs) related to training RegAF or supporting federal operations or missions. If reimbursement is not required because the expenditure of ARC resources in support of federal operations or missions is proportional to the reciprocal benefit received by the RegAF unit, incidental to ARC training, or otherwise authorized to be performed by ARC personnel, describe the underlying arrangements, rationale, and safeguards to ensure ARC resources are properly used.)*

A2.2.7.4. **Identify the organization(s) that will be responsible for programming for shared resources and how costs will be shared and/or reimbursed (e.g., flying hours** . *DAFMAN 65-605 provides guidance regarding mixed funding scenarios applicable to associations.*

A2.3. Mission Readiness.

A2.3.1. **Transition Plan to Meet Association Objectives.** ***(*** *Outline specific, time-based milestones each organization will need to meet for the association to reach the outlined objectives. Ensure assumptions, numbers, and deadlines identified in any MAJCOM designated analysis process do not conflict with milestones provided here.)*

A2.4. TFA Milestones.

A2.4.1. Below are some examples of milestones for newly established units:

A2.4.2. DD Month YYYY: Secure formal training allocations for # personnel

A2.4.3. DD Month YYYY: Two full crews trained/maintenance launch 2-ship independently

A2.4.4. DD Month YYYY: Association Initial Operational Capability (IOC)

A2.4.5. DD Month YYYY: Ability to meet wartime task (reported in Defense Readiness Reporting A2.4.System (DRRS) by each component)

A2.4.6. DD Month YYYY: Execution of program

A2.4.7. DD Month YYYY: Association Full Operational Capability (FOC)

MEMORANDUM FOR AIR FORCE DIRECTOR OF STAFF

FROM: [Sponsor MAJCOM] and [Associate MAJCOM]

SUBJECT: Disassociation Request for [Classic/Active] Association between the [Sponsor Unit (Sponsor MAJCOM)] and [Associate Unit (Associate MAJCOM)] at [Location.]

The Total Force Association (TFA) between [Sponsor Unit (Sponsor MAJCOM)] and [Associated Unit (Associate MAJCOM)] at [Location] plans to disassociate. This TFA warrants disassociation because *(state the reason for disassociating for example: generating excessive costs or is no longer sustainable, working or supporting current requirements)*. In accordance with DAFI 90-1001 *Total Force Associations*, both MAJCOMs request to disassociate with an effective date of *(insert date)*.

(If appropriate, explain why one MAJCOM non-concurs with disassociating.)

(Explain disposition and associated timelines of shared aircraft/equipment/etc.)

For further questions please contact partnering MAJCOM POCs.

MEMORANDUM FOR AF/DSKI

FROM: *(MAJCOM Office)*

SUBJECT: Total Force Association Review Memo

1. In accordance with DAFI 90-1001 Chapter 4, [Sponsor Command] in conjunction with [Associate Command] have conducted a TFA Review on *(date)* of the following [Classic/Active] association: *(XXXWG – XXXWG at XXX AFB)*.

2. [Sponsor Command] and [Associate Command] have identified the following (*select applicable changes below*):

☐ A change in the command relationship (to include the organizational chart) that negatively impacts the ability of the Sponsor or Associate unit to accomplish the shared mission
☐ A change in force employment or posturing (e.g., a shift from steady-state to surge operations)
☐ A change to the Unit Type Code (UTC) construct that negatively impacts the ability to accomplish the mission
☐ A change to the means or methodology used to quantify manpower requirements
☐ An expansion in the scope of the shared mission, or the introduction of a new requirement
☐ A determination that one or both organizations have an inability to support the stated shared mission
☐ A change in location that negatively impacts the ability of the Sponsor or Associate unit to accomplish the shared mission
☐ A change in Mission Design Series (MDS)
☐ No significant changes

3. [Sponsor Command] and [Associate Command] have determined [significant/minor/no] changes during the A-Plan review. [Sponsor Command] *[will re-write the A-Plan IAW DAFI 90-1001, Chapter 3 / will complete an addendum IAW DAFI 90-1001, Chapter 4 noting all minor changes and reissue an updated A-Plan / accept the A-Plan as is and will reissue IAW DAFI 90-1001 Chapter 4]*.

4. Any questions concerning this matter can be directed to my POC *(Rank, First Name, Last Name)*, at *(email)* or Comm: *(000-000-0000)*.
