This supplement implements and extends the guidelines of *Dense Explosives Safety Regulation* (DESR), Edition 1, and Air Force Manual (AFMAN) 91-201 Air Force Reserve (AFRC) Supplement, *Explosive Safety Standards.* It ensures ammunition custodians, designated unit safety noncommissioned officers (NCOs), and exercise team chiefs () follow ammunition handling and issue procedures established in this instruction during exercises, training or competitive events for which blank ammunition is requested and issued. Live ammunition will only be issued to weapons couriers, controllers and the security detail. Live and blank ammunition will not be issued to the same individual. This instruction applies to all personnel assigned to the 944th Fighter Wing (944 FW), deployed units utilizing 944 FW facilities, and personnel associated with exercises involving blank ammunition. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using the Department of Air Force (DAF) Form 847, *Recommendation for Change of Publication;* route DAF Forms 847 through the 944 FW Publications and Forms Manager. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFI33-322, *Records Management and Information Governance Program,* and disposed of in accordance with the Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS) located at **https://afrims.cce.af.mil/**

This is the initial publication of the 944th Fighter Wing Supplement to DESR6055.09_AFMAN 91-201_AFRCSUP.

V1.E6.27.4 (Added) (944 FW) To ensure the safe use and handling of munitions during training, strict adherence to instruction is required. Safety principles outlined are also applicable to off-base evaluation/training sites when not in conflict with host base regulations. All personnel who handle, function, and/or transport explosives addressed in this instruction must receive Weapons Safety training. Personnel performing operations outlined in this instruction must complete and forward the explosives risk assessment to Wing Safety prior to each exercise. (See **Attachment 4**)

V1.E6.27.5. (Added) (944 FW) Responsibilities:

V1.E6.27.5.1. (Added) (944 FW) It is the responsibility of all commanders or their designated representatives to ensure that live ammunition is not introduced into a training environment where live and blank ammunition (ammo) could be commingled or mistaken for each other.

V1.E6.27.5.2. (Added) (944 FW) Responsibilities for implementing, monitoring, and enforcing this instruction are assigned as follows:

V1.E6.27.5.3. (Added) (944 FW) Commander:

V1.E6.27.5.3.1. (Added) (944 FW) Ensure this instruction is fully implemented before blank ammunition is removed from long-term storage.

V1.E6.27.5.3.2. (Added) (944 FW) Appoint, in writing, a unit ETC who is responsible for inventory, issue and control of all ammunition requested for use during each exercise or with the training element.

V1.E6.27.5.3.3. (Added) (944 FW) Ensure ETC prepares an exercise plan and risk assessment (See **Attachment 4**) for each exercise according to DESR6055.09_AFMAN_ 91-201_AFRCSUP, and coordinate operations through proper channels.

V1.E6.27.5.4. (Added) (944 FW) Squadron supervision or designated personnel:

V1.E6.27.5.4. 1. (Added) (944 FW) Conducts initial and recurring annual training for personnel. Training will include use and identification of blank and live ammunition.

V1.E6.27.5.4.2. (Added) (944 FW) Develop and implement written lesson plans. Lesson plans must be approved by 944 FW/SE.

V1.E6.27.5.5. (Added) (944 FW) Exercise Team Chief:

V1.E6.27.5.5.1. (Added) (944 FW) Prepares an exercise plan and risk assessment in accordance with AFMAN 91-201 to include a detailed list of ammunition specifying the national stock number (NSN), hazard class/division and quantity intended for use during the exercise; and a detailed list of locations where the munitions will be deployed. Refer to AFPAM 90-803 for methods on eliminating or reducing risks associated with the operation. The risk assessment and list of ammunition must be prepared and submitted at least 30 days prior to the start of the exercise for approval. Include 944 FW/SE personnel in exercise planning and risk assessment (See **Attachment 2** & 4).

V1.E6.27.5.5.2. (Added) (944 FW) Obtains written approval of exercise plan from installation commander, or his/her designee, where operations are to be conducted.

V1.E6.27.5.5.3. (Added) (944 FW) Ensures ammunition identified in the plan is the only ammunition used for the exercise.

V1.E6.27.5.5.4. (Added) (944 FW) Designates individuals responsible for issuing, loading, controlling, unloading and turning-in of blank ammunition within the exercise environment.

V1.E6.27.5.5.5. (Added) (944 FW) Designates someone to oversee field-training activities.

V1.E6.27.5.5.6. (Added) (944 FW) Designates individuals authorized to carry and use live ammunition (weapons courier, controllers, etc.) in the exercise environment.

V1.E6.27.5.5.7. (Added) (944 FW) Designates a unit safety NCO, separate from the participants, to oversee the exercise.

V1.E6.27.5.5.8. (Added) (944 FW) Ensures a safety briefing is conducted prior to operations. The safety briefing will be documented and kept on file for 90 days from the date of the briefing.

V1.E6.27.5.6 (Added) (944 FW) All Participating Personnel:

V1.E6.27.5.6.1. (Added) (944 FW) Responsible for safety of operations. Stop and correct any unsafe operations or conditions immediately.

V1.E6.27.5.6.2. (Added) (944 FW) Observing an unsafe act or an unexpected condition involving blank ammunition or other conditions will immediately declare a STOP-X via the fastest means available, i.e., announcing SAFETY! SAFETY! SAFETY! The STOP-X will remain in effect until the unsafe act or discrepancy can be properly corrected or explained.

V1.E6.27.6. (Added) (944 FW) Issue, Turn-In, Expenditure, and Controlling Procedures:

V1.E6.27.6.1. (Added) (944 FW) Issue:

V1.E6.27.6.1.1. (Added) (944 FW) Requests for blank ammunition will be made to the 944th Security Forces Squadron no later than two Unit Training Assemblies prior to the date munitions are needed. Personnel authorized to make munitions requests and receipts for munitions are listed on AF Form 68, *Munitions Authorization Record*, signed by the commander.

V1.E6.27.6.1.2. (Added) (944 FW) Only the supply or weapons NCO or alternates for the 944 FW will issue loaded exercise magazines to assigned personnel at the equipment issue designated armory issue area.

V1.E6.27.6.1.3. (Added) (944 FW) Blank ammunition will be temporarily stored within licensed location only for the duration of the exercise. AF Form 2047, *Explosives Facility License*, will be posted within licensed location. **Note**: Do not store more than 999 rounds of HC/D (Hazard Class/Division) 1.4 small arms ammunition in any building without an approved explosives facility license.

V1.E6.27.6.1.4. (Added) (944 FW) Once assets are issued to a custody account, it is the responsibility of that organizational commander or designated representative to issue the ammunition to their personnel using an AF Form 1297, *Temporary Issue/Receipt Document*. Forms will be maintained for a period of 90 days from the date of the exercise termination.

V1.E6.27.6.1.5. (Added) (944 FW) Once issued to an authorized individual, blank ammunition will be issued to unit personnel at the exercise location. The ammunition may then be distributed to those persons requiring munitions for training purposes as long as all persons are identified and briefed on safety and accountability.

V1.E6.27.6.1.6. (Added) (944 FW) Personnel and equipment will be inspected to ensure that live rounds of ammunition are not introduced into an exercise/training environment.

V1.E6.27.6.1.7. (Added) (944 FW) Units must provide training to emphasize safe handling, weapon operation, use of blank ammunition and operator maintenance. This training should be documented in the Career Field Education and Training Plan (CFETP), or on AF Form 1098, *Special Task Certification and Recurring Training*, in accordance with AFMAN 31-129.

V1.E6.27.6.1.8. (Added) (944 FW) Personnel will re-check all issued exercise magazines at the completion of the Weapons Safety Briefing. **Note:** At no time will any magazines or blank ammunition be entered into the exercise other than those issued. Introduction of such magazines and/or blank ammunition into an exercise will be considered a clear violation of this operating instruction and administrative actions will be administered as deemed necessary by the Commander.

V1.E6.27.6.2. (Added) (944 FW) Turn-in:

V1.E6.27.6.2.1. (Added) (944 FW) All unexpended rounds will be returned to the point of issue, along with any dud/damaged ammunition upon completion of the exercise. Commanders or their designated representatives will ensure all personnel and equipment are inspected for any live rounds, and that live and blank ammunition is segregated.

V1.E6.27.6.2.2. (Added) (944 FW) Exercise magazines will be checked / inspected by the receiving NCO and will be cross referenced to exercise magazines issued to ensure that all exercise magazines are accounted for prior to the return of the AF Form 1297 to the individual.

V1.E6.27.6.2.3. (Added) (944 FW) Upon completion of the turn-in and accountability of all exercise magazines, the weapons or supply NCO will strip all unexpended blank ammunition from the exercise magazines into a designated ammunition canister and re-inspect all exercise magazines to ensure that no blank ammunition is left in the exercise magazines.

V1.E6.27.6. 3. (Added) (944 FW) Controlling:

V1.E6.27.6.3.1. (Added) (944 FW) Commanders will designate a disinterested representative(s) to monitor the installation/removal of blank ammunition from magazines.

V1.E6.27.6.3.2. (Added) (944 FW) During exercises involving training munitions, only magazines painted YELLOW will be utilized for loading of blank munitions for quick

identification. These designated magazines will hereafter be identified as "EXERCISE MAGAZINES."

V1.E6.27.6.3.3. (Added) (944 FW) Loading of blank ammunition will be supervised by weapons qualified NCO's (E-5 or above), as prescribed by AFI 36-2654.

V1.E6.27.6.3.4. (Added) (944 FW) Exercise blank ammunition will be checked by designated loading personnel prior to and during loading of exercise magazines under the supervision of a weapons qualified E-5 or above.

V1.E6.27.6.3.5. (Added) (944 FW) Personnel designated to load exercise magazines with blank munitions will check each exercise loaded magazine under lighted conditions.

V1.E6.27.6.3.6. (Added) (944 FW) Upon completion of loading of exercise munitions, designated loading personnel will notify the loading supervisor that only blank ammunition was loaded.

V1.E6.27.6.3.7. (Added) (944 FW) The designated loading supervisor will countersign the same loading statement acknowledging that loading was accomplished under supervision and that only blank ammunition was loaded into the exercise magazines.

V1.E6.27.6.3.8. (Added) (944 FW) Live ammo is prohibited in the exercise area unless absolutely necessary.

V1.E6.27.6.3.8.1. (Added) (944 FW) Personnel armed with live ammo are prohibited from participating in any exercise involving blank munitions.

V1.E6.27.6.3.8.2. (Added) (944 FW) When it is necessary to have live ammo present at an exercise involving blank munitions; the guard weapon should be an M9/M18 to prevent commingling of training and live munitions.

V1.E6.27.6.3.8.3. (Added) (944 FW) When live ammunition is issued, it will be issued in non-painted magazines.

V1.E6.27.6.3.8.4. (Added) (944 FW) When not performing security duties, the weapon will be unloaded and cleared of all ammunition.

V1.E6.27.6.3.8.5. (Added) (944 FW) Live ammunition must be stored separately from blank ammunition and monitored at all times.

V1.E6.27.6.3.8.6. (Added) (944 FW) All live ammunition that was issued will be turned in to the issuer, reconciled and documented upon completion of the exercise.

V1.E6.27.6.3.9. (Added) (944 FW) At no time will blank ammunition be fired through a weapon that does not have a Blank Firing Adapter (BFA) properly installed.

V1.E6.27.7. (Added) (944 FW) Exact location and method of employment:

V1.E6.27.7.1. (Added) (944 FW) The commander will appoint an ETC.

V1.E6.27.7.2. (Added) (944 FW) The ETC will prepare written procedures specific to each exercise using **Attachment 4** of this document.

V1.E6.27.7.2.1. (Added) (944 FW) **Attachment 4** will be coordinated with the following authorities, in the following order:

V1.E6.27.7.2.1.1. (Added) (944 FW) Exercise Team Chief (for approval/signature)

V1.E6.27.7.2.1.2. (Added) (944 FW) Wing Weapons Safety Manager (for approval/signature)

V1.E6.27.7.2.1.3. (Added) (944 FW) Responsible Commander (for approval/signature)

V1.E6.27.7.2.1.4. (Added) (944 FW) Wing Weapons Safety Manager (for filing)

V1.E6.27.8. (Added) (944 FW) Emergency or Abnormal Conditions Actions:

V1E.6.2.7.8.1. (Added) (944 FW) Immediately report all accidents or incidents to your supervisor or senior member of your team.

V1E.6.2.7.8.2. (Added) (944 FW) A live round of ammunition mixed in with blank ammunition is an emergency situation. If found, stop all exercise activities, notify your supervision immediately. Exercise will not continue until authorized personnel can determine verification of ammunition.

V1E.6.2.7.8.3. (Added) (944 FW) The Safety Official designated by the Commander or Exercise Supervisor will have a cellular telephone or radio to enable him/her to contact emergency personnel to include the Security Forces Control Center in the event of a mishap or abnormal condition.

V1E.6.2.7.8.4. (Added) (944 FW) The Safety Official will obtain a list of emergency numbers to contact from the exercise area in the event of a mishap or abnormal condition. Appointed individual will ensure the Security Forces Commander, Security Forces Controller, Command Post, Explosive Ordinance Disposal (EOD), Base Medical Personnel, Fire Department and Weapons Safety offices are notified of any mishaps and complete any necessary paperwork.

V1E.6.2.7.8.5. (Added) (944 FW) In the event a round fails to fire, take the appropriate immediate action detailed in the weapon's operator manual.

V1E.6.2.7.8.6. (Added) (944 FW) In the case of an abnormal condition other than an emergency, stop the operation and contact the supervisor who will determine an appropriate course of action for the situation. An abnormal condition is a condition other than an emergency, which is not covered elsewhere, but warrants further consideration to determine if other actions are necessary to ensure a safe operation. Ensure the Wing Weapons Safety Office is notified of these situations.

V1E.6.2.7.8.7. (Added) (944 FW) The exercise should be terminated until the situation is again safe to resume.

V1.E6.27.9. (Added) (944 FW) Inventory Procedures:

V1.E6.27.9.1. (Added) A complete inventory of all blank and live ammunition will be conducted prior to the start of the exercise, at the change of shift, at the end of the day, and at the end of the exercise.

V1.E6.27.9.2. (Added) All out of balance conditions shall cause the exercise to be terminated until the out of balance condition is resolved.

V1.E6.27.9.3. (Added) **Attachment 2** will be used to document the inventory of all live ammunition. **Attachment 3** will be used to document the inventory of all blank ammunition. Forms will be maintained for a period of 90 days from the date of the exercise termination.

V1.E6.27.10 (Added) (944 FW) Munitions Residue: See **Attachment 4**, **para. A4.8**.

V1.E6.27.11 (Added) (944 FW) Expended/Unexpended Brass Turn-In Procedures: See **Attachment 4**, **para. A4.8**.

V1.E6.27.12. (Added) (944 FW) Training:

V1.E6.27.12.1. (Added) (944 FW) A safety briefing will be given prior to commencing any training with munitions or explosives. Brief all personnel regarding their responsibilities from a safety and accountability standpoint. The briefing must be recorded and the documentation will be kept for a minimum of 90-days. Records must include the following:

V1.E6.27.12.1. 1. (Added) (944 FW) Name of the personnel who received the briefing.

V1.E6.27.12.1. 2. (Added) (944 FW) Date the briefing took place.

V1.E6.27.12.1. 3. (Added) (944 FW) A description, copy or location of briefing materials used to brief personnel.

V1.E6.27.12.1. 4. (Added) (944 FW) The name of the person who provided the briefing.

V1.E6.27.12.2. (Added) (944 FW) The safety briefing will contain as a minimum the following points.

V1.E6.27.12.2.1. (Added) (944 FW) Ammunition identification, to include pictures of blank and live ammunition.

V1.E6.27.12.2.2. (Added) (944 FW) Blank/training ammunitions will not be fired/discharged any closer to personnel than specified below.

V1.E6.27.12.2.2.1. (Added) (944 FW) 56mm blank ammunition, P/N: M200 will be fired no closer than 20 feet. P/N M200 ammunition is used in M16/M16A2 /M4 rifles, GUU-5/P sub machine guns and M249 automatic rifles. Air Force Technical Orders (TO) 11W3-5-5-42, *Field Maintenance Manual*, *5.56 M16A2*, and 11W3-5-5-52, *Field Maintenance Manual*, 5.56, *M249*.

V1.E6.27.12.2.2.2. (Added) (944 FW) 62 blank ammunition, P/N: M80, will be fired no closer than 20 feet. M80 ammunition is used in the M60/M240 machine guns.

live ammunition.

V1.E6.27.12.2.3. (Added) (944 FW) Prior to starting or terminating training, conduct a thorough check of all ammo pouches, rucksacks, mobility bags and magazines for live ammunition.

V1.E6.27.12.2.4. (Added) (944 FW) Prior to firing any weapon, all personnel will be thoroughly indoctrinated in the proper handling of the weapon.

V1.E6.27.12.2.5. (Added) (944 FW) All ammunition will be pre-checked to determine if they are the types intended to be fired.

V1.E6.27.12.2.6. (Added) (944 FW) Never allow a round to be chambered unless it will be immediately fired.

MARK D. VAN BRUNT, Colonel, USAF
Commander

Terms

Ammunition—Any munition designed to be thrust from a gun barrel by expanding gases resulting from burning propellant. Rockets would not be included in this definition.

Explosives—All ammunition, munition fillers, demolition material, solid rocket motors, liquid propellants, cartridges, pyrotechnics, mines, bombs, grenades, warheads of all types, explosives elements of ejection and aircrew egress systems, air-launched missiles and those explosive components of missile systems and space systems, and assembled kits and devices containing explosive material. Explosives, explosives weight, net weight, and other like terms also refer to the fillers of an explosive item. Fillers may be explosive mixtures, propellants, pyrotechnics, and other toxic substances. This term does not include liquid fuels and oxidizers that are not used with missiles, rockets, and other such weapons or explosive items.

Munitions—See “Explosives.”

EXERCISE SPECIFIC WRITTEN PROCEDURES/PARTICIPANT BRIEFING

A4.1. Personnel Limits. Personnel will adhere to personnel limits while employing the use of explosives. Supervisors are responsible for enforcing the following personnel limits for the duration of the exercise: (Ref: AFMAN 91-201, Para 7.3.1.)

A4.1.1. Supervisors: _____

A4.1.2. Workers: _____

A4.1.3. Casuals: _____

A4.2. Explosives Limits. Explosives limits will expose personnel to the minimum amount of explosives necessary to ensure the success of the exercise. This exercise will be limited to the deployment of the following amount of explosives: (Ref: AFMAN 91-201, Para 7.3.2.)

A4.2.1. Hazard Class/Division 1.___ Compatibility Group___

A4.2.2. NSN_____, Rounds/Item Quantity_____

A4.2.3. Hazard Class/Division 1.___ Compatibility Group___

A4.2.4. NSN_____, Rounds/Item Quantity_____

A4.2.5. Hazard Class/Division 1.___ Compatibility Group___

A4.2.6. NSN_____, Rounds/Item Quantity_____

A4.2.7. Hazard Class/Division 1.___ Compatibility Group___

A4.3. Exact Location. Specifically detail the location(s)/ "play area" where munitions will be employed during this exercise. This location will be separated from all sited explosives storage areas by Public Traffic Route Distance (EXCEPTION: Security Forces). Contact the responsible Weapons Safety Manager for further guidance. Munitions employment within a Munitions Storage Area MUST be authorized by the owning commander or Munitions Flight Chief. Personnel will not utilize munitions outside of the following location(s):

_____

A4.4. Safety Requirements. Specify Personal Protective Equipment/Clothing, and additional equipment necessary to ensure a safe and healthful operation. The following clothing/equipment items will be used when necessary throughout the duration of the exercise ("X" all that apply):

A4.4.1. **Personal Protective Equipment:**

A4.4.1.1. ___ Protective Eyewear

A4.4.1.2. ___ Hearing Protection

A4.4.1.3. ___ Safety Toe Footwear

A4.4.1.4. ___ Fire Extinguishers (readily available fire extinguishers WILL be provided)

A4.4.1.5. ___ Specify number of extinguishers available

A4.4.1.6. ___ Gloves

A4.4.1.7. _____ Specify Type (i.e. leather, nylon, etc)

A4.4.1.8. ___ Other (list below)

_____

A4.4.2. **Transportation Safety Equipment:**

A4.4.2.1. ___ Vehicle Chocks

A4.4.2.2. ___ Fire Extinguishers (x2 per explosives laden vehicle)

A4.4.2.3. ___ Cargo Tie-Down Straps

A4.4.2.4. ___ Explosives Route Map

A4.4.2.5. ___ Explosives Vehicle Placards

A4.4.2.6. ___ Other (list below)

A4.4.3. **Additional Safety Requirements:** _____
_____

_____

A4.5. Step-by-Step Procedures. Personnel are authorized to employ exercise munitions in accordance with the following:

A4.5.1. Weapons (AFMAN 91-201).

A4.5.2. Ground Burst Simulator (AFMAN 91-201).

A4.5.3. Smoke Grenade. (AFMAN 91-201).

A4.6. Emergency Action. The following action will be taken during "Real-World" emergency situations follow procedures identified in AMAN 91-201:

A4.6.1. LIVE ROUND.

A4.6.2. MISFIRE PROCEDURES.

A4.6.3. DUD GBS/SMOKE.

A4.6.4. Other Emergency Notification Procedures. The following agencies will be notified as applicable during a "Real-World" Emergency:

A4.6.5. Fire: _____

A4.6.6. Local Safety: _____

A4.6.7. Medical: _____

A4.6.8. Command Post: _____

A4.6.9. EOD: _____

A4.6.10. Security Forces: _____

A4.6.11. Other: _____

A4.7. Designated Disinterested Individual(s). The responsible commander has designated the following individual(s) as the ―Designated Disinterest Individual‖ in accordance with AFMAN 91-201, Para 7.25.1.1. The following individual will inspect all exercise ammunition, and will certify that only blank ammunition is loaded in exercise magazines.

A4.7.1. Name/Rank:_____ Unit: _____ Phone: _____

A4.8. Misfire Procedures:

A4.8.1. If the weapon fails to fire:

A4.8.1.1. Ensure decocking/safety lever is in the fire position

A4.8.1.2. Smack upward on bottom of magazine to ensure it is fully seated

A4.8.1.3. Rack the slide to the rear and release

A4.8.1.4. Fire

A4.8.2. If weapon still does not fire:

A4.8.2.1. Remove magazine

A4.8.2.2. Eject chamber round

A4.8.2.3. Insert new magazine

A4.8.2.4. Rack slide to rear and release to chamber new round

A4.8.2.5. Attempt to fire

A4.8.2.6. If weapon still does not fire, clear weapon and perform detailed inspection to determine cause of stoppage

A4.9. Expended Brass/Residue Turn-In Procedures. All personnel responsible for munitions during the exercise are responsible for being familiar with, and utilizing the following local expended brass/residue turn-in procedures:

A4.9.1. Reference: _____

A4.9.2. As a minimum the following procedures will be followed:

A4.9.2.1. All expended munitions residue, packaging material, and munitions containers will be returned to the issuing munitions management function for inspection and disposition.

A4.9.2.2. Using personnel will inspect munitions residue, packaging material, and munitions containers for live munitions prior to turn-in.

A4.9.2.3. Unused, serviceable, munitions which have been removed from their shipping/storage containers will be returned to their original shipping container prior to transporting to the issuing munitions management function.

A4.10. Additional Safety Considerations. The following additional guidance is mandatory for the duration of the exercise:

_____

_____

_____

_____

A4.11. Coordination and Approval. The following authorities must approve these written procedures prior to implementation. The Responsible Commander will approve this plan in writing to ensure that personnel not normally associated with explosives operations and exercises are not exposed to explosives hazards. The Exercise Team Chief will ensure that the Weapons Safety Manager (944FW/SEW) has been provided with a copy of these procedures after the responsible Commander has authorized implementation.
