This publication implements Department of Defense (DoD) 4140.25-M-Vol-2, *DoD Management of Bulk Petroleum Products, Natural Gas, and Coal*. It provides guidance and procedures on the aviation fuel program (AVPOL) and AIR Card usage throughout the Air Force (AF). Procedures are established for correct documentation of forms/invoices, program oversight and personnel responsibilities. It applies to individuals at all levels who make up all Flight Crews, Maintenance, and Fuels Management assigned or attached to Fairchild Air Force Base, including the Air Force Reserve and Air National Guard (ANG), except where noted otherwise. This publication may be supplemented at any level, but all supplements must be routed to the Office of Primary Responsibility (OPR) listed above for coordination prior to certification and approval. Refer recommended changes and questions about this publication to the OPR listed above using the AF Form 847, *Recommendation for Change of Publication*; route AF Forms 847 from the field through the appropriate chain of command. Requests for waivers must be submitted to the OPR listed above for consideration and approval. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322*, Records Management and Information Governance Program*, and are disposed in accordance with (IAW) the Air Force Records Disposition Schedule (RDS), which is located in the Air Force Records Information Management System (AFRIMS). The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the

Air Force. *[See AFI 33-360, paragraphs 6.5.6.1 thru 6.5.6.8. for additional guidance on Purpose paragraph requirements]*

SUMMARY OF CHANGES

1. PROGRAM OVERVIEW / GENERAL GUIDELINES.

1.1. **Accountability.** The Aviation Fuel Program (AVPOL) Manager accounts for all fuel and services charged through Aviation Into-plane Reimbursement Card (AIR Card) transactions. *ALL* AIR Card users are Accountable Officials (AO). Offices, processes and documentation for AIR Card ownership, fuel-into-aircraft, flight operations, Flying Hour Program (FHP), offload reimbursements and post mission documentation are all part of the accountable document control process.

1.2. **Responsibility.** All aircrew, aircraft fuel servicing, and applicable maintenance/support personnel have a role and responsibility in maintaining document control. Pilots, Flying Crew Chiefs (FCCs) and AIR Card trained maintenance personnel will be familiar with AF IMT 664, *Aircraft Fuels/Ground Servicing Documentation Log,* procedures, documentation requirements of AFI 11-253, *Managing Off-Station Purchases of Aviation Fuel and Ground Services,* applicable guidance and this instruction. All Boom Operators will comply with the DD Form 791, *Aerial Tanker In-Flight Issue Log,* procedures of AFI 11-253, applicable guidance and this instruction.

1.3. **Local Program Goals.** Account for all ground fuel onload/offloads, aerial refueling offloads, aircraft flight, and services charged to AIR Card Management. All personnel current on AIR Card training requirements, and signing for purchased fuel and services are considered AOs.

2. WING REFUELING DOCUMENT CONTROL OFFICER (WRDCO) PROGRAM MANAGEMENT AND ADMINISTRATION.

2.1. **Roles and Responsibilities.** The following key personnel are critical to the success and accountability of fuel assets:

2.1.1. Wing Commanders

2.1.1.1. IAW AFI 11-253, (Paragraph 2.5.1), appoint in writing a WRDCO. The WRDCO must be an Air Force member or a DoD civilian.

2.1.1.2. Comply with responsibilities stated IAW AFI 11-253 (Paragraph 2.5).

2.1.2. Wing Refueling Document Control Officer

2.1.2.1. The WRDCO is the AO and Program Manager for all AIR Card transactions, AIR Card transfers, fuel offloads, billing and reimbursements, and Flying Hour Program (FHP). The WRDCO office serves as a collection and management point for all home station, deployed, exercise and temporary duty (TDY) into-plane fuel and services transactions, and offloaded fuel documentation. The WRDCO provides wing-level program oversight for all 92 Air Refueling Wing (ARW) assigned aircraft.

2.1.2.2. Comply with responsibilities stated IAW AFI 11-253, (Paragraph 2.9), and establishes document control procedures for all accountable documents pertaining to AVPOL and AIR Card management.

2.1.2.3. Train Unit Refueling Document Control Officer (URDCO) regarding program management, and roles and responsibilities. Hosts quarterly URDCO meetings to discuss program trends, statistics, changes, and training needs. Provides updates to applicable systems to ensure accurate data is being utilized in reference to receiver ownership. The URDCO is the unit's primary liaison to the WRDCO.

2.1.2.4. Review received AF IMTs 664 with accompanying documentation and DD Forms 791. WRDCO will input data into AVPOL accounting system and process DD Forms 791 within 30 days of receipt for reimbursement. WRDCO will request manning assistance with transaction input over 30 days old.

2.1.2.5. Publish monthly missing documents list (AF IMT 664/DD Form 791) for URDCOs to resolve at unit level and produce a quarterly update to the Wing Commander. Also review received purchases and pay the AIR Card contract bill for commercial services within 7 days of receiving AF IMT 664 and associated receipts. Initiate dispute of AIR Card transactions within 30 days of receiving the billing statement.

2.1.2.6. Download Defense Logistics Agency (DLA) AIR Card fuel purchases, credits, and reimbursements monthly. Reconcile through Military Standard Billing System as deployed aircraft documentation allows.

2.12.7. Ensure all fuel issue transaction and adjustments to obligations are forwarded to the local Financial Services Officer 15 days prior to fiscal year close-out or IAW AMC directive. Project new fiscal year requirements for fuel and AIR Card Miscellaneous Obligation Reimbursement Document. Close out prior fiscal year requirements.

2.1.2.8. Conduct Internal Audits when significant variance from established procedures are identified.

2.1.3. Air Refueling Squadron (ARS) Commanders

2.1.3.1. Appoint a primary and alternate squadron URDCO in writing and forward the signed appointment letter to the WRDCO within 10 business days of appointment. (30 days for ANG)

2.1.3.2. Will appoint a WRDCO Liaison/URDCO for exercise events to coordinate AIR Card fuel purchases, ramp fees off station and account for all missions requiring DD Forms 791 for offloads, when necessary. For further details, see **Attachment 2**.

2.1.4. Maintenance Squadron Commanders

2.1.4.1. Appoint a primary and alternate squadron or group URDCO in writing and forward the signed appointment letter to the WRDCO within 10 business days of appointment. (30 days for ANG)

2.1.4.2. Ensure a copy of this instruction is available to all applicable members.

2.1.4.3. Ensure all applicable members are familiar with ground servicing documentation, instructions, and AIR Card usage and procedures. Also ensure FCCs are trained on how to use the **www.aircardsys.com** website.

2.1.5. Unit Refueling Document Control Officers (URDCOs)

2.1.5.1. URDCOs (primary and alternate) will be appointed in writing by the squadron commander within 10 business days of appointment. (30 days for ANG)

2.1.5.2. Primarily liaise with the WRDCO for AIR Card, aircraft ownership, Tanker Offload Data Entry (TODE), DD Form 791, or AF IMT 664 management as applicable to Operations Group or Maintenance Group. Conduct quarterly review of unit assigned personnel utilizing AIRCard to ensure valid Statement of Understanding, signed by WRDCO, is on file.

2.1.5.3. Operations Group URDCOs, see **paragraph 4.4** for specific roles/responsibilities.

2.1.5.4. Maintenance Group URDCOs, see **paragraph 5.2** for specific roles/responsibilities.

3. AVIATION FUEL PROGRAM (AVPOL) DOCUMENTATION, USE, AND PROCEDURES.

3.1. **Off Station Purchase of DoD and Contract Fuel and Services with AIR Card.** For all off-station missions (i.e. out-and-back, TDY, exercises or deployment legs to or from the area of responsibility (AOR)), the AF IMT 664 is used to log and store all off station AIR Card fuel, landing fee, and servicing receipts. The AF IMT 664 is used for single aircraft tail number and associated AIR Card. Log all the transactions on the front of AF IMT 664. Use one line entry per receipt or transaction. Also, list services with missing receipts. Insert supporting documentation (i.e. DoD 1898 or commercial receipts) into the envelope. The Aircraft Commander (AC) will deliver the signed AF IMT 664 to debrief upon return to home station or arrival at the deployed location. The following exceptions apply:

3.1.1. For TDYs 14 days or longer, if the capability exists, when AIR Card is charged for fuel or services, scan and submit any commercial receipts electronically to the WRDCO for reconciliation via email. Completed forms with original receipts will be turned in upon return and maintained by the WRDCO.

3.1.2. For AOR AF IMT 664 Procedures see **Attachment 3**.

3.1.3. For lost, stolen, missing or other AIR Card issues enroute, contact Kropp Holding Inc., AIR Card contractor for immediate assistance at 1-800-308-3811. You will need to supply them with the 92 ARW account name, Account 41. If required, additional details are provided in **Paragraph 5.6.2**.

3.1.4. For non-standard commercial procedures where the AIR Card is not accepted, or detailed AIR Card instructions for Canadian and Gander Fuel, refer to AFI 11-253, (Paragraphs 2.12 through 4.3).

3.2. **Home station Purchase of Fuel with AIR Card.** Fairchild AFB AOs will sign for all fuel transactions. Base Fuels will maintain DD Form 1898 records. Base Fuels will produce a monthly summary of 92 ARW charges for WRDCO reconciliation. The Maintenance URDCO will review and concur with the monthly fuel summary for official file. See **Paragraph 6.1.3**.

3.3. **DD Form 791:** Regardless of mission or location, a DD Form 791 will be used to log fuel offloads to receiver units and delivered to the WRDCO within 2 business days of the flight, or upon arrival back at home station. Local DD Form 791 procedures are described in **Paragraph 4.5.3**.

3.4. **AFTO Form 781H, *Aerospace Vehicle Flight Status and Maintenance* and Local Debrief Worksheet:.** Part of post mission paperwork, these summarize mission number/tail number, events critical to maintenance, fuel, flight hours, pilot/boom and tanker offloads. Data is put into GO-81 for aircraft electronic maintenance records. Accurate data is critical to the AVPOL program.

4. PROCEDURES FOR AIRCREW.

4.1. **Aircrew Member Procedures.** Aircrew are responsible for several forms and documents to ensure accurate tracking of fuel into-aircraft, used by the engines, offloaded into receivers, and jettisoned, if required. Failure to accurately complete and submit the required forms after a sortie may require a Memorandum for Record (MFR) and a Report of Survey.

4.2. **Aircraft Commander Responsibilities.** ACs are responsible for the completion and turn-in of all aircraft forms, regardless if any of it was delegated to other aircrew members. ACs are also responsible for adhering to AFI 11-253 chapter 3, *Priority for Fuel Resources* and *Authorized Ancillary Services.* ACs conducting preflight inspection will ensure AIR Card matches aircraft tailnumber. ACs are responsible for the proper security and use of the AIR Card during the mission. Upon mission completion, ACs will ensure all applicable paperwork (e.g. AFTO Form 781H, AFI MT 664's, Debrief Worksheet) is turned in at Maintenance Debrief. The AF Form 791 will be submitted to WRDCO via TODE, or future AMC approved method. All paperwork must be submitted within 2 working days of mission completion. For a description of all required paperwork for fuel accountability, see **Paragraph 4.5**.

4.2.1. ***NOTE: The Aircraft Commander is ultimately responsible to ensure all paper work is complete and all forms are turned into Squadron Aviation Resource Management, Maintenance Debrief, and the WRDCO upon mission completion.***

4.2.2. ***NOTE: Aircraft 781s, AMXS Debrief Worksheets, AF 664s, and fuel receipts will stay with the aircraft forms at all times per AFI21-101_AMCSUP 3.7.1.3.1 and 3.7.5.2. Exception: If the aircraft must be left off station, the Aircraft Commander will hand carry the 781s, AF 664 and AMXS Debrief Worksheets to home station.***

4.3. **Boom Operator Responsibilities.** Boom Operators are responsible for coordinating with the Pilots for the air refueling information obtained during the sortie. For a list of all required paperwork for fuel accountability, see **Paragraph 4.5**.

4.4. **Operations Group URDCO responsibilities.**

4.4.1. Act as liaison with WRDCO for respective unit to resolve all missing or incorrect documents from the Missing Documents List. If a missing document cannot be recovered within 30 days, a MFR stating the reason for the missing document will be sent to the WRDCO.

4.4.2. Update squadron TODE computer and critical receiver information within 2 business days of receiving the update from the WRDCO. This may be delegated.

4.4.3. Ensure crewmembers are familiar with aerial refueling and ground servicing documentation, instructions, and AIR Card usage and procedures.

4.5. **Required Fuel Tracking Forms and Documents.**

4.5.1. AF IMT 664, *Aircraft Fuels Documentation Log*

4.5.1.1. The AF IMT 664 is used to document purchases made using the aircraft's AIR Card. Purchases include fuel, servicing, power cart, parking, etc. The AF IMT 664 is used off station, regardless if the location is a DoD installation or not. The AF IMT 664 is not required when the aircraft executes local missions from its home station and receives no fuel or services off station.

4.5.1.2. Flying Crew Chief who accompany the mission or AIR Card trained crewmembers will handle the AIR Card purchases and record purchases on the AF IMT 664. AIR Card purchases

will follow procedures described in **paragraph 5.5** ACs will validate and sign that purchase receipts match the information written on the AF IMT 664. Detailed instruction for filling out the AF IMT 664 and receipts can be found in **Attachment 4**. Detailed instructions for AIR Card use can be found in AFI 11-253, (Chapter 3).

4.5.1.3. The DD Form 1898, Energy Sales Slip, is the sales receipt for fuel received at DoD installations. Sales receipts at commercial locations for fuel and services come in various forms with control numbers. These will be documented on the AF IMT 664 along with any known services that may not have a receipt (example: De-Icing at takeoff). Explanation of missing receipt is required.

4.5.1.4. Upon return to home station, ACs will turn in the AF IMT 664 containing all signed DD Forms 1898 or associated receipts received for services while off station to Maintenance Debrief. For deploy or redeploy missions see instructions in **Attachment 3**. Verify the AF IMT 664 properly reflects the service received and sign the AF IMT 664 as reviewer. See **Figure 4.1** for an example of an AF IMT 664 record.

Figure 4.1. AF IMT 664, Aircraft Fuels Documentation Log.

AIRCRAFT FUELS/GROUND SERVICING DOCUMENTATION LOG						MISSION DATES FROM	MISSION DATES TO
						20201031	20210103
(USE AIRCRAFT IDENTAPLATE DATA TO COMPLETE AIRCRAFT DATA)							
AIRCRAFT ORGANIZATION AND HOME STATION				AIRCRAFT PROCESSING COMMAND		AIRCRAFT MDS	AIRCRAFT SERIAL NBR
92 ARW, Fairchild AFB, WA 99011				AMC		KC135	58-0092
REFUELING/SERVICEDATE	AIRFIELD NAME 1	AIRFIELD ADDRESS (City, State or Country)	TYPE OF FUEL OR SERVICE	QUANTITY OF FUEL	UNIT OF MEASURE 2	TYPE OF DOCUMENT 3	INVOICE NUMBER OF DOCUMENT
20201031	NELLIS AFB	LAS VEGAS, NEVADA	JAA	6,000	GL	DD 1898	S465479
20201115	GRANT INTL	MOSES LAKE, WASH	NITROGEN	N/A	N/A	CIV RECEIPT	PPL2478
20201224	GRANT INTL	MOSES LAKE, WASH	PARKING	$300/DAY	N/A	CIV RECEIPT	PPL2490

4.5.2. AFTO Form 781H, *Aerospace Vehicle Flight Status and Maintenance*

4.5.2.1. The Aircraft Commander will ensure a record of all fuel transactions on AFTO Form 781H in accordance with Technical Order (TO) 00-20-1, *Aerospace Equipment Maintenance Inspection, Documentation, Policies, and Procedures*, (Paragraph 5.13.1.2). All fuel transactions on-loaded or offloaded will be accurately recorded on the AFTO Form 781H. This form is mandatory on all sorties, regardless if there was an offload to a receiver aircraft. See **Figure 4.2** for an example of an on-load, offload, and shutdown fuel entry.

Figure 4.2. AFTO Form 781H Documentation for On-Load, Offload, and Shutdown Fuel.

11. SERVICING DATA																			
	FUEL (Pounds, Gallons or Liters)			OIL (Half pints, pints, quarts, gallons or liters)															
	OCTANE OR GRADE	QTY SRVCD	TOTAL IN TANKS	1		2		3		4		5		6		7		8	
				SER	IN	SER	IN	SER	IN	SER	IN	SER	IN	SER	IN	SER	IN	SER	IN
1	JAA	P 25,000	P 100,000	/															+
2	JAA	P -28,200	P 27,800	/															+
3	JAA	0 P	P 15,100	/															+

4.5.3. **DD Form 791,** *Aerial Tanker In-Flight Issue Log*

4.5.3.1. The DD Form 791 is the billing document for reimbursement of fuel offloads to receiver units. Without this form, a tanker wing cannot bill a receiver unit, or foreign nation for the fuel transferred. For detailed directions on filling out a DD Form 791, see **Attachment 5**.

4.5.3.2. "Wetting down the boom" every five contacts does not constitute a recordable offload. However, a fuel jettison does require an input on the DD Form 791.

4.5.3.3. The local policy is to use the TODE program, which is installed on selected computers, unless otherwise directed by AMC. For directions on TODE, refer to training material at each TODE workstation, Electronic Flight Bag or the Squadron URDCO.

4.5.3.4. If TODE fails to work on multiple workstations, a manual electronic DD Form 791 (PDF version) may be filled out on a computer and emailed to the WRDCO at **92OSS.WRDCO.791DATA@us.af.mil**.

4.5.3.5. As a last resort, a handwritten DD Form 791 may be presented to the WRDCO either in person or scanned and sent via email. This method is the least preferred.

4.5.3.6. A DD Form 791 must be submitted to the WRDCO within 2 working days of mission completion.

4.5.4. Local 92d/141st AMXS Debrief Worksheet

4.5.4.1. Aircraft Maintenance Squadron (AMXS) uses the debrief form to update the GO-81 database. The worksheet is required after every sortie regardless if there was an offload. The section for the aircrew to fill out is clearly labeled on the left side of the form. For an example of what the form looks like, refer to **Attachment 7**.

5. PROCEDURES FOR MAINTENANCE.

5.1. **Maintenance Procedures.** Aircraft maintainers are responsible for several forms and documents to ensure accurate tracking of fuel into-aircraft, used by the engines, and offloaded to receivers. Individuals trained to sign for AIR Card fuel transactions are considered Accountable Officials. Failure to accurately complete and submit the required forms as directed in this document and AFI 11-253 may require a Memorandum for Record and a Report of Survey.

5.2. **URDCOs within the Maintenance Group.**

5.2.1. Forward URDCO appointment letter to WRDCO within 10 business days of appointment. (30 days for ANG)

5.2.2. Ensure Maintenance functional areas that are critical to AVPOL accountability develop control procedures for accountable documentation. These functional areas include: P&S, Debrief, Crew Chiefs, Maintenance Operations Center, and Production.

5.2.3. Review Monthly Fuel Purchase Summary Report for local AIR Card fuel transactions. Review will identify possible erroneous or duplicate charges and concur with WRDCO for accuracy.

5.2.4. Establish written procedures and training for AIR Card users and document handlers at home station and off station IAW AFI 11-253 and this instruction.

5.2.5. Coordinate with deployed supervision to ensure return of accountable items.

5.3. **Plans and Scheduling (P&S) Responsibilities.**

5.3.1. Identifies aircraft ownership, location, and associated AIR Card. Initiates Ownership changes in GO-81 and DLA.

5.3.2. Notify the WRDCO through email immediately upon GO-81 aircraft transfer, inter/intra-aircraft transfer or other changes that would require a new AIR Card to be issued or transferred for the aircraft.

5.3.3. Verify mission ownership (e.g. 92 ARW, 141 ARW, etc) for AIR Card usage for correct AIR Card billing.

5.3.4. Coordinate for projected aircraft ownership changes that directly impact AIR Card Management (i.e. depot, loaned aircraft, AOR, etc.)

5.3.5. Provide WRDCO access to Looking Glass for Aircraft ownership location. Assist with resolving AIR Card Ownership possession.

5.3.4. Produces weekly GO-81 Debrief Summary Reports to reconcile DD Form 791s received from Boom Operator.

5.4. **Debrief Responsibilities.**

5.4.1. Ensure that all Pilots are asked upon return from off station missions for completed AF IMT 664s with associated refueling and service receipts, and will ensure each receipt is accurately annotated on the AF IMT 664 legibly.

5.4.2. Ensure Aircrew record flying hour and fuel used and offloaded accurately on AFTO Forms 781H. Ensure sure block 14, "Servicing Certification," reflects the name (spelled out) of the location where fuel servicing occurred. Home station services will have no AF IMT 664s or fuel receipts.

5.4.3. Debrief will accept/remove all IMT 664s from the aircrew/781 forms binder and place them in the WRDCO inbox. Notify the WRDCO via email when there are documents that need to be picked up.

5.4.4. The WRDCO will pick up the AF IMT 664 and accompanying receipts from Maintenance Debrief and file them by aircraft tail number and date. AF IMTs 664 and associated receipts will be maintained at WRDCO office per AFI 11-253.

5.4.5. Debrief will identify to URDCO or WRDCO via email any aircraft or crews not using the local debrief procedures.

5.5. **Crew Chief Responsibilities.**

5.5.1. Validate all assigned aircraft have serviceable AFTO Forms 781 and AIR Cards. Notify maintenance production when inventory is completed. AMXS Production will contact the WRDCO for replacement AIR Cards.

5.5.2. Prior to receiving fuel or services, the Crew Chief will provide the AIR Card and verify aircraft information and billing address of fuel provider.

5.5.3. The Crew Chief will ensure DD Form 1898 or commercial receipt is accurately and completely filled out prior to signature.

5.5.4. After fueling occurs, the ground refueling operator will give Crew Chief the AIR Card and DD Form 1898 or commercial receipts. The Crew Chief will ensure the receipts are correctly filled out before signing.

5.5.5. Refuel and Defuel transactions will be annotated to the AFTO Form 781H.

5.5.6. AF IMT 664 requirements.

5.5.6.1. There is no collection of AF IMTs 664 or receipts for 92 ARW owned aircraft at Fairchild AFB. Signed DD Forms 1898 for Fairchild AFB will be maintained at Base Fuels for auditing purposes.

5.5.6.2. For AOR base fuels, Crew Chief will submit all DD Forms 1898 to AOR Debrief for annotation on AF IMT 664 by tail number and returned to home station Debrief. See **Attachment 3** for deployed procedures.

5.5.6.3. For any off station transactions the Crew Chief will annotate the AF IMT 664 with any fuel or services received and place the DD Form 1898 or commercial receipts into the AF IMT 664 envelop. See **Figure 4.1** and **Attachment 4** for completion of AF IMT 664 and receipts.

5.5.7. Provide the Pilot with completed AF IMT 664 for review, signature, and turn-in with post mission paperwork at Debrief.

5.5.8. Flying Crew Chiefs: All C-Prefix maintenance personnel (ex. C2A574) will review and adhere to local training and practices generated from the FCC Management office and approved by WRDCO Office.

5.6. **Maintenance Production Responsibilities.**

5.6.1. Ensure each assigned aircraft has a valid AIR Card. Ensure AIR Card and required blank AF IMT 664 envelop are in the aircraft forms binder. Validate the DODAAC, ORG, and tail number for each aircraft assigned.

5.6.2. If the AIR Card is missing or lost, make an entry in the AFTO Form 781A, *Maintenance Discrepancy and Work Document*. Inform the Maintenance Production Superintendent and document the search for the card and all relevant details.

5.6.2.1. Notify the WRDCO by email for replacement of missing AIR Card.

5.6.2.2. To expedite AIR Card replacement, call WRDCO office directly, (509) 247-5502.

5.6.3. If AIR Card is lost or missing en route, call 1-866-308-3811 to inform the AIR Card support team and report the AIR Card is lost. The technician will provide a new card number to use for the remainder of the mission. Upon return to Fairchild AFB, notify the WRDCO that the AIR Card was lost.

5.6.4. Prior to deployment, ensure an adequate supply of fuels transaction documents are onboard the aircraft to complete the deployment. Ensure each aircraft has a sufficient supply of AF Form 664s for each mission.

5.6.5. Review AIR Card assignments weekly for missing or damaged AIR Cards. Request WRDCO to initiate AIR Card replacements via email.

5.6.6. Conduct 100% AIR Card physical inventory in accordance with current guidance and forwards the results to the WRDCO Office. Ensure AIR Card physical security procedures are in place.

5.6.7. Conduct 10% AIR Card physical inventory monthly. The inventory will include different aircraft each month. Send certified inventory to the WRDCO.

5.6.8. Conduct quarterly Maintenance AIR Card training records review.

5.6.9. At Deployed locations, Production Supervisor will ensure AIR Card is in designated location. AFI MT 664's and transcribed forms are placed onboard and crew notified of location requirement to deliver to Debrief upon return to Homestation**. See Attachment 3.**

6. PROCEDURES FOR LOGISTICS READINESS & FUELS MANAGEMENT

6.1. LRS Fuels Management Flight/Base Fuels Procedures.

6.1.1. Fuels Management Flight within the Logistics Readiness Squadron (LRS) will regularly receive, validate and process DD Forms 791 and AIR Card transactions into the Fuel Management Database (FMD), then transmit data to DLA Energy for billing or reimbursements IAW FTL 19-04. Invalid DD Forms 791 will not be entered into the FMD System and will be returned to WRDCO.

6.1.2. Fuels Management Flight will notify WRDCO of DLA rejected transactions as soon as possible.

6.1.3. Fuels Management Flight maintains accounting and records keeping IAW DLA-E Policy P1, P2 and P3. As a result, home station fuel receipts (DD Form 1898) for locally serviced missions will not be collected and stored by the WRDCO for 92 ARW owned aircraft. For audit and accounting requests, the WRDCO office will utilize the Fuels Management Flight official record system.

6.1.4. Fuels Management Flight will produce a monthly home station AIR Card Summary Transaction Report for 92 ARW Aircraft into plane fueling/defueling. The report will be used for the WRDCO reconciliation process with Maintenance.

6.1.5. Fuels Management Flight will compare monthly DD Form 791transactions input into FMD against WRDCO provided transaction list to confirm DD Form 791's are being processed efficiently.

6.1.6. Fuels Management Flight will assist the WRDCO with annual and End of Year budget and fuel projections.

CASSIUS T. BENTLEY III, Colonel, USAF
Commander, 92d Air Refueling Wing

LARRY E. GARDNER, Colonel, USAF
Commander, 141st Air Refueling Wing

WRDCO—Wing Refueling Document Control Officer

Attachment 2

PROCEDURES FOR EXERCISES

A2.1. Exercise WRDCO Liaison/URDCO with Tanker Operations.

A2.1.1. When Fairchild owned aircraft are flown for exercises (e.g. Mobility Guardian, Red Flag, etc.), the following procedures will apply.

A2.1.1.1. The senior officer of the exercise will appoint a WRDCO Liaison or URDCO to oversee the proper handling of fuel and ground service source documents for the length of the event.

A2.1.1.2. Exercise URDCO will coordinate early with WRDCO for requirements if commercial sources will be used for landing, parking and fuel.

A2.1.1.3. Coordinate with WRDCO to ensure fuel documentation is delivered consistently during the exercise.

A2.1.1.4. If available, ensure a TODE capable laptop is on site for electronic completion of the DD Form 791.

A2.1.1.5. Prepare Memorandum for Record if in the event of a significant loss of accountable documents.

Attachment 3

PROCEDURES FOR DEPLOYMENT/REDEPLOYMENT OF FAIRCHILD AFB AIRCRAFT

A3.1. Procedures for Deployed Fairchild AFB Aircraft.

A3.1.1. The deployed Wing Commander will appoint a WRDCO in writing for the location.

A3.1.2. The deployed WRDCO will comply with the following procedures.

A3.1.2.1. Liaise with Fairchild AFB's WRDCO regarding tasked aircraft to establish accountable document delivery.

A3.1.2.2. Ensure all incoming aircrew and maintenance personnel are briefed and trained on fuel accountability per this document and AFI 11-253.

A3.1.2.3. Develop continuity guide for incoming WRDCO appointments.

A3.1.2.4. Establish AOR AF IMT 664 procedures to account for all tasked aircraft AIR Card transactions. Ensure the collection of receipts and accurate completion of AF IMT 664s for all managed aircraft. And ensure delivery of AF IMT 664 and support receipts back to Fairchild AFB WRDCO in a timely manner.

A3.1.2.5. Establish AOR DD Form 791 procedures for offload accountability.

A3.1.2.5.1. Provide current resources required to accurately fill out DD Form 791 to staff Boom Operator and aircrews. TODE is one method of doing this.

A3.1.2.5.2. Ensure all tanker offload and jettisons are accurately accounted for on DD Form 791 within 24 hours of mission completion.

A3.1.2.5.3. Provide a GO-81 summary debrief for all Fairchild AFB tasked aircraft to the staff Boom Operator to compare for missing documents.

A3.1.2.5.4. Ensure staff Boom Operator receives, reviews, and accounts for all fuel documentation associated to DD Form 791.

A3.1.2.5.5. Deliver reviewed DD Form 791s to Fairchild AFB's WRDCO in a timely manner via email.

A3.1.2. Fairchild AFB's WRDCO has example of procedures that can be used for the AOR if no procedures exist.

A3.1.3. The deployed Mx Debrief/Pro Sup will ensure the associated jacket file containing all receipts for the aircraft are onboard/delivered to the aircraft (or A/C) prior to departing deployed location for home station return.

A3.1.4. Aircraft Commanders are responsible to turn in all receipts and AF IMT 664s relating to the aircraft flown home to maintenance debrief upon return to Fairchild AFB.

Attachment 4

AF IMT 664 DIRECTIONS

A4.1. Priority of USE.

Figure A4.1. AF IMT 664, *Aircraft Fuels/Ground Servicing Documentation Log.*

AIRCRAFT FUELS/GROUND SERVICING DOCUMENTATION LOG						MISSION DATES FROM	MISSION DATES TO
(USE AIRCRAFT IDENTAPLATE DATA TO COMPLETE AIRCRAFT DATA)							
AIRCRAFT ORGANIZATION AND HOME STATION				AIRCRAFT PROCESSING COMMAND		AIRCRAFT MDS	AIRCRAFT SERIAL NBR.
REFUELING/SERVICE DATE	AIRFIELD NAME *1*	AIRFIELD ADDRESS *(City, State or Country)*	TYPE OF FUEL OR SERVICE	QUANTITY OF FUEL	UNIT OF MEASURE *2*	TYPE OF DOCUMENT *3*	INVOICE NUMBER OF DOCUMENT

1. *International Civil Aviation Organization (ICAO) codes from flight enroute supplements may be entered for airfield names.*
2. *For purchases in Foreign Countries, be sure to enter correct unit measure, E.G. Liter, Imperial Gallon, etc.*
3. *Examples - Army DD 1898, Navy DD 1898, Contract DD 1898, AF Form 315, AF Form 15, Foreign Government, Vendors Sales Document (Fuels and ground services).*

AF IMT 664, 19991211, V1 PREVIOUS EDITION IS OBSOLETE.

Figure A4.2. AF IMT 664 INSTRUCTIONS.

AIRCRAFT SERIAL #: Self-explanatory.

REFUELING/SERVICE DATE: The date you received the particular service.

AIRFIELD NAME: The name of the installation or airport you received the service from.

AIRFIELD ADDRESS: The city and state or country the airfield is located.

TYPE OF FUEL OR SERVICE: Fuel grade, or service received (Jet-A, nitrogen, etc.)

UNIT OF MEASURE: Gallons vs. liters.
TYPE OF DOCUMENT: Record if this was on a DD Form 1898, other commercial receipt, etc.

INVOICE NUMBER OF DOCUMENT: Recorded from the receipt received.

CERTIFY ALL ENTRIES ARE TRUE AND VALID / AC / CREW CHIEF: Print and sign for both the Aircraft Commander and the Crew Chief.

A4.2. Properly filled out receipts will include the following: Aircrew shall ensure that the merchant prints and/or imprints the following minimum POS data on the DD Form 1898 or commercial delivery ticket:

A4.2.1. Merchant Identification Number or the four-character International Civil Aviation Organization airport identifier (ICAO). (T-0).

A4.2.2. Aircraft Tail Number or, if applicable, AIR Card number. (T-0).

A4.2.3. Purchase date (Julian). (T-0), Fuel Grade. (T-0), and Net fuel quantity purchased. (T-0).

A4.2.4. Any additional charges for additives, call out fees, or applicable taxes (for example, federal, state, local, or airport). (T-0).

A4.2.5. Overtime charges. (T-0). The merchant shall record start and stop times on the DD Form 1898 or commercial delivery ticket with the total overtime annotated in fractional hours (for example, 1 hour, 15 minutes = 1.25 hours).

A4.2.6. Unit Price. (T-0), and Total dollar per service and fuel. (T-0).

A4.2.7. The merchant and aircrew member will both **sign** the DD Form 1898 or commercial delivery ticket to certify that it accurately describes the purchase transaction.

Attachment 5

DD FORM 791 DIRECTIONS

A5.1. DD Form 791 Directions.

A5.1.1. If in the event you cannot complete a DD Form 791 in TODE, there are directions written on the bottom-front, and the back of the form. However, the following steps are designed to help Boom Operators fill out the form along with the directions.

A5.1.2. Open G-drive folder. The G-drive server is \\GJKZ-fs-03v. The folder is at G:\92_OG\92_OG_HQ\AMC_ePubs\ePubs\Local_KSKA_Fairchild_All\8. Fuel Tracking and 791s.

A5.1.3. Open the DD Form 791 (Blank) file.

A5.1.4. Open the Tail Number Possession File. There are 3 files: Tanker, DoD, and Foreign Military Sales (FMS). Open the appropriate file(s).

A5.1.5. Fill out the top section.

A5.1.5.1. Mission Number: all 12 characters need to be written.

A5.1.5.2. Tanker: Do not change this, it is pre-filled out.

A5.1.5.3. Mission Date and Time: Self explanatory.

A5.1.5.4. Tanker Type: KC-135 R or KC-135 T.

A5.1.5.5. Tanker Number: This must be the tanker's full, 8 digit tail number.

A5.1.5.6. Fuel Grade: The fuel grade at Fairchild AFB is JAA. Enter a different grade from a different location if the fuel type is known.

A5.1.5.6.1. Jet-A is JA.

A5.1.5.6.2. Jet-A1 is JAA.

A5.1.5.6.3. JP-8 is JP8.

A5.1.6. Fill out the Issues section.

A5.1.6.1. Aircraft Command: This is a 3 character ID. (i.e. ACC, AMC, AFR, ANG, USN, USM, FMS etc.)

A5.1.6.2. Aircraft Type: Self-explanatory.

A5.1.6.3. Aircraft Number: Must be the full 8 digit tail number for USAF receivers and full 6 digit Bureau Number (BuNo) for USN/USMC receivers. For FMS receivers, ensure all characters from their tail numbers are on the DD Form 791.

A5.1.6.4. Aircraft Callsign: Place the callsign here unless it is classified, then enter N/A.

A5.1.6.5. Aircraft: Enter the DoDAAC, Organization/Squadron Code, and Home Station from the appropriate Tail Number Possession File. If the fuel was jettisoned, write "JETTISONED" in this column.

A5.1.6.6. Quantity Issued: Only fill in the Pounds column. Number must be the entire number, written in thousands, no decimals.

A5.1.6.7. Fill out the next line for the next receiver. If any receivers come back for additional fuel, they require a separate line. A fuel jettison requires a line on the DD Form 791. “Wetting down the boom” does not require an entry.

A5.1.7. Refueler’s Name and Grade, printed legibly: Self explanatory

A5.1.8. Total: Enter the total offload in thousands of pounds.

A5.1.9. Submit the 791: Save the file with the name of Mission – tail number – sortie date (ex. 8UN42TB05120 – 59001476 – 30APR19). Email the reviewed DD Form 791 to the WRDCO at **92OSS.WRDCO.791DATA@us.af.mil**.
