Supersedes: AFI11-202V2_USAFESUP_SPANGDAHLEMABSUP, 29 November 2017

Pages: 13

Air Force Instruction (AFI) 11-202V2, and its United States Air Forces in Europe (USAFE) supplement, are supplemented as follows. This supplement provides procedures and guidance for complying with AFI 11-202V2*, Aircrew Standardization/Evaluation Program* and associated USAFE Supplement. The provisions of this publication apply to all pilots assigned or attached to flying activities within the 52d Operations Group (52 OG). Unless otherwise specified, the 52 OG Commander (52 OG/CC) is the waiver authority for the Spangdahlem AB supplement. Waiver requests will be submitted to the 52 OG/CC through 52 OG Standardization and Evaluation Office (52 OG/OGV). Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with (IAW) AFMAN 33-363, *Management of Records*, and disposed of in accordance with the Air Force Records Disposition Schedule (RDS) located at **https://www.my.af.mil/afrims/afrims/afrims/rds/rds_series.cfm.** Submit any recommended changes or clarification requests to this publication using AF Form 847, *Recommendation for Change of Publication,* through your chain of command to 52 OG/OGV, Unit 8865, APO AE, 09126, or via email at **52og.ogv1@us.af.mil.**

SUMMARY OF CHANGES

This publication is substantially revised and must be reviewed completely. Revisions include, but are not limited to: added guidance for Electronic Flight Evaluation Folders (eFEF) and updated guidance for F-16 mission descriptions.

1.3.3.1. **(SPANGDAHLEM)** Unless otherwise specified, 52 OG/CC is the waiver authority for all provisions of this Spangdahlem AB supplement. Reference AFI 33-360, *Publications and Forms Management,* for administrative guidance on requesting a waiver. Process waivers to this supplement by AF Form 679, *Air Force Publication Compliance Item Waiver Request/Approval,* prescribed by AFI 33-360. Route AF Form 679s through 52 OG/OGV to the 52 OG/CC unless otherwise noted.

2.3.2.5.1.1. **(SPANGDAHLEM)** In accordance with the AFI 11-202 V2_ACC Supplement, PEX software will be used to the maximum extent consistent with the program's capabilities. Squadron Aviation Resource Managers (SARM) will create PEX accounts for pilots upon in-processing and 52 OG/OGV or CCV Standardization and Evaluation Liaison Officer (SELO) and/or 52d Operations Support Squadron, Current Operations Flight (52 OSS/OSO), will assist pilots with account issues.

3.2.1.4.2.1. **(SPANGDAHLEM)** Requisite testing will be conducted at the 52 OG/OGV office. Waiver authority for the location of testing is the Chief, 52 OG/OGV. Semi-annual or other periodic testing may be conducted at a location chosen by the squadron.

3.2.2.2.1. **(SPANGDAHLEM)** Squadron Standardization and Evaluation (SQ/CCV) will e-mail the 52 OG/OGV Chief, Stan/Eval organization email address (**52og.ogv1@us.af.mil**), prior to initiating the Form 8 signature process. 52 OG/OGV will review Forms 8 in PEX and annotate the review on the back of the form. See **Paragraph 7.3.7.6.1** for documentation.

3.2.2.3.1. **(SPANGDAHLEM)** Flight Evaluation Folders (FEF) are automatically generated by PEX. See 52 OG Operating Instruction (OG OI) 11-202, *Electronic Flight Evaluation Folders (eFEF)*, for the maintenance of eFEF's. Once eFEF program is established with PEX server, paper FEFs will be for reference only in accordance with this AFI.

3.2.2.5.2.4. **(SPANGDAHLEM)** SQ/CCV is the OPR for trend analysis of evaluations and testing. SQ/CCV will submit trend information to 52 OG/OGV for Standardization and Evaluation Board (SEB) reporting.

3.2.2.5.2.4.1.1. **(SPANGDAHLEM)** Minimum sample size for trend data is 15 evaluations or examinations. A trend is defined as a 15% or greater recurrence. Commanders may also establish a trend item based on their command perspective and experience without meeting the minimum sample size or trend percentage.

3.2.2.5.3. **(SPANGDAHLEM)** Negative flying trends are subjective and do not have a minimum sample size. The SQ/CC has the responsibility of determining whether an item constitutes a negative flying trend for their unit. 52 OG/CC will determine negative flying trends for the 52 OG. Trend analysis of flight evaluations and emergency procedures evaluations is accomplished via 52 OG/OGV Temporary Form 8 Certificates, AF Forms 8, and the data input via PEX.

3.2.2.7.2.1.1. **(SPANGDAHLEM)** In addition to information required by the parent regulation and USAFE Supplement, SQ/CCVs will present topics for board discussion, commendables',

and exceptionally qualified evaluations (including SEFE, evaluation, examinee, and text of the commendable) with the SEB inputs.

3.2.2.9.1. **(SPANGDAHLEM)** OGV manages the 52 OG Flight Manual Program (FMP). OGV is the Technical Order Distribution Office (TODO) for all Operations Group T.O.'s required to accomplish flying operations. The 480 FS commander will appoint, in writing, Technical Order Distribution Account (TODA) personnel.

3.2.2.9.2. **(SPANGDAHLEM)** The TODO and TODA accounts will be managed in the Enhanced Technical Information Management System (eTIMS). Records and reports will be maintained IAW the most current Flight Crew Information File (FCIF) Library Program Guide on the OGV SharePoint page.

3.2.2.10.1. **(SPANGDAHLEM)** See the 52 OG Flight Examiner guide for all procedures on checking digital publications. Digital publications are the primary checklists used on the aircraft.

3.2.2.11.1. **(SPANGDAHLEM)** OGV will maintain a single log for all 52 OG AF Form 847s on the 52 OGV SharePoint page. Details on program execution are maintained in the most current How-To guide on the OGV network drive.

3.2.2.12.1. **(SPANGDAHLEM)** 52 FW has no assigned OPR responsibilities for airspace tracks and/or air-refueling tracks.

3.2.2.14.1. **(SPANGDAHLEM)** 52 OG will conduct all EFB operations IAW ACCI 11-270.

3.2.2.15.1. **(SPANGDAHLEM)** 52 OG will conduct all EFB operations IAW ACCI 11-270.

3.2.3.1.2. **(SPANGDAHLEM)** 52 OG/OGV will consist of a Chief who may also be an MDS Chief, and a SELO (military or civilian). Additional personnel may be assigned at 52 Operations Group Commander discretion. Report any gapped positions in the SEB minutes.

3.2.3.4.1. **(SPANGDAHLEM)** The following 52 OG/OGV and SQ/CCV functions are normally combined and maintained at the 52 OG/OGV office.

3.2.3.4.1.1. **(SPANGDAHLEM)** Supplementary Evaluations (SUPEVAL).

3.2.3.4.1.2. **(SPANGDAHLEM)** AF Form 847 Program.

3.2.3.4.1.3. **(SPANGDAHLEM)** Aircrew Examination and Simulated Emergency Procedures Training (SEPT) program. 52 OG/OGV will produce required examinations. Squadrons will manage their own Trend Analysis programs.

3.2.3.4.1.4. **(SPANGDAHLEM)** Functional Check Flight Program (FCF). Squadrons may have FCF pilots, but 52 OG/OGV maintains program oversight.

3.3.1.3.1. **(SPANGDAHLEM)** The squadron commander (SQ/CC) will designate, in writing, a SELO to assist in administrative duties.

3.3.2.6.1. **(SPANGDAHLEM)** CCV personnel will serve as quality control stops for AF Form 847s submitted to OGV. Squadron is not required to maintain an 847 log. Reference the most current How-To Guide on the OGV network drive for 847 submission process execution.

3.3.2.7.1. **(SPANGDAHLEM)** CCV functions are responsible for the production and maintenance of FCIF Volume I, **Part C** and Squadron Read File (SARF). PEX will be the primary method for this.

3.3.2.7.2. **(SPANGDAHLEM)** Squadrons will perform an annual inventory of all TOs IAW TO 00-5-1. eTIMS will be the primary method for TO inventories.

3.3.2.10.1. **(SPANGDAHLEM)** 52 OG/OGV will utilize the 52 OG/OGV SharePoint page as a Standardization and Evaluation (Stan/Eval) information board. As a minimum the SharePoint page will contain: Stan/Eval guidance memorandums, trend information, current SEPT profile, SEB slides and minutes, and Special Interest Items. Additional information such as evaluation eligibility periods, requisite information and accomplishment records are maintained in PEX, or at the discretion of SQ/CCV.

3.3.3.3.1.1. **(SPANGDAHLEM)** Squadrons will certify the minimum number of Standardization and Evaluation Flight Examiners (SEFE) required to accomplish the mission effectively, as determined by the SQ/CC and approved by the 52 OG/CC. Units desiring more SEFEs than prescribed in B will provide justification to the 52 OG/CC. 52 OG/OGV SEFEs and SQ/CC SEFE do not count against squadron SEFE manning.

4.2.1.1. **(SPANGDAHLEM)** Upgrading SEFEs will accomplish all items in the 52 OG SEFE Upgrade Program Memorandum, located on the 52 OG/OGV SharePoint. Submit waiver requests to the 52 OG/CC through 52 OG/OGV prior to beginning the program.

4.2.2.1.1. **(SPANGDAHLEM)** Refer to **Attachment 9** for Letter of Certification Guidance.

4.3.5.1. **(SPANGDAHLEM)** Flight examiners may reference the 52nd Operations Group Flight Examiner Guide for all evaluation briefs and debriefs. This guide will be maintained on the OGV Sharepoint site and the network restricted drive.

5.2.3.2.1. **(SPANGDAHLEM)** Evaluation profiles will be realistic and reflect unit tasking, training, and incorporate current tactics. Mission (MSN) evaluations will be scheduled in one of the unit's primary or secondary missions as defined by the HQ USAFE Ready Aircrew Program Tasking Memorandum. If aircraft fallout or weather precludes accomplishing the primary scheduled mission, then the SEFE may complete the evaluation in a backup mission of sufficient tactical nature.

5.2.3.2.2. **(SPANGDAHLEM)** The examinee will contact the SEFE prior to the commencement of mission planning to obtain mission information and specific requirements. At a minimum, the SEFE will provide the type of mission and conduct a mission overview consistent with the 52 OG FE Objectivity Guide.

5.2.3.2.3. **(SPANGDAHLEM)** In addition to guidance in AFMAN 11-2F-16 Volume 2, *F-16--Aircrew Evaluation Criteria*, aircrew will be evaluated in their highest certification (instructor pilots (IP) will also be evaluated as 4-ship flight leads). At the discretion of the SQ/CC, 4-ship flight leads, to include IP's, may accomplish 2-ship mission evaluations as long as it is in a primary mission type as defined by the most current F-16 RTM. Document this in the Additional Comments section of the AF Form 8, *Certificate of Aircrew Qualification*, prescribed by AFI 11-202 Volume 2.

5.2.5.2.1.1. **(SPANGDAHLEM)** A sortie type must be in a primary mission set as defined by the MDS RTM for a SPOT evaluations to update a periodic MSN evaluation.

5.2.6.3.3.2. **(SPANGDAHLEM)** No-Notice (N/N) goals will be 15% of evaluations which will expire in a semi-annual period. This number will be calculated at the beginning of the semi-annual period (Jan-Jun and Jul-Dec). N/N examinations given in the last month of the eligibility

period will not count towards the squadron N/N rate calculation. A N/N Emergency Procedures Evaluation (EPE) will count as a N/N evaluation for the entire evaluation. N/N evaluations conducted by Headquarters (HQ) USAFE SEFEs will count toward unit N/N program goals.

5.4.2.4.2.3.1. **(SPANGDAHLEM)** When additional training is required as a result of an evaluation, the flight examiner will debrief the SQ/CC or SQ/DO or designated representative and CCV Chief. The debriefing will include the downgraded area(s), recommended training, due date, and any recommendations for restrictions to be imposed. The debriefed SQ/CC or SQ/DO or designated representative and CCV Chief will ensure that the examinee is placed on supervised status as required. CCV or OGV will assign the individual's supervised status in PEX and annotate on the LOX (**Attachment 9**). CCV will monitor the status of additional training. For instructors or evaluator who receive a Q-2 or Q-3, CCV will coordinate with squadron Training (DOT) and squadron Scheduling (DOS) to ensure the aircrew member shows No-Go (red) for the ability to perform instructor or flight examiner duties. This restriction will be lifted after additional training or debriefing is completed as documented on the AF Form 8.

5.5.2.2.2.1. **(SPANGDAHLEM)** The F-16C Mission Training Center (simulator) will be the primary method for conducting EPEs. Table-top verbal EPEs may be conducted on a case-by-case basis at evaluator's discretion. Table-top verbal EPEs will be annotated under additional comments on Form 8.

5.5.2.2.2.2. **(SPANGDAHLEM)** SEFEs will provide and/or approve mission objectives, tactical objectives, the overall scenario, and tasks assigned to examinees. Information provided will be commensurate with mission type. Examinees will be responsible for the production of mission products appropriate to their qualification level and crew position.

5.5.2.2.2.3. **(SPANGDAHLEM)** Record EPE results IAW 52 OG OI 11-202. The electronic requisite worksheet in PEX is equivalent to a signed hard copy worksheet.

6.3.2.1. **(SPANGDAHLEM)** All requisite exams will be administered by 52 OG/OGV personnel in the 52 OG/OGV testing area as defined in **Paragraph 3.2.1.4.2.1** SQ/CCV may administer requisite testing with 52 OG/OGV approval. Squadrons may administer requisite testing anytime while deployed.

6.3.2.2. **(SPANGDAHLEM)** PEX will be the primary means to create and administer requisite open/closed book, instrument, and periodic testing. 52 OG/OGV will create tests in PEX and will maintain hard copy backup tests to be utilized only if PEX is unavailable. PEX tests may be assigned by SQ/CCV or 52 OG/OGV. If a hard copy test is administered, the 52 OG/OGV test administrator will enter the test score into PEX. After testing is complete, SQ/CCV will record the test scores on the Temporary Form 8 to be placed in the examinee's FEF.

6.3.2.3. **(SPANGDAHLEM)** Any one-time use hard copy exams will be entered into PEX as off-line exams for trending purposes and as a record of completion. The hardcopy may then be disposed.

6.4.1.2.1.1. **(SPANGDAHLEM)** OGV will create and maintain an F-16 local master question file (MQF).

6.4.3.1. **(SPANGDAHLEM)** Open, Closed, and Instrument examinations will be prepared examinations. 52 OG/OGV will review the Air Force Flight Standards Agency (AFFSA)

Instrument Master Question File (MQF) and ensure that only questions pertinent to the F-16 are included in the Instrument Exam.

6.4.3.2. **(SPANGDAHLEM)** If a question in the Air Combat Command MDS MQF or AFFSA MQF is discovered to be incorrect, 52 OG/OGV will submit an AF Form 847 recommending a change and remove the question from the test.

6.6.3.2.1. **(SPANGDAHLEM)** 52 OG exam management is described in **Paragraphs 6.4.3.1—6.4.3.1.2**. and will follow the guidance listed in **Paragraph 6.6**

6.7.1. **(SPANGDAHLEM)** OGV will work with Communication Focal Point and 52 OSS/OSO and PEX admin to ensure PEX permissions are set as required to maintain the integrity of exams and question databanks. Permissions will be reviewed each time a new SEFE is designated.

6.9.1.1. **(SPANGDAHLEM)** If an examinees fails a requisite exam, 52 OG/OGV will notify the Squadron Operations Supervisor and SQ/CCV. SQ/CCV will ensure the examinee is placed on supervised status until successful completion of the exam. SQ/CCV will track the failure until a successful retest is complete. When deployed, in the instance of a failed requisite examination, SQ/CCV will forward failed examination information to 52 OG/OGV as soon as possible.

6.9.2.1.1. **(SPANGDAHLEM)** Aircrew failing a requisite exam will not test any earlier than the next duty day.

6.10.1.1. **(SPANGDAHLEM)** 52 OG/OGV will develop and SQ/CCVs will administer closed book semi-annual tests. The tests will normally be administered the last two weeks of Jun and Dec, unless inspections with testing requirements that qualify as semi-annual tests preclude administration at that time. Squadrons will ensure failed exams are corrected to 100%, not grounding, and that all examinees are debriefed on any incorrect answers. Trends from these tests will be forwarded to 52 OG/OGV and reported at the SEB. The semi-annual test will become a go/no-go on the first day of the following month after the semi-annual half is complete (1 Jan and 1 Jul). For pilots who arrive at Spangdahlem after the normal administration period, the requirement is waived until the next semi-annual test is administered.

7.3.2.6. **(SPANGDAHLEM)** SEFEs will complete a 52 OG Temp Form 8 and provide these to CCV, who will enter the data into PEX. Flight examiners may enter data at their own discretion. 52 OG OI 11-202 documents OGV guidance on evaluation data entry.

7.3.5.1.6. **(SPANGDAHLEM)** Testing accomplished in order to regain combat mission ready (CMR)/basic mission capable (BMC) status IAW AFI 11-2MDSV1 will be documented as a SPOT in the ground phase column of the AF Form 8.

7.3.11.3.3.1.1. **(SPANGDAHLEM)** Document mission descriptions with the following information.

7.3.11.3.3.1.1.1. **(SPANGDAHLEM)** INSTM/QUAL – This evaluation was accomplished IAW AFMAN 11-2F-16V2. All required items were accomplished. Annotate debriefed personnel on evaluation results.

7.3.11.3.3.1.1.2. **(SPANGDAHLEM)** MSN – Include the same verbiage as the INSTM/QUAL. Also include if the evaluation was accomplished during the day or night, the mission type (RTM mission type), and if the evaluation was accomplished in support of a named operation or exercise. For a combined evaluation (INSTM/QUAL/MSN), use this verbiage.

7.3.11.3.3.1.1.3. **(SPANGDAHLEM)** Annotate all unaccomplished items along with applicable instructional topics.

7.3.11.6.1. **(SPANGDAHLEM)** Prior to the Form 8 being released for signatures, SQ/CCV will email 52 OG/OGV to provide an additional review. PEX will be utilized to annotate the additional review and documented in the format "52 OG/OGV ___(init)___". As a contingency, reviews may also be documented in wet ink utilizing the same format. 52 OG/OGV will then release the Form 8 for signatures. If the SEFE was a 52 OG/OGV examiner, the SEFE's signature is sufficient to document the review. 52 OG/CC will review all Q-2s and Q-3s in addition to OG/OGV review.

7.3.12.6.1. **(SPANGDAHLEM)** 52 OG OI 11-202 provides guidance on temporary evaluation documentation.

7.4.7.6.1. **(SPANGDAHLEM)** Additional reviews of AF Forms 8 will mirror the 52 OG/OGV review annotation as described in **Paragraph 7.3.11.6.1**. 52 OG/CC will annotate Form 8 review for all commander-directed downgrades.

7.6.7.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for AF Form 942, *Record of Evaluation,* procedures.

7.7.2.1.1. **(SPANGDAHLEM)** Upon conversion to an electronic FEF (eFEF), units will mark the main Stan/Eval FEF cabinet as "For Reference Only." A cover sheet will then be inserted on top of Section II stating that all subsequent AF Form 8 documentation is kept in PEX. See 52 OG OI 11-202 for instructions on digital transportation and conversion of eFEF.

7.7.2.2.1. **(SPANGDAHLEM)** For eFEF backing purposes, completed Form 8s will be printed and placed in the individual's paper FEF folder. In addition, the Form 8 will be saved onto the unit's restricted drive.

7.7.2.3.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for further guidance for further guidance on FEF disposition.

7.7.2.3.2. **(SPANGDAHLEM)** 52 OG OI 11-202 provides guidance on eFEF standards, expectations, and management.

7.7.2.3.3. **(SPANGDAHLEM)** At a minimum, 52 OG/OGV will validate eFEF squadron compliance during Supplemental Evaluations.

7.7.4.4.1. **(SPANGDAHLEM)** A privacy act stamp or other markings placed on the outside of the FEF by a previous unit need not be removed.

7.7.5.1.1.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for guidance on eFEF initial reviews.

7.7.5.2.3.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for guidance on eFEF posting reviews.

7.7.5.3.3.1.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for guidance on eFEF periodic reviews.

7.7.6.3.3.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for guidance on documenting minor and major discrepancies.

7.7.7.1.4.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for guidance on aircrew outprocessing.

7.7.7.1.4.2. **(SPANGDAHLEM)** A copy of the latest Letter of Certifications will be placed in the member's paper FEF prior to PCS or extended TDY.

7.7.8.1.1. **(SPANGDAHLEM)** See 52 OG OI 11-202 for further guidance for further guidance on FEF disposition.

7.8.7.1. **(SPANGDAHLEM)** IAW **Paragraph 7.8.1.6.1**. (Added-USAFE), the 52 OG does not use AF Form 4348, *USAF Aircrew Certifications,* but instead uses a Squadron Letter of Certifications, or Letter of X's.

8.4.3.1. **(SPANGDAHLEM)** Flight surgeons will complete this examination annually or when more than 60 days has elapsed since last flight.

9.1.2.1.1.1. **(SPANGDAHLEM)** Table of Contents (Part A) is maintained on OGV's SharePoint site. In addition, units will maintain paper copy in accordance with 52 OG/OGV Master Library Index.

9.1.2.1.1.2. **(SPANGDAHLEM)** The Current Read File will be kept electronically on OGV's SharePoint site. Units will also maintain paper copy in accordance with 52 OG/OGV Master Library Index.

9.1.2.1.1.3. **(SPANGDAHLEM)** Further FCIF program management information will be maintained on the 52 OG/OGV restricted network drive.

9.1.2.1.2.2.1. **(SPANGDAHLEM)** The Current FCIF Read File and Rescinded FCIF Read File will be maintained on OGV's SharePoint site. The Current FCIF Read File will be duplicated in PEX. The 52 OG/CC approves all new 52 OG directed FCIF's, but may delegate this to OGV staff. Any member of the OGV staff has the authority to approve USAFE/A3TV FCIFs, publications distributions, and revised or corrected copy FCIF's. OGV staff includes any personnel on the OGV FCIF Monitor Appointment Letter maintained on the OGV SharePoint site.

9.1.2.1.3.1. **(SPANGDAHLEM) Part C is mandatory.**

9.1.2.3.1.1. **(SPANGDAHLEM)** 52 OG/OGV and SQ/CCV will maintain only Technical Order (TO) guidance for configurations assigned to the 52 FW. If other TO guidance is required (ex., F110-GE-100 engine Block 40 F-16s on loan to 52 FW), 52 OG/OGV will acquire suitable digital TOs and checklists and distribute them to the unit. In accordance with AFI 11-215, if unit maintains paper copies, F-16C pilots are authorized to remove and strike through all Pratt & Whitney (PW), and General Electric (GE) checklist pages not applicable to their unit's MDS.

9.1.2.4.1. **(SPANGDAHLEM)** 52 OG/OGV will maintain the electronic library and squadrons need only maintain hard copy publications as indicated in the 52 OG Master Flight Crew Information File (FCIF) Master Library Index.

9.1.2.4.2. **(SPANGDAHLEM)** The 52 OG/OGV SharePoint is the primary electronic pubs library. Additionally, 52 OG/OGV will maintain a hard drive with backup publications on it.

9.1.2.6.1. **(SPANGDAHLEM)** OGV will maintain a current electronic library, but no hardcopy library. Volume V is maintained on the Wing Safety (52 FW/SE) SharePoint page.

9.4.1.1. **(SPANGDAHLEM)** SARM personnel will ensure aircrew evaluations are recorded on the AF Form 1522, *ARMS Additional Training Accomplishment Report*, prescribed by AFI 11-202 Volume 1, *Aircrew Training*. Any SEFE or CCV member may sign the AF Form 1522.

9.4.3.1. **(SPANGDAHLEM)** See **Paragraph 6.10.4** for periodic testing. This will be tracked by SARM personnel.

9.4.6.1. **(SPANGDAHLEM)** PEX is the primary means of verifying Go/No-Go status, but hard copy means may serve as a backup or alternate to PEX.

9.4.6.2. **(SPANGDAHLEM)** SARM will be the primary Go/No-Go monitor, but the FS/CC may designate other individuals to verify Go/No-Go status prior to stepping aircrew.

9.4.6.3. **(SPANGDAHLEM)** In addition to operations supervisors, the SARM may grade the Critical Action Procedure (CAP) exam. SARM will refer failed CAPs exams to the operations supervisor, who will determine the course of action based on the nature of the failure. The pilot may be grounded until the next flying day (normally 12 hours) and a successful retest is completed. Small oversights which are recognized by the examinee and immediately corrected may not result in grounding. Any squadron administered ops limits or MQF questions on the reverse of the Boldface/CAPs sheet are not a Go/No Go item.

9.5.5.1. **(SPANGDAHLEM)** 52 OG/OGV will manage both 52 OG and Sq SUPEVAL programs. Commanders may conduct their own SUPEVALS as desired. Squadrons may request a 52 OG/OGV SUPEVAL at any time by contacting 52 OG/OGV. SUPEVAL may count toward self-inspection requirements. OGV will solicit SUPEVAL inputs from the OG/CC. CCV functions will do similar actions within their unit.

9.5.5.2. **(SPANGDAHLEM)** SUPEVAL reports will include objectives, deficiencies, and recommended fixes at a minimum. Final report is due to commander within 30 days of SUPEVAL completion. SUPEVAL results will be reported at the SEB.

ANTHONY G. RETKA, Col, USAF
Commander, 52 Operations Group

TO—Technical Order

Attachment 7 (SPANGDAHLEM)

SPOT FLIGHT EXAMINER OBJECTIVITY EVALUATION GUIDANCE

A7.2.1.2.1. **(SPANGDAHLEM)** If a SEFE is awarded a U on an Objectivity Evaluation, the SEFE administering the evaluation will contact the 52 OG/CC to inform them of the grade, and CCV to ensure the SEFE conducts no other evaluations until recertification.

A7.2.1.2.2. **(SPANGDAHLEM)** SEFEs who receive a U on a SEFE Objectivity Evaluation will only be recertified after receiving ground training by the Chief, 52 OG/OGV, or a SEFE designated by the OG/CC.

A7.2.1.2.3. **(SPANGDAHLEM)** The decision to recertify the SEFE and the training required will be determined by the 52 OG/CC.

Attachment 8 (SPANGDAHLEM)

BRIEFING FACILITIES GUIDANCE

A8.1. (SPANGDAHLEM) Squadron briefing facilities will be maintained by FS/CCV. Briefing room requirements are listed below. Units may request OG/CC waivers to this based on MDS specific requirements.

Table A8.1. (SPANGDAHLEM) Items Maintained In Briefing Rooms.

Product	POC
In-flight Guide	FS/CCV
T.O. 1(MDS)-1CL-1	FS/CCV
T.O. 1(MDS)-34-1-1CL-1	FS/CCV
Air-to-Air Training Rules Poster	52 OG/OGV
Air-to-Ground Training Rules Poster	52 OG/OGV
Special Interest Item Slide	FS/CCV
Local Area Map	52 OG/OGV
Note: Items may be maintained in a large format poster or in digital format on a CD or network drive.	

A8.2. (SPANGDAHLEM) 52 OG/OGV will provide the necessary items in **Table A8.1** in either an electronic or hard copy format, but FS/CCV is responsible for maintaining the currency of these and all materials in the briefing rooms. Additional items may be maintained in the briefing rooms but they must be current.

Table A8.2. (SPANGDAHLEM) Items Maintained In a Central Mission Planning Area.

Product	POC
T.O. 1(MDS)-1 Manual	FS/CCV
T.O. 1(MDS)-34-1-1 Manual	FS/CCV
AFTTP 3-3.(MDS) Manual	FS/CCV
DOD FLIP Vol 3 and TCN (if applicable)	FS/CCV

Attachment 9 (SPANGDAHLEM)

LETTER OF CERTIFICATION GUIDANCE (LOX)

A9.1. (SPANGDAHLEM) FS Training Flight is the OPR for unit LOX. The LOX may be signed by the FS/CC, or FS/DO.

A9.2. (SPANGDAHLEM) The LOX will normally be signed electronically, saved as an Adobe .pdf file, and distributed from FS/DOT to 52 OSS/OSOT. 52 OSS/OSOT or 52 OG/OGV will post the LOX on the 52 OG/OGV SharePoint page as a central location. If units use a wet ink signature, the hardcopy will be maintained by FS/DOT, and a scanned PDF will be sent to 52 OSS/OSOT.

A9.3. (SPANGDAHLEM) The FS/CC, FS/DO, and DOT may make pen and ink changes to the Master LOX.

A9.4. (SPANGDAHLEM) Commander directed decertifications will be tracked on the LOX with a pen and ink change until a new LOX is signed. Additionally, decertifications which place an individual on restricted status will be tracked on the restricted status log. FS/DOT will make the changes to the LOX.
