Sheppard Mishap Reporting Procedures

The key to **MISHAP REPORTING** is timely notification. The AF Form 978, ***Supervisor's Mishap Report*****,** must be filled out for all mishaps, including those that did not require medical attention. Per AFMAN 91-224, the involved/injured personnel's supervisor shall complete the form, route it through the commander, and return it to the installation safety office **within five (5) workdays following notification**. Don't delay reporting if you can't locate an individual. Proceed to the next step.

STEPS:

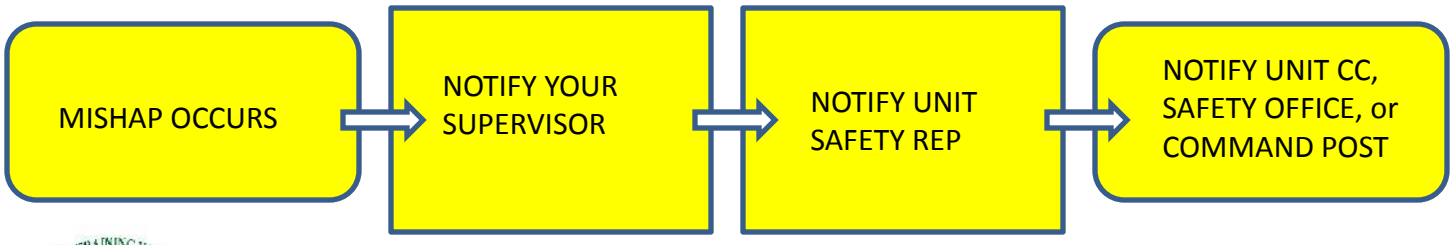

1. If a military person is injured on or off duty, a civilian is injured on duty, or government equipment/property is damaged: **NOTIFY SUPERVISOR IMMEDIATELY**
