CAREER FIELD EDUCATION AND TRAINING PLAN
4D0X1, DIET THERAPY SPECIALTY

PART I

Preface

1. This Career Field Education and Training Plan (CFETP) is a comprehensive education and training document that identifies life-cycle education and training requirements, training support resources, and minimum core task requirements for this specialty and developed in accordance with AFI 36-2670, *Total Force Development*. The CFETP will provide personnel a clear career path to success and will instill rigor in all aspects of career field training. **NOTE:** Civilians occupying associated positions will use Part II to support duty position qualification training.

2. The CFETP consists of two parts. Supervisors plan, manage, and control training within the specialty using both parts of the plan.

2.1. Part I provides information necessary for overall management of the specialty.

2.1.1. Section A – General information explains the purpose of the CFETP and how everyone will use the plan.

2.1.2. Section B – Career Progression and Information identifies career field progression information, duties and responsibilities, training strategies, and career field path.

2.1.3. Section C – Skill Level Training Requirements associates each skill level with specialty qualifications (knowledge, education, experience, training, and other).

2.1.4. Section D – Resource Constraints indicates resource constraints (if any). Some examples are funds, manpower, equipment, and/or facilities.

2.1.5. Section E – Transitional Training identifies transition training guide requirements (if any) for SSgt through MSgt.

2.2. Part II is used by supervisors and trainers at the unit level to identify, plan, and conduct training commensurate with the overall goals of this plan.

2.2.1. Section A – Specialty Training Standards identifies the Specialty Training Standard (STS) and includes duties, tasks, technical references/training references (TRs) to support training, Air Education and Training Command (AETC) conducted training, core tasks, and if used, correspondence course requirements. At the end of each STS is a list of training/technical references (TRs).

2.2.2. Section B – Job Qualification Standards contains any Job Qualification Standard (JQS) tables when SEIs are identified.

2.2.3. Section C – Course Objective List contains information about the Course Objective List (COL) and training standards supervisors will use to determine if an Airman has satisfied training requirements.

2.2.4. Section D – Support Material identifies available support materials. An example is a Qualification Training Package (QTP) that may be developed to support proficiency training requirements.

2.2.5. Section E – Training Course Index identifies a training course index supervisors can use to determine resources available to support training. Included in this section are both

mandatory and optional courses.

2.2.6. Section F – MAJCOM Unique Requirements identifies Major Command (MAJCOM) unique training requirements supervisors can use to determine additional training required for the associated qualification needs. Training for Air Reserve Component (ARC) personnel are identified in this section.

2.2.7. Section G – Documentation of Training outlines the format and documentation required to maintain a MyTraining Record.

3. Using guidance provided in the CFETP will ensure individuals in this specialty receive effective and efficient training at the appropriate points in their career. This plan serves as a training tool to enable our Health Services Managers to accomplish current mission requirements in garrison and during contingency operations.

Abbreviations/Terms Explained

Advanced Nutrition Management and Accounting Course (ANMAC). An in- residence course designed to equip all 4D0X1 personnel with advanced counseling skills for Medical Nutrition Therapy and Operational Nutrition. It also provides financial education and training for Nutritional Medicine personnel working in military treatment facilities.

Advanced Training (AT). A formal course providing individuals who are qualified in one or more positions of their Air Force Specialty (AFS) with additional skills/knowledge to enhance their expertise in the career field. Training is for selected career airmen at the advanced level of the AFS.

Aeromedical Evacuation and Patient Staging Course (AEPSC). The course provides performance-based training for a system overview, Air Force Medical Service (AFMS) doctrine and concept of operations, and operational training for commissioned officer and enlisted personnel assigned to Aeromedical Evacuation (AE) units.

Air Education and Training Command (AETC). Conducts basic training for all Air Force enlisted personnel, produces skilled flying and ground personnel, and trains many of the world's military forces. Along with basic military, technical, and flying training, AETC provides other types of training, such as aircrew transitional, special, advanced, lateral, and survival training.

Air Force Career Development Academy (AFCDA). Authority and responsibility to develop, deliver, and manage all Total Force CDCs and specialized courses in support of the enterprise upgrade training program.

Air Force Career Field Manager (AFCFM). Individual appointed by Headquarters United States Air Force (USAF) for assigned AFS. AFCFMs are responsible for overall management of assigned career field. In addition, they are responsible for development, implementation and maintenance of the Career Field Education and Training Plan (CFETP).

Air Force Job Qualification Standard/Command Job Qualification Standard (AFJQS/CJQS). A comprehensive task list describing a particular job type or duty position. Supervisors use these to document task qualifications. The tasks on AFJQS/CJQS are common to all persons serving in the described duty position.

Air Force Specialty (AFS). A group of positions (with the same title and code) that require common qualifications.

Air Reserve Component (ARC). A component of the Air Force comprised of Air National Guard (ANG) and Air Force Reserve (AFR) units.

Career Development Course (CDC). Self-study paced correspondence courses that provide Airmen with the fundamental knowledge of their AFS. CDCs directly support the Air Force On-the-Job Training (OJT) program and Air Force promotion system.

Career Field Education and Training Plan (CFETP). A CFETP is a comprehensive, multipurpose document encapsulating the entire spectrum of education and training for a career field. It outlines a logical growth plan including training resources and is designed to make career field training identifiable, eliminate duplication, and ensure this training is budget defensible.

Comprehensive Medical Readiness Program (CMRP). Replaced term RSV(P). Designed to ensure deployable personnel are trained in tasks necessary to support Health Response Team. Training/recertification based on assigned Tier.

Continuation Training. Additional training exceeding requirements with emphasis on present or future duty assignments.

Core Task. A task AFCFMs identifies as minimum qualification requirements within an Air Force Specialty Code (AFSC), regardless of duty position.

Course Objective List. A publication, derived from initial/advanced skills course training standard, identifying the tasks and knowledge requirements, and respective standards provided to achieve a 3-5-7-skill level in this career field. Supervisors use the course objective list to assist in conducting graduate evaluations in accordance with DAFMAN 36-2689, *Training Program*.

Developmental Special Duty (DSD). Duties and responsibilities outside of the Nutritional Medicine Flight which Airmen are selected to fill key developmental positions in the Air Force. Positions include Military Training Instructor, Military Training Leader, AF Honor Guard, Airmen Development Advisor, Airman and Military Family Readiness NCO Coordinator, PME Instructor, USAFA Military Training NCO, and Recruiter.

Expeditionary Medical Readiness Course (EMRC). The content of this common training is driven by training requirements listed in DAFI 41-106, Medical Readiness Program Management, and DoDI 1322.24, Medical Readiness Training.

Expeditionary Medical Support-Health Response Team (EMEDS-HRT). Provides field operational training for commissioned officers and enlisted personnel assigned to the Expeditionary Medical Support Health Response Team (EMEDS-HRT) UTCs.

Instructional System Development (ISD). A deliberate and orderly, but flexible process for planning, developing, implementing, and managing instructional systems. It ensures personnel are taught in a cost-efficient way with the knowledge, skills, and attitudes essential for successful job performance. The Air Force ISD model graphically illustrates the process. Evaluation is the foundation of this process. ISD is a continuous process with the flexibility to enter and re-enter various phases as needed to develop, update, or revise instruction. All ISD activities take place within and are dependent upon system functions. Teamwork is required between personnel performing system functions and those designing, developing, and implementing instructional systems. All ISD activities and system functions focus on continuous quality improvements in the system.

Initial Skills Training. A formal resident course resulting in award of the entry level apprenticeship.

Integrated Operational Support (IOS). This Medical support extends into operational environments for missions with special performance requirements or operational health issues. The AFMS is integrated into lifesaving positions, both on and off the battlefield. Technicians will be embedded within these operational units to provide care.

Joint Advanced Nutrition and Dietetics Symposium (JANDS) Course. A self-paced 13-session web-based course, designed to provide wartime skills training for active-duty dietitians and technicians, plus additional relevant topics for in nutrition and service members. This course builds upon foundational knowledge of the clinical, nutrition and performance, force health protection and stability operations skills.

Joint Field Nutrition Operations Course (JFNOC). A nine-day course, for dietitians and technicians from the Army, Navy, and Air Force. Attendees will participate in various scenarios that hone their tactical skills: land navigation, treating casualties, and convoys. Manage medical field feeding and patient services using operational rations and medical supplements. Assess nutritional status of various populations and become familiar with several types of food distribution programs.

MAJCOM Functional Managers (MFM). MFMs are appointed field representatives who provide the most accurate and up-to-date information to enhance decisions made by the AFCFM. In addition, MFMs are command focal points providing guidance, information, and support within command on enlisted issues. Additionally, MFMs are advisors to the Command Surgeon staff on utilization of resources and personnel within the command.

Occupational Analysis Report (OAR). A detailed report showing the results of an occupational survey of tasks performed within a particular AFS.

On-the-Job Training (OJT). Hands-on, over-the-shoulder training conducted to certify personnel in both upgrade (skill level award) and job qualification (duty position certification) training.

Patient Decontamination (DECON). A medical readiness team that provides training for personnel required to provide medical Patient Decontamination training in support of worldwide USAF operations.

Qualification Training (QT). Actual hands-on task performance training designed to qualify an individual in a specific duty position. This portion of the dual channel OJT training program occurs both during and after the upgrade training process. It is designed to provide the performance skills required to do the job.

Resource Constraints. Resource deficiencies, such as money, facilities, time, manpower, and equipment precluding desired training from being delivered.

Skills Training. A formal course resulting in the award of a skill level.

Specialty Training. A mix of formal training (technical school) and informal training (OJT) to qualify and upgrade airmen in the award of a skill level.

Specialty Training Requirements Team. Air Force career field managers use this forum and quality control tool to determine and manage career field education and training requirements.

Specialty Training Standard (STS). An Air Force publication describing skills and knowledge airmen in a particular AFS need on the job. It further serves as a contract between the Air Education and Training Command and the user to show the overall training requirements for an AFSC the formal schools teach.

Total Force. All collective Air Force components (active, reserve, guard, and civilian elements) of the United States Air Force.

Upgrade Training (UGT). Mandatory training leading to attainment of a higher level of job proficiency.

Utilization and Training Workshop (U&TW). A forum of AFSC MAJCOM Functional Managers (MFMs), subject matter experts (SMEs), and AETC training personnel who determine the career ladder training requirements.

Wartime Course. Any course (for officers or enlisted) designed by higher headquarters to be conducted during wartime. Wartime courses are categorized as: 1) courses directed to continue training at the existing student flow to satisfy the training personnel requirement; or 2) courses directed to expand student flow above the training personnel requirement to satisfy wartime training requirements.

Section A – General Information

1. Purpose of the CFETP. This CFETP provides the information necessary for AFCFMs, MFMs, commanders, training managers, supervisors, trainers and the applicable AETC training wing to plan, develop, manage, and conduct an effective and efficient career field training program. This plan outlines training individuals must receive to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, advanced, and proficiency training.

1.1. Initial skills training is the AFS specific training an individual receives upon entry into the Air Force or upon retraining into a specialty. For this AFSC, training is conducted by the Medical Education and Training Campus (METC) at JBSA Fort Sam Houston, TX.

1.2. Upgrade training identifies the mandatory courses, task qualification requirements, and correspondence course completion requirements for award of the 5, 7, and 9-skill levels.

1.3. Qualification Training is actual hands-on task performance training designed to qualify an airman in a specific duty position. This training program occurs both during and after the UGT process. It is designed to provide the performance skills and knowledge required to do the job.

1.4. Advanced training is formal specialty training used for selected Airmen that exceeds initial skills training.

1.5. Proficiency Training is additional training, either in-residence or online web based advanced training courses, or OJT, provided to personnel to increase their skills and knowledge beyond the minimum requirements for upgrade.

1.6. The CFETP also serves the following purposes:

1.6.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field training program. Also, it helps supervisors identify training at the appropriate point in an individual's career.

1.6.2. Identifies task and knowledge training requirements for each skill level in the specialty and recommends education/training throughout each phase of an individual's career.

1.6.3. Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

1.6.4. Identifies major resource constraints that impact full implementation of the desired career field training program.

2. Uses of the CFETP. The plan will be used by MFMs and supervisors at all levels to ensure comprehensive and cohesive training programs are available for everyone in the specialty.

2.1. Each Service branch owns its training requirements. Therefore, in joint effort with designated tri-service representatives, METC personnel will develop and revise formal training requirements and initial skills training to users. Requirements are documented in Part II of the CFETP. AETC training development personnel will develop/revise non-METC courses, non-resident, field, and online training.

2.2. MFMs will ensure their training programs complement the CFETP's mandatory, initial, upgrade, and proficiency requirements. OJT, resident training, contract training, or exportable courses can satisfy identified requirements. MAJCOM-developed training to support this AFS must be identified for inclusion into the plan and must not duplicate existing training.

2.3. Unit Training Managers (UTM) and supervisors manage and control progression through the career field by ensuring members complete the mandatory training requirements for upgrade specified in this CFETP and supplemented by their MAJCOM. The list of courses in Part II will be used as a reference to support training.

3. Coordination and approval of the CFETP. The AFCFM is the approval authority for this CFETP and coordinates through required agencies for ultimate publishing on Air Force e-pubs. In addition, the AFCFM will initiate an annual review of this document to ensure currency and accuracy. MAJCOM representatives and AETC training personnel will identify and coordinate on the career field training requirements. They will submit, through proper channels, initial and subsequent changes to the CFETP.

Section B – Career Field Progression and Information

4. Specialty Description. Performs duties in Nutritional Medicine Service to include procuring, storing, preparing, cooking, baking, and serving regular and therapeutic diets and nourishment. Performs clinical dietetics tasks and procures equipment. Maintains established sanitation, safety, and security standards. Accomplishes supply and subsistence management control and other duties as assigned. When no dietitian is assigned, consults command dietitian. Related DoD Occupational Subgroup: 132500.

4.1. 4D031 Duties and responsibilities

4.1.1. Practices timely, quality fundamentals of food preparation for regular and therapeutic diets, tube feedings, therapeutic-in-flight, and box lunches. Prepares and cooks food items included in regular and therapeutic diets to conform with menus, recipes, and food production worksheets. Portions and selects nourishment for regular and therapeutic diets. Arranges and garnishes foods using available products and equipment. Assembles and disassembles patient trays on food carts in patient tray assembly area. Delivers and returns food carts from nursing units. Cleans and sanitizes food carts, work area, dining area and equipment. Disassembles and

cleans patient tray assembly areas and dining hall serving lines. Standardizes recipes and tests new products. Establishes production controls and standards for quantity and quality of foods. Plans menus according to established patterns. Analyzes reports on baking and cooking activities. Provides field feeding, accountability, sanitation, and layout during disasters or contingencies.

4.1.2. Performs clinical dietetic tasks. Receives and processes diet orders, menus and other directives related to patient care. Assists in writing individual therapeutic diet menus according to established patterns and guidelines. Conducts dietary rounds to interview patients on regular and therapeutic diets to determine satisfaction and food preferences. Completes nutrition screenings and basic level assessments. Weighs patients on initial and follow-up visits, recording the information in the patient's medical record. Obtains, evaluates, and uses dietary history to plan nutritional care. Calculates simple, routine therapeutic diets. Supports community nutrition requirements.

4.1.3. Accomplishes supply and subsistence management control, and other administrative duties. Collects and turns in subsistence and surcharge monies. Completes menu tallies, patient tray service records and workload data. Assists in determining requirements, preparing requisitions and local purchase orders. Receives, verifies, stores and issues foods and supplies from the prime vendor, commissary, and medical logistics. Manages supplies and subsistence. Establishes stock controls, periodic inventories, and thawing procedures. Assists in implementing cost control procedures. Inspects and evaluates facility and equipment for proper maintenance, operation, and use. Monitors quality, quantity, sanitation, safety, and security standards. Practices Quality Management ensuring continuous improvements using metrics. Makes recommendations for corrective actions in effectiveness of the Nutritional Medicine Service operation. Directs, inspects, and evaluates completed work of personnel. Establishes work schedules, work assignments, job descriptions and resolves technical difficulties. Formulates and follows standard operating instructions. Advises dietitian on equipment status, maintenance, and adequacy; personnel training; and operational efficiency and economy. Provides input to the MTF budget. Coordinates nutritional medicine service activities with interrelated or using organizations.

4.1.4. Knowledge. Knowledge is mandatory of food preparation methods; recipe modifications, the metric and customary systems of weights and measures; food chemistry; medical and dietetic abbreviations and terminology relating to food preparation and clinical dietetics; operating preparation and service equipment; sanitation and aseptic techniques and standards; use of Safety Data Sheets; medical ethics; professional and patient relationships; psychology of serving patients; the digestive tract anatomy and physiology; feeding in wartime or disaster contingencies; patient feeding in aeromedical evacuation; measures necessary to protect food from contamination by radiological, chemical and biological agents; food purchasing, storage, preparing, service, merchandising; and managing Nutritional Medicine Service activities; menu planning, patient tray service and dining hall operations, culinary and hospitality, baking, cooking, Medical Nutrition Therapy, and Integrated Clinical Nutrition Service.

4.1.5. Education. For entry into this specialty, completion of high school or equivalent is mandatory. High School or college courses in nutrition, human anatomy and physiology, biology, physical and behavioral sciences are highly recommended.

4.1.6. Training. For award of 4D031, completion of a diet therapy course is mandatory.

4.1.7. Experience. The following experience is mandatory for award of the AFSC indicated:

4.2. 4D051 upgrade requirements. Eligible members to be upgraded to the 5-skill level must be in possession of AFSC 4D031. Members must also have experience in regular and therapeutic diets, menu planning, preparing, cooking, and serving.

4.3. 4D071 upgrade requirements. Qualification in and possession of AFSC 4D051. Members must also have experience supervising functions such as food production, clinical operations, and financial accounting. The following certifications are mandatory:

- **Weight Management**
- **Carbohydrate Counting**
- **Prenatal Care**
- **Heart Healthy**

NOTE: Please contact MAJCOM Functional Manager (MFM) or Career Field Manager (CFM) for details about the above certifications.

4.4. 4D091 upgrade requirements. The 9-skill level is awarded upon promotion to Senior Master Sergeant. Qualification in and in possession of AFSC 4D071. Members must also have experience managing functions such as food production, clinical operations, and financial accounting.

4.4.1 The Senior badge is awarded is awarded to MSgt or above with five years in the specialty from award of the 7-level or 15 years of total military service.

4.5. Other. The following are mandatory as indicated: For award and retention of these AFSCs, must maintain local network access IAW AFI 17-130, Cybersecurity Program Management and AFMAN 17-1301, Computer Security.

4.6. Competencies. The Air Force defines competencies a combination of knowledge, skills, abilities, and other characteristics that manifest in observable and measurable pattern of behaviors required for mission success. The Diet Therapy community has rebuilt the entire training platform by using competencies to identify the behaviors that are needed to be successful on the job. This has been accomplished by identifying and integrating the 4D0X1, Diet Therapy occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides all Airmen with transparent and unbiased pathways towards their own successful development.

4.6.1. Airmen's Foundational Competencies. The foundational competencies are a set of accepted and valued competencies, which enable success across a wide-array of DAF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation. The foundational competencies are grouped into different categories of Developing Self, Developing Others, Developing Ideas, and Developing Organization. Airmen can go to MyVector (accessible via AF Portal) to complete a self-assessment, which will have them evaluate themselves on the 24 Airmen's foundational competencies or a 360-degree assessment, where subordinates, peers, and leaders can also provide feedback. The assessment tools will provide Airmen with immediate feedback on personal strengths and areas for improvement. Additionally, a personal improvement plan with targeted resources (videos, reading content, developmental opportunities) are provided for continued self-development.

Figure 1. Airmen's Foundational Competencies.

4.6.2. Occupational Competencies. Occupational competencies are a set of competencies required of all Airmen within a specific workforce category. These competencies provide a framework that describes the knowledge, skills, abilities, and other characteristics needed to perform that function's mission successfully.

4.6.2.1. Occupational Competency Model. A career field's competencies can be viewed in a competency model, which is an organized collection of competencies pertinent to the career field. The occupational competency model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the Diet Therapy community. The occupational competency modeling process follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, OJT, formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives.

4.6.2.2. Career fields work with trained competency experts to identify and develop their competency model, which consists of the competencies, sub-competencies, and definitions. Occupational competency models will be different for each career field. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery competencies required for Airmen to succeed in their career field.

Competency	Sub-Competency	Sub-Competency Description
Resilience and Human Performance	Inpatient Operations	The ability to provide nutrition services in a clinical environment for admitted patients.
	Outpatient Operations	The ability to provide nutrition services in a clinical environment for individuals with a diagnosed condition and implement programs based on community health needs.
	Culinary & Hospitality	The scientific approach to assess, prepare, deliver, and present therapeutic meals.
Operational Oversight	Personnel Management	The process of organizing, planning, and managing operations.
	Data Analytics	The ability to collect, interpret, analyze, and validate relevant data.
	Resource Management	The process of planning, scheduling, and allocating resources to achieve organizational efficiency.
	Safety	The act of promoting a culture that enforces and maintains safety standards IAW TJC, DOD, and Air Force policy.
Training and Mentorship	Leadership	Genuinely investing in Airmen's personal and professional well-being, while providing guidance, managing risk, nurturing the organizational climate, and empowering others.
	Professional Development	Increasing knowledge, skills, abilities, and emotional intelligence to foster growth in self and others.
	Communication	The effective presentation, promotion, and prioritization of ideas through active listening, clear messaging, and tailoring information to the appropriate audience.
Readiness	Readiness	The preparation and assessment of personnel to perform their full-scope of duties in expeditionary and peacetime operations.
Integrated Clinical Nutrition Service	Integrated Clinical Nutrition Service	The ability to provide nutritional support to warfighters in order to maximize cognitive and physical performance while minimizing illness and injuries within embedded environments.

Figure 2. 4D0X1, Diet Therapy, Occupational Competency Model

4.6.2.3. Occupational Competency Rubric. After a model is developed, a team of subject matter experts begin building competency rubrics, which consists of the competency, a description of the competency, proficiency levels, and measurable and observable behaviors. The competency rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional developmental expectations, and the criteria for success. Figure 3 provides an example of a competency rubric for 4D0X1 career field.

Competency	Proficiency Levels	Observable Behaviors
Resilience and Human Performance	**Expert** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Creates policies for career field to sustain and modernize food science capabilities to enhance readiness - Develops strategies and plans by using key data to create policies to standardize best culinary and hospitality practices - Researches evidence-based culinary methodologies to enhance the patient's nutritional experience
Sub-Competency Culinary & Hospitality	**Advanced** Depth of Knowledge: New practices of all workplace elements	- Implements evidence-based culinary practices to enhance the patient's nutritional experience - Instructs staff on culinary nutrition and education opportunities to enhance patient experience - Schedules and conducts remedial culinary training to enforce therapeutic standards
Description The scientific approach to assess, prepare, deliver, and present therapeutic meals.	**Intermediate** Depth of Knowledge: Established practices of all workplace elements	- Enforces food safety standards to ensure policy requirements (TJC, Tri-Service food code, etc.) are met - Creates inpatient feedback tools to capture satisfaction rates - Consults with registered dietician to modify standardized therapeutic recipes - Performs quality control checks to ensure consistency and accuracy
Supporting Competencies Change Management Decision Making Flexibility Fosters Innovation	**Basic** Depth of Knowledge: Established practice with some workplace elements	- Demonstrates basic food safety practices for meal preparation and delivery - Demonstrates food service equipment safety practices for meal preparation and delivery - Follows standardized therapeutic recipes to ensure uniformity of prescribed meals

Figure 3. 4D0X1, Diet Therapy, Occupational Competency Rubric for Culinary & Hospitality

4.6.2.4. To better understand how to read and utilize the competency rubric, a breakdown of each component is explained below in figure 4a-c.

Competency Resilience and Human Performance	←	The competency section states the competency group.
Sub-Competency Culinary & Hospitality	←	The sub-competency section states the narrower category that forms part of the competency group. **Note:** Some models may only consist of a competency and not include a sub-competency.
Description The scientific approach to assess, prepare, deliver, and present therapeutic meals.	←	The description section provides a statement that gives details about the sub-competency, enabling career field members to better understand how sub-competency relates to the AFS.
Supporting Competencies Change Management Decision Making Flexibility Fosters Innovation	←	The supporting competencies section are supported-level competencies that are linked to the success of the sub-competency. These competencies lend themselves more toward areas like values, traits, and attitudes. These competencies were included as part of a larger survey that went out to the entire AFS; respondents were asked to rate the top supporting competencies they believe will attribute to higher successful performance within the sub-competency.

Figure 4a. Competency Rubric Section 1.

Proficiency Levels	←	The proficiency levels are broken into four parts: basic, intermediate, advanced, and expert. Under each proficiency level are predetermined criteria selected by a group of SMEs from your career field and validated by the career field. The criteria were used as the basis to develop the observable behaviors. These criteria provide concrete parameters for the behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert. Some of the criteria (e.g. depth of knowledge, consistency of application/complexity, and thinking challenge) allows an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to a variety of situations. While other criteria (e.g. scope, impact, and reach of influence) requires more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving
Expert **Depth of Knowledge:** New practices/concepts and theories of all workplace elements; is a credible resource in this area		
Advanced **Depth of Knowledge:** New practices of all workplace elements		
Intermediate **Depth of Knowledge:** Established practices of all workplace elements		

Basic **Depth of Knowledge:** Established practice with some workplace elements		through the proficiency levels may be difficult to do in certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e. at HHQ, Wing, or an organization with far reaching capabilities).

Figure 4b. Competency Rubric Section 2.

Observable Behaviors		
- Creates policies for career field to sustain and modernize food science capabilities to enhance readiness - Develops strategies and plans by using key data to create policies to standardize best culinary and hospitality practices - Research evidence-based culinary methodologies to enhance the patient's nutritional experience		The observable behaviors are statements of what can be observed from an individual manifesting the competency at the respective competency level. They provide objective evidence that the individual possesses the competency level, and shows what effective performance looks like. The behaviors are written to be specific enough so they can be observable and lend themselves towards measurement.
- Implements evidence-based culinary practices to enhance the patient's nutritional experience - Instructs staff on culinary nutrition and education opportunities to enhance patient experience - Schedules and conducts remedial culinary training to enforce therapeutic standards		
- Enforces food safety standards to ensure policy requirements (TJC, Tri-Service food code, etc.) are met - Creates inpatient feedback tools to capture satisfaction rates - Consults with registered dietician to modify standardized therapeutic recipes - Performs quality control checks to ensure consistency and accuracy		
- Demonstrates basic food safety practices for meal preparation and delivery - Demonstrates food service equipment safety practices for meal preparation and delivery - Follows standardized therapeutic recipes to ensure uniformity of prescribed meals		

Figure 4c. Competency Section 3.

4.6.3. Another key component within the rubric is the supporting competencies section at the bottom left-hand corner. These are the top four supporting competencies that can help members excel and be successful in that particular sub-competency. Some of these supporting competencies are tied directly to the Airmen's Foundational Competencies, while others may be unique to the career field. Having these supporting competencies identified and linked to a career field's competency model can cultivate those underlying characteristics needed to succeed on the job. Leaders, supervisors, trainers, instructors, or mentors can now set members up for greater success by building these supporting competencies and placing their Airmen in situations where they can apply those strategies. All of these elements come together to ensure we can develop Airmen who are better prepared, present and future mission focused, and ready to succeed in any situation. Additionally, DAFMAN 36-2643, *Coaching and Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

4.6.4. Competency Development. The intent of moving towards a competency-based system is to sharpen our Airmen's tactical expertise, operational competence, strategic vision, and joint proficiency to lead and execute the full spectrum of USAF missions. This occurs not in a classroom but on the job by combining education, training, and experiences to provide Airmen with a better developmental pathway as they move along their careers. Airmen are still required to complete specific training courses, core tasks, and other training requirements in order to attain a 3-, 5-, and 7-skill levels. Competency development allows Airmen to move beyond the minimum career field requirements and begin addressing developmental gaps and strengthening their capabilities. The information included within the competency model will allow members within the Diet Therapy community to manage their professional growth and development by identifying their strengths and weaknesses against clear and objective behaviors within the competency model.

4.6.5. Below are the competency rubrics for the 4D0X1, Diet Therapy, career field.

Competency	Proficiency Levels	Observable Behaviors
Resilience and Human Performance	**Expert** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Develops and implements training strategies to align with evolving missions - Connects multi-disciplinary teams to eliminate barriers and provide innovative solutions for patient care
Sub-Competency	**Advanced** Consistency of Application: Sustained application of competency over time in complex situations	- Briefs leadership on safety, mission, personnel, and facility concerns that could impact patient care - Develops training on complex diets and drug interaction to eliminate identified gaps - Investigates critical patient concerns and creates corrective action plans for Patient Safety Report (PSR) - Advises remedial training for members who are not able to meet mission requirements
Inpatient Operations		
Description	**Intermediate** Consistency of Application: Sustained application of competency over time in a variety of situations	- Analyzes barrier gaps and prepares required training to develop mission capable Airmen - Identifies high-risk patients by applying evidence-based practices - Leads patient tray operation by ensuring required systems are in place - Conducts training on complex diets (e.g. tube feeding, IDDSI, etc.) and drug interaction to peers and patients for improved health and readiness
The ability to provide nutrition services in a clinical environment for admitted patients.		
Supporting Competencies	**Basic** Consistency of Application: Sustained application of competency over time	- Ensures accurate and timely tray assembly based on diet prescriptions to enhance recovery through nutritional wellness - Reviews and verifies documentation in electronic health systems to achieve desired outcome - Elevates concerns by coordinating with appropriate stakeholders - Modifies meals for consistency as prescribed by medical provider
Accountability Communication Analytical Thinking Decision Making		

Competency	Proficiency Levels	Observable Behaviors
Resilience and Human Performance	**Expert** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Liaises with DHA, MAJCOMs, and civilian industry stakeholders to leverage and advance nutrition evidence-based research - Creates policy for innovative solutions to meet the needs of specific population healthcare demands
Sub-Competency	**Advanced** Depth of Knowledge: New practices of all workplace elements	- Implements new outpatient initiatives (DHA, career field specific, DOD, etc.) to maintain a competitive edge - Synergizes efforts across sphere of influence to maximize access to care and patient experiences
Outpatient Operations		
Description	**Intermediate** Depth of Knowledge: Established practices of all workplace elements	- Analyzes data/builds custom reports (i.e. labs, anthropometric, body composition, etc.) to develop healthcare optimization strategies - Generates reports (HeRO, ASIMS, etc.) to obtain buy-in for targeted care initiatives for high-risk populations
The ability to provide nutrition services in a clinical environment for individuals with a diagnosed condition and implement programs based on community health needs.		
Supporting Competencies	**Basic** Depth of Knowledge: Established practice with some workplace elements	- Educates total force on healthy lifestyle to support mission readiness - Creates schedules and templates for clinic operations - Utilizes nutrition resources to enhance patient care
Analytical Thinking Creative Thinking Flexibility Influence		

Competency	Proficiency Levels	Observable Behaviors
Resilience and Human Performance	**Expert** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Creates policies for career field to sustain and modernize food science capabilities to enhance readiness - Develops strategies and plans by using key data to create policies to standardize best culinary and hospitality practices - Researches evidence-based culinary methodologies to enhance the patient's nutritional experience
Sub-Competency	**Advanced** Depth of Knowledge: New practices of all workplace elements	- Implements evidence-based culinary practices to enhance the patient's nutritional experience - Instructs staff on culinary nutrition and education opportunities to enhance patient experience - Schedules and conducts remedial culinary training to enforce therapeutic standards
Culinary & Hospitality		
Description	**Intermediate** Depth of Knowledge: Established practices of all workplace elements	- Enforces food safety standards to ensure policy requirements (TJC, Tri-Service food code, etc.) are met - Creates inpatient feedback tools to capture satisfaction rates - Consults with registered dietician to modify standardized therapeutic recipes - Performs quality control checks to ensure consistency and accuracy
The scientific approach to assess, prepare, deliver, and present therapeutic meals.		
Supporting Competencies	**Basic** Depth of Knowledge: Established practice with some workplace elements	- Demonstrates basic food safety practices for meal preparation and delivery - Demonstrates food service equipment safety practices for meal preparation and delivery - Follows standardized therapeutic recipes to ensure uniformity of prescribed meals
Change Management Decision Making Flexibility Fosters Innovation		

Competency	Proficiency Levels	Observable Behaviors
Operational Oversight	**Expert** Reach of Influence: MAJCOM/AF-Level/Industry	- Creates, reviews, and routes billet change requests to ensure appropriate skills, ranks, and experience is in place across the MAJCOM for mission accomplishment - Forecasts emerging manpower needs and drafts organizational-level justifications to inform decisions and ensure sufficient manpower for future mission accomplishments - Establishes the creation of Enlisted Development Teams, Career Progression Groups, Joint Manning Boards, or other service-level process improvement teams to ensure equitable adjudication of billet and manpower requests - Schedules STRT, U&TW, BAWG, MFM meetings, strategic working groups to develop the career field
Sub-Competency	**Advanced** Reach of Influence: Wing/Institutional	- Manages inspection and readiness checklist items to ensure compliance - Processes start/stop movement actions of personnel to ensure mission accomplishment - Identifies future manning gaps within assigned work center and initiates and/or recommends COAs to decision makers - Manages and delegates all higher-level taskers for timely completion
Personnel Management		
Description	**Intermediate** Reach of Influence: Unit/Groups	- Equips units with current training and resources to achieve mission readiness while managing and mentoring personnel - Identifies near-term manning gaps within assigned work center and recommends COAs to decision makers - Recommends role placement of assigned personnel to ensure mission accomplishment and guide subordinates' professional development (e.g., primary, additional duties, exercises, deployments, etc.) - Processes access for nutritional medicine personnel to career fields specific management systems to execute readiness and patient care responsibilities
The process of organizing, planning, and managing operations.		
Supporting Competencies	**Basic** Reach of Influence: Individual	- Utilizes educational sources (e.g.DOD, DHA, accredited organizations, Nutritional Medicince Knowledge exchange, etc.) to maintain personal and professional readiness - Seeks feedback/counseling and makes appropriate correction to behavior to maintain good order and disclipine
Accountability Communication Decision Making Develops People		

Competency	Proficiency Levels	Observable Behaviors
Operational Oversight	**Expert** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Recognizes long-term trends to anticipate future challenges associated with the deterrence of advanced competitors - Establishes strategic data-driven policies to ensure relevant data is captured and implement best practices to improve accuracy and quality across the enterprise - Directs strategic nutritional programs to capture relevant data points to synchronize career field and Air Force priorities - Teaches others how to develop systems to organize and track data and improve tactics and strategies
Sub-Competency	**Advanced** Consistency of Application: Sustained application of competency over time in complex situations	- Leverages appropriate data collection techniques by identifying root causes, involving others, and gathering information to rationally weigh all sources in the decision-making process - Conducts data analysis to determine the effectiveness of tactics, training, and plans to support mission requirements
Data Analytics		
Description	**Intermediate** Consistency of Application: Sustained application of competency over time in a variety of situations	- Researches and differentiates collected data in order to provide recommended courses of action and/or solutions to generate new ideas - Coordinates with supporting agencies to identify discrepancies and resolve problems - Applies continuous process improvement principals to address challenges and streamline clinical processes - Compiles and validates manpower, patient, and community health metrics in respective databases for critical analysis and leadership engagement
The ability to collect, interpret, analyze, and validate relevant data.		
Supporting Competencies	**Basic** Consistency of Application: Sustained application of competency over time	- Leverages technology to identify data and information from various sources, systems of record, and repositories to fulfill assigned tasks - Interprets collected data for accuracy, accountability, and usability in order to drive data-driven decisions - Collects and inputs manpower, patient, and community health metrics into respective databases for decision-making and analysis - 'Identifies a problem's complexity to determine course of action (COA)
Analytical Thinking Digital Literacy Communication Decision Making		

Competency	Proficiency Levels	Observable Behaviors
Operational Oversight	**Expert** Scope: Integration with AF-level/within industry	- Reviews and validates budget requirements to advocate for materials, equipment, and funding - Programs and develops performance management tools to determine efficient use of resources - Provides justification for the Planning, Programming, Budgeting, and Execution (PPBE) and Programmed Objective Memorandum (POM) process to fund enterprise requirements
Sub-Competency	**Advanced** Scope: Integration with organizational strategies	- Investigates budget constraint determinants and implements COA to align earnings minus issues with EOY closeout parameters - Executes perpetual and physical inventory procedures/transactions (e.g. reconciliation, end-of-day closeout, etc.)in Computrition system to meet fiscal year constraints - Validate, prioritizes, and deconflicts multiple project requirements based on available financial resources in fiscal year execution plan (ERAA, FINPLAN)
Resource Management		
Description	**Intermediate** Scope: Integration with concerned areas	- Reconciles expense and operating performance data into accounting database to identify budget constraints - Prepares and analyzes resource utilization to justify future requirements - Collaborates with unit resource advisor to secure funding for nutritional medicine operations - Prepares for end of month physical inventory and conducts reconciliation adjustments to prevent disruptions in daily operations
The process of planning, scheduling, and allocating resources to achieve organizational efficiency.		
Supporting Competencies	**Basic** Scope: Specific Area	- Inputs expenses and operating performance data to aid operations budget execution - Identifies materials, equipment, and assets needed to execute mission requirements - Utilizes resources by adhering to applicable rules and regulations (BDFA) - Adheres to supply discipline IAW published policy and guidelines to prevent fraud, waste, and abuse
Accountability Decision Making Digital Literacy Communication		

Competency	Proficiency Levels	Observable Behaviors
Operational Oversight	**Expert** Consistency of application New practices/concept and theories of all workplace elements; is a credible source in this area	- Authors and publishes directives that captures data needed to provide analysis for safety impacts to mission success - Inspects and evaluates occupational safety compliance to ensure adherence to regulations
Sub-Competency	**Advanced** Consistency of Application Sustained application of competency over time in complex situations	- Evaluates and facilitates job safety training outline requirements to ensure personnel and equipment safety - Coordinates with applicable agencies to evaluate and ensure safety compliance (e.g. environmental, occupational, patient safety, etc.)
Safety		
Description	**Intermediate** Consistency of Application Sustained application of competency over time in a variety of situations	- Recognizes and adverts violations for high risk situations - Enforces safety requirements for personnel to ensure risk mitigation through assessment and analysis - Develops and implements a plan of action to resolve discrepancies identified during inspections
The act of promoting a culture that enforces and maintains safety standards IAW TJC, DOD, AND AF policy		
Supporting Competencies	**Basic** Consistency of Application Sustained application of competency over time	- Follows instruction as dictated by written guidance (IC, PH, fire, OSHA) to prevent workplace mishaps and ensure compliance - Identifies and reports safety hazards and mishaps to proper channels and authorities
Accountability Communication Decision Making Influence		

Competency	Proficiency Levels	Observable Behaviors
Training and Mentorship	**Expert** Reach of Influence: Air Force/DOD/Industry	- Creates career field strategic vision to posture for future mission demands and engages with subordinate organizations to develop policy, doctrine, and industry standards - Directs data-driven communication to influence decision-making at the joint service, industry, and international partnership levels
Sub-Competency	**Advanced** Reach of Influence: Installation/MAJCOM	- Interprets and refines higher echelon intent, task, and purpose for the team - Develops subordinates' ability to lead at higher levels to evolve the next generation - Empowers decision-making and innovation across the organization to promote mission effectiveness - Leads through a team of leaders to achieve mission objectives
Leadership		
Description	**Intermediate** Reach of Influence: Unit/Groups	- Aligns nutritional medicine operations with organization mission and vision and senior leader intent - Executes clear and timely decisions to accomplish the mission - Influences peers, subordinates, and leaders to collaborate and conquer tasks - Demonstrates transparency and emotional intelligence to foster trust
Genuinely investing in Airmen's personal and professional well-being, while providing guidance, managing risk, nurturing the organizational climate, and empowering others.		
Supporting Competencies	**Basic** Reach of Influence: Individuals	- Promotes a culture of accountability and encourages peers and subordinates to execute all duties and responsibilities - Executes decisions at the lowest level within defined roles and elevates issues to optimize organizational performance - Demonstrates followership by supporting and executing orders and guidance
Accountability Develops People Fosters Inclusion Flexibility		

Competency	Proficiency Levels	Observable Behaviors
Training and Mentorship	**Expert** Reach of Influence: MAJCOM/AF-Level/Industry	- Utilizes strategic knowledge of Air Force and AFMS to transform functional career paths - Vectors personnel for Key Leadership Positions (KLP), Key Developmental Positions (KDP), and integrated operational support positions by consulting and collaborating with enlisted development teams - Builds a strategic professional development plan to develop future leaders across all tiers
Sub-Competency	**Advanced** Reach of Influence: Wing/Institutional	- Creates opportunities (private, professional) for the advancement of subordinate personnel and ensure mentorship at all levels - Coaches leaders capable of guiding teams to meet goals - Mentors and prepares supervisors to effectively lead teams
Professional Development		
Description	**Intermediate** Reach of Influence: Unit/Groups	- Identifies key skillsets, courses and certifications for positions (e.g. supervisory, soft skills, leadership, communication, military, etc.) for career advancement - Provides team members with developmental opportunities and tools to successfully lead teams, projects and further develop leadership abilities
Increasing knowledge, skills, abilities, and emotional intelligence to foster growth in self and others.		
Supporting Competencies	**Basic** Reach of Influence: Individuals	- Pursues goals and prerequisites outlined within rank and position specifications to align with Air Force career path - Seeks voluntary education opportunities to strengthen capabilities and support Multi-Capable Airmen) MCA initiative - Seeks and consults with mentors on unique opportunities and case by case situations to enhance leadership abilities
Accountability Develops People Fosters Innovation Influence		

Competency	Proficiency Levels	Observable Behaviors
Training and Mentorship	**Expert** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	- Develops messages to senior leadership and other external organizations to convey mission constraints and requirements - Creates original products or communications models to convey complex information with key audiences - Develops communication strategies to produce desired effect across diverse audiences - Coaches, mentors, and guides others to advance strategic communication techniques
Sub-Competency Communication	**Advanced** Consistency of Application: Sustained application of competency over time in complex situations	- Leverages communication strategies and methods to develop effective teams - Creates written and oral communication with facts and references to advise planning and to inform decision making - Responds to impromptu requests and questions in collaborative forums in order to represent mission or organization - Interprets commander's intent and communicates direction to focus mission execution
Description The effective presentation, promotion, and prioritization of ideas through active listening, clear messaging, and tailoring information to the appropriate audience.	**Intermediate** Consistency of Application: Sustained application of competency over time in a variety of situations	- Receives, interprets, or applies the use of information in various situations to create a cohesive work environment - Organizes information from multiple sources into clear, logical, arguments that includes relevant takeaways and or assessments to influence COA development
Supporting Competencies Communication Decision Making Influence Leadership	**Basic** Consistency of Application: Sustained application of competency over time	- Recognizes and employs appropriate communication tools (e.g., emails, video-call, t-con, etc.) to target audiences for given situations - Utilizes all five types of communication (e.g., written, visual, verbal, non-verbal, & active listening) to amplify the message

Competency	Proficiency Levels	Observable Behaviors
Readiness	**Expert** Impact on… AF-level practices/within industry	- Analyzes readiness trends and creates policy and guidance to meet posturing joint readiness requirement - Validates and establishes unit type code requirements based on current and future mission requirements - Conducts site visits to validate that operations are aligned with strategic priorities and Comprehensive Medical Readiness Program (CMRP) requirements - Develops CMRP training tasks to maintain force readiness
Sub-Competency Readiness	**Advanced** Impact on… Management decisions	- Manages equipment and personnel mobilization process to ensure taskings requirements are met while maintaining home station capabilities - Scrutinizes unit personnel readiness requirements to identify deployers that can fulfill tasking needs - Resolves contingency and exercise tasking reclamas and shortfalls with available resources to meet CCDR and AOR requirements
Description The preparation and assessment of personnel to perform their full-scope of duties in expeditionary and peacetime operations.	**Intermediate** Impact on… Specific workplace projects	- Executes equipment mobilization process ensuring all requirement are met - Verifies personnel are equipped with deployment supplies to support mission requirements - Utilizes required information systems (e.g. MRDSS, AHLTA-T, e-DRC, etc.) to meet taskings requirements
Supporting Competencies Resource Management Communication Resilience Flexibility	**Basic** Impact on… Specific workplace tasks	- Maintains world-wide deployable status by completing readiness requirements to meet mission needs - Establishes personal contingency plan for both long-term and short-term absences that ensures family individual readiness - Prepares equipment for mobilization within an assigned tasking while meeting established timelines

Competency	Proficiency Levels	Observable Behaviors
Integrated Clinical Nutrition Service	**Expert** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	- Collaborates with industry, Market Place, MAJCOMs, and DHA to influence nutrition evidence-based research for integrated operational support - Creates policy for innovative solutions to meet the needs of specific population human performance and warfighter demands
Sub-Competency Integrated Clinical Nutrition Service	**Advanced** Depth of Knowledge: New practices of all workplace elements	- Assesses behavior patterns to establish multi-disciplinary approach to preventative care - Liaises with command teams of embedded units to establish focus Lines of Efforts (LOEs) - Establishes follow-up procedures with embedded units to validate targeted intervention
Description The ability to provide nutritional support to warfighters in order to maximize cognitive and physical performance while minimizing illness and injuries within embedded environments.	**Intermediate** Depth of Knowledge: Established practices of all workplace elements	- Establishes relationships with target audience and collaborates with multi-disciplinary teams to optimize operational and expeditionary demands - Tailors wellness interventions to fit the needs of target audience - Creates milestones utilizing the body composition findings to establish continuity of care - Recommends behavioral modifications based on change management theory to increase total force readiness
Supporting Competencies Communication Flexibility Creative Thinking Fosters Innovation	**Basic** Depth of Knowledge: Established practice with some workplace elements	- Acclimates to embedded population to support organizational demands - Utilizes standardized human performance programs and platforms (OPSS, G4G, H2F, MyPlate, etc.) to ensure uniformity, quality of care, and consistent messaging - Utilizes physical and nutrition documentation, and body composition equipment to triage acute injuries and establish wellness goals - Employs resiliency techniques (e.g. RTA, MRT, etc.), to assist in triage and enable warfighters to overcome perceived barriers to nutritional fitness including psycho-social and environmental factors

5. Skill and Career Progression. Training and timely progression from apprentice through the superintendent skill level plays an extremely important role in the Air Force's ability to accomplish the mission. It is essential that everyone involved in training do his or her part to plan, develop, manage, conduct, and evaluate an effective training program. The guidance provided in this part of the CFETP will ensure individuals receive viable training at the appropriate points in their careers. The following narratives, and the AFSC 4D0X1 career field flowcharts, identify the training career path. The career path defines the training required in an individual's career.

5.1. Apprentice (3-level). Initial skill training in this specialty consists of the tasks and knowledge training provided in the 3-skill level resident course located at Joint Base San Antonio (JBSA)-Fort Sam Houston, TX. Initial skills training requirements were identified during the 4D0X1 U&TW held 9-13 July at JBSA-Fort Sam Houston. The decision increases the qualification requirements for entry into the 4D0X1 career field to include high school/college courses is anatomy and physiology, nutrition, and the behavioral sciences. The OAR data, training analysis data, and 4D0X1 SME input revealed that performance task and knowledge training requirements identified in the specialty training standard, supported what individuals must complete to be awarded the 4D031 AFSC.

5.2. Journeyman (5-level). Upgrade training to the 5-skill level in this specialty consists of completing (1) Core tasks and (2) CDC 4D051. Individuals must attend the Airman Leadership School (ALS) prior to promotion to SSgt (E-5). Once upgraded to the 5-skill level, a journeyman will maintain proficiency by completing all continuation training required or specified by command or local policies. 5-skill level should attend the ANMAC as appropriate to assigned duties. Individuals will use their CDCs (and other indicated training references) to prepare for testing and promotion under the Weighted Airman Promotion System (WAPS). They should also

consider continuing their education toward a Community College of the Air Force (CCAF) or College of Allied Health Science (CAHS) degree.

5.3. Craftsman (7-level). Upgrade training to the 7-skill level in this specialty consists of completing: (1) Core tasks (2) CDC 4D071. A Diet Therapy craftsman can be expected to fill various supervisory and management positions within Nutritional Medicine such as Noncommissioned Officer in Charge (NCOIC) of the Nutritional Medicine or a particular section. In addition, they may develop work schedules for subordinate personnel and ensure necessary manning levels are maintained at all times during hours of Nutritional Medicine activity operation. Seven-levels should take courses or obtain added knowledge on management of resources and personnel. When promoted to Technical Sergeant, individuals may be selected to attend the Noncommissioned Officer Academy (NCOA). Membership in Association of Nutrition & Foodservice Professionals is highly encouraged and provides career enhancement and professional development opportunities through completion of annual continuing education hours. Completion of the Senior Noncommissioned Officer Academy (SNCOA) when applicable, and an AU ABC degree program is highly encouraged (per AFH 36-2618).

5.4. Superintendent (9-level). To be awarded AFSC 4D091, an individual must be an E-8, complete requirements specified in Air Force Enlisted Classification Directory (AFECD). A 9-level can be expected to fill positions such as Superintendent of Nutritional Medicine and various staff positions within a medical group. Additional training in the areas of budget, manpower, resources, and personnel management should be pursued through continuing education. Additional higher education and completion of courses outside their career AFSC are also recommended.

6. Training Decisions. The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of training requirements for the 4D0X1 career field. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training.

6.1 The CFETP has undergone a considerable revision towards building a competency-based training and development platform for the Diet Therapy career field. A significant change has been to shift the focus from task-based training to one that is more centered on outcomes-based learning. A task is a unit of work activity or operation which forms a significant part of a duty. These are singular in nature and are usually accomplished in one continuous action, which also can occur independently of other tasks. Conversely, outcomes are learning goals that typically consist of a multitude of tasks. These outcomes are actions and performances that embody and reflect the learner's competence in using content, information, ideas, and tools successfully. Focusing on learning outcomes allow organizations, leaders, supervisors, and trainers to incorporate foundational competencies and underlying characteristics (values, traits, attitudes) into learning, which is necessary for developing Airmen with the competencies needed for future challenges. The following decisions were made as a result of close coordination between HQ AETC, Technical Training, schoolhouse instructors and staff, field SMEs, functional managers and the PW/STRT sought to develop the learning outcomes. This was accomplished by reverse engineering the behaviors found in the Diet Therapy occupational competency model and then by asking what does an Airman need to able to know and do in order to master a specific behavior. The intent of the learning outcomes is to identify all factors needed to succeed in attaining the behavior. Formal training will be codified by using the behavioral statement coding system for the STS as opposed to the proficiency code key. As a result, each line item will

consist of a verb and the coding system for formal training will only use P (performance), K (knowledge), and pk (performance-knowledge).

6.2. The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of training requirements for the Diet Therapy career field. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training. The following decisions were made by a career field STRT held at Fort Sam Houston, TX.

6.3. Initial Skills Training. The initial skills course provides training needed to prepare graduates for nutrition care related positions. All trainees must complete the Diet Therapy Apprentice program. The 3- skill level is awarded upon successful completion of the Diet Therapy Apprentice program.

6.4. Five-Level Upgrade Requirements. Completion of CDCs and core tasks is mandatory before member is eligible for upgrade to the 5-skill level.

6.5. Seven-Level Upgrade Requirements. Members eligible for upgrade to the 7-skill level on or after 3 June 2016 must complete CDCs and core tasks.

6.6. Proficiency Training. Any additional knowledge and skill requirements that were not taught through initial skills or upgrade training are assigned to continuation training. The purpose of the continuation-training program is to provide additional training exceeding the minimum upgrade training requirements with emphasis on present and future duty positions. Individual Nutritional Medicine managers must develop a continuation-training program that ensures individuals in the Diet Therapy career field receive the necessary training at the appropriate point in their career. The training program will identify both mandatory and optional training requirements. The ANMAC is a proficiency training course designed to enhance Diet Therapy personnel's proficiency in Clinical nutrition and financial management.

6.7. Enlisted Deliberate Development. Occurs through the guidance, direction, and execution of Functional Advisory Councils (FAC) and Enlisted Development Teams (EDT). Through FACs and EDTs, enlisted career field leadership executes planning and succession planning to ensure Air Force specialties are effectively equipped, developed, and sustained to provide the required capabilities to accomplish the mission. Succession planning is the responsibility of EDTs and entails identifying Key Developmental Positions (KDPs), and Key Leadership Positions (KLPs).

6.8. The CFETP Part II identifies twelve (12) sub-competencies. Each competency is further broken down into the following proficiency levels; basic, intermediate, advanced, and expert. The proficiency levels are not tied to a specific rank or position. Additionally, each occupational competency has supporting competencies tied to them. The supporting competencies can allow Airmen to intentionally develop those transferrable underlying characteristics that will translate to mission capabilities, mission readiness, and mission success for the agile, future thinking Airmen. Airmen, supervisors, trainers, mentors, and leaders should look for opportunities to integrate the supporting competencies into every facet of an Airman's development as they seek to gain and increase proficiency within the 4D0X1 competencies.

6.9. Enlisted Development Team (EDT). Provide vectors based on projected (or anticipated) aggregated requirements by grade, level, and position type. A vector is an EDT's collective

recommendation for an experience level, training or education opportunity, or position type for an Airman's next or subsequent assignment. EDTs ensure a career field's senior leadership becomes familiar with Airmen assigned to their functional area and assesses Airmen's qualifications and potential for future opportunities. EDTs must be executed in the most cost-efficient manner possible. This includes taking full advantage of remote capabilities, conducting EDTs in conjunction with other scheduled meetings, and minimizing the need for AFPC support and resources to execute EDTs. The D-Prefix denotes all Key Developmental Positions (KDPs) and Key Leadership Positions (KLPs).

6.9.1. KDPs. Are used to complement leadership qualifications. These positions are utilized to provide experience necessary for KLPs that may not be gained through the normal assignment system.

6.9.2. KLPs. Are defined as a unique, "no-fail" position with distinguishing responsibilities and education, training, experience, or performance requirements that cannot be realized through normal progression planning and may not be prevalent in most of the career field.

7. Certifications and degree requirements: Diet Therapy Personnel must hold at least the journeyman (5) level at the time of program completion.

NOTE: Currently short 5 hours on initial skills; working on developing a degree plan.

7.1. Uniformed Services University of the Health Sciences College of Allied Health Science (USUHS CAHS). Effective 28 May 2019 Diet Therapy Personnel with an apprentice (3) level graduation date of 18 July 2019 or later will obtain an Associate's in Nutrition via CAHS.

7.1.1. Degree Requirements: Contact your Base Education Office or Career Field Manager for the most current degree guidance.

7.1.2. Technical Education (24 Semester Hours): A minimum of 12 semester hours of Technical Core subjects/courses must be applied and the remaining semester hours from Technical Core/Technical Elective subject/courses. Requests to substitute subjects/courses must be approved in advance by the Services Branch at CCAF CAHS**.**

7.1.3. Leadership, Management, and Military Studies (LMMS) (6 Semester Hours): Professional military education and/or management courses. The preferred method of completing Leadership, Management, and Military Studies is through attendance at an ALS, NCOA, and/or SNCOA. However, civilian courses that emphasize fundamentals of managing human or material resources may also be applicable.

7.1.4. Physical Education (4 Semester Hours): This requirement is satisfied by completion of BMT.

7.1.4. General Education (15 Semester Hours): This requirement is satisfied by application of courses accepted in transfer or by testing credit.

7.1.5. Program Elective (15 Semester Hours): The Program Elective requirement is satisfied with applicable Technical Education; Leadership, Management, and Military Studies; or General Education subjects/courses, including natural sciences courses meeting General Education requirements application criteria. Six semester hours of CCAF degree-applicable technical credit otherwise not applicable to the program may be applied.

7.2. Professional Certifications: Certifications assist the professional development of our Airmen by broadening their knowledge and skills. Additionally, specific certifications may be awarded collegiate

credit by CCAF and civilian colleges. To learn more about professional certifications and certification programs offered by CCAF, visit http://www.au.af.mil/au/barnes/ccaf/certifications.asp. In addition to its associate degree program, CCAF offers the following certification programs and resources. Certifications assist the professional development of our Airmen by broadening their knowledge and skills. Additionally, specific certifications may be awarded collegiate credit by CCAF and civilian colleges. To learn more about professional certifications and certification programs offered by CCAF, visit https://www.airuniversity.af.edu/Barnes/CCAF/ In addition to its associate degree program, CCAF offers the following certification programs and resources.

7.3. CCAF Instructional Systems Development (ISD) Certification Program. CCAF offers the ISD Certification Program for qualified curriculum developers and managers who are formally assigned at CCAF-affiliated schools to develop and manage CCAF collegiate courses. The ISD Certification is a professional credential that recognizes the curriculum developer's or manager's extensive training, education, qualifications, and experience required to develop and manage CCAF courses. The certification also recognizes the individual's ISD qualifications and experience in planning, developing, implementing, and managing instructional systems.

7.4. Off-duty education Off-duty education is a personal choice encouraged for all. Individuals desiring to become an AETC Instructor should be actively pursuing an associate degree. A degreed faculty is necessary to maintain accreditation through the Southern Association of Colleges and Schools. Two Air Force education program offering are AU ABC and AF COOL, programs eligible for 4D0X1 are:

Certified Dietary Manager, Certified Food Protection Professional (CDM, CFPP): The Prometric, Certified Professional Food Manager (CPFM) is a flexible, comprehensive certification program designed to help ensure product quality, safety, and business continuity. CPFM is designed for any person or business operating in the food service industry. There are no eligibility requirements to sit for the exam. The exam covers the topics of principles of food safety, foodborne illness, food safety education, facilities and equipment, integrated pest management, and food safety regulations.

The Commission on Dietetic Registration (CDR), Dietetic Technician, Registered (DTR): certification is designed for entry-level dietetic technicians who have been trained in food and nutrition. DTRs work independently or as a team member under the supervision of registered dietitians in a variety of employment settings, including health care, business and industry, community/public health, foodservice and research. Candidates must meet education and training requirements. Candidates must pass a written exam. The Commission on Dietetic Registration (CDR), Dietetic Technician, Registered (DTR) certification is designed for entry-level dietetic technicians who have been trained in food and nutrition. DTRs work independently or as a team member under the supervision of registered dietitians in a variety of employment settings, including health care, business and industry, community/public health, foodservice and research. Candidates must meet education and training requirements. Candidates must pass a written exam.

Food Safety Manager Certification: The National Registry of Food Safety Professionals (NRFSP), Food Safety Manager Certification (FSMC) is designed to evaluate the knowledge and skills of entry-level food managers. Targeted at restaurant and commercial food service managers, wait staff, chefs, bartenders and cooks, this certification is an essential part of promoting food safety culture. Candidates must pass a written exam.

Certified Associate in Project Management (CAPM): The Project Management Institute (PMI), Certified Associate in Project Management (CAPM) is an entry-level certification for

project practitioners and project team members who wish to demonstrate the knowledge of project management. Designed for those with less project experience, the CAPM demonstrates an understanding of the fundamental knowledge, terminology, and processes of effective project management such as initiation, planning, executing, monitoring, and controlling, closing, and professional and social responsibility. Candidates must meet educational requirements. Candidates must pass a written exam.

7.4.1. Percipio is a robust, on-line, self-development tool that is free and available to active duty, guard, and reserve military personnel as well as Department of the Air Force civilian employees 24/7. It contains a large, searchable collection of free on-line courses, books, simulations, and other e-learning resources for your self-development -- whenever and wherever you have the need and time. https://usaf.percipio.com

8. Career Field Path.

8.1. The 4D0X1 Career shows general rank requirements for each training and career progression area. See Figures 8.1, 8.2, and 8.3 regarding the enlisted career path, progression, and position opportunities.

Education And Training Requirements	**Grade Requirements**		
	Rank	Average Promotion	Earliest Sew-on
Basic Military Training School			
Apprentice Technical School (3-Skill Level)	Amn A1C	6 Months 16 Months	
Upgrade To Journeyman (5-Skill Level) Complete all duty position training requirements. Certification of all core tasks and duty position requirements. CDC 4D051	Amn A1C SrA	3 Years	22 Months
Airman Leadership School (ALS) Must be a SrA with 48 months' time in service or be a SSgt select. Resident graduation is a prerequisite for SSgt sew-on (AD Only).			
Upgrade To Craftsman (7-Skill Level) Minimum rank of SSgt. Complete all duty position training requirements. Certification of all core tasks and duty position requirements. CDC 4D071		4 Years	3 Years
Noncommissioned Officer Academy (NCOA) Must be a TSgt or TSgt-select. Resident graduation is a prerequisite for MSgt sew-on (AD Only).	TSgt MSgt	11.5 Years 15 Years	5 Years 8 Years
USAF Senior NCO Academy Correspondence Must have completed NCOA in residence (AD Only). **USAF Senior NCO Academy (SNCOA)** - Must be a SMSgt or SMSgt select; Selected MSgts also eligible. Completion is a prerequisite for SMSgt sew-on (AD Only).			
Upgrade To Superintendent (9-Skill Level) - Minimum rank of SMSgt.	SMSgt	19.5 Years	11 Years
Chief Enlisted Manager (4D000) Selected for promotion to CMSgt. Developmental Education.	CMSgt	23 Years	14 Years

Figure 8.1. The Enlisted Career Path

8.2. Career Field Path for Reserve and Guard Members. The enlisted education and training path shadows the active-duty requirements for the ranks of SrA and below. The ranks SSgt to MSgt are achieved through availability of authorized positions on the unit manning document (UMD). There are opportunities to receive promotion one grade above the authorized position designated on the UMD.

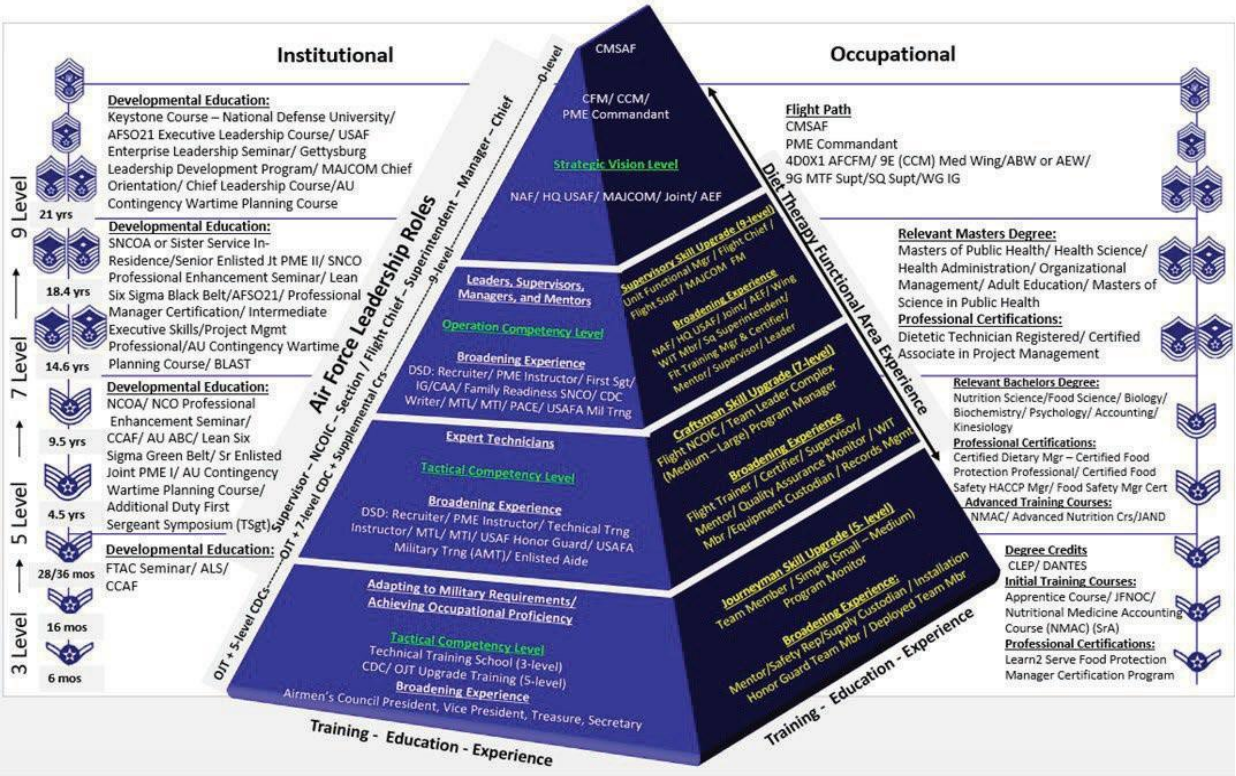

Figure 8.2. Diet Therapy Force Development Pathway

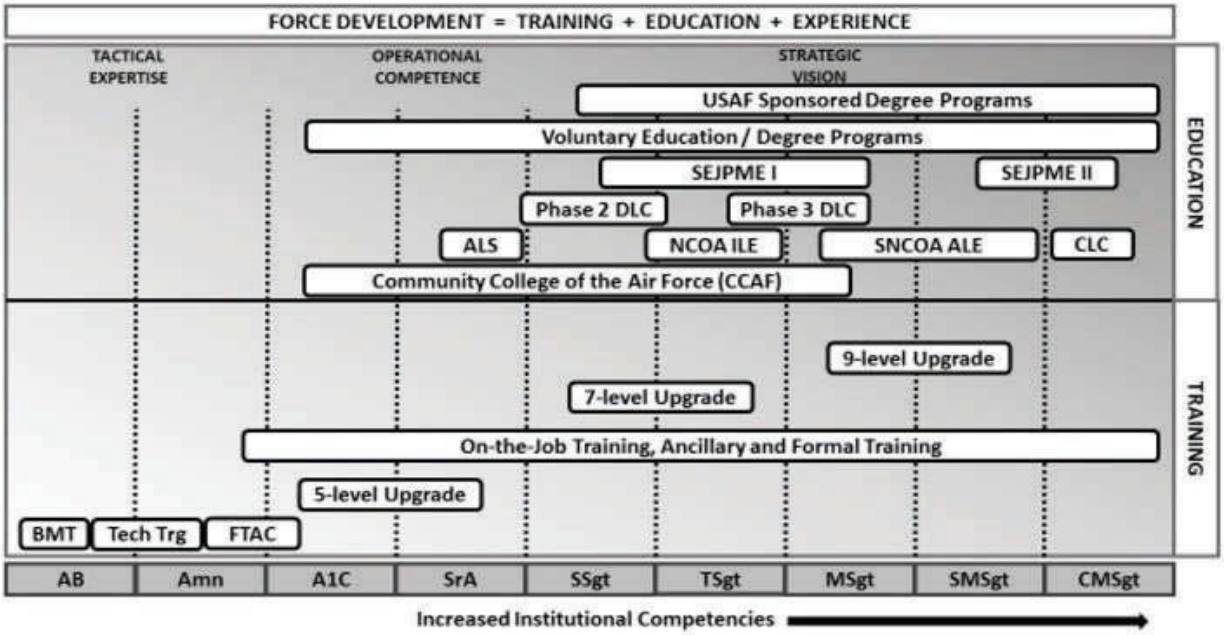

Figure 8.3. Diet Therapy Force Development Pathway

9. Nutritional Medicine Annual Awards Program.

9.1. Purpose: As a member of the Nutrition and Diet Therapy career field, outstanding performance and professionalism can be rewarded with a nomination for the USAF Diet Therapy Airman of the Year and Diet Therapy NCO of the Year Award. The award, authorized by DAFMAN 36-2806, *Military Awards: Criteria and Procedures*, recognizes significant off duty contributions, outstanding duty performance, and exceptional professionalism in diet therapy.

9.2. Nomination Process: The office of primary responsibility for the enlisted awards program is the Diet Therapy AFCFM. AF/SG1 solicits nominees for all awards by means of a message distributed no later than 1 August of the current calendar year typically. The awards are for achievements during a 12-month period between October through September.

9.3. Eligibility: All Diet Therapy enlisted personnel in the grades of Amn through TSgt including members of the ANG and AFR are eligible to compete. Members can only win once in each category.

9.4. Award Categories:

9.4.1. USAF Diet Therapy Airman of the Year: Nominees must be in the grade range of AB through SrA.

9.4.2. USAF Diet Therapy NCO of the Year: Nominees must be in the grade range of SSgt through TSgt.

9.4.3. Criteria: Individual nominations must include specific facts that clearly distinguish the nominees from their peers citing examples during the award period only. An electronic AF 1206, *Nomination for Award*, will be submitted for each individual nominated unless otherwise noted. Use current guidance updated annually on the Knowledge Exchange.

Section C – Skill Level Training Requirements

10. Purpose. Skill level training requirements in this career field are defined in terms of task and knowledge requirements. This section outlines the specialty qualification requirements for each skill level in broad, general terms and establishes the mandatory requirements for entry, award, and retention of each skill level. The specific task and knowledge training requirements with technical/training references are identified in the STS at Part II, Sections A of this CFETP.

11. Specialty Qualification. The various skill levels in the Diet Therapy career fields are defined in terms of tasks and knowledge proficiency requirements for each skill level. They are stated in broad general terms and establish the standards of performance. Unit work centers must develop a structured training program to ensure the following requirements are met. All specialty requirements are listed in the AFECD.

11.1. Apprentice Level Training:

11.1.1. Knowledge. Knowledge is mandatory of food preparation methods; standardized recipes; garnishing and serving techniques; baking terms and techniques; metric system of weights and measures; food science; normal and therapeutic nutrition; medical terminology and abbreviations relating to food preparation and clinical dietetics; operating food service equipment; sanitation and aseptic techniques; digestive tract anatomy and physiology; measures to protect food from contamination by radiological, biological, and chemical agents; and outpatient clinical nutrition.

11.1.2. Education. For entry into this specialty, completion of high school or equivalent is mandatory. High School or college courses in nutrition, human anatomy and physiology, biology, physical and behavioral sciences are highly recommended.

11.1.3. Training. Completion of the resident Diet Therapy Apprentice Course program L5ABJ4D031 01AA or L5ABJ4D031 01AB is mandatory for the award of the 3-skill level AFSC.

11.1.4. Experience. Not used.

11.1.5. Training Sources/Resources. Completion of the resident Diet Therapy Apprentice Course at JBSA-Fort Sam Houston satisfies the training requirements specified in the specialty qualification section (above) for award of the 3-skill level. A list of all training courses is in Part II, Section C of this CFETP.

11.1.6. Implementation. Entry into 3-skill level training is accomplished by new accessions upon graduation from BMT. Another avenue is by approved retraining from any AFSC at the 5-skill level or higher (or 3-skill level if no 5-skill level exists; must be a SrA or higher, and be interviewed by the base education, classification and training, and career field personnel). The Diet Therapy program is a resident course requiring mandatory attendance. There is no proficiency advancement through the basic course. After graduation, job qualification training starts when an individual is assigned to their first duty position. Thereafter, it is initiated anytime an individual is assigned duties they are not qualified to perform.

11.2. Journeyman Level Training:

11.2.1. Specialty Qualification. All 4D031 qualifications apply for the 4D051 requirements.

11.2.2. Knowledge. Knowledge is mandatory of food preparation methods; subsistence ordering, issuing and storage controls; cashier procedures; progressive cooking techniques; patient tray assembly procedures; individual and bulk nourishment preparation; patient screening to assess nutrition risks, obtain food preferences, allergies, and intolerances.

11.2.3. Education. Not used.

11.2.4. Training. Not used.

11.2.5. Experience. Prior qualification as a Diet Therapy Apprentice is mandatory. Experience is mandatory in food production, patient tray service, and in/outpatient clinical dietetics.

11.2.6. Training Sources/Resources. Completion of CDC Z4D051, *Diet Therapy Journeyman*, satisfies the knowledge requirements specified in the specialty qualification section (above) for award of the 5-skill level. The STS identifies all the core tasks required for qualification. Qualified trainers using available resources provide upgrade and qualification training. Training courses are listed in Part II, **Section C** of the CFETP. Completion of the ANMAC is encouraged upon award of the 5-skill level or as required by assigned duties.

11.2.7. Implementation. The 4D051 AFSC is awarded when:

(1) An individual possesses AFSC 4D031.

(2) Completes 5-level UGT, the amount of time is at the discretion of the supervisor.

(3) Completes all STS core tasks specified in the STS.

(4) Completes the current 5-level CDC for this AFSC.

(4) Be recommended by the supervisor and approved by the unit commander according to AFMAN 36-2100, *Military Utilization and Classification*. Qualification training is initiated anytime members are assigned duties they are not qualified to perform.

NOTE: CDC Z4D051 is used concurrently to obtain necessary duty position qualifications.

11.3. Craftsman Level Training:

11.3.1. Specialty Qualifications. All 4D051 qualifications apply to the 4D071 requirements.

11.3.2. Knowledge. Knowledge is mandatory of menu writing; scheduling personnel; cost center budgeting; completing routine therapeutic diet consultations and performing advanced level nutritional assessments.

11.3.3. Education. Not used.

11.3.4. Training. Not used.

11.3.5. Experience. Prior qualification as a Diet Therapy Journeyman is mandatory. Experience is required in menu writing; scheduling personnel; cost center budgeting; completing routine therapeutic diet consultations, performing inpatient and outpatient advanced level nutritional assessments to be awarded the 7-skill level.

11.3.6. Training Sources/Resources. Completion of CDC Z4D071, *Diet Therapy Craftsman*, satisfies the knowledge requirements specified in the specialty qualification section for award of the 7-skill level. The STS identifies all the tasks required for qualification. Qualified trainers using available resources provide upgrade and qualification training. Training courses are listed in Part II, **Section C** of the CFETP. Completion of the ANMAC is highly encouraged upon award of the 7-skill level or as required by assigned duties.

11.3.7. Implementation. The 4D071 AFSC is awarded when:

(1) An individual possesses AFSC 4D051.

(2) Completes 7-level UGT, the amount of time is at the discretion of the supervisor.

(3) Completes all STS core tasks specified in the STS.

(4) Completes the current 7-level CDC for this AFSC.

(5) Be recommended by the supervisor and approved by the unit commander according to AFMAN 36-2100, *Military Utilization and Classification*. Qualification training is initiated anytime members are assigned duties they are not qualified to perform.

11.4. Superintendent Level Training.

11.4.1. Specialty Qualifications. All 4D071 qualifications apply to the 4D091 requirements.

11.4.2. Knowledge. Knowledge of overall administrative, logistical, managerial, and nutritional operations is mandatory.

11.4.3. Education. Not used.

11.4.4. Training. Not used.

11.4.5. Experience. Prior qualification as a Diet Therapy Craftsman is mandatory.

11.4.6. Training Sources/Resources. The STS identifies all the core tasks required for qualification in the individual's duty position. Qualified trainers provide upgrade and qualification training.

11.4.7. Implementation. Entry into upgrade training is initiated when an individual possesses the 7- skill level and is a SMSgt selectee or higher. Qualification training is initiated anytime an individual is assigned duties they are not qualified to perform.

Section D – Resource Constraints

12. Purpose. This section identifies known resource constraints, which preclude optimal/desired training from being developed or conducted, including information such as cost and manpower. Narrative explanations of each resource constraint and an impact statement describing what effect each constraint has on training are included. Also included in this section are actions required, office of primary responsibility, and target completion dates. Resource constraints will be, as a minimum, reviewed and updated annually.

12.1. Apprentice Level Training: There are no resource constraints.

12.2. Five Level Training: There are no resource constraints.

12.3. Seven Level Training: There are no resource constraints.

Section E – Transitional Training Guide

There is currently no transitional training guide. This area is reserved.

PART II

Section A – Specialty Training Standard

1. Implementation. This STS will be used for technical training provided by AETC beginning in Month Year.

2. Purpose. As prescribed in DAFMAN 36-2689, *Training Program*. These STS documents include columns as follows:

2.1. Column 1. Task, Knowledge, and Technical Reference. These are most common tasks, knowledge, and Training References (TRs) necessary for Airmen to perform duties in the 3-, 5-, and 7-skill level. Number task statements sequentially (i.e., 1.1, 1.2, 2.1). For the purposes of this CFETP, the term "technical reference" is synonymous with "training reference".

2.2. Column 2.

2.2.1. 2A. Behavior Match. Connects each training requirement to specific behaviors from the occupational competency model. For ease of use, the relevant competency behaviors from the competency models are numbered and included in each STS section sub-header. This helps to identify how the training received directly contributes to developing the knowledge, skills, and abilities expected within the AFSC.

2.2.2. 2B. Core Tasks. Identifies any specialty-wide training requirements for 5 or 7 skill level, and if the task must be certified when signed off.

2.3. Column 3. Certification for OJT. These columns are used to record completion of tasks and knowledge training requirements. Use the automated myLearning system to formally document technician qualifications.

2.4. Column 4. Proficiency codes used to indicate training/information provided. These are the formal training and correspondence course requirements for this specialty. These columns show the proficiency (by skill level and course) to be demonstrated on the job by the graduate, based on training on the task/subject knowledge listed in the STS.

3. Qualitative Requirements. Before each STS, this table contains the proficiency code key used to indicate the level of training and knowledge provided by resident training, career development courses, and other courses.

4. Documentation. Use the myTraining site to document all technician qualifications. Document and certify completion of training. As a minimum, complete the following columns in Part 2 of the CFETP: Training start date (day, month, and year), training complete date (day, month, and year), Trainee Initials, Trainer Initials, and Certifier Initials (when required).

4.1. Transcribing to new CFETP. Transcribing documentation to a new CFETP is an administrative function, not a reevaluation of training. Upon publication of a new CFETP, transcribe in accordance with DAFI 36-2670.

4.2. Documenting Career Knowledge. The supervisor identifies STS technical/training references that the trainee requires for career knowledge and ensures, as a minimum, that trainees cover the mandatory items in DAFI 36-2670.

4.3. Decertification and Recertification. When a supervisor determines an Airmen is unqualified on a task previously certified for his or her duty position, the supervisor deletes certification. Appropriate remarks pertaining to the reason for decertification are entered on the

AF Form 623a, *On-The-Job Training Record Continuation Sheet*. Refer to DAFI 36-2670. Begin recertification if required.

4.4. Performance Standard. Tasks are trained and qualified to the "Go" level.

5. Promotion Testing. The STS is a guide for development of promotion tests used in the Weighted Airman Promotion System. Senior Noncommissioned Officers with extensive practical experience in their career fields develop Specialty Knowledge Tests (SKTs). The tests sample knowledge of STS subject matter areas judged by test development team members as most appropriate for promotion to higher grades. Questions are based upon study references listed in the *Enlisted Promotions Reference and Requirements Catalog*.

6. Recommendations. Identify inadequacies and recommend changes to this training standard through channels at 59 TRG/TGE, 2931 Harney Road, Fort Sam Houston, TX 78234-7674 or use the Customer Service Information Line (DSN 420-1080; Commercial (210) 808-1080) to report your findings.

BY ORDER OF THE SECRETARY OF THE AIR FORCE

OFFICIAL

JOHN J. DEGOES
Lieutenant General, USAF, MC, FS
Surgeon General of the Air Force

QUALITATIVE REQUIREMENTS

Behavioral Statement STS Coding System	
Code	**Definition**
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze, or evaluate the subject
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the filed requirements for speed and accuracy.
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles, and operational theory for the task.
-	No training provided in the course or CDC.
X	Training is required but not provided due to limitations in resources.
NOTES	* Performance and knowledge tasks with an asterisk (*) in column 2B are trained during war time ^ This mark is used in column 2B to indicate the task must be certified when signed off.
Each STS element is written as a behavioral statement. The detail of the statement and verb selection reflects the level of training provided by resident training and career development courses.

1. RESILIENCE AND HUMAN PERFORMANCE													
1.1. INPATIENT OPERATIONS **Description:** The ability to provide nutrition services in a clinical environment for admitted patients. **Supporting Competencies:** *Accountability, Communication, Analytical Thinking, Decision Making*													
1.1.1. Inpatient Operations (Basic) **Required Behaviors:** 1) Ensures accurate and timely tray assembly based on diet prescriptions to enhance recovery through nutrition wellness. 2) Reviews and verifies documentation in electronic health systems to achieve desired outcome. 3) Elevates concerns by coordinating with appropriate stakeholders. 4) Modifies meals for consistency as prescribed by medical provider. **Criteria:** *Consistency of Application: Sustained application of competency over time*													
1.1.1.1. Gather cold food items based off of tally	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.2. Prepare hot foods with diet restrictions	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.3. Verify and check temperatures	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.4. Operate applicable patient tray delivery system	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.5. Place appropriate non-consumables on tray	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.6. Evaluate Diet Order in electronic health system and verify in current nutrition database (e.g., computrition)	**2**	**5***						**pk**	**-**	**-**	**pk**	**-**	**-**
1.1.1.7. Navigate and update current nutrition database (e.g., computrition, PSR)	**2**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.1.1.8. Verify diet orders, cultural food preferences, and likes, dislikes, and allergies (LDA)	**2**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**

1.1.3.10. Correct trend deficiencies for PSR	**3**							**-**	**-**	**-**	**pk**	**-**	**Pk**
1.1.3.11. Identify personnel training deficiencies	**4**							**-**	**-**	**-**	**-**	**-**	**-**
1.1.3.12. Provide personalized retraining as needed	**4**							**-**	**-**	**-**	**-**	**-**	**-**
1.1.4. Inpatient Operations (Expert) Required Behaviors: 1) Develops and implements training strategies to align with evolving missions. 2) Connects multi-disciplinary teams to eliminate barriers and provide innovative solutions for patient care. **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*													
1.1.4.1. Forecast training needs based on mission requirements (i.e. RTA/MRT)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.1.4.2. Collaborate with supervisors on development of training plans	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**Pk**
1.1.4.3. Communicate across multiple agencies (Joint Ops, MFRC, etc.) to ensure DHA vision and mission priorities are met	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.1.4.4. Collaborate with dietitian to standardize inpatient care process	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2. OUTPATIENT OPERATIONS **Description:** The ability to provide nutrition services in a clinical environment for individuals with a diagnosed condition and implement programs based on community health needs. **Supporting Competencies:** *Analytical Thinking, Creative Thinking, Flexibility, Influence*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level

	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.2.2. Outpatient Operations (Intermediate) **Required Behaviors:** 1) Analyzes data/builds custom reports (i.e. labs, anthropometric, body composition, etc.) to develop healthcare optimization strategies. 2) Generates reports (HeRO, ASIMS, etc.) to obtain buy-in for targeted care initiatives for high-risk populations. **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*													
1.2.2.1. Analyze data points to build program strategies	**1**	**5**						**pk**	**-**	**-**	**pk**	**-**	**-**
1.2.2.2. Present optimized strategies to convey impact of mission effectiveness	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.2.3. Generate reports that provides value to installation	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.2.4. Analyze health system reports (AZIMUTH, PHA, ASIMS, etc.)	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.2.5. Advocate services offered that significantly impacts the DoD	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.2.6. Partner with internal and external agencies to provide nutritional services	**2**	**5**						**pk**	**-**	**-**	**-**	**-**	**-**
1.2.3. Outpatient Operations (Advanced) **Required Behaviors:** 1) Implements new outpatient initiatives (DHA, career field specific, DOD, etc.) to maintain a competitive edge. 2) Synergizes efforts across sphere of influence to maximize access to care and patient experiences. **Criteria:** *Depth of Knowledge: New practices of all workplace elements*													
1.2.3.1. Interpret DHA, career field specific, and DoD mission and vision priorities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.3.2. Collaborate with outside agencies to remain relevant on nutritional practices	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**-**
1.2.3.3. Seek best practices to align outpatient initiatives with DoD priorities	**1**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.2.3.4. Utilize a measurement tool to determine program effectiveness	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.3.5. Analyze data measured to determine parameters	**2**	**7**						**-**	**-**	**-**	**-**	**-**	**Pk**
1.2.3.6. Develop an after-action report to improve outpatient practices	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.4. Outpatient Operations (Expert) Required Behaviors: 1) Liaises with DHA, MAJCOMs, and civilian industry stakeholders to leverage and advance nutrition evidence-based research 2) Creates policy for innovative solutions to meet the needs of specific population healthcare demands **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*													
1.2.4.1. Coordinate with POCs in appropriate area of expertise	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.4.2. Provide recommendations for areas of improvement	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.2.4.3. Develop and revise standardized processes (MDGI, MFR's, OI's, etc.)	**2**	**7**						**-**	**-**	**-**	**-**	**-**	**Pk**
1.2.4.4. Determine if there is a positive correlation in data upon the new processes being implemented	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3. CULINARY & HOSPITALITY **Description:** The scientific approach to assess, prepare, deliver, and present therapeutic meals. **Supporting Competencies:** *Change Management, Decision Making, Flexibility, Fosters Innovation*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.3.1. Culinary and Hospitality (Basic) Required Behaviors: 1) Demonstrates basic food safety practices for meal preparation and delivery. 2) Demonstrates food service equipment safety practices for meal preparation and delivery. 3) Follows standardized therapeutic recipes to ensure uniformity of prescribed meals. **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*													
1.3.1.1. Navigate tri-service food code to perform duties	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.2. Receive and inspect subsistence from designated vendors to ensure safety and quality control	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.3. Properly store subsistence according to FIFO and storage procedures	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.4. Adhere to thawing procedures	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.5. Cook subsistence items to appropriate internal temperatures	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.6. Ensure holding temperatures are within appropriate range	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.7. Reheat subsistence to proper temperature	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.8. Practice personal hygiene	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.9. Communicate with PTS line to provide requested food items	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.10. Ensure food preparation is in accordance with therapeutic meals	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.11. Communicate patient tally needs to include special modifications (allergies, religious, and preferences)	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.12. Issue, receive, and sign-out appropriate items from storeroom	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.13. Follow safety practices when utilizing equipment	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.1.14. Address food safety preparation concerns (critical control points)	**2**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.3.1.15. Break down the line and use appropriate sanitizing solution	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.1.16. Adhere to cross contamination protocols	**2**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.1.17. Identify food preparation terms	**3**	*****						**K**	**-**	**-**	**-**	**-**	**-**
1.3.1.18. Follow recipe cards	**3**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.2. Culinary and Hospitality (Intermediate) **Required Behaviors:** 1) Enforces food safety standards to ensure policy requirements (TJC, Tri-Service food code, etc.) are met. 2) Creates inpatient feedback tools to capture satisfaction rates. 3) Consults with registered dietitian to modify standardized therapeutic recipes. 4) Performs quality control checks to ensure consistency and accuracy. **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*													
1.3.2.1. Conduct walk through checks and perform corrective actions	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.2.2. Review policies that identify food safety standards	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.2.3. Develop patient satisfaction feedback tools	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.2.4. Review satisfaction surveys for potential process improvements	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.2.5. Identify modifications of complex diets	**3**	**5***						**K**	**-**	**-**	**pk**	**-**	**-**
1.3.2.6. Consult with dietitian to modify therapeutic meals	**3**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.2.7. Validate patient tray assembly to ensure diet constraints are met	**4**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
1.3.2.8. Schedule quality control inspections as needed	**4**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.3.3. Culinary and Hospitality (Advanced) **Required Behaviors:** 1) Implements evidence-based culinary practices to enhance the patient's nutritional experience 2) Instructs staff on culinary nutrition and education opportunities to enhance patient experience 3) Schedules and conducts remedial culinary training to enforce therapeutic standards **Criteria:** *Depth of Knowledge: New practices of all workplace elements*													
1.3.3.1. Utilize credible resources (ADA, NCM, Computrition, etc.) to modify patient nutritional needs	**1**							**pk**	**-**	**-**	**-**	**-**	**-**
1.3.3.2. Enhance food and tray presentation (garnish, color usage, plating techniques, etc.)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.3.3. Research culinary medicine industry best practices	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.3.4. Provide in-service training	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.3.5. Develop training based on competency deficiencies	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.3.6. Create culinary training schedule to boost culinary competency	**3**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.3.7. Coordinate with experts to provide remedial instruction	**3**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.4. Culinary & Hospitality (Expert) **Required Behaviors:** 1) Creates policies for career field to sustain and modernize food science capabilities to enhance readiness. 2) Develops strategies and plans by using key data to create policies to standardize best culinary and hospitality practices. 3) Researches evidence-based culinary methodologies to enhance the patient's nutritional experience. **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
1.3.4.1. Integrate evidence based culinary food science into 4D practices to enhance readiness	**1**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.4.2. Develop standardization to create relevant culinary policies	**2**							**-**	**-**	**-**	**-**	**-**	**-**
1.3.4.3. Lead working groups to align with mission readiness	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2. OPERATIONAL OVERSIGHT													
2.1. PERSONNEL MANAGEMENT **Description:** The process of organizing, planning, and managing operations. **Supporting Competencies:** *Accountability, Communication, Decision Making, Develops People*													
2.1.1. Personnel Management (Basic) **Required Behaviors:** 1) Utilizes educational sources (e.g. DOD, DHA, accredited organizations, Nutritional Medicine Knowledge exchange, etc.) to maintain personal and professional readiness. 2) Seeks feedback/counseling and makes appropriate correction to behavior to maintain good order and discipline **Criteria:** *Reach of Influence: Individual*													
2.1.1.1. Attain nutrition-related certifications related to meet mission objectives	**1**	**5***						**P**	**-**	**-**	**pk**	**-**	**-**
2.1.1.2. Maintain self-readiness status	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.1.3. Seek-out opportunities to increase section efficiencies	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.1.4. Apply active listening techniques in feedback sessions	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.1.5. Create goals to adjust actions based on feedback session	**2**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.1.2. Personnel Management (Intermediate) **Required Behaviors:** 1) Equips units with current training and resources to achieve mission readiness while managing and mentoring personnel 2) Identifies near-term manning gaps within assigned work center and recommends COAs to decision makers 3) Recommends role placement of assigned personnel to ensure mission accomplishment and guide subordinates' professional development (e.g., primary, additional duties, exercises, deployments, etc.) 4) Processes access for nutritional medicine personnel to career fields specific management systems to execute readiness and patient care responsibilities **Criteria:** *Reach of Influence: Unit/Groups*												
2.1.2.1. Determine resources required for training and development needs	**1**							-	-	-	-	-	-
2.1.2.2. Navigate force management systems to assist personnel in resolving issues or answering questions (Air Force Portal, MyFSS, vMPF, MyVector, etc.)	**1**	**7**						-	-	-	-	-	-
2.1.2.3. Collaborate with internal and external agencies to assist Airmen with personal challenges (e.g., humanitarian, assignment allocations, or applicable programs)	**1**							-	-	-	-	-	-
2.1.2.4. Review manpower source documents to identify current and future manning capabilities	**2**	**7**						-	-	-	-	-	-
2.1.2.5. Utilize UMD and UPMR to align work center personnel	**2**	**7**						-	-	-	-	-	-
2.1.2.6. Elevate matters to leadership concerning manning constraints	**2**							-	-	-	-	-	-
2.1.2.7. Evaluate work center performance and determine training and development requirements for personnel	**3**							-	-	-	-	-	-
2.1.2.8. Provide continuous feedback to personnel for growth	**3**							-	-	-	-	-	-

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.1.2.9. Collaborate with other sections to mitigate qualification shortfalls to execute readiness and patient care responsibilities	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.2.10. Process required documents in management systems (MRDSS, Genesis, etc.)	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**-**
2.1.3. Personnel Management (Advanced) **Required Behaviors:** 1) Manages inspection and readiness checklist items to ensure compliance. 2) Processes start/stop movement actions of personnel to ensure mission accomplishment. 3) Identifies future manning gaps within assigned work center and initiates and/or recommends COAs to decision makers. 4) Manages and delegates all higher-level taskers for timely completion. **Criteria:** *Reach of Influence: Wing/Institutional*													
2.1.3.1. Review applicable policies and regulations impacting career field readiness	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.2. Provide continued guidance and education to subordinate units on different areas of improvement	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.3. Inspect unit to ensure organizations are compliant	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.4. Allocate personnel across the organization to meet mission requirements	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.5. Assign personnel roles into key duty positions	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.6. Project for and request additional support to mitigate personnel shortage	**3**							**P**	**-**	**-**	**-**	**-**	**-**
2.1.3.7. Coordinate with manpower office to address manning imbalances (e.g., ACR/MCR)	**3**							**P**	**-**	**-**	**-**	**-**	**-**
2.1.3.8. Leverage metrics to justify manpower requirements	**3**							**P**	**-**	**-**	**-**	**-**	**-**
2.1.3.9. Calculate projected shortfalls in a timely manner	**3**							**P**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.1.3.10. Prioritize higher level taskers to meet deadlines	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.3.11. Delegate higher level taskers to subordinates/subordinate units as appropriate	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4. Personnel Management (Expert) Required Behaviors: 1) Creates, reviews, and routes billet change requests to ensure appropriate skills, ranks, and experience is in place across the MAJCOM for mission accomplishment. 2) Forecasts emerging manpower needs and drafts organizational-level justifications to inform decisions and ensure sufficient manpower for future mission accomplishments. 3) Establishes the creation of Enlisted Development Teams, Career Progression Groups, Joint Manning Boards, or other service-level process improvement teams to ensure equitable adjudication of billet and manpower requests. 4) Schedules STRT, U&TW, BAWG, MFM meetings, strategic working groups to develop the career field. **Criteria:** *Reach of Influence: MAJCOM/AF-Level/Industry*													
2.1.4.1. Seek resolution with appropriate manpower or personnel office	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.2. Coordinate with assignment functional manager to mitigate manning shortfalls	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.3. Validate requirements for manpower study to address mission shortfalls	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.4. Analyze manpower data to initiate changes to authoritative source	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.5. Project manpower resources to meet future strategic requirements	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.6. Develop strategy with empirical data to advocate for manpower, training, and resources	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
2.1.4.7. Engage with equity stakeholders to resolve resource challenges	**3**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.1.4.8. Establish and schedule career field strategic working groups for development	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.1.4.9. Identify strategic gaps and develops improvement plan to strengthen the career field	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.2. DATA ANALYTICS **Description:** The ability to collect, interpret, analyze, and validate relevant data. **Supporting Competencies:** *Analytical Thinking, Digital Literacy, Communication, Decision Making*													
2.2.1. Data Analytics (Basic) **Required Behaviors:** 1) Leverages technology to identify data and information from various sources, systems of record, and repositories to fulfill assigned tasks. 2) Interprets collected data for accuracy, accountability, and usability in order to drive data-driven decisions. 3) Collects and inputs manpower, patient, and community health metrics into respective databases for decision-making and analysis. 4) Identifies a problem's complexity to determine course of action (COA). **Criteria:** *Consistency of Application: Sustained application of competency over time*													
2.2.1.1. Identify authorized data source needed for data collection	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.2. Utilize various data sources, systems of record, and repositories to fulfill RFI's (Request for Information)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.3. Validate collected data for accuracy, accountability, and usability in order to drive data driven decisions	**2**	**5**						**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.4. Measure aggregated data for accuracy and changes from previous versions (compare before and after results)	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.5. Compile raw data to influence decision making	**3**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.2.1.6. Aggregate and organize data into defined formats	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.7. Utilize problem solving methods to determine severity of possible issues	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.1.8. Develop a course of action	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2. Data Analytics (Intermediate) **Required Behaviors:** 1) Researches and differentiates collected data in order to provide recommended courses of action and/or solutions to generate new ideas. 2) Coordinates with supporting agencies to identify discrepancies and resolve problems. 3) Applies continuous process improvement principles to address challenges and streamline clinical processes. 4) Compiles and validates manpower, patient, and community health metrics in respective databases for critical analysis and leadership engagement. **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*													
2.2.2.1. Review, analyze, and interpret information in order to solve challenges	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.2. Compare collected data against historical records to identify trends	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.3. Develop a COA based on trend analysis	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.4. Collaborate with appropriate agencies for resolutions of needs analysis	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.5. Reassess program effectiveness at designated time periods	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.6. Translate queries to determine if actionable initiatives are applicable	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.7. Identify systemic causes of data collection errors	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.8. Validate collected information to satisfy queries	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.2.9. Report results to appropriate agencies to assist with data-driven decisions	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.2.3. Data Analytics (Advanced) **Required Behaviors:** 1) Leverages appropriate data collection techniques by identifying root causes, involving others, and gathering information to rationally weigh all sources in the decision- making process. 2) Conducts data analysis to determine the effectiveness of tactics, training, and plans to support mission requirements. **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*													
2.2.3.1. Utilize extrapolated data to influence COA development	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.3.2. Develop reports to enable data driven decisions	**1**							**-**	**-**	**-**	**pk**	**-**	**-**
2.2.3.3. Lead team through stages of development (5 stages of team development)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.3.4. Interpret highly technical data requirements into plain language	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.2.3.5. Analyze health database report (HERO Report, BCM, AZIMUTH, etc.) to inform leadership	**2**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.2.4. Data Analytics (Expert) **Required Behaviors:** 1) Recognizes long-term trends to anticipate future challenges associated with the deterrence of advanced competitors. 2) Establishes strategic data-driven policies to ensure relevant data is captured and implement best practices to improve accuracy and quality across the enterprise. 3) Directs strategic nutritional programs to capture relevant data points to synchronize career field and Air Force priorities. 4) Teaches others how to develop systems to organize and track data and improve tactics and strategies. **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*													
2.2.4.1. Forecast mission requirements to determine future posture of 4D community	**1**							-	-	-	-	-	-
2.2.4.2. Increase awareness of new trends	**1**	**7**						-	-	-	-	-	-
2.2.4.3. Determine second and third order effects of issues based on historical data records	**1**	**7**						-	-	-	-	-	-
2.2.4.4. Establish policies based on directives (DHA, CFM, DoD, etc.)	**2**							-	-	-	-	-	-
2.2.4.5. Collaborate across the career field to streamline processes	**2**	**7**						-	-	-	-	-	-
2.2.4.6. Interpret career field mission and standardizes battle rhythm throughout the year	**3**							-	-	-	-	-	-
2.2.4.7. Standardize open lines of communication across the area of responsibility	**3**							-	-	-	-	-	-
2.2.4.8. Conduct in-service training to improve tactics and strategies	**4**							-	-	-	-	-	-
2.2.4.9. Define and disseminate new data collection and analysis processes across the enterprise	**4**							-	-	-	-	-	-

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.3. RESOURCE MANAGEMENT **Description:** The process of planning, scheduling, and allocating resources to achieve organizational efficiency. **Supporting Competencies:** *Accountability, Decision Making, Digital Literacy, Communication*													
2.3.1. Resource Management (Basic) **Required Behaviors:** 1) Inputs expenses and operating performance data to aid operations budget execution. 2) Identifies materials, equipment, and assets needed to execute mission requirements. 3) Utilizes resources by adhering to applicable rules and regulations (BDFA). 4) Adheres to supply discipline IAW published policy and guidelines to prevent fraud, waste, and abuse. **Criteria:** *Scope: Specific Area*													
2.3.1.1. Notify chain of command when resources (funds, PAR levels) fall below mission requirements	**1**	**5**						**-**	**-**	**-**	**-**	**-**	**-**
2.3.1.2. Input expense data into appropriate spreadsheets (MEPRS, workload, survey, etc.)	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
2.3.1.3. Identify resources required to execute mission	**2**							**K**	**-**	**-**	**-**	**-**	**-**
2.3.1.4. Perform cost analysis on potential resources needed	**2**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
2.3.1.5. Find BDFA	**3**	**5**						**P**	**-**	**-**	**-**	**-**	**-**
2.3.1.6. Update subsistence pricing in computrition	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
2.3.1.7. Follow policies and guidelines to prevent FWA	**4**							**K**	**-**	**-**	**pk**	**-**	**-**
2.3.1.8. Interpret financial reports/requirements to align with mission needs	**4**	**7**						**K**	**-**	**-**	**-**	**-**	**K**
2.3.1.9. Maintain file plan	**4**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.1.10. Perform cash control duties	**3**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.3.2. Resource Management (Intermediate) **Required Behaviors:** 1) Reconciles expense and operating performance data into accounting database to identify budget constraints 2) Prepares and analyzes resource utilization to justify future requirements 3) Collaborates with unit resource advisor to secure funding for nutritional medicine operations 4) Prepares for end of month physical inventory and conducts reconciliation adjustments to prevent disruptions in daily operations **Criteria:** *Scope: Integration with concerned areas*													
2.3.2.1. Identify resource shortfalls	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.2.2. Validate accounting spreadsheet	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.2.3. Prepare FY financial plan	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.2.4. Execute plate waste protocols	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.2.5. Complete mock inventory	**3**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
2.3.2.6. Request funding for food, supplies, TDYs,	**3**							**K**	**-**	**-**	**-**	**-**	**-**
2.3.2.7. Conduct inventory management	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
2.3.2.8. Reconcile inventory	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
2.3.2.9. Forecast future subsistence requirements based on previous cycle overage	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.2.10. Collaborate with GPC card holder and RA to inquire about funding availability	**3**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.3.3. Resource Management (Advanced) **Required Behaviors:** 1) Investigates budget constraint determinants and implements COA to align earnings minus issues with EOY closeout parameters 2) Executes perpetual and physical inventory procedures/transactions (e.g. reconciliation, end-of-day closeout, etc.) in Computrition system to meet fiscal year constraints 3) Validate, prioritizes, and deconflicts multiple project requirements based on available financial resources in fiscal year execution plan (ERAA, FINPLAN) **Criteria:** *Scope: Integration with organizational strategies*													
2.3.3.1. Validate monthly and EOY inventories to ensure parameters are achieved	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.3.2. Plan and execute COAs after identifying shortages in certain areas	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.3.3. Perform perpetual and physical inventories	**2**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.3.4. Develops strategy to advocate manpower, training, and resources	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.3.5. Executes and creates recommendations for FIN plan	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.3.6. Forecast and request additional equipment requirements during ERAA boards	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.4. Resource Management (Expert) **Required Behaviors:** 1) Reviews and validates budget requirements to advocate for materials, equipment, and funding 2) Programs and develops performance management tools to determine efficient use of resources 3) Provides justification for the Planning, Programming, Budgeting, and Execution (PPBE) and Programmed Objective Memorandum (POM) process to fund enterprise requirements **Criteria:** *Scope: Integration with AF-level/within industry*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.3.4.1. Validate excess asset turn in	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.4.2. Validate current inventory listing for accuracy	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.3.4.3. Analyze inventory reports for discrepancy trends	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.4.4. Develop management programs to track effectiveness of appropriated resources	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.4.5. Advocate for 4D priorities into POM processes	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.3.4.6. Collaborate across MAJCOMs to assess and prioritize requirements	**3**							**-**	**-**	**-**	**-**	**-**	**-**
2.4. SAFETY **Description:** The act of promoting a culture that enforces and maintains safety standards IAW TJC, DOD, and Air Force policy. **Supporting Competencies:** *Accountability, Communication, Decision Making, Influence*													
2.4.1. Safety (Basic) **Required Behaviors:** 1) Follows instruction as dictated by written guidance (IC, PH, fire, OSHA) to prevent workplace mishaps and ensure compliance. 2) Identifies and reports safety hazards and mishaps to proper channels and authorities. **Criteria:** *Consistency of Application: Sustained application of competency over time*													
2.4.1.1. Recognize IC, PH, Fire, OSHA guidelines	**1**	*****						**K**	**-**	**-**	**K**	**-**	**-**
2.4.1.2. Execute SDS binder requirements	**1**	**5***						**pk**	**-**	**-**	**pk**	**-**	**-**
2.4.1.3. Complete fire safety training	**1**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
2.4.1.4. Complete AF form 55	**1**	**5***						**pk**	**-**	**-**	**pk**	**-**	**-**
2.4.1.5. Complete EOD security checklist	**1**	**5***						**pk**	**-**	**-**	**pk**	**-**	**-**
2.4.1.6. Apply appropriate PPE and safety techniques	**1**	**5***						**pk**	**-**	**-**	**pk**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.4.1.7. Report mishaps, problems, injuries	**2**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
2.4.1.8. Recognize HAZMAT identifiers on labels	**2**	*****						**K**	**-**	**-**	**K**	**-**	**-**
2.4.2. Safety (Intermediate) **Required Behaviors:** 1) Recognizes and adverts violations for high risk situations 2) Enforces safety requirements for personnel to ensure risk mitigation through assessment and analysis 3) Develops and implements a plan of action to resolve discrepancies identified during inspections **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*													
2.4.2.1. Identify and mitigates safety hazards within workcenter	**1**	**5**						**P**	**-**	**-**	**pk**	**-**	**-**
2.4.2.2. Initiate work order for facility and equipment to ensure safe working environment	**1**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
2.4.2.3. Obtain and maintain hazardous material documentation (SDS)	**2**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
2.4.2.4. Validate and coordinate requirements for daily operations	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.2.5. Ensure TJC safety requirements IAW DOD guidelines	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.4.2.6. Implement corrective actions from inspection findings (TJC, Public Health, MICT, pest control, etc.)	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**-**
2.4.3. Safety (Advanced) **Required Behaviors:** 1) Evaluates and facilitates job safety training outline requirements to ensure personnel and equipment safety 2) Coordinates with applicable agencies to evaluate and ensure safety compliance (e.g. environmental, occupational, patient safety, etc.) **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*													
2.4.3.1. Implement TJC safety requirements IAW DOD guidelines	**1**							**-**	**-**	**-**	**-**	**-**	**pk**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
2.4.3.2. Create annual training plan	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
2.4.3.3. Create, maintain, and update required appointment letters	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.3.4. Coordinate with safety, fire, facilities management	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.4. Safety (Expert) **Required Behaviors:** 1) Authors and publishes directives that captures data needed to provide analysis for safety impacts to mission success. 2) Inspects and evaluates occupational safety compliance to ensure adherence to regulations. **Criteria:** *Consistency of application: New practices/concept and theories of all workplace elements; is a credible source in this area*													
2.4.4.1. Coordinate and collect feedback for training	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
2.4.4.2. Innovate and formulate training materials	**1**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.4.3. Communicate and participate in working groups to transform policies and directives	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.4.4. Coordinate food vulnerability assessment with appropriate agency	**2**							**-**	**-**	**-**	**-**	**-**	**-**
2.4.4.5. Update AFMAN to reflect current safety guidance (e.g. OSHA, HAZMAT, etc.) to support field operations	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3. TRAINING AND MENTORSHIP													
3.1. LEADERSHIP **Description:** Genuinely investing in Airmen's personal and professional well-being, while providing guidance, managing risk, nurturing the organizational climate, and empowering others. **Supporting Competencies:** *Accountability, Develops People, Fosters Inclusion, Flexibility*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.1.1. Leadership (Basic) **Required Behaviors:** 1) Promotes a culture of accountability and encourages peers and subordinates to execute all duties and responsibilities. 2) Executes decisions at the lowest level within defined roles and elevates issues to optimize organizational performance. 3) Demonstrates followership by supporting and executing orders and guidance. **Criteria:** *Reach of Influence: Individuals*													
3.1.1.1. Provide direction, guidance, and clarity on leadership responsibilities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.2. Build network and partnerships to improve team effectiveness	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.3. Apply Airmen competencies as outlined in the enlisted force structure	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.4. Utilize all forms of feedback to enhance professional and personal goals	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.5. Communicate strategic alignment of organization's mission, vision and priorities	**2**							**-**	**-**	**-**	**-**	**-**	**pk**
3.1.1.6. Compare and contrast joint integration roles	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.7. Utilize Air Force resources to maximize personal and peer readiness	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.8. Identify leadership and followership responsibilities	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.1.9. Support leadership decisions and direction	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2. Leadership (Intermediate) **Required Behaviors:** 1) Aligns nutritional medicine operations with organization mission and vision and senior leader intent. 2) Executes clear and timely decisions to accomplish the mission. 3) Influences peers, subordinates, and leaders to collaborate and conquer tasks. 4) Demonstrates transparency and emotional intelligence to foster trust. **Criteria:** *Reach of Influence: Unit/Groups*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.1.2.1. Foster buy-in by communicating leadership vision and intent	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
3.1.2.2. Actively support Comprehensive Airmen Fitness (CAF) priorities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.3. Incorporate leadership vision into tasks, assignments, and execution	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
3.1.2.4. Take multiple perspectives into account and evaluate feasibility and risks	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.5. Apply time management strategies	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.6. Identify and resolves issues within the workcenter	**3**							**-**	**-**	**-**	**-**	**-**	**pk**
3.1.2.7. Promote workcenter where members are empowered to communicate interpersonal issues	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.8. Professionally up channel issues outside the sphere of influence	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.9. Advocate for personnel development opportunities (e.g., exercise opportunities, education, deployments)	**4**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.2.10. Incorporate morale events for networking and team opportunities	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
3.1.2.11. Proactively engage with team members to foster professional relationships	**4**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.3. Leadership (Advanced) **Required Behaviors:** 1) Interprets and refines higher echelon intent, task, and purpose for the team. 2) Develops subordinates' ability to lead at higher levels to evolve the next generation. 3) Empowers decision-making and innovation across the organization to promote mission effectiveness. 4) Leads through a team of leaders to achieve mission objectives. **Criteria:** *Reach of Influence: Installation/MAJCOM*													
3.1.3.1. Consider alternative courses of action to align with current nutritional medicine mission	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.3.2. Apply critical thinking skills to meet mission objectives	**1**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.1.3.3. Develop strategy and obtain resources to support future mission and vision requirements	**2**							**-**	**-**	**-**	**-**	**-**	**pk**
3.1.3.4. Identify talent management opportunities for professional development across the organization	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.3.5. Make and support difficult or unpopular decisions	**3**	**5**						**pk**	**-**	**-**	**pk**	**-**	**pk**
3.1.3.6. Communicate strategic decision making	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
3.1.3.7. Enable and promote innovative environment across the organization	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.3.8. Evaluate personal and professional competencies and abilities when assigning projects/tasks and creating teams	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
3.1.3.9. Apply stress management techniques when confronted in challenging situations	**4**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.4. Leadership (Expert) **Required Behaviors:** 1) Creates career field strategic vision to posture for future mission demands and engages with subordinate organizations to develop policy, doctrine, and industry standards. 2) Directs data-driven communication to influence decision-making at the joint service, industry, and international partnership levels. **Criteria:** *Reach of Influence: Air Force/DOD/Industry*													
3.1.4.1. Leverage and communicate current capabilities towards traditional and non-traditional career broadening opportunities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.4.2. Assess and advise on educational and developmental products relevant to career broadening	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.4.3. Direct and distribute best practices to enhance work center efficiencies and personnel development	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.1.4.4. Build partnerships to strengthen career field	**2**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.2. PROFESSIONAL DEVELOPMENT **Description:** Increasing knowledge, skills, abilities, and emotional intelligence to foster growth in self and others. **Supporting Competencies:** *Accountability, Develops People, Fosters Innovation, Influence*													
3.2.1. Professional Development (Basic) **Required Behaviors:** 1) Pursues goals and prerequisites outlined within rank and position specifications to align with Air Force career path. 2) Seeks voluntary education opportunities to strengthen capabilities and support Multi- Capable Airmen (MCA) initiative. 3) Seeks and consults with mentors on unique opportunities and case by case situations to enhance leadership abilities. **Criteria:** *Reach of Influence: Individuals*													
3.2.1.1. Conduct personal assessment (SWOT, 4 Lenses, Personality test, etc.)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.2. Identify leadership and followership responsibilities	**1**							**K**	**-**	**-**	**pk**	**-**	**-**
3.2.1.3. Review and uphold military standards (Enlisted Force Structure, the Profession of Arms: Our Core Values, etc.)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.4. Utilize CFETP to determine career development and broadening opportunities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.5. Build a collective network to improve team effectiveness	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.6. Interpret own thought processes before responding, seek guidance as appropriate	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.7. Seek professional development opportunities	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.8. Leverage peer to peer opportunities to cross talk and share information	**3**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.2.1.9. Collaborate with mentor to explore personal and professional growth opportunities	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.1.10. Identify and utilize chain of command	**3**	**5**						**pk**	**-**	**-**	**-**	**-**	**-**
3.2.1.11. Differentiate between chain of command and area of responsibility	**3**							**K**	**-**	**-**	**-**	**-**	**-**
3.2.2. Professional Development (Intermediate) **Required Behaviors:** 1) Identifies key skill sets, courses and certifications for positions (e.g. supervisory, soft skills, leadership, communication, military, etc.) for career advancement. 2) Provides team members with developmental opportunities and tools to successfully lead teams, projects and further develop leadership abilities. **Criteria:** *Reach of Influence: Unit/Groups*													
3.2.2.1. Identify available resources to increase skill sets	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.2.2. Communicate organization's mission, vision, and priorities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.2.3. Provide continuous feedback for personnel development	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.2.4. Promote developmental opportunities to cultivate growth	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.2.5. Interpret organizational indicators that impact unit cohesiveness and mission effectiveness	**2**							**K**	**-**	**-**	**-**	**-**	**-**
3.2.2.6. Build partnerships to improve team effectiveness	**2**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.2.3. Professional Development (Advanced) **Required Behaviors:** 1) Creates opportunities (private, professional) for the advancement of subordinate personnel and ensure mentorship at all levels. 2) Coaches leaders capable of guiding teams to meet goals. 3) Mentors and prepares supervisors to effectively lead teams. **Criteria:** *Reach of Influence: Wing/Institutional*													
3.2.3.1. Advocate for private organizations	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.3.2. Encourage Professional Military Education and other developmental courses	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.3.3. Promote active membership in internal and external organizations that provide growth opportunities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.3.4. Leverage process improvement techniques to generate ideas	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.3.5. Analyze and utilize partnerships to optimize mission performance	**2**							**pk**	**-**	**-**	**-**	**-**	**-**
3.2.3.6. Promote personal resiliency (e.g., mental, spiritual, physical, social)	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.3.7. Foster trust and open communication	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.4. Professional Development (Expert) **Required Behaviors:** 1) Utilizes strategic knowledge of Air Force and AFMS to transform functional career paths. 2) Vectors personnel for Key Leadership Positions (KLP), Key Developmental Positions (KDP), and integrated operational support positions by consulting and collaborating with enlisted development teams. 3) Builds a strategic professional development plan to develop future leaders across all tiers. **Criteria:** *Reach of Influence: MAJCOM/AF- Level/Industry*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.2.4.1. Utilize teams and working groups to align career field mission, vision, and priorities	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.4.2. Develop and incorporate new competencies into career field	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
3.2.4.3. Participate in enlisted development teams to recognize strengths and leverage experience	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.4.4. Provide feedback to members based on vectoring and IOS results	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.2.4.5. Seek to improve use of Airmen through deliberate talent management	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.3. COMMUNICATION **Description:** The effective presentation, promotion, and prioritization of ideas through active listening, clear messaging, and tailoring information to the appropriate audience. **Supporting Competencies:** *Communication, Decision Making, Influence, Leadership*													
3.3.1. Communication (Basic) **Required Behaviors:** 1) Recognizes and employs appropriate communication tools (e.g., emails, video-call, t-con, etc.) to target audiences for given situations. 2) Utilizes all five types of communication (e.g., written, visual, verbal, non-verbal, and active listening) to amplify the message. **Criteria:** *Consistency of Application: Sustained application of competency over time*													
3.3.1.1. Utilize software applications (e.g. PowerPoint and Excel) to analyze data and create presentations	**1**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
3.3.1.2. Apply general Tongue and Quill principles	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.1.3. Display proper email, phone, and social media etiquette	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.1.4. Clearly communicate status during turn over	**2**							**pk**	**-**	**-**	**pk**	**-**	**pk**
3.3.1.5. Speak to an individual or audience in a clear manner	**2**	**5**						**P**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.3.1.6. Practice OPSEC through all forms of communication	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.1.7. Receive constructive feedback and takes appropriate actions	**2**							**pk**	**-**	**-**	**-**	**-**	**-**
3.3.1.8. Receive orders, guidance, and messages in a professional manner	**2**							**pk**	**-**	**-**	**-**	**-**	**-**
3.3.2. Communication (Intermediate) Required Behaviors: 1) Receives, interprets, or applies the use of information in various situations to create a cohesive work environment. 2) Organizes information from multiple sources into clear, logical, arguments that includes relevant takeaways and or assessments to influence COA development. **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*													
3.3.2.1. Apply approved technological systems to engage with and disseminate information	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.2.2. Brief at daily/weekly/monthly leadership meetings	**1**	**5**						**-**	**-**	**-**	**P**	**-**	**-**
3.3.2.3. Refine ability to speak in front of a group of people	**1**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
3.3.2.4. Identify and select optimal forms of communication to ensure successful messaging (e.g. oral, visual, and written, etc.)	**1**							**pk**	**-**	**-**	**-**	**-**	**-**
3.3.2.5. Identify and apply conflict management resolution techniques based on the situation	**2**							**pk**	**-**	**-**	**pk**	**-**	**-**
3.3.2.6. Seek out relevant data within time constraints to communicate decisions	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.2.7. Evaluate situation to develop and communicate courses of action	**2**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.3.3. Communication (Advanced) **Required Behaviors:** 1) Leverages communication strategies and methods to develop effective teams. 2) Creates written and oral communication with facts and references to advise planning and to inform decision making. 3) Responds to impromptu requests and questions in collaborative forums in order to represent mission or organization. 4) Interprets commander's intent and communicates direction to focus mission execution. **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*													
3.3.3.1. Recognize differences and similarities in target audience and adjusts delivery to ensure proper communication	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.2. Adapt messaging approach to clearly communicate to intended audience	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.3. Leverage emotional intelligence to overcome communication barriers (e.g., generational, cultural, socioeconomic)	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.4. Apply tactics to influence others in writing, speaking, and visual means	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.5. Utilize and explain SBAR at all levels	**2**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
3.3.3.6. Interpret complex messages into actionable items	**3**							**-**	**-**	**-**	**pk**	**-**	**-**
3.3.3.7. Anticipate and adapt to constraints by creating alternate communication means	**3**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.8. Tailor complex information in a simplified manner (e.g. < 5 min, elevator speech)	**4**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.3.9. Deliver orders, guidance, and messages in a professional manner	**4**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
3.3.4. Communication (Expert) **Required Behaviors:** 1) Develops messages to senior leadership and other external organizations to convey mission constraints and requirements. 2) Creates original products or communications models to convey complex information with key audiences. 3) Develops communication strategies to produce desired effect across diverse audiences. 4) Coaches, mentors, and guides others to advance strategic communication techniques. **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*													
3.3.4.1. Provide reliable, timely feedback with field support questions	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.4.2. Disseminate guidance of strategic messaging	**1**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.4.3. Seek industry best practices to inform 4D communication efforts	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.4.4, Centralize lines of communication across the enterprise	**2**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.4.5. Deliver periodic meetings for information sharing	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
3.3.4.6. Review and critique communication	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
3.3.4.7. Provide feedback to others on overcoming cognitive biases	**4**							**-**	**-**	**-**	**-**	**-**	**-**
3.3.4.8. Advocate for resources to strengthen communication techniques	**4**							**-**	**-**	**-**	**-**	**-**	**-**
4. READINESS													
4.1. READINESS **Description:** The preparation and assessment of personnel to perform their full-scope of duties in expeditionary and peacetime operations. **Supporting Competencies:** *Resource Management, Communication, Resilience, Flexibility*													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
4.1.1. Readiness (Basic) **Required Behaviors:** 1) Maintains world-wide deployable status by completing readiness requirements to meet mission needs. 2) Establishes personal contingency plan for both long-term and short- term absences that ensures family individual readiness. 3) Prepares equipment for mobilization within an assigned tasking while meeting established timelines. **Criteria:** *Impact on specific workplace tasks*													
4.1.1.1. Complete minimum essential training and certification to meet assigned UTC requirements	**1**	**5**						**-**	**-**	**-**	**pk**	**-**	**-**
4.1.1.2. Identify and explain force presentation constructs (AFFORGEN) and UTC management	**1**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
4.1.1.3. Complete all required AF and personal readiness items (i.e., IMR, SGLI, Power of Attorneys, Wills)	**2**	**5**						**-**	**-**	**-**	**P**	**-**	**-**
4.1.1.4. Coordinate with outside agencies for evacuation protocols	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.1.5. Acquire Air Force readiness items to maximize capabilities based on mission requirements	**3**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.1.6. Attend proper UTC readiness training	**3**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.2. Readiness (Intermediate) **Required Behaviors:** 1) Executes equipment mobilization process ensuring all requirement are met. 2) Verifies personnel are equipped with deployment supplies to support mission requirements. 3) Utilizes required information systems (e.g. MRDSS, AHLTA-T, e- DRC, etc.) to meet taskings requirements. **Criteria:** *Impact on specific workplace projects*													
4.1.2.1. Assess readiness of personnel and equipment	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.2.2. Posture military capabilities	**1**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
4.1.2.3. Report readiness of personnel and equipment	**2**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.2.4. Coordinate with base agencies to attain equipment	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.2.5. Conduct capabilities assessment of units ability to accomplish mission essential tasks list (METL)	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.2.6. Articulate correlation between unit manpower document (UMD) authorizations and UTC availability (UTA)	**3**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.2.7. Utilize electronic health record (EHR) to accomplish duties	**3**	**5**						**pk**	**-**	**-**	**-**	**-**	**-**
4.1.3. Readiness (Advanced) **Required Behaviors:** 1) Manages equipment and personnel mobilization process to ensure taskings requirements are met while maintaining home station capabilities. 2) Scrutinizes unit personnel readiness requirements to identify deployers that can fulfill tasking needs. 3) Resolves contingency and exercise tasking reclamas and shortfalls with available resources to meet CCDR and AOR requirements. **Criteria:** *Impact on management decisions*													
4.1.3.1. Review and update UTCs, MISCAP	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.3.2. Resolve tasking problems	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.3.3. Validate for accuracy unit designed operational capabilities (DOC) statements	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.3.4. Manage unit UTCs	**2**							**-**	**-**	**-**	**-**	**-**	**pk**
4.1.3.5. Forecast and communicate to UDM to ensure proper turn over	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.3.6. Identify and explains connections between UTA, TPFDD, and UTC assessments	**3**							**-**	**pk**	**-**	**-**	**-**	**-**
4.1.3.7. Resolve shortfalls, reclamas, and UIC changes	**3**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
4.1.4. Readiness (Expert) **Required Behaviors:** 1) Analyzes readiness trends and creates policy and guidance to meet posturing joint readiness requirement. 2) Validates and establishes unit type code requirements based on current and future mission requirements. 3) Conducts site visits to validate that operations are aligned with strategic priorities and Comprehensive Medical Readiness Program (CMRP) requirements. 4) Develops CMRP training tasks to maintain force readiness. **Criteria:** *Impact on AF-level practices/within industry*													
4.1.4.1. Determine which UTCs to posture based on joint operational needs	**1**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.4.2. Assimilate MAJCOM risk assessments to recommend the mitigation strategy based on applicable MAJCOM risk assessments	**1**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.4.3. Manage 4D MCA in a medic- x environment	**2**	**7**						**-**	**-**	**-**	**-**	**-**	**pk**
4.1.4.4. Perform UTC development, management, and maintenance	**2**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.4.5. Conduct joint site visits to ensure readiness is aligned with strategic priorities and CMRP	**3**							**-**	**-**	**-**	**-**	**-**	**-**
4.1.4.6. Align 4D operations with joint environment capabilities (MOU/MOA, interservice agreements, etc.)	**3**	**7**						**-**	**-**	**-**	**-**	**-**	**-**
4.1.4.7. Validate CMRP requirements in AF readiness system (i.e. MRDSS)	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
4.1.4.8. Review and recommend changes for MET/METL	**4**							**-**	**-**	**-**	**-**	**-**	**P**
5. INTEGRATED CLINICAL NUTRITION SERVICE													

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
5.1. INTEGRATED CLINICAL NUTRITION SERVICE **Description:** The ability to provide nutritional support to warfighters in order to maximize cognitive and physical performance while minimizing illness and injuries within embedded environments. **Supporting Competencies:** *Communication, Flexibility, Creative Thinking, Fosters Innovation*													
5.1.1. Integrated Clinical Nutrition Service (Basic) **Required Behaviors:** 1) Acclimates to embedded population to support organizational demands. 2) Utilizes standardized human performance programs and platforms (OPSS, G4G, H2F, MyPlate, etc.) to ensure uniformity, quality of care, and consistent messaging. 3) Utilizes physical and nutrition documentation, and body composition equipment to triage acute injuries and establish wellness goals. 4) Employs resiliency techniques (e.g. RTA, MRT, etc.), to assist in triage and enable warfighters to overcome perceived barriers to nutritional fitness including psycho-social and environmental factors. **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*													
5.1.1.1. Identify population needs	**1**							-	-	-	**pk**	-	-
5.1.1.2. Build rapport with assigned unit	**1**							-	-	-	-	-	-
5.1.1.3. Gather resources associated with population demands	**2**							-	-	-	**pk**	-	-
5.1.1.4. Utilize a standardized training plan for technicians	**2**							-	-	-	**pk**	-	-
5.1.1.5. Implement standardized training plan	**2**							-	-	-	-	-	-
5.1.1.6. Test the technicians for retained knowledge	**2**							-	-	-	-	-	-
5.1.1.7. Determine test parameters for pass or fail	**2**							-	-	-	-	-	-

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
5.1.1.8. Utilize appropriate databases to document data	**3**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.1.9. Identify risks to provide individualized wellness plans (to include, body composition, urine specific gravity, etc.)	**3**							**-**	**-**	**-**	**pk**	**-**	**P**
5.1.1.10. Coordinate further medical treatment with multi-disciplinary teams	**4**							**pk**	**-**	**-**	**pk**	**-**	**-**
5.1.1.11. Employ the technician to utilize the new skillset	**4**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.1.12. Utilize resiliency skills sets to support warfighters	**4**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.2. Integrated Clinical Nutrition Service (Intermediate) **Required Behaviors:** 1) Establishes relationships with target audience and collaborates with multi-disciplinary teams to optimize operational and expeditionary demands. 2) Tailors wellness interventions to fit the needs of target audience. 3) Creates milestones utilizing the body composition findings to establish continuity of care. 4) Recommends behavioral modifications based on change management theory to increase total force readiness. **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*													
5.1.2.1. Strengthen relationship with target audiences and analyze data	**1**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.2.2. Tailor a wellness plan for multiple teams	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
5.1.2.3. Create a baseline assessment of wellness and nutritional background for unit	**2**							**-**	**-**	**-**	**pk**	**-**	**pk**
5.1.2.4. Assess for nutritional gaps within an organization	**2**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.2.5. Complete an initial body composition assessment	**3**	**5**						**-**	**-**	**-**	**P**	**-**	**-**
5.1.2.6. Review data from body composition assessment	**3**	**5**						**-**	**-**	**-**	**P**	**-**	**-**
5.1.2.7. Reassess body composition data upon follow-up	**3**	**5**						**-**	**-**	**-**	**P**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
5.1.2.8. Initiate an individualized follow-up with member	**4**	**7**						**-**	**-**	**-**	**-**	**-**	**P**
5.1.2.9. Apply motivational interviewing techniques to influence change management	**4**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.3. Integrated Clinical Nutrition Service (Advanced) **Required Behaviors:** 1) Assesses behavior patterns to establish multi-disciplinary approach to preventative care. 2) Liaises with command teams of embedded units to establish focus Lines of Efforts (LOEs). 3) Establishes follow-up procedures with embedded units to validate targeted intervention. **Criteria:** *Depth of Knowledge: New practices of all workplace elements*													
5.1.3.1. Assess unit for behavior patterns to implement multi- disciplinary approach	**1**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.3.2. Establish metrics and evaluate trends (location, work environment, etc.)	**1**							**-**	**-**	**-**	**-**	**-**	**pk**
5.1.3.3. Recommend intervention plan to command team involving the multi-disciplinary team	**2**							**-**	**-**	**-**	**-**	**-**	**pk**
5.1.3.4. Establish buy-in relationship with the command teams	**2**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.3.5. Evaluate Lines of Effort for a positive correlation in data	**3**							**-**	**-**	**-**	**-**	**-**	**pk**
5.1.3.6. Establish a follow-up procedure with the targeted intervention	**3**							**-**	**-**	**-**	**-**	**-**	**-**
5.1.3.7. Advocate and standardize COA into embedded unit's training plan	**2**							**-**	**-**	**-**	**-**	**-**	**-**

1. Tasks, Knowledge, and Technical References	2. Behavior Match. Core Tasks Wartime Tasks		3. Certification for OJT					4. Proficiency Codes Used to Indicate Training/Information Provided					
			A	B	C	D	E	A 3-Skill Level		B 5-Skill Level		C 7-Skill Level	
	A BM	B Core Task	Tng Start	Tng Complete	Trainee Initials	Trainer Initials	Certifier Initials	(1) Course	(2) CDC	(1) Course	(2) CDC	(1) Course	(2) CDC
5.1.4. Integrated Clinical Nutrition Service (Expert) **Required Behaviors:** 1) Collaborates with industry, Market Place, MAJCOMs, and DHA to influence nutrition evidence-based research for integrated operational support. 2) Creates policy for innovative solutions to meet the needs of specific population human performance and warfighter demands. **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*													
5.1.4.1. Collaborate with stakeholders (Joint, industry partners, MAJCOMs, etc.) in appropriate area of expertise	**1**							-	-	-	-	-	-
5.1.4.2. Analyze evidence-based research directly correlated to areas of improvement	**1**							-	-	-	-	-	**pk**
5.1.4.3. Create a standardized policy and documentation across the career field	**2**							-	-	-	-	-	-
5.1.4.4. Determine if there is a positive correlation in data upon the new processes being implemented	**2**							-	-	-	-	-	-
5.1.4.5. Evaluate which processes will be maintained versus discontinued	**2**							-	-	-	-	-	-

Technical Reference (TR) Source Summary for STS 4D0X1, Diet Therapy

List of commercial and government publications

Note. Most commercial training references are typically listed in the following format: Author(s), year of publication, title, edition (if applicable), and publisher. Some non-government publications published by organizations are updated quite often, and these may not include edition numbers, year of publication, or an author. Government publications are listed per that department's naming convention. Later or earlier editions of the same publications are acceptable after evaluation. For the purposes of this CFETP, the terms "Technical Reference" and "Training Reference" (TR) are synonymous. Since the number of TRs are excessive, they are all listed here by section and will not be repeated in the actual STS table. For each section of this STS, these TRs apply to all skill levels.

Section 1. Resilience and Human Performance

2024 Military Health System Specific Coding Guidelines
AFI 10-201, *Force Readiness Reporting*
DHA Policy Memorandum 23-009, *Nutritional Medicine Subsistence and Meal Accounting*
DoDI 6055.01, *Safety and Occupational Health*
DoDI 6130.06, *Dietary Supplements in the DoD*
DoDI 1322.24, *Medical Readiness Training*
Krause's Food & the Nutrition Care Process
Nutrition Care Manual
Understanding Normal & Clinical Nutrition

Section 2. Operational Oversight

DAFI 36-2406, *Officer and Enlisted Evaluations Systems*
AFI 10-201, *Force Readiness Reporting*
AFI 38-101, *Manpower and Organization*
AFMAN 34-240, *Appropriated Funds Food Service Program Management*
DAFI 64-117, *Government Purchase Card Program*
DAFMAN 1-101, *Commander Directed Investigations*
AFMAN 44-144, *Nutritional Medicine*
Current National Defense Authorization Act (NDAA)
Nutrition Care Manual
DAFMAN 91-203, *Air Force Occupational Safety, Fire and Health Standards*
AFMAN 32-1053, *Integrated Pest Management Program*
DAFI 48-116, *Food Protection Program*
DAFI 48-117, *Public Facility Sanitation*
Tri-Service Food Code
Current Joint Commission Manual
Current ServSafe Manual

Section 3. Training and Mentorship

DAFMAN 36-2689, *Training Program*
AFH 33-337, *Tongue and Quill*
1-1 The Enlisted Force Structure

Section 4. Readiness

DAFI 41-106, *Medical Readiness Program*
AFI 10-405, *Ready Airman Training Program*
AFI 10-250, *Individual Medical Readiness*
AFTTP 3-42.71, *Expeditionary Medical Support (EMEDS) and Air Force Theater Hospital (AFTH)*

Section 5. Integrated Clinical Nutrition Service
Nutrition Care Manual, Krause's Food & the Nutrition Care Process
Understanding Normal and Clinical Nutrition
AFMAN 44-144, *Nutritional Medicine*
Operation Supplement Safety or equivalent initiative
Environment Assessment Tool Guidance

Section B – Job Qualification Standards

There are no Job Qualification Standards for this AFSC.

Section C – Course Objective List

7. Resident Courses. If a written copy of the course objectives list is required, contact Nutrition and Diet Therapy at DSN 420-5159 or write to 382 TRR/TRS (AETC Training Manager), 2931 Harney Road, JBSA-Fort Sam Houston, TX 78234. A copy will be sent to you as soon as possible.

8. Career Development Courses. Career Development Course information can be obtained from the Air Force Career Development Academy at Headquarters 2AF/A3A AFCDA Keesler AFB, MS 39534 or by contacting the Career Development Course writer/manager at DSN 591-6803.

Section D – Support Material

There are currently no support material requirements. This area is reserved.

Section E – Training Course Index

9. Purpose. This section of the CFETP identifies training courses available for the specialty and shows how courses are used by each MAJCOM in their career field training programs.

9.1 Air Force In-Residence Courses.

Course Number	Course Title	Location	User
L5ABJ4D031 01AA	Nutrition and Diet Therapy	JBSA-Fort Sam Houston, TX	Joint
L3ORP4XXX 03EA	Expeditionary Medical Support (3.0) – Health Response Team (EMEDS- HRT)	JBSA-Camp Bullis, TX	Air Force
L3ORP4XXX 01PA	Aeromedical Evacuation and Patient Staging Course (AEPSC)	JBSA-Camp Bullis, TX	Air Force
L5AZJ4D071 00AB	Advanced Nutrition Management & Accounting Course (ANMAC)	JBSA-Fort Sam Houston, TX	Air Force
L5OXO43D3 09AB	Nutritional Medicine Management and Readiness Course (NMMRC)	Multiple	Air Force
L5OXA43D4 00BB	Joint Field Nutrition Operations Course (JFNOC)	JBSA-Camp Bullis, TX	Joint

NOTE: For Other MAJCOM And FOA courses, see AETCI 36-2651.

9.2. Air Force Career Development Academy (AFCDA) Courses

Course Number	Course Title	Location	User
CDC Z4D051	Diet Therapy Journeyman	Keesler AFB, MS	Air Force
CDC Z4D071	Diet Therapy Craftsman	Keesler AFB, MS	Air Force

9.3. Courses under Development/Revision. The following courses are projected to be implemented based on this CFETP.

Course Number	Course Title	Location
TBD	Advanced Nutrition Management & Accounting Course.	JBSA-Fort Sam Houston, TX

9.4. Readiness related courses. The following readiness course is available for members in funded authorizations that are postured into the relevant standard UTCs.

Course Number	Course Title	Location
L3ATP4XX3X 00AA	Expeditionary Medical Readiness Course (EMRC)	JBSA Camp Bullis TX

NOTE: Initial medical readiness training per DAFI 41-106 chapter 4 is provided in the Expeditionary Medical Readiness Course (EMRC) in conjunction with the course of initial entry to the medical AFSC but is not formally part of the medical AFSC initial training. Instead, it has its own course number and is documented separately in MilPDS. EMRC is conducted by the 59th Training Group, JBSA Ft Sam Houston Texas. Continuing/on-going Medical Readiness training for the individual is the responsibility of each member's unit.

Section F – MAJCOM-Unique Requirements

10. PACAF unique requirements: members are required to be certified on Weight Management, Heart Healthy, Type 2 Diabetes, Prenatal Nutrition, Gestational Diabetes. Members will coordinate with the PACAF Consultant and MFM **(Exception:** Joint Base Elmendorf-Richardson)

11. Air National Guard and Air Force Reserve members are not required to be certified in weight management, heart healthy, prenatal nutrition and carbohydrate counting.

Section G – Documentation of Training

12. Work Center Training Plans. The purpose of this section is to provide guidelines to document the training of enlisted medical personnel. Training documentation helps to assess readiness capability as well as individual strengths and weaknesses. It also aids compliance with all The Joint Commission, Accreditation Association for Ambulatory Health Care, and Health Services Inspections, and other regulatory requirements as applicable. Many work centers have a Master Task Listing (MTL), a list containing all the tasks that are to be trained in a work center, and a Duty Task List (DTL), a listing containing all the tasks to be trained on in a duty position. Duty sections have a Master Training Plan (MTP) and includes this CFETP along with AF Forms 797 and 1098. The supervisor creates the MTL, DTL, and MTP.

13. myTraining. The successor system to AFTR and TRTR. Refer to your unit training manager (UTM) for the most current policies and guidance on training documentation. myTraining is integrated into myLearning applications with migrated data from legacy systems. myTraining provides a one-stop shop to record all learning, whether it occurs in a specialized training or education program, on the job or off-duty, or even training with another military service. The myTraining components are managed by the supervisor.

14. Documentation of Training. The purpose of this section is to provide guidelines and examples of proper documentation on the many forms used in training Diet Therapy personnel. Training documentation helps to assess mission capability and readiness, individual strengths and weaknesses, resources needed to support quality patient care, and defines requirements for individual career progression.

14.1. AF Form 797 is be used to record training for tasks that are not otherwise documented in the CFETP.

14.2. AF Form 1098 is used to list mandatory training requirements that may vary from facility to facility. At a minimum, these requirements should be reviewed on an annual basis and updated as required.

14.3. Qualification Training Progress Records are developed to enhance OJT. They provide the trainer with a breakdown of task performance skills to aid in performance evaluation. The evaluation of each task results in either a satisfactory or unsatisfactory score.

14.4. AF Form 623a. Use the AF Form 623a to document all progress of individual training. Document the start and completion dates of unit orientation and reference the date of the orientation checklist. In addition, document the member's entry into upgrade training, initial evaluation results, and periodic evaluations of training progress. Information on extensions, waiver requests, or breaks in training should be clearly documented. Document any decertification proceedings, to include dates, reasons for decertification, and other applicable information. Accomplish an initial evaluation when a new member arrives to the unit or when the member changes duty positions. Document all other actions pertaining to training IAW DAFMAN 36-2689, *Training Program*. **NOTE:** Consult with your UTM regarding myTraining and how to use the application to document of training.

14.5. Waiving Specialty Qualification Requirements. Qualification requirements for this specialty are published in the Air Force Enlisted Classification Directory (AFECD) and this CFETP. These requirements may be for entry, award or retention of this specialty and respective skill levels. Unique circumstances may warrant waiving certain requisites. Consideration for a waiver should not become the normal practice. However, a waiver can save training resources without affecting career field progression or mission accomplishment when an individual possesses qualifications equivalent to the established requirements.

14.6. Evaluating waiver requests. Supervisors, managers, and leaders must compare each waiver request individually and against predetermined standards in order to maintain integrity of the career field. Scrutinize the individual's task knowledge, performance, ability to learn and transfer knowledge to performance, and his/her future within the specialty in relation to peers. Waiver requests must consider the following factors:

14.7. Education. Has the individual previously completed an equivalent education or certification program (or equivalency test)? Has the individual performed duty in an exceptional manner over an extended period of time in the actual or equivalent AFS or civilian occupation?

14.8. Training. Has the individual completed an equivalent technical training course or civilian vocational training course, certification program (or equivalent test)?

14.9. Knowledge. Does the individual possess the career knowledge equivalent to current requirements?

14.10. Experience. Supporting documentation must include proof of experience, such as performance reports, training records, state or federal operating licenses, certificates of affiliation, etc.

14.11. Other. Does the individual possess the physical ability, aptitude, or qualifications that are equivalent to, or commensurate with, the established requirement?

15. Responsibilities.

15.1. Individual. Does the individual acknowledge possessing the prescribed training requirements? Trainees must understand their education and training requirements, accept responsibility for training, and document task qualification.

15.2. Supervisor. Did the commander and supervisor fulfill their obligations to the trainee and the training program? Level of support or involvement is not, by itself, justification for approving waivers – it may indicate problems in training equity or other areas.

15.3. Training system equity. This area relates to circumstances beyond a trainee's control such as the following: Were training or testing conditions abnormal? Did the training or testing system provide the best opportunity for successful completion of training requirements? Was the training or testing system flexible enough to allow for unexpected situations or conditions? Did those responsible for the training or testing program fulfill their obligations effectively? Depending on the facts, this area may warrant options other than approving a waiver.

15.4. Processing waiver requests. Process waiver requests according to DAFMAN 36-2100, *Military Utilization and Classification.*

15.5. myTraining. The first-ever enterprise designed OJT and Upgrade Training Management database. It is replacing legacy systems AFTR and TBA.

15.6. Documentation. Use the automated myTraining to document all technician qualifications. NOTE: An AFJQS may be used in lieu of Part II of the CFETP only upon approval of the AFCFM. The AFCFM may supplement these minimum documentation procedures as needed or deemed necessary for the career field.

15.7. Transcribing a new or revised CFETP. The AFCFM will provide transcription instructions in order for the record to be transcribed within myTraining. This process will be seamless to the field user as all existing trainee records will be auto transcribed.

15.8. Decertification and recertification. When an airman is found to be unqualified on a task previously certified for his/her position, the supervisor deletes the previous documented certification. Appropriate remarks are entered on the AF Form 623A, On-the-Job Training Record Continuation Sheet, identifying the reason for decertification. Upon subsequent recertification, document for any other training qualification.
